(4) It is permissible to establish a service for collecting for the addressees letters received at the post office, provided the letters remain unopened. Letters received through the mails at one office of a firm may be forwarded by surface means outside the mails without payment of additional postage so long as they remain unopened. This applies likewise to letters addressed to one firm in care of another to which they are to be forwarded. If any such letters are forwarded by air express or air freight, sufficient additional postage must be placed on each piece of mail to bring the total postage on that piece up to the air mail rate. Moreover, if the letters are opened before they are forwarded, the forwarding of the open letters would be considered a new shipment of the matter. Such forwarding will then be regarded as the transmission of letters upon which additional postage will be due, if they are intended to convey to the ultimate addressee live, current information upon which he may act, rely or refrain from acting.

PART 43—MAIL DEPOSIT AND COLLECTION

Sec.
43.1 Collection times.
43.2 Ordinary deposit of mail.
43.3 Deposit of mail with postal transportation clerks.
43.4 Mail chutes.
43.5 Separation of mail by sender.
43.6 Recall of mail.

AUTHORITY: §§ 43.1 to 43.6 issued under R. S. 161, 396, sec. 1, 24 Stat. 560, as amended; 5 U. S. C. 22, 369, 39 U. S. C. 156.

§ 43.1 *Collection times.* Mail is collected in residential and business sections served by city carriers at times to connect with mail dispatches. Mail is also collected in business sections at frequent intervals to keep boxes from becoming overloaded and to provide an even flow of mail to the post office. Patrons are urged to deposit mail as early in the day as possible. Early mailings advance delivery time.

§ 43.2 *Ordinary deposit of mail*—(a) *Post office lobbies.* Letter drops are provided in lobbies of all post offices for the deposit of mail.

(b) *Collection boxes.* Collection boxes for the deposit of mail are placed at convenient points where city letter carriers are employed. Schedules are posted on these boxes showing collection times.

(c) *Rural boxes.* Mail on which postage has been paid may be deposited for collection in mail boxes on rural routes.

§ 43.3 *Deposit of mail with postal transportation clerks*—(a) *Acceptable mail.* The following types of mail may be handed for dispatch to postal transportation clerks on duty in mail cars or transfer offices, and at airmail fields:

(1) *First-class mail.* On which postage has been paid.

(2) *Medicines and serums.* Third- or fourth-class mail, presented by representatives of manufacturers or distributors of medicines or serums, when endorsed: "Emergency—This package has been weighed and bears necessary postage. Any additional postage found to be due is guaranteed by sender."

(b) *Restrictions.* Second-, third-, and fourth-class mail, other than that described in paragraph (a) of this section, and mail to be sent registered, insured, or c. o. d., is not mailable with postal transportation clerks at mail cars, transfer offices, or airmail fields.

§ 43.4 *Mail chutes.* Mail chutes and receiving boxes may be placed, subject to the approval of the postmaster, in public buildings, railroad stations, hotels, and office buildings of not less than four stories in height, and apartment houses with not less than 40 residential apartments. Mail chutes must conform to the requirements in the pamphlet containing mail-chute rules, regulations, and specifications, copies of which may be secured through the postmaster.

§ 43.5 *Separation of mail by sender.* Patrons having large mailings should separate them into packages marked "Local" and "Out of Town." Labels with these designations, Form 1500, may be secured from the post office. Mail thus separated is usually dispatched earlier.

§ 43.6 *Recall of mail*—(a) *Who may recall mail.* Mail deposited in a post office may be recalled by the sender, by the parent or guardian of a minor child, or by the guardian of a person of unsound mind.

(b) *Application.* Submit Mail Recall Application, Form 1509, which is obtainable at any post office, to the postmaster at the office of mailing.

(c) *Expenses.* You must pay all expenses of recalling mail, including the cost of any necessary telegrams, and the regular rate of return postage (except for first-class mail, which is returned with additional postage), when the mail is returned.

(d) *Notification.* If the mail has been delivered before receipt of the recall application or message, you will be notified. The addressee will not be informed that recall was requested.

(e) *Original postage.* If mail recalled before dispatch is again presented for mailing, the original stamps will be accepted for postage at face value. This does not apply to stamps in payment of registry, insurance, or c. o. d. fees.

PART 44—CONDITIONS OF DELIVERY

Sec.
44.1 Delivery to persons.
44.2 Delivery of addressee's mail to another.
44.3 Jointly addressed mail.
44.4 Delivery to public and private officials.
44.5 Delivery of mail addressed to incorporated and unincorporated firms.
44.6 Delivery of mail addressed to persons at firms, hotels, institutions, schools, etc.
44.7 Conflicting orders by two or more parties for delivery of same mail.
44.8 Delivery of packages.

AUTHORITY: §§ 44.1 to 44.8 issued under R. S. 161, 396, secs. 304, 309, 42 Stat. 24, 25; 5 U. S. C. 22, 369.

§ 44.1 *Delivery to persons*—(a) *Delivery to addressee.* The addressee may control delivery of his mail. In the absence of a contrary order, the mail is delivered as addressed. Mail addressed to several persons may be delivered to any one of them. Where a person claiming to be the addressee of certain mail is unknown to the postmaster, the mail may be withheld pending identification of the claimant.

(b) *Delivery to persons having similar names.* Unless persons with similar names adopt some means to distinguish their mail, postmasters will use their judgment in making delivery.

(c) *Mail delivered to wrong person.* A person receiving mail not intended for him should promptly return it to the post office endorsed "Opened by Mistake" with his signature.

(d) *Pension mail.* Delivery of pension mail may not be made to an attorney, claim agent, or broker, even though the addressee orders such delivery.

(e) *Mail marked in care of another.* Mail marked "In Care of" another is delivered to the first of the two persons named who may call for it; or to the address of the person in whose care it is directed in the absence of instructions from the addressee.

§ 44.2 *Delivery of addressee's mail to another*—(a) *Delivery to addressee's agent.* A person or number of persons may designate an agent to receive their mail. Unless otherwise directed, an addressee's mail may be delivered to his servant or member of his family. Ordinary mail bearing the word "Personal" is delivered as other mail for the addressee.

(b) *Delivery of mail to minors.* A minor's guardian may control delivery of mail addressed to the minor. If there is no guardian, and the minor is unmarried, then the father or, if he is dead, the mother may receive delivery of the minor's mail.

(c) *Delivery of mail to incompetents.* Where a person has been legally declared an incompetent, his mail may be delivered in accordance with the order of his guardian or conservator. Where there is no legal representative, the mail is delivered as addressed.

(d) *Mail addressed to deceased persons.* Mail addressed to deceased persons may be delivered to the executor or administrator. When there will be no court action on the deceased's estate, the mail may be delivered as agreed upon by all the heirs.

§ 44.3 *Jointly addressed mail*—(a) *Delivery of jointly addressed mail.* Where mail is jointly addressed, for example, "Mr. and Mrs. John Doe," "John and Jane Doe," neither party can control delivery of such mail over the objection of the other. But that mail is delivered as addressed by the senders so long as one of the parties can receive it there.

(b) *Delivery of mail addressed to husbands and wives.* Neither party may control delivery of mail addressed to the other. In the absence of instructions from the wife, her mail is placed with the husband's and delivered to him with his own.

§ 44.4 *Delivery to public and private officials.* Mail addressed to a public or private official by his official title is delivered to the person actually holding such office. If the mail does not specify his title, then it is delivered in accordance with the person's order.

§ 44.5 *Delivery of mail addressed to incorporated and unincorporated firms.* (a) Mail addressed to corporations is delivered as addressed or to an authorized agent. In cases where disagreement arises among corporate officers and others connected with the company, the mail is delivered in accordance with the order of the president of the corporation.

(b) Mail addressed to unincorporated firms or partnerships is delivered as addressed so long as the business is being conducted under the same name at the same address despite some members of the firm breaking off relations.

§ 44.6 *Delivery of mail addressed to persons at firms, hotels, institutions, schools, etc.* (a) Mail addressed to patients or inmates at institutions, unless otherwise directed by the addressee, is delivered to the institution authorities, who in turn will deliver the mail to the addressee in accordance with the institution's rules and regulations.

(b) Mail addressed to persons at firms, hotels, schools, and similar places is delivered with the other mail directed to the firm, hotel, or school, unless otherwise ordered by the addressee. If the addressee is no longer at that address, the mail should be redirected to the addressee's current address. If the forwarding address is unknown, the mail should be returned to the post office.

§ 44.7 *Conflicting orders by two or more parties for delivery of same mail*—(a) *Delivery to receiver.* Where persons make conflicting orders for delivery of the same mail, and they are unable to agree among themselves as to which of the parties may receive the mail, the mail may be delivered to a named receiver or third party unanimously agreed upon by the disputing parties.

(b) *Reference to solicitor for ruling.* Where the disputing parties are unable to agree upon a receiver, each party shall furnish the postmaster all available evidence on which he relies to exercise control over the disputed mail. If after receipt of such evidence the postmaster is still in doubt as to who should receive the mail, the potsmaster will submit the case to the Solicitor for a ruling.

(c) *Delivery of mail in accordance with court order.* When the same mail is claimed by different persons, and a court decides to whom delivery should be made, the mail will be delivered in accordance with the court order.

§ 44.8 *Delivery of packages*—(a) *Heavy or bulky packages.* Heavy or bulky packages of any class will be delivered as addressed if facilities are available.

(b) *Unprotected places.* Parcels will not be left on porches, steps, or elsewhere unprotected, except on the written order of the patron.

(c) *Multiple-floor buildings.* Parcel post, registered, insured, and special-delivery articles will be delivered to the addressee or his authorized agent in person without regard to the floor on which his office or apartment is located. Cooperation of patrons is requested, however, in making arrangements for mail to be delivered on the first floor.

(d) *Second-attempt delivery.* If an ordinary parcel fails of delivery on the carrier's first attempt, a notice will be left at the address indicating that the parcel is being held awaiting call at the post office or carrier delivery station. A second attempt will be made only if requested by the addressee.

(e) *Street-address delivery for box renters.* Parcel post mail for patrons residing within the city delivery limits who receive mail through rented boxes will be delivered to a designated street address by carrier upon written request.

PART 45—CITY DELIVERY

Sec.
45.1 Establishing city delivery.
45.2 Extension of city delivery.
45.3 Submission of petitions.
45.4 Mail receptacles.
45.5 Out-of-bounds patrons.

AUTHORITY: §§ 45.1 to 45.5 issued under R. S. 161, 396, sec. 1, 24 Stat. 355, 36 Stat. 911; 39 U. S. C. 151, 152.

§ 45.1 *Establishing city delivery.* City delivery service may be established at any post office with postal receipts of at least $10,000 for the preceding fiscal year and having a population of approximately 2,500 living within territory possessing good continuous sidewalks, surfaced streets, house numbers, street signs, and mail receptacles or door slots. The territory must also be 50 percent improved with houses. When two or more building lots constitute the grounds of one residence, the plot may be regarded as improved. Where all other requirements are met, that regarding sidewalks is waived if there are suitable walks from streets to houses. Walks of any material, including gravel and cinders, that render them passable throughout the year are acceptable.

§ 45.2 *Extension of city delivery.* To extend existing city delivery service to new areas, 50 percent of the proposed new territory must be improved with houses, and meet the other requirements for the establishment of city delivery.

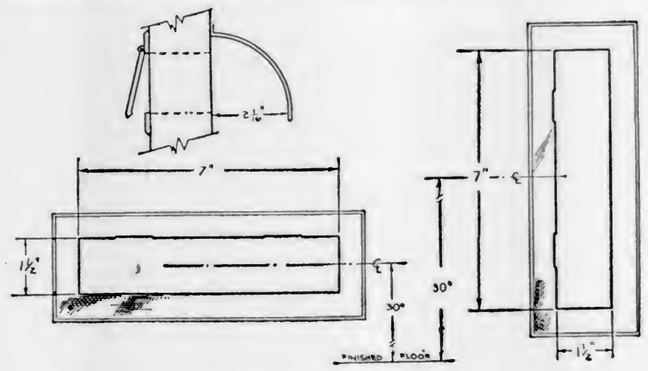
§ 45.3 *Submission of petitions.* Requests or petitions for the establishment, change, or extension of city delivery service must be addressed to the local postmaster. No formal petition is prescribed.

§ 45.4 *Mail receptacles*—(a) *Obligation of patron.* Patrons of the carrier-delivery service must provide mail receptacles or door slots. Business houses are not required to provide mail receptacles or door slots if they are open and someone is on hand to receive the mail when the carrier calls. Where an office building is equipped with an elevator, carriers will deliver to individual offices, provided they are open when the carrier arrives. If they will not be open, mail receptacles or door slots must be provided.

(b) *Door slot specifications.* The clear rectangular opening in the outside slot plate must be 1½ inches wide, and 7 inches long. The slot must have a flap, hinged at the top if placed horizontally, and hinged on the side away from the hinge side of the door if placed vertically. When a hooded plate is used inside to provide greater privacy, the bottom line of the hooded portion must not be more than ¾ inch below the bottom line of the slot in the outside plate, if placed horizontally, or more than ¾ inch beyond the side line of the slot in the outside plate nearest the hinge edge of the door, if placed vertically. The hood at its greatest projection must not be less than 2 1/16 inches beyond the inside face of the door. Door slots must be placed not less than 30 inches above the finished floor line.

(c) *Apartment-house mail receptacles.* Apartment-house mail receptacles must conform to the apartment-house receptacle pamphlet, which may be secured through the postmaster. One receptacle should be provided for each apartment in apartment houses, family hotels, and flats containing three or more apartments, except where the management has arranged that mail for the tenants be delivered at the office or desk for distribution by its employees. Directory boards, showing the names of all persons receiving mail, should be provided in apartment houses where there are 25 or more receptacles.

§ 45.5 *Out-of-bounds patrons.* Patrons located outside city-delivery limits may be given delivery service if they erect boxes on the carrier's regular line of travel. Special delivery, parcel post, insured, c. o. d., and registered mail will be delivered to the residences of out-of-bounds patrons, if the residences are not more than three blocks from the carrier's line of travel, and provided walks have been constructed or the street is not impassable; otherwise, a notice will be left in the box requesting that the patron call for the mail. If an ordinary parcel is involved and it can be placed in the box, delivery will be made in that manner.



PART 46—RURAL SERVICE

46.1 Rural stations.
46.2 Delivery routes.
46.3 Carrier service.
46.4 Payment of postage.
46.5 Rural boxes.
46.6 Postal maps.

AUTHORITY: §§ 46.1 to 46.6 issued under R. S. 161, 396, sec. 1, 39 Stat. 4; 39 U. S. C. 191, 192.

§ 46.1 *Rural stations*—(a) *Establishment.* Rural stations are established and maintained in communities where a considerable number of people would be seriously inconvenienced if required to transact postal business with rural or star route carriers only, and where it is determined inadvisable to establish post offices.

(b) *Functions.* Rural stations dispatch, receive and deliver mail, issue money orders, register mail, and sell stamps.

(c) *Hours.* Rural stations are open during ordinary business hours each weekday, except holidays.

(d) *Treatment of mail.* Mail addressed to a rural station will be retained there to be called for, unless the addressee is a patron of a rural route starting from the station, or of a contiguous route, in which case the mail will be delivered to the patron's box by the carrier.

§ 46.2 *Delivery routes*—(a) *Establishment.* A majority of the patrons who are heads of families residing on a proposed rural route may by written petition ask the Post Office Department to establish a route.

(b) *Road conditions.* Roads on which rural delivery service is desired must be in good condition and so maintained, unobstructed by gates. There must be no unbridged streams not fordable at all seasons of the year.

(c) *Obstructions to travel.* Patrons and roads supervisors or officials in charge of highways will be notified on Form 4024 of road conditions obstructing the delivery of mail. If repairs are not made promptly, the postmaster will report the facts to the Assistant Postmaster General, Bureau of Post Office Operations, with his recommendation for a change in the route to withdraw it from impassable or unsuitable roads.

(d) *Multiple routes.* A patron residing on a road traveled by two or more rural carriers may select the carrier by whom he prefers to have his mail delivered and collected, in which case only the designated carrier will handle his mail. Unless such selection is made by the patron, each carrier passing the box will deliver mail to it and collect from it any mail that he can expedite in dispatch or delivery, provided the box is on the right-hand side of the road as traveled by the carrier.

(e) *Star-route delivery.* Patrons living on or near a star route, where the contract calls for box delivery and collection service, and not within the corporate limits of any town nor within one-fourth mile of any post office, may have their mail deposited on the line of the star-carrier route in a box erected so that the carrier may deliver and collect mail without dismounting from his vehicle. Star-route carriers are agents of the patrons for whom they deliver and collect mail along their routes and are not employees of the Postal Service. Persons residing on roads traveled by both rural and star-route carriers may qualify as patrons of either or both routes.

§ 46.3 *Carrier service*—(a) *Availability.* Rural carrier service is provided to persons who erect approved boxes on the line of travel of the rural carriers, except those residing within city-delivery limits.

(b) *Parcel delivery.* Rural carriers will deliver outside of boxes parcel-post packages that are too large to go in the boxes, provided the addressees have filed with the postmaster written orders for delivery in this manner. The written order must provide that the Post Office Department and the carriers are relieved of all responsibility in case of loss or depredation. Where a patron lives within hailing distance of a route, the carrier will, before making delivery in this manner, make a reasonable effort to hail the patron so that he may come to the mail box to receive the parcel.

(c) *Contagious disease.* A rural carrier will deliver mail to the box of a patron in whose family a contagious disease exists, when this can be done without exposure to contagion; but no mail other than first-class mail or printed matter will be collected from such box while the quarantine is in force.

(d) *Withdrawal of service.* Service will not be withdrawn from any box without specific authority from the Post Office Department in Washington.

§ 46.4 *Payment of postage*—(a) *Acceptance of mail.* A rural carrier will accept any mailable matter tendered to him, provided the postage is fully prepaid or money equal to the required postage is furnished, unless the purpose of thus handing mail to the carrier for deposit into one office is to "boycott" another office or deprive it of legitimate revenue. When a rural carrier finds unstamped mail in a patron's box and the requisite amount of money for postage, he will collect the mail and money and pay the necessary postage, provided the money is properly wrapped, is in a coin-holding receptacle, or is attached to the mail by means of a clip or other suitable fastener.

(b) *Postage uncertain.* When matter is tendered to a rural carrier for mailing, and he is unable to determine the postage, he will accept from the sender an amount sufficient to insure full payment of postage and return to the sender on the next trip any excess amount collected.

(c) *Insufficient postage.* When mailable matter is deposited in a box for dispatch and the required postage has not been paid or sufficient money left for the purchase of stamps, the rural carrier will, when the identity of the sender is known, place in the box a notice that such matter cannot be dispatched until the necessary postage is paid. If the identity of the sender is unknown, the matter will be taken to the post office and treated as unpaid mail. (See §§ 21.4, 24.4, 25.4, and Part 37 of this chapter.)

(d) *Unpaid mailable matter in box.* When a rural carrier finds in a rural box mailable matter on which postage has not been paid, addressed to or intended for the person in whose box it is deposited, the carrier will take such matter to the post office to be held for postage.

§ 46.5 *Rural boxes*—(a) *Specifications.* There are two approved sizes of mail boxes for use on rural routes. Size 1 is approximately 19 inches long, 6½ inches wide, and 8½ inches high. Size 2 is approximately 23½ inches long, 11½ inches wide, and 13½ inches high. New boxes must have been constructed by authorized manufacturers in accordance with official specifications and drawings which may be obtained from the Assistant Postmaster General, Bureau of Post Office Operations, Washington 25, D. C. The following list includes manufacturers of mail boxes whose samples have been approved:

Akron Metal Sales Co., Post Office Box 275, Hartville, Ohio.

American Metal Works, Post Office Box 547, New Orleans 1, La.

Cincinnati Pump & Manufacturing Co., 117 East Liberty Street, Cincinnati 10, Ohio.

Dayton Plastic & Metal Stampings, 321 North Western Avenue, Post Office Box 852, Dayton 7, Ohio.

The Deshler Mail Box Co., 101 East Maple Street, Deshler, Ohio.

Inland Steel Products Co., Post Office Box 393, Milwaukee 1, Wis.

Montgomery Ward & Co., 619 West Chicago Avenue, Chicago 10, Ill.

Northwest Metal Products, Inc., 55 Spokane Street, Seattle 4, Wash.

Northwestern Mail Box Co., 2655–2723 Spruce Street, Saint Louis 3, Mo.

Phillips & Buttorff Mfg. Co., 217–223 Third Avenue North, Nashville 3, Tenn.

Reed Engineering & Manufacturing Co., Thirteenth and John Streets, Newport, Ky.

Reynolds Metals Co., 2000 South Ninth Street, Louisville 1, Ky.

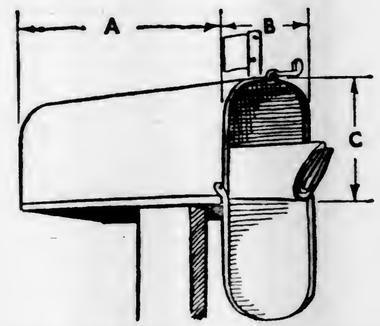
Sears, Roebuck & Co., Department 609, Chicago 7, Ill.

Superior Sheet Metal Works Co., 3201–3–5–7–9 Roosevelt Avenue, Indianapolis 1, Ind.

United States Steel Products Co., Boyle Manufacturing Division, 5100 Santa Fe Avenue, Los Angeles 11, Calif.

J. E. Weatherford & Son Tool & Die Co., 115 North Fourth Street, Nashville, Tenn.

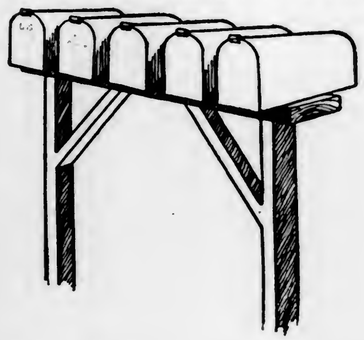
(b) *Painting and identification.* Rural mail boxes should be painted white, but aluminum paint is permissible. Posts or supports should also be painted white, but may be of the same color scheme as guard rails on main highways. The name of the owner of each box must be inscribed in neat black letters about 1 inch high on the side of the box that is visible to the carrier as he regularly approaches, or on the door if boxes are grouped. Advertising on boxes or supports is prohibited.



(c) *Posts and supports.* No special designs of posts or supports have been adopted. The use of supports intended to represent figures or mechanical objects is prohibited. Posts or other supports must be of neat design; may be of wood, metal, or concrete, of suitable strength and dimensions; and may be either round or square, plain or ornamental, with or without fixed or movable arm. A receptacle for newspapers, not restricted to any one paper, may be placed above the mail box if it will not obstruct the view of the flag or present a hazard to the carrier.

(d) *Location.* Rural boxes must be placed so that they may be conveniently served by carriers without leaving their conveyances, and must be located on the right-hand side of the road in the direction of travel of the carriers in all cases where traffic conditions are such that it would be dangerous for the carriers to drive to the left in order to reach the boxes, or where their doing so would constitute a violation of traffic laws and regulations. On new rural routes all boxes must be located on the right of the road in the direction of travel of the carrier. Boxes must be placed to conform with State laws and highway regulations. Patrons must remove obstructions, including snow, that make delivery difficult.

(e) *Grouping.* Boxes should be grouped wherever possible, especially at or near cross roads or at other places where a considerable number of boxes are located. A simple and practicable support consists of a board erected on firmly planted posts, with the shelf on which the boxes are placed about 3½ to 4 feet above the ground.



(f) *More than one family.* More than one family, but not more than five families, may use the same box, provided a written notice of agreement, signed by the heads of the families, or by the individuals who desire to join in the use of such box, is filed with the postmaster at the distributing office.

(g) *Locks.* The use of locks on boxes is not required. If patrons provide locks, the keys should be delivered only to the postmaster, who will assign them to the carrier. The carrier will unlock and lock the boxes when serving them. To facilitate the carrier's work, patrons should, as far as practicable, adopt locks for each route of such pattern that a master key may be provided the carrier for unlocking the boxes.

(h) *Unstamped newspapers.* Rural boxes are to be used for mail only, except that publishers of newspapers regularly mailed as second-class mail may, for Sundays and National holidays only, place copies of the Sunday or holiday issues in the rural and star-route boxes of subscribers, with the understanding that copies will be removed from the boxes before the next day on which mail deliveries are scheduled.

(i) *Boxes that do not conform to regulations.* Rural carriers will report to postmasters any boxes that do not conform to the regulations, and send to the owners of these boxes Form 4056 requesting that the irregularities or defects be remedied.

§ 46.6 *Postal maps*—(a) *Content of maps.* Every rural delivery route in the United States is shown either on a county or a local road map on which the roads traveled by rural carriers are plainly indicated. The sites of post offices are shown, and houses, schools, and churches are located from the latest survey data available at the time the map was originally drawn.

(b) *County maps.* Where much of the area of a county is covered by rural delivery service and adequate survey data are available, a county map is available showing all routes emanating from post offices within the county. (See paragraph (d) of this section.)

(c) *Local maps.* Local maps show rural delivery routes not included on any county map. Each local map covers the area served from an individual post office. Many of these maps are based on land surveys, but where such basic information was not available the maps have been drawn from sketches furnished by postal inspectors, postmasters, and other sources.

(d) *Index to rural maps.* To determine which type of map is available for a particular county, refer to the County List in the Postal Guide, Part I.

(e) *Purchase of maps.* Rural delivery maps may be ordered from the Division of Postal Funds, Post Office Department, Washington 25, D. C. The price of county maps is 55 cents each, and of local maps 45 cents. Maps are folded for mailing unless unfolded maps are specifically requested. Payment for postal maps must be made in advance by money order or certified check. Postage stamps are not acceptable.

(f) *Current status of maps.* No attempt is made to keep maps current on items other than postal data. Copies furnished are prints of the original maps that are revised from time to time as changes in the line of travel are authorized. It is not possible to keep all originals up to date at all times, and no assurance can be given that any map purchased will show the latest changes in service.

PART 47—FORWARDING MAIL

Sec.
- 57.1 Order to change address.
- 57.2 Time limit of order.
- 57.3 Forwarding postage.
- 57.4 Address changes of persons in U. S. service.
- 57.5 Forwarding due to change in post office service.
- 57.6 Reforwarding.
- 57.7 Guarantee to pay forwarding postage.

AUTHORITY: §§ 57.1 to 57.7 issued under R. S. 161, 396, sec. 1, 64 Stat. 210; 5 U. S. C. 22, 396, 39 U. S. C. 278a.

§ 47.1 *Order to change address*—(a) *Ordinary mail.* To have mail delivered to a new address, the file Form 22, Order to Change Address, which is available at any post office or from any carrier. A written and signed order or a telegram is acceptable. The order or telegram must be sent by you, your agent, or the person in whose care the mail will be accepted. The old and new addresses must always be furnished. Mail addressed to persons for whom an Order to Change Address is on file will be sent by the post office of original address to the new address.

(b) *Registered, insured, and c. o. d. mail.* Your Order to Change Address for ordinary mail will cover your registered, insured, and c. o. d. mail unless the sender has given other instructions or unless you have moved outside the United States. The sender's instructions should be written or printed on the envelope or wrapper. Examples: "Do not forward; If not accepted within ---- days return to sender." Exceptions:

(1) C. o. d. mail will not be forwarded to the Canal Zone or to overseas military post offices.

(2) Domestic registered articles mailed outside the continental United States and addressed for delivery in the United States will not be forwarded to the Canal Zone if the stamps indicate the articles were valued at more than $100. Articles mailed in the Canal Zone addressed for delivery in the United States will not be forwarded to any place outside the continental United States if there is reason to believe the value exceeds $100.

(3) Insured and c. o. d. parcels that have the mailers' instructions to abandon or to sell perishable items, written or printed on the envelope or wrapper, will be treated according to the instructions. Examples:

Do not forward or return. If not accepted within ---- days, treat as abandoned. Notify mailer of final disposition.

Do not forward or return. If undelivered after ---- days, sell contents to highest bidder and remit proceeds, less commission, to mailer.

Do not forward or return. If undeliverable after ---- days, destroy. Notify mailer of final disposition.

A commission of 10 percent, but not less than 15 cents, is retained by the Postal Service from the amount for which perishable items are sold.

(4) C. o. d. mail may have written or printed on it a request that it be forwarded to a new addressee. The name and address of the new addressee must be shown in a bordered space with instructions that the mail be delivered either with or without the collection of c. o. d. charges. The mailers' pledge to pay return and forwarding postage must be placed on the mail if it is not charged with first-class postage.

§ 47.2 *Time limit of order.* (a) An order without a time limit expires in 2 years.

(b) An unlimited order affecting general delivery mail at a carrier office expires in 30 days.

(c) To have mail forwarded for a limited time, state the beginning and expiration dates. If you return to your old address before the expiration date, cancel the order.

§ 47.3 *Forwarding postage*—(a) *Change in local address.* Where a change is made to an address served by the same post office, mail of all classes will be delivered as directed and additional postage will not be required. (See § 25.2 (b) (4) of this chapter regarding local delivery.)

(b) *Change to another post office.* When mail is forwarded to another post office it is subject to additional postage as follows, to be computed the same as if the piece were originally mailed at the office from which it is forwarded.

(1) First-class mail: No charge is made for forwarding first-class mail, including postal and post cards, when postage has been fully prepaid by the sender. No additional charge is made for forwarding first-class mail that is not fully prepaid, but any amount shortpaid at the time of original mailing will be collected on delivery. (See § 21.4 (b) of this chapter.) Drop letters when forwarded are rated for collection of additional postage for the difference between the amount prepaid and the total postage computed at the first-class rate.

(2) Second-class mail, when forwarding postage is guaranteed by the sender or addressee, will be charged with postage due at the second-class transient rate computed on each individually addressed copy or package of unaddressed copies. (See § 22.1 (c) of this chapter.)

(3) Third-class mail is subject to collection of additional postage for forwarding at the single-piece rate. (See § 24.1 of this chapter.) Such matter is forwarded only if it is of obvious value or when the sender or addressee has guaranteed forwarding postage. Mail that does not have obvious value or does not bear a forwarding-postage guarantee will be disposed of as undeliverable mail. (See § 48.2 (c) of this chapter.)

(4) Fourth-class mail is subject to the collection of additional postage for forwarding at the applicable rate of postage. (See § 25.1 (a) through (c) of this chapter.)

(5) Airmail: No additional charge is made for forwarding airmail articles weighing 8 ounces or less. These articles are sent by air when air service to the new address is available. First-class mail of this weight may also be forwarded by air upon prepayment of the difference between the surface and air rates. Airmail weighing over 8 ounces is forwarded by air at the applicable air zone rate to be collected on delivery except when the article bears the sender's specific instructions to forward it by surface mail. When forwarded by surface mail, forwarding postage at the applicable rate according to class of mail is collected on delivery. (See § 26.1 of this chapter.)

(6) Registered, insured, and c. o. d. mail is forwarded without the payment of additional fees, but the ordinary forwarding postage charges, if any, must be paid.

§ 47.4 *Address changes of persons in U. S. service.* Mail of all classes addressed to persons in the United States service (civil and military) serving at any place where the United States mail service operates, whose change of address is caused by official orders, will be forwarded until it reaches the addressee and no additional postage will be charged. Mail so forwarded is endorsed by the forwarding office Change of Address Due to Official Orders. This provision for free forwarding from one post office to another applies to mail for the accompanying members of the families of persons in the United States service.

§ 47.5 *Forwarding due to change in post office service*—(a) *Addressed to a discontinued post office.* Mail of any class addressed to a discontinued post office may be forwarded to any other post office designated by the addressee without additional charge when the office to which such mail is ordered sent by the Department is not convenient for the addressee.

(b) *Forwarded due to change in rural delivery service.* Patrons of any office who, on account of the establishment of or a change in rural delivery service, receive their mail from the rural carrier of another office may have their mail sent to the latter office and delivered by rural carrier without a new prepayment of postage, provided they first file with the postmaster at the former office a written request to that effect.

§ 47.6 *Reforwarding.* The address (but not the name) may be changed and the mail reforwarded as many times as necessary to reach the addressee. Each time second-, third-, or fourth-class mail, and airmail weighing over 8 ounces, is reforwarded, it is charged additional postage at the appropriate rate.

§ 47.7 *Guarantee to pay forwarding postage.* When either the sender or the addressee desires to have second-, third-, or fourth-class mail forwarded when the addressee has moved to another post office, forwarding postage must be guaranteed under one of the following conditions:

(a) The addressee may guarantee to pay forwarding postage on any or all of these classes by so indicating on his Order to Change Address. (See § 47.1.)

(b) The sender may guarantee payment of forwarding postage on third- or fourth-class mail by printing "Forwarding Postage Guaranteed" below his return address. On second-class mail the guarantee must be printed on the envelope or wrapper or on one of the outside covers of unwrapped copies and must be immediately preceded by the sender's name and address. Mail bearing this pledge is accepted with the understanding that the sender will pay both the forwarding and return postage if the mail is returned as undeliverable from the post office to which it is forwarded. Where an addressee has unqualifiedly refused to pay forwarding postage on other mail of the same class, the mail will not be forwarded even though it bears the sender's pledge guaranteeing forwarding postage.

PART 48—UNDELIVERABLE MAIL

Sec.
- 48.1 Description.
- 48.2 Treatment by classes.
- 48.3 Return address required.
- 48.4 Mail not to be returned.
- 48.5 Notice to sender on third- and fourth-class mail.
- 48.6 Directory service.
- 48.7 General delivery or transient mail.
- 48.8 Dead mail.

AUTHORITY: §§ 48.1 to 48.8 issued under R. S. 161, 396, sec. 1, 46 Stat. 269, sec. 2, 64 Stat. 210; 39 U. S. C. 261, 278b.

§ 48.1 *Description.* Mail that cannot be delivered because of incomplete or incorrect address, or the removal of the addressee, or is unclaimed or refused by the addressee, will be treated in accordance with this part at the office where the mail is found to be undeliverable.

§ 48.2 *Treatment by classes*—(a) *First-class mail.* First-class mail, except postal and post cards, is returned to the sender, if known, without additional charge. Only postal and post cards that bear the sender's guarantee to pay return postage are returned, and postage at the card rate is collected on delivery to the sender. Mail paid at the drop-letter rate is returned to the sender at the same post office without additional charge. If the sender is at another post office, additional postage for the difference between the amount prepaid and total postage computed at the first-class rate is collected on delivery. Any postage due because of failure to fully prepay postage at the time of mailing will be collected from the sender when the undeliverable mail is returned.

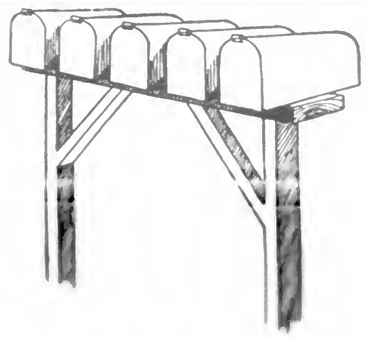
(b) *Second-class mail.* Undeliverable mail bearing a pledge to pay return postage will be returned to the sender, and return postage at the transient rate collected on delivery. Other undeliverable mail sent by a publisher or news agent will be treated as follows:

(1) *Change in local address.* Mail will be delivered to a new local address for 3 months without additional charge. Thereafter the postmaster will send to the publisher or news agent portions of the wrapper or cover containing the old address and notice of the new address on Form 3579 with postage due at 3 cents for each notice. Copies received after a notice is sent are treated as waste.

(2) *Other changes in address.* When the first copy of a second-class publication is undeliverable for any reason other than a change in local address (and does not bear a pledge to pay return postage), the postmaster will send to the publisher or news agent that portion of the wrapper carrying the old address, and a notice of the new address or other reason for nondelivery on Form 3579, charged with 3 cents postage due. Copies received after the notice is sent are treated as waste.

(c) *Third-class mail.* Undeliverable third-class mail of obvious value or bearing the sender's pledge to pay return postage will be returned to the sender, and postage at the single-piece rate will be collected on delivery. (See § 24.1 of this chapter.) Such mail having no obvious value, and without a pledge to pay return postage, will be treated as waste.

(d) *Fourth-class mail.* Undeliverable fourth-class mail will be returned to the sender, and postage at the fourth-class rate will be collected on delivery. (See § 25.1 of this chapter.)



boxes are to be used for mail only, except that publishers of newspapers regularly mailed as second-class mail may, for Sundays and National holidays only, place copies of the Sunday or holiday issues in the rural and star-route boxes of subscribers, with the understanding that copies will be removed from the boxes before the next day on which mail deliveries are scheduled.

(i) *Boxes that do not conform to regulations.* Rural carriers will report to postmasters any boxes that do not conform to the regulations, and send to the owners of these boxes Form 4056 requesting that the irregularities or defects be remedied.

§ 46.6 *Postal maps*—(a) *Content of maps.* Every rural delivery route in the United States is shown either on a county or a local road map on which the roads traveled by rural carriers are plainly indicated. The sites of post offices are shown, and houses, schools, and churches are located from the latest survey data available at the time the map was originally drawn.

(b) *County maps.* Where much of the area of a county is covered by rural delivery service and adequate survey data are available, a county map is available showing all routes emanating from post offices within the county. (See paragraph (d) of this section.)

(c) *Local maps.* Local maps showing rural delivery routes originating at one post office [illegible]. Each rural map covers the area served from an individual post office. Many of these maps are based on [illegible] but where such base information was not available the maps have been drawn from sketches furnished by postal inspectors, postmasters, and other sources.

(d) *Index to rural maps.* To determine which type of map is available for a particular county, refer to the County List in the Postal Guide, Part I.

(e) *Purchase of maps.* Rural delivery maps may be ordered from the Division of Postal Funds, Post Office Department, Washington 25, D. C. The price of county maps is 55 cents each, and of local maps 45 cents. Maps are folded for mailing unless unfolded maps are specifically requested. Payment for postal maps must be made in advance by money order or certified check. Postage stamps are not acceptable.

(f) *Current status of maps.* No attempt is made to keep maps current on items other than postal data. Copies furnished are prints of the original maps that are revised from time to time as changes in the line of travel are authorized. It is not possible to keep all originals up to date at all times, and no assurance can be given that any map purchased will show the latest changes in service.

PART 47—FORWARDING MAIL

Sec.
- 47.1 Order to change address.
- 47.2 Time limit of order.
- 47.3 Forwarding postage.
- 47.4 Address changes of persons in U. S. service.
- 47.5 Forwarding due to change in post office service.
- 47.6 Reforwarding.
- 47.7 Guarantee to pay forwarding postage.

AUTHORITY: §§ 57.1 to 57.7 issued under R. S. 161, 396, sec. 1, 64 Stat. 210; 5 U. S. C. 22, 396, 39 U. S. C. 278a.

§ 47.1 *Order to change address*—(a) *Ordinary mail.* To have mail delivered to a new address, the file Form 22, Order to Change Address, which is available at [illegible] person in whose care the mail will be accepted. The old and new addresses must always be furnished. Mail addressed to persons for whom an Order to Change Address is on file will be [illegible] by the post office of original address to the new address.

(b) *Registered, insured, and c. o. d. mail.* Your Order to Change Address for ordinary mail will cover your registered, insured, and c. o. d. mail unless you have moved outside the United States. The sender's instructions should be written or printed on the envelope or wrapper. Examples: "Do not forward. If not accepted within ____ days, return to sender." "Do not forward. If not accepted within ____ days, destroy."

(c) *Domestic registered, [illegible] mailed outside the continental United States and addressed for delivery in the United States will not be forwarded to the Canal Zone if the stamps indicate the articles were valued at more than $100. Articles mailed in the Canal Zone addressed for delivery in the United States will not be forwarded to any place outside the continental United States if there is reason to believe the value exceeds $100.*

(3) Insured and c. o. d. parcels that have the mailers' instructions to abandon or to sell perishable items, written or printed on the envelope or wrapper, will be treated according to the instructions. Examples:

Do not forward or return. If not accepted within ____ days, treat as abandoned. Notify mailer of final disposition.

Do not forward or return. If undelivered after ____ days, sell contents to highest bidder and remit proceeds, less commission, to mailer.

Do not forward or return. If undelivered after ____ days, destroy. Notify mailer of final disposition.

A commission of 10 percent, but not less than 15 cents, is retained by the Postal Service from the amount for which perishable items are sold.

(4) C. o. d. mail may have written or printed on it a request that it be forwarded to a new addressee. The name and address of the new addressee must be shown in a bordered space with instructions that the mail be delivered either with or without the collection of c. o. d. charges. The mailers' pledge to pay return and forwarding postage must be placed on the mail if it is not charged with first-class postage.

§ 47.2 *Time limit of order.* (a) An order without a time limit expires in 2 years.

(b) An unlimited order affecting general delivery mail at a carrier office expires in 30 days.

(c) To have mail forwarded for a limited time, state the beginning and expiration dates. If you return to your old address before the expiration date, cancel the order.

[illegible] postage will not be required. (See § [illegible] (b) (4) of the chapter regarding [illegible] delivery.)

(2) Change to another post office. When mail is forwarded to another post office it is subject to additional postage as follows, to be computed the same as if the piece were originally mailed at the office from which it is forwarded.

(i) First-class mail. No charge is made for forwarding first-class mail, including postal and post cards, when postage has been fully prepaid by the sender. No additional charge is made for forwarding first class mail that is not fully prepaid, but any additional postage at the time of delivery will be collected on delivery. (See § 25.4 (b) of this chapter.) Drop letters which [illegible] are ruled for collection of additional postage for the difference between the amount prepaid and the total postage [illegible] at the first-class rate.

(ii) Second-class mail when forwarded to subscribers is governed by the sender's instructions. If the sender has elected to be charged with postage at the second-class transient rate computed on each individually addressed copy or package of unaddressed copies. (See § 22.1 (c) of this chapter.)

(iii) Third-class mail is subject to collection of additional postage for forwarding at the single-piece rate. (See § 24.1 of this chapter.) Such matter is forwarded only if it is of obvious value or when the sender or addressee has guaranteed forwarding postage. Mail that does not have obvious value or does not bear a forwarding-postage guarantee will be disposed of as undeliverable mail. (See § 48.2 (c) of this chapter.)

(iv) Fourth-class mail is subject to the collection of additional postage for forwarding at the applicable rate of postage. (See § 25.1 (a) through (c) of this chapter.)

(v) Airmail: No additional charge is made for forwarding airmail articles weighing 8 ounces or less. These articles are sent by air when air service to the new address is available. First-class mail of this weight may also be forwarded by air upon prepayment of the difference between the surface and air rates. Airmail weighing over 8 ounces is forwarded by air at the applicable air zone rate to be collected on delivery except when the article bears the sender's specific instructions to forward it by surface mail. When forwarded by surface mail, forwarding postage at the applicable rate according to class of mail is collected on delivery. (See § 26.1 of this chapter.)

(vi) Registered, insured, and c. o. d. mail is forwarded without the payment of additional fees, but the ordinary forwarding postage charges, if any, must be paid.

§ 47.4 *Address changes of persons in U. S. service.* Mail of all classes addressed to persons in the United States service (civil and military) serving at any place where the United States mail service operates, whose change of address [illegible] gress Due to Office Or Sess. This provision for free forwarding from one post office to another applies to mail for the accompanying members of the families of persons in the United States service.

§ 47.5 *Forwarding due to change in post office service*—(a) *Addressed to a discontinued post office.* Mail of any class addressed to a discontinued post office may be forwarded to any other [illegible] the addressee without additional charge when the office to which such mail is ordered sent by the Department is not convenient for [illegible]

[illegible] Forwarding due to change in location of the establishment of rural delivery service routes. Mail from the rural routes of [illegible] may have the [illegible] to the post office and delivered in [illegible] without a new prepayment of postage provided they first file with the postmaster at the former office a written request to that effect.

§ 47.6 *Reforwarding.* The address but not the name may be changed and the mail reforwarded as many times as necessary to reach the addressee. Each time second-, third-, or fourth-class mail and airmail weighing over 8 ounces, is reforwarded, it is charged additional postage at the appropriate rate.

§ 47.7 *Guarantee to pay forwarding postage.* When either the sender or the addressee desires to have second-, third-, or fourth-class mail forwarded when the addressee has moved to another post office, forwarding postage must be guaranteed under one of the following conditions:

(a) The addressee may guarantee to pay forwarding postage on any or all of these classes by so indicating on his Order to Change Address. (See § 47.1.)

(b) The sender may guarantee payment of forwarding postage on third- or fourth-class mail by printing "Forwarding Postage Guaranteed" below his return address. On second-class mail the guarantee must be printed on the envelope or wrapper or on one of the outside covers of unwrapped copies and must be immediately preceded by the sender's name and address. Mail bearing this pledge is accepted with the understanding that the sender will pay both the forwarding and return postage if the mail is returned as undeliverable from the post office to which it is forwarded. Where an addressee has unqualifiedly refused to pay forwarding postage on other mail of the same class, the mail will not be forwarded even though it bears the sender's pledge guaranteeing forwarding postage.

PART 48—UNDELIVERABLE MAIL

Sec.
- 48.1 Description.
- 48.2 Treatment by classes.
- 48.3 Return address required.
- 48.4 Mail not to be returned.

[illegible] 408, Dead mail

[illegible] 396, sec. 1, 40 Stat. 269, sec. 2, 64 Stat. 210; 39 U. S. C. 261, 278b.

§ 48.1 *Description.* Mail that cannot be delivered because of incomplete or incorrect address, or the removal of the addressee, or is unclaimed or refused by the addressee, will be treated in accordance with this part at the office where the mail is found to be undeliverable.

§ 48.2 *Treatment by classes*—(a) *First-class mail.* First-class mail except postal and post cards is returned to the sender if known without additional charge. Only postal and post cards that bear the sender's guarantee to pay return postage are returned and postage at the card rate is collected on delivery to the sender. Mail paid at the drop letter rate is returned to the sender at the same post office without additional charge. If the sender is at another post office additional postage for the difference between the amount prepaid and total postage computed at the first-class rate is collected on delivery. Any postage due because of failure to fully prepay postage at the time of mailing will be collected from the sender when the undeliverable mail is returned.

(b) *Second-class mail.* Undeliverable mail bearing a pledge to pay return postage will be returned to the sender, and return postage at the transient rate collected on delivery. Other undeliverable mail sent by a publisher or news agent will be treated as follows:

(1) *Change in local address.* Mail will be delivered to a new local address for 3 months without additional charge. Thereafter the postmaster will send to the publisher or news agent portions of the wrapper or cover containing the old address and notice of the new address on Form 3579 with postage due at 3 cents for each notice. Copies received after a notice is sent are treated as waste.

(2) *Other changes in address.* When the first copy of a second-class publication is undeliverable for any reason other than a change in local address (and does not bear a pledge to pay return postage), the postmaster will send to the publisher or news agent that portion of the wrapper carrying the old address, and a notice of the new address or other reason for nondelivery on Form 3579, charged with 3 cents postage due. Copies received after the notice is sent are treated as waste.

(c) *Third-class mail.* Undeliverable third-class mail of obvious value or bearing the sender's pledge to pay return postage will be returned to the sender, and postage at the single-piece rate will be collected on delivery. (See § 24.1 of this chapter.) Such mail having no obvious value, and without a pledge to pay return postage, will be treated as waste.

(d) *Fourth-class mail.* Undeliverable fourth-class mail will be returned to the sender, and postage at the fourth-class rate will be collected on delivery. (See § 25.1 of this chapter.)

(e) *Airmail.* Airmail weighing 8 ounces or less is returned by surface transportation at no additional charge. Airmail weighing more than 8 ounces is returned by surface transportation at the appropriate rate according to class of mail; except that, when the mail bears instructions of the sender to return by airmail, it is returned at the airmail rate to be collected on delivery to sender.

(f) *Registered, insured, and c. o. d.*—(1) *Registered and insured.* When registered and insured mail is undeliverable as addressed, a notice is sent to the mailer on Form 3858 showing the reason. By completing the form and returning it in an envelope bearing first-class postage, the mailer may tell the postmaster what to do with the mail. The mail will be returned to the mailer if he does not tell the postmaster not to return it. The postage charge, if any, for returning the mail, but not registration or insurance fees, will be collected from the mailer. Exception: When registered mail is addressed to a person who has moved and left no forwarding address, Form 3858 will not be sent and the mail will be returned immediately to the mailer.

(2) *C. o. d.* Each post office that receives a c. o. d. article holds it 15 days, or any time less than 15 days that the mailer requests, after which the article is returned to the mailer. Exceptions: Mail not bearing special instructions from the mailer will be returned immediately, when:

(i) The addressee is not found.

(ii) The address does not exist.

(iii) The addressee is deceased and delivery cannot be made to anyone for him.

(3) *Special instructions on c. o. d. parcels.* A request to receive a notice that c. o. d. mail has not been delivered may be written or printed on a parcel by the mailer. The request may include directions to send the notice to the mailer or to his representative. When the mailer's representative is designated, the representative's name and local or nearby address must be shown in a bordered space with instructions, reading: "Do not deliver to mailer's designated representative without collecting c. o. d. charges, or deliver without collecting c. o. d. charges to mailer's designated representative."

(4) *Disposal.* Registered mail that cannot be delivered to the sender or addressee will be sent to a dead mail office. Insured and c. o. d. mail will be sent to a dead mail office and held for 6 months, during which time it may be called for, if it is:

(i) Undeliverable to both sender and addressee.

(ii) Refused by the sender upon its return. This cancels the insurance.

(g) *Perishable mail.* Undeliverable parcels containing perishable items that cannot be forwarded to the addressee or returned to the sender before spoiling, as well as parcels of day-old chicks, that cannot be delivered or returned within the 60-hour limit, if salable will be disposed of by the postmaster through competitive bidding. Sale by bid will not be made to the addressee. The postmaster will send the proceeds of the sale, less a commission of 10 percent (but not less than 15 cents), to the mailer, with an explanation of the action taken.

§ 48.3 *Return address required.* The return address of the sender must be shown on the address side of mail in order to secure its return. The following rules apply:

(a) The proper location is in the upper left corner on envelopes, cards, labels, tags, or wrappers. On second- or third-class mail, it is essential that the sender place "Return Postage Guaranteed" below the return address. Use of the pledge to pay return postage is also recommended for fourth-class mail.

(b) The sender may in his return address request that mail be held for not less than 3 days or more than 30 days. Examples:

Return in 5 days to
Frank B. White
2416 Front Street,
St. Louis 25, Mo.

Return in 30 days to
Frank B. White
2416 Front Street,
St. Louis 25, Mo.
Return Postage Guaranteed

§ 48.4 *Mail not to be returned.* (a) First-class mail, drop letters and airmail bearing no return address are treated as dead mail. (See § 48.8.)

(b) Third-class mail of no obvious value and bearing no pledge to pay return postage is disposed of as waste.

(c) Fourth-class mail of no value to the sender is disposed of at the post office that last attempts delivery to the addressee when mail bears the instructions of the sender printed in the lower left corner of the address space: "Treat as Abandoned."

§ 48.5 *Notice to sender on third- and fourth-class mail*—(a) *Mail to be marked.* If the sender wants to be notified when third- or fourth-class mail is undeliverable as addressed, he must:

(1) Print in the lower left corner of the address side, "Form 3547 Requested."

(2) Show his return address in the upper left corner.

(3) Accept and pay the 3-cent fee for each card notice, or pay the return postage on mail sent back as undeliverable.

(b) *Conditions.* Mail bearing a request for Form 3547 will be treated as follows:

(1) When the change is to another local address, the notice on Form 3547 will show the original address (together with any key number used by the mailer) and the new address.

(2) When the change is to another post office and the piece is forwardable under the sender's or addressee's guarantee to pay forwarding postage, or when the mail is of obvious value, the notice on Form 3547 will show the same information as subparagraph (1) of this paragraph.

(3) When the change is to another post office but forwarding postage is not guaranteed, the mail itself is returned with a notation showing the new address, and is rated for collection of return postage due at the appropriate single-piece rate.

(4) When the mail is undeliverable as addressed and no new address is on file, the reason for nondelivery is noted on the mail, and it is returned rated for collection of return postage at the appropriate single piece rate.

§ 48.6 *Directory service.* Directory service is not generally available, but at carrier offices where a directory is available, directory service is given to registered, insured, c. o. d., special delivery, and special handling mail; to perishable matter and parcels of obvious value; and to international mail, except circulars. Incorrectly or incompletely addressed mail from overseas Armed Forces is given directory service and is not returned to the sender until every effort is made to deliver it.

§ 48.7 *General delivery or transient mail.* Before returning or sending to dead mail, mail bearing the words, "Transient," "To Be Called for," "General Delivery," or the like, and letters from out of town not specifically addressed, are placed in general delivery for the standard retention period (see § 48.8) to await claimant.

§ 48.8 *Dead mail*—(a) *At post office of addressee*—(1) *Treatment.* Mail undeliverable as addressed that cannot be forwarded or returned, domestic letters wholly unpaid or paid less than one full rate, mail unclaimed or refused by addressee, articles found loose or insufficiently identified in the mails, and overweight and oversize parcels, are sold, abandoned, or destroyed in accordance with law or the sender's instructions, or are sent to the dead-mail office. When insured or c. o. d. mail is destroyed by sender's request, Notice to Sender, Form 3861, is sent to the sender.

(2) *Retention periods.* Retention periods before disposal are as follows:

(i) First-class mail, 30 days.

(ii) Second-class mail, immediately after notice to sender. (See § 48.2 (b).)

(iii) Third- and fourth-class mail, not less than 30 days.

(iv) Articles found loose or unaddressed in the mails, and of obvious value, not less than 60 days.

(v) Money or uncanceled postage stamps, 30 days.

(vi) Mail of obvious value (including first-class mail not in the form of a letter addressed to a foreign country) mailed in violation of law or treaty, not less than 6 months.

(vii) Parcels on which claims are pending are held until claims are settled.

(3) *Disposal.* Dead mail is sent to the dead-mail office after the prescribed waiting period, except the following:

(i) Domestic ordinary, insured, or c. o. d. articles, and mail from other countries, bearing senders' instructions to abandon are disposed of immediately.

(ii) Insured and c. o. d. articles, bearing senders' instructions to destroy, are held for not more than 30 days and destroyed.

(iii) Packages containing medicine, perishable articles, liquids, or articles likely to injure other mail or to attract pests, are destroyed as soon as they are known to be undeliverable.

(iv) Letters from Canada or Mexico with return addresses are returned to the postmaster at the post office of origin.

(v) Mail addressed to a deceased person is delivered to the executor or administrator of the estate, or if there is no executor or administrator, to the widow or widower, or other claimants, except that U. S. Government pension mail is returned to the mailing Federal agency.

(vi) Unclaimed penalty or franked mail from a Member of Congress and unclaimed official reports and bulletins sent by State agricultural colleges and experiment stations are returned to the postmaster at office of origin if it is known. If office of origin is not known, mail is sent to the post office at Washington, D. C. Undeliverable mail bearing card of the White House, the Senate, or the House of Representatives, with or without postage stamps, is returned to the post office at Washington, D. C.

(vii) Santa Claus letters, with postage fully prepaid (or local unpaid or partly paid), with no identification of person for whom they are intended, are sent to institutions or persons who may request them to use for exclusively philanthropic purposes. If there is no voluntary request, they are sent to dead-mail office.

(b) *At dead-mail office.* (1) Treatment: At the dead-mail office, mail is examined, and opened when necessary, to find the name and address of the sender or addressee.

(2) Retention periods, if the sender or addressee cannot be identified are:

(i) Letters of domestic origin with enclosures of value, 1 year.

(ii) Other letters, none.

(iii) Letters containing merchandise, and third- and fourth-class mail containing valuables (including first-class mail not in the form of a letter addressed to another country), 60 days; if posted in violation of law or treaty, 6 months.

(3) Disposal: Dead mail that cannot be delivered to addressee or sender is destroyed or sold.

Subchapter F—Special Mail Services

PART 51—REGISTRY

Sec.
51.1 Why mail is registered.
51.2 Registration.
51.3 Declaration by sender.
51.4 Fees, surcharges, and return receipts.
51.5 Preparation for mailing.
51.6 Withdrawal or recall.
51.7 Delivery.

AUTHORITY: §§ 51.1 to 51.7 issued under R. S. 161, 396, 3926, as amended, sec. 12, 65 Stat. 676; 5 U. S. C. 22, 369, 39 U. S. C. 245f, 381.

§ 51.1 *Why mail is registered.* You may obtain added protection for your valuable and important mail and evidence that it has been delivered by having it registered.

§ 51.2 *Registration*—(a) *What may be registered.* (1) First-class mail.

(2) Airmail not liable to damage from freezing.

(3) Second-class mail.

(4) Third-class mail.

(5) Fourth-class mail prepaid with postage at the first-class rate.

(6) Business reply cards and envelopes if you pay only the registration fee.

(b) *Where to mail.* You may obtain registration by presenting your mail to:

(1) *Post offices and their branches and stations.* Postmasters will accept mail of unusually high value only at the main office or the larger branches and stations.

(2) *Letter carriers.* Carriers will accept only letters and small, light packages. Carriers serving business districts are not required to accept mail for registration.

(3) *Rural carriers.* Mail and cash may be left in a rural box, and the change, if any, will be handed to the sender or placed in an envelope and left in the box on the carrier's next trip.

(c) *Registration not available.* You may not obtain registration if:

(1) Articles are placed in street letter boxes or in mail drops in post offices, even though the articles bear sufficient stamps to cover all charges. The articles will be dispatched with the registered mail but a registration receipt will not be issued, and liability for the loss or rifling of or damage to such mail will not be accepted by the Postal Service.

(2) Articles are addressed to post offices to which they cannot be transported with safety.

§ 51.3 *Declaration by sender*—(a) *Value.* You must tell the postal clerk the full value of articles that you register even though you have commercial insurance on the articles. You may use the following guides as aids in determining the full value:

(1) Negotiable securities — Market value on date of mailing.

(2) Nonnegotiable securities (including certificates of stock), warehouse receipts, and valuable papers (checks, drafts, deeds, wills, abstracts, and similar documents)—No value.

(b) *Fragile mail.* You must tell the postal clerk whether your mail is fragile, and describe how you have it packed if he requests you to do so.

§ 51.4 *Fees, surcharges, and return receipts*—(a) *Registry fees and surcharges (in addition to postage).*

Indemnity limit:	Fee
No indemnity	$0.30
$0.01 to $5	.40
$5.01 to $25	.55
$25.01 to $50	.65
$50.01 to $75	.75
$75.01 to $100	.85
$100.01 to $200	.95
$200.01 to $300	1.05
$300.01 to $400	1.15
$400.01 to $500	1.25
$500.01 to $600	1.35
$600.01 to $700	1.45
$700.01 to $800	1.55
$800.01 to $900	1.65
$900.01 to $1,000	1.75
	Cents
Restricted delivery	20
Return receipts requested at time of mailing:	
Showing to whom and when delivered	7
Showing to whom, when, and address where delivered	31
Requested after mailing: Showing to whom and when delivered	15

SURCHARGES

To be paid when the declared value exceeds the maximum indemnity provided by the registry fees paid by $1,000 or more:

	Local and first zone	Second zone	Third zone	Fourth zone	Fifth and sixth zones	Seventh and eighth zones
From $1,000 to $1,000,000 (per $1,000 or fraction)	$0.12	$0.14	$0.16	$0.17	$0.18	$0.19
Following are total surcharges for values—						
Over $1,000,000 to $2,000,000	$170	$210	$260	$290	$320	$360
Over $2,000,000 to $3,000,000	227	285	355	410	460	525
Over $3,000,000 to $4,000,000	280	360	455	520	590	690
Over $4,000,000 to $5,000,000	330	430	545	635	725	850
Over $5,000,000 to $6,000,000	380	500	635	745	855	1,010
Over $6,000,000 to $7,000,000	425	565	725	855	985	1,160
Over $7,000,000 to $8,000,000	465	625	810	960	1,115	1,315
Over $8,000,000 to $9,000,000	500	685	895	1,065	1,235	1,465
Over $9,000,000 to $10,000,000	540	735	975	1,165	1,355	1,610
Over $10,000,000 to $11,000,000	570	790	1,055	1,265	1,475	1,750
Over $11,000,000 to $12,000,000	610	840	1,135	1,365	1,590	1,890
Over $12,000,000 to $13,000,000	645	885	1,205	1,460	1,710	2,025
Over $13,000,000 to $14,000,000	690	930	1,280	1,560	1,820	2,160
Over $14,000,000 to $15,000,000	710	970	1,340	1,650	1,930	2,290

When the declared value exceeds $15,000,000, additional charges may be applied, based on considerations of weight space, and value of the shipments.

(b) *Matter not having intrinsic value.* Matter not having intrinsic value may be registered on payment of the minimum registration fee of 30 cents. You may pay a higher fee and declare a value to cover the cost of duplicating the article so that you may be reimbursed for the cost if the article is lost.

(c) *Matter having intrinsic value.* You must pay a registration fee of at least 40 cents. If the value of the article exceeds $25, a fee of at least 55 cents must be paid. You are not obliged to pay a registration fee of more than 55 cents for any matter registered, although you may pay any of the higher fees based on the value declared.

(d) *Return receipts.* You may obtain return receipts by paying fees, in addition to the registration fee and postage, under the following conditions:

(1) At the time of mailing by informing the postal clerk or by writing on the mail Return Receipt Requested or Return Receipt Requested Showing Address Where Delivered.

(2) After mailing by request and showing registration receipt at the post office where the registered article was mailed. The return receipt will not show the address where delivery was made.

(3) Return by air: You may obtain a return receipt by airmail if postage

stamps to cover the postal card airmail rate are fixed to the return receipt and it is endorsed Return by Air Mail.

(e) *Restricted delivery.* You may at the time of mailing direct that the registered article be delivered only to the addressee or to some one named by him in writing. An additional fee is required. The mail will be endorsed Deliver to Addressee Only or Deliver to Addressee or Order. After mailing and before delivery, you may direct such action by written order through the mailing postmaster.

(f) *Refunds.* Registration fees will not be refunded after the mail is accepted. Return receipt or restricted delivery fees will be refunded only when the failure to furnish a return receipt or to give restricted delivery was the fault of the Postal Service. Receipts for fees must be submitted with requests for refunds.

(g) *Free registration of mail.* (1) All mail relating to the census and addressed to the Census Office, or to any official thereof, that is endorsed "Official Business, Census Office," may be sent by registered mail without payment of a registration fee.

(2) All mail relating to naturalization, including duplicate papers required to be sent to the Immigration and Naturalization Service by clerks of State or Federal courts addressed to the Department of Justice or to the Immigration and Naturalization Service, may be sent by registered mail without payment of a registration fee, if endorsed "Official Business."

(3) Correspondence may be transmitted by registered mail between members of the diplomatic corps of the countries of the Postal Union of the Americas and Spain stationed in the United States without payment of the registration fee. Indemnity will not be paid for loss of such mail. The same privilege applies to consuls of such countries stationed in the United States, and vice consuls discharging the functions of such consuls.

(4) Currency sent to the Treasurer of the United States, Washington, D. C., for redemption, contained in letters or parcels with postage prepaid by the sender, and redeemed currency mailed to the Treasurer of the United States, may be transmitted by registered mail without payment of registration fee, under the following conditions:

(i) The contents must be exhibited to the postmaster and a list furnished giving a detailed description of the money. For currency the letter, number, of series, date, and denomination must be given. Coin need be described only by number and denomination of pieces.

(ii) After the contents have been compared with the list and found correct, the letter or parcel must be sealed in the presence of the postmaster.

(iii) The list must be left with the postmaster.

(iv) No idemnity is assumed by the Postal Service. If idemnity coverage is desired the regular registration fees must be paid.

(5) Official matter of executive departments or independent Government institutions located in Washington, D. C., or of the Public Printer may be registered free. Government officers officially stationed at Washington, D. C., whose official mail is registered free from there, have the same privilege elsewhere when temporarily away from Washington if the mail is endorsed "Temporarily Absent from Washington, D. C." This privilege does not apply to officers not officially stationed at Washington or those in the field service of their departments.

(6) Letters or parcels relating exclusively to the business of the United States Civil Service Commission, Washington, D. C., and addressed to the Commission by members of local boards of examiners outside Washington, are registered free.

§ 51.5 *Preparation for mailing*—(a) *Letter mail.* Enclose letter mail in an envelope and seal it securely. Envelopes that appear to have been opened and resealed will not be registered. Do not place paper strips or wax or paper seals over the intersections of the flaps where the postmark impressions are made. Place the complete name and address of sender and addressee on the envelope.

(b) *Parcels.* Wrap and seal with mucilage or glue, or with plain paper strips. Parcels that appear to have been opened and resealed will not be registered. Parcels containing currency or securities may not be sealed exclusively by the use of paper strips, but must first be sealed securely with mucilage or glue. Place the complete name and address of sender and addressee on the parcel. Parcels mailed at the third-class postage rates may not be sealed.

(c) *Window envelopes.* Envelopes must have panels covering the opening. If transparent panels are glued to the envelopes, they may contain only matter without intrinsic value. If the panel is part of the envelope, the envelope may be used for all registered mail.

(d) *Firm registration books.* If you regularly mail three or more articles at one time, you should obtain free from your postmaster and use firm registration books, Form 3877.

§ 51.6 *Withdrawal or recall.* You may withdraw or recall registered mail without charge before its delivery under the following conditions:

(a) Before dispatch by writing on your receipt "Withdrawn before dispatch," and signing and surrendering the receipt.

(b) After dispatch by filing at the post office where the article was mailed a written request for its return, giving names and addresses of sender and addressee, the registry number, and date of mailing. Costs of telegrams must be paid by you.

§ 51.7 *Delivery*—(a) *Procedure.* The responsibility of the Postal Service for registered mail ends with its proper delivery. Mail for delivery by carriers is taken on the first trip after it is received unless the addressee has requested the postmaster to hold his mail at the post office. You may obtain the name and address of the sender, and you may look at registered mail while it is held by the postal employee, before accepting delivery and signing the delivery receipt. Identification will be required if the applicant for registered mail is unknown. The mail will not be given to the addressee until the delivery receipt is obtained by the postal employee.

(b) *Recipient.* Delivery may be made to:

(1) The addressee or a person bearing the addressee's written authorization to accept delivery.

(2) The legal representative of a deceased or insane addressee. If there is no legal representative the article will be returned to the sender.

(3) A person or organization in whose care the mail is addressed.

(4) A person other than the addressee designated by the sender in a written order verified by the postmaster at the office of mailing.

(5) Persons designated by the management of a hotel or apartment house in an agreement with the Postal Service.

(6) Persons named in written orders of clubs, fraternities, and sororities, unless otherwise indicated by addressee.

(7) Persons named in written orders of Y. M. C. A.'s, Y. W. C. A.'s, Salvation Army shelters, missions, and the like; or, in the absence of written orders, to any responsible person who customarily receives the ordinary mail of the institution.

(8) A minor living with his parents or guardian subject to the parents' or guardian's control unless it is for restricted delivery. If restricted and delivery is forbidden by parents or guardian, the mail will be treated as undeliverable.

(9) Responsible persons to whom the addressee's ordinary mail is delivered.

(10) Authorized mail orderlies of military organizations.

(11) The person presently holding the title or performing the duties of the office when mail obviously of an impersonal nature is addressed to a former public officer or to a former officer or employee of a private organization by his name and former title.

(c) *When not delivered.* The addressee may be required to call at the post office for registered mail if its delivery by a carrier would not be safe.

(d) *Notice of arrival.* The carrier will leave you a notice if you are not at home to accept registered mail.

(e) *Rural delivery.* Rural carriers will deliver registered mail to your residence if it is not more than ½ mile from the route and if there is a passable road leading to it. Otherwise, the carrier will leave a notice in your box so that you may either meet him at the box on his next trip or call at the post office for the mail.

(f) *Star-route delivery.* Star-route carriers may deliver registered mail only when the addressee has authorized the postmaster in writing to give the mail to the carrier. The carrier is then considered the representative of the addressee, and the responsibility of the Postal Service ends at the time of delivery to the carrier.

(g) *Restricted delivery.* Registered mail marked "Deliver to addressee only" will be delivered only to the person addressed. The fee for this service must be paid at the time of mailing. If the restriction is to the addressee or order, delivery will be made to the addressee or to a person designated in writing by the addressee to receive the mail. Restricted delivery to the addressee only will not be made when the registered mail is addressed to the heads of the executive, legislative, and judicial branches of the Government of the United States, or of the States and Territories, or to members of the diplomatic corps. When a registered article is addressed jointly to two or more persons and delivery has been restricted, the addressees will be notified to be present to accept delivery together, and the receipt obtained must be signed by all the addressees. The registered article may be delivered to any one of the addressees, unless the others object, in which case delivery will not be made until all of them sign a written statement designating the one to receive delivery.

(h) *Bad condition.* If you accept a registered article that has been repaired with sealing stamps or reenclosed in a new envelope or wrapper, you must open it in the presence of the delivering employee. If anything is missing, the envelope or wrapper must be given to the employee after it has been endorsed to show what was missing.

PART 52—INSURANCE

Sec.
52.1 Description.
52.2 Fees.
52.3 Mailing.
52.4 Special services.
52.5 Delivery.

AUTHORITY: §§ 52.1 to 52.5 issued under R. S. 161, 396, sec. 1, 41 Stat. 581, sec. 12, 65 Stat. 676; 5 U. S. C. 22, 369, 39 U. S. C. 245f, 382.

§ 52.1 *Description*—(a) *Purpose.* You may obtain payment for loss of, rifling of, or damage to domestic mail by having it insured.

(b) *Classes of mail to which applicable.* You may insure only third- and fourth-class mail. The mail must bear the complete names and addresses of sender and addressee. The following are not acceptable for insurance:

(1) Parcels marked "Insured" but not insured by the Postal Service.

(2) Parcels containing matter offered for sale, addressed to prospective purchasers who have not ordered or authorized their sending. If such matter is received in the mails, indemnity for loss, rifling, or damage will not be paid.

(3) Nonmailable matter.

§ 52.2 *Fees*—(a) *Fees (in addition to postage).*

Indemnity:	Fee
$0.01 to $5	$0.05
$5.01 to $10	.10
$10.01 to $25	.15
$25.01 to $50	.20
$50.01 to $100	.30
$100.01 to $200	.35

Indemnity for insured mail is limited to $200.

(b) *Restricted delivery.*

(Not available for mail insured for $10 or less)	$0.20

(c) *Return receipts.*

(Not available for mail insured for $10 or less):

(1) Requested at time of mailing:

Showing to whom and when delivered	$0.07
Showing to whom, when, and address where delivered	.31

(2) Requested after mailing:

Showing to whom and when delivered	.15

§ 52.3 *Mailing*—(a) *Payment of fees and postage.* Insurance fees must be paid in addition to the regular postage. The mailer guarantees to pay return and forwarding postage unless he writes special instructions on the wrapper or envelope.

(b) *Where to mail.* You must mail parcels that you insure at a post office, branch, or station, or give them to a rural carrier. They must not be deposited in mail drops at post offices, nor in or on street mailboxes. They must not be left on, but may be placed in, rural mailboxes.

(c) *Individual receipts for mailing.* You are issued a receipt for each insured parcel mailed. You must enter the name and address of the addressee on the receipt and retain it. You must submit the receipt if you file an application for payment of insurance or if you file an inquiry concerning the parcel.

(d) *Firm mailing books.* Mailing books, Form 3877–A, are furnished without charge to patrons who mail an average of three or more parcels at one time. Spaces are provided for entering the description of parcels to be insured. The sheets of these books become the senders' receipts and the post office records. The books must be presented with the parcels to be mailed. Following are instructions for their use:

(1) Parcels on which 5- and 10-cent fees are paid are not numbered and should be listed on separate sheets or grouped together. Prepare only one copy.

(2) For parcels on which more than the 10-cent fee is paid, the postmaster will assign a series of numbers. The mailer must number the articles and the items in the book to correspond. Entries must be made in duplicate with carbon paper.

(e) *Temporary receipts.* A temporary receipt showing only the total number of parcels accepted may be issued when a large number of articles are mailed. The permanent receipt will be issued as soon as possible.

(f) *Mailing on rural routes.* You may give the mail to the rural carriers; or you may leave the mail in rural mailboxes, provided stamps are fixed for postage and fee, or money for postage and fee is left in the box. The sender must leave a note stating the amount of insurance desired. The Postal Service assumes no responsibility for articles or money left in rural mailboxes until the articles are receipted for.

§ 52.4 *Special services*—(a) *Restricted delivery service.* You may at the time of mailing direct that a parcel insured for over $10 be delivered only to the addressee or to someone named by him in writing. The mail will be endorsed: "Deliver to Addressee Only or Deliver to Addressee or Order."

(b) *Return receipt.* You may request a return receipt for a parcel insured for more than $10. Request at the time of mailing may be made either to the postal employee or by endorsement on the mail reading "Return Receipt Requested," or "Return Receipt Requested Showing Address Where Delivered." Request after mailing must be made at the post office where the insured parcel was mailed. The insurance receipt must be shown and the prescribed additional fee for this service paid. When the request is made after mailing, the return receipt will not show the address where delivery was made.

§ 52.5 *Delivery*—(a) *At letter carrier offices.* (1) Insured mail is held for the period specified in the sender's return card, but not in excess of 15 consecutive days. If no return period is specified, the mail is held for 15 days. The retention period of 15 days applies also to offices to which the mail may be forwarded.

(2) Insured parcels will be delivered to your home once, or if you receive your mail in a post office box or through general delivery, you will be furnished a notice of the arrival of the parcel. If you do not accept the parcel when it is delivered to you, it will be returned to the post office and held for the length of time directed by the sender, but never more than 15 days. You may go to the post office and obtain the parcel or you may request that it be delivered to your home again. The mailer may also request that it be delivered again.

(3) A request that a second attempt be made by a carrier to deliver an insured parcel that was refused the first time must be accompanied by postage at the local rate. A parcel that was not refused will be delivered a second time only if the addressee gives assurance that it will be accepted. No extra postage charge is made in such a case. A request by the sender for renewed delivery service must be accompanied by postage at the local rate.

(4) When delivery of an insured parcel has been attempted twice by carrier, postage at the local rate must be paid for each additional attempt.

(b) *At offices not having carrier delivery service.* The addressee is notified when an insured parcel is on hand for delivery. The notice is placed in the general delivery or in a post office box.

(c) *On star routes affording delivery service.* (1) Parcels insured for not over $10 will be delivered by the carrier without a written order of the addressee.

(2) Parcels insured for more than $10 are not delivered by star route carrier unless the addressee so requests in a written order filed with the postmaster. When such order is given, the carrier is regarded as the representative of the addressee and the responsibility of the

Postal Service ends when delivery has been made to the carrier.

(d) *Examination of mail.* The addressee or his representative may read and copy the name and address of the mailer from insured mail while it is in the possession of the postal employee. Examination of the contents may be made only after delivery has been made.

(e) *Type of delivery service.* Receipts are not obtained for the delivery of parcels insured for $10 or less. Parcels insured for over $10 are delivered in accordance with the regulations for the delivery of registered mail (see § 51.7 of this chapter), except that when delivery has not been restricted, mail addressed to a person at a hotel, apartment house, or the like, may be delivered to any person in a supervisory or clerical capacity to whom the mail is customarily delivered. Delivery receipts are obtained by the delivering carrier.

PART 53—C. O. D.

Sec.
53.1 Description.
53.2 Fees (in addition to postage).
53.3 Mailing.
53.4 Special services.
53.5 Delivery.
53.6 Registered c. o. d. mail.

AUTHORITY: §§ 53.1 to 53.6 issued under R. S. 161, 396, sec. 1, 41 Stat. 581, sec. 12, 65 Stat. 676; 5 U. S. C. 22, 369, 39 U. S. C. 245f, 382.

§ 53.1 *Description*—(a) *Purpose.* You may mail an article for which you have not been paid and have the price and the cost of the postage collected from the addressee when the article is delivered. This is collect-on-delivery service, which is usually called c. o. d. service. The amount collected is returned to you by a postal money order. The fees for c. o. d. service include insurance against loss, rifling, or damage to the article and failure to receive the amount collected from the addressee. You may also register articles which you mail c. o. d.

(b) *Classes of mail to which applicable.* Third- and fourth-class mail and sealed mail of any class (registered or unregistered) bearing postage at the first-class rate, may be sent c. o. d. The mail must bear the complete names and addresses of sender and addressee. The largest amount that will be collected from the addressee is $200. The amount of the c. o. d. collection ordinarily governs the c. o. d. fee, but the sender may pay a larger c. o. d. fee to secure additional indemnification above the amount of the collection for value up to $200; but he may not pay a fee less than prescribed for the c. o. d. collection. The c. o. d. service cannot be used for:

(1) Sending articles to addressees who have not ordered them or agreed to accept them.

(2) Collection agency purposes.

(3) Return of merchandise about which some dissatisfaction has arisen, unless the new addressee has consented in advance to such return.

(4) Sending only bills or statements of indebtedness, even though the sender may establish that the addressee has agreed to the collection in this manner. However, when a legitimate c. o. d. shipment consisting of merchandise, bill of lading, etc., is being mailed, the balance due on a past or anticipated transaction may be included in the charges on a c. o. d. article, provided the addressee has consented in advance to such action.

(5) Parcels containing moving-picture films mailed by exhibitors to moving picture manufacturers, distributors, or exchanges. Such parcels may be sent as insured mail, or, if sealed, by first-class registered mail.

(c) *Restrictions on military c. o. d. service.* C. o. d service to overseas military intallations is restricted to official shipments and shipments to Armed Forces agencies. Such mail addressed to Navy, Marine Corps, and Coast Guard is limited to such personnel stationed at land establishments or receiving ships permanently located at particular points in the continental United States.

§ 53.2 *Fees (in addition to postage).*

Indemnity (and c. o. d. collection to $200)	C. o. d. fees	
	Registered (see §53.6)	Unregistered
$0.01 to $5	$0.80	$0.30
$5.01 to $10	.80	.40
$10.01 to $25	1.10	.60
$25.01 to $50	1.10	.70
$50.01 to $100	1.20	.80
$100.01 to $150	1.40	.90
$150.01 to $200	1.40	1.00
$200.01 to $300	1.50	Indemnity for unregistered c. o. d. mail is limited to $200; for registered c. o. d. $1,000, same as for other registered mail. Collection for c. o. d. mail, unregistered or registered, is limited to $200.
$300.01 to $400	1.60	
$400.01 to $500	1.70	
$500.01 to $600	1.80	
$600.01 to $700	1.90	
$700.01 to $800	2.00	
$800.01 to $1,000	2.10	
Restricted delivery	.20	$0.20
Notice of nondelivery	.05	.05
Alteration of charges or delivery	.10	.10

§ 53.3 *Mailing*—(a) *Payment of fees and postage.* Fees and postage must be prepaid. The sender guarantees to pay any return and forwarding postage unless otherwise specified on the parcel.

(b) *Where to mail.* You must mail c. o. d. parcels at a post office, branch, or station or give them to a rural carrier. They may not be deposited in mail drops at post offices, nor in or on street mail boxes. They may not be left on, but may be placed in, rural mailboxes. (See also paragraph (h) of this section regarding mailing c. o. d. matter on rural routes.)

(c) *Individual receipts for mailing.* You are issued a receipt for each c. o. d. parcel mailed.

(d) *Firm mailing books and c. o. d. tags.* Firm mailing books, Form 3877–A, are furnished without charge to patrons who mail an average of three or more parcels at one time. Spaces are provided for entering the description of parcels to be sent c. o. d. The sheets of these books become the senders' receipts and the post office records. The books must be presented with the parcels to be mailed. Following are instructions for their use:

(1) The postmaster will assign a series of numbers. The mailer must number the articles and the items to correspond. Entries must be made in duplicate with carbon paper.

(2) A c. o. d. tag must be securely fixed by the sender to each c. o. d. article showing post office and date of mailing, article number, names and addresses of sender and addressee, amount due sender, and amount of money order fee necessary to make remittance. The necessary particulars must be filled in by sender. Stock tags are furnished by the post office without charge. There are three types of tags eyeletted for tying to parcels, and one uneyeletted type for attaching by gummed tape. Specially printed c. o. d. tags approved by the Postal Service are also used. The eyeletted tag, Form 3816, composed of delivery office portion, delivering employee's coupon, mailing office record and sender's receipt, is intended for use by patrons mailing less than three articles at one time.

(3) The particulars required on the tag must be filled in by the sender with ink, indelible pencil (not ordinary lead pencil), or typewriter. The Postal Service is not responsible for errors by senders in stating charges to be collected.

(4) When the c. o. d. remittance is to be sent to someone other than the actual mailer, the name and address of the person to whom the money is to be sent must appear in the proper spaces on the address side of the c. o. d. tag. The name and address of the actual mailer must be placed on the back of the delivery office portion of the tag. The name and address of the person to whom the money is to be paid must be shown as sender on the c. o. d. parcel itself, together with directions as to return, if undeliverable.

(e) *Nursery stock shipments.* Firms mailing nursery stock may print special c. o. d. tags bearing instructions as to disposition of shipments that are not immediately delivered. These tags must contain a coupon that will be returned with money order. The following rules apply:

(1) If the sender does not desire to have the parcel, if undeliverable, disposed of to the highest bidder, the sender's instructions on the back of the delivery-office portion of the c. o. d. tag (i), and on the sender's coupon (ii), should read:

(i) If addressee refuses to pay charges for any reason, deliver at once without collecting the charges. Notify sender at once if parcel is not delivered, and if no reply is received in 15 days, destroy parcel. See sender's coupon for further instructions.

(ii) Return this coupon with money order. If parcel is delivered without collection of charges, or is destroyed after 15 days, check disposition and send coupon to sender in penalty envelope.

☐ Delivered to addressee without collecting charges.

☐ Destroyed after 15 days.

(2) If sender desires to have the parcel, if undeliverable, disposed of to the highest bidder, the sender's instructions on the back of the delivery office portion of the c. o. d. tag (i), and on the sender's coupon (ii), should read:

(i) If addressee refuses to pay charges for any reason, deliver at once without collecting the charges. Notify sender at once if parcel is not delivered and if no reply is received in 15 days, sell to highest bidder and remit proceeds less commission. If sale cannot be made destroy parcel. See sender's coupon for further instructions.

(ii) Return this coupon with money order. If parcel is delivered without collection of charges, is destroyed after 15 days, or is sold, check disposition and send coupon to sender in penalty envelope.

☐ Delivered to addressee without collecting charges.

☐ Destroyed after 15 days.

☐ Sold for $_____. Remittance, less commission, herewith.

(f) *Multiple mailing forms.* Specially designed and privately printed multiple mailing forms are found by many mailers to be advantageous. They provide in one operation, by carbon or spot carbon process, address labels, firm mailing and post office records, and c. o. d. tags or labels to be stuck on stock c. o. d. tags. Specially designed recapitulation sheets are used for receipting purposes. Mailers desiring to use multiple forms should consult printers specializing in business forms, and submit specimen proofs to their local postmasters before printing.

(g) *Temporary receipt.* When, at the discretion of the postmaster, the number of articles presented for c. o. d. at one time warrants, a temporary receipt showing only the total number of parcels accepted may be issued. The permanent receipt will be issued as soon as possible.

(h) *Mailing on rural routes.* You may present mail to rural carriers for c. o. d. service. For c. o. d. mail the sender must fill in a c. o. d. tag with ink, indelible pencil (not ordinary lead pencil), or typewriter. You may leave mail in rural mail boxes for c. o. d. service provided sufficient stamps are fixed for postage and fee, or money for postage and fee is left in the box. If indemnity coverage for more than the c. o. d. charges is desired, a note should be left so stating. The Postal Service assumes no responsibility for articles or money left in rural mail boxes until the articles are receipted for.

§ 53.4 *Special services*—(a) *Restricted delivery service.* You may, at the time of mailing, direct that a c. o. d. parcel be delivered only to the addressee or to someone named by him in writing. The mail will be endorsed "Deliver to Addressee Only" or "Deliver to Addressee or Order."

(b) *Alteration or cancellation of c. o. d. charges or delivery.* Alteration or cancellation of c. o. d. charges or delivery to another address may be directed by the sender upon payment of the prescribed additional fee. The request must be made at office of mailing. Such change may be directed by telegram, the telegram being authorized and paid for by the sender but sent in the name of the postmaster.

§ 53.5 *Delivery*—(a) *At letter carrier offices.* (1) A c. o. d. parcel will be delivered to your home once, or if you receive your mail in a post office box or through general delivery, you will be furnished a notice of the arrival of the parcel. If you do not accept the parcel when it is delivered to you, it will be returned to the post office and held for the length of time directed by the sender, but never more than 15 days. You may go to the post office and obtain the parcel or you may request that it be delivered to your home again. The mailer may also request that it be delivered again.

(2) A request that a second attempt be made by a carrier to deliver a c. o. d. parcel that was refused the first time must be accompanied by postage at the local rate. A parcel that was not refused will be delivered a second time only if the addressee gives assurance that it will be accepted. No extra postage charge is made in such case. A request by the sender for renewed delivery service must be accompanied by postage at the local rate.

(3) When delivery of a c. o. d. parcel has been attempted twice by carrier, postage at the local rate must be paid for each additional attempt.

(4) No local rate of postage is charged for renewed attempts to deliver c. o. d. mail prepaid at the letter rate of postage.

(b) *At offices not having carrier delivery service.* You will be notified when a c. o. d. parcel is on hand for delivery. The notice is placed in the general delivery or in a post office box.

(c) *On star routes affording delivery service.* Your c. o. d. mail will not be delivered by star route carrier unless you so request in a written order filed with the postmaster. When such order is given, the carrier is regarded as your representative and the responsibility of the Postal Service ends when delivery has been made to the carrier. Delivery of c. o. d. mail is not made to a star route carrier until the c. o. d. charges are paid.

(d) *Type of delivery service.* C. o. d. parcels are delivered in accordance with the regulations for delivery of registered mail (see § 51.7 of this chapter), except that when delivery has not been restricted, mail addressed to a person at a hotel, apartment house, or the like, may be delivered to any person in a supervisory or clerical capacity to whom the mail is customarily delivered. Delivery receipts are obtained by the delivering carrier.

(e) *Examination of mail.* The addressee or his representative may read and copy the name and address of the mailer from c. o. d. mail while it is in the possession of the postal employee. Examination of the contents may be made only after the c. o. d. charges have been paid and delivery has been made.

§ 53.6 *Registered c. o. d. mail.* Sealed domestic mail of any class bearing postage at the first-class rate may be sent as registered c. o. d. mail. Such mail is handled the same as other registered mail. The maximum amount of charges collectible on a parcel is $200, but additional indemnity may be obtained over $200 up to the regular registry limit of $1,000 by payment of a higher fee. Registered c. o. d. mail is subject to surcharges applicable to other registered mail, except that the basis of the surcharge is the amount by which the declared actual value of the article exceeds the limit of indemnity covered by the fee paid.

PART 54—PAYMENT FOR LOSSES

Sec.
54.1 Indemnities paid.
54.2 Indemnities not paid.
54.3 Requests for payment of postal insurance.
54.4 Information required.
54.5 Recovery.

AUTHORITY: §§ 54.1 to 54.5 issued under R. S. 161, 396, 3928 as amended, sec. 1, 41 Stat. 581; 5 U. S. C. 22, 369, 39 U. S. C. 381, 382.

§ 54.1 *Indemnities paid.* The amount paid as indemnity for domestic registered, insured, and c. o. d. mail will not exceed the maximum amount of indemnity prescribed in §§ 51.4, 52.2, and 53.2 of this chapter, for the fee paid. The following rules apply to payments by the Postal Service:

(a) When an article is lost or damaged so that it cannot be repaired, the market value of the article at the time of loss, or its value on the date of mailing if the date of loss cannot be ascertained, is paid.

(b) In case of partial damage, the amount of the damage, or the actual and necessary cost of repairs, is paid.

(c) Actual, direct, and necessary expenses of duplicating valuable papers, or original cost when not duplicated, is paid. Indemnity will not be allowed for attorneys' fees incurred in the duplication of valuable papers, bonds, or securities.

(d) An indemnity is paid for remittances not received for delivered c. o. d. articles.

(e) All claims for indemnity involving mail that is also insured with commercial insurance companies or other insuring agencies, will be adjusted by the Post Office Department on a pro rata basis as a coinsurer with the commercial insurance companies or other insuring agencies.

(f) When the sender is incompetent or deceased and has no legal representative or cannot be located, the Department reserves the right to pay indemnity to such relative or representative of the sender as may in its judgment be entitled to receive the amount due. The Department also reserves the right to pay the addressee or the owner of the matter mailed, when indemnity is claimed by him under these circumstances, without the consent of the sender.

(g) The postage (not the fee) paid on any article lost or totally damaged will be refunded.

(h) The total amount to be paid to the claimant (indemnity plus postage) will be included in one check, also any unearned special delivery or special handling charges.

(i) The indemnity limit for registered articles mailed to the Canal Zone from Alaska, Hawaii, and all island possessions of the United States is $100.

(j) In all claims involving insured mail, and those involving c. o. d. mail which was delivered to the addressee, the Federal or State sales tax on merchandise lost or irreparably damaged may be allowed, when claimed, within the limit prescribed for the fee paid.

(k) If no agreement is reached in the case of a conflicting claim, indemnity will be paid to such person as may legally be entitled to receive it.

§ 54.2 *Indemnities not paid.* No indemnity will be paid:

(a) For the loss, rifling, or damage to, any matter that was not rightfully in the mails, or in the registered, insured, or c. o. d. mails, or was not lost, rifled, or damaged while in the custody of the Postal Service, or for which other compensation or reimbursement has been made through the Postal Service.

(b) When the sender knowingly and willfully failed to state, at the time of mailing, the full value of registered or insured mail treated as registered mail, except that the Department may pay such indemnity as is considered equitable in the light of the evidence.

(c) For the loss or rifling of, or damage to, any article remailed after proper delivery, unless the article was reregistered or reinsured after delivery, and the evidence established that the loss, rifling, or damage occurred in the Postal Service.

(d) For indirect, remote, and unnecessary expenses incident to repairs, or duplication of papers, or for any consequential loss.

(e) For the loss or rifling of, or damage to, any article without intrinsic value.

(f) For loss resulting from delay to a registered article.

(g) For the loss or rifling of, or damage to, an article before acceptance or after proper delivery.

(h) For loss of or damage to any registered mail or insured mail treated as registered mail upon which postage, fee, or any required surcharge has not been paid.

(i) For damage to incandescent lamps, radio tubes, and the like, where the glass bulbs are intact (not damaged or broken), unless it is established that the damage was due to improper handling in the mails.

(j) For damage to articles that are so fragile as to prevent their safe carriage in the mails regardless of the packaging.

(k) If the receipt issued at the time of mailing of an insured parcel, or the wrapper of the article bearing names and addresses of sender and addressee and the endorsement that the mail was insured, is not submitted.

(l) For consequential loss resulting from nondelivery, wrong delivery, damage, or delay in dispatch, transmission, or delivery of any article as distinguished from the actual value of, or the cost of repairs to, the article itself.

(m) For death of baby poultry, honeybees, and harmless live animals, unless their death is the fault of the Postal Service.

(n) For abrasion, scarring, or scraping of suitcases, handbags, and the like, when they were not packaged.

(o) For the spoiling or deterioration of perishable matter because of delays beyond the control of the Postal Service.

(p) For the freezing, melting, spoiling, or deterioration of matter directly due to the temperature (natural or artificial) to which such matter may have been subjected while in the custody of the Postal Service, except that indemnity will be paid where such damage was directly due to the fault of the Postal Service.

(q) For spoiling of perishable matter when the parcel could not possibly have reached the addressee in good condition in the ordinary course of the mails.

(r) For the loss of or injury to any matter mailed in the execution of any fraudulent scheme or enterprise.

(s) For damage to fragile type phonograph records.

(t) For the amount of an agent's commission, as distinguished from the amount of deposit by the addressee on the contents of a c. o. d. parcel, included as a part of the charges thereon, usually involved in shipments by mail order companies.

(u) If claim is not made within 1 year from the date of mailing of the article, unless it is established to the satisfaction of the Department that the delay in filing the claim was unavoidable and not the fault of the claimant.

(v) For incidental first- or second-class matter enclosed in insured parcels sent by airmail.

§ 54.3 *Requests for payment of postal insurance*—(a) *Request forms.* You must use Form 565 to request payment for registered mail losses, and Form 3812 to request payment for insured and c. o. d. mail losses. Copies of these forms may be obtained from your local postmaster.

(b) *Where to file requests.* You may file Forms 565 and 3812 at any post office. They do not have to be filed at the office where the articles were mailed or the offices to which they were addressed.

(c) *Who may file requests.* Forms 565 and 3812 may be filed by the person or firm who mailed the article or by the person or firm to whom the article was mailed.

(d) *Waiting period before filing claim.* A reasonable time must have elapsed for the article to have been received by the addressee, taking into account that the mail may be held at the post office of address if undelivered for varying periods before return. These retention periods are governed by the sender's instructions on the article mailed. If no retention period was stated on the mail, the following periods, plus transportation time, must be observed before claim is filed:

(1) Registered mail: 10 days.
(2) Insured mail: 15 days.
(3) C. o. d. mail: 15 days.

(e) *Time limit for filing claim.* All claims must be filed within 1 year from the date of mailing of registered, insured, or c. o. d. articles.

§ 54.4 *Information required.* Evidence that the mail was registered, insured, or sent c. o. d. must be submitted with Forms 3812 and 565. This evidence is either:

(a) The receipt issued at the time of mailing, or

(b) The wrapper or envelope of the article bearing names and addresses of sender and addressee and the endorsement that the mail was sent registered, insured, or c. o. d.

§ 54.5 *Recovery.* When a lost registered, insured, or c. o. d. article is recovered, you must accept the article and reimburse the United States for the full indemnity paid if the article is undamaged, or such pro rata amount as may be determined equitable by the Post Office Department if the article is damaged or has depreciated in value, or if the contents are not intact.

PART 55—CERTIFICATES OF MAILING

Sec.
55.1 Purpose.
55.2 Fees.
55.3 Forms.
55.4 Additional certificates after mailing.
55.5 Payment and certification.

AUTHORITY: §§ 55.1 to 55.5 issued under R. S. 161, 396; 5 U. S. C. 22, 369.

§ 55.1 *Purpose.* Certificates of mailing furnish evidence of mailing only. A receipt is not obtained upon delivery of the mail to the addressee. The fee paid for certificates of mailing does not insure the article against loss or damage.

§ 55.2 *Fees*—(a) *Ordinary mail of any class.*

Original certificate: 3 cents for each piece of mail described.
Additional certificates (or copies): 1 cent for each piece of mail described.

(b) *Identical pieces of first- and third-class mail.*

Certificate covering:	Cents
1–200 pieces	10
201–1,000 pieces	15
Each additional 1,000 pieces, or fraction	3

When the time required by postal employees to make the count and issue the certificate is longer than 30 minutes, the fee charged will be based on the time consumed at an hourly rate of $1.62. The fee for additional (duplicate) certificates is 5¢ each.

(c) *Registered, insured, and c. o. d. mail.* No charge other than the prescribed registration, insurance, or c. o. d. fee is made for the original certificate. Each additional certificate will cost 1¢ for each piece of mail described.

§ 55.3 *Forms*—(a) *Who prepares.* (1) Certificates of mailing are prepared by the mailer, except mailers on rural routes. Individual and firm mailing book certificates must show the name and address of both the sender and the addressee, and may show the amount of postage paid. Identifying invoice or order numbers also may be placed on the certificate.

(2) Patrons of rural routes may deliver mail to the rural carrier together with the fee for the certificate. The carrier will obtain the certificate at the post office, attach the stamps, cancel them by postmark, and deliver the certificate to the sender on his next trip.

(b) *Individual certificates.* Form 3817 is used for an individual certificate for ordinary mail of any class.

(c) *Firm mailing books.* Firm mailing books Forms 3877 or 3877–A or forms printed at the mailer's expense may be used for certificates for three or more pieces of mail of any class presented at one time. Individual certificates may be obtained.

(d) *Bulk mailings.* Certificates for mailings of identical pieces of first- and third-class advertising matter are made on Form 3606. This is a certification that a specified number of pieces has been mailed.

(e) *Quantity mailings.* When the number of articles ordinarily presented justifies such action, mailers will be required to comply with the following:

(1) When individual certificates on Form 3817 are desired, the forms must either be fixed by the stub to the articles or the forms must be consecutively numbered and fastened together. If the certificates are numbered, the articles also should be lightly numbered at a uniform place to permit relating the parcels and certificates.

(2) When the articles are descriptively listed on firm mailing sheets or on special approved forms, they should, if practicable, be presented in the order in which they are entered on the sheets; otherwise, each entry must be consecutively numbered by the mailer, and the articles must be lightly numbered to show the sheet and line number on which they are described.

§ 55.4 *Additional certificates after mailing.* To obtain an additional certificate after mailing domestic ordinary mail, the sender must present the original certificate issued together with the additional certificate to be issued, the latter being endorsed "duplicate" or "copy." The additional certificate must show the dates of mailing of the matter involved, and will be postmarked to show the current date.

§ 55.5 *Payment and certification.* Mailers are required to fix uncanceled stamps or metered postage impressions to cover the fee for certificates of mailing. This will be canceled by the postmark of the mailing office. Signatures or initials of accepting employees are not required on Form 3817 or on firm mailing sheets when used as certificates of mailing for ordinary mail. The postmark shows the genuineness of the certificate. Form 3606 for bulk mailings will be certified by the postmaster.

PART 56—SPECIAL DELIVERY

Sec.
56.1 Description of special delivery.
56.2 Payment for special delivery.
56.3 Hours of delivery.
56.4 Delivery procedures.
56.5 Undelivered mail.
56.6 Acceptance by letter carriers and messengers.

AUTHORITY: §§ 56.1 to 56.6 issued under R. S. 161, 396, sec. 12, 65 Stat. 676; 39 U. S. C. 246f.

§ 56.1 *Description of special delivery*—(a) *Points of delivery.* Special-delivery mail is given immediate delivery at the office of address during prescribed hours to:

(1) Points within a radius of 1 mile of any post office, station, or branch.

(2) Points within the delivery limits of any post office having letter carrier service.

(3) Points within one-half mile of a rural route, if there is a passable road leading to the addressee's dwelling or place of business.

(b) *Transporting and delivering.* Special-delivery mail is handled and transported in the same manner and with the same expedition as first-class mail. Payment of a special-delivery fee does not insure safety of delivery or provide for the payment of indemnity. Money or other valuables sent special delivery should also be registered. Insured and c. o. d. mail may be sent special delivery.

§ 56.2 *Payment for special delivery*—(a) *Special-delivery fees.*

Class of mail	Weight		
	Not more than 2 pounds	More than 2 pounds but not more than 10 pounds	More than 10 pounds
	Cents	Cents	Cents
First class	20	35	50
All other classes	35	45	60

Special-delivery fees on airmail are chargeable according to the class of matter being transported.

(b) *Prepayment of fee.* Prepay special-delivery fee by special-delivery stamps or ordinary postage stamps. The special-delivery fee must be prepaid in addition to regular postage. Official matter in penalty or franked envelopes is not entitled to free special delivery, except urgent official communications of the Post Office Department.

(c) *Insufficient postage*—(1) *Letters.* The failure of the sender to place the correct postage on a special-delivery letter will not hinder or delay the transmission and special delivery of the letter. Postage due will be collected as provided in subparagraph (4) of this paragraph.

(2) *First-class mail other than letters.* First-class mail other than letters, when prepaid one full rate by stamps in addition to the special-delivery stamp, is dispatched and postage due will be collected as provided in subparagraph (4) of this paragraph. Matter with postage wholly unpaid, although bearing a special-delivery stamp, will be held for postage.

(3) *Second-, third-, and fourth-class mail.* Insufficiently prepaid matter of the second, third, or fourth class, although bearing a special-delivery stamp, is held for postage, provided that when through error a third- or fourth-class parcel prepared for special delivery is partly but not fully prepaid, and it is not practicable to collect the deficiency from the sender without delaying the parcel, it is rated with the amount due and dispatched.

(4) *Postage-due collections.* Postage due on special-delivery matter is collected on delivery. The regular first-class rate of postage is required on special-delivery first-class letters weighing 1 ounce or less when sent without prepayment of postage. On first-class letters weighing more than 1 ounce and sent without prepayment of postage, the deficient postage at the regular rate, plus an additional charge of 1 cent for each ounce, computed on the unpaid weight, is collected on delivery. All other special-delivery mail that reaches its destination with no prepayment of postage is charged with postage due at double rates.

§ 56.3 *Hours of delivery*—(a) *Weekdays.* Special delivery is made at city-delivery offices from 7 a. m. to 11 p. m. and at all other post offices from 7 a. m. to 7 p. m. and after the arrival of the last mail if that is not later than 9 p. m. Later hours for delivery may be fixed in particular cases.

(b) *Sundays and holidays.* Special delivery is made at first- and second-class offices on Sunday and at other offices if the mail or mails arrive between the closing hour on Saturday and 6 p. m. on Sunday. Special delivery is made at all offices on holidays.

§ 56.4 *Delivery procedures*—(a) *To whom delivery may be made.* Ordinary special-delivery mail is delivered to the addressee or to anyone authorized to receive his mail. At letter-carrier offices, special-delivery mail, other than registered and insured, addressed to a post office box, or to the general delivery, is delivered to the box or held for delivery through the general delivery window, unless the addressee has given written notice that such mail be delivered to his residence or place of business. When special-delivery mail is received at a letter-carrier office addressed to a street address and the addressee usually receives his mail through a post office box or through the general-delivery window, the mail is delivered as addressed, unless the addressee files a written notice directing delivery to his box or through the general-delivery window. At offices not having letter-carrier service, all special-delivery mail is delivered to the residence or place of business of the addressee, unless the addressee files a written request that such mail be deposited in his post office box or held for delivery through the general-delivery window.

(b) *Delivery in mail receptacles.* When no one is at the address to receive mail, the messenger, if he can determine that the occupants are absent for not more than 1 day, will leave the mail and a notice on Form 3955.

(c) *Notice of attempted delivery.* When mail cannot be delivered as described in paragraph (b) of this section, the notice Form 3955, left under the door or in the receptacle, will state where the special-delivery mail is being held, the name of the addressee, the messenger's number, the date, and whether it is registered, insured, c. o. d., or marked or known to be perishable.

(d) *Delivery to rural boxes.* Special-delivery mail for an addressee who lives more than one-half mile from the rural route is delivered to his box. If he lives within one-half mile of the route and delivery cannot be made to his residence or place of business, it is deposited in his box, and a notice of non-delivery on Form 3955 is left at his residence or place of business. (See § 46.3 (b) of this chapter for parcels that are too large for the box.)

(c) *Delivery to general delivery.* Special-delivery mail addressed to a post office box, or to the general delivery, is delivered to the box or held for delivery through the general delivery window, unless the addressee has given written notice that such mail be delivered to his residence or place of business. When special-delivery mail is received at a letter-carrier office addressed to a street address and the addressee usually receives his mail through a post office box or through the general-delivery window, the mail is delivered as addressed, unless the addressee files a written notice directing delivery to his box or through the general-delivery window. At offices not having letter-carrier service, all special-delivery mail is delivered to the residence or place of business of the addressee, unless the addressee files a written request that such mail be deposited in his post office box or held for delivery through the general-delivery window.

(d) *Delivery to rural boxes.* Special-delivery mail for an addressee who lives more than one-half mile from the rural route is delivered to his box. If he lives within one-half mile of the route and delivery cannot be made to his residence or place of business, it is deposited in his box, and a notice of non-delivery on Form 3955 is left at his residence or place of business. (See § 46.3 (b) of this chapter for parcels that are too large for the box.)

§ 56.5 *Undelivered mail.* Special-delivery mail that cannot be delivered as addressed is returned to the sender, unless he has requested that it be forwarded. Special-delivery mail addressed to a person who has left no forwarding address is returned to the sender.

§ 56.6 *Acceptance by letter carriers and messengers.* Letter carriers and messengers are not required to accept special-delivery mail for delivery at points beyond the limits of the delivery service.

(e) *Military posts and camps.* No special-delivery service is provided by military personnel at military posts and camps. Special delivery by messenger is made only to addresses such as officer's homes, headquarters, hospitals, and other places where it is definitely known that delivery can be made.

(f) *Forwarded special-delivery mail.* Special-delivery mail that is forwarded is not entitled to special delivery at the second office, unless a forwarding order had been given by the addressee at the office of original address in advance of the arrival of the mail. Registered mail will not be forwarded without authority as explained in Part 51 of this chapter.

§ 56.5 *Undelivered mail.* Special-delivery mail is not delivered in receptacles, left under the door, or delivered a second time if the mail bears a specific request that it be returned to the sender if prompt delivery cannot be made. Special-delivery mail that cannot be delivered is treated the same as other undeliverable matter.

§ 56.6 *Acceptance by letter carriers and messengers.* Letter carriers, whether assigned to delivery or collection duty, and special-delivery messengers, will accept prepaid matter bearing a special-delivery stamp handed to them on their trips, and deliver it to the proper clerk immediately upon their arrival at the post office. Letter carriers will not turn over local matter for special delivery directly to messengers.

PART 57—SPECIAL HANDLING

Sec.
57.1 Description of special handling.
57.2 Special-handling fees.
57.3 Marking of parcels.
57.4 Forwarding.

AUTHORITY: §§ 57.1 to 57.4 issued under R. S. 161, 396, sec. 204, 62 Stat. 1262, sec. 12, 65 Stat. 676; 5 U. S. C. 22, 369, 39 U. S. C. 245f, 292a.

§ 57.1 *Description of special handling.* Special-handling service is available for fourth-class mail only including that which is insured or sent c. o. d. It provides the most expeditious handling, dispatch, and transportation available, but does not provide special delivery. Special-handling parcels are delivered as parcel post is ordinarily delivered, on regular scheduled trips. The special-handling fee must be paid on all parcels that must be given special attention in handling, transportation, and delivery, such as parcels containing baby chicks or other baby poultry, package bees carried outside mail bags, baby alligators, etc.

§ 57.2 *Special-handling fees.*

Weight:	Fee (cents)
Not more than 2 pounds	15
More than 2 pounds but not more than 10 pounds	20
More than 10 pounds	25

The special-handling fee is in addition to regular fourth-class postage, and may be prepaid by special-handling stamps or by ordinary postage stamps.

§ 57.3 *Marking of parcels.* The words "Special Handling" should be marked or stamped immediately above the name of the addressee.

§ 57.4 *Forwarding.* Parcels undeliverable as originally addressed and forwarded to the addressee at a new address are given special handling without requiring an additional special-handling fee. Additional postage at the regular fourth-class rate is collected on delivery.

Subchapter G—Nonmail Services

PART 61—MONEY ORDERS

Sec.
61.1 How to buy a domestic money order.
61.2 How to buy an international money order.
61.3 How to cash a money order.
61.4 Lost or damaged money orders.

AUTHORITY: §§ 61.1 to 61.4 issued under R. S. 161, 396, 4027, secs. 304, 309, 42 Stat. 24, 25, sec. 12, 65 Stat. 676; 5 U. S. C. 22, 369, 39 U. S. C. 245f, 711.

§ 61.1 *How to buy a domestic money order*—(a) *Where to buy.* You may buy domestic money orders at all post offices, branches, and stations in the United States and its possessions, except for certain offices in Alaska. You may also buy international money orders at most of these offices and stations. Money order facilities are also provided for members of the Armed Forces of the United States. Special procedures for rural patrons are explained in paragraph (e) of this section.

(b) *Money order fees.*

Amount of money order	Amount of fee	
	Domestic	International
$0.01 to $5	$0.10	$0.20
$5.01 to $10	.15	.30
$10.01 to $50	.25	.50
$50.01 to $100	.35	.70

(c) *Making application*—(1) *Application form.* To buy a money order you must obtain an application, Form 6001, at any post office. Enter on this form:

(i) The amount.

(ii) The name and address of the person (payee) to whom the order is to be made payable.

(iii) The name and address of the purchaser (or purchasers).

Business concerns who wish to include money order applications with advertising matter to their customers may obtain them through their local postmaster.

(2) *To whom payable.* Money orders may be made payable:

(i) To yourself, if desired.

(ii) To only one firm or person, by complete name. Don't put the name "Smith" for an individual. But you may address "Smiths" if it is the name of a company or firm.

(iii) To payees (the persons to whom payable) by their official titles. For example, you can designate: Cashier, First National Bank; Superintendent of Insurance, New York State; Director of Internal Revenue, Baltimore.

(iv) To persons who have adopted a name in a religious order, such as Sister Theresa, or Brother Joseph.

(3) *Identifying data.* Always add your insurance account, policy number, or other identification to help speed payment. Designate government agencies directly, as: Director of Internal Revenue; Superintendent of Documents; Veterans Administration.

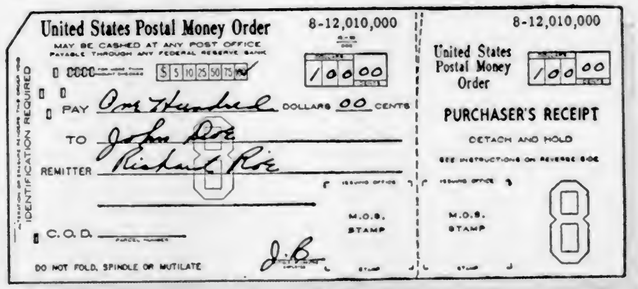
(4) *Money order amounts.* The maximum amount for a single money order is $100. There is no limitation on the number of orders that may be purchased at one time, except when the Department may require temporary restrictions.

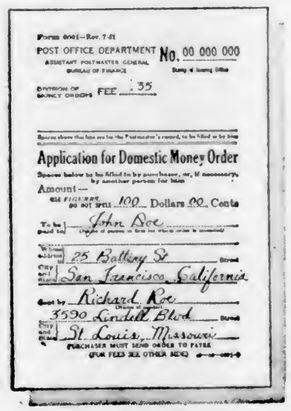
(5) *Paying for your money order.* Money order fees are stated in paragraph (b) of this section. Pay for your money order in American money. You cannot use promissory notes in payment. Post offices may accept, from a person whose endorsement is acceptable, a Federal Government check in payment of a money order. Post office personnel are not required to accept personal checks in payment of money orders.

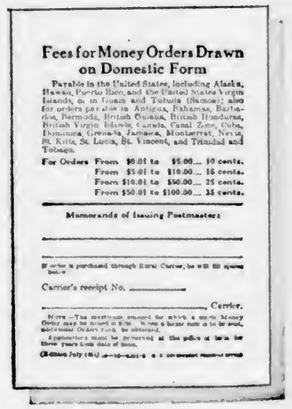
(d) *Errors and alterations.* Make sure that the money order you receive agrees with the application form you submitted. If you discover an error, request that another order be issued to you. Never make an alteration on a money order. That could make it invalid. If you must return a money order after it has been issued and made a matter of record, your postmaster will issue a new one. If he was at fault, no fee will be charged for the new one.

(e) *Procedures for rural patrons*—(1) *Application form.* Obtain an application from your rural carrier. You will be given a numbered receipt when you return the completed application form with the money. If the carrier cannot give you the correct change in payment, he is authorized to meet you on his next trip or to place the change in a special envelope and place it in your rural box. Never deposit money in your rural box. You do so at your own risk. When carriers do find money in a box with a completed application, Form 6001, they will take it to their post office for issue of the money order. Carriers will deliver money orders to patrons on their next regular trip with the receipt attached.

(2) *Requesting the mailing of order to payee.* If you want the money order mailed to the payee, instruct the carrier to deliver an addressed envelope, furnished by you with appropriate postage, to the post office. The carrier will enclose the money order and mail the envelope. No fee or charge is required for this service. The rural carrier will not give you the receipt, since he has previously given one to you at the time the application was received with the money.







§ 61.2 *How to buy an international money order*—(a) *Where to buy.* You may buy an international money order at almost all first-class post offices. Some second-, third-, and fourth-class post offices have also been designated to provide this service. International money orders will be issued to addressees in those countries that have agreed with the United States to conduct such business.

(b) *Making application.* (1) Apply for an international money order on Form 6701.

(2) For some countries, you use the same form as for a domestic money order. Your post office will advise you. Canada, Cuba, Canal Zone, Bermuda and Trinidad are in this category.

(3) For money order service to European, African, and Asiatic countries, use the international money order form. In some cases, the order is written in foreign currency. In most cases, the amount is written in United States dollars and converted into foreign currency in the country where payable.

(4) You must use Form 6083, written in the foreign language, when you send money orders payable in Greece, Lebanon, Syria and Yugoslavia. Money orders payable through Japan, when the purchaser and payee are Chinese, Japanese, or Korean, follow the same method.

(5) When the international money order form is used, you will be given a receipt. The postmaster will arrange for sending the order abroad.

(6) You must state the following details in your application regarding the payee: full name, exact address, name of city, town, or village; name of the canton, department, or district as the case may be. If the payee is a woman, state whether single, married, or a widow.

(7) The amounts of orders sent on the international form may not be repaid to you here until the foreign postal department authorizes such action.

§ 61.3 *How to cash a money order*—(a) *Time limits.* You must cash a money order within 1 year from the last day of the month in which it was issued. For example, a money order purchased on October 2 of one year must be cashed on or before October 31 of the next year. To obtain payment of a money order that is more than 1 year old, consult your local postmaster.

(b) *Where to cash.* (1) You may cash a domestic or international money order at full face value in American money at any post office, station, or branch.

(2) If you are a patron of a rural route, your rural carrier will cash your money order. You must endorse it in his presence. No fee or compensation is required for this service.

(c) *Signature requirements*—(1) *Acceptance of signature.* The paying post office may accept any signature of the payee, remitter, or endorsee that is not different from the name given on the order.

(2) *Signature by mark.* Patrons who cannot write must use a mark. Marks (usually X) must be witnessed by someone who is not a post office employee.

(3) *Signature by firms, organizations, and their representatives.* All money orders payable to a business firm, an organization, society, institution, or government agency must be signed in the name of the organization by a representative authorized to do so. It may be necessary for such authority to be presented and filed. The representative must also sign with his own name and organizational title. If drawn in favor of an official by name and presented by a successor, the latter must sign as follows: "William Jones, Treasurer, successor to George Thompson."

(4) *Use of titles.* Use of such titles as "Dr., Rev., Prof., Madam, Mrs., M. D.," or "D. D. S.," are not required in signing a money order for payment, whether or not such title is used on the face of the money order.

(5) *Stamped signatures.* A stamped signature is acceptable as an endorsement on a money order when drawn in favor of a firm, corporation, association, society, or individual, provided the money order is presented to a bank for payment. A post office will also accept stamped signatures, provided an agreement is filed in advance regarding the responsibility for the correctness of such payments.

(d) *Identification.* You must be able to prove your identity if you want your money order cashed. Your driver's permit, military identification card, or similar items are helpful in establishing identity.

(e) *Payment of orders to other than payee*—(1) *Transfer of money order*—(i) *By purchaser or payee.* The payee or purchaser of a money order may endorse it to any other person or firm.

(ii) *On power of attorney.* A person with a power of attorney may cash money orders in behalf of the payee who gave him that authority. The power of attorney must be filed at the office of payment.

(iii) *On separate written order.* You may file a separate written order with the post office authorizing payment to another person. Such a person must be designated by name as the one to receive payment.

(2) *Upon assignment.* When a payee, such as an individual or firm, makes an assignment, and intends that money orders be paid to the assigned person, he must file a power of attorney or a written order in the post office. The person designated to receive payment must receipt the money order and indicate below his signature the capacity in which he acts.

(3) *On death of payee.* A money order belonging to a deceased owner may be paid or repaid to the executor or administrator of the estate appointed by the court. A certified copy of the appointment as executor or administrator must be filed with the local postmaster. Payments will be made in accordance with the laws of the State of which the deceased was a resident.

(4) *To a concern no longer in business.* Money orders will be paid to the legal representative of a firm, association, or company that has ceased to exist.

(5) *To a committee or a guardian.* Money orders will not be paid to a ward when declared incompetent by a court. They will be paid only to the committee, guardian, or other duly authorized person.

(6) *To minors.* A money order payable to a minor may be paid to the father or mother as natural guardian unless prohibited by court order.

(f) *When orders will not be paid*—(1) *When there is a second endorsement.* A money order with more than one endorsement is invalid. Consult your local post office for proper procedure to obtain a duplicate.

(2) *When there is a question on a c. o. d. parcel.* No payment will be made when a money order has been issued in return for a c. o. d. parcel, and is presented by the addressee (purchaser) and the money order has not been endorsed by the payee (shipper) or the payee has not expressly authorized payment to the purchaser by written approval.

(g) *Non-payment because of fraud*—(1) *Stop payment.* If you are the purchaser and you have proof that the order was purchased because of false representations or other fraudulent action of the payee, or that the payee is engaged in conducting a scheme or device for obtaining money fraudulently through the mails, you may request the post office to withhold payment. The post office will take appropriate action in such matters.

(2) *When payments are forbidden.* Your post office will not make payments under any circumstances when an order has been issued by the Postmaster General forbidding payment of money orders to any person or firm.

§ 61.4 *Lost or damaged money orders*—(a) *When you lose a money order.* A money order that is lost within 1 year from the last day of the month of issue will be replaced without charge by the Post Office Department. Make application through your local postmaster.

(b) *Making application.* The postmaster at the issuing office will wait 36 days after the date of the issue of the original order before forwarding the application for the duplicate, except that an application may be accepted, certified, and forwarded at once if the person in whose favor the application is made executes Indemnity Bond, Form 6116. The Indemnity Bond must be in an amount not less than that of the money order, conditioned on refund if after payment of the duplicate a valid claim is presented.

(c) *Consent of payee or endorsee.* Where a money order has been endorsed, the consent of the payee or the endorsee must be obtained before a duplicate can be issued. In the case of a money order lost before endorsement, a duplicate will be issued to the payee upon application. A duplicate will be issued to the remitter on consent of the payee, or endorsee if any. When a waiver of claim is shown on the application form for a duplicate, Form 6402, the payee's or endorsee's signature must be certified by his local postmaster. Where the payee or endorsee is deceased, his legal representative must sign the form and also produce necessary authority that he properly acts in that capacity.

(d) *When original order is not available.* If the original order is not available, the local post office will send your application to the issuing post office for processing.

(e) *Payment of duplicate orders.* A duplicate money order will be paid at any post office under the same conditions governing the payment of the original money order.

PART 62—NON-POSTAL STAMPS, AND BONDS

Sec.
62.1 Documentary internal revenue stamps.
62.2 Migratory-bird hunting stamps.
62.3 United States savings stamps.
62.4 United States savings bonds.

AUTHORITY: §§ 62.1 to 62.4 issued under R. S. 161, 396, secs. 304, 309, 42 Stat. 24, 25; 5 U. S. C. 22, 369, 39 U. S. C. 245f, 711.

§ 62.1 *Documentary internal revenue stamps.* You may purchase documentary internal revenue stamps at all first- and second-class post offices, and at third- and fourth-class offices located in county seats.

§ 62.2 *Migratory-bird hunting stamps*—(a) *Availability.* You may purchase migratory-bird hunting stamps at all first- and second-class post offices, and at certain designated third- and fourth-class offices where there is a demand for them.

(b) *Price.* Migratory-bird hunting stamps cost $2 each.

§ 62 3 *United States savings stamps*—(a) *Availability.* You may purchase United States savings stamps at any post office where there is a demand for them. Postmasters sell savings stamps to business houses, schools, institutions, or other organizations that desire to purchase them for resale, but do not extend any savings-stamp credits.

(b) *Denominations.* Savings stamps are furnished in sheets in denominations of 10, 25 and 50 cents, and $1 and $5. The 10-cent and 25-cent stamps are also available bound in books. Books of fifty 10-cent savings stamps sell for $5 and books of forty 25-cent stamps for $10.

(c) *Savings-stamp albums.* Savings stamps will not be redeemed until stuck in an album of the appropriate denomination. You may obtain savings-stamp albums for each denomination free from the postmaster.

(d) *Payment to bearer.* Savings stamps are transferable, and are payable to bearer at any post office. Savings stamps will be redeemed for cash when presented by banks and other institutions that have accepted them in payment for United States savings bonds.

(e) *Mutilated stamps.* (1) The postmaster will accept at face value any savings stamp that has been torn, burned, or badly mutilated, when one or more fragments can be identified as constituting clearly more than one half of the same stamp. If the fragment or fragments are not so identifiable, send them (with the entire album, if the stamp had been stuck in an album before it was mutilated) to the Treasurer of the United States, Washington 25, D. C.

(2) If stamps have adhered to each other so that they cannot be separated and their value determined (which can usually be done by soaking the stamps in warm water), forward them to the Treasurer of the United States.

§ 62.4 *United States savings bonds*—(a) *Availability.* The Post Office Department acts as agent of the Treasury Department for the sale of Series E United States savings bonds at post offices in communities where no banks sell the bonds or where there are no other issuing agents.

(b) *Denominations.* Savings bonds are sold in denominations of $25, $50, $100, $200, $500, and $1,000 maturity value and in registered form only. The purchase price is 75 percent of the maturity value.

(c) *Purchase.* Application for U. S. Savings Bonds, Form 920, is supplied by the postmaster. State on the form, by denomination, the number of bonds applied for, the total amount of the purchase, and the name and address to be inscribed on the face of the bond. Form 920 may also be used in applying for bonds by mail to a Federal Reserve bank or the Treasury Department.

(d) *Errors on bonds.* If an error is discovered on a bond after it is issued, return the bond to the postmaster for correction. If returned during the month of issue and if the error was made by the postmaster, he will issue a new bond in its stead. If the bond is returned after the month of issue, or if the error was not the fault of the postmaster, he will give a receipt for it and forward it to Washington for reissue.

(e) *Safekeeping.* The postmaster will assist owners in arranging with Federal Reserve banks for the safekeeping of bonds, but will not act as safekeeping agent. Form PD 1423, used for this purpose, is available at the post office.

(f) *Certification for payment.* Postmasters do not cash savings bonds but will certify them for payment if sufficient identification is furnished and if the bonds are to be forwarded by the owner to a Federal Reserve bank or to the Treasurer of the United States for payment.

PART 63—POSTAL SAVINGS

Sec.
63.1 Purpose.
63.2 Accounts.
63.3 Deposits.
63.4 Ownership.
63.5 Interest.
63.6 Withdrawals.
63.7 Privacy of accounts.
63.8 Nuisance accounts.
63.9 Claims.

AUTHORITY: §§ 63.1 to 63.9 issued under R. S. 161, 396, sec. 1, 36 Stat. 814, as amended, secs. 304, 309, 42 Stat. 24; 5 U. S. C. 22, 369, 39 U. S. C. 951.

§ 63.1 *Purpose.* The Postal Savings System was established to provide facilities for the deposit of savings at interest with the security of the United States Government for repayment. The Postmaster General selects and designates post offices that are to be postal savings depositories.

§ 63.2 *Accounts*—(a) *Who may open*—(1) *Persons.* Any person 10 years of age or over may open a postal savings account in his or her own name. Accounts are opened in the names of individuals only. No person is permitted by law to have more than one postal savings account at the same time in his own right. A married woman may open an account in her own name, and free from any control or interference by her husband. Joint accounts may not be opened nor may a beneficiary be named.

(2) *Officials.* Officers and agents in charge of bankrupt funds may deposit them without limit in postal savings depositories in cases where local banks are unable or unwilling to give the required security.

(b) *How to open an account*—(1) *In person.* To open an account, apply in person at a depository post office.

(2) *Through a representative.* If, because of infirmity or for other reason, you are unable to appear in person, you may apply through a representative.

(3) *By mail.* If you live in a community where there is no postal savings depository, you may apply at any post office to open an account by mail at a depository post office. The money to be deposited must accompany the application, preferably by money orders, but if in cash by registered mail. The depository postmaster will issue certificates in the amount requested and mail them to you.

(4) *Identification data.* You are required to furnish information to be used in identifying yourself when the certificates are presented for payment and may be required to furnish fingerprints.

(5) *Signature.* If you usually sign your given name or names by initials, your full name must be written on the form and the application signed twice, first using your full name and then your initials or initial in the manner in which you wish the account to be maintained and certificates issued.

(c) *Record of account*—(1) *Form.* When you open an account, a card record is established, a number assigned the account, and the record maintained as the official record of the account at the office where opened.

(2) *Name.* Your name is entered on the account card in the manner in which the account is to be maintained and certificates issued.

(3) *Change in name.* A woman who marries after opening an account, or a depositor whose name is changed by court order, should so inform the postmaster and present all outstanding postal savings certificates to him. The depositor will be required to sign the new name on the record of the account, and the postmaster will annotate the certificates to show the new name. Until the depositor presents his or her certificates for proper notation, the postmaster, if aware of the change of name by marriage or by court order, will receive no further deposits for the account nor make any partial or interest payments but will make full payment to close the account if satisfied as to the depositor's identity.

(4) *Entries.* The amount of each deposit, the amount of each withdrawal and the balance on deposit are entered on the record.

(d) *Maximum balance.* The maximum balance permitted, exclusive of accrued interest, is $2,500, except for deposits of bankruptcy funds, where there is no limit.

§ 63.3 *Deposits*—(a) *Amount.* Deposits must be made in whole dollar amounts only.

(b) *Evidence of deposit*—(1) *Issuance of certificates.* Deposits are evidenced by nontransferable and nonnegotiable certificates of deposit in fixed denominations of $1, $5, $10, $20, $50, $100, $200, $500, $1,000, and $2,500. Certificates are delivered to depositors when issued, and postmasters are not authorized to accept them after issue for safekeeping.

(2) *Correction of errors.* If an error is found in a certificate after issue, the depositor should advise the issuing postmaster. The postmaster will give the depositor a receipt for the certificate, and forward the certificate to the Department for correction of the error.

(3) *Replacement.* A depositor should advise the postmaster at the office where his account is held when any of his certificates are lost, stolen, destroyed, or improperly withheld. The postmaster will furnish the depositor with an application, Form PS 607, for replacements and will transmit the completed application to the Department. If approved, new certificates identical with the originals but marked "Reissued" will be issued. If a certificate is found after it has been reissued, it must be surrendered to the depository postmaster.

§ 63.4 *Ownership.* The determination of any court of competent jurisdiction, unless appealed, is accepted as conclusive of title to postal savings accounts, and payment in accordance with such determination operates as a full and complete discharge of the United States from any further claim. An authenticated copy of the court determination must be submitted to the post office.

§ 63.5 *Interest*—(a) *Rate.* Interest is payable at 2 percent per year, except in Mississippi where the rate is 1½ percent.

(b) *Start.* Deposits begin to earn interest on the first day of the month following the date of deposit.

(c) *Compound interest.* Interest is compounded annually on whole dollar amounts on certificates issued on or after September 1, 1954.

(d) *Simple interest.* Certificates surrendered between annual periods, or for periods of less than 1 year, earn simple interest computed quarterly. Deposits made before September 1, 1954, earn simple interest until the certificates are surrendered or exchanged.

(e) *Collection.* The interest that accrues during any quarter is payable on or after the first day of the next quarter and may be collected by surrendering the certificate at the office of issue. However, the interest date for the certificate evidencing the redeposit will be the first day of the succeeding month.

(f) *Taxation.* Interest credited to postal savings accounts on moneys deposited on and after March 1, 1941, is not exempt from Federal income taxes, but interest credited to postal savings accounts on moneys deposited prior to March 1, 1941, is wholly exempt from Federal income tax.

§ 63.6 *Withdrawals*—(a) *On demand at office of issue.* You may withdraw on demand all or any part of funds deposited at the office of issue. If a withdrawal is made within 1 month from the date of issue as shown on the certificate, a service charge of 10 cents will be made for each certificate regardless of denomination.

(b) *In person.* Present the certificates you want paid at the office of issue and, if the postmaster is satisfied as to your identity, you will receive immediate payment (unless the amount is large and the postmaster has to obtain the necessary funds).

(c) *Through a representative.* If you are unable to appear in person, you may designate a representative to make a withdrawal. When it has been shown to the postmaster's satisfaction that you cannot appear in person, he will furnish the necessary blank order form. When the executed order and endorsed certificates are presented to the postmaster, he will make payment if satisfied as to your identity and that of your representative.

(d) *Powers of attorney.* Powers of attorney in connection with the withdrawal of postal savings funds will be accepted only when executed by members of the Armed Forces of the United States serving abroad and must be accompanied with a statement from the attorney-in-fact that the depositor is still living and is stationed outside the United States. The papers will be submitted by the postmaster to the Department for approval and no payment will be made until he has received approval.

(e) *By mail.* You may withdraw by mail, using Form PS 315, which will be furnished by the postmaster. The completed form and endorsed certificates must be mailed to the postmaster who, if satisfied as to your identity, will effect payment.

(f) *Withdrawal of bankruptcy funds.* Certificates must be endorsed by the depositing officer or agent (or his successor, whose appointment must be evidenced by a court order), and in addition may be countersigned by another individual in his representative court capacity if it is the requirement of the referee having jurisdiction over the funds in question. If the amount is unusually large, the postmaster will need time to obtain the necessary funds.

(g) *Deceased depositors*—(1) *Accounts of $20 or less.* A postmaster may, without specific authority, pay an account of $20 or less to the following upon presentation of proper evidence and written request by the applicant.

(i) Administrator or executor.

(ii) An entitled distributee or legatee on behalf of other distributees or legatees under a decree of distribution.

(iii) Surviving spouse, child, or parent, in the order named, or in the absence of any one of these, a brother or sister, if no administration on the depositor's estate has been asked for or granted.

(iv) The undertaker or other preferred creditor in the absence of administration or next of kin.

(2) *Accounts not requiring administration.* If a depositor dies intestate and

the amount on deposit is small ($500 or less, except when the laws of the State in which the money is deposited provide either specifically or by court decision for the payment of a larger amount without administration), the next of kin or the person who paid the funeral expenses may apply for payment.

(3) *Accounts requiring administration.* When the amount on deposit is such that more than $500 will be available for distribution to heirs after allowing for payment of preferred claims, the amount due a deceased depositor in the final settlement of his account will be payable only to the legal representative appointed under the laws of the State in which the money is deposited, unless administration is not required by such State laws. Proper authority of the legal representative must be presented to the postmaster where the account is held.

(b) *Incompetent depositors.* In cases of mental disability or other legal incompetence of a depositor, other than minority, the amount on deposit will be payable to the guardian, committee, conservator, or other legally appointed representative upon presentation of proper evidence of appointment. In cases where the depositor has been judicially declared incompetent and no guardian or other legal representative has been appointed and the gross value of the incompetent's estate is sufficiently small, application for withdrawal may be made by a State official or a member of the family if permissible under the laws of the State where the account is held.

§ 63.7 *Privacy of accounts.* Postmasters and postal employees shall not disclose the name of any postal savings depositor nor give any information concerning a particular account to any person other than the depositor himself without specific authority, except that the balance on deposit may be given in the following circumstances:

(a) When a depositor is deceased or has been adjudged mentally incompetent, the information may be furnished to the duly appointed legal representative or next of kin.

(b) Upon the request of any State or county supervisor of old-age or unemployment assistance established pursuant to the Social Security Act, if the supervisor states he believes the applicant may have a postal savings account.

(c) When the applicant for relief has given written permission to representatives of relief agencies not connected with the Social Security Act, if the relief supervisor states he believes the applicant may have a postal savings account.

§ 63.8 *Nuisance accounts.* Accounts persistently showing a rapid turnover of deposits or which are intended to serve as a safe place in which to leave funds for brief periods or which otherwise indicate an unreasonable use of postal savings facilities are considered nuisance accounts. Postmasters are authorized to notify holders of such accounts that, unless they make a more conservative use of the Postal Savings System, they will refuse further deposits. If a depositor does not comply with the request, the postmaster may refuse to accept further deposits. The postmaster may also refuse to open a new account if it is known that an applicant had previous accounts at the office that were nuisance accounts.

§ 63.9 *Claims.* When there is any dispute as to ownership, or a claim by other than the depositor is made for payment of a postal savings account, the postmaster will withhold payment of withdrawals from the account involved pending instructions from the Post Office Department in Washington.

[1] Except in the capital cities, special delivery articles will be delivered by special messenger only if the addressee is located within 1½ miles of a post office at which a telegraph messenger is employed.

[2] Articles for special delivery in localities outside the post office town are subject to collection from the addressee of a fee which is calculated in accordance with the distance of the place of destination from the post office.

[3] Accepted, if registered.

[4] Belize only.

[5] Articles which are prepaid at the letter rate and are known or thought to contain merchandise shall be returned to the senders if the necessary green labels are not affixed to the covers. On return the articles must be appropriately endorsed as to the reason for the return.

[6] Registry return receipt, requested at time of mailing: 5 cents; after mailing: 10 cents. When a return receipt is requested for a registered article addressed for delivery in Canada (including registered mail dispatched in jacket envelopes), the mailing postmaster shall prepare and send the domestic form of return receipt (Form 3811) with the article unless he has Form 2865.

[7] Available only for letters or articles prepaid at the letter rate.

[8] Single post cards, 4 cents each; letters and other articles, 6 cents per ounce.

[9] The maximum weight limit of letter packages to the Yukon district and to members of the Canadian Armed Forces overseas addressed for delivery through the Canadian Army Post Office is 4 pounds 6 ounces.

[10] Registry service is available only to the island of Taiwan (Formosa).

[11] Special delivery service in China is confined to the delivery radius of Chinese express or delivery offices.

[12] Such articles when wrongly accepted for mailing are delivered on payment of double duty if registered and triple duty if ordinary. If refused by the addressees, they are seized by the customs.

[13] Delivery service limited to within the municipal limits of Famagusta, Kyrenia, Larnaca, Limassol, Nicosia, and Paphos.

[14] Special delivery articles addressed for delivery beyond the free delivery zone of the post office of destination are subject to an additional charge to be collected from the addressee based on the distance traversed to effect delivery beyond the said zone.

[15] Articles addressed for delivery within the carrier-delivery limits of the cities of Guayaquil and Quito will be given the benefit of special delivery service.

[16] Accepted, if registered.

[17] The addressees of articles prepaid at the letter rate, whether ordinary or registered, supposed to contain dutiable articles and received without the green label, Form 2976 (C 1), affixed, are summoned to witness their opening by the customs for disposal under the regulations. Requests for return of such articles to the senders are not complied with in any case.

[18] Regulations prescribed by U. S. S. R. authorities.

[19] Special delivery service is limited to cities.

[20] Ocean and Gilbert Islands, onward from Australia by ordinary means. Ellice, Fanning, Washington and Christmas Islands, onward from Fiji by ordinary means.

[21] Accepted, if registered.

[22] Where the domicile of the addressee is located outside of the local radius, a special fee is collected at the time of delivery.

[23] Service applicable only to unregistered letters, post cards, and printed matter.

[24] Dutiable letter packages received unaccompanied by the green label, Form 2976 (C 1), or paper customs declaration, Form 2976–A, are subject to a heavy fine in addition to the customs duty.

[25] Articles sent from this country for special delivery in Ireland at a distance over 1 mile from the post office of destination are subject to the collection from the addressee of 6 pence for each additional mile or part of a mile, after the first mile.

[40] Accepted if registered.
[41] When mailed in Guam the rate is 10 cents per half ounce.
[42] All places except Angola: Postage rate, 25 cents per half ounce. Air letter sheets and post cards, 10 cents each.
Angola only: Postage rates: Letters and letter packages, 25 cents per half ounce. Air letter sheets and post cards, 10 cents each. Other Postal Union articles, 63 cents for the first 2 ounces and 42 cents for each additional 2 ounces.
[43] Accepted, if registered.
[44] Available only in the cities of Mogadishu, Merca, Kismayu, Isha Baidoa and Bender Kassim. Special delivery articles are delivered free up to 1 mile from the office of destination. A charge of 50 cents (East African currency) is made for each additional mile or part of a mile.
[45] Small packets are accepted for Spain only. Small packets not accepted for Balearic Islands, Canary Islands, and the Spanish Offices in Northern Africa.
[46] The obligation of delivery by special messenger is limited to places served by city carriers. In other localities delivery is effected by special messenger, if possible; otherwise the addressee is notified by telephone or in some other way of the arrival of the articles so he may call at the post office for them.
[47] Generally limited to articles not subject to import quota restrictions.
[48] Special delivery articles are delivered only from head and branch offices where telegraph messengers are located. Free delivery is effected to any point within 1 mile of the special delivery office; beyond that distance there is collected a charge of 6 pence per mile or fraction thereof, in addition to the cost of any conveyance necessary.
[49] Limited to duty-prepaid packages of medicine.
[50] Accepted if registered. Such articles not bearing the green label, Form 2976 (C 1), are subject to confiscation.
[51] Per ounce.

PART 101—LETTERS AND LETTER PACKAGES

Sec.
101.1 Surface rates.
101.2 Air rates.
101.3 Weight limits.
101.4 Dimensions.
101.5 Mailing requirements and restrictions.

AUTHORITY: §§ 101.1 to 101.5 issued under R. S. 161, 396, 398; secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372.

§ 101.1 *Surface rates.* The surface rate for letters and letter packages to Canada and Mexico is 3 cents per ounce. The surface rate to all other countries is 8 cents for the first ounce; 4 cents for each additional ounce.

§ 101.2 *Air rates.* For air mail rates for letters and letter packages, see § 100.1 of this chapter. The rate for air letter sheets is 10 cents each for all countries.

§ 101.3 *Weight limits.* The weight limit for letters and letter packages to all countries except Canada is 4 pounds 6 ounces; for Canada, 60 pounds.

§ 101.4 *Dimensions*—(a) *Maximum dimensions.* (1) Maximum length is 24 inches. Maximum length, breadth and thickness combined is 36 inches. When sent in the form of a roll, the length (the maximum of which may not exceed 32 inches) plus twice the diameter, may not exceed 40 inches. However, in the case of indivisible objects sent to countries listed in subparagraph (2) of this paragraph, the length (which may not exceed 40 inches) plus twice the diameter, may be 48 inches.

(2) Countries to which the conditions of the Postal Union of the Americas and Spain are applicable:

Argentina.
Bolivia.
Brazil.
Canada.
Chile.
Colombia.
Costa Rica.
Cuba.
Dominican Republic.
Ecuador.
Guatemala.
Haiti.
Honduras (Republic of).
Mexico.
Morocco (Spanish Zone).
Nicaragua.
Panama.
Paraguay.
Peru.
Philippines (Republic of).
Salvador (El).
Spain (including Balearic Islands, Canary Islands and Spanish Offices in Northern Africa).
Spanish Guinea.
Spanish West Africa.
Uruguay.
Venezuela.

(b) *Minimum dimensions.* Envelopes should not measure less than 4 inches in length and 2¾ inches in width.

§ 101.5 *Mailing requirements and restrictions*—(a) *Restrictions.* Letters and letter packages shall not contain any documents having the character of actual personal correspondence addressed to persons other than the addressee or persons residing with the latter.

(b) *Dutiable contents*—(1) *Mailability.* Articles liable to customs duty (merchandise) may be forwarded in letters or letter packages, provided such importation is not prohibited by the country of destination.

(2) *Customs label to be affixed.* You must complete and affix to the address side of such article the green (customs) label, Form 2976, referred to in § 133.1 (a) of this chapter. If you know that the contents of the package are not dutiable you may, if you prefer, omit Form 2976. Acceptance for mailing will then be at your risk, and the Post Office Department will assume no responsibility for the treatment that may be accorded the article by the foreign customs authorities. Omission of this form may, however, result in delayed delivery and possible penalties against the addressee, regardless of whether the contents are dutiable or not. Special restrictions exist with respect to certain countries.

(3) *Countries to which not acceptable.* The following countries will not accept dutiable articles sent in letters or letter packages. Countries marked with an asterisk (*) will accept dutiable articles sent in letters or letter packages only when registered:

*Azores.
Bolivia.
Brazil.
British Honduras.
China.
Colombia.
*Ecuador.
Estonia.
*Guatemala.
Italy (see note).
Japan.
Korea.
Latvia.
Lithuania.
*Madeira Islands.
*Panama.
*Peru.
Rumania.
Ryukyu Islands.
Salvador (El).
Spanish Guinea.
Spanish West Africa.
Union of Soviet Socialist Republics.
*Uruguay.
Venezuela.

NOTE: Italy will accept packages containing only small quantities of streptomycin and penicillin sent as gifts. The medicine must be prepared to be used directly for personal treatment, and will be admitted on condition that the addressees submit to the customs office the regulation permit from the Italian health authorities.

(4) *Acceptance at sender's risk.* A letter or package containing merchandise offered for mailing to one of the countries named in subparagraph (3) of this paragraph may be accepted only on condition that the sender knows that the contents are not dutiable in the country of destination, in which case form 2976 may be omitted. The Post Office Department will assume no responsibility for the treatment of these articles by the foreign customs authorities.

(c) *Endorsement.* Senders should add the words "Letter (lettre)" on the address side of letters and letter packages which, by reason of the volume or packing, may be mistaken for matter of another class.

PART 102—POST CARDS

Sec.
102.1 Surface rates.
102.2 Airmail rates.
102.3 Dimensions.
102.4 Mailing requirements.
102.5 Reply-paid post cards.

AUTHORITY: §§ 102.1 to 102.5 issued under R. S. 161, 396, 398, secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372.

§ 102.1 *Surface rates.* Surface rate for post cards to Canada and Mexico is 2 cents single; 4 cents reply paid. To all other countries, 4 cents single; 8 cents reply paid.

§ 102.2 *Airmail rates.* For airmail rates for post cards see § 100.1 of this chapter.

§ 102.3 *Dimensions.* Maximum dimensions, 6 inches by 2¼ inches. Minimum dimensions, 4 inches by 2¼ inches.

§ 102.4 *Mailing requirements*—(a) *Form*—(1) *How made.* Post cards shall be made of cardboard or of paper strong enough not to hinder their handling. Government postal cards may be used, adding postage if necessary. Folded sheets of paper whose two inner faces have been glued completely one over the other, so that there is no danger of other articles slipping inside, are treated as post cards. The present post card which must be of strong cardboard does not permit the making of good carbon copies as required by business concerns. By using the folded sheet of paper, satisfactory typewritten copies may be made, after which the sheet is folded in two parts, one being the face for the address and the other the back for the message. No writing is allowed on the inside of the two halves which must be firmly glued together and conform to the dimensions prescribed in § 102.3.

(2) *Enclosure prohibited.* Post cards shall be sent unenclosed, without wrapper or envelope.

(3) *Spaces for address and message.* The right half, at least, of the address side is reserved for the address of the addressee and the notations or labels relating to the service. The sender may use the back and the left half of the address side.

(4) *How postage is affixed.* Postage stamps or postage-paid impressions must appear on the address side, in the upper righthand corner of the card.

(b) *Attachments.* You may not join or attach samples of merchandise or similar articles to post cards. However, illustrations, photographs, stamps of any kind, labels and clippings of any kind, of paper or other very thin material, as well as address labels or slips to be folded back, may be glued thereto, on condition that they do not alter the character of the post cards and that they adhere completely to the card. These articles may be glued only on the back or left half of the address side of the card except address labels or slips which may occupy the entire address side. Stamps of any kind, likely to be confused with postage stamps, may be placed only on the back.

(c) *When treated as letters.* Post cards which do not fulfill the conditions laid down for that class of articles are treated as letters, with the exception of those on which the irregularity consists solely of the application of the stamps on the back. The latter are considered as unprepaid and are treated accordingly. See § 104.5 (b) of this chapter as to cards admitted as printed matter.

§ 102.5 *Reply-paid post cards*—(a) *Availability.* Reply-paid post cards, bearing the required endorsements, are available at post offices in two denominations: 2 cents on each half for Canada and Mexico; 4 cents on each half for other countries. The domestic reply-paid post postal card shall not be used in international mails.

(b) *Form.* The two parts of a reply-paid card must be folded one part over the other, so that the fold forms the upper edge, and they may not be sealed in any manner. The sender may indicate his name and address on the address side of the reply half, either in writing, printing, or by affixing a label thereto. The address on the reply half shall be folded on the inside of the article. The sender may have printed on the back of the reply half a questionnaire to be filled in by the addressee. The latter may return the inquiry half attached to the reply-portion, in which case the address on the inquiry half shall be crossed out and folded on the inside of the card.

(c) *Privately printed reply-paid post cards.* Reply-paid post cards which are privately printed for use in the international mails shall have on the front, in the French language, as the heading of the first or message part, the words "Carte postale avec réponse payée" (post card with reply paid), and the words "Carte postale réponse" (reply post card) as the heading on the second or reply part. Each of the two parts must fulfil the other conditions laid down for a single card.

(d) *Prepayment.* Prepayment of the two halves shall be by means of United States postage stamps (2 cents for Canada and Mexico and 4 cents for other countries) affixed to each half. The prepayment of the reply half by means of postage stamps of the country which has issued the cards is valid only if the two parts of the card with reply paid have arrived joined together from the country of origin and if the reply half is sent from the country where it arrived by mail and is addressed to the country of origin. If these conditions are not fulfilled, it is treated as an unprepaid post card.

PART 103—COMMERCIAL PAPERS

Sec.
103.1 Surface rates.
103.2 Airmail rates.
103.3 Weight limits.
103.4 Dimensions.
103.5 Description.
103.6 Reference slips.
103.7 Endorsements and sealing.

AUTHORITY: §§ 103.1 to 103.7 issued under R. S. 161, 396, 398, secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372.

§ 103.1 *Surface rates.* Surface rate for commercial papers for all countries is 3 cents for the first 2 ounces and 2 cents for each additional 2 ounces. Minimum charge is 10 cents.

§ 103.2 *Airmail rates.* For airmail rates for commercial papers see § 100.1 of this chapter.

§ 103.3 *Weight limits.* Weight limit for commercial papers is 4 pounds 6 ounces.

§ 103.4 *Dimensions*—(a) *Maximum dimensions.* Length, breadth, and thickness combined, 36 inches; greatest length 24 inches. When sent in the form of a

roll, the length (the maximum of which may not exceed 32 inches) plus twice the diameter, may not exceed 40 inches. However, in the case of indivisible objects sent to countries listed in subparagraph (2) of this paragraph, the length (which may not exceed 40 inches) plus twice the diameter, may be 48 inches.

(2) Countries to which the conditions of the Postal Union of the Americas and Spain are applicable:

Argentina.
Bolivia.
Brazil.
Canada.
Chile.
Colombia.
Costa Rica.
Cuba.
Dominican Republic.
Ecuador.
Guatemala.
Haiti.
Honduras (Republic of).
Mexico.
Morocco (Spanish Zone).
Nicaragua.
Panama.
Paraguay.
Peru.
Philippines (Republic of).
Salvador (El).
Spain (including Balearic Islands, Canary Islands and Spanish Offices in Northern Africa).
Spanish Guinea.
Spanish West Africa.
Uruguay.
Venezuela.

(b) *Minimum dimensions.* Envelopes should not measure less than 4 inches in length and 2¾ inches in width.

§ 103.5 *Description.* Commercial papers may be described as printed matter, business papers, or merchandise, as appropriate.

§ 103.6 *Reference slips.* Reference slips may be enclosed in commercial papers.

§ 103.7 *Endorsements and sealing.* Commercial papers may be sealed or unsealed. Endorsements may be made as provided in § 104.5 (b) of this chapter.

PART 104—PRINTED MATTER

Sec.
104.1 Surface rates.
104.2 Airmail rates.
104.3 Weight limits.
104.4 Dimensions.
104.5 Mailing requirements and restrictions.

AUTHORITY: §§ 104.1 to 104.5 issued under R. S. 161, 396, 398, secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372.

§ 104.1 *Surface rates.* Surface rate for printed matter for all countries is 2 cents for the first 2 ounces and 1 cent for each additional 2 ounces. Minimum charge is 10 cents.

§ 104.2 *Airmail rates.* For airmail rates for printed matter see § 100.1 of this chapter.

§ 104.3 *Weight limits.* Weight limit for printed matter is 4 pounds 6 ounces.

§ 104.4 *Dimensions*—(a) *Maximum dimensions.* Length, breadth, and thickness combined, 36 inches; greatest length 24 inches. When sent in the form of a roll, the length (the maximum of which may not exceed 32 inches) plus twice the diameter, may not exceed 40 inches. However, in the case of indivisible objects sent to countries listed in subparagraph (2) of this paragraph, the length (which may not exceed 40 inches) plus twice the diameter, may be 48 inches.

(2) Countries to which the conditions of the Postal Union of the Americas and Spain are applicable:

Argentina.
Bolivia.
Brazil.
Canada.
Chile.
Colombia.
Costa Rica.
Cuba.
Dominican Republic.
Ecuador.
Guatemala.
Haiti.
Honduras (Republic of).
Mexico.
Morocco (Spanish Zone).
Nicaragua.
Panama.
Paraguay.
Peru.
Philippines (Republic of).
Salvador (El).
Spain (including Balearic Islands, Canary Islands and Spanish Offices in Northern Africa).
Spanish Guinea.
Spanish West Africa.
Uruguay.
Venezuela.

(b) *Minimum dimensions.* Envelopes should not measure less than 4 inches in length and 2¾ inches in width.

§ 104.5 *Mailing requirements and restrictions*—(a) *Restrictions.* Printed matter shall not contain any documents having the character of actual personal correspondence addressed to persons other than the addressee or persons residing with the latter.

(b) *Dutiable contents*—(1) *Mailability.* Articles liable to customs duty (merchandise) may be forwarded in printed matter packages, provided such importation is not prohibited by the country of destination.

(2) *Customs label to be affixed.* You must complete and affix to the address side of such article the green (customs) label, Form 2976, referred to in § 133.1 (a) of this chapter. If you know that the contents of the package are not dutiable you may, if you prefer, omit Form 2976. Acceptance for mailing will then be at your risk, and the Post Office Department will assume no responsibility for the treatment that may be accorded the article by the foreign customs authorities. Omission of this form may, however, result in delayed delivery and possible penalties against the addressee, regardless of whether the contents are dutiable or not. Special restrictions exist with respect to certain countries.

(3) *Countries to which not acceptable.* The following countries will not accept dutiable articles sent in printed matter packages. Countries marked with an asterisk (*) will accept dutiable articles sent in printed matter packages only when registered:

*Azores.
Bolivia.
Brazil.
British Honduras.
China.
Colombia.
*Ecuador.
Estonia.
*Guatemala.
Italy (see note).
Japan.
Korea.
Latvia.
Lithuania.
*Madeira Islands.
*Panama.
*Peru.
Rumania.
Ryukyu Islands.
Salvador (El).
Spanish Guinea.
Spanish West Africa.
Union of Soviet Socialist Republics.
*Uruguay.
Venezuela.

NOTE: Italy will accept packages containing only small quantities of streptomycin and penicillin sent as gifts. The medicine must be prepared to be used directly for personal treatment, and will be admitted on condition that the addressees submit to the customs office the regulation permit from the Italian health authorities.

(4) *Acceptance at sender's risk.* A package containing merchandise offered for mailing to one of the countries named in subparagraph (3) of this paragraph may be accepted only on condition that the sender knows that the contents are not dutiable in the country of destination, in which case form 2976 may be omitted. The Post Office Department will assume no responsibility for the treatment of these articles by the foreign customs authorities.

(c) *Endorsement.* Senders should add the words "Printed matter (imprimés)" on the address side of packages which, by reason of the volume or packing, may be mistaken for matter of another class.

(d) *Wrapping.* Printed matter may be sent in open wrappers, envelopes, or sealed packages.

(e) *Enclosures.* Printed matter may contain enclosures of printed matter.

PART 105—SMALL PACKETS

Sec.
105.1 Surface rates.
105.2 Airmail rates.
105.3 Weight limits.
105.4 Dimensions.
105.5 Mailing requirements and restrictions.

AUTHORITY: §§ 105.1 to 105.5 issued under R. S. 161, 396, 398, secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372.

§ 105.1 *Surface rates.* Surface rate for small packets for all countries is 5 cents for the first ounce and 1 cent for each additional ounce. Minimum charge is 10 cents.

§ 105.2 *Airmail rates.* For airmail rates for small packets see § 100.1 of this chapter.

§ 105.3 *Weight limits.* Weight limit for small packets is 4 pounds 6 ounces.

§ 105.4 *Dimensions*—(a) *Maximum dimensions.* Length, breadth, and thickness combined, 36 inches; greatest length 24 inches. When sent in the form of a roll, the length (the maximum of which may not exceed 32 inches) plus twice the diameter, may not exceed 40 inches. However, in the case of indivisible objects sent to countries listed in subparagraph (2) of this paragraph, the length (which may not exceed 40 inches) plus twice the diameter, may be 48 inches.

(2) Countries to which the conditions of the Postal Union of the Americas and Spain are applicable:

Argentina.
Bolivia.
Brazil.
Canada.
Chile.
Colombia.
Costa Rica.
Cuba.
Dominican Republic.
Ecuador.
Guatemala.
Haiti.
Honduras (Republic of).
Mexico.
Morocco (Spanish Zone).
Nicaragua.
Panama.
Paraguay.
Peru.
Philippines (Republic of).
Salvador (El).
Spain (including Balearic Islands, Canary Islands and Spanish Offices in Northern Africa).
Spanish Guinea.
Spanish West Africa.
Uruguay.
Venezuela.

(b) *Minimum dimensions.* Envelopes should not measure less than 4 inches in length and 2¾ inches in width.

§ 105.5 *Mailing requirements and restrictions*—(a) *Restrictions.* Small packets shall not contain any documents having the character of actual personal correspondence addressed to persons other than the addressee or persons residing with the latter.

(b) *Dutiable contents*—(1) *Mailability.* Articles liable to customs duty (merchandise) may be forwarded in small packets, provided such importation is not prohibited by the country of destination.

(2) *Customs label to be affixed.* You must complete and affix to the address side of such article the green (customs) label, Form 2976, referred to in § 133.1 (a) of this chapter. If you know that the contents of the package are not dutiable you may, if you prefer, omit Form 2976. Acceptance for mailing will then be at your risk, and the Post Office Department will assume no responsibility for the treatment that may be accorded the article by the foreign customs authorities. Omission of this form may, however, result in delayed delivery and possible penalties against the addressee, regardless of whether the contents are dutiable or not. Special restrictions exist with respect to certain countries.

(3) *Countries to which not acceptable.* The following countries will not accept dutiable articles sent in small packets. Countries marked with an asterisk (*) will accept dutiable articles sent in small packets only when registered:

*Azores.
Bolivia.
Brazil.
British Honduras.
China.
Colombia.
*Ecuador.
Estonia.
*Guatemala.
Italy (see note).
Japan.
Korea.
Latvia.
Lithuania.
*Madeira Islands.
*Panama.
*Peru.
Rumania.
Ryukyu Islands.
Salvador (El).
Spanish Guinea.
Spanish West Africa.
Union of Soviet Socialist Republics.
*Uruguay.
Venezuela.

NOTE: Italy will accept packages containing only small quantities of streptomycin and penicillin sent as gifts. The medicine must be prepared to be used directly for personal treatment, and will be admitted on condition that the addressees submit to the customs office the regulation permit from the Italian health authorities.

(4) *Acceptance at sender's risk.* A package containing merchandise offered for mailing to one of the countries named in subparagraph (3) of this paragraph may be accepted only on condition that the sender knows that the contents are not dutiable in the country of destination, in which case form 2976 may be omitted. The Post Office Department will assume no responsibility for the treatment of these articles by the foreign customs authorities.

(c) *Endorsement.* Senders should add the words "Small packet (petit paquet)" on the address side of packages which, by reason of the volume or packing, may be mistaken for matter of another class.

(d) *Wrapping.* Small packets may be sent in open wrappers, envelopes, or sealed packages.

(e) *Enclosures.* Small packets may contain enclosures of printed matter.

roll, the length (the maximum of which is 32 inches) plus twice the diameter is limited to 40 inches; however, in the case of indivisible objects exchanged with countries to which § 101.4 (a) of this chapter applies, the length (40 inches maximum) plus twice the diameter may be as much as 48 inches.

(b) *Minimum dimensions.* Envelopes should measure not less than 4 inches in length and 2¾ inches in width.

§ 103.5 *Description.* The following are considered as commercial papers, provided that they do not have the character of actual and personal correspondence:

(a) All papers and documents, wholly or partly written or drawn, such as out-of-date articles of correspondence (opened letters and post cards, even though they bear canceled postage stamps or postage paid impressions which have served to pay the original postage) which have already reached their original destination, and copies thereof;

(b) Papers of legal procedure;

(c) Documents of all kinds drawn up by ministerial officers;

(d) Waybills or bills of lading;

(e) Invoices;

(f) Certain documents of insurance companies;

(g) Copies of or extracts from documents under private seal written on stamped or unstamped paper;

(h) Scores or sheets of music in manuscript;

(i) Manuscripts of books or of newspapers sent separately;

(j) Original and corrected exercises of students, but without any notes not relating directly to the execution of the work;

(k) All articles (even when they have the character of actual and person correspondence) containing correspondence exchanged between students in schools: *Provided*, That such articles are sent through the intermediary of the heads of the schools concerned.

§ 103.6 *Reference slips.* The documents enumerated in § 103.5 may be accompanied by reference slips or memoranda bearing notations showing the number of the pieces composing the shipment, or references to correspondence exchanged between the sender and addressee, such as: "Enclosure to our letter of _____ addressed to _____. Our reference _____ Customer's reference _____."

§ 103.7 *Endorsements and sealing.* Commercial papers must be endorsed "Commercial Papers" and must not be sealed.

PART 104—PRINTED MATTER

See.
104.1 Surface rate.
104.2 Air mail rates.
104.3 Weight limits.
104.4 Dimensions.
104.5 Description.
104.6 Mailing requirements.
104.7 Raised print for the blind.
104.8 Books.
104.9 Endorsements and sealing.

AUTHORITY: §§ 104.1 to 104.9 issued under R. S. 161, 396, 398, secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372.

§ 104.1 *Surface rate.* Surface rate for printed matter to all countries is 2 cents for the first 2 ounces and 1½ cents for each additional 2 ounces or fraction. Daily newspapers issued and mailed as frequently as six times a week to bona fide subscribers in Canada by publishers or registered news agents are subject to special rates. Other second-class matter (see Part 22 of this chapter) mailed to Canada by publishers and registered news agents, 1 cent for each 4 ounces or fraction. Special rates apply to raised print for the blind. See § 104.7.

§ 104.2 *Air mail rates.* For air mail rates for printed matter see § 100.1 of this chapter.

§ 104.3 *Weight limits*—(a) *In general.* Subject to the exceptions noted in paragraph (b) of this section the weight limit on printed matter is 6 pounds 9 ounces; for volumes of printed books sent singly, 11 pounds. Special weight limits apply to printed matter for the blind. See § 104.7.

(b) *Exceptions.* The weight limit for printed matter in general to Canada is 6 pounds 9 ounces; to Paraguay and Peru, 11 pounds. Printed matter packages for the Philippines are limited to 11 pounds, except those addressed to cities and containing legal, medical, scientific or educational books, which may weigh up to 22 pounds. A single volume at the printed matter rate to Canada may weigh up to 11 pounds; to Cuba, Mexico, Panama or El Salvador, 60 pounds.

§ 104.4 *Dimensions*—(a) *Maximum dimensions.* Length, breadth, and thickness combined, 36 inches; greatest length, 24 inches. When sent in the form of a roll, the length (the maximum of which is 32 inches) plus twice the diameter is limited to 40 inches; however, in the case of indivisible objects exchanged with the countries to which § 101.4 (a) of this chapter applies, the length (40 inches maximum) plus twice the diameter, may be as much as 48 inches combined.

(b) *Minimum dimensions.* Envelopes should measure not less than 4 inches in length and 2¾ inches in width.

§ 104.5 *Description*—(a) *General definition.* The term "printed matter" applies to all impressions or reproductions obtained upon paper, or materials similar to paper, parchment, or cardboard, by means of printing, engraving, lithography, photography, or any other easily recognizable mechanical process, with the exception of the copying press, stamps with movable or immovable type, and the typewriter.

(b) *What is admissible as printed matter.* The following are admitted as printed matter:

(1) Newspapers and periodicals;

(2) Books and pamphlets;

(3) Sheet music;

(4) Visiting cards, address cards;

(5) Printing proofs (with or without the relative manuscripts);

(6) Unframed photographs, engravings;

(7) Albums containing photographs;

(8) Printed pictures, drawings, plans, maps;

(9) Patterns to be cut out;

(10) Calendars (except calendar pads with blank pages for memoranda);

(11) Catalogs, prospectuses, advertisements;

(12) Notices;

(13) Cards although bearing the title "Post Card" providing they fulfill the general conditions for prints. Those which do not fulfill these conditions are treated as post cards, or, if occasion arises, as letters.

(14) Matrices of material similar to paper or cardboard;

(15) Reproductions of handwriting or typewriting obtained by means of the printing press, mimeograph, multigraph, or similar mechanical process are acceptable as printed matter under the same conditions as are applied in the domestic service.

(c) *Not admissible as printed matter.* The following are not acceptable at the printed matter rate:

(1) Printed papers which bear any marks whatever capable of constituting a conventional language or with the exceptions specifically authorized by paragraph (d) of this section, those of which the text has been modified after printing;

(2) Stamps or forms of prepayment, canceled or not, including Internal Revenue strip stamps, and all printed papers representing a monetary value;

(3) Articles of stationery, when it appears clearly that the printed text is not the essential part of the article;

(4) Framed photographs and certificates;

(5) Photographic negatives and slides;

(6) Films;

(7) Phonograph records, and perforated papers intended to be used on automatic musical instruments;

(8) Disc or wire recordings of correspondence, etc.;

(9) Bulk shipments of printed envelopes, letterheads, billheads, calendar pads, and similar articles, as well as diaries (books), check books, greeting cards or folders, and the like, which, although containing some printed matter, such as dates, headings, etc., have blank spaces or pages in which entries are to be made in manuscript or on the typewriter. Check books to Great Britain and Northern Ireland must be sent exclusively in the letter mails;

(10) Typewritten matter, or carbon copies thereof, except as may be authorized by paragraphs (d) and (e) of this section.

(d) *Permitted additions.* The following additions may be made, either by hand or by mechanical process, on the outside or inside of printed articles:

(1) The name, title, profession, firm, and address of the sender and the addressee, as well as the date of mailing, the signature, telephone number and telephone exchange, telegraphic address and code, current postal check or bank account of the sender, as well as an order or entry number relating exclusively to the articles;

(2) Corrections of mistakes in printing;

(3) Striking, underlining or encircling of certain words or passages of the printed text, unless intended as personal correspondence;

(4) On notices concerning the departure and arrival of ships and planes: the dates and time of such departures and arrivals, as well as the names of the ships, planes, ports of departure, call, and arrival;

(5) On travelers' announcements: the name of the traveler, the date, time, and name of the place through which he contemplates passing as well as the place where he is stopping;

(6) On order, subscription or offer blanks for publications, books, newspapers, engravings, and pieces of music: the publications and number of copies ordered or offered, the prices of such publications, as well as notations representing price factors, terms of payment, the edition, the names of the authors or publishers, the catalog number and the words "broché" (stitched or paper-bound), "cartonné" (boards) or "relié" (bound);

(7) On forms used in connection with loans from libraries, the titles of books, number of copies requested or sent, names of authors or publishers, catalog numbers, number of days permitted for reading, name of person desiring to consult the book, as well as other brief indications relating to the books in question;

(8) On illustrated cards, printed visiting cards, as well as on Christmas and New Year cards: good wishes, greetings, congratulations, thanks, condolences, or other forms of politeness expressed in not more than five words or by means of not more than five conventional initials;

(9) On printing proofs: such changes and additions as relate to the correction, form and printing, as well as notes such as "Ready for printing," "O. K. for printing," or any similar note relating to the preparation of the work. In case of lack of space, the additions may be made on separate sheets;

(10) On fashion plates, maps, etc.: the colors;

(11) On current price lists, offers for advertisements, market and stock quotations, commercial circulars and prospectuses: figures and any other annotations representing price factors;

(12) On books, pamphlets, newspapers, photographs, engravings, sheet music, and in general, on all printed, engraved, lithographed, or autographed literary or artistic productions: a dedication consisting of a simple tribute; and on photographs or engravings, a very concise explanatory legend as well as other summary information concerning the photograph or engraving itself;

(13) On passages cut from newspapers and periodicals: the name, date, number, and address of the publication from which the article is taken;

(14) An order or entry number relating exclusively to the articles contained in the package;

(15) On notices of change of address: the old and the new address as well as the date of the change.

(e) *Permitted attachments.* Articles sent as prints may have the following attachments:

(1) The manuscript to corrected or uncorrected printing proofs;

(2) To books, pamphlets, newspapers, photographs, engravings, sheet music, and, in general, all prints and engraved, lithographed or autographed literary or artistic productions: an open invoice covering the article sent, reduced to its essential terms;

(3) A card, envelope or wrapper bearing the address of the sender which may be prepaid for return by means of postage stamps of the country of destination of the article of printed matter;

(4) Cut-out patterns which are marked to show that they are an integral part of a fashion magazine with which they are mailed.

§ 104.6 *Mailing requirements*—(a) *Wrapping.* Prints must be placed either under wrapper, in rolls, between cardboard, in an open case, or in an unsealed envelope, provided, if need be, with easily removable fasteners offering no danger, or be fastened with a string which can be easily untied. Articles of printed matter should not be prepared in such a manner as to allow other articles to slip into them. Prints of the shape and consistency of a card and either folded (in such a way that they can not unfold during transportation) or unfolded may be forwarded without wrapper, envelope, or fastener.

(b) *Addressing and affixing of stamps.* The right half, at least, of the address side of prints sent in the form of cards, including illustrated post cards, must be reserved for the address of the recipient and the service notes or labels. The postage stamps or postage-paid impressions must be placed on the address side, and insofar as possible on the right half of the cards.

(c) *Prohibited enclosures.* Newspapers, periodicals, or other articles of printed matter addressed to several different subscribers or addressees must not be enclosed in the same package with postage stamps affixed only to the outside wrapper of the package. However, several newspapers, periodicals, or other articles of printed matter, without separate address, may be enclosed in the same package.

(d) *Return request.* Senders desiring that ordinary (unregistered) prints be returned if they prove to be undeliverable as addressed must place their return address on the package and a notation in a language known in the country of destination requesting its return.

(e) *Dutiable prints.* Prints which are dutiable in the country to which they are addressed should have a green (customs) label, Form 2976, affixed to the address side of the article. (See § 133.1 (a) of this chapter.)

§ 104.7 *Raised print for the blind*—(a) *Surface rate.* Surface rate for raised print for the blind is 1 cent for each pound or fraction.

(b) *Air rate.* For air mail rate for raised print for the blind, see § 100.1 of this chapter.

(c) *Weight limit.* Weight limit is 15 pounds 6 ounces.

(d) *Dimensions.* See dimensions of printed matter in general, § 104.4.

(e) *Description.* Printing plates with characters for the use of the blind are treated as raised print for use of the blind. The same applies to sound recordings and special paper intended only for the use of the blind, on condition that they are sent by an officially recognized institution for the blind or addressed to such an institution.

§ 104.8 *Books*—(a) *Surface rate.* Surface rate for books, as defined in paragraph (d) of this section, is 8 cents each pound or fraction.

(b) *Airmail rates.* For airmail rates to individual countries see rates of "Other Postal Union Matter" in § 100.1 of this chapter.

(c) *Weight limit and dimensions.* Weight limit and dimensions are the same as for printed matter in general. See §§ 104.3 and 104.4.

(d) *Admissible publications*—(1) *Description.* Among the publications to which the reduced book rate applies, are the following:

(i) Books permanently bound by stitching or stapling, or by means of spiral or plastic binding, when covered with paper, cloth, leather, or other substantial material.

(ii) Books enclosed in the usual paper jackets bearing advertisements of other books.

(iii) Music books in regular bound form.

(iv) Books consisting largely of pictures, illustrations, maps, such as a view book or atlas.

(v) Bibles with customary incidental space for family record.

(2) *Exclusions.* The "book" rate does not apply to the following:

(i) Annual reports of organizations and institutions; also reports or minutes of their conventions or other meetings published primarily for the benefit of members.

(ii) Books containing write-ups, boosts or other advertisements, of other things than books, as, for instance, playing cards, merchandise, services, etc.

(iii) Books in any other than final or permanent form, including those of the loose-leaf binder type which are not complete or permanent when mailed but to which other pages are subsequently to be added.

(iv) Reports of corporations sent to stockholders.

(v) House organs, including publications designed to promote the commercial interests of a firm or organization.

(vi) Telephone and other directories, including trade directories.

(vii) Publications entered as second-class matter.

(viii) Publications consisting of pictures to be colored or cut out.

(ix) Publications other than textbooks, having blanks spaces for written entries, records or other hand work, such as almanacs, diaries, memorandum books, and similar publications.

(x) Periodical publications.

(xi) Sheet music.

(xii) Freight and passenger tariffs.

(3) *Countries.* The postage rate prescribed in paragraph (a) of this section for books, applies only to books which contain no publicity or advertising, other

than that appearing on the flyleaves, addressed for delivery in the following countries:

Argentina.	Honduras (Republic of).
Bolivia.	Mexico.
Brazil.	Nicaragua.
Chile.	Panama.
Colombia.	Paraguay.
Costa Rica.	Peru.
Cuba.	Philippines.
Dominican Republic.	Salvador, El.
Ecuador.	Uruguay.
Guatemala.	Venezuela.
Haiti.	

(4) *Permissible enclosures.* The following are permissible enclosures with books mailed at the reduced rate: A card, envelope, or wrapper bearing the address of the sender, a single order form, and a single sheet not larger than approximately the size of a page, relating exclusively to the book with which enclosed. An invoice showing the price, etc., of the book may also be enclosed.

§ 104.9 *Endorsements and sealing.* Printed matter must be endorsed "Printed Matter" or "Printed Matter for the Blind" as the case may be, and must not be sealed.

PART 105—SAMPLES OF MERCHANDISE

Sec.
105.1 Surface rate.
105.2 Airmail rates.
105.3 Weight limit.
105.4 Dimensions.
105.5 Description.
105.6 Mailing requirements.
105.7 Packing requirements for certain articles.
105.8 Endorsements and sealing.

AUTHORITY: §§ 105.1 to 105.8 issued under R. S. 161, 396, 398, secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372.

§ 105.1 *Surface rate.* Surface rate for samples of merchandise is 3 cents for the first 2 ounces and 2 cents for each additional 2 ounces or fraction.

§ 105.2 *Airmail rates.* For airmail rates, see § 100.1 of this chapter.

§ 105.3 *Weight limit.* Weight limit is 13 ounces.

§ 105.4 *Dimensions*—(a) *Maximum dimensions.* Length, breadth, and thickness combined, 36 inches; greatest length, 24 inches. When sent in the form of a roll, the length (the maximum of which is 32 inches) plus twice the diameter is limited to 40 inches; however, in the case of indivisible objects exchanged with the countries to which § 101.4 (a) of this chapter applies, the length (40 inches maximum) plus twice the diameter may be as much as 48 inches combined.

(b) *Minimum dimensions.* Envelopes should measure not less than 4 inches in length and 2¾ inches in width.

§ 105.5 *Description.* The following are admitted at the sample rate: Electrotypes; single cut-out patterns; keys sent singly; fresh cut flowers; articles of natural history (dried or preserved animals and plants, geological specimens, etc.); tubes of serum and vaccines; medicaments of urgent need difficult to obtain; pathological objects rendered harmless by their mode of preparation and packing. These articles, except tubes of serum and vaccines, and medicaments of urgent need difficult to obtain, sent in the general interest by laboratories, or institutions officially recognized, must not be sent for commercial purposes. Their packing must be in accordance with the general regulations concerning samples of merchandise.

§ 105.6 *Mailing requirements* — (a) *Packing.* Samples of merchandise must be made up in such a way that they can be easily inspected. They shall be placed in bags, boxes, or wrappers which are unsealed or which have a removable fastener. No packing is required for articles consisting of a single piece, such as pieces of wood, metal, etc., which it is not customary to pack in commercial usage, on the condition that the address and the postage stamps be placed on a tag if necessary. However, the address must always be reproduced on the article itself, in the absence of which packing may be required.

(b) *Prohibited contents.* Packages containing samples of merchandise shall not contain any article having a salable value. Goods sent as gifts or in execution of an order, no matter how small the quantity, are not transmissible at the postage rates and conditions applicable to samples of merchandise. Except as provided for in paragraph (c) of this section, samples of merchandise must not bear any notation or contain any document having the character of actual personal correspondence, nor contain any postage stamps, any cancelled or uncancelled form of prepayment, or any paper representing a value. Pairs of articles, such as gloves, shoes, socks, etc. (but not such as suspenders or drawers), are not transmissible by mail to other countries at the postage rates and conditions applicable to "samples of merchandise", but one article of a pair may be so transmitted.

(c) *Permitted notations.* You may indicate, by hand or by a mechanical process, on the outside or on the inside of packages of samples, and in the latter case, on the sample itself or on a special sheet relative thereto: the name, title, profession, firm and address of the sender and the addressee, as well as the date of mailing, the signature, telephone number and telephone exchange, telegraphic address and code, current postal check or bank account of the sender, a factory mark or trade mark, a brief indication concerning the manufacturer and the jobber of the merchandise or concerning the person to whom the sample is addressed, as well as order or entry numbers, prices and any other annotations representing price factors, particulars relative to weight, measurement and size, or to the quantity to be disposed of, and such as are necessary to determine the origin and character of the goods.

§ 105.7 *Packing requirements for certain articles*—(a) *Glass.* Articles of glass or other fragile materials must be securely packed (in boxes of metal, wood, or strong corrugated cardboard), so as to avoid all danger to postal employees and the mails.

(b) *Liquids, oils, etc.* Liquids, oils, and substances which easily liquefy must be enclosed in hermetically sealed receptacles. Each receptacle must be placed in a separate box of metal, strong wood or strong corrugated cardboard containing enough sawdust, cotton, or spongy material to absorb the liquid in the event of breakage of the receptacle. The cover of the box must be fastened in such a way that it cannot be easily detached.

(c) *Fatty substances.* Fatty substances which do not easily liquefy, such as ointments, soft soap, resin, etc., as well as silkworm eggs, the transmission of which presents fewer difficulties, must be enclosed in an inside cover (box, canvas bag, parchment, etc.), which must itself be placed in a second box of wood, metal, or stout, thick leather.

(d) *Dry powdered dyes.* Dry powdered dyes such as aniline, etc., are not admitted unless enclosed in stout tin boxes, placed in turn inside wooden boxes, with sawdust between the two packings; dry noncoloring powders must be placed in boxes of metal, wood, or cardboard. These boxes themselves must be enclosed in a canvas bag or parchment.

(e) *Live organisms.* Live bees, leeches, silkworm eggs, and parasites and predators of injurious insects intended for the control of such insects and exchanged between officially recognized agencies shall be enclosed in boxes so constructed as to avoid all danger.

(f) *Deteriorating articles.* Articles which would deteriorate if packed in accordance with the general rules (as well as samples placed in transparent containers permitting verification of their contents, may, as an exception, be admitted in hermetically sealed containers. The same applies to samples of industrial or vegetable products mailed under seal by the factory or sealed by the inspection authorities of the country of origin. In such cases, the postal administration concerned may require the sender or the addressee to facilitate the verification of the contents either by opening certain articles indicated by them or in some other satisfactory manner.

§ 105.8 *Endorsements and sealing.* Samples of merchandise must be endorsed "Samples of Merchandise" and not be sealed.

PART 106—SMALL PACKETS

Sec.
106.1 Surface rates.
106.2 Airmail rates.
106.3 Weight limit.
106.4 Dimensions.
106.5 Preparation and packing.
106.6 Limitations and restrictions.
106.7 Permitted and prohibited destinations.
106.8 Endorsements, sealing and documentation.

AUTHORITY: §§ 106.1 to 106.8 issued under R. S. 161, 396, 398, secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372.

§ 106.1 *Surface rates.* Surface rate for all countries accepting small packets (see § 106.7) is 3 cents for the first 2 ounces and 2 cents for each additional 2 ounces or fraction thereof. Minimum charge, 20 cents per packet.

§ 106.2 *Airmail rates.* For air mail rates for small packets, see § 100.1 of this chapter.

§ 106.3 *Weight limit.* Weight limit for small packet is 2 pounds 3 ounces.

§ 106.4 *Dimensions.* Length, breadth, and thickness combined, 36 inches; greatest length, 24 inches. When sent in the form of a roll, the length (the maximum of which is 32 inches) plus twice the diameter is limited to 40 inches. However, in the case of indivisible objects exchanged with Argentina, Bolivia, Brazil, Costa Rica, Dominican Republic, Ecuador, Honduras, Mexico, Nicaragua, Philippines, El Salvador, Spain, and Venezuela, the length (the maximum of which is 40 inches) plus twice the diameter may be as much as 48 inches.

§ 106.5 *Preparation and packing.* In general, "small packets" are subject to the provisions applicable to "Samples of Merchandise" with respect to preparation and packing. (See § 105.7 of this chapter.)

§ 106.6 *Limitations and restrictions*—(a) *Permitted enclosures.* You may enclose in "small packets" an open invoice reduced to its essential terms. While the full name and address of the addressee as well as that of the sender must appear on the outside of the packet, a simple copy thereof may also be included therein. Small packets may contain articles liable to customs duty and upon receipt in the country of destination will be subject to the customs regulations of such country.

(b) *Prohibited enclosures.* Small packets may not contain any letter, note or document having the character of actual personal correspondence; nor coins, bank notes, paper money, postage stamps canceled or uncanceled, or any values payable to the bearer; platinum, gold, or silver, manufactured or unmanufactured; precious stones, jewelry, or other precious articles.

§ 106.7 *Permitted and prohibited destinations*—(a) *Permitted destinations.* Small packets are accepted when addressed for delivery in the following countries:

Aden.
Afghanistan.
Albania.
Alberia.
Argentina (see note).
Ascension.
Australia.
Austria.
Bahamas.
Barbados.
Belgian Congo.
Belgium.
Bermuda.
Brazil.
British Cameroons.
British Guiana.
British Honduras.
Brunei.
Cambodia.
Ceylon.
Corsica.
Costa Rica.
Cyprus.
Czechoslovakia.
Dahomey.
Denmark.
Dominican Republic.
Ecuador.
Ethiopia (Abyssinia).
Falkland Islands.
Fiji Islands.
France.
French Cameroons.
French Equatorial Africa.
French Guinea.
French India.
French Oceania.
French Somaliland.
French Sudan.
French Togoland.
Gambia.
Germany.
Gibraltar.
Gold Coast Colony.
Great Britain and Northern Ireland.
Greece.
Guadeloupe.
Honduras (Republic of).
Hong Kong.
Hungary.
Indonesia.
Iran.
Israel (State of).
Ivory Coast.
Jamaica (including Cayman Islands).
Japan.
Jordan (Hashemite Kingdom).
Kenya and Uganda.
Korea.
Laos.
Lebanon.
Leeward Islands.
Libya.
Luxembourg.
Malaya.
Malta.
Martinique.
Mauritania.
Mauritius and dependencies.
Mexico.
Morocco (French Zone).
Morocco, Tangier (International Zone), British and French Post Offices only.
Nauru Island.
Netherlands.
Netherlands New Guinea.
Netherlands West Indies.
New Caledonia and dependencies.
New Guinea, Mandated Territory.
New Hebrides.
New Zealand.
Nicaragua.
Niger.
Nigeria.
North Borneo (State of).
Norway.
Nyasaland Protectorate.
Palestine.
Papua (Territory of).
Philippines.
Poland.
Portuguese Timor.
Reunion (Bourbon) Island.
Rhodesia, Northern.
Rhodesia, Southern.
Ryukyu Islands.
St. Helena.
St. Pierre and Miquelon.
Salvador (El) (registered).
Santa Cruz Islands.
Sarawak.
Saudi Arabia (Kingdom of).
Senegal.
Seychelles.
Sierra Leone.
Solomon Islands.
Somalia.
Somaliland Protectorate.
Spain.
Spanish Guinea.
Spanish West Africa.
Surinam.
Sweden.
Switzerland (including Liechtenstein).
Syria.
Tanganyika Territory.
Thailand.
Tonga (Friendly) Islands.
Trinidad and Tobago.
Tristan da Cunha.
Tunisia.
Turkey.
Turks and Caicos Islands.
Venezuela.
Viet-Nam.
Windward Islands.
Yemen.
Yugoslavia.
Zanzibar and Pemba.

(b) *Prohibited destinations.* Small packets are not acceptable for the following countries, which have expressed an unwillingness to accept such articles:

Anglo-Egyptian Sudan.
Azores.
Bechuanaland Protectorate.
Bulgaria.
Burma.
Canada.
Cape Verde Islands.
Chile.
China.
Colombia.
Cuba.
Egypt.
Eritrea.
Estonia.
Finland.
French Guiana.
Gilbert and Ellice Islands.
Guatemala.
Haiti.
Iceland.
India.
Iraq.
Ireland.
Italy.
Labuan.
Latvia.
Lithuania.
Macao.
Madagascar and dependencies.
Madeira Islands.
Morocco, Tangier (International Zone), Spanish Post Office.
Pakistan.
Panama.
Paraguay.
Persian Gulf Ports.
Peru.
Portugal.
Portuguese East Africa.
Portuguese West Africa.
Rumania.
Salvador (El) (ordinary).
South-West Africa.
Trieste (Free Territory).
Union of South Africa.
Union of Soviet Socialist Republics.
Uruguay.
Vatican City State.

(c) *Other destinations.* Small packets will be accepted at the risk of the sender when addressed to countries other than those listed in paragraphs (a) and (b) of this section.

§ 106.8 *Endorsements, sealing and documentation*—(a) *Endorsements and sealing.* Small packets must be endorsed "Petit Packet" (small packet), and must not be sealed.

(b) *Documentation.* Small packets, whether or not they are subject to customs inspection, must bear the green (customs) label, form 2976. See § 133.1 (a) of this chapter.

PART 107—EIGHT-OUNCE MERCHANDISE PACKAGES

Sec.
107.1 Surface rate.
107.2 Airmail rate.
107.3 Dimensions.
107.4 Weight limit.
107.5 Description.

Sec.
107.6 Sealing and documentation.
107.7 Countries for which accepted.

AUTHORITY: §§ 107.1 to 107.7 issued under R. S. 161, 396, 398, secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 392.

§ 107.1 *Surface rate.* The surface rate for 8-ounce merchandise packages is 3 cents for the first 2 ounces and 2 cents for each additional 2 ounces or fraction.

§ 107.2 *Airmail rate.* For air rates, see § 100.1 of this chapter.

§ 107.3 *Dimensions.* Same as for letter packages. See § 101.4 of this chapter.

§ 107.4 *Weight limit.* Weight limit for eight-ounce merchandise packages is 8 ounces.

§ 107.5 *Description.* "Eight-ounce merchandise packages" are not parcel post, but fall within the broad classification of "Postal Union Mails".

§ 107.6 *Sealing and documentation.* Eight-ounce merchandise packages must not have customs declarations attached and generally must not be sealed. However, when addressed to Canada they may be sealed if marked "May be opened for postal inspection if necessary".

§ 107.7 *Countries for which accepted.* Packages of merchandise weighing 8 ounces or less are accepted for the following countries:

Argentina.
Bolivia.
Brazil.
Canada.
Chile.
Colombia.
Costa Rica.
Cuba.
Dominican Republic.
Ecuador.
Guatemala.
Haiti.
Honduras (Republic of).
Mexico.
Morocco (Spanish Zone).
Nicaragua.
Panama.
Paraguay.
Peru.
Salvador (El).
Spain (including Balearic Islands, Canary Islands, and Spanish offices in Northern Africa).
Spanish Guinea.
Spanish West Africa.
Uruguay.
Venezuela.

PART 108—COMBINATION PACKAGES; ARTICLES GROUPED TOGETHER

Sec.
108.1 Combination packages.
108.2 Articles grouped together.

AUTHORITY: §§ 108.1 and 108.2 issued under R. S. 161, 396, 398, secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372.

§ 108.1 *Combination packages*—(a) *Definition.* Combination packages are packages made up of two parts, firmly attached together, both addressed for delivery to the same addressee, and consisting of a sealed envelope containing a written or printed communication; and an unsealed container, with samples of merchandise or printed matter enclosed.

(b) *Postage rates.* Each part of a combination package must be fully prepaid at the appropriate rate of postage.

(c) *Countries for which accepted.* The following countries accept combination packages in the ordinary mail only, except as noted:

Austria.
Bolivia.
Brazil.
British Guiana.
British Honduras.
Bulgaria.
Canada.
Colombia.
Denmark.
Dominican Republic (ordinary or registered).
Faroe Islands.
Greenland.
Haiti.
Honduras (Republic of) (registered only).
Iceland.
Jamaica.
Mexico.
Nicaragua.
Norway.
Philippines (Republic of).
Poland.
Rumania.
Salvador (El).
Sweden.
Turks Islands.

§ 108.2 *Articles grouped together*—(a) *Grouping permitted.* You may include in a single package, commercial papers, samples of merchandise, and prints (other than prints for the use of the blind) subject to the conditions set forth in paragraph (b) of this section.

(b) *Conditions of grouping.* The articles specified in paragraph (a) of this section may be grouped together under the following conditions:

(1) Each article taken singly must not exceed the limits of weight applicable to it;

(2) The total weight must not exceed 4 pounds 6 ounces per package if it consists solely of commercial papers and samples;

(3) The weight limit is raised to 6 pounds 9 ounces if the package also contains prints, but in such case the total weight of the commercial papers and samples must not exceed 4 pounds 6 ounces;

(4) The dimensions of the package must not exceed those of letters;

(c) *Postage rate applicable.* Postage will be charged at the rate of 3 cents for the first 2 ounces and 2 cents for each additional 2 ounces or fraction. The postage paid must be at least the minimum for commercial papers if the package contains commercial papers.

PART 109—AIRMAIL

Sec.
109.1 Weight limits and dimensions.
109.2 Rates.
109.3 Double or reply-paid post cards.
109.4 Endorsement.
109.5 Prepayment.
109.6 "AO" articles.
109.7 Air letter sheets.

AUTHORITY: §§ 109.1 to 109.7 issued under R. S. 161, 396, 398, sec. 32, 20 Stat. 362, as amended, secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372, 39 U. S. C. 358.

§ 109.1 *Weight limits and dimensions.* In general, the limits of weight and dimensions and other conditions (but not postage rates) prescribed for surface mails apply to Postal Union articles for dispatch by air mail. (See Subchapter L of this chapter concerning conditions applicable to international air parcel post.)

§ 109.2 *Rates.* For air rates, including postage and the fee for air service, see § 100.1 of this chapter. The weight of the card prepared as the return receipt of a registered air mail article is not included with the weight of the article in determining the postage required.

§ 109.3 *Double or reply-paid post cards.* For double post cards or reply-paid cards, the initial or message half of such cards must be prepaid at the air mail letter rate to the country of address in order to be entitled to transmission by air.

§ 109.4 *Endorsement.* Articles for transmission by air should have affixed in the upper-left hand corner of the envelope or cover, immediately below the return card of the sender, the blue "Par Avion/By Air Mail" label form 2978. Envelopes bearing distinctive air mail markings may show the printed or rubber stamped endorsement "Par avion by air mail" in the blue capital letters in lieu of form 2978.

§ 109.5 *Prepayment.* Air mail articles must be fully prepaid to assure dispatch without delay. If they are returned to sender for additional postage, the stamps originally affixed will be accepted to the amount of their face value.

§ 109.6 *"AO" articles.* Articles in the Postal Unit mails classified as commercial papers, printed matter, raised print for the blind, samples of merchandise, and small packets, as well as 8-ounce merchandise packages, combination packages and articles grouped together, are transmissible by air provided they are prepared for mailing as prescribed for the class of article involved, as set forth in this subchapter and are prepaid at the appropriate air mail rate. This rate will be the letter rate unless a special "Other Articles" rate is in effect to the countries concerned, in which case the latter rate will apply. In either case the rate is shown in § 100.1 of this chapter.

§ 109.7 *Air letter sheets.* Air letters (aerogramme) of approved size and weight which can be folded into the form of an envelope and sealed, are acceptable for dispatch by air at a uniform rate of 10 cents each to all countries. Air letter sheets with printed postage and air mail markings are sold at all post offices at 10 cents each. Air letter sheets manufactured by private individuals or concerns, if approved by the Post Office Department for such use, may also be accepted for mailing after 10 cents in postage has been affixed. All parts of air letter sheets may be used for the sender's message, except the address side. No enclosures are permitted. Air letter sheets may be sent under registration upon payment of the required registry fee in addition to the postage.

Subchapter L—International Parcel Post

PART 110—RATES AND SHIPPING REQUIREMENTS

§ 110.1 *Rates and shipping requirements.* (See Index of Countries at end of Part 100 of this chapter for destinations not specified in table.)

Country	Weight limit (pounds)	Dimensions: Greatest length (feet)	Dimensions: Greatest length and girth combined (feet)	Sealing: R=required; O=optional	Group shipments: Y=permitted; N=not permitted (numeral indicates limit, if any, of number of parcels permitted in group)	Form 2966, customs declaration (number required)	Form 2972, dispatch note (number required)	Form 2922, parcel post sticker (number required)	Registration: Y=permitted; N=not permitted	Insurance: Y=available; N=not available	Surface parcel post rates: First pound	Surface parcel post rates: Each additional pound	Air parcel post rates: First 4 ounces	Air parcel post rates: Each additional 4 ounces

[1] The relative customs declarations should indicate the number of parcels constituting the group (2 or 3) and the combined gross weight of the parcels comprised in the group, and bear the letter indicating the particular group in case there is more than one group.

[2] Registered or insured parcels must be sealed; sealing of ordinary parcels is optional.

[3] Same as for Portugal.

[4] Ordinary parcels only.

[5] Surface parcels only.

[6] Parcels exceeding 22 pounds accepted for the following offices only: Belem (Para), Belo Horizonte, Florianopolis, Fortaleza, Manaus, Pelotas, Porto Alegre, Recife (Pernambuco), Rio de Janeiro, Rio Grande (Rio Grande do Sul), Salvador (Bahia), Santos, and Sao Paulo.

[7] Permitted to Buea, Dalaoul, and Victoria only.

[8] Parcels for members of the Canadian Armed Forces overseas addressed for delivery through the Canadian Army Post Office must not exceed 10 pounds in weight.

[9] Insured parcels of more than ordinary value should be sealed.

[10] Parcels exceeding 22 pounds are accepted only for dispatch by surface means to Talpel, Chilung, and Kaohsiung, Taiwan.

[11] The following offices, listed by territories, are authorized to participate in the parcel post service up to the weight limits indicated:

Gabon: Cocobeach,[a] Fernand-Vaz,[a] Lambarene,[a] Libreville,[a] Mayumba,[a] Mouila,[a] N'Djole,[a] N'Gome,[a] Owendo,[a] Oyem,[a] Port-Gentil,[a] Sam-Kita,[a] Sindara.[a]

Moyen (Middle) Congo: Berberati, Brazzaville,[a] Carnot, Dolisie,[a] Franceville, Impfondo,[a] Komono, Liranga, Loudima,[a] Madingou,[a] Mindouli,[a] Mongoumba,[a] Mossaka,[a] M'Vouil,[a] N'Dongou,[a] Nola, Ouesso,[a] Point Kilometrique 102,[a] Pointe-Noire.[a]

Oubangui-Chari: Bambari, Bangasson, Bangui, Bossangoa, Batangafo, Birao, Boali, Bouar, Bouca, Bozoum, Bria, Damara, Fort-Crampel, Fort-Sibut, M'Baiki, Mobaye, Mounden, Molssala, N'Dele, Zemio.

Tchad: Fort-Archambault, Fort-Lamy.

[a] Offices accepting parcels in excess of 22 pounds.

[12] Parcels weighing in excess of 22 pounds, and insured parcels, may be accepted "only" for the American, British and French Zones (Western Zone) of Germany, including the corresponding sectors of Berlin. Service to the Soviet Zone, including the Soviet sector of Berlin, is limited to uninsured parcels not exceeding 22 pounds in weight.

[13] Parcels exceeding 22 pounds accepted for Amapala, Comayagua, La Ceiba, Olanchito, Progreso, Puerto Castilla, Puerto Cortez, San Pedro Sula, Tegucigalpa, and Tela.

[14] Weight limit for Tibet.

[15] Parcels exceeding 11 pounds in weight are not accepted to the following offices: Ain-Zhalta, Baino, Falougha, Hermel, Koubayat, Maaser-el-Chouf, Ras-Baalbeck, Souk-el-Gharb.

[16] Air parcel limit.

[17] Parcel post packages exceeding 11 pounds in weight may be accepted for the following offices: Aba, Abakaliki, Abeokuta, Ado-Ekiti, Afikpo, Agbor, Agege, Akwanebede, Akassa, Akure, Apapa, Asaba, Awka, Badagry, Bansaru, Barakin Ladi, Baro, Bauchi, Benin City, Bida, Bonny, Brass, Bukuru, Buruttu, Calabar, Dumaturu, Degema, Duchi-Wai, Ebute Metta, Ede, Effurin, Enugu, Epe, Forcados, Funtua, Gusau, Ibadan, Ibara, Idah, Ife, Ifon, Ijebu Ode, Ikom, Ikotekpene, Ilaro, Ilesha, Ilorin, Imo River, Ito, Jebba, Jos, Kabba, Kaduna, Kaduna Junction, Kafanchan, Kano, Katsina, Kaura Namoda, Koko, Kwale, Lagos, Lokoja, Maiduguri, Makurdi, Mallam Madurl, Minna, Nemle, Nsuru, Obiaruku, Offa, Ogbomosho, Obetlm, Okigwi, Okltipupa, Okrika, Ondo, Onitsha, Opobo, Oron, Oshogbo, Otunkpo, Owerri, Owo, Oyo, Port Harcourt, Potiskum, Sapele, Sokoto, Umuahia, Uyo, Uzunkell, Warri, Zaria.

[18] Parcels for the following offices are limited to 22 pounds in weight:

Footnotes continued on next page.

[19] Parcels exceeding 11 pounds accepted for Lisbon only.
[20] Two forms required for Spanish Possessions.
[21] Parcels addressed to Chabha and Sukhad are limited to 11 pounds in weight, and parcels for Tel-Ablad and Yabroud to 22 pounds. To other places in Syria the weight limit is 44 pounds.
[22] Rates for all Islands except Montserrat; Montserrat rates 48 cents for the first pound, 25 cents each additional pound.
[23] Rate for gift parcels, 46 cents for the first pound, 23 cents each additional pound.
[24] For Montevideo only; rates for all other places, 70 cents for the first pound, 22 cents each additional pound.
[25] Surface rate applies to weights over 8 oz. to one pound; air parcel rate, $1.10 over 8 ounces to 12 ounces, 15 cents each additional 4 ounces.
[26] For Antigua only.
[27] For Bahrein only.
[28] For Angola only.
[29] For Spain, Balearic Islands, Canary Islands, and Spanish offices in Northern Africa.
[30] Greatest combined length and girth, 6 feet. Greatest length, 3½ feet, except that parcels may measure up to 4 feet in length, on condition that parcels over 42 and not over 44 inches in length do not exceed 24 inches in girth, parcels over 44 and not over 46 inches in length do not exceed 20 inches in girth, and parcels over 46 inches and up to 4 feet in length do not exceed 16 inches in girth.
[31] Greatest combined length and girth, 6 feet. Greatest length, 3½ feet, except that parcels may measure up to 4 feet in length, on condition that parcels over 42 and not over 44 inches in length do not exceed 24 inches in girth, parcels over 44 and not over 46 inches in length do not exceed 20 inches in girth, and parcels over 46 inches and up to 4 feet in length do not exceed 16 inches in girth. Round (spherical) parcels must not exceed 19 inches in diameter.
[32] Parcels exceeding 6 feet in combined length and girth are restricted to 2½ feet in length.
[33] Parcels may measure up to 4 feet in length, on condition that parcels over 42 and not over 44 inches in length do not exceed 24 inches in girth; parcels over 44 and not over 46 inches in length do not exceed 20 inches in girth, and parcels over 46 inches and up to 4 feet in length do not exceed 16 inches in girth.
[34] Parcels exceeding 6 feet in combined length and girth shall not exceed 36 inches in length.
[35] Bechuanaland Protectorate:

All places except Ghanzi and Kasane	$0.57	$0.34
Ghanzi only	.63	.40
Kasane only	.73	.50

[36] Bolivia:

All places except below	$1.10	$0.30
Cochabamba	.94	.25
La Paz and Oruro	.73	.25

[37] Colombia:

All places except below	$0.78	$0.24
Cauca and Valle (except Buenaventura)	.78	.27
Cities of Barranquilla, etc	.78	.22

[38] Jordan:

Central Arab Palestine	$1.01	$0.27
All other	.73	.25

[39] Leeward Islands:

All except Montserrat	$0.45	$0.22
Montserrat	.48	.25

[40] Pakistan:

Western	$0.70	$0.24
Eastern	1.02	.24

[41] Portuguese West Africa:

Angola and Guinea	$0.53	$0.22
St. Thomas and Prince Island	.71	.24

[42] Ryukyu Islands:

Regular	$0.50	$0.27
U. S. A. gift parcels	.46	.23

[43] Spain:

Regular	$0.70	$0.22
Balearic Islands and North Africa	.78	.23
Canary Islands	.83	.24

[44] U. S. S. R.:

Europe	$0.90	$0.23
Asia	1.56	.26

[45] Uruguay:

Montevideo only	$0.45	$0.22
All other	.70	.22

[46] Insurance available to British Post Office only.
[47] Gift parcels only.

(R. S. 161, 396, 398, secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372)

PART 111—SERVICES AVAILABLE

Sec.
111.1 Registration, insurance and c. o. d.
111.2 Air parcel post.
111.3 Group shipment.
111.4 Special handling.
111.5 Certificates of mailing.
111.6 Receipt for ordinary (Americo-Spanish) parcels.
111.7 Recall and change of address.

AUTHORITY: §§ 111.1 to 111.7 issued under R. S. 161, 396, 398, secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372.

§ 111.1 *Registration, insurance and c. o. d.* For provisions relating to registry, insurance and c. o. d. service for international parcel post, see Subchapter M of this chapter.

§ 111.2 *Air parcel post.* Parcels may be sent by air to those countries for which air parcel post rates are indicated in § 110.1 of this chapter. Air parcels are subject to the same limitations as to size and other conditions (but not postage rates) as are applicable to surface parcels. For documents required, see Part 114 of this chapter. Air parcels are forwarded by air to the country of destination. After arrival, they will be handled by surface transportation.

§ 111.3 *Group shipment*—(a) *Description.* The "group shipment" of parcel post packages is an arrangement by which senders of parcel post packages for certain countries have the option of attaching a single customs declaration Form 2966 (or a single set when more than one customs declaration is required) to only one parcel of a consignment mailed simultaneously by the same sender to the same addressee at one address. In those cases where a dispatch note (Form 2972) is required, a single copy of this form is sufficient for a group. (See § 114.2 of this chapter.)

(b) *How marked.* Under the group shipment arrangement, each parcel must be clearly marked with a fractional number, the numerator of which will indicate, in Arabic figures, the number of the parcel, and the denominator the number of parcels comprising the shipment. For example, if a single shipment were composed of 12 parcels, each would be numbered, respectively, 1/12, 2/12, 3/12, etc. while a group shipment to certain countries is limited to 3 parcels, there may be any number of 3-parcel groups provided that in addition to the identification numbers 1/3, 2/3, and 3/3 each group is indicated by a letter A, B, C, etc. For example, when there are two groups of three parcels each, the parcels should be marked "A–1/3", "A–2/3", "A–3/3", "B–1/3", "B–2/3" and "B–3/3".

(c) *Attachments.* The customs declaration (or set of declarations, where a set is required) must be securely attached to one of the parcels (preferably to parcel No. 1 of the group), in order to prevent its becoming lost while the parcel is en route. The total number of parcels comprised in a shipment must invariably be indicated on the customs declaration. On parcels for Guadeloupe and Mexico the customs declaration must also show, separately, the contents of each parcel opposite the proper reference. For example, for a shipment composed of five parcels: Contents of 1/4 ------. Contents of 2/5 ------ ------, etc.

§ 111.4 *Special handling.* The "special-handling" service for domestic parcel post is available also for surface and air parcel post addressed to other countries. (See Part 125 of this chapter.)

§ 111.5 *Certificates of mailing*—(a) *Issuance.* The postmaster at the office of mailing shall upon request at the time of mailing furnish to the sender of an ordinary parcel post package a certificate of mailing.

(b) *Charges.* A charge of 3 cents shall be made for each certificate issued and for each parcel described if a single certificate covers more than one parcel. Certificates of mailing shall also be furnished as additional evidence, of mailing for registered and insured parcels, subject to a charge of 1 cent. The charges shall be collected by means of postage stamps affixed to the certificates and canceled by the postmark of the mailing office showing the date.

(c) *Forms used*—(1) *Individual parcels.* Certificates of mailing for individual parcels shall be furnished on Form 3817, which must be filled out by the sender.

(2) *Firm mailing books.* Certificates of mailing for three or more parcels mailed at one time may be furnished on firm mailing books or looseleaf forms. These forms must be filled out by the sender.

(3) *Treasury Department forms.* Certificates of mailing shall also be furnished on request on Treasury Department (Internal Revenue) Forms P. T. 26, P. T. 27–A, or 550, certifying that the sender has waived the right to withdraw the parcels from the mails. Such certificates of mailing are likewise subject to a charge of 3 cents for each parcel described. See §§ 115.4 (b) and (c) of this chapter, concerning certificates of mailing in connection with parcels containing tobacco seeds and/or plants and dried whole eggs, respectively. Payment of the charge for a certificate of mailing does not insure a parcel against loss, rifling or damage, or provide for a receipt on delivery, but merely furnished evidence of mailing.

§ 111.6 *Receipt for ordinary (Americo-Spanish) parcels*—(a) *Issuance and charges.* The mailer of an ordinary parcel to any of the countries named below receives a receipt entitling him to indemnity in case of loss. A charge of 3 cents is made for each receipt. The mailer may refuse the receipt, with the

understanding that he thereby forfeits his right to indemnity for the parcel.

(b) *Forms used.* Receipts are issued on Form 2932 without carbon process, or on firm mailing sheets suitably modified to indicate that they cover ordinary parcels. Mailers must complete the receipts with name and address of the addressee.

(c) *Countries for which issued.* Receipts are issued for the following countries:

Argentina.
Bolivia.
Brazil.
Chile.
Colombia.
Costa Rica.
Dominican Republic.
Ecuador.
Guatemala.
Haiti.
Honduras (Republic of).
Mexico.
Morocco (Spanish Zone).
Nicaragua.
Panama.
Paraguay.
Peru.
Salvador (El).
Spain, including Balearic Islands, Canary Islands, and Spanish offices in Northern Africa.
Spanish Guinea.
Uruguay.
Venezuela.

§ 111.7 *Recall and change of address.* The conditions governing the recall and change of address apply both to articles in the Postal Union mails as well as to international parcel post packages, except that parcels, for Aden, Barbados, British Honduras, Brunei, Burma, Canada, Cyprus, Gambia, Gilbert and Ellice Islands, Great Britain and Northern Ireland, India, Ireland, Malaya, Nauru, Nigeria, North Borneo, Pakistan, Rhodesia (Northern), Rhodesia (Southern), Sarawak, Seychelles, Solomon Islands, Trinidad and Tobago, and Windward Islands cannot be recalled after they have left this service nor can the address be changed, unless the parcels are undeliverable at the original address. (See Part 126 of this chapter.)

PART 112—PREPARATION, ADDRESSING, AND MAILING

Sec.
112.1 Packing.
112.2 Dimensions.
112.3 Weight limits.
112.4 Permissible enclosures.
112.5 Addressing and mailing.

AUTHORITY: §§ 112.1 to 112.5 issued under R. S. 161, 396, 398, secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372.

§ 112.1 *Packing*—(a) *In general.* (1) Every parcel shall be securely and substantially packed, having regard to the nature of the contents and climatic conditions, the length of the journey, and the numerous handlings and risks of concussion to which parcels for foreign destinations are unavoidably subjected en route.

(2) Packages must be packed in canvas or similar material, double-faced corrugated cardboard boxes, solid fiber boxes or cases, thick cardboard boxes, or strong wooden boxes made of lumber at least a half-inch thick or plywood of at least three plies. Ordinary pasteboard containers are wholly inadequate. While it is permissible to use heavy wrapping paper or waterproof paper as the outside covering, for instance, of a carton, it shall not be used as the only covering of the contents. Boxes with lids screwed or nailed on and bags closed by means of sewing may be used provided they conform to other conditions prescribed.

(3) No indemnity is paid for damage due primarily to inadequate packing or to the inherent nature of the contents of insured, registered, c. o. d., or ordinary parcels addressed to other countries, which, from their nature, cannot reasonably be expected to travel safely in the mails.

(b) *Specific articles.* (1) Articles of china, crockery, or glass, and hats, radios, or other articles of a fragile or easily breakable nature shall be packed in a strong (preferably wooden) box. Solid fiberboard or strong double-faced corrugated fiberboard boxes (not less than 200-pound test) enclosed in strong wooden crates are also preferred, especially in the case of overseas destinations. There shall be a space of at least 1½ inches between the article and the top, bottom, and sides of the box. This space may be filled with excelsior or other effective cushioning material, or with air-cushioned corrugated riders.

(2) Umbrellas, canes, golf clubs, fishing rods or sections thereof, and similar articles shall be packed in strong boxes made of wood at least three-eighths of an inch thick and a liberal supply of cushioning material used if parts of the article are brittle or fragile.

(3) All mailable liquids and substances which easily liquefy must be packed in two receptacles. Between the first (bottle, flask, etc.) and the second (box of metal, strong wood, strong corrugated cardboard, strong fiberboard, or receptacle of equal strength) there shall be left a space to be filled with sawdust, bran, or other absorbent material in sufficient quantity to absorb all the liquid contents in the case of breakage. It is not considered that excelsior possesses the necessary absorbent quality to meet the special requirements cited for internal packing. In the case of Great Britain and Northern Ireland, Ireland, Leeward Islands, Malaya, and Windward Islands, the outer receptacle shall be of strong wood or metal. Metal containers closed with a screw-top cover must have sufficient screw threads to require at least one and one-half complete turns before the cover will come off and be provided with a washer so as to prevent possible leakage of the contents. Compression of friction top metal containers must be soldered in four different places, equally spaced.

(4) Mailable powders and dyes in powder form must be packed in metal containers securely sealed so that none of the contents will sift out and enclosed in substantial outer containers of double-faced corrugated, thick cardboard, fiberboard, or strong wood at least a half inch thick.

(5) Eggs addressed for delivery in all other countries (except Canada and hatching eggs for Cuba) must be placed in a metal egg container, and each egg in the square pockets must be surrounded with paper, excelsior, cotton, straw, or other similar material, while the metal egg container in turn must be enclosed in an outer container of wood with sufficient excelsior, straw, or similar material provided in the space between the inner and outer containers.

(6) Eggs destined for delivery in Canada may be packed either in the manner prescribed above or in wooden, papier-mache, or other box of a rigid material with a well-fitting tightly adjusted lid. Each egg must be wrapped in newspaper or other protecting material and placed on end, the vacant space in the box to be filled with newspaper or other packing material so as to prevent the eggs from striking together or against the sides, top, or bottom of the box.

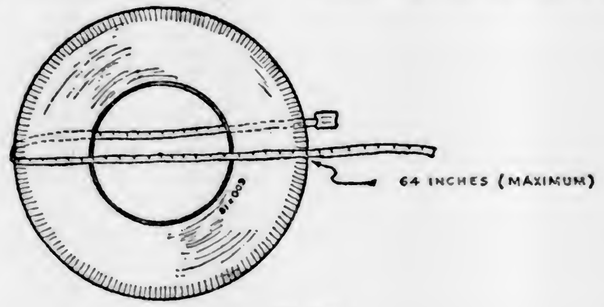
(7) Eggs destined for delivery in Cuba, intended for hatching purposes, may be transmitted outside of mail sacks when each egg is wrapped separately and surrounded with excelsior, wood-wool, or other similar material and packed in a basket (preferably with a handle) or other suitable container, lined with paper, fiberboard, or corrugated pasteboard. Such parcels shall be marked "Eggs for hatching," "Keep from heat or cold," "Please handle with care," or other suitable words.

(8) Eggs addressed for delivery in Cuba, not intended for hatching purposes, shall be packed in the manner indicated in the preceding paragraph for transmission inside of mail sacks in regular course.

(c) *Sealing.* Parcels for certain countries must be sealed. To other countries sealing is compulsory for insured or registered parcels, optional for others (see § 110.1 of this chapter). Seal parcels by means of wax, gummed paper tape, nails, screws, sewing, wire or metal bands, or other adequate means which will permit ready detection of loss of contents or damage.

§ 112.2 *Dimensions*—(a) *General dimensions.* Greatest length, 3½ feet; greatest length and girth combined, 6 feet. In measuring a parcel the greatest distance in a straight line between its ends, but not around the parcel lengthwise, shall be taken as the length, while the distance around it at its thickest part shall be taken as the girth. Under these maximum dimensions, a parcel not more than 3 feet 6 inches in length may measure as much as 2 feet 6 inches in girth, or around its thickest part. A shorter parcel may be thicker; thus, if it measures no more than 3 feet in length it may measure as much as 3 feet in girth or around its thickest part. The most convenient mode of measuring is by means of a tape line 6 feet long; so much of the tape as is not used in measuring the length being the maximum girth permissible.

(b) *Dimensions of special articles.* The usual method of measuring parcels, as described in paragraph (a) of this section, is not adaptable in the case of tires of all kinds, coils of rope, hose, wire, etc., forming a parcel circular in shape. To determine whether a tire or other object circular in shape (regardless of whether there is an open space in the center) can be accommodated inside the mail sacks employed for the dispatch of parcel post to overseas foreign countries, the object as prepared for mailing, shall be measured around its entire girth, in the direction of the diameter, as shown in the illustration. This measurement must not exceed 64 inches in order for the tire or other parcel cirular in shape to be acceptable for mailing to overseas foreign countries. Measurement shall be taken as shown in the following illustration:



Side view

(c) *Exceptions.* To some countries other dimensions than the general dimensions indicated are applicable. A parcel must not exceed the maximum dimensions allowed to the country to which it is addressed. See § 110.1 of this chapter for individual country limits.

§ 112.3 *Weight limits.* For weight limits applicable to each country of destination, see § 110.1 of this chapter.

§ 112.4 *Permissible enclosures*—(a) *In general.* A communication of the nature of personal correspondence must not be enclosed in or written on any parcel. However, a parcel may contain an open invoice, confined to the particulars which constitute an invoice, and a simple copy of the address of the parcel, with mention of the address of the sender. If a written communication in the nature of personal correspondence be found in the parcel it shall be placed in the mails if separable. If unseparably attached the entire parcel must be rejected.

(b) *Exceptions.* In the case of parcel post packages for Canada, however, a letter, and for Switzerland a letter or card, fully prepaid and bearing the same address as that of the parcel, may be tied or otherwise securely attached to the outside of the parcel in such manner as to prevent its separation therefrom or its interference with the address of the parcel. Stamps to cover postage on the parcel must be affixed to the wrapper of the parcel; stamps to pay postage on the letter must be affixed to the envelope thereof. Parcels to which such letters are attached are treated as parcel post.

§ 112.5 *Addressing and mailing*—(a) *Addressing.* The name and address of the sender and of the addressee must be legibly and correctly written in every case when possible on the parcel itself or on a label gummed thereto, and must also be written on a separate slip, which slip must be enclosed in the parcel. Parcels will not be accepted when addressed to a "care" in one country and the addressee (or person for whom intended) in another country or when addressed to or sent by initials, unless the initials are the adopted trade name of the senders or addressees. Adresses in ordinary pencil are not allowed, but copying ink or indelible pencil on a surface previously dampened may be used. Sufficient space must be left for the addition of necessary service notations as well as the affixing of stamps or labels.

(b) *Mailing.* Parcels may not be mailed in letter boxes. Present them at parcel-post windows of post offices, where the necessary postal forms (see Part 133 of this chapter) will be furnished without charge.

(c) *Postage rates.* For postage rates to the various countries of destination, see § 110.1 of this chapter.

PART 113—PROHIBITIONS AND RESTRICTIONS

Sec.
113.1 General list of prohibited articles.
113.2 Combustible liquids.
113.3 Specific foreign country prohibitions and restrictions.

AUTHORITY: §§ 113.1 to 113.3 issued under R. S. 161, 396, 398, secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372.

§ 113.1 *General list of prohibited articles.* (a) Articles which are excluded from the domestic mails of the United States. Although safety matches are admitted in the domestic mails, they are prohibited transmission in the international mails.

(b) Written communications of the nature of personal correspondence.

(c) Enclosures which bear an address different from that appearing on the parcel itself.

(d) Explosives and inflammable articles and articles which, in any way, may damage or destroy the mails or injure the persons handling them. This includes inflammable liquids having a flash point by the Tagliabue open tested of 80° F. or lower; inflammable solids which are liable, under conditions incident to transportation, to cause fires through friction, through absorption of moisture, or through spontaneous chemical changes; oxidizing materials such as chlorates, permanganates, peroxides or nitrates, which yield oxygen readily to stimulate the combustion of organic matter; and poisonous articles or substances.

§ 113.2 *Combustible liquids.* Combustible liquids having a flash point of 150° F. or lower but above 80° F. (Tag. open tester) may be sent to foreign countries generally in quantities not exceeding one quart in any one parcel, except that paints, varnishes, turpentine and similar substances may be sent in quantities of less than one gallon in any one parcel. Each parcel containing a combustible liquid must be marked by the sender to indicate that the flash point is above 80° F.

§ 113.3 *Specific foreign country prohibitions and restrictions.* Most countries prohibit or restrict the admission of specific articles. Patrons should inform themselves of the various individual country prohibitions and restrictions.

PART 114—DOCUMENTATION

Sec.
114.1 Customs declaration, Form 2966.
114.2 Dispatch note, Form 2972.
114.3 Parcel post sticker, Form 2922.
114.4 Shipper's export declaration.

AUTHORITY: §§ 114.1 to 114.4 issued under R. S. 161, 396, 398, secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372.

§ 114.1 *Customs declaration, form 2966*—(a) *Preparation.* Customs declarations must be completed in ink or on the typewriter and affixed to parcel post packages for all foreign destinations.

(b) *Required number.* The number of customs declarations which must be affixed to parcel post packages for foreign destination is shown in § 110.1 of this chapter.

(c) *Information to be furnished by the sender*—(1) *Customs declaration.* You must complete the customs declaration to show your name and address and that of the addressee, the description of contents (including quantity and value), the alternative disposition instructions, description of the parcel, and the net weight of the contents, if the latter is known.

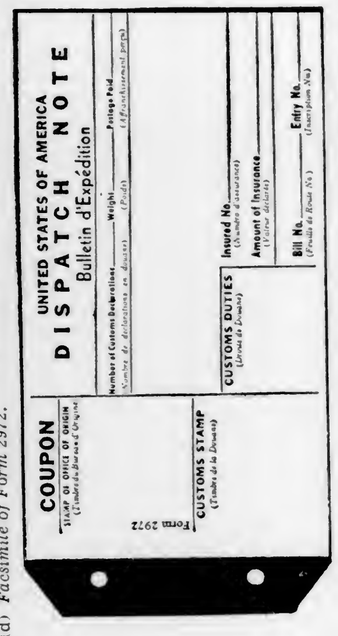
(2) *Alternative disposition.* You must give instructions at time of mailing that the parcel, if undeliverable as originally addressed, is to be either (i) tendered for delivery to a second addressee in the country of destination, (ii) treated as abandoned, or (iii) returned to the sender. You do this by obliterating those of the printed alternative dispositions which are not to be used. Parcels which do not specify alternative disposition will be sent to destination, and if not delivered will be returned to you at your expense.

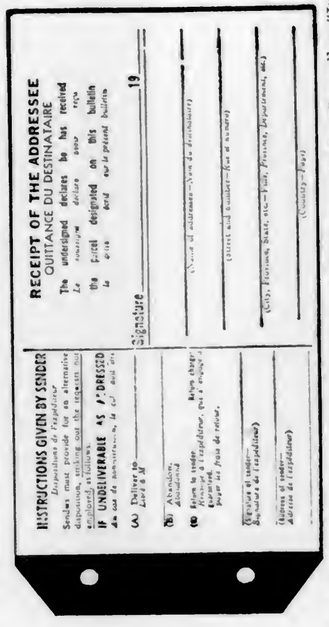
(3) *Descriptions of contents.* The contents of parcels must be completely and accurately described in the English language, although an interlineation in another language is permitted if desired, and in some cases is required. In the case of parcels containing more than one article, or articles of different kinds, the exact quantity and value of each kind of article must be stated. It is not sufficient that customs declarations bear

(b) *Information to be furnished by the sender.* You must complete the dispatch note to show your name and address, and that of the addressee, as well as the alternative disposition instructions. (See § 114.1 (c) (2).)

(c) *Accepting clerk to complete.* The accepting clerk will complete the dispatch note to show the weight of the parcel, amount of postage paid, the number of customs declarations accompanying the parcel, the insurance number and amount of insurance where applicable and to properly postmark the form.

(d) *Facsimile of Form 2972.*

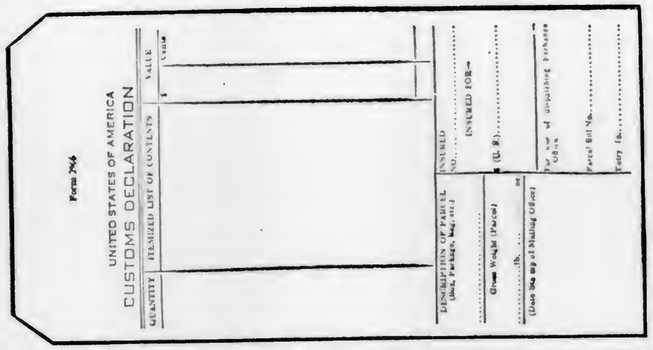


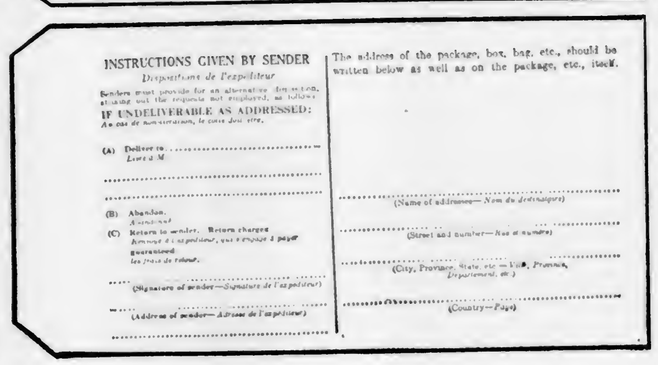


§ 114.3 *Parcel post sticker, Form 2922*—(a) *When required.* The yellow "International Parcel Post," Form 2922, sticker must be affixed by the sender to each parcel post package, whether the parcel is forwarded under the "group shipment" arrangement with other parcels or as a single shipment. The sender must complete the "Instructions Given by Sender" section of the form (see § 114.1 (c) (2)), and sign the form by handwriting or otherwise. Form 2922 should not be affixed to parcels addressed for delivery in the United States possessions.

(b) *Accepting clerk to complete.* The accepting clerk will complete the column at the right hand side of the sticker by filling in both the postage and the weight, and for identification purposes will initial the sticker in the space provided. The rate of postage charged on the parcel, which is to be indicated in the space marked "postage," does not include registry, insurance, c. o. d. or special-handling fees.

(c) *Manner of affixing.* Form 2922 should be affixed to the wrapper of the parcel, but if the shape or size of the parcel makes it impracticable to affix it to the wrapper thereof, the sticker may be affixed to a tag which shall in turn be securely attached to the parcel.





§ 114.2 *Dispatch note, Form 2972*—(a) *Preparation and affixing.* For certain countries a dispatch note, Form 2972, must be completed in ink or in the typewriter, and affixed to each parcel post package, except in the case of group shipment (see § 111.3 of this chapter), when one copy of Form 2972 is sufficient for a group.

simply the words "coat", or "stockings", but the materials of which the articles are composed must be shown, as "fur coat", "silk stockings." Also, for instance, in the case of dried fruits the particular kinds, such as "figs," "raisins," "currants," etc. must be shown. General terms such as "worn clothing," "groceries," "presents," "merchandise," "samples," and the like, will not suffice. In case the customs declaration does not furnish enough space on which to give a complete list of the contents, there will be no objection to such list being placed on the wrapper of the postal when reference to that fact is made on the declaration itself or an additional customs declaration may be used for the purpose.

(d) *Accepting clerk to complete.* The accepting clerk will complete the declaration to show the gross weight of the parcel, the insurance number and amount of insurance, where applicable, and to properly postmark the form.

(e) *Manner of affixing.* In addition to being tied by means of a cord passed through the eyelets, the tag must be bound to the parcel so that it lies flat thereon and cannot be used as a handle to lift the parcel while in transit. It is not sufficient that the tags be tied to the parcel and allowed to hang loose.

(f) *Facsimile of Form 2966.*

(d) *Facsimile of Form 2922.*

§ 114.4 *Shipper's export declaration*—(a) *When required.* Business concerns sending merchandise valued at $25 and over to other business concerns—

(1) From continental United States, Alaska, Hawaii, Puerto Rico, or the Virgin Islands of the United States to any foreign country and to the Canal Zone;

(2) From continental United States to its noncontiguous Territories or possessions [1] except Alaska and Hawaii.

(3) From Puerto Rico or the Virgin Islands of the United States to continental United States must fill out a Shipper's Export Declaration on Department of Commerce Form 7525–V. The Shipper's Export Declaration is required only for goods mailed for commercial purposes and not for goods which involve no commercial consideration. However, Commerce Form 7525–V must also be filed for shipments of all articles covered by a validated export license from the Bureau of Foreign Commerce, Department of Commerce, regardless of value or whether the sender or addressee is a business concern. (See § 115.1 of this chapter.) The declaration need not be furnished for catalogs, instruction books (except technical data), and other advertising matter, or for magazines, newspapers, and periodicals, which are not regarded as merchandise.

(b) *Preparation.* Only a single copy of the shippers' export declaration is required for mail shipments. A single export declaration may include any number of packages mailed by one sender the same day to one addressee. Export declarations need not be notarized.

(c) *Information to be furnished.* The following are the only items on the Shippers' Export Declaration (Commerce Form 7525–V) which are required to be filled in by the sender of a postal shipment:

(1) *Item 2.* Name of post office where shipment is being mailed. (Insert in space on the form reading "From ------ (U. S. port of export).")

(2) *Item 3.* Name and address of sender (exporter or forwarding agent). (If the shipment is being mailed by a forwarding agent, the name and address of the exporter, his principal, must also be shown.)

(3) *Item 5.* Name and address of addressee (ultimate consignee and intermediate consignee, if any).

(4) *Item 8.* Country of final destination.

(5) *Item 10.* Number of packages being mailed; description of merchandise and export license number and expiration date, or general license symbol.

(6) *Item 13.* Schedule B, commodity number.

(7) *Item 14.* Net quantity of merchandise, in Schedule B units.

(8) *Item 15.* Value of merchandise.

The description of contents and units of quantity must be in the detail required by Schedule B, Statistical Classification of Domestic and Foreign Commodities Exported from the United States. You may obtain copies of Schedule B for a nominal charge from the Superintendent of Documents, Government Printing Office, Washington 25, D. C., from Collectors of Customs, or from Department of Commerce Field Offices located in the principal cities of the United States. General descriptions, such as dry goods, groceries, millinery, etc., are not sufficient. Quantities and values must be given in whole numbers only, omitting fractions of less than one-half and counting one-half and over as a whole.

(d) *How obtained.* If you are an occasional shipper, you may obtain Form 7525–V free of charge at local post office. Regular exporters may obtain copies of the Shippers' Export Declaration from the Superintendent of Documents, Government Printing Office, Washington 25, D. C., from Collectors of Customs, or from Department of Commerce Field Offices at a cost of 50 cents per block of 100. They may be privately printed, provided they conform to the official form in size, wording, color, quality (weight) of paper stock, and arrangement.

[1] Alaska, Puerto Rico, Virgin Islands of the United States, Hawaii, Guam, Samoa, Canton and Enderbury Islands, Johnston, Midway, Palmyra, and Wake Islands.

PART 115—EXPORT LICENSES AND CERTIFICATES

Sec.
115.1 Commerce Department licenses.
115.2 State Department licenses (firearms).
115.3 Gold shipments.
115.4 Special commodities.

AUTHORITY: §§ 115.1 to 115.4 issued under R. S. 161, 396, 398, secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372.

§ 115.1 *Commerce Department licenses*—(a) *When required.* Exportations of certain commodities to certain destinations require export licenses issued by the Bureau of Foreign Commerce of the Department of Commerce. In certain instances general licenses have been authorized; in others, individual validated licenses are required. Postmasters or other postal employees will not undertake to advise prospective mailers of articles and materials requiring an individual export license. Senders desiring information relative to export control requirements (including both general and individual licenses) are advised to communicate with any of the Department of Commerce field offices or directly with Bureau of Foreign Commerce, Department of Commerce, Washington 25, D. C.

CROSS REFERENCE: For regulations of the Bureau of Foreign Commerce, Department of Commerce, with respect to export licenses, see 15 CFR, Chapter III, Subchapter B.

(b) *Packages to be endorsed.* Exporters of merchandise requiring validated export licenses must place the number of the license on the wrapper of each parcel or package.

(c) *Entire and partial shipments.* If the entire amount authorized by a validated license is mailed at one time, you must surrender the license at the post office at the time of mailing. If only a part of the licensed shipment is to be mailed, you must deposit the validated license with a collector of customs and surrender at the post office in lieu thereof an extra copy of the shipper's export declaration (Commerce Form 7525–V) bearing the number of the license and an authorization dated and signed by the Collector of Customs or his representative for the shipment of the goods listed on the declaration.

§ 115.2 *State Department licenses (firearms)*—(a) *When required.* Exportations of certain arms, ammunition, or implements of war require licenses issued by the Department of State (Munitions Division). Smooth-bore firearms, such as shotguns, and firearms of less than .22 caliber, are exempt from this licensing requirement.

(b) *Entire and partial shipments.* If the entire amount authorized by a validated license is mailed at one time, you must surrender the license at the post office at the time of mailing. If the quantity of articles being mailed represents only a portion of the total amount authorized to be exported you must enter on the back of the license the amount being shipped. The license will then be postmarked and handed back to you.

§ 115.3 *Gold shipments*—(a) *License requirements.* A license is necessary to mail gold in any form or gold certificates from the continental United States to any destination outside its continental limits or from any U. S. post office outside the continental limits to another country, except as provided in paragraphs (b), (c), and (d) of this section. In addition, the postmaster at the office of mailing must receive instructions, before mailing, from the Post Office Department.

(b) *Gold held by nonresidents.* Gold in any other form than coin is mailable

without a license and specific instruction, if it is not held or owned by a person who is a resident of or domiciled in the continental United States. In such a case the mailer must place on the wrapper of the package and on the shipper's export declaration when required (see § 114.4 (a) of this chapter) a statement that the gold contained therein is held or owned by a person who is not a resident of, or who is not domiciled in, the continental United States.

(c) *Fabricated gold*—(1) *Definition.* Fabricated gold is defined by the Treasury Department as processed or manufactured gold in any form (other than gold coin or scrap gold) which has a gold content the value of which does not exceed 90 percent of the total domestic value of the processed or manufactured gold and which has in good faith and not for the purpose of evading or enabling others to evade the provisions of the Gold Reserve Act of 1934, the act of October 6, 1917, as amended, or the regulations of the Treasury Department, been processed or manufactured for some one or more specific and customary industrial, professional, or artistic uses. Fabricated gold is to be distinguished from semiprocessed gold, which may be exported only pursuant to Treasury License, and which is defined to include gold articles of which more than 90 percent of the total domestic value is attributable to the gold content thereof.

(2) *Mailing restricted.* If fabricated gold is offered for mailing it may be accepted without being licensed by the Treasury Department and without specific instructions from the Post Office Department. However, the shipper is required to endorse the wrapper of the package with the Bureau of Census Schedule B statistical classification number of each specific commodity contained therein. The shipper's export declaration, when required (see § 114.4 of this chapter) shall contain, in addition to a specific description of the contents of the package, the following notation: "Fabricated gold as defined by section 54.4 of the Gold Regulations,[1] being exported pursuant to the authorization contained in section 54.25 (b) (2) of such regulations".

(3) *How to determine.* To determine whether an article is semi-processed of fabricated gold, the value of the gold content is computed at $35 per fine troy ounce of gold and the total domestic value is determined on the basis of the cost of the article to the owner and not the selling price. In the case of a manufacturer or processor, the allowable elements of such value are the cost of material in the article, labor performed on the article, and processing losses and overhead applicable to the manufacture or processing of such article. In the case of a dealer or other person who holds or disposes of gold without further processing, total domestic value includes only the net purchase price paid by such person and any transportation costs incurred in obtaining delivery of such article to his usual place of business.

(4) *Gold coin made prior to April 5, 1933.* Gold coin made prior to April 5, 1933, may be accepted for mailing without being licensed by the Treasury Department and without specific instructions from the Post Office Department. However, the shipper's export declaration, when required (see § 114.4 (a)) shall contain, in addition to a specific description of the package, the following notation, "Rare gold coin as defined by section 54.20 of the Gold Regulations,[1] being exported pursuant to the authorization contained in section 54.25 (b) (3) of such regulations."

(d) *Gold coin, bullion, or gold dust.* The acceptance in the regular mails or parcel post for any country of any consignment of gold coin, gold bullion, or gold dust, having a value in excess of $100 is prohibited, even though a license has been granted to export such gold coin, gold bullion, or gold dust.

(e) *Where to obtain licenses.* You may obtain the forms on which to apply for licenses to export gold from the Bureau of the Mint, Treasury Department, Washington 25, D. C.

§ 115.4 *Special commodities* — (a) *Diamonds.* Loose diamonds in any form (except cut gem diamonds, i. e., diamonds cut to be set in jewelry) tendered for mailing to any country shall not be accepted unless they have been inspected by the U. S. Appraiser of Merchandise at New York, N. Y., and the unbroken seal of that official appears on each package or parcel. This requirement is not applicable to diamonds forming a part of industrial tools.

(b) *Dried whole eggs*—(1) *Endorsements.* When dried whole eggs purchased under a program of the Commodity Credit Corporation, Department of Agriculture, are offered for export by mail, an endorsement must be written or stamped on each package by the sender waiving any right to withdraw it from the mails, or have it returned. The endorsement must be properly completed and signed by the exporter or his authorized representative over his title. The parcel post forms accompanying such parcels should be completed by the senders to indicate that the parcels are to be abandoned in case of nondelivery.

(2) *Certificates.* A certificate in the following form, prepared and completed by the sender, must be presented with the shipment:

CERTIFICATE OF MAILING DRIED WHOLE EGGS

I hereby certify that there has (have) been posted at this post office today by ---------- ---------- parcels containing a total of ------ pounds of dried whole eggs on which the sender has waived the right to withdraw same from the mails or have same returned.

Parcels addressed to:

(Names and addresses of addressees)

(Office stamp)

(Date)

(Postmaster)

By ----------

(3) *Execution of certificate.* A single certificate may cover any number of parcels mailed by the same sender even though addressed to different countries. A charge of 3 cents will be made for each certificate of mailing issued to the sender, or for each parcel when a single certificate covers more than one parcel. Postage stamps to cover the charge for the certificate of mailing shall be affixed to the certificate and canceled by the postmark of the office of mailing. After postmarking, the certificate will be signed by the postmaster or his authorized representative and returned to the sender.

(c) *Tobacco seed and plants*—(1) *Permit required.* It is unlawful to export any tobacco seed and/or live tobacco plants except in pursuance of a written permit granted by the Secretary of Agriculture.

(2) *Endorsement of package.* The package or parcel must be marked "Tobacco seed and plant export permit No. ------."

(3) *Surrender of permit.* The permit is to be presented at the time of mailing and postmarked and signed by the accepting employee. It will be retained by the post office and forwarded to the Tobacco Division, Agricultural Marketing Service, Department of Agriculture, Washington 25, D. C.

(4) *Charges.* A charge of 3 cents will be made for each permit presented by the sender and for each package or parcel when a single permit covers more than one parcel. Postage stamps to cover the charge shall be affixed to the permit and canceled by the postmark of the office of mailing.

[1] 31 CFR, Part 54.

PART 116—CONSULAR AND COMMERCIAL INVOICES

§ 116.1 *Consular and commercial invoices.* Many countries require special documents to be prepared by the sender and either presented by the addressee or enclosed within the package. In some cases, certification by a recognized Chamber of Commerce in the United States, or legalization by a Consulate of the country of destination, or both, are required. Some countries also require the addressee to obtain an import license. In some instances the import license must be legalized by a Consulate of the country of destination in the United States. In some cases the import license number must appear on the customs declaration, Form 2966. Patrons should inform themselves of the various requirements before mailing parcel post packages to such countries.

(R. S. 161, 396, 398, secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372)

Subchapter M—Special Services

PART 121—INTERNATIONAL REGISTERED MAIL

Sec.
121.1 Service objective.
121.2 Preparation for mailing.
121.3 Registry fees.
121.4 Free registration.
121.5 Registry receipt.
121.6 Registry return receipts.
121.7 Special treatment on delivery.

AUTHORITY: §§ 121.1 to 121.7 issued under R. S. 161, 396, 398, secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372.

§ 121.1 *Service objective*—(a) *Purpose of registration.* As in the case of domestic registered mail, the international registry service affords greater protection against loss.

(b) *Mailable matter.* (1) Postal Union articles of all classifications may be registered unless a specific exception is stated under the country item in Part 101 of this chapter.

(2) Parcel post packages may be accepted for registration to those countries indicated in Part 110 of this chapter.

§ 121.2 *Preparation for mailing*—(a) *Means of addressing.* Mail which bears an address written in pencil or consisting of initials will not be accepted for registration. The address of mail other than that sent in transparent panel ("window") envelopes may be written in indelible pencil.

(b) *Sealing.* Letters presented for registration must be securely sealed and any bearing evidence of opening and resealing, or, the use of tape, paper strips or seals, wax seals, extra mucilage, etc., shall be rejected.

(c) *Letter packages.* Letter packages presented for registration must be prepared in accordance with the requirements for domestic registered mail.

(d) *Other sealing requirements.* (1) Articles presented for registration, under the classifications of "commercial papers," "printed matter," "samples of merchandise" and "small packets," or as "8-ounce merchandise packages" (except as otherwise provided), must not be sealed.

(2) Parcel post packages presented for registration to countries permitting registration of parcel post must be sealed.

(e) *Declaration of value.* You must declare the full value of mail accepted for registration to other countries at the time of mailing in accordance with the requirements for domestic registered mail.

(f) *Marking of valuable registered mail.* When valuable registered mail is presented on firm mailing sheets, you must indicate the values opposite the respective entries.

§ 121.3 *Registry fees.*

Country	Postal Union mails	Parcel post
Azores	$0.55	$0.55
Belgian Congo	.55	.40
Bermuda	.55	.40
Bolivia	.40	.55
Brazil	.40	.55
British Honduras	.55	.40

Uruguay	.40	.55
Venezuela	.40	.55
All other countries	.55	----------

[1] Indemnity limit to $25, fee 55 cents. Indemnity limit $25.01 to $50, fee 65 cents.
[2] See Portugal.

§ 121.4 *Free registration.* Any matter which is entitled to freedom of postage in the international mails is also entitled to free registration, but without the right to indemnity.

§ 121.5 *Registry receipt.* The usual (domestic) registry receipt will be issued for mail matter accepted for registration to other countries.

§ 121.6 *Registry return receipts*—(a) *Requested at time of mailing.* (1) Fee: 10 cents.

(2) If you desire that your return receipt be sent back to you by air mail you must pay for this return, in addition to the return receipt fee, the air mail postage applicable to a single post card to the country of destination.

(b) *Requested after mailing.* (1) Fee: 13 cents.

(2) Requests for return receipts made after mailing are accepted only within the period of one year from the day following that of mailing of the article or parcel.

(c) *Completion.* Return receipts for registered articles delivered in other countries are completed in accordance with requirements of the country making delivery, which vary according to the country involved. The signature of the addressee is not furnished in many countries, or may be furnished only under specified conditions, as the case may be.

§ 121.7 *Special treatment on delivery*—(a) *Restricted delivery by senders.* (1) Senders in this country may restrict the delivery of registered Postal Union articles addressed to the following countries on condition that the articles are accompanied with a return receipt and are endorsed by the sender in the manner indicated:

Country	Endorsement required
Afghanistan	"A remettre en main propre."
Albania	"A remettre en main propre" or "Per t'u dorezuar ne doren e vet."
Austria	"A remettre en main propre" or "Zu eigenen Handen."
Belgium	"A remettre en main propre" or the equivalent in the Flemish language.
Bulgaria	"Lichno."
China (Taiwan only)	"A remettre en main propre" or the equivalent in a language known at the place of destination.
Czechoslovakia	"A remettre en main propre."
Denmark	"Personlig."
Dominica (Windward Islands)	"To be delivered to the addressee in person."
Falkland Islands	"To be delivered to the addressee in person."
Finland	"A remettre en main propre."
French Somaliland	"A remettre en main propre."
Germany	"A remettre en main propre" or "Eigenhändig."
Greece	"A remettre en main propre" or "ΙΔΙΑΧΕΙΡΩΝ."
Hungary	"A remettre en main propre."
Iceland	"A remettre en main propre" or "Afhendist vidtakanda sjálfum."
Italy	"A remettre en main propre."
Lebanon	"A remettre en main propre."
Luxembourg	"A remettre en main propre."
Montserrat (Leeward Islands)	"To be delivered to the addressee in person."
Philippines (Republic of the)	"To be delivered to addressee only."
Portugal	"A remettre en main propre."
Rumania	"A remettre en main propre."
Saudi Arabia	"A remettre personnellement."
Spain	"A remettre en main propre" or "A entregar en propia mano."
Sweden	"A remettre en main propre" or "Får utlämnas endast till adressaten personligen."
Switzerland	"A remettre en main propre."
Turkey	"Alicinin kendine verilecek."
Union of Soviet Socialist Republics	"A remettre en main propre."
Uruguay	"A remettre en main propre."

(2) The endorsements shown in the second column will be placed above and near the address and must be underlined in red. The country of destination will make two attempts to effect delivery and if unsuccessful the article will be returned as undeliverable.

(3) Restricted delivery is not available for international registered parcel post.

(4) Only the usual registry fee plus the registry return receipt fee is chargeable in connection with registered Postal Union articles of which the delivery has been restricted in accordance with the foregoing provisions.

(b) *Restricted delivery by addressees.* Addresses in this country may restrict delivery upon payment of the additional fee prescribed for the restriction by addressees in delivery of domestic mail.

PART 122—INTERNATIONAL INSURED MAIL

Sec.
122.1 Availability of service.
122.2 Preparation for mailing.
122.3 Fees and limit of insurance.
122.4 Indication of insured value.
122.5 Special endorsements.
122.6 Insurance receipts.
122.7 Forwarding or return to another country.
122.8 Return receipts.

AUTHORITY: §§ 122.1 to 122.8 issued under R. S. 161, 396, 398, secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372.

§ 122.1 *Availability of service.* The international insurance service is limited to the countries listed in Part 110 of this chapter. Except in the case of Canada, such service is limited to parcel post. For Canada, in addition to parcel post, Postal Union printed matter (see Part

104 of this chapter) and eight-ounce merchandise packages (see Part 107 of this chapter) may be insured.

§ 122.2 *Preparation for mailing.* The general provisions for the preparation of ordinary parcels to other countries apply also to insured parcels.

§ 122.3 *Fees and limit of insurance.* See country items.

§ 122.4 *Indication of insured value—*(a) *Computation.* In some instances, as shown in chart 122.4 in this section, it is necessary to mark the wrappers of the parcels to show the amount for which the parcels are insured. When the country of destination requires that the insured value be shown in gold francs, the conversion of United States currency into gold francs is made on the basis of 33 cents (approximately) equals 1 gold franc. The gold franc equivalent is determined by multiplying the amount in United States currency by 3. For example, $5.25 multiplied by 3 is equal to 15.75 gold francs.

(b) *How shown.* When the amount of the insured value is required to be shown both in Arabic figures and in Roman letters, the information must be hand printed, or typewritten on a label and affixed to the parcel, and not written in ordinary script.

CHART 122.4. COUNTRIES REQUIRING INDICATION OF INSURED VALUE ON THE WRAPPER OF A PARCEL

Argentina.
Australia.
Austria.
Bahamas.
Barbados.
Belgium.
British Guiana.
Colombia.
Corsica.
Czechoslovakia.
Denmark (including Faroe Islands and Greenland).
Finland.
France.
Germany (Western).
Gibraltar.
Gold Coast Colony.
Great Britain and Northern Ireland.
Guatemala.
Iceland.
Ireland (Eire).
Italy.
Japan.
Leeward Islands.
Luxembourg.
Morocco, Tangier (British Post Office only).
Netherlands.
Netherlands West Indies.
New Zealand.
Norway.
Persian Gulf Ports.
Portuguese East Africa.
Ryukyu Islands.
Sweden.
Switzerland.
Western Samoa (British).
Windward Islands.
Yugoslavia.

§ 122.5 *Special endorsements.* Parcels containing fragile or perishable articles must be so marked, i. e., "Fragile," "Perishable," "Glass," or "Eggs," as may be appropriate.

§ 122.6 *Insurance receipts.* The usual (domestic) insurance receipts are generally used for international insured mail.

§ 122.7 *Forwarding or return to another country.* At the request of the sender or addressee, insured parcels addressed to other countries may be reforwarded or returned to another country, provided they can be reforwarded or returned as insured. Senders may endorse parcels "Do not forward to a third country" to prevent forwarding to another country.

§ 122.8 *Return receipts.* Return receipts for insured parcels are furnished under the same conditions as apply to registry return receipts (see § 121.6 of this chapter). No return receipts are furnished for insured parcels to Canada.

PART 123—INTERNATIONAL C. O. D. MAIL

§ 123.1 *International c. o. d. mail.* There is at the present time no international c. o. d. service in effect.

PART 124—SPECIAL DELIVERY (Exprès)

Sec.
124.1 Countries.
124.2 Classes of mail.
124.3 Marking.
124.4 Payment for special delivery.
124.5 Delivery procedures.

AUTHORITY: §§ 124.1 to 124.5 issued under R. S. 161, 396, 398, secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372.

§ 124.1 *Countries.* Special delivery (exprès) service is in force with the following countries:

Argentina.
Australia.
Austria.
Bahamas.
Belgian Congo.
Belgium.
Brazil.
British Guiana.
British Honduras (Belize only)
Canada.
Chile.
China.
Corsica.
Costa Rica.
Cuba.
Cyprus.
Czechoslovakia.
Denmark.
Dominican Republic.
Ecuador.
Egypt.
Ethiopia.
Finland.
France.
Germany.
Gibraltar.
Gold Coast Colony.
Great Britain and Northern Ireland.
Guatemala.
Honduras (Republic of).
Hungary.
India.
Ireland.
Israel (State of).
Italy.
Japan.
Jordan (Hashemite Kingdom).
Kenya and Uganda.
Luxembourg.
Mexico.
Morocco (Spanish Zone).
Morocco, Tangier (International Zone, British Post Office only)
Netherlands.
Norway.
Nyasaland Protectorate.
Panama.
Philippines.
Poland.
Portugal.
St. Pierre and Miquelon.
Salvador (El).
Somalia.
Spain.
Spanish West Africa.
Sweden.
Switzerland.
Tanganyika Territory.
Turkey.
Union of South Africa
Yugoslavia.

§ 124.2 *Classes of mail.* The special-delivery service applies to all Postal Union articles (ordinary and registered—surface and air) addressed for delivery in the countries shown in the preceding list, except that in the case of Canada the special-delivery service applies only to letters or articles prepaid at the letter rate (ordinary and registered), and to India it applies only to unregistered letters, post cards, and printed matter (exclusive of printed matter for the blind). The special-delivery service does not apply to International Parcel Post. See Part 125 of this chapter concerning special handling service for parcel post.

§ 124.3 *Marking.* An article intended for special delivery service must have affixed to the cover an "Exprès (special delivery)" label Form 2977, obtainable at the post office, or the cover must be marked boldly in red ink "Exprès" directly below but not on the stamps. The use of special-delivery stamps on other than special-delivery articles is not permissible.

§ 124.4 *Payment for special delivery—*(a) *Fees.*

Weight	Letters and letter packages (cents)	Post cards (cents, each)	Other Postal Union articles (cents)
Up to 2 pounds	20	20	35
Over 2 pounds and up to 10 pounds	35	-------	45
Over 10 pounds	50	-------	60

(b) *Prepayment of fees.* The special-delivery fees may be prepaid by special delivery stamps or ordinary postage stamps. Air mail stamps may be used in the case of articles intended for transmission by air. Special-delivery stamps must not be used on other special-delivery articles. Special delivery fees must be prepaid in addition to the regular postage.

(c) *Insufficient postage.* Insufficiently prepaid articles intended for special delivery which are posted in letter boxes and drops are marked by postmasters "Not in special-delivery mail" and dispatched onward to destination as ordinary mail matter whenever such articles cannot be returned to the sender for the deficiency in fee without seriously delaying the dispatch thereof.

§ 124.5 *Delivery procedures—*(a) *In the United States.* Articles which are marked to indicate they are intended for special delivery in this service will be subject to the same conditions in their delivery as special-delivery articles in the United States domestic service.

(b) *In other countries.* Delivery is effected in the various countries according to the special-delivery regulations in force in the country of destination.

PART 125—SPECIAL HANDLING

Sec.
125.1 Availability.
125.2 Fees.
125.3 Marking.
125.4 Forwarding.

AUTHORITY: §§ 125.1 to 125.4 issued under R. S. 161, 396, 398, secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372.

§ 125.1 *Availability.* The "special-handling" service for domestic parcel post is available also for parcel post addressed to other countries. The service is optional except in the case of parcels for Canada containing baby (day-old) poultry and honey bees. Special-handling service does not apply to Postal Union articles.

§ 125.2 *Fees.*

Weight:	Fee (cents)
Up to 2 pounds	15
Over 2 pounds and up to 10 pounds	20
Over 10 pounds	25

Special-handling fees may be prepaid by special-handling stamps or by ordinary postage stamps. Special-handling fees are in addition to the regular parcel post rate to the country concerned.

§ 125.3 *Marking.* A parcel intended for a special-handling service must be marked or stamped "Special Handling" immediately above the name of the addressee.

§ 125.4 *Forwarding.* Special-handling parcels are given priority in distribution and disposal over other parcel post packages from the office of mailing to the point of disposal from the United States. They are dispatched from this country as parcel post by the same vessels carrying letter mails for the countries of address, when practicable. Special-handling parcels do not receive any special treatment in the country of destination.

PART 126—RECALL AND CHANGE OF ADDRESS

Sec.
126.1 Conditions.
126.2 How made.
126.3 Countries not permitting recall or change of address.

AUTHORITY: §§ 126.1 to 126.3 issued under R. S. 161, 396, 398, secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372.

§ 126.1 *Conditions.* You may cause any mail article you addressed for delivery in another country to be withdrawn from the Postal Service, or have its address changed. In case it has been dispatched from the United States and not delivered to the addressee:

(a) The legislation of the country of destination of the article must allow such withdrawal or change of address;

(b) The article must not contain prohibited matter; and

(c) The customs examination must not reveal any irregularity.

§ 126.2 *How made—*(a) *If not dispatched from mailing office.* If the article has not yet been dispatched from the mailing post office you must apply to the postmaster.

(b) *If not dispatched from the United States.* If the article has been dispatched from the mailing office, but has not been dispatched from the United States, and can be intercepted at the United States exchange post office, it may be returned to you upon compliance with requirements of Part 43 of this chapter. To facilitate identification and return you must furnish to the exchange office concerned available particulars, including description of the article, date of mailing, registration number, if registered, as well as means of transmission (by surface or air) from mailing office.

(c) *If dispatched from the United States.* If the article has been actually dispatched from the United States, the sender must apply at the post office at which the article was mailed, where he must identify himself and deposit with the postmaster a sum sufficient to cover all expenses to be incurred. In addition, the sender must furnish a facsimile of the address of the article, and must pay (by means of postage stamps affixed to his application, and canceled by the postmaster) a fee of 40 cents. If the request is to be sent by air mail or telegraph or cable, the sender must pay, in addition, the air mail rate or telegraph or cable charges. In this case, the application shall be accompanied by postage in an amount sufficient to prepay the air mail rate or by a remittance to cover the telegraph or cable charges at the usual rate.

(d) *Single application sufficient.* A single form of application may be used for several articles mailed at the same time, at the same office, by the same sender, and to the same addressee, in which case the sender is required to pay only one fee or one fee plus the air mail or telegraph or cable charge, as the case may be.

§ 126.3 *Countries not permitting recall or change of address.* The legislation of Aden, Australia, Barbados, British Honduras, British Post Offices in Tangier (International Zone of Morocco) and Tetuan (Spanish Zone of Morocco), Brunei, Burma, Canada, Cyprus, Cyrenaica, Gambia, Gibraltar, Gilbert and Ellice Islands, Great Britain and Northern Ireland, India, Ireland, Leeward Islands, Malaya, Nauru Island, New Zealand, Nigeria, Pakistan, Persian Gulf Ports, Rhodesia (Southern), St. Helena, Sarawak, Seychelles, Sierra Leone, Solomon Islands, Somalia, South-West Africa, Trinidad and Tobago, Union of South Africa, and the Windward Islands does not allow senders of Postal Union articles to withdraw them from the mails or to change their address. For countries not permitting recall or change of address of parcel post packages, see § 111.7 of this chapter.

Subchapter N—How to Wrap and Mail

PART 131—PREPARATION, ADDRESSING AND POSTAGE

Sec.
131.1 Preparation.
131.2 Addressing.
131.3 Postage.

AUTHORITY: §§131.1 to 131.3 issued under R. S. 161, 396, 398, secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372.

§ 131.1 *Preparation.* Prepare the articles securely, especially if they are for distant countries. International mail is handled more often and subjected to greater pressure and friction than domestic mail, hence it must be enclosed in strong envelopes or other wrappings. Do not use wax for sealing letters. Letters so sealed often stick to each other and the addresses of some are destroyed by the tearing of the covers in the attempt to separate the articles.

§ 131.2 *Addressing—*(a) *Form of address.* (1) Address mail articles in legible roman letters placed on the right-hand side of the article, lengthwise, in such a way as to leave space for service labels and notations (postmarks, etc.).

(2) Write the name and address of the recipient precisely and completely, with the names of the locality and country of destination in capital letters. Give the house number and street address or box number when sending mail to towns or cities.

(3) On the address of articles sent to General Delivery indicate the name of the addressee. The use of initials, figures, simple given names, fictitious names or conventional marks of any kind is not permitted for such articles.

(4) Addresses in Russian, Greek, Arabic, Hebrew, Japanese, or Chinese characters must bear an interlined translation of the names of the post office, province, and country of destination in English. If the English form of the names is not known, the foreign spellings shall be shown in roman characters, print or script.

(b) *Return card.* The return card with the complete address of the sender must be shown in the upper left-hand corner of the address side of the mail in such a way as not to affect either the clarity of the address or the application of service labels or notations. Many countries do not return certain ordinary (unregistered) articles if they cannot be delivered as addressed unless they bear the sender's return card.

(c) *Unprepaid mail.* When letters are shortpaid or entirely unpaid, postage is collected from the addressees by the country of address at double the amount of the deficiency. For all registered letters and for all other Postal Union articles postage must be fully prepaid to assure dispatch.

§ 131.3 *Postage—*(a) *Method of prepayment.* Postage, registration fees and insurance fees, can be prepaid upon articles (other than the reply half of post cards) by means of United States postage stamps or postage impressions, showing the amount paid. Postage impressions must be bright red in color. Mail matter bearing any stamp impression acceptable under United States domestic regulations is also accepted when addressed for delivery in any of the following countries: Argentina, Bolivia, Brazil, Canada, Chile, Colombia, Costa Rica, Cuba, Dominican Republic, Ecuador, Guatemala, Haiti, Honduras (Republic of), Mexico, Morocco (Spanish

Zone), Nicaragua, Panama, Paraguay, Peru, Salvador (El), Spain (including Balearic and Canary Islands, the Spanish offices in Northern Africa, and Andorra), Spanish Guinea, Spanish West Africa, Uruguay and Venezuela.

(b) *Prepayment of printed matter.* Prepayment of postage on printed matter may be indicated by means of postage impressions, either metered or printed. When printed postage impressions are used, the indication of the country of origin (United States) may be replaced by the name of the office of origin. These printed impressions must show the amount of postage paid and may be black or any other color.

(c) *Articles mailed aboard ships.* Postage upon articles mailed on board a ship on the high seas must be prepaid by means of postage stamps of the country under whose flag the ship sails. Such articles are subject to the postage rates and conditions of that country. Postage upon articles mailed on board a ship while it is in a port of any country can be prepaid only by means of postage stamps of that country. Such articles are subject to the postage rates and conditions of that country.

(d) *Free-of-postage matter.* Freedom of postage in the international mails is granted in the following cases: Official penalty mail addressed to countries of the Postal Union of the Americas and Spain, except Argentina, Brazil and Spain; and diplomatic and consular mail exchanged under the terms of the Convention of the Postal Union of the Americas and Spain.

(e) *Reply coupons.* (1) International Reply Coupons of the Universal Postal Union, printed in blue ink and bearing the caption "Coupon-Réponse International" may be purchased at United States post offices for 13¢ each. Each coupon is exchangeable in any country for a stamp or stamps representing the prepayment of an ordinary single-rate letter originating in that country and addressed to this country. Upon the presentation of a sufficient number of coupons, the stamp or stamps received in exchange may be used to prepay an ordinary letter to this country by air. International Reply Coupons are exchangeable in postage stamps at the rate of 8¢ each, except that Canadian and Mexican international reply coupons are redeemable in postage stamps at the rate of 3¢ each. They must bear the postmark of the selling post office. The period for exchange of reply coupons is unlimited.

(2) Postal Union of the Americas and Spain Reply Coupons, printed in green ink and bearing the caption "Cupón Respuesta Americoespañol", are not sold in this Service, but they are redeemable in postage stamps in the same manner and rate of exchange (8¢ each) as the UPU international reply coupon, except that when more than 10 PUAS coupons are offered by one individual the letters on which the postage is being prepaid must also be presented.

(f) *Air letter sheets (aerogrammes).* For details of air letter sheets (aerogrammes), see § 109.7 of this chapter.

PART 132—PROHIBITED AND RESTRICTED ARTICLES

Sec.
132.1 General list of prohibited articles.
132.2 Restricted articles.

AUTHORITY: §§ 132.1 and 132.2 issued under R. S. 161, 396, 398, secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372.

§ 132.1 *General list of prohibited articles.* The following articles are prohibited transmission in the Postal Union mails to all countries:

(a) Any article without address or incorrectly, insufficiently, or illegibly addressed so that it cannot be transmitted to its destination;

(b) Any article addressed to go around the world or with the address side wholly or partly divided into several spaces intended for successive addresses;

(c) Poisons, including narcotics (opium, morphine, cocaine, etc.), explosives and inflammable articles, and all other articles excluded from the domestic mails, which either from their nature or packing are liable to soil or damage the mails or are injurious to health, life, or property.

(d) Matches, including safety matches;

(e) Live or dead animals, except: (1) Live bees, leeches and silk worms; (2) dead insects or reptiles when thoroughly dried; and (3) parasites and predators of injurious insects intended for the control of such insects and exchanged between officially recognized agencies.

(f) Articles which are excluded from the domestic mails of the United States.

(g) Coins, bank notes, paper money or any values payable to bearer; manufactured or unmanufactured platinum, gold or silver, precious stones, jewelry stones, jewelry or other precious articles are prohibited transmission in the Postal Union mails unless sent by registered letter mail. These articles are absolutely prohibited even in registered letter mail to some countries.

§ 132.2 *Restricted articles*—(a) *Gold and gold certificates.* (See § 115.3 of this chapter.)

(b) *Diamonds.* (See § 115.4 (a) of this chapter.)

(c) *Tobacco seed and plants.* (See § 115.4 (c) of this chapter.)

(d) *"Window" envelopes.* (1) Envelopes which are entirely transparent or open-panel envelopes are unmailable. The window need not form an integral part of the envelope.

(2) The panel shall lie parallel to the longest dimension, so that the address of the recipient appears in the same direction and the application of the date stamp is not hindered. The transparency of the panel shall assure perfect legibility of the address, even by artificial light, and shall not interfere with the application of a written note. Panel envelopes whose vitrified part causes reflection of artificial light are excluded.

(3) Only the name and address of the recipient may appear through the panel. The contents of the envelope must be folded in such a way that the address cannot be covered, even partly, as a result of slipping. The address shall be indicated legibly in ink, in typewriting, or by printing, in dark colored letters. Addresses written in ordinary or indelible pencil are not permitted.

PART 133—DOCUMENTATION

Sec.
133.1 Customs forms.
133.2 Export declarations.
133.3 Licenses and certificates.
133.4 Parcel post documents.

AUTHORITY: §§ 133.1 to 133.4 issued under R. S. 161, 396, 398, secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372.

§ 133.1 *Customs forms*—(a) *Green (customs) label.* (1) The green (customs) label, Form 2976, must be affixed to the address side of each letter or letter package containing dutiable articles (merchandise); to prints which are dutiable in the country to which they are addressed; and to each small packet.

(2) The form is not, under any circumstances, to be employed on parcel post packages.

(3) Facsimiles of the old Form 2976 and the revised form are shown below:

Old Form

Form 2976 16—67823-1 GPO

(4) When the revised form is used in its entirety, there is no need to enclose the paper form of customs declaration (see paragraph (b) of this section) in the package. However, if the sender prefers not to show the nature of the contents, etc., on the outside of the article, or if for any reason the use of the revised form in its entirety is not practicable, the upper part of the revised form (detached by cutting along the dotted line) may be affixed to the cover. Old Form 2976 may be used for this purpose until the supply is exhausted.

(b) *Paper customs declaration.* (1) The paper form of customs declaration (Form 2976–A) is available for completion and enclosure within the classes of articles mentioned in paragraph (a) of this section when the description of the contents of the article is not shown on Form 2976 or on an invoice enclosed within the article.

(2) The contents of the article must be indicated in detail on the form. Notations of a general character are not allowed.

(3) Form 2976–A is not, under any circumstances, to be used in mailing parcel post packages. Information concerning the card (tag) form of customs declaration (Form 2966) to be used in connection with parcel post packages will be found in Part 114 of this chapter.

(4) Following is a facsimile of Form 2976–A.

§ 133.2 *Export declarations.* For information concerning postal export declarations which must be prepared on U. S. Department of Commerce Form 7525–V in connection with certain commercial shipments sent in the Postal Union mails or by parcel post by one business concern to another business concern between continental United States, its noncontiguous possessions, and other countries, see § 114.4 of this chapter.

§ 133.3 *Licenses and certificates.* For information concerning licenses and certificates required in certain cases in connection with exports in the Postal Union mails or by parcel post, see Part 115 of this chapter.

§ 133.4 *Parcel post documents.* For specific documentary requirements for parcel post, see Part 114 of this chapter.

Subchapter O—Undelivered Mail

PART 141—INQUIRIES AND COMPLAINTS

Sec.
141.1 Inquiries encouraged.
141.2 When made.
141.3 Where made.
141.4 How made.
141.5 Charges.

AUTHORITY: §§ 141.1 to 141.5 issued under R. S. 161, 396, 398, secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372.

§ 141.1 *Inquiries encouraged.* Patrons are urged to report any losses or nondelivery or other mistreatment of mail since these reports may serve to improve the postal service.

§ 141.2 *When made.* Inquiries are accepted within one year, counting from the day following date of mailing.

§ 141.3 *Where made.* Make all inquiries and complaints regarding nondelivery or other mistreatment of international mail to your local postmaster.

§ 141.4 *How made*—(a) *Inquiries regarding nondelivery.* If an article has failed to reach the addressee within a reasonable time, after it should in regular course have been delivered, the post office will, upon request, institute an inquiry with the foreign postal administration. You may make inquiries even though the articles were mailed in another country. If you are unable to submit the registry (mailing) receipt in the case of a registered article, however, you should make complaint at the office of mailing.

(b) *Complaints of noncompletion of return receipts.* Complaints with respect to non-completion of return receipts for registered article (see § 121.6 (c) of this chapter) should be transmitted, together with the relative receipt, to the Post Office Department, Bureau of Transportation, Division of International Services, Washington 25, D. C.

§ 141.5 *Charges*—(a) *When applicable.* No charge is made for inquiry or complaint concerning the nondelivery of a piece of international mail if the complainant has failed to receive a return receipt for which he paid the required fee; or if the complainant is able to show that loss or other irregularity has occurred apparently through fault of the postal service. Such a showing is satisfied either by exhibiting a letter from the addressee a reasonable time after the article involved would normally have been delivered; or satisfactorily explaining the failure to exhibit such a letter or report. Otherwise, a charge of 13 cents is made.

(b) *When several articles involved.* Only one fee is collected for inquiries or requests for information concerning several articles mailed simultaneously by the same sender addressed to the same addressee.

(c) *Airmail or telegraph inquiry.* If you desire your inquiries to be sent by air mail or telegraph, you must pay, in addition to other fees and charges applicable, the postage for a one-rate air mail letter to the country of destination, or the appropriate telegraph charge. If you also desire a reply to your inquiry to be made by air mail or telegraph, you must pay double the air mail postage, or the telegraph charges both ways.

PART 142—UNDELIVERABLE ARTICLES

Sec.
142.1 When returned.
142.2 Charges.

AUTHORITY: §§ 142.1 and 142.2 issued under R. S. 161, 396, 398, secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943, 5 U. S. C. 22, 369, 372.

§ 142.1 *When returned.* Undeliverable ordinary (unregistered) prints without value are not returned by the country of address unless the sender has requested their return by a notation placed on the article in a language known in the country of destination. Other ordinary articles and all registered articles are always returned. (Undeliverable second-class publications mailed from Canada are given the same treatment as undeliverable domestic matter of the second-class.) For parcel post, see provisions for alternative disposition, § 114.1 (c) (2) of this chapter.

§ 142.2 *Charges.* (a) Upon any unpaid or short-paid article returned as undeliverable, the sender will be required to pay the sum which would have been collectible from the addressee if the article had been delivered. In addition, when returned through the dead letter office, the sender will be required to pay a fee of 5 cents.

(b) There is no charge for return postage on undeliverable fully prepaid articles in the Postal Union mails, except for "Eight-ounce merchandise packages" (see Part 107 of this chapter). These are subject, on return delivery to the sender, to a postage charge equal to the amount of postage originally prepaid, or in the case of such articles originally sent by air to a return charge of 3 cents for the first 2 ounces and 2 cents for each additional 2 ounces or fraction thereof.

(c) United States publications of the second-class mailed by publishers or registered news agents at the rates prescribed in Part 104 of this chapter, which are returned from Canada as undeliverable are subject on delivery to the senders to a charge at the rate of 2 cents for the first 2 ounces and 1 cent for each additional 2 ounces or fraction thereof.

(d) In the case of parcel post packages, where the sender has given instructions that the parcel be returned to him if undeliverable as addressed, he engages that he will pay the return postage.

Subchapter P—Indemnities

PART 151—SUBSTANTIATION OF CLAIMS

Sec.
151.1 Report to accompany claim.
151.2 Proof of value.

AUTHORITY: §§ 151.1 to 151.2 issued under R. S. 161, 396, 398, secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372.

§ 151.1 *Report to accompany claim.* The report from the addressee on which the claim is based must accompany the claim.

§ 151.2 *Proof of value.* The burden of satisfactorily establishing the value of the contents at the time of mailing or that the amount claimed, particularly in the case of heirlooms or antiques, is not in excess of the ordinary market value of similar articles rests, in the absence of a complete description of the contents, with the claimant. Sentimental values arising from associations of articles cannot properly be allowed.

PART 152—INDEMNITY LIMITS

Sec.
152.1 Registered postal union articles.
152.2 Registered or ordinary under the parcel post agreement of the Union of the Americas and Spain.
152.3 Other registered parcel post.
152.4 Insured parcel post.
152.5 Principal exceptions.

AUTHORITY: §§ 152.1 to 152.5 issued under R. S. 161, 396, secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372.

§ 152.1 *Registered postal union articles*—(a) *Limit under the Postal Convention with Canada.* Total loss based on value not exceeding $25.

(b) *Limit under the Universal Postal Union Convention of Brussels.* Any amount claimed not exceeding $8.17 for total loss (envelope or wrapper, and total contents).

(c) *Limit under the Convention of the Postal Union of the Americas and Spain of Madrid.* Any amount claimed not exceeding $3.27 in the case of total loss.

(d) *Damage or complete loss or rifling of contents.* (1) When mailed in the United States and responsibility rests with the Postal Administration of the United States and when bulk billed, for actual amount thereof in amount claimed, not exceeding $8.17, except that the maximum amount is $3.27 in the case of registered articles to the countries subscribing to the Convention of the Postal Union of the Americas and Spain of Madrid.

(2) In the event of partial or complete loss or rifling of the contents of registered Postal Union articles for Great Britain and Northern Ireland and Switzerland (regardless of where it occurs), and for the actual amount thereof not exceeding $8.17; for the intrinsic value, but not exceeding $8.17, for damage while in the custody of the postal service to such extent as to destroy entirely the value of an article contained in a registered packet (unless the damage arose from the fault of the sender or from causes beyond control).

(3) Limited indemnity may be specially paid under the conditions set forth in subparagraph (1) of this paragraph for loss, rifling, or damage where money in cash, bank notes or values payable to bearer are prohibited transmission in the mails.

§ 152.2 *Registered or ordinary under the Parcel Post Agreement of the Union of the Americas and Spain.* Actual amount of loss, rifling, or damage, based on value, is paid not exceeding the maximum amount for each weight unit, as follows:

2 pounds	7 pounds	11 pounds	22 pounds	33 pounds	44 pounds
$3.27	$4.90	$8.17	$13.07	$17.97	$22.87

§ 152.3 *Other registered parcel post.* Actual value up to 50 gold francs ($16.33) for the loss, rifling or damage of registered parcel post packages exchanged with Cape Verde Islands and Portuguese West Africa; up to $10 for the total loss of such parcels exchanged with Cuba, and in accordance with the scale of fees and limits of indemnity under the country items, based on actual value, is paid for the loss, rifling or damage of registered parcel post packages exchanged with Ecuador, and for the total loss of registered parcel post packages exchanged with Portugal (including Madeira and the Azores).

§ 152.4 *Insured parcel post*—(a) *General provisions.* Actual amount of loss, rifling, or damage, based on value at the time and place of mailing, is paid not exceeding the limit for the insurance fee paid. Also, limited indemnity may specially be paid under the usual conditions for the loss, rifling or damage of certain articles mailed to Canada by insured parcel post.

(b) *Forwarded or returned to third country.* In the case of an insured parcel forwarded or returned to a third country, the rightful claimant shall be entitled to only such indemnity, if any, for any loss, rifling, or damage which occurs subsequent to the redispatch of the parcel in the country of original address, as the country in which the loss, rifling, or damage occurred is willing or obligated to pay under any agreement in force between the countries involved.

§ 152.5 *Principal exceptions.* Indemnity will not be paid:

(a) For damage to Postal Union registered articles or partial or complete loss, or rifling of the contents of Postal Union registered articles, except as stated in § 152.1 (d) (2).

(b) As a rule, in case of parcels reported by other countries as having been delivered without external trace of rifling or damage and accepted without reservation as to the condition of the contents.

(c) When it is established that delivery was made under the conditions prescribed by the domestic regulations of the country of destination for mail of the same kind, or, upon presentation of a regular Postal identity card.

(d) In case of loss or damage through "force majeure", as defined by the legal decision or rulings of the country in whose service the loss or damage occurs.

(e) When loss, rifling, or damage has been caused by the fault or negligence of the sender or the addressee or the representative of either.

(f) When an article or parcel cannot be accounted for in consequence of the destruction of service records through "force majeure."

(g) When the contents are prohibited.

(h) In case the claimant, with intent to defraud, shall declare the contents of a parcel to be above their real value.

(i) For an article or parcel seized by the customs.

(j) In the case of parcels which contain matter of no intrinsic value or matter which did not conform to the stipulations of the conventions applicable, or which were not posted in the manner prescribed. However, in the event of loss, rifling, or damage in this country of mail matter erroneously accepted for insurance, etc., to other countries, or, on which postage was erroneously collected at other than parcel post rates, but otherwise properly accepted for mailing, limited indemnity may specially be paid.

(k) For indirect loss or loss of profit in the case of parcels.

(l) When no inquiry or application for indemnity has been made by claimant or his representative within a year commencing with the day following the posting of the article or parcel. In the case of insured mail with Canada, however, the time limit may be waived when it is satisfactorily established that the delay was unavoidable and not the fault of the claimant.

(m) For damage which proceeds from the inherent vice or quality of the contents, that is, its inability, due to its nature, to withstand the ordinary incidents of the contemplated carriage.

(n) In case of claim for damage, unless the parcel was adequately packed for the length of the journey and for the protection of the contents; also, unless the parcel was conspicuously endorsed to show the nature of the contents, such as "Fragile", "Glass", "Eggs", or "Perishable" as may be appropriate. Except in the case of Canada no indemnity is payable under any conditions in respect of parcels which contain perishable matter.

(o) In cases in which full compensation or reimbursement has otherwise been made by the Post Office Department or by any outside firm or corporation whatsoever except on a pro-rata basis as co-insurer.

(p) For the rifling or damage of registered or insured parcels exchanged with Portugal (including Madeira and the Azores), and of registered parcels exchanged with Cuba.

Subchapter Q—Importations

PART 161—CUSTOMS TREATMENT

Sec.
161.1 Joint regulations of Treasury and Post Office Departments.
161.2 Delivery and collection of duty.
161.3 Payment of duty protested.
161.4 Refund of customs duty.
161.5 Rates of duties.
161.6 Prepayment of duty.

AUTHORITY: §§ 161.1 to 161.6 issued under R. S. 161, 396, secs. 304, 309, 42 Stat. 24, 25, sec. 498, 46 Stat. 728, 59 Stat. 669; 19 U. S. C. 1498, 5 U. S. C. 22, 369, 22 U. S. C. 288-288f.

§ 161.1 *Joint regulations of treasury and post office departments.* All mail matter received from abroad, known or believed to contain dutiable articles, must be submitted to the Customs Service as required by the Joint Regulations adopted by the Secretary of the Treasury and the Postmaster General.

§ 161.2 *Delivery and collection of duty*—(a) *Payment of duty required.* Articles which have been examined by the United States Customs authorities and found to be subject to duty will be delivered to the addressee only upon payment of the amount of duty assessed.

(b) *No examination before payment of duty.* Addressees are not permitted to examine the contents of dutiable articles until the duty is paid.

(c) *No duty refund in certain cases.* When an addressee requests delivery of parcel post packages to be made at his residence or place of business after the customs duty thereon has been paid at the post office, attention is called to the circumstances that the Treasury Department has declined to refund the duty in such cases when the goods become lost between the post office and the addressee's residence or place of business, and that if there should be any loss there is no appropriation available from which the Post Office Department could make reimbursement for the amount of duty paid.

§ 161.3 *Payment of duty protested*—(a) *Refuse and protest.* When an addressee refuses to accept a dutiable package and protests against the payment of duty assessed, he shall state his objection in writing to the postmaster and shall submit any available information or evidence substantiating his claim. If an addressee simply refuses a parcel and makes no protest concerning the duty assessed the parcel shall be treated as undeliverable.

(b) *Claim for duty refund.* An addressee, who is dissatisfied with the amount of duty assessed, may pay the charges, take delivery of the package and subsequently file claim for a refund with the collector involved.

(c) *Unaccompanied articles.* Returning residents of the United States frequently mail to themselves or arrange for mailing of personal effects and/or merchandise acquired abroad. These articles are entered on the customs baggage declaration as "unaccompanied articles." If it is expected that the declared items will be contained in one shipment, the customs regulations provide that the declaration shall be prepared in duplicate, the copy being retained by the declarant for clearance purposes. When the payment of duty is protested under the above conditions, the duplicate baggage declaration in the patron's possession shall be surrendered to the postmaster for transmission, together with the other information referred to in the preceding paragraph, to the collector who issued the mail entry. Should the addressee be unable to produce the duplicate baggage declaration, his statement as to the date and the port through which he reentered the country, together with any possible information regarding the name of the ship or the number of the aircraft, and the number borne by the declaration filed at the time of such arrival will be furnished the collector in lieu thereof. The collector who issued the mail entry will communicate with the customs authorities at the port of entry relative to the matter of whether or not the package is entitled to free entry.

(d) *Storage charges.* A parcel post package held at a post office pending the decision of the customs authorities is subject to storage charges. Addressees are expected to pay the storage charges every 20 days (i. e., whenever the amount totals $1) in order to prevent the accumulation of such charges on parcel post packages held for the purpose mentioned.

§ 161.4 *Refund of customs duty*—(a) *Duty not refundable by postmasters.* Amounts collected on customs mail entry forms are not refundable by postmasters. An addressee who requests a refund of duty shall make application therefor to the collector of customs at the port of entry within 30 days from the date of entry. It is suggested, if refund is claimed on account of damage, that the article be forwarded to the collector with the application. If the addressee wishes to abandon the article to the Government, he should include a statement to that effect in his application. In case the addressee also intends to file a claim for indemnity with the Post Office Department, he shall, before taking the above action, present the contents, container and complete wrapping to the postmaster for the inspection prescribed by the international indemnity application Form 2855.

(b) *Refund by customs service.* Refund of duties paid will be made by the Customs Service if merchandise covered by a mail entry representing 5 percent or more of the total value of all of the merchandise of the same class or kind entered in the invoice in which the item appears is abandoned and delivered within 30 days after the date of entry to the collector of customs where the entry was made.

(c) *Refund of duty on returned merchandise.* Refund of duties paid less 1 per centum will also be made by the Customs Service if merchandise covered by a mail entry and found not to conform to sample or specification or shipped without the consent of the consignee is, within 90 days from the date of delivery, returned to customs custody for exportation, unless the Secretary of the Treasury authorizes in writing a longer time. The postal charges incident to returning the merchandise to the sender must be borne by the addressee.

§ 161.5 *Rates of duties.* Patrons desiring information concerning rates of duty on articles imported into the United States, or other customs procedure, should communicate with the appropriate customs officer, located at various points throughout the country, or with the Commissioner of Customs, Treasury Department, Washington 25, D. C. The publication United States Import Duties (1952) on sale by the Superintendent of Documents, Government Printing Office, Washington 25, D. C. (price, $3.25), may be of interest to persons regularly engaged in the importation of merchandise.

§ 161.6 *Prepayment of duty.* No provision is made for the prepayment abroad of customs duty on mail shipments addressed for delivery in the United States.

PART 162—PLANTS AND PLANT PRODUCTS

Sec.
162.1 Plants admitted without restriction.
162.2 Plants admitted under restrictions.
162.3 Prohibited plants and plant products.

AUTHORITY: §§ 162.1 to 162.3 issued under R. S. 161, 396, secs. 304, 309, 42 Stat. 24, 25; 5 U. S. C. 22, 369.

§ 162.1 *Plants admitted without restriction.* Plants and plant products ordered by, intended for, and addressed to the Plant Quarantine Branch, Horticultural Crops Research Branch, of the United States Department of Agriculture, Washington 25, D. C.

§ 162.2 *Plants admitted under restrictions.* Except for those listed in § 162.3 as prohibited, and some which are importable by private individuals, most plants and plant products are admitted under various restrictions. For information, patrons should address inquiries to Department of Agriculture, Plant Quarantine Branch, Washington 25, D. C.

§ 162.3 *Prohibited plants and plant products*—(a) *Cuttings, buds, cions, etc.* Subject to some exceptions, importation by mail is prohibited from all countries and localities, of all plants, including cuttings, buds, cions, bulb roots, tubers, seeds, etc.; fruits and vegetables in the raw or unprocessed state; and other plant products.

(b) *Plants and plant products as packing materials.* Except in special cases where preparation, processing, or manufacturing are judged by an inspector of the United States Department of Agriculture to eliminate a risk of carrying injurious insects and diseases, the importation as packing material is prohibited of rice straw, hulls and chaff; cotton and cotton products; sugarcane, including bagasse; bamboo leaves and small shoots; leaves of plants; forest litter; soil with an appreciable admixture of vegetable matter not therein provided for by regulation; and all parts of corn and allied plants, except from Mexico and the countries of Central America, the West Indies, and South America.

PART 172—INTERNATIONAL POSTAL SERVICE: POSTAGE RATES, SERVICE AVAILABLE AND INSTRUCTIONS FOR MAILING

HUNGARY

The following changes are effective November 1, 1954:

In Part 172—International Postal Service: Postage Rates, Service Available and Instructions for Mailing, 39 CFR Part 172, make the following changes:

a. In § 172.74 *Sealing*, amend the list of countries in paragraph (a) by inserting in proper alphabetical order the following:

Hungary (insured).

b. In § 172.140 *Service available* insert "Hungary" in proper alphabetical order.

c. In § 172.273 *Hungary* make the following changes:

1. In paragraph (b) (1) make the following changes in the tabulated information appearing under the table of rates:

a. Amend the information opposite "Sealing" to read as follows:

Insured parcels must, and ordinary parcels may, be sealed.

b. Change "Insurance: No. Service from Hungary only." to read "Insurance: Yes."

2. Amend paragraph (b) (2) as follows:

(2) *Indemnity*. See subparagraph (4) of this paragraph.

3. In paragraph (b), redesignate subparagraphs (4), (5) and (6) as subparagraphs (5), (6) and (7), and insert new subparagraph (4) to read as follows:

(4) *Insurance*. (i) Parcel post packages may be insured subject to the following limits of indemnity when prepaid at the postage rate applicable, in addition to the insurance fees mentioned hereunder:

Limit of indemnity:	*Fee, cents*
Not over $10	20
From $10.01 to $25	25
From $25.01 to $50	35
From $50.01 to $100	55

(ii) Parcels containing coin, bullion, valuable jewelry, or any other precious article must be insured.

(iii) For general information concerning insurance service see §§ 172.140 to 172.148, inclusive.

(R. S. 161, 396, 398; secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372)

[SEAL] ABE MCGREGOR GOFF, *The Solicitor.*

[F. R. Doc. 54-8559; Filed, Oct. 29, 1954; 8:47 a. m.]

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

Subchapter A—Civil Air Regulations

[Supp. 2]

PART 1—CERTIFICATION, IDENTIFICATION, AND MARKING OF AIRCRAFT AND RELATED PRODUCTS

CAA RULES, POLICIES, AND INTERPRETATIONS

The purpose of this supplement is to establish the rules and policies applying to the production inspection system, and policies and interpretations for production flight tests, conformity inspections, quality control and identification marks applicable to manufacturers of type certificated aircraft, aircraft engines, and propellers.

The rules prescribed in § 1.15–5 were published as a notice of proposed rule making on April 27, 1954, in 19 F. R. 2454. Interested persons were afforded an opportunity to submit written views, data, or argument. Consideration has been given to all relevant data presented. The following rules, policies, and interpretations are hereby adopted:

1. Section 1.15–1 as published in 17 F. R. 8421 on September 19, 1952, is revised to read as follows:

§ 1.15–1 *Inspections and tests (CAA policies which apply to § 1.15)*. (a) Parts, assemblies or products fabricated by the prime, subsidiary or sub-divisional manufacturer operating under the terms of a type certificate only will be inspected while the articles are in an "inspectable" condition. Drawings and other technical data maintained at the place of manufacture should be made available by the manufacturer to enable the CAA Aviation Safety Agent to determine that the finished product or any part thereof conforms with the applicable requirements and current type design data.

(b) Aircraft manufactured under a type certificate only will be flight tested at the manufacturer's plant by, or under the supervision of, a CAA Aviation Safety Agent prior to airworthiness certification. Upon completion of the flight test, the aircraft may be shipped unassembled, provided that:

(1) The aircraft is inspected for conformity and airworthiness by a CAA Aviation Safety Agent at the manufacturer's plant, and

(2) Approval Tags, Form ACA 186, are attached to all major assemblies, components, and boxes of parts. These tags will be signed by the CAA Aviation Safety Agent, and will indicate the make, model, and serial number of the aircraft.

(c) After completion of the engine test run (see § 1.15–5 (e)), each engine will be subjected to such internal inspections and examinations by a CAA Aviation Safety Agent as may be necessary to ascertain that no unsafe condition exists.

(d) All propellers will be subjected to such inspections and examinations by a CAA Aviation Safety Agent to ascertain conformity with the type design data, and to assure that no unsafe condition exists. (See § 1.15–5 (f) for tests required for variable pitch propellers.)

2. Sections 1.15–2, 1.15–3, and 1.15–4 are added as follows:

§ 1.15–2 *Inspection approval of products, parts, and assemblies (CAA policies which apply to § 1.15)*—(a) *Complete products*. When products other than complete aircraft or communications equipment are manufactured under the terms of a type certificate only, the CAA Aviation Safety Agent, having determined by inspection that the product is acceptable, will prepare and attach thereto, by means of a lead seal, an Approval Tag, Form ACA 186. This tag will show the make and model of the product tagged, will indicate that the product has been inspected and approved, and will be signed by the CAA Aviation Safety Agent.

(b) *Major components*. (1) Any major spare or replacement components of an aircraft, aircraft engine, propeller, or appliance manufactured under a type certificate only will be inspected for conformity and airworthiness by a CAA Aviation Safety Agent. All such major assemblies or components, upon determination of acceptability, will be tagged with an Approval Tag, Form ACA 186, which will identify the part to which attached, will indicate the make and model of the aircraft, engine, propeller, etc., for which intended, and will bear the CAA Aviation Safety Agent's signature.

(2) The conformity, quality, and acceptability of major components and critical parts manufactured by a subsidiary manufacturer in accordance with the prime manufacturer's approved drawings will be determined in accordance with § 1.34–1 (a) (2), except that an agent of the CAA will conduct such additional inspections as may be deemed necessary to determine conformity, compliance, and acceptability of materials and workmanship.

§ 1.15–3 *Production test flight authorization (CAA policies which apply to § 1.15)*. (a) To facilitate compliance by manufacturers with related provisions of § 43.10 of this subchapter, the reverse side of the Dealer's Aircraft Registration Certificate, Form ACA 1707, will be used to provide flight authorization for production flight testing prior to the initial issuance of individual airworthiness certificates.[1] This flight authorization is provided for the convenience of manufacturers, and has no connection with the issuance, validity, or continuation of the Dealer's Aircraft Registration Certificate. The flight authorization is limited to production test flights, and does not provide for prototype or experimental flight testing. The flight authorization will be issued at the time the Dealer's Aircraft Registration Certificate is issued. The Application for Dealer's Aircraft Registration Certificate(s), Form ACA 1706, contains a section for the use of manufacturers in applying for authorization to conduct production flight tests.

[1] A new aircraft, in which a Manufacturer's Special Flight Authorization, Form ACA-1707, is displayed, may be given a production flight test subject to the following operations limitations which are specified on such form; Operations Limitations: Flights, except take-offs and landings, prohibited over thickly populated areas or large gatherings of people. No flight shall be conducted for hire or reward. Cross-country flights prohibited. Occupancy of the aircraft restricted to personnel essential to the purpose of the flights.

(b) Aircraft to be flown for production flight tests, which are intended for U. S. registration and certification, are required to display the appropriate U. S. identification markings in accordance with §§ 1.100 through 1.108.

(c) New aircraft intended for export should display the appropriate foreign identification markings during the production flight testing.[2] If these markings are not available, the aircraft may display temporarily assigned U. S. identification markings.

§ 1.15–4 *Logging of production aircraft flight test time (CAA policies which apply to § 1.15)*. Production flight test time will be recorded on the flight test check-off form.[3]

3. Section 1.15–5 as published in 19 F. R. 2454 on April 27, 1954, is adopted to read as follows:

§ 1.15–5 *Production inspection system (CAA rules which apply to § 1.15 (d))*. (a) Within the first six months from the date of issuance of the type certificate, the manufacturer producing products under the terms of a type certificate only, shall establish and thereafter maintain, a production inspection system which will insure conformity with the type design data, and that unacceptable materials and parts are not installed in the finished product. Statistical quality control procedures may be employed where it is shown that a satisfactory level of quality will be maintained for the particular materials or parts involved.

(b) The production inspection system shall include materials review procedures and a Materials Review Board to process parts and materials rejected because of damage or manufacturing errors, which may be serviceable, when such rejected items are to be considered for installation in the product. (See § 1.34–1 (e) for procedures.) The Materials Review Board shall consist at least of representatives from the inspection and engineering departments. Parts and materials which are determined by the Materials Review Board to be serviceable shall be properly identified and reinspected if rework or repair is necessary. Parts or materials rejected by the Materials Review Board, or by inspection, shall be marked accordingly and disposed of in a manner which will prevent such parts and materials being incorporated in the finished product.

(c) Inspection records shall be maintained, identified with the completed product where possible, and retained in the manufacturer's files for at least two years. Complete records of Materials Review Board action applying to materials, parts, assemblies, and the completed product, shall be retained for at least two years and available for review by the Aviation Safety Agent.

(d) Complete aircraft: (1) After the prototype is type certificated, each aircraft produced under the terms of a type certificate only shall be flight tested by the manufacturer as a final check on the operation of the completed product. The manufacturer shall develop a production flight test procedure and a flight check-off form, subject to approval of CAA, to be used in connection with the initial flight testing of each production aircraft. The flight test procedure shall apply to aircraft which are assembled and delivered via flyaway, and to those which are delivered unassembled to an authorized distributor.

(2) The production flight test shall provide for at least the following:

(i) An operational check of the trim, controllability, or other flight characteristics, to establish the fact that the production aircraft has the same range and degree of control as the prototype aircraft.

(ii) An operational check of each part or system operated by the crew while in flight to establish that, during flight, all instrument readings are within normal range.

(iii) A determination that all instruments are properly marked, and that all placards and or required Flight Manuals are installed after flight test.

(iv) A check of the operational characteristics of the aircraft on the ground.

(v) A check on any other items peculiar to the aircraft being tested which can best be done during the ground or flight operation of the aircraft.

(e) Complete engines: Each engine (either reciprocating or turbine) produced under the terms of a type certificate only, shall be subjected to a satisfactory test run by the manufacturer, consisting of break-in runs which shall include a determination of fuel and oil consumption and maximum power characteristics. The test run shall include at least five hours of operation at the maximum rating, of which at least thirty minutes shall be at takeoff power and speed where this rating is in excess of the maximum continuous rating. This test may be conducted with the engine mounted on a torque stand or on a fixed stand with a calibrated test club or propeller. For rocket type engines, a satisfactory sampling technique means of testing shall be established. Each engine tested shall be subject to the inspection provided for in § 1.15–1 (c).

(f) Complete propellers: Each variable pitch propeller produced under the terms of a type certificate only, shall be subjected to a satisfactory functional test to determine that the propeller will operate properly throughout the normal pitch range, as a final check on its operational characteristics. Each propeller tested shall be subject to the inspection provided for in § 1.15–1 (d).

4. Section 1.15–6 is added as follows:

§ 1.15–6 *Surveillance of production inspection system (CAA policies which apply to § 1.15 (d)*. (a) During the six months' interval, the CAA will conduct conformity inspections to determine that the finished product is in conformity with the type design data, is airworthy, safe for installation on a certificated aircraft, or, in the case of aircraft, is eligible for an airworthiness certificate.

(b) Materials review dispositions will be spot checked by a representative of the Administrator to verify that no obvious adverse effect will result from such dispositions.

(c) At the end of the six month interval, the CAA will advise the manufacturer whether the inspection system is considered acceptable. If the inspection system is considered acceptable, as determined by evaluating the results of the system as reflected in the conformity, quality, and airworthiness of the finished products, the CAA will thereafter reduce its inspection surveillance and increase its reliance in the manufacturer's inspection system in the determination of the airworthiness of future products. If the inspection system is not acceptable, as evidenced by questionable parts and materials accepted for installation in the finished product, or significant discrepancies repeatedly found in the finished products, the issuance of airworthiness certificates for aircraft or approvals of other products for installation on an aircraft may be deferred until the manufacturer has made necessary corrective changes.

5. Paragraphs (e), (f), (g), and (h) of § 1.34–1 as published in 17 F. R. 8423 on September 19, 1952, is revised to read as follows:

§ 1.34–1 *Quality control (CAA policies which apply to § 1.34.* * * *

(e) *Materials review*. Manufacturers' drawings prescribe certain tolerances which permit minor variations. When these tolerances are exceeded, the parts or materials involved are subject to rejection by personnel responsible for conformity, and may subsequently be referred to a Materials Review Board for examination, analysis, and final disposition in accordance with an approved materials review procedure. The Quality Control Department should be responsible for the effective operation of the Materials Review Board.[4] The CAA

[1] A new aircraft which, upon completion of local production flight tests, is to be disassembled and shipped to a foreign purchaser, or a new aircraft for which foreign nationality and registration markings have been requested but not received, may be locally test-flown by the manufacturer without displaying identification markings. In such case, the CAA agent will place the following additional operations limitations on the Manufacturer's Special Flight Authorization, Form ACA-1707: "Flights will be restricted to vicinity of manufacturer's plant. Local authorities responsible for the enforcement of flight regulations will be advised of such flights."

[2] Such flight test time need not be made a part of the aircraft or aircraft engine logbooks. Any flight test time, including accelerated service flight testing of prototype or modified aircraft, after airworthiness certification, must be recorded in accordance with § 43.23 of this subchapter.

[4] The effective operation of the Materials Review Board should materially minimize discrepancies and errors which may otherwise become chronic, and, furthermore, may serve as a yardstick by means of which the adequacy and acceptability of the production and quality control systems may be evaluated. However, the materials review system should not be used primarily, or in place of the inspection or quality control system, to determine acceptability of parts and materials.

factory agent will not check materials review dispositions, as necessary, to verify that products produced under the terms of the production certificate will consistently meet a satisfactory level of quality and conformity.

(1) The established materials review procedures should provide that:

(i) All materials, parts, and components which are damaged or do not conform to approved type design and/or other approved standards will be rejected and isolated.

(ii) All items thus withheld will be reviewed by qualified quality control and engineering personnel (Materials Review Board) to determine whether such items may be used safely in their present condition, whether rework or repair is necessary to assure equivalent safety and reliability, or whether the items are to be scrapped.

(iii) All items which are reworked or repaired in accordance with materials review dispositions will be reinspected for conformity therewith.

(iv) All items accepted through materials review action will be identified by stamp, tag, etc.

(v) The Materials Review Board will maintain accurate records which will provide at least the following:

(*a*) Name, part number, date, and quantity of parts involved.

(*b*) The quantity of parts in the lot or order.

(*c*) Description of the discrepancy.

(*d*) The material review disposition.

(*e*) The results of reinspection. (Items accepted after inspection will be treated as normal material.)

(vi) When material is first found by the manufacturer's inspection personnel to depart from the specification and/or drawings, the material shall be properly identified, and may be given a preliminary review by authorized manufacturer's inspection personnel.

(*a*) If the material is obviously unfit for use and irreparable, it should be disposed of by the manufacturer in such a way as to preclude installation in the finished product.

(*b*) If the material does not meet the requirements because of incomplete fabrication, the manufacturer may provide for the additional work necessary to bring the material within specified requirements without submission to the Materials Review Board.

(*c*) The CAA Aviation Safety Agent is authorized to approve certain variations or repairs made by the manufacturer without submission to the Materials Review Board.

(*d*) All questionable materials to be considered for use in the finished product which cannot be disposed of by preliminary review action should be designated for Materials Review Board action.

(2) The Materials Review Board should use discretion in deciding on the proper disposition of new parts and materials presented for review. This Board should not accept parts with deviations of a nature which make it impossible to readily install the part with a mating part which does conform with the pertinent drawings. Parts or assemblies involving mating parts should be in conformity with drawing tolerances to the extent that such parts may be installed, removed, or replaced without harm, misalignment, or injury to adjoining parts or portions of the finished product. In assembling parts under these circumstances, no fabrication operations such as cutting, hammering, bending, prying, or forcing should be permitted, or, when final installation has been completed, the parts should not be temporarily or permanently subjected to deformation or distortion of a nature which would cause any undesirable tensions, compressions, stresses, or strains. Where deviating parts, in themselves, are found acceptable, they must not jeopardize the airworthiness or performance of other parts when installed in the assembly. In general, parts which do not conform with the approved technical data should not be accepted when such parts can be reworked to conform with the approved design data.

(f) *Technical data.* A system should be established whereby detailed drawings and other technical data are available to both production and inspection personnel.

(g) *Flight or functional tests.* Each aircraft, aircraft engine, and variable pitch propeller produced under the terms of the production certificate will be subjected to a flight or functional test as a final check on the operation of the completed product.

(1) Aircraft produced under a production certificate will be flight tested periodically by the CAA. The number or percentage of aircraft which will be flight tested by the CAA will be dependent upon the complexity and size of the aircraft, and upon experience gained while conducting functional and reliability tests of prototype and production aircraft prior to issuance of the production certificate. The manufacturer should formulate a flight test schedule that is acceptable to CAA personnel conducting the tests.

(2) Aircraft may be delivered unassembled to an authorized distributor prior to initial assembly and flight test, provided the manufacturer will acquaint the distributor with his established flight test procedure and furnish him with copies of the approved flight test check-off form. Flight test procedures established by a distributor must be equivalent to those established by the manufacturer, including the use of an identical flight test check-off form. These forms, when prepared by the manufacturer, will be filed as part of the aircraft inspection record, and, when prepared by a distributor, will be retained by him for future reference.

(3) Each aircraft engine produced under the terms of a production certificate should be subjected to a satisfactory test run consisting of a break-in run, which should include at least the determination of each engine's fuel and oil consumption and maximum power characteristics. This test may be conducted with the engine mounted on a torque stand or on a fixed stand with a calibrated test club or propeller. Sufficient internal examination of each engine should be accomplished to reasonably ascertain that no unsafe conditions exist.

(4) Each variable pitch propeller produced under the terms of a production certificate should be subjected to a satisfactory functional test to determine that the propeller will operate properly throughout the normal pitch range. All propellers should be inspected for conformity with the type design data and to assure that no unsafe conditions exist.

(h) *Standard empty weight and C. G. for production aircraft.* The following procedure may be used by aircraft manufacturers to avoid the necessity of weighing each aircraft. This procedure applies only to newly manufactured aircraft (except transport category aircraft) which are produced under the terms of a production certificate.

(1) Manufacturers who are interested in establishing an average empty weight and empty C. G., in lieu of actually weighing each aircraft, should prepare a detailed proposal regarding the procedure to be followed. This material should be furnished to the assigned Aviation Safety Agent for approval. Any proposal which will provide an accurate determination of average empty weight and C. G. will be considered acceptable.

(2) The following sample outlines an acceptable method for effecting this system:

(i) Actually weigh and determine the empty C. G. of ten aircraft of a particular model, which have identical equipment installed, as a means of establishing an average empty weight and empty C. G.

(ii) Subsequently, with respect to aircraft of the same model which have identical equipment installed, weigh an individual aircraft at regular intervals; e. g., each tenth aircraft, for the purpose of determining continued accuracy of the initial empty weight and empty C. G. established. If this weighing indicates a variation in empty weight which is in excess of 1 percent of the initially established weight, or a variation in the empty C. G. which exceeds ½ percent of the MAC, a new average weight should be established in accordance with procedures followed in establishing the initial average empty weight and C. G. conditions.

(3) A weight and balance report is required in connection with each aircraft presented for airworthiness certification. These reports may be computed for aircraft which are not actually weighed, and should be marked "computed." All other reports should be marked "actual."

6. Section 1.36–1 as published in 17 F. R. 8424 on September 19, 1952, is revised to read as follows:

§ 1.36–1 *Quality control data requirements; prime manufacturer (CAA policies which apply to § 1.36).* The quality control data (one copy only) should be submitted in manual form with the Application for a Production Certificate, Form ACA 332, to the local CAA Aviation Safety Agent.

7. Section 1.37–1 as published in 17 F. R. 8425 on September 19, 1952, is revised as follows:

§ 1.37–1 *Information on inspection system—subsidiary manufacturers (CAA policies which apply to § 1.37).* The prime manufacturer should include in the quality control data required by § 1.36 sufficient information to define and explain the means established to assure that all major parts and assemblies are in conformity with the design data when manufactured by a subsidiary manufacturer. The prime manufacturer should notify the CAA that the subsidiary's facilities are ready for inspection. If these facilities and the quality control system are found acceptable, the subsidiary will be granted the same privileges regarding acceptance of items manufactured as though they were produced by the prime manufacturer. Acceptance of a subsidiary manufacturer's quality control system by the CAA does not relieve the prime manufacturer of his responsibility for the over-all conformity and airworthiness of the part or assembly. Prior to CAA approval of a subsidiary manufacturer's quality control system, parts and assemblies should be subjected to a complete inspection for conformity and quality at the prime manufacturer's plant, or arrangements should be made for suitable inspection at the subsidiary manufacturer's plant by the prime manufacturer's inspection personnel and, as required, by CAA personnel.

8. Section 1.38–1 as published in 17 F. R. 8426 on September 19, 1952, is revised to read as follows:

§ 1.38–1 *Changes in quality control system (CAA interpretations which apply to § 1.38).* The phrase, "any changes to the quality control system," is interpreted to mean changes to a manufacturer's organization, systems, procedures or processes which may affect the inspection, conformity, and airworthiness of the product. Changes which are not consistent with the quality control data submitted in accordance with § 1.36 should be promptly directed to the attention of the CAA by means of revised pages or supplemental information. The CAA will review these changes to determine that the quality, conformity, or airworthiness of the product will not be adversely affected.

9. Section 1.109–1 is added as follows:

§ 1.109–1 *Identification marks for export aircraft (CAA policies which apply to § 1.109).* When foreign nationality and registration markings are not available for display upon new aircraft to be exported via flyaway to U. S. border or to some other location in U. S. where the aircraft will be disassembled for shipment, U. S. identification markings may be displayed on the aircraft in the normal manner (provided title to the aircraft is held by a citizen of the U. S.), and the markings may be affixed with a readily removable material.

(a) To minimize the cost involved in affixing identification markings to new aircraft being exported, exporters (manufacturers, dealers, and distributors who are holders of dealers' aircraft registration certificates) may request a special U. S. identification number consisting of one to three digits, which will be preceded by the letter N when displayed on the aircraft. Only one such number will be issued to each exporter, to be used repetitively in connection with previously unregistered aircraft which are being exported. These numbers will be used only in connection with the flyaway delivery of aircraft which are being exported, and will be displayed only during that portion of the flyaway delivery which takes place over U. S. territory. In the event two or more aircraft displaying the same identification number may be flying in relatively close formation, each aircraft will be identified, in so far as radio contacts are concerned, by combining the identification number displayed with the last two digits of the manufacturer's serial number of the aircraft. For example, an aircraft displaying the identification mark N2M and having manufacturer's serial number 203040 will be identified as N2M40. In order that the pilot may readily determine his radio call number, a placard bearing the call number of the aircraft should be displayed on the windshield or instrument panel in a location readily visible to the pilot. In this example, the placard would read N2M40.[1]

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply secs. 601, 603, 52 Stat. 1007, 1009, as amended; 49 U. S. C. 551, 553)

This supplement shall become effective November 15, 1954.

[SEAL] F. B. LEE,
Administrator of Civil Aeronautics.

[Supp. 12]

PART 40—SCHEDULED INTERSTATE AIR CARRIER CERTIFICATION AND OPERATION RULES

MISCELLANEOUS AMENDMENTS

The purpose of this supplement is to revise § 40.18–4 (f) (2) and add a new § 40.503–1.

Section 40.18–4 (f) (2) is revised to reflect a change in policy with respect to the requirement that air carriers submit supplemental amendments when making application for extensions of currently approved time limitations on powerplants and related components. This policy requires that an air carrier merely furnish a letter to the assigned CAA agent outlining the desired time limitations and designate three to five sample engines for disassembly inspection.

Section 40.503–1 permits the use of a trip or code number in the dispatch release form for the clearance of a particular trip instead of specifying each terminal and intermediate airport. This new procedure will cut down the length of messages and assist in preventing errors in dispatch messages.

[1] See Appendix A of this Manual for a table of aircraft nationality markings. (Appendix A not submitted for publication in the FEDERAL REGISTER.)

1. Section 40.18–4 (f) (2) as published in 18 F. R. 8607 on December 22, 1953, is hereby revised to read:

§ 40.18–4 *Policies, procedures, and limitations governing issuance and amendment of Operations Specifications, Aircraft Maintenance (CAA policies which apply to 40.18 (a)).* * * *

(f) *Revision of time limitations; general.* * * *

(2) *Powerplant and associated mechanical appliances—revision of time limitations.* Increases in engine overhaul periods will not be approved in increments greater than 100 hours. Increases in time limitations above the 1000-hour basic engine overhaul period will be considered on the basis of satisfactory service experience at the currently approved time limitations. The operator may request amendment to the currently approved time limitations by submitting a letter to the assigned CAA agent indicating the desired time limitations on the particular engines involved, and designating three to five engines for disassembly inspection by the CAA agent. The engines chosen for exhibit must have operated in a satisfactory manner for the maximum time permissible under currently approved time limitations. If, after disassembly and inspection of the exhibit engines and related components, it is found that the new time limitations are justified, the air carrier may then submit a formal application for an amendment in the routine manner requesting the extension of the overhaul period on the entire fleet of engines and related components of the same type and model. Engine accessories may be operated to double or triple the approved engine overhaul time limitations if it is found that previous satisfactory service and overhaul experience, including the service to be performed at each engine change period, would justify the increase as not adversely affecting the continuous condition of airworthiness of the component involved. The procedure for requesting and granting increases in overhaul time limitations for such components will be the same as used for the basic engine.

2. Section 40.503–1 is hereby adopted to read:

§ 40.503–1 *Dispatch release form (CAA interpretations which apply to § 40.503 (a) (2)).* The dispatch release form may contain a trip or code number for the clearance of the particular trip instead of specifying each terminal and intermediate airport. This number used in the dispatch release must correspond with the number listed in the air carrier's published schedule or operations manual, which will list all the regular and intermediate stops of the particular trip for which clearance was given. In the event field conditions, weather, etc., are such that routine operations are not to be conducted in accordance with the number for the particular trip, the dispatch release will specify the exceptions indicating the reason for the non-routine operation.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply secs. 601, 604, 52 Stat. 1007, as amended by 62 Stat. 1216; 1010, 49 U. S. C. 551, 554)

This supplement shall become effective November 15, 1954.

[SEAL] F. B. LEE,
Administrator of Civil Aeronautics.

TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T. D. 53646]

PART 10—ARTICLES CONDITIONALLY FREE, SUBJECT TO A REDUCED RATE, ETC.

CONDITIONALLY FREE ENTRY OF REPLACEMENT ARTICLES

In the interest of simplification and to make provisions for bona fide exportations of unsatisfactory articles and importations of replacement articles therefor under paragraph 1798 of the Tariff Act of 1930, as amended, within the purpose of subdivision (e) of that paragraph, it is deemed advisable to amend the regulations to permit the collectors of customs to allow free entry to a replacement article where circumstances satisfy the collectors that a person inexperienced in customs matters has in fact exported an original article.

Accordingly, § 10.17 (1) is amended by the insertion of the following new sentence after the first sentence: "In any case where the importer has failed to return the unsatisfactory article to customs custody for supervision of exportation, the collector may allow free entry of the replacement article if he is satisfied that the unsatisfactory article was timely exported and that the failure to return it to customs custody was due to inadvertence or lack of experience in customs matters and was without willful intent to avoid customs supervision."

(Sec. 201, par. 1798, 46 Stat. 683, as amended; 19 U. S. C. 1201 (par. 1798))

[SEAL] D. B. STRUBINGER,
Acting Commissioner of Customs.

Approved: October 25, 1954.

H. CHAPMAN ROSE,
Acting Secretary of the Treasury.

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Appendix C—Public Land Orders

[Public Land Order 1023]

COLORADO

INTERFOREST TRANSFERS OF LANDS IN GRAND MESA, GUNNISON, WHITE RIVER, ROUTT, ARAPAHO, RIO GRANDE, AND SAN ISABEL NATIONAL FORESTS

By virtue of the authority vested in the President by the act of June 4, 1897 (30 Stat. 34, 36; 16 U. S. C. 473), and pursuant to Executive Order No. 10355 of May 26, 1952, and upon the recommendation of the Secretary of Agriculture, it is ordered as follows:

The following-described lands within the exterior boundaries of the Grand Mesa National Forest are hereby transferred to the Gunnison National Forest, effective October 1, 1954:

SIXTH PRINCIPAL MERIDIAN

T. 9 S., R. 89 W.,
Secs. 30 and 31, those parts west of the divide between Crystal River and Muddy Creek.
T. 10 S., R. 89 W.,
Secs. 6, 7, 17, 18, 20, 21, 22, 26, 27, 28, 35 and 36, those parts south and west of the divide between Crystal River and Muddy Creek;
Sec. 19;
Secs. 29 to 34, inclusive.
T. 11 S., R. 89 W.,
Secs. 1, 12, 13, 24, 25, and 36, those parts west of the divide between Crystal River and Muddy Creek;
Secs. 2 to 6, inclusive;
Secs. 9 to 11, inclusive;
Secs. 14 to 16, inclusive;
Secs. 21 to 23, inclusive;
Secs. 26 to 28, inclusive;
Secs. 33 to 35, inclusive.
T. 12 S., R. 89 W.,
Secs. 1 and 12, those parts west of the divide between Crystal River and Muddy Creek;
Secs. 2, 3, 10, 11, 13, 14, 23, 24 and 25;
Sec. 26, E½;
Secs. 30 and 31.
T. 9 S., R. 90 W., unsurveyed,
Secs. 22 to 25, inclusive, sec. 27, and secs. 31 to 34, inclusive, those parts west of the divide between Crystal River and Muddy Creek, and south of the divide between West Divide Creek and tributaries of Muddy Creek;
Secs. 26, 35 and 36.
T. 10 S., R. 90 W., unsurveyed,
Sec. 1, that part west of the divide between Crystal River and Muddy Creek drainage;
Sec. 6, that part south and east of the divide between West Divide Creek drainage and Muddy Creek drainage;
Secs. 2 to 5, inclusive;
Secs. 7 to 36, inclusive.
T. 11 S., R. 90 W.,
Sec. 1;
Secs. 3 to 10, inclusive;
Secs. 15 to 21, inclusive;
Sec. 22, N½, SW¼;
Sec. 27, W½;
Secs. 28 to 33, inclusive;
Sec. 34, W½.
T. 12 S., R. 90 W.,
Secs. 3 to 6, inclusive;
Secs. 8 to 10, inclusive;
Sec. 11, SW¼;
Secs. 13 to 17, inclusive;
Secs. 20 to 29, inclusive;
Secs. 32 to 36, inclusive.
T. 10 S., R. 91 W., unsurveyed,
Secs. 1, 2, 10, 11, 15, secs. 19 to 22, inclusive, and sec. 30, those parts south of the divide between Buzzard Creek and Muddy Creek drainages;
Secs. 12 to 14, inclusive;
Secs. 23 to 29, inclusive;
Secs. 31 to 36, inclusive.
T. 11 S., R. 91 W., unsurveyed,
T. 12 S., R. 91 W.,
Sec. 1, N½ and SE¼;
Secs. 2 and 3, N½;
Secs. 4 to 8, inclusive;
Sec. 9, N½ and SW¼;
Sec. 14, S½;
Sec. 16, W½ and SE¼;
Sec. 17 to 21, inclusive;
Sec. 22, S½;
Sec. 23;
Secs. 26 to 34, inclusive;
Sec. 35, NW¼ and S½.
T. 10 S., R. 92 W., unsurveyed,
Secs. 25, 26, 35 and 36, those parts south of the divide between Buzzard Creek and West Muddy Creek, being that part of the Township within Delta County.
T. 11 S., R. 92 W., unsurveyed,
Secs. 2, 3, 4, 9, 16, 17, 19 and 20, those parts south of the divide between Willow Creek and Leon Creek drainage on the north and Cow Creek and West Muddy Creek on the south;
Sec. 30, that part south of the divide between Leon Creek drainage and Cow Creek and north of the divide between Middle Creek and Cow Creek;
Secs. 29, 31, 32 and 33, those parts north of the divide between Middle Creek and Cow Creek;
Sec. 1;
Secs. 10 to 15, inclusive;
Secs. 21 to 28, inclusive;
Secs. 34 to 36, inclusive.
T. 12 S., R. 92 W., unsurveyed,
Secs. 3, 4, 10, 15, 16, 21, 28 and 33, those parts east of the divide between Leroux Creek on the west and Terror and Hubbard Creeks on the east.
Secs. 1 and 2;
Secs. 11 to 14, inclusive;
Secs. 22 to 27, inclusive;
Secs. 34, 35 and 36.

The following-described lands within the exterior boundaries of the Grand Mesa National Forest are hereby transferred to the White River National Forest effective October 1, 1954:

SIXTH PRINCIPAL MERIDIAN

T. 9 S., R. 89 W.,
Sec. 18, that part west of the divide between West Divide Creek and Thompson Creek.
T. 11 S., R. 89 W.,
Secs. 1, 12, 13, 24, 25 and 36, those parts east of the divide between Muddy Creek and Crystal River.
T. 12 S., R. 89 W.,
Secs. 1 and 12, those parts east of the divide between Muddy Creek and Crystal River.
T. 8 S., R. 90 W., unsurveyed,
Secs. 3, 10, 15, 21, 22, 28, 29, 32 and 33, those parts west of the divide between North Thompson Creek and Fourmile Creek on the east and East Divide Creek and West Divide Creek on the west;
Secs. 4 to 9, inclusive;
Secs. 16 to 20, inclusive;
Secs. 30 and 31.
T. 9 S., R. 90 W.,
Secs. 2, 3, 4, 5, 10, 11, 12, and 13, those parts south and west of the divide between Thompson Creek drainage and West Divide Creek drainage;
Secs. 22, 23, 27, 28, 31, 32, 33 and 34, those parts north and west of the divide between West Divide Creek drainage and Muddy Creek drainage;
Sec. 24, that part west of the divide between Thompson Creek drainage and West Divide Creek drainage and north of the divide between West Divide Creek drainage and Muddy Creek drainage;
Secs. 6 to 9, inclusive;
Secs. 14 to 21, inclusive;
Secs. 29 and 30.
T. 10 S., R. 90 W.,
Sec. 6, that part north of the divide between West Divide Creek drainage and Muddy Creek drainage.
T. 8 S., R. 91 W.,
Secs. 1 to 4, inclusive;
Secs. 9 to 16, inclusive;
Secs. 21 to 28, inclusive;
Secs. 33 to 36, inclusive.

T. 9 S., R. 91 W.,
Secs. 1 to 18, inclusive;
Secs. 22 to 26, inclusive;
Secs. 19, 20, 21, 27, 28, 34 and 35, those parts north and east of the divide between West Divide Creek drainage and Owens Creek;
Sec. 36.
T. 10 S., R. 91 W., unsurveyed,
Secs. 1, 2 and 11, those parts north and west of the divide between Jones Creek and Willow Creek and east of the divide between Willow Creek and Owens Creek.
T. 8 S., R. 92 W.,
Secs. 19, 20, 21, 28 and 33, those parts north and east of the divide between West Divide Creek drainage and Buzzard Creek.
Secs. 22 to 27, inclusive;
Secs. 34, 35 and 36.
T. 9 S., R. 92 W., partly unsurveyed,
Secs. 4, 9, 10, 11, 14, 15, 22, 23 and 24 those parts north and east of the divide between West Divide Creek and Buzzard Creek;
Secs. 1, 2, 3, 12 and 13.
T. 7 S., R. 93 W.,
Secs. 19, 20 and 21;
Secs. 28 to 33, inclusive.
T. 8 S., R. 93 W.,
Secs. 3 to 6, inclusive;
Secs. 8 to 10, inclusive;
Secs. 13 to 16, inclusive;
Secs. 7, 17, 18, and secs. 20 to 26, inclusive, those parts north of the divide between Buzzard Creek and Colorado River.
T. 7 S., R. 94 W., partly unsurveyed,
Secs. 19 to 36, inclusive.
T. 8 S., R. 94 W.,
Secs. 1 to 7, inclusive;
Secs. 8 to 12, inclusive, and secs. 14 to 18, inclusive, those parts north of the divide between Buzzard Creek and Colorado River.
T. 8 S., R. 95 W.,
Secs. 1, 2 and 3;
Secs. 10, 11 and 12;
Sec. 15;
Sec. 22;
Secs. 27 to 30, inclusive;
Sec. 33;
Secs. 13, 14, 23, 26, 31, 32, 34 and 35, those parts north and west of the divide between Plateau Creek and Colorado River.
T. 9 S., R. 95 W.,
Secs. 2 to 7, inclusive, those parts north and west of the divide between Plateau Creek and Colorado River.
T. 8 S., R. 96 W.,
Secs. 22 to 27, inclusive;
Secs. 34, 35, and 36.
T. 9 S., R. 96 W.,
Secs. 1 to 5, inclusive;
Secs. 7 to 11, inclusive;
Secs. 12 to 18, inclusive, E½ sec. 19, and sec. 21, those parts north and west of the divide between Plateau Creek and Colorado River.

The following-described lands within the exterior boundaries of the White River National Forest are hereby transferred to the Routt National Forest, effective October 1, 1954:

SIXTH PRINCIPAL MERIDIAN

T. 1 S., R. 86 W.,
Secs. 3, 4 and 5, those parts north of the divide between Egeria Creek and Bear River on the north and Sunnyside and Derby Creeks on the south.
T. 1 S., R. 87 W., unsurveyed,
Secs. 2, 3, 4 and 5, those parts north of the divide between Bear River and East Fork of Willow River on the north and North Fork of White River and Derby Creek on the south.
T. 1 N., R. 86 W., partly unsurveyed,
Secs. 1 to 30, inclusive;
Secs. 31 to 36, inclusive, those parts north of divide between Egeria Creek and Bear River on the north and Sunnyside and Derby Creeks on the south.
T. 2 N., R. 86 W.,
Secs. 4 to 10, inclusive;
Sec. 11, W½;
Secs. 14 to 23, inclusive;
Secs. 26 to 35, inclusive.
T. 3 N., R. 86 W.,
Sec. 18, W½;
Secs. 19, 20 and 21;
Sec. 22, W½;
Secs. 28 to 33, inclusive.
T. 1 N., R. 87 W., partly unsurveyed,
Secs. 1 to 16, inclusive;
Secs. 23 to 27, inclusive;
Secs. 17, 18, 20, 21, 22, 28, 29 and secs. 32 to 36, inclusive, those parts north of the divide between Bear River and East Fork of Williams River on the north and North Fork of White River and Derby Creek on the south.
T. 2 N., R. 87 W., partly unsurveyed,
Secs. 1 to 5, inclusive;
Secs. 7 to 36, inclusive.
T. 3 N., R. 87 W.,
Secs. 2 to 28, inclusive;
Sec. 29, N½ and SE¼;
Sec. 30, N½;
Sec. 33, N½ and SE¼;
Secs. 34, 35 and 36.
T. 1 N., R. 88 W., unsurveyed,
Secs. 1, 2, 3 and secs. 10 to 14, inclusive, those parts north and east of the divide between North Fork of White River and East Fork of Williams River.
T. 2 N., R. 88 W., partly unsurveyed,
Secs. 2 to 18, inclusive;
Secs. 21 to 26, inclusive;
Secs. 35 and 36;
Secs. 19, 20, 27, 28, 29, 33, and 34, those parts north and east of the divide between North Fork of White River and East Fork of Williams River.
T. 3 N., R. 88 W.,
Secs. 1, 2 and 3;
Secs 11, 12 and 13;
Sec. 14, E½;
Secs. 18, 19 and 20;
Sec. 28, S½;
Secs. 29 to 33, inclusive.
T. 2 N., R. 89 W., unsurveyed,
Secs. 1 to 12, inclusive;
Secs. 15 to 20, inclusive;
Secs. 13, 14, secs. 21 to 24, inclusive, secs. 27 to 33, inclusive, those parts north of the divide between North Fork of White River and Williams River drainage.
T. 3 N., R. 89 W.,
Secs. 1, 2 and 3;
Secs. 9 to 17, inclusive;
Sec. 20, E½;
Secs. 21 to 28, inclusive;
Secs. 33 to 36, inclusive.
T. 4 N., R. 89 W.,
Sec. 26, W½E½NE¼NW¼, W½NE¼NW¼, W½NW¼, and SE¼NW¼;
Sec. 27, E½E½NE¼NE¼;
Sec. 34, S½;
Sec. 35, S½;
Sec. 36, S½.
T. 2 N., R. 90 W., unsurveyed,
Secs. 1 to 4, inclusive;
Secs. 9 to 17, inclusive;
Sec. 24;
Secs. 5, 7, 8, secs. 18 to 23, inclusive and secs. 25 and 26, those parts north and east of the divide between North Fork of White River and Milk Creek and Marapos Creek drainages on the south and west and South Fork of Williams River on the north and east.
T. 3 N., R. 90 W.,
Secs. 16, 17, 20, 21, 29 and 32, those parts east of the divide between Milk Creek and Marapos Creek drainages on the west and South Fork of Williams River on the east;
Sec. 22;
Sec. 23, NW¼;
Secs. 27 and 28;
Secs. 33, 34 and 35;
Sec. 36, S½.

The following-described lands within the exterior boundaries of the Arapaho National Forest are hereby transferred to the White River National Forest, effective October 1, 1954:

SIXTH PRINCIPAL MERIDIAN

T. 2 S., R. 81 W.,
Secs. 2, 3, 11, 14, 23, 26, 35 and 36, those parts west of the divide between Sheephorn Creek and Blue River drainage;
Sec. 10;
Secs. 15 to 22, inclusive;
Secs. 27 to 34, inclusive.
T. 3 S., R. 81 W.,
Sec. 1, that part west of the divide between Sheephorn Creek and Blue River drainage;
Secs. 6, 7, 8, 10, 11, 15, 16 and 17, those parts north of the divide between Piney Creek and North Fork Piney Creek on the south and Sheephorn Creek drainage on the north;
Secs. 2 to 5, inclusive;
Sec. 9;
Sec. 12, that part west of the divide between Sheephorn Creek and Blue River drainage and north of the divide between North Fork of Piney Creek drainage and Sheephorn Creek drainage.
T. 2 S., R. 82 W.,
Sec. 17, E½NE¼ sec. 19, secs. 20, 21, 22, 25, 26, 27, 35, and 36, those parts north of the divide between Cottonwood Creek and Garden Creek drainages on the north and Piney Creek drainage on the south;
Sec. 8, lots 2, 3, S½NE¼, S½,
Sec. 9, lots 2, 3, 4, SW¼NW¼, S½;
Secs. 13 to 16, inclusive;
Secs. 23 and 24.

The following-described lands within the exterior boundaries of the Rio Grande National Forest are hereby transferred to the Gunnison National Forest, effective October 1, 1954:

NEW MEXICO PRINCIPAL MERIDIAN

T. 42 N., R. 3 W.,
Sec. 6, that part north of the divide between Lake Fork of the Gunnison River and North Clear Creek.
T. 41 N., R. 4 W.,
Sec. 6, that part north of the divide between Lake Fork of Gunnison River and North Clear Creek.
T. 42 N., R. 4 W.,
Secs. 1, 2, 10, 11, 15, 21, 22, 28, 29, 31 and 32, those parts north of the divide between Lake Fork of the Gunnison River and North Clear Creek.
Secs. 3, 8 and 9;
Secs. 16 to 20, inclusive;
Sec. 30.
T. 41 N., R. 5 W.,
Secs. 1 to 6, inclusive, those parts north of the divide between Lake Fork of Gunnison River and Cottonwood Creek on the north and Rio Grande River drainage on the south.
T. 42 N., R. 5 W.,
Secs. 23 to 36, inclusive.
T. 41 N., R. 6 W., unsurveyed,
Secs. 1, 11 and 12, those parts north of the divide between Cottonwood Creek and Rio Grande River drainage;
Sec. 3, that part east of the divide between Lake Fork of Gunnison River drainage and Animas River;
Sec. 10, that part north of the divide between Cottonwood Creek and Rio Grande River drainage and east of the divide between Lake Fork of Gunnison River drainage and Animas River;
Sec. 2.

T. 42 N., R. 6 W., unsurveyed,
Secs, 28, 33 and 34, those parts east of the divide between Lake Fork of Gunnison River drainage and Animas River;
Secs. 25, 26, 27;
Secs. 35 and 36.

The following-described lands within the exterior boundaries of the San Isabel National Forest are hereby transferred to the Rio Grande National Forest, effective October 1, 1954:

SIXTH PRINCIPAL MERIDIAN

T. 25 S., R. 72 W.,
Secs. 15, 16, 17, 21, 22, 27, 34, those parts south and west of the divide between Muddy Creek drainage and Madeno Creek;
Sec. 18, that part south of the divide between Muddy Creek and Madeno Creek and east of the divide between Madeno Creek and Arena Creek;
Secs. 19 and 20;
Secs. 28 to 33, inclusive.
T. 26 S., R. 72 W.,
Secs. 3, 9, 10, 16, 21, 28, 29, 32, and 33, those parts west of the divide between Muddy Creek and Huerfano River on the east and Madeno Creek on the west;
Secs. 4 to 8, inclusive;
Secs. 17 to 20, inclusive;
Secs. 30 and 31.
T. 27 S., R. 72 W.,
Secs. 4, 5, 7, 8, 18, 19, 30 and 31, those parts west of the divide between Huerfano River and Madeno Creek;
Sec. 6.
T. 25 S., R. 73 W.,
Secs. 13, 24, 25, 35, and 36, those parts east of the divide between Madeno Creek and Arena Creek.
T. 26 S., R. 73 W.,
Secs. 1, 2, 12, 13;
Secs. 24, 25 and 36.
T. 27 S., R. 73 W.,
Secs. 1 and 2;
Secs. 11 to 14, inclusive;
Secs. 23 to 27, inclusive;
Secs. 34 and 35;
Sec. 36, that part west of the divide between Huerfano River and Madeno Creek.
T. 28 S., R. 73 W., unsurveyed,
Secs. 1, 12, 13, 23, 24, 25 and 36, those parts west of the divide between Huerfano River and Madeno Creek;
Secs. 2, 3, 10 and 11;
Secs. 14, 15 and 22;
Secs. 26, 27 and 28;
Secs. 33, 34 and 35.
T. 29 S., R. 73 W.,
Secs. 1, 2, 10, 11 and 15, those parts north and west of the Alamosa-Costilla County line;
Secs. 3, 4 and 9.

The exterior boundaries of the forests involved are hereby adjusted in accordance with the transfers made by this order, and any transferred land now having a national-forest status shall become a part of the forest to which it is transferred.

This order shall not be construed as giving a national-forest status to any lands which do not now have such status, or as changing the status of any lands which now have a national-forest status.

ORME LEWIS,
Assistant Secretary of the Interior.

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter II—Corps of Engineers, Department of the Army

PART 203—BRIDGE REGULATIONS

WHITE RIVER, ARK.

Pursuant to section 5 of the River and Harbor Act of August 18, 1894 (28 Stat. 362; 33 U. S. C. 499), paragraph (f) of § 203.560 is hereby amended by the inclusion of subparagraph (19-a) prescribing special regulations to govern the operation of the St. Louis Southwestern Railway Lines bridge across White River at Clarendon, Arkansas, as follows:

§ 203.560 *Mississippi River and its tributaries and outlets; bridges where constant attendance of draw tenders is not required.* • • •

(f) *Lower Mississippi River.* • • •

(19-a) White River, Ark.; St. Louis Southwestern Railway Lines bridge at Clarendon. Between 7:30 p. m. and 7:30 a. m., at least 12 hours' advance notice required; to be given to the dispatcher of the St. Louis Southwestern Railway Lines at Pine Bluff, Ark., or to the draw tender on duty at the bridge. Whenever any vessel passing through the bridge intends to return through it within 12 hours and informs the draw tender of the probable time of its return, the draw shall be opened promptly on signal for the passage of the vessel on its return trip without any further notice.

• • • • •

TITLE 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

Subchapter B—Carriers by Motor Vehicle

PART 211—SCOPE OF OPERATING AUTHORITY: ROUTES

USE OF WEST VIRGINIA TURNPIKE (A TOLL HIGHWAY) BY MOTOR CARRIERS OF PROPERTY SUBJECT TO THE INTERSTATE COMMERCE ACT

At a session of the Interstate Commerce Commission, Division 5, held at its office in Washington, D. C., on the 25th day of October A. D. 1954.

The above-entitled matter being under consideration:

It appearing, that this Commission has received representations from the West Virginia Turnpike Commission and certain motor carriers of property in favor of the entry of a general order authorizing the use of the West Virginia Turnpike, extending generally between Charleston and Princeton, W. Va., as an alternate route by motor carriers holding authority to operate over other State and Federal highways between those points;

It further appearing, that the said Turnpike is a modern toll highway in which there are improvements in design and construction over other highways in that region, including the elimination of cross traffic, reduction in grades, lengthening of curves, and widening of the pavement; that its use as an alternate route by motor carriers of property holding authority to operate over other highways which parallel the said Turnpike between the points specified would promote economical operation, improve the service rendered to the public, serve purposes of national defense, and contribute to the promotion of safety on the highways; and that only in special and unusual instances will there exist reasons for denying to any carrier operating over such parallel highways permission to use the Turnpike as an auxiliary highway;

And it further appearing, that in general the use of the said Turnpike as an alternate route as above indicated is and will be required by public convenience and necessity, in the case of common carriers of property, and consistent with the public interest and the national transportation policy declared in the Interstate Commerce Act, in the case of contract carriers of property, and the Commission so finding; therefore,

It is ordered, That Part 211 be, and it is hereby, amended by the addition of the following section:

§ 211.11 *Use of the West Virginia Turnpike by motor carriers of property authorized to operate over specified parallel highways*—(a) *Conditions.* The West Virginia Turnpike extending generally between Charleston and Princeton, and such additional highways as may be required in traveling by the shortest practicable route between authorized highways and the Turnpike in performing authorized operations, may be used as an alternate route, without obtaining prior authority therefor, by motor carriers of property subject to the Interstate Commerce Act who are authorized to operate in or through West Virginia over U. S. Highways 52, 19, 21, and 60, and or West Virginia Highways 3, 7, 10, 16, 20, 23, 61, and 83, subject in all instances to the following conditions:

(1) The carrier in each case shall give notice to the Commission, by letter, setting forth (i) a complete description by highway numbers of the carrier's authorized route between the point where it proposes to leave its authorized route and the point where it proposes to return to such route, (ii) a complete description by highway numbers of the proposed deviation route, including the portion of the Turnpike to be used, between the point where it proposes to leave its authorized route and the point where it will return to such route, and (iii) a list of all known competitors, with a statement that a copy of such letter notice has been served on each of those listed.

(2) The letter shall contain a statement to the effect that the carrier filing the notice will continue to furnish reasonable and adequate service at all points it is now authorized to serve, that it will not serve new points or points it is not now authorized to serve, and that the use of the Turnpike will not enable the carrier to engage in transportation between any points where because of the circuity of its present routes, or otherwise, such operation is not now practicable.

(3) The right to use the Turnpike as an alternate route shall continue only so long as the carrier is entitled to use the highway or portion thereof described in its Certificate or Permit which parallels the Turnpike, in performing service authorized under the Interstate Commerce Act, and only so long as the conditions specified herein are observed.

(b) *Protests.* Any party in interest may file a protest within 30 days from the date a carrier gives notice of intent to operate over the Turnpike. Such protest may be in the form of a letter, should contain facts and information to support protestant's opinion that the carrier filing such notice cannot meet the terms of the above-specified conditions, and should reflect that a copy of the protest has been furnished to the carrier filing the notice. If such a protest is filed the Commission will give due consideration to all facts of record in the particular case, including the notice and protest, and will make a determination in accordance with those facts.

(c) *When applications required.* Motor carriers of property holding authority to operate over specified regular routes in West Virginia which do not include U. S. Highways 52, 19, 21, and 60, and/or West Virginia Highways 3, 7, 10, 16, 20, 23, 61, and 83, and all motor carriers of passengers, desiring to use the Turnpike as an alternate route in performing their authorized service, must apply for and obtain such authority, using Form BMC 78, before operating over the Turnpike. If it appears that the use of the Turnpike by any such applicant would not result in a substantial change in the service between terminal points or to or from intermediate and off-route points, and would not enable the carrier to render service which is now impracticable because of the circuity of the carrier's presently authorized route, or otherwise, consideration will be given to the granting of authority without hearing and with or without restrictions.

(d) *Irregular-route operations.* If a motor carrier is authorized to operate within or through West Virginia over irregular routes, no specific authority is required from this Commission to use the Turnpike in performing its authorized service.

It is further ordered, That this order shall become effective November 26, 1954, unless prior thereto it is otherwise ordered by the Commission.

Notice of this order shall be given to motor carriers and the general public by depositing a copy in the office of the Secretary of the Commission, Washington, D. C., and by filing a copy with the Director, Division of Federal Register.

(49 Stat. 546, as amended; 49 U. S. C. 304. Interprets or applies 49 Stat. 552, as amended, 553, as amended; 49 U. S. C. 308, 309)

By the Commission, Division 5.

[SEAL] GEORGE W. LAIRD,
Secretary.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 986]

[Docket No. AO 263]

INDIANAPOLIS, INDIANA, MARKETING AREA

NOTICE OF HEARING ON PROPOSED MARKETING AGREEMENT AND ORDER REGULATING HANDLING

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of a public hearing to be held at the Claypool Hotel, Indianapolis, Indiana, beginning at 10:00 a .m., c. s. t., on November 15, 1954.

Subjects and issues involved in the hearing. The hearing is for the purpose of receiving evidence with respect to economic and marketing conditions which relate to the handling of milk for the Indianapolis, Indiana, marketing area and to the issuance of a marketing agreement and order to regulate the handling of milk in such marketing area.

The hearing on the proposed marketing agreement and order proposals is to determine whether (1) the handling of milk in the area proposed to be regulated is in the current of interstate or foreign commerce, or directly burdens, obstructs, or affects interstate or foreign commerce, (2) the issuance of a marketing agreement or order regulating the handling of milk in the area is justified, and (3) the provisions specified in the proposals or some other provisions, appropriate to the terms of the Agricultural Marketing Agreement Act, will best tend to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended.

Proposal No. 1: The following marketing agreement and order has been proposed by Independent Milk Producers' Association, Inc., Indianapolis Dairymen's Cooperative, Inc., and Indianapolis Dairy Producers' Council:

DEFINITIONS

Sec.
986.1 Act.
986.2 Secretary.
986.3 Department.
986.4 Indianapolis, Indiana, Milk Marketing Area.
986.5 Person.
986.6 Producer.
986.7 Producer milk.
986.8 Other source milk.
986.9 Handler.
986.10 Producer-handler.
986.11 Approved plant.
986.12 Unapproved plant.
986.13 Co-operative Association.
986.14 Delivery period.

MARKET ADMINISTRATOR

986.20 Designation.
986.21 Powers.
986.22 Duties.

REPORTS, RECORDS AND FACILITIES

986.30 Reports of receipts and utilization.
986.31 Other reports.
986.32 Records and facilities.

CLASSIFICATION OF MILK

986.40 Basis of classification.
986.41 Classes of utilization.
986.42 Responsibility of handlers.
986.43 Transfers.
986.44 Computation of the skim milk and butterfat in each class.
986.45 Shrinkage.

MINIMUM PRICES

Sec.
986.50 Basic formula price.
986.51 Class I milk prices.
986.52 Class II milk prices.

HANDLER'S OBLIGATION

986.60 Value of milk.
986.61 Computation of uniform price for each handler.
986.62 Butterfat differential to producers.
986.63 Announcement of class prices.
986.64 Announcement of uniform prices.
986.65 Handlers subject to other order.
986.66 Payment for other source milk.

PAYMENTS

986.70 Payments for producer milk.
986.71 Producer-settlement fund.

MISCELLANEOUS PROVISIONS

986.90 Retention of records.
986.91 Effective time.
986.92 Suspension or termination.
986.93 Continuing power and duty of the Market Administrator.
986.94 Liquidation after suspension or termination.
986.95 Agents.
986.96 Separability of provisions.
986.97 Termination of obligations.

DEFINITIONS

§ 986.1 *Act.* "Act" means Public Act No. 10, 73rd Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

§ 986.2 *Secretary.* "Secretary" means the Secretary of Agriculture or such other officer or employee of the United States authorized to exercise the powers and to perform the duties of the said Secretary of Agriculture.

§ 986.3 *Department.* "Department" means the United States Department of

Agriculture or such other Federal agency authorized to perform the price reporting functions specified in this subpart.

§ 986.4 *Indianapolis, Indiana, Milk Marketing Area.* "Indianapolis, Indiana, Milk Marketing Area" hereinafter called "Marketing Area" means all the territory within the county of Marion in Indiana.

§ 986.5 *Person.* "Person" includes any individual, partnerships, corporations, associations, or other business unit.

§ 986.6 *Producer.* "Producer" means any person who produces, under a dairy farm inspection permit or other equivalent certification issued by the appropriate health authority in the marketing area, milk which is (a) received at a plant from which Class I milk is disposed of in the marketing area, or (b) caused by a handler to be delivered to a plant from which Class I milk is not disposed of in the marketing area. This definition shall not include a person with respect to milk produced by him which is received by a handler who is subject to another Federal market order and who is partially exempted from the provisions of this subpart pursuant to § 986.65.

§ 986.7 *Producer milk.* "Producer milk" means all skim milk and butterfat in milk produced by a producer, other than a producer-handler, which is purchased or received by a handler either directly from producers or from other handlers.

§ 986.8 *Other source milk.* "Other source milk" means all skim milk and butterfat other than that contained in producer milk.

§ 986.9 *Handler.* "Handler" means (a) any person, except a person who receives other source milk only, with respect to milk (including any milk from his own farm production) received by him at a plant from which Class I milk is disposed of in the marketing area in excess of 100 units per period, or (b) any cooperative association, or other person included under paragraph (a) of this section, with respect to any milk produced under a dairy farm inspection permit or other equivalent certification issued by the appropriate health authority in the marketing area which such cooperative association or person causes to be delivered to a plant from which Class I milk is not disposed of in the marketing area. Milk caused to be delivered by a handler in accordance with paragraph (b) of this section shall be considered as having been received by such handler.

§ 986.10 *Producer-handler.* "Producer-handler" means any person who is both a producer and a handler and receives no milk from other producers.

§ 986.11 *Approved plant.* "Approved plant" means a milk processing plant which has been approved by a municipal or State Health authority who has jurisdiction in the marketing area or by a Federal agency located in the marketing area from which milk, skim milk, butter-milk, flavored milk drinks or cream is disposed of, in excess of 100 units per period, for fluid consumption in the marketing area on wholesale or retail routes, through plant stores or to vendors.

§ 986.12 *Unapproved plant.* "Unapproved plant" means any milk processing or distributing plant which is not an approved plant.

§ 986.13 *Cooperative Association.* "Cooperative Association" means any cooperative association of producers which the Secretary determines to be qualified pursuant to provisions of the Act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act," and to be engaged in making collective sales or marketing of milk or its products for the producer thereof.

§ 986.14 *Delivery period.* "Delivery period" means the first to the fifteenth day of each month inclusive and/or the sixteenth to the last day of each month, inclusive.

MARKET ADMINISTRATOR

§ 986.20 *Designation.* The agency for the administration of this subpart shall be a market administrator who shall be a person selected by the Secretary. Such person shall be entitled to such compensation as may be determined by and shall be subject to removal at the discretion of the Secretary.

§ 986.21 *Powers.* The market administrator shall have the power:

(a) To administer this subpart in accordance with its terms and provisions;

(b) To receive, investigate and report to the Secretary complaints of violations of the provisions of this subpart;

(c) To make rules and regulations to effectuate the terms and provisions of this subpart; and

(d) To recommend to the Secretary amendments to this subpart.

§ 986.22 *Duties.* The market administrator, in addition to the duties hereinafter described, shall:

(a) Within 45 days following the date on which he enters upon his duties execute and deliver to the Secretary a bond, effective as of the date on which he enters upon his duties as market administrator and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer the terms and provisions of this subpart;

(c) Pay, out of the funds provided, (1) the cost of his bond and of the bonds of those of his employees who handle funds entrusted to the market administrator, (2) his own compensation, and (3) all other expenses, which will necessarily be incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(d) Keep such books and records as will clearly reflect the transactions provided for in this subpart, and, upon request by the Secretary, surrender the same to his successor or to such other person as the Secretary may designate;

(e) Publicly disclose to handlers and producers, unless otherwise directed by the Secretary, the name of any person who, within 2 days after the day upon which he is required to perform such acts, has not made (1) reports, or (2) payments;

(f) Furnish such information and verified reports as the Secretary may request, and submit his books and records to examination by the Secretary at any and all times;

(g) On or before the 10th day after the end of each period, report to each cooperative association for such period, with respect to each handler, the utilization, on a pro rata basis, of milk of producers, payment for which is to be made to such cooperative association; and

(h) Audit all reports and payments by each handler by inspection of such handler's records and of the records of any person upon whose utilization the classification of milk depends.

REPORTS, RECORDS AND FACILITIES

§ 986.30 *Reports of receipts and utilization.* On or before the 5th day after the end of the period each handler, including a producer-handler shall report to the market administrator in the detail and on forms prescribed by the market administrator as follows:

(a) The quantities of skim milk and butterfat contained in milk received from producers;

(b) The quantities of skim milk and butterfat contained in (or used in the production of) receipts from other handlers;

(c) The quantities of skim milk and butterfat contained in receipts of other source milk (except Class II products disposed of in the form in which received without further processing or packaging by the handler);

(d) The utilization of all skim milk and butterfat required to be reported pursuant to this section; and

(e) Such other information with respect to receipts and utilization as the market administrator may prescribe.

§ 986.31 *Other reports.* The handler shall, at the time of reporting to the market administrator, report to the cooperative association (or to such other agency as the association may designate) receipts and sales and utilization as they pertain to the milk deliveries of producers paid by the co-operative association, and such other reports as the market administrator may from time to time prescribe.

§ 986.32 *Records and facilities.* Each handler shall maintain and make available to the market administrator or to his representative during the usual hours of business, such accounts and records of his operations and such facilities as, in the opinion of the market administrator, are necessary to verify, or to establish the correct date with respect to (a) the utilization, in whatever form of all skim milk and butterfat received; (b) the weights, samples and tests for butterfat content of all milk and milk products previously received or utilized or currently being received or utilized;

and (c) payments to producers and associations of producers.

CLASSIFICATION OF MILK

§ 986.40 *Basis of classification.* All skim milk and butterfat contained in milk, or in skim milk, cream, and other milk products received by a handler at a plant from which Class I milk is disposed of in the marketing area or caused to be delivered in the manner described in § 986.9 (b) shall be classified by the market administrator in the classes set forth in § 986.41.

§ 986.41 *Classes of utilization.* Classes of utilization of milk shall be as follows:

(a) Class I milk shall be all skim milk and butterfat (1) sold, distributed, or disposed of as or in milk, cream, cultured soured cream, reconstituted and/or recombined milk and cream homogenized milk, vitaminized-mineralized milk, buttermilk, skimmed-milk, flavored milk, flavored skimmed-milk, and any other product made by the addition of any substance to milk or any of those products and used for similar purposes and designated as a milk product by the appropriate health officer (proper credit for the weight or volume of dry milk solids and flavoring materials, used in the above products, shall be allowed each respective handler in his accounting for milk and/or butterfat purchased), (2) products in inventory at the end of the period, and (3) all other milk and/or cream not accounted for as Class II; and

(b) Class II shall be (1) all milk disposed of in products other than those included in paragraph (a) (1) of this section, (2) all milk accounted for as actual plant shrinkage, but not to exceed 2 percent of the total pounds of milk, skim milk and cream received from producers, by a handler at all of his producer milk plants.

§ 986.42 *Responsibility of handlers.* In establishing the classification of skim milk and butterfat the burden rests on the handler to account for all skim milk and butterfat received by him and to prove to the market administrator that any such skim milk or butterfat should not be classified as Class I.

§ 986.43 *Transfers.* (a) Subject to conditions set forth in § 986.42 skim milk and or butterfat when transferred in fluid form from (1) one handler to another handler shall be classified as Class I; (2) as Class I if transferred to a handler who receives no milk from producers or from an association of producers other than such handler's own farm production; and (3) as Class I if transferred by a handler to a person other than a handler who distributes milk in fluid form or manufactures milk products unless the market administrator is permitted to audit the records of receipts and utilization at the plant of the buyer.

(b) Other source milk caused by a cooperative association to be delivered from the plant of a person not a handler to the plant of a handler shall be considered as a transfer from the co-operative association to the handler and shall be classified accordingly pursuant to paragraph (a) (1) and (2) of this section.

§ 986.44 *Computation of the skim milk and butterfat in each class.* For each period the market administrator shall correct for mathematical and for other obvious errors the report submitted by each handler for each period and compute the respective amounts of skim milk and butterfat from milk of producers and of associations of producers of Class I milk and Class II milk, as follows:

(a) Determine the handler's total receipts by adding together the total pounds of milk, skim milk, and cream received; and the pounds of butterfat and skim milk used to produce all other milk products received;

(b) Determine the total pounds of butterfat contained in the receipts computed pursuant to paragraph (a) of this section;

(c) Determine the total pounds of skim milk contained in the receipts computed pursuant to paragraph (a) of this section;

(d) Determine the total pounds of butterfat in Class I milk by: (1) Computing the sum of the pounds of butterfat disposed of in each of the several items of Class I milk; and (2) adding all other butterfat not specifically accounted for as Class II milk;

(e) Determine the total pounds of skim milk in Class I milk by: (1) Computing the sum of the pounds (not including flavoring materials) disposed of as each of the several items of Class I milk; (2) subtracting the result obtained in paragraph (d) (1) of this section; and (3) adding all other skim milk not specifically accounted for as Class II milk;

(f) Determine the total pounds of butterfat in Class II milk by: (1) Computing the sum of the pounds of butterfat used to produce each of the several items of Class II milk; and (2) adding the plant shrinkage of butterfat computed pursuant to § 986.45 (b);

(g) Determine the total pounds of skim milk in Class II milk by: (1) Computing the sum of the pounds of milk, skim milk, cream, and other milk products which were used to produce each of the several items of Class II milk; (2) subtracting the result obtained in paragraph (f) (1) of this section; and (3) adding the plant shrinkage of skim milk computed pursuant to § 986.45 (b); and

(h) Determine the classification of milk received from producers and from associations of producers by: (1) Subtracting, respectively, from the total pounds of skim milk and butterfat in each class in sequence beginning with Class II milk (except the pounds in shrinkage), the pounds of skim milk and butterfat received as other source milk; (2) subtracting, respectively from the remaining pounds of skim milk and butterfat in each Class II milk (except the pounds in shrinkage), the pounds of skim milk and butterfat received from any handler who receives no milk from producers or from associations of producers other than such handler's own farm production; (3) subtracting from the pounds of skim milk and butterfat in each class, the pounds of skim milk and butterfat received from handlers other than those described in subparagraph (2) of this paragraph, and used in such class; and (4) subtracting, respectively, from the remaining pounds of skim milk and butterfat in each class, in sequence beginning with Class II milk (except the pounds in shrinkage), the pounds of skim milk and butterfat by which the total pounds, respectively, in all classes exceed the pounds of milk received from producers and from associations of producers.

§ 986.45 *Shrinkage.* The gross shrinkage of skim milk and butterfat of each handler shall be (a) prorated to other source milk and to transfers from other handlers; (b) classified as Class II for the amount not in excess of 2 percent of receipts from producers, and (c) classified as Class I for the amount in excess of 2 percent of receipts from producers.

MINIMUM PRICES

§ 986.50 *Basic formula price.* The basic formula price to be used in determining the price per hundredweight of Class I milk shall be the highest of the prices computed pursuant to paragraphs (a), (b), (c) and (d) of this section.

(a) The average of the basic or field prices per hundredweight reported to have been paid or to be paid for milk of 3.5 percent butterfat content received from farmers, during the period, at the following plants or places for which prices have been reported to the Market Administrator or to the Department:

Indiana Condensed Milk Co., Sheridan, Ind.
Kroger Company, Marion, Ind.
Nestles' Milk Co., Greenville, Ohio.
Pet Milk Co., Coldwater, Ohio.
Pet Milk Co., Angola, Ind.

(b) The price per hundredweight computed by adding together the plus values pursuant to subparagraphs (1) and (2) of this paragraph;

(1) From the simple average, as computed by the market administrator, of the daily wholesale selling prices (using the mid-point of any price range as one price) of Grade "A" (92-score) bulk creamery butter per pound at Chicago as reported by the Department during the period, add 20 percent thereof and multiply by 3.5.

(2) From the simple average, as computed by the market administrator, of the weighted averages of carlot prices per pound for nonfat dry milk solids, spray, and roller process, respectively, for human consumption, f. o. b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the immediately preceding month through the 25th day of the current month by the Department, deduct 5.5 cents, and multiply by 8.2.

(c) The average of the prices per hundredweight reported to have been paid, or to be paid, for milk of 3.5 percent butterfat content received from farmers during the period at the following plants or places for which prices have been reported to the United States Department of Agriculture or to the market administrator.

(d) The announced parity price equivalent for manufacturing milk.

§ 986.51 *Class I milk prices.* The price to be paid by each handler f. o. b. his plant for that portion of skim milk and butterfat in milk received from producers and from associations of producers which is classified as Class I milk shall be computed by the market administrator as follows:

(a) Add to the basic formula price $1.30 during each period of the year.

(b) The price per pound of Class I butterfat shall be the average price of butter computed pursuant to § 986.50 (b) multiplied by 1.15.

(c) The price per hundredweight of Class I skim milk shall be computed by (1) multiplying the price for butterfat pursuant to paragraph (b) of this section by 3.5; (2) subtracting such amount from the sum obtained in paragraph (a) of this section; (3) dividing such net amount by 0.965; and (4) rounding off to the nearest full cent.

§ 986.52 *Class II milk prices.* The price to be paid by each handler f. o. b. his plant for that portion of milk and butterfat in milk received from producers and from associations of producers which is classified as Class II milk shall be computed by the market administrator as follows:

(a) The average of the basic or field prices reported to have been paid or to be paid for manufacturing milk of 3.5 percent butterfat content received from farmers during the period at the following plants or places for which prices have been reported to the market administrator or to the Department:

Indiana Condensed Milk Co., Sheridan, Ind.
Kroger Company, Marion, Ind.
Nestles' Milk Co., Greenville, Ohio.
Pet Milk Co., Coldwater, Ohio.
Pet Milk Co., Angola, Ind.

(b) The price per pound of Class II butterfat shall be the average price of butter computed pursuant to § 986.50 (b) multiplied by 1.15.

(c) The price per hundredweight of Class II skim milk shall be computed (1) multiplying the price for butterfat pursuant to paragraph (b) of this section by 3.5; (2) subtracting such amount from the sum obtained in paragraph (a) of this section; (3) dividing such net amount by 0.965; and (4) rounding off to the nearest full cent.

HANDLER'S OBLIGATION

§ 986.60 *Value of milk.* The value of milk of each handler for each period shall be a sum of money computed by the market administrator by:

(a) Multiplying by the applicable class prices for skim milk and butterfat, pursuant to §§ 986.51 and 986.52, the amounts of skim milk and butterfat in each class which were received either in milk from producers or from an association of producers during such period, and adding together such amounts;

(b) Adding an amount equal to the value of any skim milk or butterfat subtracted pursuant to § 986.44 (h) (4) at the applicable price for the class from which such skim milk or butterfat was subtracted;

(c) Adding an amount computed pursuant to § 986.65 (b). This amount shall be paid to the handler by the Market Administrator.

(d) Adding an amount computed pursuant to § 986.66.

§ 986.61 *Computation of uniform price for each handler.* The market administrator shall compute for each handler the uniform price per hundredweight of producer milk for each period in the following manner: To the value computed pursuant to § 986.60:

(a) Add or deduct, as the case may be, the amount of money involved in adjustments resulting from verification by the market administrator of the handler's reports for previous months;

(b) Add or deduct, as the case may be, the amount of money involved in adjusting the handler's preceding period's uniform price to the nearest cent;

(c) Subtract, if the weighted average butterfat test of all pooled milk is greater than 3.5 percent, or add if the weighted average butterfat test of such milk is less than 3.5 percent, an amount computed by multiplying the difference between such weighted average butterfat test and 3.5 by the butterfat differential computed pursuant to § 986.62;

(d) Subtract for each of the months of April, May, June and July an amount computed by multiplying the total hundredweight of milk received by the handler from producers during such month by 30 cents in April and 40 cents in each of the months of May, June and July;

(e) Add for each of the months of October, November and December an amount computed by dividing the total amount of the handler's obligated balance in the producer-settlement fund pursuant to § 986.71 on September 30 immediately preceding by three;

(f) Divide by the hundredweight of producer milk received by such handler and adjust to the nearest cent. This result shall be known as the uniform price of such handler for milk of 3.5 percent butterfat content received at his fluid milk plant(s), or receiving station(s).

§ 986.62 *Butterfat differential to producers.* For each period the market administrator shall compute to the nearest one-tenth cent a butterfat differential by multiplying the average price of butter as computed pursuant to § 986.50 (b) by 0.115.

§ 986.63 *Announcement of class prices.* On or before the 5th day after the end of the delivery period the market administrator shall mail to all handlers and make public announcement of the class prices computed pursuant to §§ 986.51 and 986.52 and the butterfat differential computed pursuant to § 986.62.

§ 986.64 *Announcement of uniform prices.* On or before the 10th day after the end of each delivery period the market administrator shall notify each handler and make public announcement of the uniform price computed pursuant to § 986.61.

§ 986.65 *Handlers subject to other order.* In the case of any handler who the Secretary determines disposes of a greater portion of his milk as Class I milk in another marketing area regulated by another milk marketing agreement or order issued pursuant to the act, the provisions of this subpart shall not apply except as follows:

(a) The handler shall with respect to his total receipts of skim milk and butterfat, make reports to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

(b) If the price which such handler is required to pay under the other Federal order to which he is subject, for skim milk and butterfat which would be classified as Class I milk under this subpart is less than the price provided by this subpart, such handler shall pay to the market administrator for pro rata credit to the account of each producer (with respect to all skim milk and butterfat disposed of as Class I milk within the marketing area) an amount equal to the difference between the value of such skim milk or butterfat as computed pursuant to this subpart and its value as determined pursuant to the other order to which he is subject.

§ 986.66 *Payment for other source milk.* In the event a handler uses other source milk for purposes which violate the requirements of an applicable health authority in the marketing area and such other source milk is allocated to Class I pursuant to § 986.44 (h) (1) the market administrator in computing the handler's obligation pursuant to § 986.60 shall add an amount determined by multiplying the pounds of other source milk so allocated to Class I by the difference between the Class I and Class II prices.

PAYMENTS

§ 986.70 *Payments for producer milk.* On or before the 15th day after the close of each period each handler shall pay to the co-operative association (or to the agency as designated by the co-operative association) for all milk from producers shipping to the handler.

§ 986.71 *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" which shall function as follows:

(a) All payments made by a handler pursuant to § 986.65 (b) shall be deposited in this fund and all payments made to a handler pursuant to § 986.60 (c) shall be made out of this fund;

(b) The amounts subtracted pursuant to § 986.61 (d) shall be deposited in this fund and shall remain therein as an obligated balance until it is withdrawn for the purpose of effectuating § 986.61 (e).

MISCELLANEOUS PROVISIONS

§ 986.90 *Retention of records.* All books and records required under this subpart to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the month to which such books and records pertain: *Provided*, That if, within such three-year period the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case the market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

§ 986.91 *Effective time.* The provisions of this subpart, or any amendment to this subpart, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated, pursuant to § 986.92.

§ 986.92 *Suspension or termination.* The Secretary may suspend or terminate this subpart or any provision of this subpart, whenever he finds that this subpart or any provisions of this subpart, obstructs, or does not tend to effectuate, the declared policy of the act. This subpart shall terminate, in any event, whenever the provisions of the act authorizing it cease to be in effect.

§ 986.93 *Continuing power and duty of the Market Administrator.* (a) If, upon the suspension or termination of any or all provisions of this subpart, there are any obligations arising under this subpart, the final accrual or ascertainment of which requires further acts by any handler, by the market administrator, or by any other person, the power and duty to perform such further acts shall continue notwithstanding such suspension or termination: *Provided*, That any such acts required to be performed by the market administrator shall, if the Secretary so directs, be performed by such other person, persons, or agency as the Secretary may designate.

(b) The market administrator, or such other person as the Secretary may designate, shall (1) continue in such capacity until discharged by the Secretary, (2) from time to time account for all receipts and disbursements, and, when so directed by the Secretary, deliver all funds or property on hand, together with the books and records of the market administrator, or such person, to such person as the Secretary may direct, and (3) if so directed by the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title to all funds, property, and claims vested in the market administrator or such person pursuant hereto.

§ 986.94 *Liquidation after suspension or termination.* Upon the suspension or termination of any or all provisions of this subpart, the market administrator, or such person as the Secretary may designate shall, if so directed by the Secretary, liquidate the business of the market administrator's office and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid or owing at the time of such suspension or termination. Any funds collected pursuant to the provisions of this subpart, over and above the amounts necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating and distributing such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

§ 986.95 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this subpart.

§ 986.96 *Separability of provisions.* If any provision of this subpart, or the application thereof to any person or circumstances, is held invalid, the remainder of the subpart, and the application of such provision to other persons or circumstances, shall not be affected thereby.

§ 986.97 *Termination of obligations.* The provisions of this section shall apply to any obligation under this subpart for the payment of money irrespective of when such obligation arose.

(a) The obligation of any handler to pay money required to be paid under the terms of this subpart shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this subpart, to make available to the market administrator or his representatives all books and records required by this subpart to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the month following the month during which all such books and records pertaining to such obligations are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this subpart to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this subpart shall terminate two years after the end of the month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler within the applicable period of time files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

By the Hoosier Condensed Milk Company:

Proposal No. 2. That the desirability of a market-wide pool be considered.

Proposal No. 3. That a location adjustment be considered, which would start at 70 miles from Indianapolis, Indiana with 15 cents per hundredweight and add 1 cent per hundredweight for each 10 mile zone thereafter. This location adjustment to apply to all producer milk delivered to a pool plant in each zone. Also all handlers in each zone should receive credit at the above rate for:

a. All milk delivered to the market area; and

b. All Class I milk.

By the Borden Company—Indianapolis Milk Division:

Proposal No. 4. That if an order is issued it shall provide that producers shall be paid a uniform price based upon a marketwide pool.

Proposal No. 5. That the order shall include adequate provisions with appropriate safeguards for:

(a) "Pool plants," and

(b) Payments into the producer-settlement fund on Class I sales into the marketing area from "non-pool plants."

Copies of this notice of hearing may be procured from the Hearing Clerk, Room 1371, South Building, United States Department of Agriculture, Washington 25, D. C., or may be there inspected.

Dated: October 28, 1954, at Washington, D. C.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator.

DEPARTMENT OF THE INTERIOR

Bureau of Reclamation

[No. 34]

RIVERTON PROJECT, WYOMING

PUBLIC NOTICE OF ANNUAL WATER RENTAL CHARGES

OCTOBER 21, 1954.

1. *Water rental.* Irrigation water will be furnished upon a rental basis during the irrigation season of 1955 and thereafter, until further notice, to the irrigable lands described in Public Notice No. 28 for the North Pavillion areas, and Public Notice No. 30 for the North Portal area, Riverton Project, Wyoming.

2. *Charges and terms of payment.* A minimum water rental charge shall be payable for irrigable lands described in Public Notices Nos. 28 and 30, whether water is used or not. Such minimum charge need not be paid in any year for any acreage which the Riverton Project Manager certifies to be temporarily nonirrigable during such year due to seepage, land subsidence, shallow or impermeable soils, or excessive amounts of salts. Payment of the minimum water rental charge will entitle the water user to two acre-feet of water per irrigable acre. The minimum charge shall be payable in advance on January 1 of each year and no water will be furnished until such charge is paid in full. Charges for water furnished in excess of two acre-feet per irrigable acre shall be payable on January 1 for water furnished during the preceding year.

(a) The minimum water rental charge for lands in the North Pavillion area described in Public Notice No. 28 shall be $2.50 per irrigable acre. Water in addition to two acre-feet per irrigable acre, if available, shall be furnished at the rate of $1.25 per acre-foot.

(b) The minimum water rental charge for lands in the North Portal area described in Public Notice No. 30 shall be $2.00 per irrigable acre. Water in addition to two acre-feet per irrigable acre, if available, shall be furnished at the rate of $1.25 per acre-foot.

3. *Water for other lands.* Irrigation water, when available will also be furnished at the rates described in Paragraph 2, to other lands in the North Pavillion and North Portal areas upon the filing each year of a temporary water rental application covering such other lands. The approval of a water rental application for these lands shall not be deemed to constitute an action leading to a continuing right to receive water in subsequent years.

4. *Discounts and penalties.* If payment of the minimum charge is made on or before December 31, a discount of 5 percent of such charge will be allowed. If payment of the charge for additional water is made on or before December 31 of the year in which used, a discount of 5 percent of such charge will be allowed. If payment of the minimum charge is not made by April 1 of each year, and if payment for additional water furnished to any lands is not made by April 1, subsequent to the year in which such additional water is delivered, there shall be added on the following day a penalty of one-half of one percent of the amount unpaid, and the same penalty shall be added on the first day of each calendar month thereafter so long as such default shall continue, and no water will be delivered until all charges and penalties have been paid in full.

5. *Place of payment.* Payment of water rental charges shall be made at the Reclamation Office in Riverton, Wyoming, or mailed to the Bureau of Reclamation, Riverton, Wyoming.

6. *Public Notices Nos. 28 and 30, supplemented.* This notice supersedes Public Notice No. 33 and supplements subparagraphs 24 (b) and 24 (c) of Public Notice No. 28, and subparagraphs 25 (b) and 25 (c) of Public Notice No. 30, Riverton Project.

WILLIAM F. RAPP,
Acting Regional Director.

[F. R. Doc. 54-8550; Filed, Oct. 29, 1954; 8:46 a. m.]

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

SWEETWATER AND ATHENS, TENNESSEE, TOBACCO MARKETS

DETERMINATION WITH RESPECT TO DISTRIBUTION OF INSPECTION SERVICE

On September 1, 1954, a notice of proposed distribution of inspection service between the Sweetwater, Tennessee, and Athens, Tennessee, tobacco markets was published in the FEDERAL REGISTER (19 F. R. 5585). The notice stated that among the factors to be considered in distributing the service on an equitable basis so as to render service to the greatest number of growers are the quantity of tobacco available for inspection, facilities, and the relative amounts of tobacco marketed in prior years. A period of 30 days was allowed to interested parties for the submission of written data, views and arguments with respect to the matter.

Written data, views and arguments were filed by the Hiwassee Burley Sales Company, Inc., and Fagg Bros. & Boblitt of Athens, Tennessee, and by Farmers' Burley Cooperative Warehouses of Sweetwater, Tennessee. On behalf of the Athens market it is contended that the inspection service should be divided between the markets on a 50-50 basis by furnishing service on alternating days to the respective markets because this method of division had been generally followed in the past. The Sweetwater interests contend that such service should be divided in the ratio of two days at Sweetwater and one day at Athens on the basis of comparative marketings of tobacco.

Inspection service has been made available to these markets for the entire period of their operation, or five years. In view of the total volume of tobacco marketed only one set of buyers and one set of graders serve the two markets. During this period inspection service and the sales have been on an alternate daily basis between the two markets. However, a much larger volume of tobacco was marketed annually on the Sweetwater market than on the Athens market, which fact eventually resulted in the markets failing to agree on a division of the inspection service between the two markets.

Exhibit "A," set forth below, contains a tabulation showing the burley sales record for the Athens and Sweetwater markets for the marketing seasons 1949-50 through 1953-54 and the percent of the total marketed by each market.

Exhibit "B," set forth below, contains a tabulation showing the number of burley allotments, acreage and production in the two marketing areas for the same period. Since the markets are only 14 miles apart it is quite obvious that there is some overlapping of marketing. However, allocations by counties and portions of counties to the respective markets have been made in accordance with available information on the utilization of the markets by the various producers in the respective areas. The approximate number of producers served by the respective markets may be ascertained by multiplying the number of allotments by 150 percent. This is to reflect the fact that the average percentage by which the number of producers exceeds the number of allotments is about 50 percent due to partnership and other multiple producer interests in various farms. The percentage figure used for producer comparison purposes is immaterial, however, as the ratio of producers to allotments is approximately the same in both markets.

Summarizing the above factors we find that for the five year period the markets have operated, Athens has sold 34.8 percent of the total volume for the two markets, and Sweetwater has sold 65.2 percent of the total volume for the two markets. Based on distribution of production between the Athens and Sweetwater areas, the production in the Athens area is 37 percent of the total production in the Athens-Sweetwater area, while the production in the Sweetwater area is 63 percent of the total production in the Athens-Sweetwater area. Based on distribution of allotments between the two areas, 42 percent of the allotments are in the Athens area, while 58 percent are in the Sweetwater area and the same percentage figures are equally applicable to the number of producers served by the respective markets.

The Sweetwater market has two tobacco warehouses containing approximately 210 thousand square feet of space and the Athens market has one tobacco warehouse containing approximately 120 thousand square feet of space. The Athens warehouse states that it has obtained a lease on an additional 84,824 feet of floor space. Whether this additional space is suitable for sales purposes is immaterial inasmuch as additional available floor space does not indicate that a greater volume of tobacco will be marketed in the coming seasons than in the past seasons. The floor space in the market in the past was more than adequate to take care of the volume of tobacco available for sale.

Wherefore, it is hereby found and determined that inspection service will be rendered to the greatest number of producers by making such service available to Sweetwater 60 percent of the time and to Athens 40 percent of the time. It is hereby further found and determined that the following distribution of such service between the markets will be fair and equitable and promote its more efficient utilization, and such distribution shall be effective during the 1954-55 and subsequent marketing seasons, or until such time as there is a change in the conditions affecting the markets.

Inspection service shall be divided between the two markets on Mondays with the inspection service available on the Sweetwater market Monday morning for a half day's sale, and in Athens Monday afternoon for a half day's sale. On Tuesdays the inspection service will be available in Sweetwater for a full day's sale. On Wednesdays the inspection service will be available in Athens for a full day's sale. On Thursdays the inspection service will be available in Sweetwater for a full day's sale. On Fridays the inspection service shall be divided between the two markets, with the inspection service available on the Sweetwater market Friday morning for a half day's sale, and in Athens Friday afternoon for a half day's sale. Provided, however, if the Burley marketing season opens on Tuesday the following distribution of the inspection service for Tuesday, Wednesday, Thursday, and Friday of the opening week shall prevail: On Tuesday the inspection service shall be divided between the two markets with the inspection service available in Sweetwater for a half day's sale Tuesday morning, and in Athens for a half day's sale Tuesday afternoon. On Wednesday the inspection service shall be available in Sweetwater for a full day's sale. On Thursday the inspection service shall be available in Athens for a full day's sale. On Friday the inspection service shall be divided between the two markets, with the inspection service available in Sweetwater for a half day's sale Friday morning and in Athens for a half day's sale Friday afternoon. Provided, further, that in the event the markets mutually agree to operate on a full sale day's basis, and so notify the Tobacco Division of the Agricultural Marketing Service in writing, the inspection service shall be available in Sweetwater for full day's sales on Mondays, Wednesdays, and Fridays, and in Athens for full day's sales on Tuesdays and Thursdays.

The division of the inspection service between the two markets on the basis of half days for Mondays and Fridays will provide Athens with three daily inspections per week, and Sweetwater with four daily inspections per week. It appears that this division would be of greater benefit to producers than if the inspection were divided (60-40) on a full-day basis resulting in only two daily inspections per week at Athens and three daily inspections per week in Sweetwater. However, an alternative division is provided in the event the markets mutually agree that such alternative division would be of greater advantage to the markets.

Done at Washington, D. C., this 27th day of October 1954.

[SEAL] ORIS V. WELLS,
Administrator, Agricultural Marketing Service.

CIVIL AERONAUTICS BOARD

[Docket No. 6594]

PAN AMERICAN WORLD AIRWAYS, INC.; ACQUISITION OF LINEAS AEREAS COSTARICENSES, S. A.

NOTICE OF FURTHER POSTPONEMENT OF HEARING

In the matter of the application of Pan American World Airways, Inc., under section 408 of the Civil Aeronautics Act of 1938, as amended, for a determination whether Pan American World Airways, Inc., has acquired control of Lineas Aereas Costarricenses, S. A., and, if so, for approval of such acquisition.

Notice is hereby given, pursuant to the Civil Aeronautics Act of 1938, as amended, particularly section 408 of said act, that a public hearing in the above-entitled proceeding assigned for November 22, 1954, is hereby postponed until November 30, 1954, at 10:00 a. m., e. s. t., in Room 1018, Temporary Building No. 4, Seventeenth Street and Constitution Avenue NW., Washington, D. C., before Examiner Edward T. Stodola.

Dated at Washington, D. C., October 27, 1954.

[SEAL] FRANCIS W. BROWN, *Chief Examiner.*

FEDERAL POWER COMMISSION

[Docket No. E-6293]

MEDINA ELECTRIC COOPERATIVE, INC., AND CENTRAL POWER & LIGHT CO.

NOTICE OF APPLICATION FOR AUTHORIZATION TO EXPORT ELECTRIC ENERGY

OCTOBER 26, 1954.

Notice is hereby given that Medina Electric Cooperative, Inc. (Medina), and Central Power & Light Co. (Central), by their respective applications filed October 11, 1954, seek authorization, pursuant to section 202 (e) of the Federal Power Act, to export electric energy from the United States to Mexico. Specifically, they seek authorization to export 1,200,000 kwh of electric energy for the calendar year 1954 and authorization to export 900,000 kwh of electric energy for the first nine months of the calendar year 1955. The maximum rate of transmission is to be 400 kw.

The request would modify the authorization heretofore granted to Medina and Central by Commission order issued December 1, 1950, in the above-entitled matter, whereby said parties were authorized to transmit a maximum of 900,000 kwh per year at a rate not to exceed 200 kw over facilities covered by a Presidential Permit signed by the President of the United States on October 18, 1950; as more fully appears on file with the Commission.

Any person desiring to make any protest with reference to the application should on or before the 15th day of November 1954, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission general rules and regulations. The application is on file with the Commission for public consumption.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 54-8564; Filed, Oct. 29, 1954; 8:49 a. m.]

[Docket No. E-6582]

DEPARTMENT OF INTERIOR, SOUTHWESTERN POWER ADMINISTRATION

NOTICE OF REQUEST FOR APPROVAL OF RATES AND CHARGES FOR SALE OF POWER BY SOUTHWESTERN POWER ADMINISTRATION

OCTOBER 26, 1954.

Notice is hereby given that pursuant to the provisions of the Flood Control Act of 1944 (58 Stat. 890) the Secretary of Interior filed with the Federal Power Commission for approval certain rates and charges for the sale of electric energy generated at the Whitney Dam project on the Brazos River in the South Central part of Texas, as set forth in a proposed agreement between the Southwestern Power Administration, an agency of the Department of Interior, and the Brazos Electric Power Cooperative, Inc. (Brazos).

The agreement provides, among other things, for the delivery to Brazos of the entire output of the Whitney Dam project, which includes 30,000,000 kwh per year of primary energy and an average of 51,760,000 kwh per year of secondary energy. Brazos will pay an annual charge of $441,000 in equal monthly payments of $36,750, and will receive credit at specified rates in the event Southwestern fails to deliver primary energy or spills water which is not being stored due to deferred taking of primary energy by Brazos.

The agreement is to be effective for a period of 35 years; however, the rates and compensation shall remain in force and effect for a period of five years from the date of approval by the Federal Power Commission, at which time and at the end of each succeeding five-year period thereafter, such rates and compensation shall be reviewed and redetermined.

It is also provided that the agreement is contingent upon a service agreement between Brazos and the Texas Power & Light Company under which Brazos would purchase the energy generated at Whitney Dam project for resale to Texas Power & Light Company, and would in return secure certain rights to purchase, as required, the same amount of power capacity from the company on a firm basis.

Anyone desiring to make representations with respect to the foregoing should submit the same on or before November 15, 1954, to the Federal Power Commission, Washington 25, D. C. The proposal contract agreement in its entirety is on file with the Commission and available for inspection.

[SEAL] LEON M. FUQUAY, *Secretary.*

[Docket No. E-6583]

IOWA PUBLIC SERVICE CO.

NOTICE OF APPLICATION

OCTOBER 25, 1954.

Take notice that on October 20, 1954, an application was filed with the Federal Power Commission, pursuant to section 204 of the Federal Power Act by Iowa Public Service Company (Applicant), a corporation organized under the laws of the State of Iowa and doing business in the States of Iowa, South Dakota and Nebraska, with its principal business office in Sioux City, Iowa, seeking an order authorizing the issuance of certain securities more fully described below. Applicant proposes to increase its authorized common stock from $12,500,000, consisting of 2,500,000 shares of common stock of the par value of $5 each, to $25,000,000, consisting of 5,000,000 shares of common stock of the par value of $5 each, and to change, convert and reclassify each of the 1,351,104 shares of Common Stock of the par value of $5 each heretofore issued and outstanding into two shares of common stock of the par value of $5 each. To effectuate the reclassification above described, Applicant proposes to issue one additional share of common stock of the par value of $5 for each share of Common Stock of the par value of $5 heretofore issued and outstanding; such additional Common Stock to be issued pro rata to existing holders of common stock. Applicant proposes to effectuate the proposed increase and reclassification in order to capitalize Applicant's capital surplus, by crediting common capital stock of Applicant with $6,755,520, representing $5 per share for 1,351,104 shares, with corresponding charges to capital surplus of $6,137,745 (the entire amount thereof) and to premium on common capital stock of $617,775; all as more fully appears in the application on file with the Commission.

Any person desiring to be heard, or to make any protest with reference to said application should, on or before the 12th day of November 1954, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's rules of practice and procedure. The application is on file with the Commission for public inspection.

FRED P. HURT

NOTICE OF APPLICATION FOR CERTIFICATE OF PUBLIC CONVENIENCE AND NECESSITY

OCTOBER 25, 1954.

Take notice that Fred P. Hurt (Applicant), as operator with his principal office in Ashland, Kentucky, filed, on September 23, 1954, an application for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing Applicant to make sales of natural gas as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in his application filed herein.

Applicant produces natural gas in McKell Field, Southern Ohio, which he sells to Ohio Fuel Gas Company for resale in interstate commerce.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 18th day of November 1954. The application is on file with the Commission for public inspection.

Applicant requests that this matter be considered under the shortened hearing procedure provided for in § 1.32 of the rules of practice and procedure.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 54-8552; Filed, Oct. 29, 1954; 8:46 a. m.]

[Docket Nos. G-3653, G-3657]

SUN OIL CO. (GULF COAST DIVISION)

NOTICE OF APPLICATIONS AND ORDER CONSOLIDATING PROCEEDINGS AND FIXING DATE OF HEARING

Take notice that Sun Oil Company (Gulf Coast Division) (Applicant), a New Jersey corporation with its principal office in Philadelphia, Pennsylvania, filed on September 29, 1954, application for permission to abandon service and for certificates of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing Applicant to make sales of natural gas as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in its application filed herein.

Applicant produces natural gas in Ellis and Pine Bluff Fields, Acadia Parish, Louisiana, which it sells to Transcontinental Gas Pipe Line Corporation (Transcontinental) for resale in interstate commerce. Applicant, in Docket G-3653, seeks permission to terminate the interim sale being made from the Ellis Field to Transcontinental and authority to sell the gas to United Fuel Gas Company (United Fuel). Delivery is proposed to be made to Gulf Interstate Gas Company's (Gulf Interstate) existing line (Docket No. G-2058) for transportation by Gulf Interstate for the account of United Fuel. Applicant seeks authority in Docket G-3657 to continue the sale from the Pine Bluff Field to Transcontinental.

Applicant has requested that its applications be heard under the shortened procedure provided by § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure. The applications are on file with the Commission for public inspection.

The Commission finds:

(1) It is appropriate in the public interest in carrying out the provisions of the Natural Gas Act, and good cause exists, that due notice of the applications herein, including publication in the FEDERAL REGISTER, be given as hereinafter ordered.

(2) It is reasonable and appropriate in the public interest in carrying out the provisions of the Natural Gas Act, and good cause exists, to consolidate the proceedings in the above dockets for purpose of hearing, and to hold a public hearing in the above-entitled proceedings as hereinafter ordered.

(3) This proceeding is a proper one for disposition under the provisions of § 1.32 (b) of the Commission's rules of practice and procedure (18 CFR 1.32 (b)), each Applicant having requested that its application be heard under the shortened procedure provided for by the aforesaid rule for noncontested proceedings: *Provided, however,* That no request to be heard, protest or petition is filed raising an issue of substance.

(4) For good cause, the date fixed for hearing should be less than the 15 days required by § 1.19 (b) of the Commission's rules of practice and procedure.

The Commission orders:

(A) Due notice of these applications be given, including publication in the FEDERAL REGISTER, of this notice of applications and order.

(B) The aforesaid proceedings in the above-designated dockets and the same hereby are consolidated for purposes of hearing.

(C) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on November 2, 1954, at 9:30 a. m.,

e. s. t., in a hearing room of the Federal Power Commission, 441 G Street, NW., Washington, D. C., concerning the matters involved in and the issues presented by the applications: *Provided, however,* That the Commission may, after a noncontested hearing, forthwith dispose of the proceedings pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(D) Protests or petitions to intervene may be filed with the Commission in accordance with its rules of practice and procedure, §§ 1.8 and 1.10 (18 CFR 1.8 and 1.10), on or before November 1, 1954.

(E) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

Adopted: October 25, 1954.

Issued: October 26, 1954.

By the Commission.

SMALL BUSINESS ADMINISTRATION

[Declaration of Disaster Area 39]

PENNSYLVANIA

DECLARATION OF DISASTER AREA

Whereas, it has been reported that beginning on or about October 15, 1954, because of the disastrous effects of hurricane, floods and exeessive rainfall, damage resulted to residences and business property located in certain areas in the State of Pennsylvania; and

Whereas, the Small Business Administration has investigated and has received other reports of investigations of conditions in the areas affected; and

Whereas, after reading and evaluating reports of such conditions, I find that the conditions in such areas constitute a catastrophe within the purview of the Small Business Act of 1953;

Now, therefore, as Acting Administrator of the Small Business Administration, I hereby determine that:

1. Applications for disaster loans under the provisions of section 207 (b) of the Small Business Act of 1953 may be received and considered by either of the Offices below indicated from persons or firms whose property situated in the following counties (including any areas adjacent to the counties below named) suffered damage or other destruction as a result of the catastrophe above referred to:

Counties of: Westmoreland, Fayette, Allegheny, Somerset.

Small Business Administration Regional Office, Jefferson Building, Room 1118, 1015 Chestnut Street, Philadelphia 7, Pa.

Small Business Administration Branch Office, Fulton Building, Room 803, 107 Sixth Street, Pittsburgh 22, Pa.

2. Special field offices to receive such applications will not be established at this time.

3. Applications for disaster loans under the authority of this declaration will not be accepted subsequent to April 30, 1955.

Dated: October 26, 1954.

W. NORBERT ENGLES, *Acting Administrator.*

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 29843]

LUMBER FROM MEMPHIS, TENN., TO VIRGINIA

APPLICATION FOR RELIEF

OCTOBER 27, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties-to schedule listed below.

Commodities involved: Lumber and related articles, carloads.

From: Memphis, Tenn.

To: Points in Virginia.

Grounds for relief: Competition with rail carriers, circuitous routes, to maintain grouping, and additional routes.

Schedules filed containing proposed rates: C. A. Spaninger, Agent, I. C. C. No. 1230, supp. 52.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

  - Knoxville — 7182, 7507, 7583, 7711
  - Nashville — 7159
- Texas:
  - Austin-Waco — 7117, 7415
  - North Texas — 7491, 7638
- Wisconsin; Milwaukee — 7692, 7709

Nuts; marketing of almonds and walnuts. *See* Almonds; *and* Walnuts.

Oranges. *See* Citrus fruits.

Organization, functions, and authority:
- Agricultural Marketing Service; functions relating to agreements under National Wool Act of 1954 — 7302
- Foreign Agricultural Service, Administrator; redelegation of authority to Director of Foreign Trade Programs Division respecting approval of imports of certified or registered seed grains and of grain or flour for experimental purposes — 7440
- Forest Service; assignment of functions, amendment — 7750
- Soil Conservation Service; assignment of functions, amendment — 7750

Packers and Stockyards Division; stockyards, commission merchants, etc., notices respecting posting, etc.:
- Akard, Roy, Livestock Commission Co — 7606
- Denver Union Stock Yards Co — 7242
- Goshen Livestock Sales Commissions — 7626

Peaches:
- *See also* Fruits and berries.
- Marketing of peaches grown in Georgia; referendum among producers, direction concerning — 7580

Peanuts, marketing quotas, farm, for 1955 crop; redelegation of final authority respecting, by State Agricultural Stabilization and Conservation Committees:
- Texas — 7133
- Virginia — 7242

Peas:
- *See also* Vegetables.
- Standards, for frozen mixed peas and carrots; proposed rule making — 7413

Peppers, green:
- *See also* Vegetables.
- Imports — 7707

Pesticide chemicals under section 408 (1) of the Federal Food, Drug, and Cosmetic Act, as amended, certification of usefulness of; proposed rule making — 7585

Plant quarantine, control of diseases and pests, etc.:
- Overtime work relating to imports and exports, at border ports, seaports, and airports — 7213
- Pesticides. *See* Pesticide chemicals.

Potatoes:
- *See also* Vegetables.
- Imports — 7707
- Marketing of Irish potatoes grown in various States:
  - Colorado — 7177, 7178, 7351
  - Maine — 7581
  - Limitation of shipments — 7284, 7434

Raisins produced from raisin variety grapes grown in California, marketing of — 7338

Rice:
- Marketing quota, farm, acreage allotments, etc., 1955, proposed — 7271
- Notice of study by Secretary of Agriculture of various two-price systems of price support and marketing — 7626

Standards, for various agricultural commodities. *See* Apples; Carrots; Eggs; *and* Peas.

Sugar:
- Consumption requirements and quotas:
  - Continental United States; allotment of sugar quotas:
    - Domestic beet sugar area, 1955; proposed rule making — 7354
    - Mainland cane sugar area, 1955; proposed rule making — 7355

AGRICULTURE DEPARTMENT—Continued — Page

Sugar—Continued
- Consumption requirements and quotas—Continued
  - Mainland. *See* Continental United States.
  - Quotas; proration of 1954 quota for foreign countries other than Cuba and Republic of Philippines — 7319
- Prices; sugar beets, 1955 crop, notice of hearing — 7419
- Proportionate shares for farms, domestic beet sugar area; 1955 crop — 7260, 7407
- Wage rates; sugar beets, regions other than California, Southwestern Arizona, Southern Oregon, and Western Nevada, 1955 crop, proposed rule making — 7419

Support prices, for various agricultural commodities. *See main heading* Commodity Credit Corporation.

Surplus agricultural commodities, disposal of; sales of commodities for foreign currencies, under Agricultural Trade Development and Assistance Act of 1954, regulations governing financing of commercial sales — 7526

Tobacco; marketing quotas, farm, acreage allotments, etc.:
- Fire-cured, dark air-cured, and Virginia sun-cured; 1955–56 marketing year — 7631
- Referendum among producers, direction concerning — 7697
- Maryland, 1955–56 marketing year — 7634
- Referendum among producers, direction concerning — 7698

Tomatoes:
- *See also* Vegetables.
- Imports — 7707

Vegetables:
- Imports (tomatoes, green peppers, Irish potatoes, cucumbers, and eggplants), general regulations — 7707
- Inspection and certification, fees and charges; additional charges for overtime work, proposed rule making — 7378
- Marketing of potatoes. *See* Potatoes.
- Standards, for carrots and peas. *See* Carrots; *and* Peas.

Walnuts grown in California, Oregon, and Washington, marketing of — 7332, 7449

AIR CARRIERS, labor disputes involving, investigation of. *See* National Mediation Board.

AIR FORCE DEPARTMENT:

Aircraft danger areas over military installations, designation in coordination with Air Force. *See main heading* Civil Aeronautics Administration.

Allotments. *See* Claims and accounts.

Authority, delegation of, from Secretary of Defense; contracts for procurement of public utility services — 7274

Awards. *See* Decorations and awards.

Bills and accounts, payment of. *See* Claims and accounts.

Claims and accounts:
- Allotments of pay; note respecting applicability of Army Department regulations, revocation — 7489
- Bills and accounts, payment of; note respecting applicability of Army Department regulations, revocation — 7489
- Bonds of accountable officers; note respecting applicability of Army Department regulations, revocation — 7489
- Death gratuity:
  - Deceased personnel other than Air Force — 7490
  - Definition of categories and entitlement — 7489
  - Eligible beneficiaries, illegitimate child — 7489
  - Evidence required — 7489
  - Forms — 7490
  - Ineligible beneficiaries — 7489
  - Payments — 7489
  - Special instructions; absence without leave, absence over leave, and desertion — 7490
- Military court fees; note respecting applicability of Army Department regulations, revocation — 7489

Death gratuity. *See* Claims and accounts.

Decorations and awards; certificates, letters and gold star lapel buttons — 7155

Defense mobilization program, functions respecting (Executive Order 10574) — 7249

AIR FORCE DEPARTMENT—Continued — Page

Procurement; armed services procurement regulations. *See main heading* Defense Department.

Public utility services, contracts for procurement of; authority delegation from Secretary of Defense respecting — 7274

Reserve forces, Officers' Reserve; mobilization and training — 7566

Buy American Act, foreign purchases. *See* Procurement.

Construction contracts, labor standards respecting. *See* Procurement: labor standards.

Defense mobilization program, functions respecting (Executive Order 10574) — 7249

Emergency Facilities Depreciation Board — 7180

Nurse Corps, Army; establishment, mission, composition, etc — 7323

Procurement:
- Armed services procurement regulations. *See main heading* Defense Department.
- Army procurement procedure:
  - Advertising, formal, procurement by; solicitation of bids, publishing in newspapers — 7563

ARMY DEPARTMENT—Continued Page

Procurement—Continued
Army procurement procedure—Continued
"Assistant Secretary of Army (logistics and research and development)," and "Deputy Chief of Staff for Logistics" substituted for "Under Secretary of the Army" and "Assistant Chief of Staff, G–4" 7563
Emergency Facilities Depreciation Board 7180
Foreign purchases, Buy American Act:
Authority to grant exceptions to Act 7564
Supplies excepted from Act 7564
Government property, sale of; exchange or sale of personal property and application of proceeds to purchase of similar items 7565
Labor standards, in construction contracts; administration and enforcement 7564
Negotiation, procurement by; small purchases, order-invoice-voucher method 7563
Supplemental provisions:
Administrative procedures, approval of awards of contracts:
Architect-engineer contracts 7565
Personal or professional services 7565
Procurement action reporting, instructions for preparation of DD form 350 7566
Wool, procurement of items containing; bid evaluation and award 7566
Public utility services, contracts for procurement of; authority delegation from Secretary of Defense respecting 7274
Reserves, organized; Army Reserve, appointments:
Army Medical Service Branches, appointment as Reserve officers for assignment to:
Eligibility, education and experience 7269
Veterinary Corps 7269
Eligibility:
Mental requirements 7269
Security check and cryptographic clearance 7269

ATOMIC ENERGY COMMISSION:
Defense mobilization program, functions respecting (Executive Order 10574) 7249
Domestic uranium program; Circular 7, termination 7365
Patent Compensation Board; claim for award by Commissariat a L'Energie Atomique 7304

B

BONNEVILLE POWER ADMINISTRATION:
Authority, delegation of, from Secretary of Interior respecting contracts for engineering and architectural services 7625

BUSINESS AND DEFENSE SERVICES ADMINISTRATION:
Priority orders; copper and copper-base alloys, brass mill products, copper wire mill products, copper-base alloy powder mill products, etc., production capacity (M–11A) 7350

C

CANAL ZONE GOVERNMENT:
Employment in service of Panama Canal and Panama Railroad Co.; commutation of leave upon separation or death, prior orders (Executive Order 1888, 9740) revoked in part (CZO 37) 7127
Tolls for use of Panama Canal; payment of tolls and other charges, revocation (CZO 36) 7127

CENSUS BUREAU:
Survey of textile, shoe and steel fabricating areas of manufacturing, proposed 7460

CENTRAL INTELLIGENCE AGENCY:
National Censorship Planning Committee; representation on 7113

CERTIFICATES OF NECESSITY, issuance of, in connection with defense mobilization program, functions respecting (Executive Order 10574) 7249

CIVIL AERONAUTICS ADMINISTRATION:
Airports; instrument flight rules. *See* Instrument flight rules.
Civil airways, designation of; alterations:
Colored civil airways, etc.:
Blue civil airways 7343
Red civil airways 7343

CIVIL AERONAUTICS ADMINISTRATION—Con. Page

Civil airways, designation of; alterations—Continued
Explanation of term "mile" 7639
VOR civil airways; domestic 7479, 7480
Control areas, control zones, and reporting points, designation of; alterations:
Control areas:
Colored civil airways:
Blue civil airways 7343
Red civil airways 7343
Extension of control areas 7343, 7480
VOR civil airways; domestic 7481
Control zones:
Additional control zones 7343, 7080
Five-mile radius zones 7343, 7480
Explanation of term "mile" 7639
Reporting points:
Colored civil airways:
Blue civil airways 7353
Green civil airways 7480
Red civil airways 7343, 7481
VOR reporting points; domestic 7481
Danger areas over Army, Navy and Air Force installations in various States and Island of Guam, designation of; alterations:
Florida 7225
Guam, Island of 7156
Massachusetts 7156
Texas 7285
Instrument flight rules:
Altitudes; minimum en route IFR altitudes, particular routes:
Colored civil airways:
Amber civil airways 7225, 7451
Blue civil airways 7226, 7452
Green civil airways 7225
Red civil airways 7226, 7452
Direct routes; United States 7226
VOR civil airways 7226, 7227, 7228, 7452
Approach procedures, instrument, standard (including ceiling and visibility minimums for take-off and landing at particular airports):
Automatic direction finding procedures 7130, 7287, 7559
Basis and purpose; proposed rule making 7459
Instrument landing system procedures 7132, 7290, 7373, 7561
Introduction; proposed rule making:
Applicability 7459
Descent below authorized IFR landing minimums 7459
Landing minimums with inoperative ILS components 7459
Use of radio range for ADF approach 7459
Range procedures; low frequency range procedures 7286, 7371, 7557
Symbols used in ceiling and visibility minimums; condition, "S" straight-in-landing minimums, proposed rule making 7459
Very high frequency omnirange procedures 7131, 7288, 7372, 7560
Procedures of Civil Aeronautics Administration:
Fees, for copying, certification and search of records 7403
Records, fees for copying, certification, search, etc. *See* Fees.
Records; fees for copying, etc. *See* Procedures of Civil Aeronautics Administration.
Security control of air traffic, designated air defense identification zones; Pacific (Coastal) ADIZ, redefining northern boundary 7481

Air traffic rules:
Definitions; prohibited and restricted areas 7264

CIVIL AERONAUTICS BOARD—Continued Page

Air traffic rules—Continued
General flight rules (GFR):
Authority for designation of restricted areas by Administrator 7264
Avoidance of prohibited and restricted areas 7263
Visual flight rules (VFR); high density air traffic zone, experimental, in Washington, D. C., authority respecting (SR–408), correction 7156
Airmen, certificates. *See* Certificates.
Airworthiness, airplane, transport categories; C–46 type aircraft used in cargo operations. *See* Irregular air carrier and off-route rules; *and* Scheduled air carriers.
Balloons, moored, and large kites, operation of, to safeguard air traffic; revision 7719
Certificates; airmen:
Flight engineer certificates; revision 7103
Pilot certificates:
Commercial pilot rating; aeronautical knowledge, and skill 7719
Examinations and tests; period of acceptance for reports of successful completion 7719
Instrument rating 7719
Private pilot rating; demonstration of skill, flight test before written examination is passed 7719
Economic regulations:
Accounts, uniform system of, for certificated air carriers; proposed revision 7299
Tariffs of air carriers and foreign air carriers; liability rules for personal injury and death in air carriers, order to cancel certain matters from tariffs 7387
Explosives and other dangerous articles (radioactive materials), transportation of, by cargo or passenger-carrying civil aircraft:
Exempted articles; special authority with respect to deviation from limitations for Atomic Energy Commission shipments of radioactive materials 7224
Passenger-carrying aircraft; radioactive materials, change in certain section references 7224
Hearings investigations, etc.; list of companies and cases, *see list at end of this agency.*
Irregular air carrier and off-route rules; C–46 type aircraft used in cargo operations, application of transport category performance requirements respecting, proposed rule making 7507
Kites, large, operation of. *See* Balloons.
Organization, functions, and delegation of authority; delegations of authority by Board to Staff:
Chief, Office of Carrier Accounts and Statistics 7418
Chief, Office of Compliance 7418
Chief Examiner 7418
Director, Bureau of Air Operations 7418
Director, Bureau of Safety Investigation 7418
Director, Bureau of Safety Regulation 7418
General Counsel 7418
Officers and employees 7418
Presiding officers and hearing examiners 7418
Special agents and auditors 7418
The Secretary 7418
Radioactive materials, deviation from limitations for Atomic Energy Commission shipments of. *See* Explosives and other dangerous articles.
Scheduled air carriers:
Interstate air carrier certification and operation rules:
Airplane performance operating limitations, transport category; take-off limitations to provide for engine failure, effect of runway gradient 7451
C–46 type aircraft used in cargo operations; application of transport category performance requirements respecting, proposed rule making 7507
Flight operations; dispatching rules:
Alternate airport landing minimums for airports not served by radio navigation facility 7451
Instrument approach procedures and IFR landing weather minimums at airports served by both ILS and GCA 7224

CIVIL AERONAUTICS BOARD—Continued Page

Scheduled air carriers—Continued
Operations outside continental limits of United States:
C–46 type aircraft used in cargo operations; application of transport category performance requirements respecting, proposed rule making 7507
Certificate; issuance 7339
Passenger operation rules, aircraft requirements; maintenance manual contents of 7341

- Reservoir areas, public use of:
  - Areas covered:
    - North Dakota, Missouri River; Garrison Reservoir Area 7323
    - South Dakota, Missouri River; Fort Randall Reservoir Area 7323

ENGINEERS, CORPS OF; DEPARTMENT OF THE ARMY—Continued Page

Reservoir areas, public use of—Continued
- Houseboats prohibited:
  - North Dakota, Missouri River; Garrison Reservoir Area 7323
  - South Dakota, Missouri River; Fort Randall Reservoir Area 7323
- Hunting permitted:
  - North Dakota, Missouri River; Garrison Reservoir Area 7323
  - South Dakota, Missouri River; Fort Randall Reservoir Area 7323

EXECUTIVE ORDERS. *See* Presidential documents.

EXPLOSIVES; transportation of. *See* Civil Aeronautics Board; *and* Defense Department.

F

FAIR EMPLOYMENT BOARD:
- Instructions for carrying out program under Executive Order 9980; dissemination of information 7329

FAR EAST AND PACIFIC AREAS; creation of joint organization, assistance in connection with (Exetive Order 10575) 7249

FARM CREDIT ADMINISTRATION:
- Federal intermediate credit banks; loans and discounts, rates of interest or discount charged notemakers by financing institutions 7631
- Production credit system; production credit associations, loans on commodities covered by CCC price support programs 7329, 7407

FARMERS HOME ADMINISTRATION:
- Account servicing, routine; annual checkout for section 503 farm housing borrowers, redesignation 7431
- Designation of acting officials 7698
- Farm housing loans; revocation 7431
  - Applicants; revocation 7431
  - Basic regulations; revocation 7431
  - Construction and repair; revocation 7431
  - Contract purchasers in Bureau of Reclamation projects, loans to; revocation 7431
  - Farms, appraisals, recommendations, etc.; revocation 7431
  - Indians, certain restricted, farm housing assistance for; revocation 7431
  - Processing loans and grants; revocation 7431
  - Servicing of loans:
    - *See also* Account servicing.
    - Year-end, farm and home management, annual checkout for section 503 borrowers; revocation 7431
- Farm ownership loans, basic regulations; loan limitations, average value of farms in various Michigan counties 7553
- Security servicing and liquidations, operating loans; general security servicing, redelegation of authority to satisfy crop and chattel security instruments 7451

FEDERAL CIVIL DEFENSE ADMINISTRATION:
- Committees, representation on:
  - National Censorship Planning Committee 7113
  - Telecommunications Planning Committee 7408
- Organization statement:
  - Field office, Region 7 7589
  - Washington and National Offices 7588

FEDERAL COMMUNICATIONS COMMISSION:
- Alaska:
  - Licenses of certain Alaskan stations, modification of; deletion of frequency 2986 kc and addition of certain other frequencies 7305
  - Radio stations in Alaska (other than amateur and broadcast):
    - Fixed public service; frequencies for short distance communication from non-Government to Government stations, unavailability of frequency 2986 kc, footnote 7297
    - Public coast stations, frequencies for short distance communication from non-Government stations to Government stations, and secondarily with ships in Alaskan waters; unavailability of frequency 2986 kc, footnote 7297

FEDERAL COMMUNICATIONS COMMISSION—Con. Page

- Alaska—Continued
  - Radio stations in Alaska (other than amateur and broadcast)—Continued
    - Shipboard stations in maritime services; frequencies for communication from non-Government to Government stations employing primarily telephony, unavailability of frequency 2986 kc, footnote 7297
- Aviation services:
  - Aeronautical fixed stations:
    - Frequencies, assignment of; allocation of frequencies, except for aeronautical fixed stations in Alaska, to be made in accordance with table of frequency allocations only 7577
    - Frequencies available; redesignation 7577
  - Aircraft radio stations:
    - Applications. *See* Applications and licenses, *below.*
    - Frequencies available; operation outside United States, maintenance of communications, report to Commission of initial use of frequencies, deletion 7575
  - Applications and licenses:
    - Aircraft radio station license, application for 7574
    - Air carrier aircraft radio station license, new or modified; use of Form 404 for 7574
    - Private aircraft radio station license, application for; deletion 7574
    - Renewal of aircraft radio station license, application for 7574
    - License period 7574
    - Posting station licenses and transmitter identification cards; current authorizations for aircraft radio stations 7575
    - Transfer and assignment of aircraft 7574
- Canada, assignment of frequencies to broadcast stations in; changes in list modifying appendix to North American Regional Broadcasting Agreement 7547
- Commercial radio operators; operating authority, restricted radiotelephone operator permit, proposed rule making 7274
- Committee, National Censorship Planning; representation on 7113
- Cuba, assignment of frequencies to broadcast stations in; new stations, changes, and deletions in accordance with North American Regional Broadcasting Agreement 7359
- Experimental and auxiliary broadcast services, television auxiliary broadcast stations; intercity relay stations, licensing, use of, etc., extension of time to file comments in proposed rule making 7508
- Frequencies and channels, allocation and use of:
  - *See also* Frequency allocations and radio treaty matters.
  - Frequency bands:
    - 1622–8070 kc 7305
    - 2000–2850 kc 7273
    - 2986 kc 7297, 7305
    - 35.74–35.94 mc 7241
    - 680–890 mc 7160

PART 25—FEDERAL EMPLOYEES' PAY REGULATIONS

Effective at the beginning of the first pay period which begins after October 31, 1954, Subpart C is revised and amended to read as follows:

SUBPART C—OVERTIME, NIGHT, AND HOLIDAY PAY REGULATIONS

Sec.
25.201 Employees to whom this subpart applies.
25.202 Employees to whom this subpart does not apply.
25.203 Definitions.
25.204 General pay computation method.
25.205 Maximum limitation.

ESTABLISHMENT OF BASIC WORKWEEK AND WORK SCHEDULES

25.211 Establishment of basic workweek and regularly scheduled administrative workweek.
25.212 Establishment of work schedules.

OVERTIME PAY

25.221 Authorization of overtime compensation.
25.222 Computation of overtime employment.
25.223 Computation of overtime compensation.
25.224 Compensatory time off for irregular or occasional overtime duty.

NIGHT PAY

25.231 Authorization of night pay differential.
25.232 Computation of night pay differential.

HOLIDAY PAY

25.241 Identification of holidays.
25.242 Authorization of holiday pay.
25.243 Relationship to overtime and night pay.

SPECIAL PROVISIONS FOR CERTAIN TYPES OF WORK—POSITIONS REQUIRING EMPLOYEES TO REMAIN AT THEIR STATIONS DURING LONG DUTY TOURS A SUBSTANTIAL PART OF WHICH IS STANDBY

25.251 Authorization of additional annual compensation.
25.252 General restrictions.
25.253 Bases for determining positions for which additional compensation under § 25.251 is authorized.
25.254 Rates of additional compensation payable under § 25.251.

SPECIAL PROVISIONS FOR CERTAIN TYPES OF WORK—POSITIONS IN WHICH THE HOURS OF DUTY CANNOT BE CONTROLLED ADMINISTRATIVELY AND WHICH REQUIRE SUBSTANTIAL AMOUNTS OF IRREGULAR, UNSCHEDULED, OVERTIME, NIGHT, AND HOLIDAY DUTY

25.261 Authorization of additional annual compensation.

Sec.
25.262 General restriction.
25.263 Bases for determining positions for which additional compensation under § 25.261 is authorized.
25.264 Rates of additional compensation payable under § 25.261.

SPECIAL PROVISIONS FOR CERTAIN TYPES OF WORK—RESPONSIBILITIES OF DEPARTMENTS AND GENERAL RULES GOVERNING PAYMENTS

25.271 Responsibilities of the departments.
25.272 Payment provisions.
25.273 Relationship to other payments.
25.274 Maintenance of existing aggregate rate of compensation.

AUTHORITY: §§ 25.201 to 25.243 issued under sec. 605, 59 Stat. 304; 5 U. S. C. 945. §§ 25.251 to 25.274 issued under sec. 605, 59 Stat. 304 and sec. 208, 68 Stat. 1111; 5 U. S. C. 945. Interpret or apply secs. 101–604, 59 Stat. 295–304, and secs. 208–211, 68 Stat. 1111–1112; 5 U. S. C. 901–944.

§ 25.201 *Employees to whom this subpart applies.* (a) This subpart applies to all civilian officers and employees in or under the executive branch of the United States Government, including Government-owned or controlled corporations, except those specified in § 25.202.

(b) The sections in this subpart incorporating special provisions for certain types of work (§§ 25.251 to 25.274, inclusive), apply also to those officers and employees of the judicial branch, legislative branch, and the District of Columbia municipal government who are subject to titles II, III, and IV of the Federal Employees Pay Act of 1945, as amended.

§ 25.202 *Employees to whom this subpart does not apply.* (a) This subpart does not apply to:

(1) Elected officials;

(2) Heads of departments or independent establishments or agencies, including Government-owned or controlled corporations; i. e., heads of governmental establishments in the executive branch which are not component parts of any other such establishment;

(3) Officers and employees in the field service of the Post Office Department;

(4) Employees whose basic compensation is fixed and adjusted from time to time in accordance with prevailing rates by wage boards or similar administrative authority serving the same purpose, except that § 25.223 (d) shall be applicable to such employees whose rate of basic compensation is fixed on an annual or monthly basis;

(5) Employees outside the continental limits of the United States, including those in Alaska, who are paid in accordance with local prevailing native wage rates for the area in which employed;

(6) Officers and employees of the Inland Waterways Corporation;

(7) Officers and employees of the Tennessee Valley Authority;

(8) Officers and employees of the Central Intelligency Agency;

(9) Individuals to whom the provisions of section 1 (a) of the act entitled "An act to amend and clarify certain provisions of law relating to functions of the War Shipping Administration, and for other purposes," approved March 24, 1943 (57 Stat. 45, 50 U. S. C. App. 1291) are applicable;

(10) Officers and members of the United States Park Police and the White House Police;

(11) Officers and members of crews of vessels, whose compensation shall be fixed and adjusted from time to time as nearly as is consistent with the public interest in accordance with prevailing rates and practices in the maritime industry;

(12) Civilian keepers of lighthouses and civilians employed on lightships and other vessels of the Coast Guard;

(13) Physicians, dentists, nurses, and other employees in the Department of Medicine and Surgery in the Veterans' Administration, whose compensation is fixed under Public Law 293, Seventy-ninth Congress, approved January 3, 1946, as amended; and

(14) Student nurses, medical or dental interns and residents-in-training, student dietitians, student physical therapists, and student occupational therapists, assigned or attached to a hospital, clinic, or medical or dental laboratory operated by any department, agency, or instrumentality of the Federal Government and any other student-employees, assigned or attached to any such hospital, clinic or laboratory primarily for training purposes, who may be designated by the head of such department, agency, or instrumentality with the approval of the Civil Service Commission.

(15) Employees of the Weather Bureau, Department of Commerce, engaged in the conduct of meteorological investigations in the Arctic region.

NOTE: The list above does not contain positions which are excluded on a year-to-year basis by appropriation acts.

(b) In addition to the exclusions listed in paragraph (a), of this section, the extra pay provisions of this subpart shall not apply to overtime, night, and holiday services for which additional compensation is provided by the following statutes: Act of February 13, 1911, as amended (19 U. S. C. 261, 267) involving inspectors, storekeepers, weighers, and other customs officers and employees; act of July 24, 1919 (41 Stat. 241; 7 U. S. C. 394), involving employees engaged in enforcement of Meat Inspection Act; act of June 17, 1930, as amended (19 U. S. C. 1450, 1451, 1452) involving customs officers and employees; act of March 2, 1931 (46 Stat. 1467; 8 U. S. C. 109a and 109b), involving inspectors and employees, Immigration and Naturalization Service; act of May 27, 1936, as amended (52 Stat. 345; 46 U. S. C. 382b) involving local inspectors of steam vessels and assistants, U. S. shipping commissioners, deputies and assistants, and customs officers and employees; act of March 23, 1941 (55 Stat. 46; 47 U. S. C. 154 (f) (2)) involving certain inspectors of the Federal Communications Commission; act of June 3, 1944 (58 Stat. 269; 19 U. S. C. 1451), involving customs officers and employees; act of August 4, 1949 (63 Stat. 495; 7 U. S. C. 394a), involving employees of the Bureau of Animal Industry who work at establishments which prepare virus, serum, toxin and analogous products for use in the treatment of domestic animals; act of August 28, 1950 (64 Stat. 561; 5 U. S. C. 576) involving employees of the Department of Agriculture performing inspection or quarantine services relating to imports into and exports from the United States.

§ 25.203 *Definitions.* For the purposes of this subpart, definitions are given for words, terms, and phrases as follows:

(a) (1) "Administrative workweek" means a period of seven consecutive calendar days.

(2) "Regularly scheduled administrative workweek" for full-time officers and employees means the period within an administrative workweek, established pursuant to § 25.211, when such officers and employees are required to be on duty regularly. For part-time employees, it means the officially prescribed days and hours within an administrative workweek during which such employees are required to be on duty regularly.

(b) "Basic workweek" for full-time officers and employees means the 40-hour workweek established pursuant to § 25.211.

(c) "Department" means any department, independent establishment or agency in the executive branch of the Federal government, including Government-owned or controlled corporations.

(d) "Head of department" means the head of a department or any official who has been delegated the authority to act for the head of the department in the matter concerned.

(e) "Irregular or occasional overtime duty" means hours of employment not scheduled in the regularly scheduled administrative workweek.

(f) "Night pay differential" means the ten percent increase over the officer's or employee's rate of basic compensation, authorized by section 301 of the Federal Employees Pay Act of 1945, as amended.

(g) "Rate of basic compensation" means the rate of compensation fixed by law or administrative action for the position held by an officer or employee be-

fore any deductions and exclusive of additional compensation of any kind. It is exclusive of such additional compensation as overtime pay, extra pay for night or holiday work, additional compensation under section 401 of the Federal Employees Pay Act of 1945, as amended, or allowances or post differentials payable to officers or employees stationed outside the States. It is inclusive of the value of quarters, subsistence, and other maintenance allowances under section 3 of the act of March 5, 1928 (45 Stat. 193; 5 U. S. C. 75a).

§ 25.204 *General pay computation method.* (a) Hereafter for all pay computation purposes per annum rates of basic compensation established by or pursuant to law shall be regarded as payment for employment during 52 basic workweeks of 40 hours.

(b) Whenever, for the purposes of computing overtime, holiday, or night pay or additional pay on an annual basis under this subpart, it is necessary to convert a monthly or annual basic rate to a biweekly, weekly, daily, or hourly basic rate, the following rules shall govern:

(1) A monthly rate shall be multiplied by twelve to derive an annual rate;

(2) An annual rate shall be divided by 52 or 26, as the case may be, to derive a weekly or biweekly rate;

(3) A weekly or biweekly rate shall be divided by 40 or 80, as the case may be, to derive an hourly rate; and

(4) A daily rate shall be derived by multiplying an hourly rate by the number of daily hours of service required.

(5) All rates shall be computed to the nearest cent, counting one-half cent and over as a whole cent.

§ 25.205 *Maximum limitation.* (a) No overtime, night, or holiday compensation or additional compensation on an annual basis provided in this subpart shall be paid to any officer or employee whose rate of basic compensation equals or exceeds the maximum scheduled rate of basic compensation provided for grade GS–15 in the Classification Act of 1949, as amended.

(b) In the case of any officer or employee whose rate of basic compensation is less than the maximum scheduled rate of basic compensation provided for grade GS–15 in the Classification Act of 1949, as amended, such premium compensation may be paid only to the extent that such payment would not cause his aggregate rate of compensation to exceed such maximum scheduled rate with respect to any pay period.

ESTABLISHMENT OF BASIC WORKWEEK AND WORK SCHEDULES

§ 25.211 *Establishment of basic workweek and regularly scheduled administrative workweek.* (a) Heads of departments shall, with respect to each group of full-time officers and employees to whom this subpart applies, establish by regulation:

(1) A basic workweek of 40 hours in length which shall not extend over more than six of any seven consecutive days. Except as provided in paragraphs (b) and (c) of this section, such regulation shall specify the calender days constituting the basic workweek and the number of hours of employment for each of such calendar days included within the basic workweek.

(2) A regularly scheduled administrative workweek which shall consist of the 40-hour basic workweek established in accordance with subparagraph (1) of this paragraph, plus such period of overtime work as will be regularly required of each group of employees. Except as provided in paragraphs (b) and (c) of this section, the periods of time included in such regularly scheduled administrative workweek which do not constitute a part of the basic workweek shall be identified by calendar days and by number of hours per day for purposes of leave and overtime pay administration.

(b) Whenever it is impracticable to prescribe a regular schedule of definite hours of duty for each workday of a regularly scheduled administrative workweek, the first 40 hours of duty performed within a period of not more than 6 days of the administrative workweek may be established as the basic workweek and all additional hours of officially ordered or approved duty within the administrative workweek shall be treated as overtime.

(c) In the case of officers or employees who are paid additional compensation under section 401 (1) of the Federal Employees Pay Act of 1945, as amended, the length of the regularly scheduled administrative workweek shall be the total number of regularly scheduled hours of duty per week. In the case of other officers and employees whose tours of duty include periods during which they remain at or within the confines of their stations in a standby status rather than performing actual work, the length of the regularly scheduled administrative workweek shall be the total number of regularly scheduled hours of duty per week, including all time in such a standby status except that allowed for sleep and meals by regulation of the department.

§ 25.212 *Establishment of work schedules.* Except where he determines that the department would be seriously handicapped in carrying out its functions or that costs would be substantially increased, the head of each department shall provide that (a) assignments to tours of duty shall be scheduled in advance over periods of not less than one week, (b) the basic 40-hour workweek shall be scheduled on five days, which shall be Monday through Friday, wherever possible, and the two days outside the basic workweek shall be consecutive, (c) the working hours in each day in the basic workweek shall be the same, (d) the basic nonovertime workday shall not exceed eight hours, (e) the occurrence of holidays shall not affect the designation of the basic workweek, and (f) breaks in working hours of more than one hour shall not be scheduled in any basic workday.

OVERTIME PAY

§ 25.221 *Authorization of overtime compensation.* (a) All hours of work officially ordered or approved in excess of 40 hours in any administrative workweek performed by officers and employees to whom this subpart applies shall be considered to be overtime work and, except as otherwise provided in this subpart, shall be compensated as provided in § 25.223.

(b) No overtime in excess of any that may be included in the regularly scheduled administrative workweek shall be ordered or approved except in writing by an officer or employee to whom such authority has been specifically delegated.

§ 25.222 *Computation of overtime employment.* The computation of the amount of overtime employment of an officer or employee shall be subject to the following conditions:

(a) *Leave with pay.* Absence from duty on authorized leave with pay under the annual and sick leave act of October 30, 1951, as amended, during the time when an employee would otherwise have been required to be on duty during the basic workweek (including authorized absence on legal holidays, nonworkdays established by Executive or administrative order, and days of compensatory time off provided for in § 25.224) shall be considered to be employment and shall not have the effect of reducing the amount of overtime compensation to which the employee may be entitled during an administrative workweek. Leave of absence with pay under the act cited shall not be charged for any absence which does not occur during the 40 hours prescribed as the basic workweek.

(b) *Leave without pay.* For any period of leave without pay within an employee's basic 40-hour workweek, an equal period of service performed outside the basic workweek, but during the same administrative workweek, must be substituted and paid for at the rate applicable to his basic workweek, before any remaining periods of service can be paid for at the overtime rate.

(c) *Absence during overtime periods.* Except as expressly authorized by law, as in the case of jury duty under the act of June 29, 1940 (54 Stat. 689), and except to the extent authorized while the employee is in official travel status, no overtime period shall be counted in computing overtime compensation unless the officer or employee performs actual duty during such period or is taking compensatory time off as provided for in § 25.224.

(d) *Night or holiday duty.* Hours of night or holiday duty shall be included in determining for overtime pay purposes the total number of hours of employment within the same administrative workweek.

(e) *Time in travel status.* Time in a travel status away from the official duty-station of any officer or employee shall be considered as hours of employment only (1) when within the days and hours of his regularly scheduled administrative workweek, including regularly scheduled overtime hours, or (2) when the travel involves the performance of actual work while traveling or is carried out under such arduous and unusual conditions that the travel is inseparable from work.

(f) *Call-back overtime.* Any unscheduled overtime work performed by an officer or employee on a day when no work was scheduled for him, or for which he is required to return to his place of employment, shall be considered to be at least two hours in duration for purposes of compensation provided by this subpart, either in money or in time off duty.

§ 25.223 *Computation of overtime compensation.* (a) For each officer or employee whose basic compensation is at a rate which does not exceed the minimum scheduled rate of grade GS–9 of the Classification Act of 1949, as amended, the overtime hourly rate shall be one and one-half times his hourly rate of basic compensation.

(b) For each officer or employee whose basic compensaton is at a rate which exceeds the minimum scheduled rate of grade GS–9 of the Classification Act of 1949, as amended, the overtime hourly rate shall be one and one-half times the hourly rate of basic compensation at the minimum scheduled rate of grade GS–9.

(c) Overtime work performed on Sundays and holidays shall be compensated at the same rates as overtime work performed on other days.

(d) Employees whose rate of basic compensation is fixed on an annual or monthly basis and adjusted from time to time in accordance with prevailing rates by wage boards or similar administrative authority serving the same purpose shall be entitled to overtime pay in accordance with the provisions of section 23 of the act of March 28, 1934 (48 Stat. 522; 5 U. S. C. 673c). The rate of compensation for each hour of overtime employment of any such employee shall be computed as follows:

(1) If the rate of basic compensation of the employee is fixed on an annual basis, divide such rate of basic compensation by two thousand and eighty (2080) and multiply the quotient by one and one-half; and

(2) If the rate of basic compensation of the employee is fixed on a monthly basis, multiply such rate of basic compensation by 12 to derive an annual rate of basic compensation, divide such annual rate of basic compensation by two thousand eighty (2080) and multiply the quotient by one and one-half.

(3) All rates shall be computed to the nearest cent, counting one-half cent and over as a whole cent.

§ 25.224 *Compensatory time off for irregular or occasional overtime duty.* (a) The head of a department may, at the request of any officer or employee, grant such officer or employee compensatory time off from his scheduled tour of duty in lieu of payment under § 25.223 for an equal amount of time spent in irregular or occasional overtime work.

(b) The head of a department may, at his own discretion, provide that any officer or employee whose rate of basic compensation is in excess of the maximum scheduled rate of grade GS–9 of the Classification Act of 1949, as amended, shall be compensated for irregular or occasional overtime work with an equivalent number of hours of compensatory time off duty, in lieu of payment under § 25.223.

(c) The head of a department may fix a time limit within which compensatory time off may be requested or taken, and may provide that when an officer or employee is entitled to compensatory time off under paragraph (a) or (b) of this section but fails to take it within the prescribed limit, he shall lose his rights both to compensatory time off and to overtime pay unless the failure is due to an exigency of the service beyond his control.

NIGHT PAY

§ 25.231 *Authorization of night pay differential.* (a) Any regularly scheduled work between six o'clock p. m. and six o'clock a. m. shall be considered night work, and, except as otherwise provided in this subpart, any officer or employee to whom this subpart applies shall be paid a night pay differential amounting to 10 percent of his rate of basic compensation as premium compensation for all hours of night work, computed in accordance with § 25.232.

(b) The head of a department may designate any time after six o'clock p. m. or before six o'clock a. m. as the beginning or end, respectively, of night work for the purposes of this section at any post outside the several States and the District of Columbia where the customary hours of business in the locality extend into the period between six o'clock p. m. and six o'clock a. m. Times so designated as the beginning or end of night work shall correspond reasonably with the end or beginning, respectively, of the customary hours of business in the locality.

§ 25.232 *Computation of night pay differential*—(a) *Absence on holidays or in travel status.* Payment of a night pay differential is authorized during periods when the officer of employee is excused from night work on a holiday or other nonworkday and for all night hours of the employee's regularly scheduled tour of duty while he is in an official travel status, whether performing actual duty or not.

(b) *Absence on leave.* Payment of a night pay differential is not authorized during periods when an officer or employee is on leave, except that any officer or employee may be paid a night differential for periods of paid leave during any pay period in which his total paid leave, inclusive of both night and day hours, is less than eight hours.

(c) *Relation to overtime and holiday pay.* Payment of a night pay differential shall be in addition to any overtime or holiday compensation paid in accordance with this support. The amount of the night pay differential which an officer or employee earns for working during a night overtime period is not affected by whether he is paid in cash or granted compensatory time off for such overtime services. The night pay differential shall not be included in the rate of basic compensation in computing any overtime or holiday compensation to which an officer or employee may be entitled.

(d) *Temporary assignment to different tour of duty.* The payment of the night pay differential is authorized for night work performed when an employee is assigned temporarily to a regularly scheduled tour of duty other than his own regular tour of duty.

HOLIDAY PAY

§ 25.241 *Identification of holidays.* The following days shall be holidays:

(a) Subject to the provisions of paragraph (b) of this section, the 1st day of January; the 22d day of February; the 30th day of May; the 4th day of July; the first Monday in September; the 11th day of November; the fourth Thursday in November; the 25th day of December; and any day designated as a holiday by Federal statute or Executive order.

(b) Executive Order 10358 of June 9, 1952, defines "workday" for holiday purposes to mean those hours which comprise in sequence the employee's regular daily tour of duty within any 24-hour period, whether falling entirely within one calendar day or not, and provides that:

(1) Whenever a holiday falls on a Sunday, Federal offices and establishments shall be closed to public business on the following Monday.

(2) Any employee whose basic workweek does not include Sunday and who would ordinarily be excused from work on a holiday falling within his basic workweek shall be excused from work on the next workday of his basic workweek whenever a holiday falls on Sunday.

(3) Any employee whose basic workweek includes Sunday and who would ordinarily be excused from work on a holiday falling within his basic workweek shall be excused from work on the next workday of his basic workweek whenever a holiday falls on a day that has been designated by the agency as his "regular" weekly nonworkday in lieu of Sunday.

(4) Any employee who would ordinarily be excused from work on a holiday falling within his basic workweek shall be excused from work on the next workday of his basic workweek whenever the first Monday of September or the fourth Thursday of November, or any other holiday which always occurs on a specific day of the calendar week (other than Sunday), falls on a day outside the employee's regular basic workweek.

(5) Any employee whose workday covers portions of two calendar days and who would, except for this section, ordinarily be excused from work scheduled for the hours of any calendar day on which a holiday falls, shall instead be excused from work on his entire workday which commences on any such calendar day, or on a day treated as a holiday under this section.

In the case of employees whose regularly scheduled basic workweek includes both Sunday and Monday, either day, as determined by the head of the department, but not both days, shall be treated as a holiday when a holiday falls on Sunday. In the case of employees whose regularly scheduled basic workweek includes Sunday but not Monday, only Sunday shall be treated as a holiday when a holiday falls on Sunday.

§ 25.242 *Authorization of holiday pay.* (a) Any officer or employee who is excused from duty because of a holiday falling within his basic 40-hour workweek shall be entitled to only his rate of basic compensation for that day.

(b) Except as otherwise provided in this subpart, any officer or employee who is assigned to duty on a holiday which is not overtime work as defined in § 25.221 (a) shall be compensated at his rate of basic compensation plus premium compensation for not more than eight hours of such work at a rate equal to his rate of basic compensation.

(c) Any officer or employee assigned to overtime work, as defined in § 25.221 (a), on a holiday shall be compensated at the same rate as for overtime work performed on other days.

(d) Any officer or employee who is assigned to duty on a holiday shall be compensated for at least two hours of such work.

§ 25.243 *Relationship to overtime and night pay.* (a) The premium pay for holidays authorized by § 25.242 shall not be included in the rate of basic compensation in computing any overtime compensation or night pay differential to which the officer or employee may be entitled.

(b) Such premium pay shall not serve to reduce the amount of overtime compensation to which the officer or employee may be entitled during the administrative workweek in which the holiday occurs, and notwithstanding such premium pay, the number of hours of duty on a holiday shall be included in determining for overtime pay purposes the total number of hours of employment performed in the same administrative workweek.

(c) The number of regularly scheduled hours of duty on a holiday falling within the employee's 40-hour basic workweek on which the employee is excused from duty shall be included as a part of the 40-hour basic workweek for overtime pay computation purposes.

(d) Premium pay authorized by section 25.242 shall be in addition to any night pay differential payable under this subpart, but the night pay differential shall not be included in the rate of basic compensation in computing premium pay for holiday duty.

AUTHORITY: §§ 25.201 to 25.243 issued under sec. 605, 59 Stat. 304; 5 U. S. C. 945. Interpret or apply secs. 101–604, 59 Stat. 295–304, and secs. 208–211, 68 Stat. 1111–1112; 5 U. S. C. 901–944.

SPECIAL PROVISIONS FOR CERTAIN TYPES OF WORK—POSITIONS REQUIRING EMPLOYEES TO REMAIN AT THEIR STATIONS DURING LONG DUTY HOURS, A SUBSTANTIAL PART OF WHICH IS STANDBY

§ 25.251 *Authorization of additional annual compensation.* (a) Premium pay on an annual basis may be paid to any officer or employee in a position requiring him to regularly remain at, or within the confines of, his station during longer than ordinary periods of duty, a substantial part of which consists of remaining in a standby status rather than performing work. Such additional compensation on an annual basis takes the place of any other premium compensation prescribed in this subpart. It may not exceed 25 percent of such part of the rate of basic compensation as does not exceed the minimum rate for grade GS–9 in the Classification Act of 1949, as amended.

(b) This permissive authority extends to any department, any judicial or legislative agency to which this section applies (see § 25.201 (b)), and to the municipal government of the District of Columbia. Payment of such additional compensation on an annual basis is subject to the approval of the Civil Service Commission. The Commission has approved payment of such additional compensation at rates and under conditions specified by this subpart. Departments and other agencies are responsible for individual actions within the provisions of this subpart.

§ 25.252 *General restrictions.* (a) No employee shall be paid additional compensation under § 25.251 if such compensation, over a period of time appropriate to reflect the full cycle of his duties and the full range of conditions in his position, would either:

(1) Be less than the premium pay which would otherwise be payable under other sections of this subpart for the hours of actual work customarily required in his position, excluding standby time during which no work is performed, or

(2) Exceed the premium pay which would otherwise be payable under other sections of this subpart for the total hours of duty required in his position, including standby time during which no work is performed.

§ 25.253 *Bases for determining positions for which additional compensation under § 25.251 is authorized.* (a) The requirement of a position that the employee "regularly remain at or within the confines of his station" must meet all the following conditions:

(1) The requirement must be definite and the employee must be officially ordered to remain at his station. The employee's remaining at his station must not be merely voluntary, desirable, or a result of geographic isolation, or solely because the employee lives on the grounds.

(2) The hours during which the requirement is operative must be included in the employee's regularly scheduled hours of duty and his duty tours must be established on a regularly recurring basis over a substantial period of time, generally at least a few months. The requirement must not be occasional, irregular, or for a brief period.

(3) The requirement must be associated with the regularly assigned duties of the employee's job, either as a continuation of his regular work which includes standby time, or as a requirement to stand by at his post to perform his regularly assigned duties if the necessity arises.

(b) "At or within the confines of his station" means one of the following:

(1) At an employee's regular duty station.

(2) In quarters provided by the Government, which are not the employee's ordinary living quarters, and which are specifically provided for use of personnel required to stand by in readiness to perform actual work when the need arises or when called.

(3) In an employee's living quarters, when designated by the department as his duty station and when his whereabouts is narrowly limited and his activities are substantially restricted. This condition exists only during periods when an employee is required to remain at his quarters and is required to hold himself in a state of readiness to answer calls for his services. This limitation on an employee's whereabouts and activities is distinguished from the limitation placed on an employee who is subject to call outside his regular hours of duty but may leave his quarters, provided he arranges for someone else to respond to calls or leaves a telephone number by which he can be reached should his services be required.

(c) "Longer than ordinary periods of duty" are more than 40 hours a week.

(d) "A substantial part of which consists of remaining in a standby status rather than performing work" refers to the entire tour of duty. This condition is met when either:

(1) A substantial part of the whole period of duty, at least 25 percent, is spent in a standby status which occurs throughout the entire tour, or

(2) If certain hours of the tour of duty are regularly devoted to actual work and others are spent in a standby status, that part of the period of duty devoted to standing by is at least 25 percent of the entire period of duty, or

(3) An employee has a regular 40-hour basic workweek requiring full-time performance of actual work and is required, in addition, to perform standby duty on certain nights, or to perform standby duty on certain days not included in his basic workweek.

(e) An employee is "in a standby status" only at times when he is not required to perform actual work and is free to eat, sleep, read, listen to the radio, or engage in other similar pursuits. An employee is performing actual work, rather than being in a standby status, when his full attention is devoted to his work, even though the nature of his work does not require constant activity (for example, a guard on duty at his post and a technician continuously observing instruments are engaged in the actual work of their positions). Actual work includes both work performed during regular work periods and work performed when called out during periods ordinarily spent in a standby status.

§ 25.254 *Rates of additional compensation payable under § 25.251.* (a) The Civil Service Commission has approved the payment of additional compensation under § 25.251 to officers and employees in such positions meeting the requirements of section 401 (1) of the Federal Employees Pay Act of 1945, as amended, and § 25.253 of these regulations as may be designated by the head of any department, of any judicial or legislative agency to which this section applies (see § 25.201 (b)), or of the municipal government of the District of Columbia, provided that the additional compensation under § 25.251 is paid at the following percentages of such part of the rate of basic compensation as does not exceed the minimum scheduled rate of basic compensation provided for grade GS–9 in the Classification Act of 1949, as amended:

(1) Positions with tours of duty of the 24 hours on duty, 24 hours off duty type and with a schedule of: 60 hours a week—5 percent, unless 25 or more hours of actual work is customarily required, in which event—10 percent; 72 hours a week—15 percent, unless 30 or more hours of actual work is customarily required, in which event—20 percent; 84 hours or more a week—25 percent.

(2) Positions with tours of duty requiring the employee to remain on duty during all daylight hours each day, or for 12 hours each day, or for 24 hours each day, with the employee living at his station during the period of his assignment to such tours, and with a schedule of: 5 days a week—5 percent, unless 25 or more hours of actual work is customarily required, in which event—10 percent; 6 days a week—15 percent, unless 30 or more hours of actual work is customarily required, in which event—20 percent; 7 days a week—25 percent.

(3) Positions in which the employee has a regular 40-hour basic workweek requiring full-time performance of actual work, and is required, in addition, to remain on standby duty: 14 to 18 hours a week on regular workdays, or extending into a nonworkday in continuation of a period of duty within the basic workweek—15 percent; 28 or more hours a week on regular workdays, or extending into a nonworkday in continuation of a period of duty within the basic workweek—25 percent; 7 to 9 hours on one or more of his regular weekly nonworkdays—15 percent; 14 or more hours on one or more of his regular weekly nonworkdays—25 percent.

NOTE: The number of days or hours of duty a week for purposes of this section may be the number each week or the average number a week over a reasonable cycle. For example, an employee is considered to be on duty 84 hours a week if (a) this is his actual tour each week, or (b) he is assigned to a regular two-week cycle of 72 hours one week and 96 hours the next week.

(b) If any such department or other agency wishes to pay additional compensation under § 25.251 to an employee in a position meeting the requirements of section 401 (1) of the Federal Employees Pay Act of 1945, as amended, and these regulations, and no approved rate in paragraph (a) of this section is applicable, or if unusual conditions are present which seem to make the applicable rate unsuitable, the department or other agency should propose a rate of additional compensation for the Commission's approval. The proposal should include full information bearing on the scheduled hours of duty; the number of hours of actual work required and how it is distributed over the time on duty; the number of hours in a standby status required and the extent to which the employee's whereabouts and activities are restricted during standby periods; the extent to which the assignment is made more onerous by night or holiday duty or by hours of duty beyond 40 a week; and any other pertinent conditions.

SPECIAL PROVISIONS FOR CERTAIN TYPES OF WORK—POSITIONS IN WHICH THE HOURS OF DUTY CANNOT BE CONTROLLED ADMINISTRATIVELY, AND WHICH REQUIRE SUBSTANTIAL AMOUNTS OF IRREGULAR, UNSCHEDULED, OVERTIME, NIGHT, AND HOLIDAY DUTY

§ 25.261 *Authorization of additional annual compensation.* (a) Premium pay on an annual basis may be paid to any officer or employee in a position in which the hours of duty cannot be controlled administratively, and which requires substantial amounts of irregular, unscheduled overtime duty and duty at night and on holidays with the officer or employee generally being responsible for recognizing, without supervision, circumstances which require him to remain on duty. Such additional compensation on an annual basis takes the place of any other premium compensation prescribed in this subpart except premium compensation for regularly scheduled overtime duty. It may not exceed 15 percent of such part of the rate of basic compensation as does not exceed the minimum rate for grade GS–9 in the Classification Act of 1949, as amended.

(b) This permissive authority extends to any department, any judicial or legislative agency to which this section applies (see § 25.201 (b)), and to the municipal government of the District of Columbia. Payment of such additional compensation on an annual basis is subject to the approval of the Civil Service Commission. The Commission has approved payment of such additional compensation at the rate and under conditions specified in this subpart. Departments and other agencies are responsible for individual actions within the provisions of this subpart.

§ 25.262 *General restriction.* No employee shall be paid additional annual compensation under § 25.261 if such compensation would, over a period of time appropriate to reflect the full cycle of his duties and the full range of conditions in his position, exceed the premium pay which would otherwise be payable under other sections of this subpart for the hours of duty required in his position, exclusive of regularly scheduled overtime duty.

§ 25.263 *Bases for determining positions for which additional compensation under § 25.261 is authorized.* (a) By the nature of the work of such positions, "the hours of duty cannot be controlled administratively."

(1) One typical job situation in which the hours of duty cannot be controlled administratively: (i) The hours of duty of an investigator of criminal activities are governed by what criminals do and when they do it. He is often required to perform such duties as shadowing suspects, working incognito among those under suspicion, searching for evidence, meeting informers, making arrests, and interviewing persons having knowledge of criminal or alleged criminal activities. His hours on duty and place of work depend on the behavior of the criminals or suspected criminals and cannot be controlled administratively.

(ii) In such a situation, hours of duty cannot be controlled by such administrative devices as hiring additional personnel; rescheduling the hours of duty (which can be done when, for example, a type of work occurs primarily at certain times of the day); or granting compensatory time off duty to offset overtime hours required.

(b) In order to satisfactorily discharge the duties of such positions, employees are required to perform substantial amounts of "irregular, unscheduled, overtime duty, and duty at night and on holidays."

(1) A substantial amount of irregular, unscheduled, overtime duty means an average of at least six hours of such overtime duty a week.

(2) The irregular, unscheduled, overtime duty is a continual requirement, generally averaging more than once a week.

(3) There must be a definite basis for anticipating that the irregular, unscheduled, overtime duty will continue over an appropriate period of time with a duration and frequency sufficient to meet the requirements under subparagraphs (1) and (2) of this paragraph and that night and holiday duty will be performed from time to time.

(c) The employee generally is "responsible for recognizing, without supervision, circumstances which require him to remain on duty."

(1) The responsibility for an employee remaining on duty when required by circumstances must be a definite, official, and special requirement of his position.

(2) The employee must remain on duty not merely because it is desirable, but because of compelling reasons inherently related to continuance of his duties, and of such a nature that failure to carry on would constitute negligence.

(3) "Recognition of circumstances" does not include such clear-cut instances as, for example, when an employee must continue working because a relief fails to report as scheduled.

(4) (i) "Circumstances which require an employee to remain on duty" means requiring the employee to continue on duty in continuation of a full daily tour, or that, after the end of the regular workday, the employee resumes duty in accordance with prearranged plans or an awaited event. Performance of only call-back overtime assignments, referred to in § 25.222 (f) of this subpart, does not meet the requirement.

(ii) The requirement is that the employee remain on duty in continuation of a full, regularly scheduled, daily tour of duty. The employee has no choice as to when or where he may perform the work. This differs from a situation in which an employee has the option of taking work home or doing it at the office; or doing it in continuation of his regular hours of duty or later in the evening. It also differs from a situation in which an employee has such latitude in his working hours, as when in a travel status, that he may decide to begin work later in the morning and continue working later at night to better accomplish a given objective.

§ 25.264 *Rates of additional compensation payable under § 25.261.* (a) The Civil Service Commission has approved the payment of additional compensation under § 25.261 to officers and employees in such positions meeting the requirements of section 401 (2) of the Federal Employees Pay Act of 1945, as amended, and § 25.263 as may be designated by the head of any department, of any judicial or legislative agency to which this section applies (see § 25.201 (b)), or of the municipal government of the District of Columbia, provided that the additional compensation under § 25.261 is paid at the rate of 15 percent of such part of the rate of basic compensation as does not exceed the minimum scheduled rate for grade GS–9 in the Classification Act of 1949, as amended.

(b) If any such department or other agency wishes to pay additional compensation under § 25.261 to an employee in a position meeting the requirements of section 401 (2) of the Federal Employees Pay Act of 1945, as amended, and the regulations in this part, and if unusual conditions are present which seem to make the approved rate in paragraph (a) of this section unsuitable, the department or other agency should propose a lesser rate of additional compensation for the Commission's approval. The proposal should include full information bearing on the frequency and duration of irregular, unscheduled, overtime duty and the night and holiday duty required; the nature of the work which prevents hours of duty from being controlled administratively; the necessity for the employee's being generally responsible for recognizing, without supervision, circumstances which require him to remain on duty; and any other pertinent conditions.

SPECIAL PROVISIONS FOR CERTAIN TYPES OF WORK—RESPONSIBILITIES OF DEPARTMENTS AND GENERAL RULES GOVERNING PAYMENTS

§ 25.271 *Responsibilities of the departments.* The head of each department, judicial or legislative agency to which this section applies (see § 25.201 (b)), and the municipal government of the District of Columbia is responsible for:

(1) Fixing tours of duty; ordering employees, as he deems necessary, to remain at their stations in a standby status; and placing responsibility on employees, as he deems necessary, for remaining on duty when required by circumstances.

(2) Determining, in accordance with the provisions of section 401 (1) and section 401 (2) of the Federal Employees Pay Act of 1945, as amended, and these regulations, which employees shall receive additional compensation under § 25.251 or § 25.261. These determinations shall not be retroactive.

(3) Determining the number of hours of actual work to be customarily required in positions involving longer than ordinary periods of duty, a substantial part of which consists of standby duty. This determination shall be based on consideration of the time required by regular, repetitive operations, available records of the time required in the past by other activities, and any other information bearing on the number of hours of actual work which may reasonably be expected to be required in the future.

(4) Determining the number of hours of irregular, unscheduled, overtime duty to be customarily required in positions which require substantial amounts of irregular, unscheduled, overtime duty, and duty at night and on holidays with the employee generally being responsible for recognizing, without supervision, circumstances which require him to remain on duty. This determination shall be based on consideration of available records of the hours of irregular, unscheduled, overtime duty required in the past and any other information bearing on the number of hours of such duty which may reasonably be expected to be required in the future.

(5) Determining the rate of additional compensation approved by the Civil Service Commission that is applicable to each employee compensated under § 25.251 or § 25.261; or if no approved rate is applicable, proposing a rate of additional compensation to the Civil Service Commission for approval.

(6) Reviewing determinations under subparagraphs (2), (3), (4), and (5) of this paragraph at appropriate intervals, and discontinuing payments or revising rates of additional compensation in each instance where such action is necessary to meet the requirements of section 401(1) or section 401(2) of the Federal Employees Pay Act of 1945, as amended, and the regulations in this part.

§ 25.272 *Payment provisions.* (a) Except as otherwise provided in this section, an employee's additional compensation under § 25.251 or § 25.261 shall begin on the date that he enters on duty in the position concerned for purposes of basic compensation, and shall cease on the date that he ceases to be paid basic compensation in the position.

(b) An employee in a position in which conditions warranting additional compensation under § 25.251 or § 25.261 exist only during a certain period of the year, such as during a given season, shall be paid such additional compensation only during the period he is subject to such conditions.

(c) An employee in a position in which he is receiving additional compensation under § 25.251 or § 25.261, temporarily assigned to duties in which conditions do not warrant such additional compensation, shall continue to receive such additional compensation, at the discretion of the head of the department, for not more than 14 consecutive calendar days, and for a total of not more than 30 working days in any calendar year.

(d) During periods when an employee is not entitled to receive additional compensation under § 25.251 or § 25.261, he shall be paid for overtime, night and holiday duty in accordance with other sections of this subpart.

(e) Payments of additional compensation under § 25.251 or § 25.261 shall continue during periods of leave with pay taken during periods in which additional compensation under sections is payable in accordance with paragraphs (a), (b), and (c) of this section.

§ 25.273 *Relationship to other payments.* (a) Employees receiving additional compensation under § 25.251 shall not receive premium compensation for overtime, night, and holiday duty under any other sections of this subpart.

(b) Employees receiving additional compensation under § 25.261 shall not receive premium compensation for irregular, unscheduled overtime duty or duty at night or on holidays under any other sections of this subpart, but shall be paid under other sections of this subpart for regularly scheduled overtime duty.

(c) Overtime, night, or holiday services compensated under any statute other than the Federal Employees Pay Act of 1945, as amended, shall not be considered as a basis for payment of additional compensation under § 25.251 or § 25.261.

(d) Additional compensation under § 25.251 or § 25.261 is not base pay, and is not included in the base used in computing retirement deductions, foreign and territorial allowances and differentials, or any other benefits or deductions that are computed on base pay alone.

§ 25.274 *Maintenance of existing aggregate rate of compensation.* The provisions of § 25.251 and § 25.261 shall not operate to decrease the existing aggregate rate of compensation of any present employee.

AUTHORITY: §§ 25.251 to 25.274 issued under sec. 605, 59 Stat. 304 and sec. 208, 68 Stat. 1111; 5 U. S. C. 945. Interpret or apply secs. 101–604, 59 Stat. 295–304 and secs. 208–211, 68 Stat. 1111–1112; 5 U. S. C. 901–944.

Chapter III—Foreign and Territorial Compensation

[Dept. Reg. 108.233]

PART 325—ADDITIONAL COMPENSATION IN FOREIGN AREAS

DESIGNATION OF DIFFERENTIAL POSTS

Section 325.11 *Designation of differential posts,* is amended as follows, effective as of the beginning of the first pay period following November 6, 1954.

1. Paragraph (a) is amended by the deletion of the following post:

Rangoon, Burma.

2. Paragraph (b) is amended by the addition of the following post:

Rangoon, Burma.

(Sec. 102, Part I, E. O. 10000, 13 F. R. 5453, 3 CFR, 1948 Supp.)

For the Acting Secretary of State.

I. W. CARPENTER, Jr.,
Assistant Secretary.

OCTOBER 23, 1954.

TITLE 6—AGRICULTURAL CREDIT

Chapter IV—Commodity Stabilization Service and Commodity Credit Corporation, Department of Agriculture

Subchapter B—Loans, Purchases, and Other Operations

[1954 C. C. C. Grain Price Support Bulletin 1, Supp. 2, Amdt. 3, Rye]

PART 421—GRAINS AND RELATED COMMODITIES

SUBPART—1954-CROP RYE LOAN AND PURCHASE AGREEMENT PROGRAM

BASIC COUNTY SUPPORT RATES

The regulations issued by the Commodity Credit Corporation and the Commodity Stabilization Service published in 19 F. R. 1810, 3124, 4178, 4399, 5079, 5593 and 5594, and containing the specific requirements of the 1954-Crop Rye Price Support Program are amended by establishing basic support rates for three additional counties in Texas as follows:

Section 421.608 (d) (2) (i) is amended by adding to the list of counties and basic county support rates, the following Texas counties and rates per bushel:

Lynn	$1.35
Terry	1.35
Yoakum	1.35

(Sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 101, 401, 63 Stat. 1051, 1054; 15 U. S. C. 714c, 7 U. S. C., 1441, 1421)

Issued this 27th day of October 1954.

[SEAL] H. L. MANWARING,
Acting Executive Vice President, Commodity Credit Corporation.

[F. R. Doc. 54–8597; Filed, Nov. 1, 1954; 8:50 a. m.]

[1954 C. C. C. Grain Price Support Bulletin 1, Supp. 1, Amdt. 3, Flaxseed]

PART 421—GRAINS AND RELATED COMMODITIES

SUBPART—1954-CROP FLAXSEED PRICE SUPPORT PROGRAM

MISCELLANEOUS AMENDMENTS

The regulations issued by the Commodity Credit Corporation and the Commodity Stabilization Service published in 19 F. R. 1578, 2714 and 2843, and containing the specific requirements for the 1954-crop flaxseed price support program are amended by changing three sections to provide price support for flaxseed grading "Sample" on the factor of test weight only, but otherwise grading No. 2 or better and having a test weight of not less than 40 pounds per bushel.

1. Section 421.653 (c) is amended to read as follows:

(c) The flaxseed must be flaxseed grading No. 2 or better, or flaxseed grading "Sample" on the factor of test weight only, but otherwise grading No. 2 or better and having a test weight of not less than 40 pounds per bushel.

2. Section 421.655 (c) is amended to read as follows:

(c) When the quantity of flaxseed is determined by measurement, a bushel shall be 1.25 cubic feet of flaxseed testing 56 pounds per bushel. The quantity determined shall be the following percentages of the quantity determined for 56-pound flaxseed:

For flaxseed testing:	Percentage
56 pounds or over	100
55 pounds or over, but less than 56 pounds	98
54 pounds or over, but less than 55 pounds	96
53 pounds or over, but less than 54 pounds	94
52 pounds or over, but less than 53 pounds	92
51 pounds or over, but less than 52 pounds	90
50 pounds or over, but less than 51 pounds	88
49 pounds or over, but less than 50 pounds	85
48 pounds or over, but less than 49 pounds	83
47 pounds or over, but not less than 48 pounds	81
46 pounds or over, but less than 47 pounds	79
45 pounds or over, but less than 46 pounds	77
44 pounds or over, but less than 45 pounds	75
43 pounds or over, but less than 44 pounds	73
42 pounds or over, but less than 43 pounds	70
41 pounds or over, but less than 42 pounds	68
40 pounds or over, but less than 41 pounds	66

3. Section 421.658 (d) is amended to read as follows:

(d) *Discounts.* The support rate for No. 2 flaxseed shall be 6 cents per bushel less than the support rate for No. 1 flaxseed. For flaxseed grading "Sample" on the factor of test weight only, but otherwise grading No. 2 or better, the discounts from the support rate for No. 1 flaxseed shall be as follows:

Test weight per bushel (pounds):	Discount per bushel (cents)
46 or over, but less than 47	10
45 or over, but less than 46	14
44 or over, but less than 45	18
43 or over, but less than 44	22
42 or over, but less than 43	26
41 or over, but less than 42	30
40 or over, but less than 41	34

(Sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. 714b. Interpret or apply sec. 5, 62 Stat. 1072; secs. 301, 401, 63 Stat. 1054; 15 U. S. C. 714c, 7 U. S. C. 1447, 1421)

Issued this 27th day of October 1954.

[SEAL] H. L. MANWARING,
Acting Executive Vice President, Commodity Credit Corporation.

[F. R. Doc. 54–8598; Filed, Nov. 1, 1954; 8:50 a. m.]

PART 421—GRAINS AND RELATED COMMODITIES

SUBPART—1954-CROP FLAXSEED LOAN AND PURCHASE AGREEMENT PROGRAM

BASIC COUNTY SUPPORT RATES

The regulations issued by the Commodity Credit Corporation and the Commodity Stabilization Service published in 19 F. R. 1578, 2714, 2843 and *supra,* and containing the specific requirements for the 1954-Crop Flaxseed Price Support Program are amended as follows:

Section 421.658 (c) (1) is amended by adding to the list of basic county support rates, "Texas—Deaf Smith County, $2.75 per bushel."

(Sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. 714b. Interprets or applies sec. 5, 62 Stat. 1072, secs. 301, 401, 63 Stat. 1054; 15 U. S. C. 714c, 7 U. S. C. 1447, 1421)

Issued this 27th day of October 1954.

[SEAL] H. L. MANWARING,
Acting Executive Vice President, Commodity Credit Corporation.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

Subchapter A—Civil Air Regulations

PART 35—FLIGHT ENGINEER CERTIFICATES

REVISION OF PART

Because of the number of outstanding amendments to Part 35, it has been decided to issue a revision of this part, incorporating all amendments thereto in effect on November 1, 1954. The revision also eliminates former § 35.20, which governed the termination of flight engineer certificates issued prior to September 27, 1950 to non-U. S. citizens. Since all such certificates have now expired, the section is without present effect.

Since this revision does not make any substantive change to the Civil Air Regulations, notice and public procedure hereon are unnecessary and the Revised Part may be made effective without prior notice.

In consideration of the foregoing, the Civil Aeronautics Board hereby revises Part 35 of the Civil Air Regulations (14 CFR, Part 35, as amended) as set forth below, effective on November 1, 1954.

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

35.31 Flight time.
35.32 Pilot in command.

AUTHORITY: §§ 35.1 to 35.32 issued under sec. 205, 52 Stat. 984; 49 U. S. C. 425. Inter-

pret or apply secs. 601, 602, 52 Stat. 1007, as amended, 1008; 49 U. S. C. 551, 552.

REQUIREMENTS FOR CERTIFICATE

§ 35.1 *Issuance.* A flight engineer certificate will be issued to an applicant who meets the requirements of §§ 35.2–35.9.

§ 35.2 *Age.* Applicant shall be at least 21 years of age.

§ 35.3 *Citizenship.* An applicant for a flight engineer certificate may be a citizen of any country or a person without nationality.

§ 35.4 *Education.* Applicant shall be able to read, write, speak, and understand the English language.

§ 35.5 *Physical standards.* Applicant shall meet the physical standards of the second class as prescribed in Part 29 of this subchapter: *Provided*, That an applicant who is unable to distinguish aviation signal red, aviation signal green, and white shall be issued an airman certificate appropriately endorsed to prohibit the holder thereof from exercising the privileges of such certificate except under such conditions, or with the use of such equipment, which would not require the ability to distinguish such aviation signal colors.

§ 35.6 *Experience.* Each applicant for a flight engineer certificate shall:

(a) Have had at least 3 years of diversified practical experience in the maintenance and repair of aircraft and aircraft engines, of which one year shall have been in the maintenance and repair of multiengine aircraft of a type used in air carrier operations and having engines rated at least at 800 horsepower each; or

(b) Be a graduate of at least a two-year specialized aeronautical training course in the maintenance, repair, and overhaul of aircraft and aircraft engines, of which at least six months shall be in the maintenance and repair of multiengine aircraft of a type used in air carrier operations and having engines rated at least at 800 horsepower each; or

(c) Have had at least 100 hours of flight experience in the duties of a flight engineer; or

(d) Have satisfactorily completed a course of ground and flight instruction in at least the items specified in § 35.7 which the Administrator has found adequate for the training of a flight engineer; or

(e) Have had at least 200 hours of flight time as pilot in command of an aircraft having 4 engines or more.

§ 35.7 *Knowledge.* Applicant shall pass a written examination on the following subjects pertaining to aircraft having 4 or more engines and certificated in the transport category or to aircraft having 4 or more engines and incorporating a flight engineer station:

(a) Responsibilities and limitations of a flight engineer as specified in the regulations of this subchapter.

(b) Theory of flight and elementary aerodynamics;

(c) Aircraft performance and aircraft engine operation with respect to limitations;

(d) Mathematical computations of engine operation and fuel consumption, including basic meteorology with respect to engine operations;

(e) Aircraft loading and center of gravity computations;

(f) Basic aircraft maintenance and operating procedures.

§ 35.8 *Skill.* Applicant shall pass a practical test in the duties of a flight engineer during flight on an aircraft having 4 or more engines and certificated in the transport category or on an aircraft having 4 or more engines and incorporating a flight engineer station; and shall demonstrate competency with respect to:

(a) Normal duties and procedures relating to aircraft, aircraft engines, propellers, and appliances;

(b) Recognition of the malfunctioning of aircraft, aircraft engines, propellers, and appliances, and the taking of appropriate action thereon;

(c) Emergency duties and procedures relating to aircraft, aircraft engines, propellers, and appliances.

§ 35.9 *Limited certificate.* (a) An applicant may be certificated as a flight engineer for an aircraft having less than 4 engines: *Provided*, That (1) the design of the aircraft incorporates a flight engineer station satisfactory to the Administrator, (2) the applicant meets the requirements of §§ 35.1 through 35.6, and (3) the applicant passes written and practical examinations respecting such aircraft on the subjects listed in §§ 35.7 and 35.8.

(b) A certificate issued under the provisions of this section shall contain an appropriate limitation which may be removed at such time as the holder of the certificate passes the written and practical tests prescribed in §§ 35.7 and 35.8.

CERTIFICATION RULES

§ 35.10 *Application.* Application shall be made on a form and in the manner prescribed by the Administrator.

§ 35.11 *Duration.* (a) A flight engineer certificate issued to a United States citizen shall remain in effect until surrendered, suspended, revoked, or otherwise terminated by order of the Board. A certificate issued to an applicant other than a United States citizen shall remain in effect for a period no longer than 12 months after the date of issuance, but it may be reissued without further demonstration of technical competence.

(b) After revocation, and upon request after suspension, the certificate shall be returned to the Administrator.

(c) Nothing in this section shall be construed to deny or defeat the jurisdiction of the Federal courts, the Administrator, or the Board to impose any authorized sanction, including revocation of the certificate, for a violation of the act or of the regulations in this subchapter occurring during the effective period of the certificate.

§ 35.12 *Temporary certificates.* The Administrator or his authorized representative may issue a temporary flight engineer certificate for a period of not to exceed 90 days, subject to the terms and conditions specified therein by the Administrator.

§ 35.14 *Reexamination after failure.* An applicant who has failed any prescribed written or practical examination or test may not apply for reexamination within a 30-day period unless he presents a statement signed by a certificated flight engineer, a certificated ground instructor, or an equally qualified individual acceptable to the Administrator, which attests that the applicant has received an additional 5 hours of instruction in each of the subjects failed and that the applicant is considered competent for reexamination.

§ 35.15 *Certificate.* No individual shall serve in the flight crew as a flight engineer unless he has in his personal possession while so serving a valid flight engineer certificate issued by the Administrator.

§ 35.16 *Medical certificate and renewal.* No individual shall exercise the privileges of a flight engineer certificate unless he has in his personal possession while so serving a medical certificate or other evidence satisfactory to the Administrator showing that he has met the physical requirements appropriate to his certificate within the preceding 12 calendar months.

§ 35.17 *Certificate display.* A flight engineer shall, upon request, present his airman and medical certificates for examination by any representative of the Civil Aeronautics Board or Administrator or by any State or local law enforcement officer.

§ 35.18 *Operation during physical deficiency.* No flight engineer shall exercise the privileges of his airman certificate during any period of known physical deficiency or increase in physical deficiency which would render him unable to meet the physical requirements prescribed for the issuance of his currently effective medical certificate.

§ 35.19 *Change of address.* Within 30 days after any change in the permanent mailing address of a holder of a flight engineer certificate, the holder shall notify the Administrator in writing of such change. Such notice shall be mailed to the Administrator of Civil Aeronautics, Attention Airman Records Branch, Washington 25, D. C.

§ 35.20 *Identification.* The holder of a certificate issued under the provisions of this part shall not, except while engaged in operations conducted by a scheduled air carrier, exercise the privileges conferred by the certificate unless he has in his personal possession a current airman identification card or other identification card acceptable to the Administrator which duly describes him. The airman identification card may be obtained from the Administrator who shall prescribe its form and the manner of applying for it.

DEFINITIONS

§ 35.30 *Definitions.* As used in this part the words listed shall be defined as indicated in §§ 35.31 and 35.32.

§ 35.31 *Flight time.* Flight time shall mean the total time from the moment the aircraft first moves under its own power for the purpose of flight until the moment it comes to rest at the end of the flight (block to block).

§ 35.32 *Pilot in command.* Pilot in command shall mean the pilot responsible for the operation and safety of the aircraft during the time defined as flight time.

[F. R. Doc. 54-8508; Filed, Nov. 1, 1954; 8:45 a. m.]

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 6119]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

CALVINE COTTON MILLS, INC.

Subpart—*Using, selling, or supplying lottery devices:* § 3.2480 *In merchandising.* In connection with the offering for sale, sale, and distribution of tobacco seed bed covers or any other merchandise in commerce: (1) Advertising or using any sales promotion plan or scheme whereby purchasers of its said products are entitled to participate in a drawing for prizes, the award of which is or will be dependent on lot or chance; and (2) selling or otherwise disposing of any merchandise through the use of, or by means of, a game of chance, gift enterprise, or lottery scheme; prohibited.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interprets or applies sec. 5, 38 Stat. 719 as amended; 15 U. S. C. 45) [Cease and desist order, Calvine Cotton Mills, Inc., West New York, N. J., Docket 6119, Sept. 23, 1954]

This proceeding was heard by Everett F. Haycraft, hearing examiner, upon the complaint of the Commission, charging respondent with the use of unfair acts and practices in commerce in violation of the provisions of the Federal Trade Commission Act, respondent's answer denying the material allegations of the complaint, and a hearing at which a stipulation was entered into and read into the record.

By said stipulation it was stipulated and agreed that a statement of facts, signed and executed by counsel supporting the complaint and by counsel for respondent, might be taken as the facts in the proceeding and in lieu of evidence in support of the charges stated in the complaint or in opposition thereto, and that said examiner might proceed upon said statement of facts to make his initial decision, stating his findings as to the facts, including inferences which he might draw from said stipulation of facts and his conclusions based thereon, both counsel reserving the right to submit proposed findings and conclusion, including memorandum on the law, and requesting oral argument on the proposed findings.

Thereafter, oral argument having been had on the proposed findings which had been submitted by counsel as stipulated, and four exhibits having been received in evidence, the proceeding regularly came on for final consideration by said examiner upon the complaint, answer, stipulation, and exhibits, and said examiner having approved said stipulation, after duly considering the record in the matter, found that the proceeding was in the interest of the public and made his initial decision [1] comprising certain findings as to the facts, conclusion drawn therefrom, and order.

Thereafter, following the Commission's review of said initial decision, the matter was disposed of by "Order Adopting Initial Decision As Commission Decision and Order To File Report of Compliance", dated September 23, 1954, as follows:

This matter having come on to be heard by the Commission upon its review of the hearing examiner's initial decision herein; and

The Commission having issued a tentative order modifying said initial decision in certain respects and having afforded respondent and counsel supporting the complaint opportunity to present any objections they may have to the proposed modification, and counsel supporting the complaint having filed his objections to the proposed modification; and

The Commission having further considered the entire record herein and now being of the opinion that the hearing examiner's initial decision is adequate and appropriate to dispose of this proceeding:

It is ordered, That the initial decision of the hearing examiner shall, on September 23, 1954, become the decision of the Commission.

It is further ordered, That respondent, Calvine Cotton Mills, Inc., shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with the order to cease and desist.

The order to cease and desist in said initial decision, thus made the decision of the Commission, is as follows:

It is ordered, That the respondent Calvine Cotton Mills, Inc., a corporation, its officers, representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale, and distribution of tobacco seed bed covers or any other merchandise in commerce as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Advertising or using any sales promotion plan or scheme whereby purchasers of its said products are entitled to participate in a drawing for prizes, the award of which is or will be dependent on lot or chance.

2. Selling or otherwise disposing of any merchandise through the use of, or by means of, a game of chance, gift enterprise or lottery scheme.

Issued: September 23, 1954.

By the Commission.[2]

[SEAL] ROBERT M. PARRISH, *Secretary.*

TITLE 15—COMMERCE AND FOREIGN TRADE

Chapter III—Bureau of Foreign Commerce, Department of Commerce

Subchapter B—Export Regulations

[7th Gen. Rev. of Export Regs., Amdt. 12 [1]]

PART 370—SCOPE OF EXPORT CONTROL BY DEPARTMENT OF COMMERCE

PART 371—GENERAL LICENSES

PART 373—LICENSING POLICIES AND RELATED SPECIAL PROVISIONS

PART 379—EXPORT CLEARANCE

PART 382—DENIAL OR SUSPENSION OF EXPORT PRIVILEGES

MISCELLANEOUS AMENDMENTS

1. Section 370.4 *Exportations authorized by government agencies other than Bureau of Foreign Commerce* paragraph (b) *Gold* is amended by changing the words "80 percent" to read: "90 percent". The remainder of the paragraph is unchanged.

2. Section 371.2 *General provisions* paragraph (c) *Applicability* is amended by deleting subdivision (ii) of subparagraph (1) *Prohibited shipments.*

3. Section 371.4 *Reexportation from country of destination* is amended in the following particulars:

a. The words "or in § 371.8 (c)" are added at the end of paragraph (a) *Prohibited reexportations.*

b. The last words of Note 2 *Optional ports of unlading* are amended to read as follows: "as provided by Note 1 following § 379.2 (a) (2) (iii) of this subchapter."

4. section 371.8 *General license GRO; shipments of non-Positive List commodities* is amended in the following particulars:

a. Paragraph (b) *Quaternary ammonium compounds* is deleted.

b. A new paragraph (c) is added to read as follows:

(c) *Shipments to redistribution points.* (1) Exportations may be made under this general license to a free zone or other redistribution point for redistribution to a destination not identified on the export documents, provided that neither the redistribution point nor the destination to which the commodities are distributed is included in paragraph (a) (2) of this section, except that commodities listed in § 371.23 may be redistributed to Hong Kong.

(2) For such exportations, the shipper's export declaration and the bill of lading covering the shipment must show as the ultimate destination, the country from which distribution will be made followed by the words "For redistribution to other countries." In addition, both documents shall include this statement: "None of this merchandise will be shipped to Macao, a Soviet Bloc destination, or a Communist-controlled area in the Far East, and none of these commodities except commodities listed in § 371.23 will be shipped to Hong Kong."

[1] This amendment was published in Current Export Bulletin No. 739, dated October 21, 1954.

This statement shall be placed in the commodity description item of these documents.

5. Section 371.21 *General license GIFT; shipments of gift parcels* is amended in the following particulars:

Subparagraph (2) *Commodity limitations* of paragraph (c) *Commodity, weight, and other limitations* is amended to read as follows:

(2) *Commodity limitations.* Commodities which may be included in each gift parcel under this general license are restricted to those normally sent as gifts, such as food, clothing, toilet articles, and medicinals and pharmaceutical preparations in dosage form (other than Gamma Globulin, Schedule B No. 812100). The export of military wearing apparel to Hong Kong, Macao, and Subgroup A destinations under this general license is specifically prohibited, whether or not all distinctive U. S. military insignia, buttons, or other markings are removed.

6. Section 373.24 *Applicability of multiple commodity group provisions to Commodity Group 3 commodities* is deleted.

7. Section 373.25 *Manila or sisal fibers* is deleted.

8. Section 373.33 *Diamonds* paragraph (b) *Application requirements* is amended to read as follows:

(b) *Application requirements.* Separate license applications (Form IT– or FC–419) must be submitted for each Schedule B classification of loose diamonds. Each application must include a detailed statement regarding the end use of the commodity and must contain a complete description of each named commodity or commodities. Give total carat weight, total price, and average price per carat. In the case of dust and powder, give mesh sizes. For compounds, give total carat content and mesh sizes.

9. Section 373.34 *Asbestos and carbon manufactures* is deleted.

10. Section 373.40 *Iron and steel* is amended in the following particulars:

a. Paragraph (b) *Silicon steel materials* is amended to read as follows:

(b) *Silicon steel materials.* In addition to the general provisions contained in paragraph (a) of this section, all license applications to export silicon steel sheets (commonly called electrical sheets) and strip, Schedule B No. 603595, and transformer and choke laminations and core assemblies, Schedule B No. 709920, shall set forth in the commodity description column of Form IT– or FC–419, a complete description of the materials to be exported. The specifications appearing on license applications must agree with those on the supporting documents. The description on the license applications shall include: (1) Thickness of sheet or strip in decimal parts of an inch; and (2) core loss, which shall be indicated in watts per pound at a flux density of 13,000 gausses and at 50 cycles per second. If the core loss appears on the customer's order in metric units or at a flux density, or at cycles other than those shown in the Positive List entries for these items, it should be converted to conform to the Positive List identifications.

b. Paragraph (e) *Applications in excess of quotas: refiling* is deleted.

11. Section 373.41 *Nonferrous commodities, including ores, concentrates, or unrefined products* is amended by deleting paragraphs (a) *Containing lead, molybdenum, and vanadium* and (d) *Zinc scrap.*

12. Section 373.49 *Machinery and parts* is amended in the following particulars:

a. In the unnumbered subparagraph of paragraph (a) *Machinery and equipment* the reference to § 372.3 (c) is amended to read: "§ 372.4 (e)".

b. Subdivision (i), subparagraph (1) *Additional application requirements* of paragraph (b) *Automotive replacement parts* is amended to read as follows:

(1) *Additional application requirements.* (i) An exporter who receives an order, or an inquiry relating to an order, for automotive replacement parts listed in subparagraph (2) of this paragraph to be exported to a destination listed in subparagraph (3) of this paragraph from a consignee with whom he has not previously done business and who has not been approved as an ultimate consignee on an export license issued to him, is required to observe the special provision described below when filing an application for a validated export license to make the proposed shipment.

c. Subparagraph (2) *Commodities* of paragraph (b) is amended to read as follows:

(2) *Commodities.* The provisions of this paragraph are applicable to applications for licenses to export the following commodities to the destinations set forth in subparagraph (3) of this paragraph:

Schedule B No.	Commodity
706305	Sealed beam head lamps suitable for mounting on automotive vehicles.
709100	Ball bearings, and specially fabricated parts except balls (automotive only).
709200	Roller bearings, and specially fabricated parts except rollers (automotive only)
709310	Balls for bearings (automotive only).
709315	Rollers for bearings (automotive only).
	Parts for commercial automobiles, trucks, and busses:
	Engines for replacement (motor truck, bus, and passenger car):
791240	Diesel and semi-Diesel.
791250	Gasoline.
791280	Leaf springs, and spring leaves, for replacement.
792020	Parts, n. e. c., specially fabricated, for spares, replacement, or manufacture into larger components, except: air cleaners; brake extension handles; bumpers; door locks; gas tank caps; horns; hub caps; hydraulic truck dumping hoists; oil filter clamps, oil filters; oil purifiers; oil rectifiers; parking lights; radiator caps; radiator ornaments; reflex signs, road traffic; stop lights; thermostats; third axle assemblies; windshield wipers; and specially fabricated parts for the excepted items.

d. In subparagraph (4) *Permitted substitutions* of paragraph (b) the Schedule B numbers 709220 and 791193 are deleted from the first sentence.

13. Section 373.51 *Radio and electronic tubes* is amended to read as follows:

§ 373.51 *Radio, electronic and cathode ray tubes.* All license applications to export radio, electronic and cathode ray tubes, Schedule B Nos. 707803, 707812, 707820 and 707830, must show, in the commodity description column of Form IT– or FC–419, the type numbers of the tubes and quantity of each type of tube, and the total quantity and price for each Schedule B number. Where the commodity description column of the Form IT– or FC–419 is inadequate, this information may be listed on an attachment, in duplicate, to Form IT– or FC–419.

14. Section 373.55 *Chemicals and medicinals* is amended by deleting paragraph (b) *Bismuth salts and compounds.*

15. Section 373.71 *Supplement 1; Time schedules for submission of applications for licenses to export certain Positive List commodities* is amended to read as follows:

§ 373.71 *Supplement 1.*

TIME SCHEDULES FOR SUBMISSION OF APPLICATIONS FOR LICENSES TO EXPORT CERTAIN POSITIVE LIST COMMODITIES [1]

FOURTH QUARTER OF 1954 AND FIRST QUARTER OF 1955

Dept. of Commerce Schedule B No.	Commodity	Submission dates	
		Fourth quarter, 1954	First quarter, 1955
619159	Selenium powder	Sept. 1–15, 1954	Dec. 1–15, 1954
623098	Ferroselenium		
664998	Selenium metal, except selenium-bearing scrap materials		
829810	Selenium-containing rubber compounding agents not of coal tar origin: accelerators		
839750	Selenium salts of organic compounds		
839900	Selenium salts and compounds, including selenium dioxide		
842900	Selenium-containing pigments		

[1] Applications for licenses to export commodities for which no specified filing dates are announced may be submitted at any time (see § 372.5 (c) of this subchapter). Export applications for commodities requiring a validated license when moving in transit through the United States may be submitted at any time and are not subject to specified filing dates (see § 372.6 of this subchapter).

16. Section 379.2 *Authenticated shipper's export declaration,* paragraph (a) *Procedure for authentication* is amended in the following particulars:

a. A new note is added following the present note after subdivision (iii) of subparagraph (2) *Information required on declaration* to read as follows:

2. Shipments to redistribution points under general license GRO. Where a shipment is made to a free zone or other redistribution point pursuant to the provisions of

This amendment shall become effective as of October 21, 1954.

(Sec. 3, 63 Stat. 7; 65 Stat. 43; 67 Stat. 62; 50 U. S. C. App. Sup. 2023. E. O. 9630, Sept. 27, 1945, 10 F. R. 12245, 3 CFR, 1945 Supp.; E. O. 9919, Jan. 3, 1948, 13 F. R. 59, 3 CFR, 1948 Supp.)

[7th Gen. Rev. of Export Regs., Amdt. P. L. 9 [1]]

PART 399—POSITIVE LIST OF COMMODITIES AND RELATED MATTERS

MISCELLANEOUS AMENDMENTS

Section 399.1 *Appendix A—Positive List of Commodities* is amended in the following particulars:

1. The following commodities are added to the Positive List:

Dept. of Commerce Schedule B No.	Commodity	Unit	Processing code and related commodity group	GLV dollar value limits	Validated license required
776990	Physical properties testing and inspecting machines, n. e. c., and specially fabricated parts and accessories, n. e. c.:				
	Testing and inspecting machines incorporating transonic, supersonic or ultrasonic generators designed for operation at 1,700 cycles per second or over, and specially fabricated parts, n. e. c.[4]		GIEQ	None	RO
	Chemical and pharmaceutical processing and manufacturing machines, n. e. c., and specially fabricated parts, n. e. c.: Crystal pulling machines, and specially fabricated parts, n. e. c.; machines which, according to type of furnace, e.g., electric melting and refining furnaces for the production of chemicals, 707415):				
775055	Oxygen-production equipment, atmospheric process [1]		GIEQ 1	500	RO
775330	Processing vessels, non-mixing, n. e. c. (specify by name): Processing vessels, suitable for containment of explosives, and specially fabricated parts therefor.[1]		GIEQ 1	250	RO
802590	Coal-tar intermediates, except coal-tar acids: Other coal-tar intermediates (specify by name): N-Methylaniline (monomethylaniline) [1]	Lb.	ORGN	100	RO
910080	Research and development machines, n. e. c., and specially fabricated parts, n. e. c.	No.	SATE	200	RO
910080	Laboratory centrifuges, wholly made of or lined with aluminum, nickel, or alloy containing 60 percent or more nickel.[1] [2]	No.	SATE	None	RO
910080	Laboratory centrifuge bowls, wholly made of or lined with aluminum, nickel, or alloy containing 60 percent or more nickel.[1] [4]	No.	SATE	None	RO

[1] This commodity is subject to the IC/DV procedure (see § 373.2 of this subchapter), effective December 6, 1954.
[2] This commodity is subject to DL restrictions (see § 374.2 of this subchapter), and is excepted from the Time Limit licensing procedure (see Part 377 of this subchapter), effective November 20, 1954.
[4] This commodity is excepted from the provisions of General License GIT (see § 371.9 (c) of this subchapter) effective November 20, 1954.
[5] This commodity may be exported under the Foreign Distribution licensing procedure (see Part 378 of this subchapter).

This part of the amendment shall become effective as of 12:01 a. m., October 28, 1954.

[1] This amendment was published in Current Export Bulletin No. 739, dated October 21, 1954.

General License GRO, the redistribution point and the specific certification provided in § 371.8 (c) of this subchapter shall be shown on the shipper's export declaration and related bill of lading.

b. The present note is designated: "1. *Optional ports of unlading.*"

17. Section 382.51 *Table of compliance orders currently in effect denying export privileges* paragraph (b) *Table of compliance orders* is amended in the following particulars:

a. The following entries are added:

Name and address	Effective date of order	Expiration date of order	Export privileges affected	FEDERAL REGISTER citation
Alvarez, Gabino, Alvarez, Manuel, officers of Laminadoras Unidas, S. A., Av. Ferrocarril No. 9, Col., Moctezuma, Mexico, D. F., Mexico. Calif. Trading Co., 8845 Olympic Blvd., Los Angeles, Calif.	10– 7–54	← 7–55	General and validated, all commodities, any destination, including Canada. (On probation for additional period 4–8–55—10–7–55.)	19 F. R. 6533, 10–9–54.
	10– 7–54	10– 7–55	General and validated, all commodities, any destination, including Canada. (On probation for additional period 10–8–55—4–7–56.)	19 F. R. 6533, 10–9–54.
Echeverria, Pedro, officer of Hierros Laminados, S. A., Av. Henry Ford No. 3309, Col. Bondojito, Villa G. A. Madero, Mexico, D. F., Mexico.	10– 7–54	← 7–55	General and validated, all commodities, any destination, including Canada. (On probation for additional period 4–8–55—10–7–55.)	19 F. R. 6533, 10–9–54.
Infeld, Randolph H., 868 South Norton Ave., Los Angeles 5, Calif.	10– 7–54	2– 7–55	General and validated, all commodities, any destination, including Canada. (On probation for additional period 2–8–55—8–7–55.)	19 F. R. 6533, 10–9–54.
Laminadoras Unidas, S. A., Av. Ferrocarril No. 9, Col. Moctezuma, Mexico, D. F., Mexico.	10– 7–54	← 7–55	General and validated, all commodities, any destination, including Canada. (On probation for additional period 4–8–55—10–7–55.)	19 F. R. 6533, 10–9–54.
Laminados, Hierros, S. A., Av. Henry Ford No. 3309, Col. Bondojito, Villa G. A. Madero, Mexico, D. F., Mexico.	10– 7–54	← 7–55	do	19 F. R. 6533, 10–9–54.
Laminadores, Hierros, S. A., Av. Henry Ford No. 3309, Col. Bondojito, Villa G. A. Madero, Mexico, D. F., Mexico.	10– 7–54	← 7–55	do	19 F. R. 6533, 10–9–54.
Pintel, Ignacio, Avenida Mexico 187, Mexico, D. F., Mexico	10– 7–54	2– 7–55	General and validated, all commodities, any destination, including Canada. (On probation for additional period 2–8–55—8–7–55.)	19 F. R. 6533, 10–9–54.
Pintel, Jehoszua, 8845 Olympic Blvd., Los Angeles, Calif.	10– 7–54	10– 7–55	General and validated, all commodities, any destination, including Canada. (On probation for additional period 10–8–55—4–7–56.)	19 F. R. 6533, 10–9–54.
Victor Trading Corp., 8845 Olympic Blvd., Los Angeles, Calif.	10– 7–54	10– 7–55	do	19 F. R. 6533, 10–9–54.

b. The following entries are deleted:

Name and address	Effective date of order	Expiration date of order	Export privileges affected	FEDERAL REGISTER citation
Peralta-Yepiz, Jesus, 607 Aquascalientes Ave., Meadeall, B. C., Mexico.	9–28–53	11–28–53	General and validated, all commodities, any destination, including Canada. (On probation for additional period 11–28–53—9–28–54.)	18 F. R. 6321, 10–2–53.

c. The following entry is amended to read as follows:

Name and address	Effective date of order	Expiration date of order	Export privileges affected	FEDERAL REGISTER citation
Chang, William C., 3611 Sacramento St., San Francisco, Calif.	8–2–54	10–12–54	General and validated, all commodities, any destination, excluding Canada. (On probation for additional period 10–13–54—7–26–55.)	19 F. R. 4972, 8–6–54.

[1] This amendment was published in Current Export Bulletin No. 739, dated October 21, 1954.

2. The following commodities are deleted:

Dept. of Commerce Schedule B No.	Commodity
	Castings, iron and steel, rough and semifinished:
610410	Carbon steel gun castings.[1]
610451	Gun castings, alloy steel, except stainless. (1) [1]
	Forgings, rough and semifinished:
610493	Carbon steel gun forgings.[1]
	Air compressors:
	Stationary, capacity not over 25 cubic feet:
770400	Turbo, centrifugal, and axial flow types of compressors having all flow-contact surfaces made of nickel or alloy containing 60 percent or more nickel (specify type, capacity, inlet pressure, discharge pressure, horsepower, whether all flow-contact surfaces are made of aluminum, nickel, or alloy containing 60 percent or more nickel).
	Portable, capacity under 60 cubic feet:
770610	Turbo, centrifugal, and axial flow types of compressors having either of the following characteristics: (a) capacity over 50 c. f. m. and all flow-contact surfaces made of aluminum; (b) all flow-contact surfaces made of nickel or alloy containing 60 percent or more nickel (specify type, capacity, inlet pressure, discharge pressure, and whether all flow-contact surfaces are made of aluminum, nickel, or alloy containing 60 percent or more nickel).
	Chemical and pharmaceutical processing and manufacturing machines, n. e. c., and specially fabricated parts, n. e. c. (report spinning pumps in 750850; report furnaces under appropriate Schedule B No. according to type of furnace, e. g., electric melting and refining furnaces for the production of chemicals, 707415):
775055	Piping specially fabricated for chemical and pharmaceutical processing and manufacturing machines, and made of or lined with polytetrafluoroethylene (Teflon) or polytrifluorochloroethylene (Kel-F).
	Industrial manufacturing and service-industries machines, n. e. c., and specially fabricated parts, n. e. c. (specify by name):
775998	Piping specially fabricated for industrial manufacturing and service-industries machines, n. e. c., and made of or lined with polytetrafluoroethylene (Teflon) or polytrifluorochloroethylene (Kel-F).
	Parts, for locomotives and railway cars (report electric propulsion motors, generators, and controls in 704330; wheels and axles in 610515–610538):
796154	Frames, cradles, bolsters, or beds for turbine locomotives of a gauge greater than 4 feet 8 inches (1.42 m.) or with an axle load greater than 12 metric tons.
796172	Parts and accessories, n. e. c., specially fabricated for turbine locomotives of a gauge greater than 4 feet 8 inches or with an individual axle load greater than 12 metric tons.

[1] Gun castings require export authorization from the Department of State. (See § 370.4 (a) of this subchapter.) All outstanding license issued by the Department of Commerce remain valid until they expire or are revoked.

This part of the amendment shall become effective as of 12:01 a. m., October 21, 1954.

3. The revised entries set forth below are substituted for entries presently on the Positive List. Where the Positive List contains more than one entry under a Schedule B number, the entry to be superseded is identified by a numerical reference in parentheses following the commodity description in the revised entry:

Dept. of Commerce Schedule B No.	Commodity	Unit	Processing code and related commodity group	GLV dollar value limits	Validated license required
	Pipe tubes, and tubing, n. e. c., new and used (except scrap) (report pipe assemblies specially fabricated for particular machines or equipment as parts of such machines or equipment:				
607430	Mechanical tubing, alloy steel, except stainless, special types only.[2]	Lb.	STEE	100	RO
607500	Pipe and tubing, stainless steel, special types only. (1)[2]	Lb.	STEE	100	RO
607500	Pipe and tubing, other stainless steel containing 1 percent or more nickel. (2) [2]	Lb.	STEE	100	RO
607710	Pipe and tubing, alloy steel, except stainless, special types only.[2]	Lb.	STEE	100	RO
	Wire products, n. e. c. (report wire nails, staples, and spikes in 618267–618274):				
	Wire rope, cord, and cable, except guard rail and insulated (report guard rail in 619065; and insulated rope and strand in 709810–709875):				
619061	Wire rope and cord made of stainless steel [22 a]	Lb.	STEE 21	100	RO
619063	Wire rope and cord made of phosphor bronze [22 a]	Lb.	NONF	100	RO
	Wire strand, including guard rail cable (report strand wire in 608280):				
619065	Wire strand made of stainless steel [22 a]	Lb.	STEE 21	100	RO
619069	Wire strand made of phosphor bronze [22 a]	Lb.	NONF	100	RO
645710	Phosphor bronze cable, bare [22]	Lb.	NONF	100	RO
	Electric industrial heating units and devices, n. e. c., and specially fabricated parts, n. e. c. (specify by name):				
707492	Dielectric dryers [2 23]		ELME 7	250	RO
	Electrical apparatus, n. e. c., and parts, n. e. c. (specify by name):				
709998	Coefficient resistors. (2) [1 10 22]	No.	RARA 52	100	RO
	Internal-combustion engines, n. e. c., and parts, n. e. c.:				
	Diesel and semi-Diesel (specify brake horsepower and r. p. m.):				
714500	Marine, 50 up to and including 200 brake horsepower, when the nonmagnetic content exceeds 50 percent of the total weight. (1) [20]	No.	TRAN	None	RO
714500	Other marine, 50 up to and including 200 brake horsepower (specify brake horsepower). (2) [3]	No.	TRAN	None	R
714620	Other marine, over 200, up to and including 500 brake horsepower (at normal speed), injection type. (2) [3]	No.	TRAN 7	None	R
714640	Other marine, over 500, up to and including 1,000 brake horsepower (at normal speed), injection type. (2) [3]	No.	TRAN 7	None	R
	Other, including tractor engines (specify brake horsepower and r. p. m.):				
714710	50 up to and including 200 brake horsepower [3]	No.	TRAN 7	None	R
714720	Over 200, up to and including 500 brake horsepower (at normal speed), injection type.[3]	No.	TRAN 7	None	R
714740	Over 500, up to and including 1,000 brake horsepower (at normal speed), injection type.[3]	No.	TRAN 7	None	R
715000	Parts and accessories, n. e. c., specially fabricated for diesel engines 50 brake horsepower and over (specify type, brake horsepower, and r. p. m.).[22]		TRAN	500	R
	Power excavators and dredging machines, and parts:				
720122	Excavator-type power cranes and shovels, new (report used in 720160): Other rubber-tired mounted, including truck or wagon mounted, full revolving, convertible, over ½ cubic yard dipper capacity, or over 10 tons crane lifting capacity, new. (2) [18]	No.	CONS 1	None	R
	Power excavators and dredging machines, used and rebuilt (report new in 720112–720147):				
720160	Other rubber-tired mounted power cranes and shovels, including truck or wagon mounted, full revolving, over ½ cubic yard dipper capacity, or over 10 tons crane lifting capacity, used and rebuilt. (2) [18]	No.	CONS 1	None	R
720160	Power cranes and shovels, full revolving, mounted and unmounted, over 5 cubic yard dipper capacity, or over 100 tons crane lifting capacity, used and rebuilt. (3) [18]	No.	CONS 1	None	R
720210	Parts, accessories and attachments, n. e. c., specially fabricated for rubber-tired power cranes and shovels, including truck or wagon mounted, full revolving, over ½ cubic yard dipper capacity, or over 10 tons crane lifting capacity, except airborne. (2) [18]		CONS 1	1,000	R
	Earth and rock drilling machines, n. e. c., and parts, n. e. c.:				
	Rock drill bits, core drill bits, and reamers (including well-drilling machine bits and reamers):				
730870	Rock drill bits and reamers containing tungsten carbide, for rotary type well-drilling machines.[19]	No.	MINE 3	100	RO
730880	Other rock drill bits and reamers for rotary type well-drilling machines.[21]	No.	MINE 3	100	RO
	Power-driven metalworking machine tools (nonportable), and parts:				
744100	Internal grinding machines incorporating high frequency (over 60 cycles) spindles. (1) [18]	No.	TOOL	500	RO
	Accessories and attachments, n. e. c., for power-driven nonportable machine tools, n. e. c.:				
	Accessories and attachments, n. e. c., for machine tools and specially fabricated parts, n. e. c.:				
744383	High frequency grinding wheel spindles and spindle assemblies for internal grinding machines (report internal grinding machines in 744100). [18 22]		TOOL	None	RO

See footnotes at end of table.

Dept. of Commerce Schedule B No.	Commodity	Unit	Processing code and related commodity group	GLV dollar value limits	Validated license required
	Air-conditioning and refrigerating equipment, n. e. c., and parts, n. e. c. (electric, gas, gasoline and kerosene operated):				
764650	Reciprocating compressor units having any of the following characteristics: (a) Designed for a delivery pressure of 450 p. s. i. g. or over and requiring 300 horsepower or over; (b) capable of handling a mass flow of 2,500 pounds per minute, or more, and designed for an intake pressure above atmospheric; (c) a designed capacity of 60 c. f. m. or over and all flow-contact surfaces made of aluminum, nickel or alloy containing 60 percent or more nickel (specify capacity, inlet pressure, discharge pressure, horsepower, whether all flow-contact surfaces are made of aluminum, nickel, or alloy containing 60 percent or more nickel).[20]	No.	GIEQ	None	RO
764710	Centrifugal refrigerating units having any of the following characteristics: (a) Designed for a delivery pressure of 450 p. s. i. g. or over and requiring 300 horsepower or over; (b) capable of handling a mass flow of 2,500 pounds per minute, or more, and designed for an intake pressure above atmospheric; (c) capacity over 35,300 c. f. m. and a compression ratio of 2:1 or more; (d) a designed capacity of 60 c. f. m. or over and all flow-contact surfaces made of aluminum, nickel or alloy containing 60 percent or more nickel (specify capacity, inlet pressure, discharge pressure, horsepower, whether all flow-contact surfaces are made of aluminum, nickel, or alloy containing 60 percent or more nickel).[20]	No.	GIEQ	None	RO
766010	Blowers and fans (turbo, centrifugal, and axial-flow types), specially fabricated for air-conditioning and refrigerating equipment and having any of the following characteristics: (a) Capacity over 35,300 c. f. m. and a compression ratio of 2:1 or more; (b) capable of handling a mass flow of 2,500 pounds per minute, or more, and designed for an intake pressure above atmospheric; (c) a designed capacity of 60 c. f. m. or over and all flow-contact surfaces made of aluminum, nickel or alloy containing 60 percent or more nickel; (d) designed for a delivery pressure of 450 p. s. i. g. or over and requiring 300 horsepower or over; and specially fabricated parts therefor (specify type, capacity, inlet pressure, discharge pressure, horsepower, whether all flow-contact surfaces are made of aluminum, nickel, or alloy containing 60 percent or more nickel).[20]	----------	GIEQ	100	RO
	Industrial process indicating (measuring), recording, and/or controlling instruments, n. e. c., and specially fabricated parts, n. e. c. (for measuring and/or controlling temperatures, pressure, level, flow, humidity, moisture, motion, rotation, gas analysis, chemical properties, and variables) (specify by name):				
766970	Electronic or electrical industrial process control instruments, and specially fabricated parts, n. e. c. (3) [1 20]	----------	GIEQ	50	RO
	Air compressors:				
	Stationary, capacity over 25 cubic feet:				
770500	Centrifugal, axial, rotary and reciprocating compressors having any of the following characteristics: (a) Mainstream internal air flow exceeding a MACH number of 0.7; (b) capacity over 35,300 c. f. m. and a compression ratio of 2:1 or more; (c) capable of handling a mass flow of 2,500 pounds per minute, or more, and designed for an intake pressure above atmospheric; (d) a designed capacity of 60 c. f. m. or over and all flow-contact surfaces made of aluminum, nickel or alloy containing 60 percent or more nickel; (e) designed for a delivery pressure of 450 p. s. i. g. or over, and requiring 300 horsepower, or over (specify type, capacity, inlet pressure, discharge pressure, horsepower, whether all flow-contact surfaces are made of aluminum, nickel or alloy containing 60 percent or more nickel, and if meeting the requirements of (a), the MACH number).[20]	No.	CONS 2	None	RO
	Air compressors—Continued				
	Portable, capacity 60 cubic feet, and over:				
770615	Centrifugal, axial, rotary, and reciprocating compressors having any of the following characteristics: (a) Mainstream internal air flow exceeding a MACH number of 0.7; (b) capacity over 35,300 c. f. m. and a compression ratio of 2:1 or more; (c) capable of handling a mass flow of 2,500 pounds per minute, or more, and designed for an intake pressure above atmospheric; (d) all flow-contact surfaces made of aluminum, nickel or alloy containing 60 percent or more nickel; (e) designed for a delivery pressure of 450 p. s. i. g., or over, and requiring 300 horsepower, or over (specify type, capacity, inlet pressure, discharge pressure, horsepower, whether all flow-contact surfaces are made of aluminum, nickel, or alloy containing 60 percent or more nickel, and if meeting requirements of (a), the MACH number).[20]	No.	CONS 2	None	RO
	Gas compressors, n. e. c.:				
770625	Centrifugal, axial, rotary, and reciprocating compressors having any of the following characteristics: (a) Mainstream internal air flow exceeding a MACH number of 0.7; (b) capacity over 35,300 c. f. m. and a compression ratio of 2:1 or more; (c) capable of handling a mass flow of 2,500 pounds per minute, or more, and designed for an intake pressure above atmospheric; (d) a designed capacity of 60 c. f. m. or over and all flow-contact surfaces made of aluminum, nickel or alloy containing 60 percent or more nickel; (e) designed for a delivery pressure of 450 p. s. i. g., or over, and requiring 300 horsepower, or over (specify type, capacity, inlet pressure, discharge pressure, horsepower, whether all flow-contact surfaces are made of aluminum, nickel, or alloy containing 60 percent or more nickel, and if meeting requirements of (a), the MACH number).[20]	No.	CONS 2	None	RO
770630	Parts, n. e. c. specially fabricated for air and gas compressors included on the Positive List under Schedule B Nos. 770500, 770615, and 770625. (Complete knockdown compressors should be reported in the proper compressor classifications, whether the integral components are shipped simultaneously or in a series of partial shipments.) [20]	----------	CONS 2	500	RO
	Blowers, n. e. c., turboblowers, and parts:				
770700	Centrifugal blowers (except turboblowers) having any of the following characteristics: (a) Capacity over 35,300 c. f. m. and a compression ratio of 2:1 or more; (b) capable of handling a mass flow of 2,500 pounds per minute, or more, and designed for intake pressure above atmospheric; (c) a designed capacity of 60 c. f. m. or over and all flow-contact surfaces made of aluminum, nickel or alloy containing 60 percent or more nickel; (d) designed for a delivery pressure of 450 p. s. i. g., or over, and requiring 300 horsepower, or over (specify type, capacity, inlet pressure, discharge pressure, horsepower, and whether all flow-contact surfaces are made of aluminum, nickel or alloy containing 60 percent or more nickel).[20]	No.	CONS 2	500	RO
770710	Axial blowers (except turboblowers) having any of the following characteristics: (a) Capacity over 35,300 c. f. m. and compression ratio of 2:1 or more, (b) capable of handling a mass flow of 2,500 pounds per minute, or more, and designed for intake pressure above atmospheric; (c) a designed capacity of 60 c. f. m. or over and all flow-contact surfaces made of aluminum, nickel or alloy containing 60 percent or more nickel; (d) designed for a delivery pressure of 450 p. s. i. g., or over, and requiring 300 horsepower, or over (specify type, capacity, inlet pressure, discharge pressure, horsepower, and whether all flow-contact surfaces are made of aluminum, nickel, or alloy containing 60 percent or more nickel).[20]	No.	CONS 2	500	RO

See footnotes at end of table.

Dept. of Commerce Schedule B No.	Commodity	Unit	Processing code and related commodity group	GLV dollar value limits	Validated license required
770920	Pumping equipment, n. e. c.—Continued Rotary pumps (delivering liquids separately or in combination with solids and/or gases) having any of the following characteristics: (1) Designed to produce pressures of 450 p. s. i. or more and with a delivery capacity exceeding 200 g. p. m.; (2) all flow-contact surfaces made of any of the following materials: (a) 90 percent or more tantalum, titanium, or zirconium, either separately or combined; (b) 50 percent or more tantalum, either separately or combined; or (c) 10 percent or more silicon (as metal alloy); (d) 10 percent or more chromium or nickel, either separately or combined; or (e) polytetrafluoroethylene (Teflon) or polytrifluorochloroethylene (Kel-F) (specify type, capacity in g. p. m., delivery pressure and kinds of material).[24]	No.	CONS 3	None	RO
770940	Reciprocating equipment, n. e. c.: Pumps, n. e. c., (delivering liquids separately or in combination with solids and/or gases) having either of the following characteristics: (1) Designed to produce pressures of 450 p. s. i. or more and with a delivery capacity exceeding 200 g. p. m.; (2) all flow-contact surfaces made of any of the following materials: (a) 90 percent or more tantalum, titanium, or zirconium, either separately or combined; (b) 50 percent or more tantalum, either separately or combined; (c) 10 percent or more silicon (as metal alloy); (d) 10 percent or more chromium or nickel, either separately or combined; or (e) polytetrafluoroethylene (Kel-F) (specify type, capacity in g. p. m., delivery pressure and kinds of material).[24]	No.	CONS 3	None	RO
770950	Other reciprocating pumps (delivering liquids separately or in combination with solids and/or gases) having any of the following characteristics: (1) Designed to produce pressures of 450 p. s. i. or more and with a delivery capacity exceeding 200 g. p. m.; (2) all flow-contact surfaces made of any of the following materials: (a) 90 percent or more tantalum, titanium, or zirconium, either separately or combined; (b) 50 percent or more tantalum, either separately or combined; (c) 10 percent or more silicon (as metal alloy); (d) 10 percent or more chromium or nickel, either separately or combined; or (e) polytetrafluoroethylene (Kel-F) (specify type, capacity in g. p. m., delivery pressure and kinds of material).[24]	No.	CONS 3	None	RO
770960	Centrifugal pumps (delivering liquids separately or in combination with solids and/or gases) having any of the following characteristics: (1) Designed to produce pressures of 450 p. s. i. or more and with a delivery capacity exceeding 200 g. p. m.; (2) all flow-contact surfaces made of any of the following materials: (a) 90 percent or more tantalum, titanium, or zirconium, either separately or combined; (b) 50 percent or more tantalum, either separately or combined; (c) 10 percent or more silicon (as metal alloy); (d) 10 percent or more chromium or nickel, either separately or combined; or (e) polytetrafluoroethylene (Kel-F) (specify type, capacity in g. p. m., delivery pressure and kinds of material).[24]	No.	CONS 3	None	RO
770980	Pumps, n. e. c. (delivering liquids separately or in combination with solids and/or gases) having any of the following characteristics: (1) Designed to produce pressures of 450 p. s. i. or more and with a delivery capacity exceeding 200 g. p. m.; (2) designed for an intake pressure above atmospheric; (3) all flow-contact surfaces made of any of the following materials: (a) 90 percent or more tantalum, titanium, or zirconium, either separately or combined; (b) 50 percent or more tantalum, either separately or combined; (c) 10 percent or more silicon (as metal alloy); (d) 10 percent or more chromium or nickel, either separately or combined; or (e) polytetrafluoroethylene (Kel-F) (specify type, capacity in g. p. m., delivery pressure and kinds of material).[24]	No.	CONS 3	None	RO

[1] The GLV dollar-value limit is increased.
[2] The GLV dollar-value limit is decreased, effective October 28, 1954.
[3] The processing code is changed or related commodity group number is changed (see § 372.5 (f) of this subchapter).
[5] The letter "A" is deleted in the column headed "Commodity Lists," indicating that the commodity is no longer subject to the IC/DV procedure (see § 373.2 of this subchapter).
[10] The letter "E" is added in the column headed "Commodity Lists," indicating that the commodity may be exported under the Periodic Requirements licensing procedure (see Part 376 of this subchapter).
[12] The letter "P" is added in the column headed "Commodity Lists," indicating that the commodity may be exported under the Foreign Distribution licensing procedure (see Part 378 of this subchapter).
[17] The destination control is changed from RO to R.
[18] The commodity description is revised without substantive change.
[19] The unit of quantity is changed.
[22] The commodity coverage is decreased.
[23] For the most part the commodity coverage is decreased; however, the revised entry also reflects some minor increase in commodity coverage. The added coverage is effective October 28, 1954.
[24] The commodity coverage is increased, effective October 28, 1954.
[25] Presently included in the third entry on the Positive List under Schedule B No. 775055, which is deleted.
[26] Presently included in the first entry on the Positive List under Schedule B No. 744160.
[28] Presently included in the single entry on the Positive List under Schedule B No. 775100, which is deleted. These commodities may now be exported under General License GIT (see § 371.9 (c) of this subchapter).
[29] Presently included in second entry on the Positive List under Schedule B No. 794960.
[1] Electric conducting cable suitable for sweeping magnetic mines or for harbor defense requires export authorization from the Department of State. See § 370.4 (a) of this subchapter.

This part of the amendment shall become effective as of October 21, 1954, unless otherwise indicated in the footnotes.

Shipments of any commodities removed from general license to Country Group R or Country Group O destinations as a result of changes set forth in Parts 1 and 3 of this amendment, which were on dock, on lighter, laden aboard an exporting carrier, or in transit to a port of exit pursuant to actual orders for export prior to 12:01 a. m., October 28, 1954, may be exported under the previous general license provisions up to and including November 20, 1954. Any such shipment not laden aboard the exporting carrier on or before November 20, 1954, requires a validated license for export.

No. 213——3

TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T. D. 53648]

PART 4—VESSELS IN FOREIGN AND DOMESTIC TRADES

LANDING AND DELIVERY OF CARGO

Sections 4.34, 4.85, 4.86, 4.88 and 4.91(c), Customs Regulations, relating to prematurely discharged, overcarried, and undelivered cargo, vessels with residue cargo for domestic ports, intercoastal residue-cargo for optional ports, vessels with residue cargo for foreign ports, and transshipment of cargo, amended.

To avoid unnecessary carriage and handling of what are often bulky traveling manifests, it is deemed advisable to modify the requirement of § 4.85 (e) of the Customs Regulations for the final surrender of the original traveling manifest at the port of final discharge of inward foreign cargo in the United States when no residue foreign cargo remains on board for discharge at a foreign port or ports by excluding prematurely discharged or overcarried cargo from consideration in determining whether for purposes of that regulation the importing vessel has yet reached the port of final discharge of foreign cargo in the United States.

It is desirable for purposes of clarity to have the regulations set forth more definitely the conditions under which vessel bonds are required to be on file for residue foreign cargo for other domestic or foreign ports, in lieu of certain statements indicating merely that in some cases such bonds are on file. It is also desirable in the case of a vessel allowed to proceed with inward foreign cargo for optional ports on the opposite coast to include a requirement that upon the arrival of the vessel at the first port on the opposite coast the master upon entering his vessel shall file a manifest of all the inward foreign cargo remaining on board with the ports of actual intended discharge shown.

It is further desirable to eliminate the requirement that the agent of the importing vessel notify the collector at the port where the vessel first entered on its arrival in the United States as to the ports of actual intended discharge designated on arrival of the vessel on the opposite coast and to substitute therefor a requirement that an extra copy of customs Form 3221, Certificate on Vessel Proceeding to Another Port With Foreign Cargo, be furnished the collector at the first port on the opposite coast to permit him to notify the first port of entry on the first coast of arrival of the names of the ports of discharge designated on the opposite coast.

Certain other changes are made to simplify or clarify customs requirements.

Accordingly, the Customs Regulations are hereby amended as follows:

1. Section 4.34 is amended as follows:

a. Paragraph (d) is amended by adding the following sentence after the second sentence: "Whenever practicable, the application shall be made on the face of the manifest below the description of the merchandise, if there is sufficient space therefor." and by substituting a period for the comma after the word "approval" in the last sentence and deleting the remainder of the sentence.

b. Paragraph (e) is amended to read:

(e) One copy of the manifest shall be certified by customs for use as a separate traveling manifest for the prematurely landed or overcarried cargo being forwarded as residue cargo, whether or not the forwarding vessel is also carrying

other residue cargo. If application for forwarding to destination is made on the manifest, the new substitute traveling manifest shall be stamped to show the approval of the application thereon or if the application is on a separate document a copy thereof stamped to show its approval shall be attached to the substitute traveling manifest. A separate certificate on customs Form 3221 shall be attached to each such traveling manifest. An appropriate cross-reference shall be made on customs Form 3221 to show whether any other traveling manifest is being carried forward on the same vessel.

c. Paragraph (f) is amended by deleting the words "traveling manifest or" in the first sentence.

d. Paragraph (g) is amended by changing the second sentence to read: "When such prematurely landed or overcarried cargo arrives at the port of destination under an approved application and substitute traveling manifest, the collector shall check to see whether the cargo covered by the application and substitute traveling manifest was included in the manifest filed on the original entry of the importing vessel at the first port of entry in the United States, to determine whether a post entry to the original manifest is required."

2. Section 4.85 is amended as follows:

a. Paragraph (a) is amended by substituting a comma for the period and footnote reference 115 at the end and by adding the following: "provided a vessel bond (customs Form 7567 or 7569) in a suitable amount is on file with the collector at the port of first entry.[115]"

b. Paragraph (b) is amended by adding "(in triplicate at the first port on the opposite coast when the optional port of delivery procedure provided for by § 4.86 has been followed)" after "in duplicate" in the second sentence.

c. Paragraph (c) is amended by adding the following after the fourth sentence: "In the case of a vessel arriving at the first port on the coast with cargo manifested on the opposite coast as being for optional ports of delivery as provided for by § 4.86, a manifest in original only of all inward foreign cargo remaining on board with the ports of actual intended discharge designated shall be furnished by the master on entering his vessel."

d. Paragraph (e) is amended to read:

(e) The original traveling manifest, together with the signed certificates on customs Form 3221 which were attached thereto at preceding domestic ports of call, shall be finally surrendered to the collector at the port of final discharge in the United States of inward foreign cargo for which a substitute traveling manifest has not been issued under § 4.34 (c) for retention in the collector's files, unless residue foreign cargo remains on board for discharge at a foreign port or ports, in which case the original traveling manifest shall be so surrendered to the collector at the final port of departure from the United States with any such cargo on board, regardless of whether the vessel proceeds to an intermediate foreign port under § 4.89. The traveling crew purchase manifest (curio list) shall be finally surrendered to the boarding officer or collector at the port where the vessel first departs directly for a foreign port.

(Secs. 439, 442, 443, 444, 623, 46 Stat. 712, as amended; 713, 759, as amended; 19 U. S. C. 1439, 1442, 1443, 1444, 1623)

3. Section 4.86 is amended by adding the following after the third sentence of paragraph (a): "For this purpose, a manifest in original only of all inward foreign cargo remaining on board with the ports of actual intended discharge designated shall be furnished by the master along with the other documents required on entry of his vessel," and by deleting paragraph (c).

(Secs. 442, 443, 444, 46 Stat. 713; 19 U. S. C. 1442, 1443, 1444)

4. Section 4.88 is amended as follows:

a. Paragraph (a) is amended by deleting the period and footnote reference 119 at the end and substituting therefor: ", provided a vessel bond (customs Form 7567 or 7569) in a suitable amount is on file with the collector at the port of first entry.[119]"

b. Paragraph (b) is amended by adding a period after the word "required" in the first sentence and deleting the remainder of the paragraph.

(Secs. 442, 622, 623, 46 Stat. 713, 759, as amended; 19 U. S. C. 1442, 1622, 1623)

5. Section 4.91 (c) is amended by adding the following: "When inward foreign cargo or passengers are so transshipped to another vessel, a separate traveling manifest with a separate certificate on customs Form 3221 attached shall be used for the transshipped cargo or passengers, whether or not the forwarding vessel is also carrying other residue cargo or passengers. An appropriate cross reference shall be made on customs Form 3221 to show whether any other traveling manifest is being carried forward on the same vessel."

(R. S. 161, 251, sec. 624, 46 Stat. 759; 5 U. S. C. 22, 19 U. S. C. 66, 1624)

[SEAL] RALPH KELLY,
Commissioner of Customs.

Approved: October 26, 1954.

H. CHAPMAN ROSE,
Acting Secretary of the Treasury.

TITLE 29—LABOR

Chapter V—Wage and Hour Division, Department of Labor

PART 697—BUTTON, BUCKLE, AND JEWELRY INDUSTRY IN PUERTO RICO

PART 709—BUTTON, BUCKLE, AND JEWELRY INDUSTRY IN PUERTO RICO, MINIMUM WAGE ORDER

WAGE RATES; LEATHER AND FABRIC BUTTON AND BUCKLE DIVISION

Pursuant to the requirements of the Administrative Procedure Act (60 Stat. 237; 5 U. S. C. 1001), notice of my proposed decision to approve the recommendations of Special Industry Committee No. 12 for the Leather and Fabric Button and Buckle Division of the Button, Buckle, and Jewelry Industry in Puerto Rico was published in the FEDERAL REGISTER on April 14, 1953 (18 F. R. 2085-2087). The wage order which I proposed to issue to carry such recommendations into effect was also published therewith.

As indicated in the notice, my findings and conclusions in this matter were set forth in a document entitled "Findings and Opinion of the Administrator in the Matter of the Recommendations of Special Industry Committee No. 12 for Minimum Wage Rates in the Button, Buckle, and Jewelry Industry in Puerto Rico."

Interested persons were given an opportunity to file written exceptions to the proposed actions within twenty days of the date of publication of the notice. In the May 7, 1953 issue of the FEDERAL REGISTER (18 F. R. 2653) the time for filing such exceptions to this proposal was extended to May 18, 1953. No such exception was received.

Accordingly, pursuant to authority under the Fair Labor Standards Act of 1938, as amended (52 Stat. 1060, as amended, 29 U. S. C. 201 et seq.), the said decision is affirmed and made final; the recommendation of Special Industry Committee No. 12, for the Leather and Fabric Button and Buckle Division of the Button, Buckle, and Jewelry Industry in Puerto Rico is hereby approved; the Wage Order contained in 29 CFR, Part 697 is hereby superseded and revoked; and the wage Order contained in 29 CFR, Part 709 is hereby amended as follows:

1. In § 709.1 *Wage rates*, add the following paragraph:

(h) Wages at a rate of not less than 53 cents per hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the leather and fabric button and buckle division of the button, buckle, and jewelry industry in Puerto Rico who is engaged in commerce or in the production of goods for commerce.

2. In § 709.3, paragraph (a) is redesignated paragraph (a) (1) and a new subparagraph (2) is added. As amended paragraph (a) will read as follows:

(a) (1) The button, buckle, and jewelry industry in Puerto Rico, to which this part shall apply, is hereby defined as follows: The manufacture from any material of buttons, buckles, jewelry (including rosaries), and jewelry findings (including beads); *Provided, however*, That the definition shall not include any activities covered by the definition of the jewel cutting and polishing industry in Puerto Rico (Part 707 of this chapter).

(2) The definition in subparagraph (1) of this paragraph supersedes the definitions contained in any and all wage orders heretofore issued for other industries in Puerto Rico to the extent that such definitions include products or operations covered by the definition of this industry.

3. In § 709.3, the following subparagraph (8) is added to paragraph (b):

(8) *Leather and fabric button and buckle division.* The manufacture of buttons and buckles from leather, cotton tape, or other fabric.

(Sec. 8, 52 Stat. 1064, as amended; 29 U. S. C. 208)

The above amendments shall become effective December 6, 1954.

Signed at Washington, D. C., this 28th day of October 1954.

WM. R. MCCOMB,
Administrator,
Wage and Hour Division.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter I—Office of Defense Mobilization

[Defense Mobilization Order X-1]

DMO X-1—ESTABLISHMENT OF AN INTERAGENCY COMMITTEE ON NATIONAL CENSORSHIP PLANNING

By virtue of the authority vested in me by the National Security Act of 1947, as amended; Reorganization Plan No. 3 of June 12, 1953; and White House Memorandum, dated January 7, 1954; and in order to facilitate the development and insure the coordination and effectiveness of readiness within the national censorship field, it is hereby ordered:

1. There is established in the Office of Defense Mobilization an Interagency Committee on National Censorship Planning which shall consist of a representative of the Office of Defense Mobilization who is hereby designated as Chairman, and a representative designated by the head of each of the following departments and agencies:

Department of State.
Department of the Treasury.
Department of Defense.
Department of Justice.
Post Office Department.
Department of Commerce.
Central Intelligence Agency.
Federal Civil Defense Administration.
Federal Communications Commission.

and such other agencies as the Director of the Office of Defense Mobilization may from time to time designate.

2. The Committee shall advise and assist the Assistant to the Director for Plans and Readiness on problems and policies related to national censorship planning; explore within their own departments and agencies areas of interest in the development of national censorship plans and review such plans periodically for adequacy.

3. This order shall take effect on October 29, 1954.

OFFICE OF DEFENSE MOBILIZATION,
ARTHUR S. FLEMMING,
Director.

[F. R. Doc. 54-8655; Filed, Oct. 29, 1954; 4:22 p. m.]

TITLE 41—PUBLIC CONTRACTS

Chapter II—Division of Public Contracts, Department of Labor

PART 202—MINIMUM WAGE DETERMINATIONS

METAL FURNITURE BRANCH OF THE FURNITURE INDUSTRY; METAL BUSINESS FURNITURE AND STORAGE EQUIPMENT INDUSTRY

On January 27, 1953, notice was published in the FEDERAL REGISTER (18 F. R. 569), of a proposed amendment to the determination of the prevailing minimum wage for the metal furniture branch of the furniture industry and determination of the prevailing minimum wage for the metal business furniture and storage equipment industry. On June 29, 1954, after publication of due notice in the FEDERAL REGISTER (19 F. R. 3237), a supplemental hearing was held in Washington, D. C. Subsequently, on August 25, 1954, notice was published again in the FEDERAL REGISTER (19 F. R. 5410) of the proposed amendment to the determination of the prevailing minimum wage for the metal furniture branch of the furniture industry and determination of the prevailing minimum wage for the metal business furniture and storage equipment industry. The notice provided a period of twenty days within which interested parties might submit exceptions to the proposed amendment. The time for filing such exceptions expired on September 14, 1954.

One exception has been received. The Art Steel Company suggests that the 75 cent minimum rate now in effect be continued indefinitely or at least for one year, and that "fringe benefits" be counted in satisfaction of the minimum wage requirement. This company contends that relatively small manufacturers dominate this industry and they are considered less able to pay high wages than the relatively large manufacturers with mechanized equipment characteristic of other industries. It expresses the view that a statutory minimum wage requirement should be the same for all industries and areas in the nation. No wage or "fringe benefits" data restricted to this industry are presented, and no reason is given for the unusual delay suggested.

My proposed determination is based on evidence of the minimum wages that actually prevail in this industry. The fact that manufacturers in more mechanized industries may be able to pay higher wages is no reason for leaving in effect indefinitely, or for more than the customary period for notice, the old determination of a substantially lower rate which no longer actually prevails. Similarly, it does not follow that because there is a lower minimum wage prevailing in some industries, such lower minimum wage should be found to be the prevailing minimum in all industries. The act obviously does not contemplate that the lowest minimum wage prevailing in any industry shall be found to be the prevailing minimum wage for all industries.

"Fringe benefits", which are substantial in some employments, add measurably to some employers' labor costs. The term covers many types of benefits, some of which are properly regarded as "wages" (such as a 10 percent wage differential for night work), and some of which are not (such as unexpected Christmas gifts). Some of the types of such benefits which are regarded as satisfying minimum wage obligations under this act are outlined in section 3 (m) of the Fair Labor Standards Act and the regulations and interpretations issued thereunder (29 CFR Parts 531 and 777). The seven subsections of section 7 (d) of that act together with their regulations and interpretations (29 CFR Parts 547, 549, and 778) illustrate types of such payments which generally do not have this effect. The position of the employer who voluntarily provides the type of benefits which are not "wages" is no worse than the position of the large segment of employers in this industry who voluntarily observe higher minimum wage standards than are here determined to be prevailing. Typically, it is the relatively high wage plant which provides such benefits. It is only rarely, therefore, that evaluating fringe benefits becomes a problem in measuring compliance with a prevailing minimum wage. The newspaper article on which Art Steel Company relies is critical of the tendency to provide fringe benefits in lieu of justified wage increases. Even less reason appears why the portion of "fringe benefits" which are not properly counted as wages should be preserved as a substitute for the minimum wage which actually prevails in the industry.

Upon consideration of the entire record, the objections are overruled.

Accordingly, pursuant to the authority vested in me by the Walsh-Healey Public Contracts Act, Title 41, Code of Federal Regulations, Part 202, is hereby amended as follows:

1. Section 202.27 (a) (3) is amended to read as follows:

(3) The metal furniture branch of the furniture manufacturing industry is redefined as that industry which manufactures or furnishes any of the following products:

(i) Metal hospital furniture;

(ii) Metal household furniture.

2. A new section designated as § 202.50 is added to read as follows:

§ 202.50 *Metal business furniture and storage equipment industry*—(a) *Definition.* The metal business furniture and storage equipment industry is defined as that industry which manufactures or furnishes metal business furniture or storage equipment, including but not limited to the following metal products: (1) Bank counters; benches; stools; bookcases; chairs; desks; desk trays; filing boxes; cabinets and cases; cabinets for printers' type; storage cabinets; cabinet partitions; tables; visible business equipment; wardrobes; and waste baskets; (2) lockers; racks, and industrial and general-purpose shelving; (3) rotating bins and sectional bins; tool boxes, tool cabinets and tool chests; metal boxes, metal chests and metal cases. All consumable supply items are excluded from this definition.

(b) *Minimum wage.* The minimum wage for persons employed in the manufacturing or furnishing of the products of the metal business furniture and storage equipment industry under contracts subject to the Walsh-Healey Public Contracts Act shall be $1.10 an hour arrived at either on a time or piece-rate basis.

(c) *Subminimum wages authorized.* (1) Beginners or probationary workers as defined in this paragraph may be employed in the metal business furniture and storage equipment industry for a period of six weeks, or 240 hours at a minimum rate of $1.00 an hour. A beginner or probationary worker for the purpose of this section is a person who has less than 240 hours experience in the plant in which he is employed.

(2) Apprentices may be employed in the metal business furniture and storage equipment industry at rates below the above established minimum wage if their employment conforms with the standards adopted by the Bureau of Apprenticeship, United States Department of Labor, except that no apprentice in this industry may be employed at a rate lower than 90 cents an hour.

(3) (i) Handicapped workers may be employed in the industry at wages below the minimum rates upon the same terms and conditions as are prescribed for the employment of handicapped workers by the regulations of the Administrator of the Wage and Hour Division of the Department of Labor (29 CFR Parts 524 and 525) under section 14 of the Fair Labor Standards Act.

(ii) The Administrator of the Public Contracts Division is authorized to issue certificates under the Public Contracts Act for the employment of handicapped workers not subject to the Fair Labor Standards Act or subject to different minimum rates of pay under the two Acts, at appropriate rates of compensation and in accordance with the standards and procedures prescribed by the applicable regulations issued under the Fair Labor Standards Act.

(d) *Effect on other obligations.* Nothing in this section shall affect any obligations for the payment of minimum wages that an employer may have under any law or agreement more favorable to employees than the requirements of this section.

(e) *Effective date.* This section shall be effective and the minimum wages hereby established shall apply to all contracts for products of this industry subject to the Public Contracts Act, bids for which are solicited, or negotiations otherwise commenced, on or after December 6, 1954. With respect to prior contracts the minimum wages previously provided shall continue to apply.

(Sec. 4, 49 Stat. 2038; 41 U. S. C. 38. Interpret or apply sec. 1, 49 Stat. 2036; 41 U. S. C. 35)

Signed at Washington, D. C., this 28th day of October 1954.

JAMES P. MITCHELL,
Secretary of Labor.

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Appendix C—Public Land Orders

[Public Land Order 1024]

WASHINGTON

REVOKING EXECUTIVE ORDER NO. 2963 OF SEPTEMBER 16, 1918, WHICH RESERVED LANDS FOR PARK PURPOSES

By virtue of the authority vested in the President by section 1 of the act of June 25, 1910, c. 421 (36 Stat. 847; 43 U. S. C. 141), and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Executive Order No. 2963 of September 16, 1918, temporarily withdrawing the following-described public lands in Washington in aid of proposed legislation to reserve such lands for park purposes, is hereby revoked:

WILLAMETTE MERIDIAN

T. 25 N., R. 21 E.,
Sec. 26, N½, SW¼, N½SE¼.

The area described contains 560 acres.

The lands are rough and mountainous grazing lands located in Douglas County, Washington.

No application for the lands may be allowed under the homestead, desert-land, small tract, or any other nonmineral public-land law unless the land has already been classified as valuable or suitable for such type of application, or shall be so classified upon the consideration of an application. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

This order shall not otherwise become effective to change the status of the described lands until 10:00 a. m., on the 35th day after the date of this order. At that time the said lands shall become subject to application, petition, location and selection, subject to valid existing rights, the provisions of existing withdrawals, the requirements of applicable laws, and the 91-day preference-right filing period for veterans and others entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284), as amended.

Veterans' preference-right applications under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284), as amended, may be filed on or before 10:00 a. m., on the 35th day after the date of this order, and those covering the same land shall be treated as though simultaneously filed at that time. Applications filed under the act after that time and during the succeeding 91 days shall be considered in the order of filing. Applications by the general public under the public-land laws, filed on or before 10:00 a. m., on the 126th day after the date of this order shall be treated as though simultaneously filed at that time, where the applications are for the same lands; otherwise, priority of filing shall govern.

Inquiries regarding the lands shall be addressed to the Manager, Land Office, Bureau of Land Management, Spokane, Washington.

ORME LEWIS,
Assistant Secretary of the Interior.

OCTOBER 26, 1954.

[F. R. Doc. 54-8582; Filed, Nov. 1, 1954; 8:46 a. m.]

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 928]

HANDLING OF MILK IN THE NEOSHO VALLEY MARKETING AREA

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS THERETO WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND PROPOSED ORDER, AMENDING ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk of this recommended decision of the Deputy Administrator, Agricultural Marketing Service, United States Department of Agriculture, with respect to a proposed marketing agreement and a proposed order amending the order, as amended, regulating the handling of milk in the Neosho Valley marketing area.

Interested parties may file written exceptions to this recommended decision with the Hearing Clerk, Room 1371, South Building, United States Department of Agriculture, Washington 25, D. C., not later than the close of business of the 10th day after the publication of this recommended decision in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

Preliminary statement. The public hearing on the record of which the following findings and conclusions were formulated, was conducted at Pittsburg, Kansas, on June 29, 30, and July 1, 1954, pursuant to notice thereof issued on June 9, 1954 (19 F. R. 3474).

The material issues of the record related to:

1. The pricing of Class I milk;
2. Proposed changes in the base-excess plan of payment to producers;
3. Proposed definition and allocation of emergency milk; and
4. Expansion of the marketing area.

Findings and conclusions. The following findings and conclusions are based on the evidence introduced at the hearing and the record thereof:

1. *The pricing of Class I milk.* The present method of pricing Class I milk should be modified by placing limitations on the amount by which the price under the Neosho Valley order can range above or below the price in surrounding Federal order markets.

At present the Neosho Valley order provides for a Class I price differential over a basic formula price of $1.00 a hundredweight during April, May, and June, and $1.45 a hundredweight the other months of the year. A group of handlers proposed a reduction in the specific Class I price differential to 80 cents a hundredweight during April through July and $1.05 a hundredweight during all other months. In addition they proposed the adoption of a supply-demand formula that used a relationship between receipts and utilization during a twelve-month period as a standard from which to increase or decrease the Class I price. Another handler, a cooperative association, proposed a reduction of 40 cents per hundredweight in the price of Class I milk moved beyond a 250 mile radius, such reduction to apply whenever producer receipts exceeded 115 percent of Class I utilization.

Producers contended that reductions that had already occurred under present pricing provisions were severe and that further reductions could jeopardize the future milk supply of the area. From 1952 to 1953 the average Class I price declined 67.6 cents and the average uniform price declined 94 cents. A further decline in each of these prices became effective in May 1954, as a result of the changes in the level of support prices for dairy products. Producers contended that the full effects of this action on the level of milk production could not be felt for some time in the future, and that any action taken at this time should be restricted to either (1) maintaining the blend or uniform price at a fixed level or (2) making the Class I differentials a fixed percentage of the basic formula price.

As pointed out in previous decisions, the very location of the Neosho Valley marketing area has required that Class I prices be aligned with those for the Ozarks, Tulsa-Muskogee, Kansas City, and Topeka marketing areas. The Ozarks market, in turn, is tied to the pricing level of St. Louis. The record evidence of this hearing indicates again the need to keep local prices within tolerable limits of at least the most important (effectwise) of the surrounding Federal order markets.

Proponents' testimony indicates that recent changes in the relationship between the Class I prices in the Neosho Valley area and those in surrounding markets was a prime reason for requesting a reappraisal of the pricing structure at this time. These changes in Class I price relationships resulted from the fact that the Tulsa-Muskogee and Kansas City markets have automatic adjustments for local short and supply-demand conditions and that in the early months of 1954 these adjustments provided substantial reductions in the Class I price for these markets. The Ozarks market, on the other hand, has a supply-demand adjustor based on long run factors in St. Louis that did not affect Class I prices during this time.

The Neosho Valley price, which was usually 40–45 cents below the Tulsa-Muskogee price, became 5 to 10 cents higher, and Kansas City and Topeka prices, which are usually about equal to Neosho Valley prices, were substantially less. There was little change from corresponding periods of previous years in the relationship between the Neosho Valley Class I price and that under Order No. 21 (now Ozarks marketing area, formerly Springfield, Mo.).

The proposals of handlers appear to have been based to a considerable extent upon the assumption that the Tulsa-Muskogee and Kansas City supply-demand adjustors would continue to provide maximum reductions and that there would be no upward adjustment of the Ozarks price through the St. Louis supply-demand adjustor. Official notice is hereby taken of the fact that Class I prices of the Tulsa-Muskogee and Kansas City markets for September 1954 were each adjusted upward to the full extent possible by their respective supply-demand adjustors.

Prices paid in the Ozarks, Kansas City, and Tulsa areas must be taken into consideration in arriving at a proper price for the Neosho Valley area. An obstacle to the constant alignment of Neosho Valley Class I prices in a fixed relation with each of these three markets is the fact that the orders for each of them contain supply-demand adjustors, and that these adjustors operate on different bases. The addition of a long-run supply-demand adjustor in the Neosho Valley order, as suggested by handlers, could well serve to aggravate misalignment of prices between the Neosho Valley and surrounding markets, rather than lessen it.

While the supply-demand adjusters may prevent constant alignment of price in any fixed relationship, it is possible to take action which will prevent some of the more obvious misalignments that may occur under the present order provisions. The most appropriate method for doing this is to establish limits (relative to the other markets), beyond which the Class I price in the Neosho Valley should not be permitted to go. It seems clear from the record that the Neosho Valley price should not exceed the Tulsa-Muskogee Class I price adjusted for location in the Neosho Valley area. This means that a ceiling should be set on the Class I price in Neosho Valley equal to the Class I price in the Tulsa-Muskogee area, less 23 cents.

In consideration of the pricing problems occasioned by the relative location of the Ozarks and Neosho Valley marketing areas, together with the fact that bulk milk can be transported between the two areas for about 20 cents a hundredweight, it appears that an appropriate floor for the Neosho Valley Class I price would be the Class I price at Springfield Missouri plus, 15 cents. This level would also correspond to the Class I price applicable in Denton and Washington Counties, Arkansas, under the Ozarks order: an area about the same distance from Springfield as is the Neosho Valley area. Within these upper and lower limits, the Class I price should be established by using the present Class I differentials of the Neosho Valley order. Provision should be made in the order to cover those months during which, for some unforeseeable reason, the "floor" price might be higher than the "ceiling" price. In this event the raising action of the "floor" should increase the price only to the point where it meets the "ceiling" and the decreasing action of the "ceiling" should never lower the price below the "floor." This is accomplished by providing that the higher of these prices shall be the "ceiling" and the lower shall be the "floor."

This pricing method should (1) give the Neosho Valley area a better future price alignment with the Kansas City, Tulsa-Muskogee, and Ozarks marketing areas, (2) cause changes in local price levels that are in the direction requested by proponents, and (3) have less likelihood to cause future misalignment of prices than would any of the other proposals for modifying the Neosho Valley Class I price as presented at the public hearing. The alignment of prices herein provided is applicable to all Class I milk. No special provision should be made for a reduced price to apply to out-of-market shipments.

Since the Class I price of the Tulsa-Muskogee order is announced on or before the 12th day of each month it is necessary to make the date of announcement under the Neosho Valley order conform, so that the relationship herein found to be appropriate may be maintained.

2. No substantive change should be made in the base rating provisions of the order on the basis of this record.

For the months of March through August of each year payments to producers are computed on a base-excess plan. Each producer establishes a base by his average deliveries in the months of September through December. Deliveries of milk within such bases have prior claim on Class I sales in the following months of March through August.

Handlers proposed (a) that bases be formed during the months of September through November, (b) that bases

computed from average deliveries during these months be adjusted when necessary so that the total of such daily bases would not exceed 115 per cent of the average daily Class I sales in the base-forming months and (c) that provision be made for computing daily bases for producers who did not establish bases during the September–November period. They also proposed certain limitations on diversion of milk to unapproved plants during the base-forming months.

Producers proposed that in the event certain pricing provisions were included in the order established bases should be used in computation of payments each month in the year.

Handlers contend that it is detrimental to the market to have the total volume of bases established for producers greatly exceed Class I utilization so that the price producers received for their base milk is materially below the Class I price. Proposals to shorten the base forming period from four months to three, to adjust bases to 115 percent of Class I sales, and to limit diversion during the base forming months were all represented as means whereby the total volume of base milk would be reduced. In contrast the proposal for computing interim bases for producers who failed to establish bases during the base-forming period would tend to increase the volume of milk for which a base price is to be computed.

In 1952 there was less than one percent difference in daily average receipts per producer between the September–December period and the September–November period. In 1953 this difference was slightly over two percent. The use of a four-month base forming period provides opportunity for a somewhat more representative average of each producer's delivery than does a three-month period. This consideration would seem to outweigh any advantage shown in this record for the three-month period.

The proposal to adjust bases to 115 percent of Class I sales should be denied. The use of a base-excess system of distributing returns to producers is used in Federal orders for the purpose of modifying the seasonal pattern of deliveries by producers to the market. The proposed adjustment of bases to Class I sales would apparently attempt to achieve an adjustment of supplies to Class I sales by means other than variations in Class I prices. Overall adjustments of supplies to Class I sales should be achieved by variations in Class I prices, rather than by variation in quantities of base milk. The proposal, therefore, to adjust base amounts to 115 percent of Class I sales should be denied for this reason.

Two proposals were made with respect to limitation of diversion of milk to unapproved plants; (1) to limit those persons to be defined as "producers" eligible to share in the marketwide pool to those persons otherwise eligible whose milk was received at an approved plant during some portion of the immediately preceding base-forming period, and (2) to require written approval of a handler operating an approved plant for milk diverted in the base-forming period to be used in the calculations of a producer's base. As the Neosho Valley market is organized the diversions which would be chiefly affected by the proposals are those made by a cooperative association without plant facilities. This association has in the past diverted milk of a number of its member producers when handlers refused to accept the milk of these producers. The proposed limitations were such that proprietary handlers could divert milk freely, the cooperative association without an approved plant could do so in the base-forming months only with the consent of a proprietary handler. Such provisions should not be adopted.

Provision for computing interim bases for producers who did not deliver in the base-forming period should not be adopted. Producers are paid on bases for only 6 months of each year, and make new bases each year. Such provisions provide reasonable opportunity for new producers to enter the market.

1954 was the first year in which Neosho Valley producers were paid on bases for a six-month period. Further experience with the present plan is needed to determine whether substantial changes are needed. This record indicates the desirability of minor clarification of language to insure that bases are properly computed for producers with irregular or every other day delivery.

3. Provision should not be included in the order at this time to define and allocate "emergency milk" as distinguished from "other source milk".

Handlers proposed that upon a determination by the market administrator that the supply of producer milk available to a handler was insufficient for his Class I needs, receipts of other source milk priced as Class I milk under any other Federal order, up to a volume not in excess of 5 per cent of such handlers Class I sales for the month, be defined as "emergency milk" and be allocated to the handler's Class I sales in preference to producer milk. It was claimed that such a provision would alleviate the problem that arises when producer milk equals or exceeds Class I sales on a monthly basis but is not evenly distributed in relation to Class I needs throughout the month.

The provision proposed would entail a difficult administrative problem in determining its applicability. The record does not indicate the likelihood of short supplies in the Neosho Valley market in the immediate future. It is concluded that the proposal should not be adopted.

4. The marketing area should not be enlarged to include Chautauqua County, Kansas and McDonald County, Missouri.

Handlers proposed that these two counties be added to the 12-county marketing area. Neosho Valley handlers make some sales in each of these counties but the record fails to indicate that this is a substantial portion of the sales volume of the handlers involved. The Neosho Valley order regulates only the plants from which Grade A milk is distributed in the marketing area. It does not appear that health regulations of any portion of the proposed additional area require that milk be Grade A to be eligible for sale. In Chautauqua County one plant operates under a voluntary Grade A program. A very small volume of milk is distributed in the present marketing area from this plant without a Grade A label. It does not appear that inclusion of all or any part of Chautauqua County in the marketing area would necessarily bring this plant under regulation if the operator chose to dispense with his Grade A label. This record would indicate that this operator has paid for his Class I milk a price at least equal to that required under the order.

In two previous hearings consideration has been given to inclusion of McDonald County, Missouri, in the marketing area. The only significant change that has occurred with respect to marketing conditions in the county appears to be that a competing handler whose plant is in Arkansas is now regulated by the order for the Ozarks marketing area. McDonald County need not be included in the Neosho Valley marketing area.

Rulings on proposed findings and conclusions. Briefs were filed on behalf of producers and handlers who would be subject to the proposed marketing agreement and order, as hereby proposed to be amended. The briefs contained suggested findings of fact, conclusions, and arguments with respect to the proposals discussed at the hearing. Every point covered in the briefs was carefully considered along with evidence in the record in making the findings and reaching the conclusions hereinbefore set forth. To the extent that the suggested findings and conclusions contained in the briefs are inconsistent with the findings and conclusions contained herein, the requests to make such findings or to reach such conclusions are denied on the basis of the facts found and stated in connection with the findings and conclusions in this decision.

General findings. (a) The proposed marketing agreement and the order as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and in the order, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The proposed marketing agreement and the order, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity, specified in a marketing agreement upon which a hearing has been held.

Recommended marketing agreement and order as amended. The following amendments to the order, as amended, are recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out. The proposed marketing agreement is not included because the regulatory provisions thereof would be the same as those contained in the order, as amended, and as proposed to be further amended:

1. Delete § 928.22 (j) (1) and substitute therefor the following:

(1) On or before the 12th day of each delivery period the minimum price for Class I milk computed pursuant to § 928.51 (a) and the Class I butterfat differential computed pursuant to § 928.52, both for the current delivery period; and on or before the 5th day of each delivery period the minimum price for Class II milk computed pursuant to § 928.51 (b) and the Class II butterfat differential computed pursuant to § 928.52, both for the preceding delivery period.

2. Delete the second proviso appearing in § 928.51 (a) and substitute therefor the following: "*And provided further*, That the price so determined shall be further adjusted by subtracting any amount by which such price exceeds the higher of, or adding any amount by which such price is less than, the lower of the following:

(1) The price for Class I milk of 4.0 percent butterfat content established for the same month or delivery period pursuant to Federal Order No. 6 regulating the handling of milk in the Tulsa-Muskogee, Oklahoma, marketing area, less 23 cents; or

(2) The price for Class I milk of 4.0 percent butterfat content established for the same month or delivery period under Federal Order No. 21 regulating the handling of milk in the Ozarks marketing area, plus 15 cents."

3. Delete § 928.80 and substitute therefore the following:

§ 928.80 *Determination of daily base of each producer.* For the delivery periods of March through August of each year, the daily base of each producer shall be an amount of milk computed by the market administrator by dividing the total pounds of milk received from such producer by handlers during the preceding delivery periods of September through December by the total number of days for which such producer made deliveries of milk in such period, or by 90, whichever is greater.

Issued at Washington, D. C., this 28th day of October 1954.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator.

HANDLING OF MILK IN THE AUSTIN-WACO, TEX., MARKETING AREA

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND ORDER

Correction

In Federal Register Document 54-8497, published at page 6938 of the issue for Thursday, October 28, 1954, the following change should be made: The table appearing in the first column on page 6944, and also appearing in §§ 952.53 and 952.92, should read as follows:

Distance:	*Rate per hundredweight (cents)*
More than 20 but not more than 180 miles	25.0
More than 180 but not more than 360 miles	45.0
For each additional mile beyond 360 miles, an additional	0.2

INTERSTATE COMMERCE COMMISSION

[49 CFR Part 121]

SEPARATION OF OPERATING EXPENSES BETWEEN FREIGHT AND PASSENGER SERVICES

NOTICE TO ALL CLASS I LINE-HAUL AND SWITCHING AND TERMINAL RAILROAD COMPANIES

OCTOBER 28, 1954.

The Commission, Division 1, having under consideration the "Rules Governing the Separation of Operating Expenses, Railway Taxes, Equipment Rents, and Joint Facility Rents," effective January 1, 1953, has approved modification of such rules, as follows:

1. Cancel the second sentence of the present text of § 121.10 *Signals and interlockers (account 249)* and substitute the following: "Apportion common expenses on the basis of the total train-hours (including train-switching hours) and yard-switching locomotive-hours."

2. Cancel the second sentence of the present text of § 121.54 *Signal and interlocker operation, and crossing protection (accounts 404–405)* and substitute the following: "Apportion common expenses on the basis of the total train-hours (including train-switching hours), and yard-switching locomotive-hours."

Any interested person may, on or before 30 days after the date of this notice, file with the Commission written views or arguments in quintuplicate to be considered in this connection, and may request oral argument thereon. Unless otherwise decided after consideration of representations received, an order will be entered making the said modifications effective December 1, 1954.

HAIR OF CERTAIN ANIMALS, AND COTTON AND SILK WASTE; IMPORTATION FROM COUNTRIES NOT IN AUTHORIZED TRADE TERRITORY

APPLICATIONS FOR LICENSES

Notice is hereby given that the Treasury Department is now prepared to consider applications for licenses under the Foreign Assets Control regulations (31 CFR 500.101 to 500.808) for the importation during 1955 of limited quantities of the following commodities from countries (other than Communist China and North Korea) not in the authorized trade territory:

Badger hair.
Camel hair.
Cotton waste.
Goat hair.
Horse mane hair, horse tail hair and other horse hair.
Silk waste.
Yak hair.

Any person interested in importing any of the above-named commodities from a country (other than Communist China and North Korea) not in the authorized trade territory may obtain additional information and license application forms from the Foreign Assets Control, Treasury Department, Washington 25, D. C.

Attention is directed to the fact that the term "authorized trade territory" is defined in § 500.322 of the Foreign Assets Control regulations and that the term "countries (other than Communist China and North Korea) not in the authorized trade territory" as used herein includes Albania, Bulgaria, Czechoslovakia, the Eastern Zone of Germany, the Eastern Sector of Berlin, Estonia, Hungary, Laos (only those areas under Communist control), Latvia, Lithuania, Outer Mongolia, Poland and Danzig, Roumania, the Union of Soviet Socialist Republics, and Viet-Nam (only those areas under Communist control).

Sec. 24, $N\frac{1}{2}NE\frac{1}{4}$, $SE\frac{1}{4}NE\frac{1}{4}$, $NE\frac{1}{4}NW\frac{1}{4}$, $E\frac{1}{2}SE\frac{1}{4}$.

The areas described aggregate 468,070.57 acres.

Portions of the above-described lands have been patented. Other portions are included in National Forest, Stock driveway, or Power site withdrawals.

The topography of the lands is generally rough. The thin rocky soils support various plants adapted to different elevation zones and varying amounts of rainfall. The lands are suitable for grazing and none appear to be suitable for cultivation.

No application for the restored lands may be allowed under the homestead, desert-land, small tract, or any other nonmineral public-land law unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon the consideration of an application. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

This order shall not otherwise become effective to change the status of the restored lands until 10:00 a. m., on the 35th day after the date of this order. At that time the said lands shall become subject to application, petition, location, and selection, subject to valid existing rights, the provisions of existing withdrawals, the requirements of applicable laws, and the 91-day preference-right filing period for veterans and others entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279-284), as amended.

Veterans' preference-right applications under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279-284), as amended, may be filed on or before 10:00 a. m., on the 35th day after the date of this order, and those covering the same lands shall be treated as though simultaneously filed at that time. Applications filed under the act after that time and during the succeeding 91 days shall be considered in the order of filing. Applications by the general public under the public-land laws, filed on or before 10:00 a. m., on the 126th day after the date of this order shall be treated as though simultaneously filed at that time, where the applications are for the same lands; otherwise, priority of filing shall govern.

Inquiries regarding the lands shall be addressed to the Manager, Land Office, Bureau of Land Management, Denver, Colorado.

W. G. GUERNSEY,
Associate Director.

WISCONSIN

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

OCTOBER 27, 1954.

An application, serial number BLM 038439, for the withdrawal from all forms of appropriation under the public land laws, except the mineral-leasing laws, of the lands described below was filed on November 16, 1950, by the Fish and Wildlife Service.

The purpose of the proposed withdrawal: Is as an addition to the Upper Mississippi River Wildlife and Fish Refuge.

For a period of 30 days from the date of publication of this notice, persons having cause to object to the proposed withdrawal may present their objections in writing to the Supervisor, Eastern States Office, Bureau of Land Management, Department of the Interior at Washington 25, D. C. In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where proponents of the order can explain its purpose.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER, either in the form of a public land order or in the form of a notice of determination if the application is rejected. In either case, a separate notice will be sent to each interested party of record.

The lands involved in the application are:

FOURTH PRINCIPAL MERIDIAN

T. 7 N., R. 7 W.,
Sec. 14, Lot 4.

The area described aggregates 53.57 acres.

C. R. DREXILIUS,
Supervisor.

DEPARTMENT OF AGRICULTURE

Office of the Secretary

GEORGIA

DESIGNATION OF ADDITIONAL AREA FOR PRODUCTION EMERGENCY LOANS

For the purpose of making loans pursuant to section 2 (a) of Public Law 38, 81st Congress (12 U. S. C. 1148a-2 (a)), it is found that in Seminole County, Georgia, a production disaster has caused a need for agricultural credit not readily available from commercial banks, cooperative lending agencies, or other responsible sources.

After December 31, 1955, loans under section 2 (a) of Public Law 38, 81st Congress, as amended, will not be made in Seminole County, Georgia, except to borrowers who previously received such assistance.

Done at Washington, D. C., this 28th day of October 1954.

[SEAL] TRUE D. MORSE,
Acting Secretary.

[F. R. Doc. 54-8621; Filed, Nov. 1, 1954; 8:55 a. m.]

CERTAIN STATES

DISASTER ASSISTANCE; DELINEATION AND CERTIFICATION OF COUNTIES CONTAINED IN THE DROUGHT AREAS

Pursuant to Public Law 875, 81st Congress, (42 U. S. C. 1855 et seq.), the President determined on the dates indicated that a major disaster occasioned by drought existed in the following States:

Nevada: October 19, 1954.
Tennessee: September 16, 1954.
Utah: October 19, 1954.
Wyoming: July 21, 1954.

Pursuant to the authority delegated to me by the Administrator, Federal Civil Defense Administration (18 F. R. 4609; 19 F. R. 2148; 19 F. R. 5365) and for the purposes of section 2 (d) of Public Law 38, 81st Congress, as amended by Public Law 115, 83d Congress, and section 301 of Public Law 480, 83d Congress, certain counties, and parts of counties, as hereinafter described, in the State of Nevada were on October 19, 1954; certain counties in the State of Tennessee were on September 16, 1954 (19 F. R. 6243), as amended (19 F. R. 6557) and on October 12, 1954; certain counties, and parts of counties, as hereinafter described, in the State of Utah were on October 19, 1954; and certain counties in the State of Wyoming were on August 10, 1954 (19 F. R. 5155), as amended (19 F. R. 6127) and on October 12, 1954, determined to be the areas affected by the major disaster by drought.

Pursuant to the aforesaid delegation the Delineations and Certifications of Counties in drought areas in the States of Tennessee and Wyoming, as above described, are herewith amended by adding the counties, and parts of counties, as set forth below, on the dates specified, to the major disaster areas in those States:

STATE OF NEVADA

October 19, 1954

Esmeralda County, Eureka County, Humboldt County, Lander County, Pershing County, and part of Churchill County (Fallon area excluded), and that part of Elko County south of U. S. Highway No. 40, also that part north of U. S. Highway No. 40 that has drainings to the Humboldt River; and that part of Nye County north of U. S. Highway No. 6; and that part of Washoe County north of Pyramid Lake; and that part of White Pine County north of U. S. Highway No. 6.

STATE OF TENNESSEE

October 19, 1954

Carter County, Johnson County, Sullivan County.

STATE OF UTAH

October 19, 1954

All of Tooele County; and part of Box Elder County (that part west of Great Salt Lake and west of a line running from the north end of Great Salt Lake to Hardup, then west on a line bordering the Minidoka Forest through to the Nevada line); and part of Juab County (that area west of U. S. Highway No. 6); and part of Millard County (the winter range area west and north of U. S. Highway No. 6).

STATE OF WYOMING

October 19, 1954

Uinta County and that part of Sweetwater County west of the Continental Divide; and that part of Lincoln County south of a line extending from the northern boundary of Sweetwater County west to the Idaho line.

Done at Washington, D. C., this 28th day of October 1954.

[SEAL] TRUE D. MORSE,
Acting Secretary.

[F. R. Doc. 54-8622; Filed, Nov. 1, 1954; 8:55 a. m.]

DEPARTMENT OF COMMERCE

Federal Maritime Board

MEMBER LINES OF TRANS-PACIFIC CONFERENCE ET AL.

NOTICE OF CANCELLATION OF AGREEMENTS

Notice is hereby given that the Board by order dated October 20, 1954, approved the cancellation of the following described agreements pursuant to section 15 of the Shipping Act, 1916, as amended, 39 Stat. 733, 46 U. S. C. 814.

(1) Agreement No. 5270 between the member lines of the Trans-Pacific Passenger Conference and American President Lines, Ltd., provided for cooperation between that company and the conference in the establishment of fares for passenger transportation in the round-the-world service;

(2) Agreement No. 5574 between the member lines of the Trans-Pacific Passenger Conference and Koninklijke Nederlandsche Stoomboot Maatschappy N. V. (Royal Netherlands Steamship Company) covered an arrangement for booking and transportation of passengers from North America and Hawaii in the round-the-world trading area;

(3) Agreement No. 5575 between the member lines of the Trans-Pacific Passenger Conference, and Farrell Lines Incorporated covered an arrangement for booking and transportation of passengers from North America and Hawaii in the round-the-world trading area;

(4) Agreement No. 5579 between the member lines of the Trans-Pacific Passenger Conference, and American President Lines Ltd., provided for booking and transportation of passengers in the trade from Mediterranean and Suez ports, westbound, via North America, to ports in the Orient and Australasia; and

(5) Agreement No. 5585 between the member lines of the Trans-Pacific Passenger Conference, and Koninklijke Nederlandsche Stoomboot Maatschappy N. V. (Royal Netherlands Steamship Company) covered an arrangement for booking and transportation of passengers between ports in Europe, and ports in the Orient and Australasia, via North America.

Interested parties may obtain copies of these agreements at the Regulation Office, Federal Maritime Board, Washington, D. C.

Dated: October 27, 1954.

By order of the Federal Maritime Board.

[SEAL] A. J. WILLIAMS,
Secretary.

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 10739; FCC 54M-1346]

CARBON EMERY BROADCASTING CO.

ORDER CONTINUING HEARING

In re application of George G. Platis & Robert E. Hawley d/b as Carbon Emery Broadcasting Company, Price, Utah, Docket No. 10739, File No. BP-8797; for construction permit.

The Commission having under consideration a petition filed October 20, 1954 by Carbon Emery Broadcasting Company, requesting that the hearing on its above-entitled application, presently scheduled to commence on November 16, 1954, be continued for a period of 60 days, or until such other time as may be convenient to the Commission; and

It appearing, that petitioner finds it necessary to obtain new counsel in the above-entitled proceeding and the additional time is needed therefor; and

It further appearing, that no opposition has been filed to such petition and good cause has been shown for the grant thereof:

It is ordered, This 27th day of October 1954, that the petition for continuance be and it is hereby granted; and the hearing in the above-entitled proceeding be and it is hereby continued to January 18, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[Docket No. 11131; FCC 54M-1326]

LONG BEACH INDEPENDENT TAXI CORP.

ORDER CONTINUING HEARING

In the matter of Long Beach Independent Taxi Corporation, Long Beach, New York; order to show cause why the license for Radiotelephone Station KEA-427 should not be revoked; Docket No. 11131.

The Commission having designated the above-entitled matter for a hearing to be held at its offices in Washington, D. C., at 10:00 o'clock a. m., on Monday, October 25, 1954; and

It appearing, that on September 15, 1954, a motion was filed on behalf of the Safety and Special Radio Services Bureau of this Commission requesting the said Commission to issue an order of revocation and to close the proceedings in the above-entitled matter; and

It further appearing, that no action is expected to be taken on the said motion on or before October 25, 1954:

It is ordered, By the Commission on its own motion, this 22d day of October 1954, that the said hearing be, and it is hereby, continued, without date.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

KENNETH E. RENNEKAMP

ORDER POSTPONING HEARING

In the matter of cease and desist order to be directed against Kenneth E. Rennekamp, permittee of Station WEMR, Emporium, Pennsylvania; Docket No. 11134.

The Commission having before it a petition filed by Kenneth E. Rennekamp, above named, on October 22, 1954, asking that the hearing herein now scheduled to commence November 1, 1954, be postponed indefinitely; and

It appearing, that by order of August 12, 1954, petitioner was directed to show cause why an order should not be issued commanding him to cease and desist from certain alleged violations of the Communications Act of 1934, as amended, and the rules of the Commission; and

It further appearing, that on October 12, 1954, petitioner filed a "Response to Show Cause Order and Motion for Reconsideration" in which he requested the Commission to reconsider its order of August 12, 1954, and that the hearing set for November 1, 1954, be cancelled; and

It further appearing, that on October 22, 1954, the Broadcast Bureau filed a petition requesting ten days additional time within which to file an answer to the petition of October 12, 1954; and

It further appearing, that if the additional time requested by the Broadcast Bureau is granted, it would be impossible for the Commission to act upon the petitioner's request for a cancellation of the hearing before November 1, 1954, the day the hearing is scheduled to commence; and

It further appearing, that counsel for the Broadcast Bureau has agreed to a grant of the instant petition and to an indefinite postponement of the hearing;

It is ordered, This 26th day of October 1954, that the petition is granted, and that the hearing herein now scheduled to commence November 1, 1954, is postponed indefinitely.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[Docket No. 11135; FCC 54M-1338]

CURT DOELICKE

ORDER POSTPONING HEARING

In the matter of cease and desist order to be directed against Curt Doelicke, 118 E. 5th Street, Emporium, Pennsylvania; Docket No. 11135.

The Commission having before it a petition filed by Curt Doelicke, above named, on October 22, 1954, asking that the hearing herein now scheduled to commence November 1, 1954, be postponed indefinitely; and

It appearing, that by order of August 12, 1954, petitioner was directed to show cause why an order should not be issued commanding him to cease and desist from certain alleged violations of the Communications Act of 1934, as amended, and the rules of the Commission; and

It further appearing, that on October 12, 1954, petitioner filed a "Response to Show Cause Order and Motion for Reconsideration" in which he requested the Commission to reconsider its order of August 12, 1954, and that the hearing set for November 1, 1954, be cancelled; and

It further appearing, that on October 22, 1954, the Broadcast Bureau filed a petition requesting ten days additional time within which to file an answer to the petition of October 12, 1954; and

It further appearing, that if the additional time requested by the Broadcast Bureau is granted, it would be impossible for the Commission to act upon the petitioner's request for a cancellation of the hearing before November 1, 1954, the day the hearing is scheduled to commence; and

It further appearing, that counsel for the Broadcast Bureau has agreed to a grant of the instant petition and to an indefinite postponement of the hearing:

It is ordered, This 26th day of October 1954, that the petition is granted, and that the hearing herein now scheduled to commence November 1, 1954, is postponed indefinitely.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 54-8613; Filed, Nov. 1, 1954; 8:53 a. m.]

[Docket No. 11139; FCC 54M-1335]

WKRZ, INC.

ORDER CONTINUING HEARING

In the matter of cease and desist order to be directed against WKRZ, Incorporated, Licensee of Station WKRZ, Oil City, Pennsylvania; Docket No. 11139.

The Commission having under consideration a petition for continuance of hearing filed by WKRZ, Inc., on October 22, 1954;

It appearing, that petitioner filed "Response to Show Cause Order and Motion for Reconsideration" on October 12, 1954, in which it requested that the Commission reconsider its order of August 12, 1954 and cancel the hearing herein; that a hearing herein might be unnecessary if the motion should be granted; and that counsel for the Broadcast Bureau has agreed to a postponement of this hearing pending action by the Commission on the above-mentioned pleading:

It is ordered, This 26th day of October 1954, that the petition for indefinite continuance is granted, and the hearing, now scheduled for November 1, 1954, is continued without date, pending further action by the Commission.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[Docket No. 11207; FCC 54-1328]

GULF TELEVISION CO. (KGUL-TV)

MEMORANDUM OPINION AND ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re applications of: Gulf Television Company (KGUL-TV), Galveston, Texas, file No. BPCT-1875, docket No. 11207, for modification of construction permit; Gulf Television Company, Galveston, Texas, file No. BLCT-189, for license.

1. The Commission has before it for consideration (1) a "Protest and Petition for Other Relief" filed on September 29, 1954, pursuant to Sections 309 (c) and 405 of the Communications Act of 1934, as amended, by Houston Consolidated Television Company (Houston Consolidated), permitee of television broadcast station KTRK-TV, Channel 13, Houston, Texas, directed against the Commission's grants without hearing on September 1 and 15, 1954, respectively, of the above-entitled applications of Gulf Television Company (Gulf), licensee of television broadcast station KGUL-TV, Channel 11, Galveston, Texas, and requesting rehearing or reconsideration of such actions; and (2) an "Opposition" to such protest and petition filed by Gulf on October 19, 1954.[1] A reply to the opposition was filed by Houston Consolidated on October 26, 1954.

2. On November 19, 1952, the Commission granted without hearing the application (BPCT-1108) of Gulf for a permit to construct a new television broadcast station on Channel 11 assigned to Galveston, Texas. This construction permit authorized Gulf to operate with effective radiated power of 59 kw visual, 30 kw aural, and a height of 550 feet above average terrain from a transmitter location 12 miles from Galveston and about 40 miles from Houston, but a modification of the above construction permit was subsequently granted on January 28, 1953 to authorize Gulf to operate with effective radiated power of 235 kw visual, 125 aural and a height of 550 above average terrain from a transmitter location approximately 21 miles from Galveston and 31 miles from Houston. Gulf was granted special temporary authority to operate from this location on March 18, 1953. It filed the above-entitled license application on March 26, 1954 and commenced operation under program test authority on that date. Gulf is currently operating from this site under such license authority which was granted without hearing on September 15, 1954.

3. On June 28, 1954, Gulf filed the subject application (BPCT-1875) for modification of its outstanding construction permit to locate its transmitter at a point 31 miles from Galveston and 21 miles from Houston with effective radiated power of 261 kw visual, 131 kw aural and a height of 1185 feet above average terrain. On August 12, 1954, the application was amended to specify a new transmitter site at a point approximately 24 miles from Houston and 27 miles from Galveston with effective radiated power of 261 kw visual, 131 aural, and a height of 1185 feet above average terrain. The application also requested authority to install new transmitters and antenna systems and to make other equipment changes. The Commission granted this amended application without hearing on September 1, 1954.

4. In its protest and petition, Houston Consolidated alleges, in substance, that it is a "party in interest" to and a "person aggrieved" by the Commission's action granting Gulf's application for modification of construction permit under sections 309 (c) and 405, respectively, of the Communications Act of 1934, as amended, because as the permittee of Channel 13, Houston, it has suffered and will suffer economic injury as the result of such grant. The protestant alleges that economic injury will result from the proposed operation because Gulf would thereby increase its minimum signal over Houston from a field strength of 71 dbu to 85 dbu and its maximum signal over Houston from 82 dbu to 97 dbu; that the transmitter move would also result in Gulf's furnishing a signal of greater intensity to Houston than to Galveston; and that this would result in bringing KGUL-TV in direct competition with the protestant's television station for advertising revenues from local, regional and national advertisers who seek to reach the Houtson market, thereby resulting in a loss of operating revenues by the protestant. Houston Consolidated alleges, further, that certain specified advertisers have already been lost to it as a direct result of the Commission's action and Gulf's announcement of its plans to serve Houston pursuant to such grant.[2]

5. In addition to the foregoing allegations which are directed to Houston Consolidated's standing as a "party in interest" to the Commission's grant of the modification application, Houston Consolidated also claims standing as a party aggrieved under section 405 of the act by the granting of KGUL-TV's above-entitled application for license. In support of such claim, Houston Consolidated alleges that it had planned to become a Columbia Broadcasting System (CBS) basic affiliate in Houston, and also to bring Houston programs of other networks not already offered to Houston by KPRC-TV, a National Broadcasting Company affiliate in Houston, but that its "privilege" of selection of programs and of affiliation with CBS had been foreclosed by the operations of KGUL-TV in the manner prescribed by the terms of its license, and that the CBS affiliation had been denied to Houston Consolidated on the specific ground that CBS expected to reach the Houston audience through KGUL-TV.

6. In support of its protest and petition, Houston Consolidated alleges that the grant of the application for modification of construction permit is inconsistent with § 3.607 of the Commission's rules, section 307 (b) of the Communications Act of 1934, as amended, and the principle and purposes of the Commission's Sixth Report and Order; that the proposed location of the transmitter and antenna system of KGUL-TV pursuant to such grant violates § 3.685 of the Commission's rules; that KGUL-TV has made station announcements in violation of § 3.652 of the Commission's rules; by using the names of two cities, Galveston and Houston, in its aural announcement; that KGUL-TV has vio-

[1] The time for answering the subject protest and petition was extended by the Commission to October 19, 1954, upon a motion by Gulf which was not opposed.

[2] The protestant submitted as exhibits two affidavits and a letter from three prospective advertisers announcing their decisions not to buy advertising time from Houston Consolidated because of the move of the Gulf transmitter to give KGUL-TV coverage of both Houston and Galveston.

lated § 3.613 of the Commission's rules governing main studio location by establishing a studio in Houston; that KGUL–TV has violated section 319 of the Communications Act of 1934, as amended, by constructing its Houston studio without prior Commission approval; that Gulf has wrongfully led the Commission to believe it would operate a television station to serve the needs and interests of Galveston, while it really intended to operate as a Houston station; and that KGUL–TV's programs do not meet the needs of the people of Galveston and are contrary to programming representations previously made to the Commission.

7. In consideration of the foregoing allegations, Houston Consolidated requests that the Commission (1) designate the application for modification of construction permit for hearing upon the issues set forth in its pleading, together with such further specific issues as the Commission may prescribe, and make protestant a party to said proceeding; and, pending hearing and decision, postpone the effective date of such action to the effective date of the Commission's decision after hearing; and/or (2) set aside the grants of the modification of construction permit and license and designate both applications for hearing for the reasons set forth in the pleading and make the protestant a party to such hearing; (3) enter an order requiring KGUL–TV to show cause why its license should not be revoked, or why a cease and desist order should not be issued requiring it to cease telecasting from its Houston studio and to discontinue use of the aural announcement identifying the station as a "Galveston-Houston area" facility; and (4) grant such other relief as the Commission may deem proper. In addition, the protestant requests the Commission to enter an order staying the effective date of the grants until the date of Commission action on the instant pleading.[2]

8. In its opposition to the instant protest and petition, Gulf urges that Houston Consolidated has failed to show standing under sections 309 (c) and 405 of the Communications Act of 1934, as amended, to attack the Commission's grants of modification of construction permit and license; that its claim to standing to protest the modification of construction permit grant is based on the fact that KGUL–TV's new construction will provide increased signal strength of Houston, but that the holding of the Commission in the Spartan case [4] (10 Pike & Fischer RR587) disposes of such contention; that the two affidavits and a letter from three Houston businessmen allegedly showing losses of business because of the action of the Commission granting the construction permit must be disregarded by the Commission as "completely lacking in bona fides and credibility"; [5] and that its claim of economic injury through failure to obtain a CBS affiliation and through loss of its "privilege" to broadcast a variety of national network programs must fail because it has shown no legal basis for a right to obtain a CBS affiliation [6] or to broadcast a variety of programs. Gulf also urges that Houston Consolidated lacks standing to request the issuance of an order to show cause for revocation of license or issuance of a cease and desist order because section 312 of the Communications Act does not create rights in third parties, and that such requests, therefore, should be summarily denied or dismissed.

9. In reply to the substantive allegations made by Houston Consolidated in support of its protest and petition Gulf alleges, in substance, that the grant of the modification of construction permit is consistent with § 3.607 of the Commission's rules, section 307 (b) of the Communications Act and the principles and purposes of the Sixth Report and Order; that the location of the transmitter and antenna system of KGUL–TV complies with the provisions of § 3.685 of the Commission's rules; that its station identification announcements have always been in conformity with § 3.652 of the rules; that it has not violated section 319 of the act or § 3.613 of the rules because it has not constructed a main studio in Houston; that it has not violated section 319 of the Act by constructing an auxiliary studio in Houston without prior Commission approval; that it has not failed to serve the needs and interests of Galveston; and that its programs do meet the needs of the people of Galveston and are consistent with the representations heretofore made to the Commission.

10. In light of the fact that Houston Consolidated is the permittee of a television broadcast station in Houston, Texas; that it will derive operating revenues from that area from the sale of national, regional and local advertising; that the grant of the application herein for modification of construction permit will result in KGUL–TV for the first time placing a principal city signal over the entire city of Houston and, therefore, will place it more directly in competition with Houston Consolidated's television station; and that Houston Consolidated has alleged with specificity that it has been and will continue to be financially injured by the above grant, we find that Houston Consolidated is a "party in interest" and a person aggrieved within the meaning of sections 309(c) and 405, respectively, of the Communications Act of 1934, as amended, to the Commission's action granting the above-entitled application for construction permit. Kansas State College of Agriculture and Applied Science, 8 Pike & Fischer RR26; Edwin G. Polan, et al., 8 Pike & Fischer RR398; Versluis Radio and Television, Inc., 9 Pike & Fischer RR102; Midwest Television, Inc., 9 Pike & Fischer RR611; T. E. Allen and Sons, Inc., 9 Pike & Fischer RR197; Ohio Valley Broadcasting Corp., 10 Pike & Fischer RR452. We believe that this case is distinguishable from the Spartan case cited by Gulf in two important respects: first, in the Spartan case the city of Greenville, South Carolina was already receiving more than a principal city signal, while here a large segment of Houston will be receiving such a signal for the first time; and secondly, in the Spartan case the Grade A and B contours of the operation from the new site were contained within the respective Grade A and B contours of the operation from the old site, while here the contours of the new operation extend well beyond those of the current operation.

11. With respect to the petition for reconsideration of the Commission's action of September 15, 1954, granting Gulf's application for license, section 319 of the Communications Act of 1934, as amended, provides that the Commission shall grant an application for license upon a showing "that all of the terms, conditions and obligations set forth in the application and permit have been fully met", and "that no cause or circumstance arising or first coming to the knowledge of the Commission since the granting of the permit would, in the judgment of the Commission, make the operation of such station against the public interest." As we pointed out in paragraph 3 above, KGUL–TV has been operating from its licensed site under STA since March 18, 1953, and under program test authority since March 26, 1954. Furthermore, Gulf's application was found by the Commission to have fully met all of the above-stated technical requirements of section 319, and Houston Consolidated has not alleged that those requirements have not been met. We cannot find at this point that the allegations before us are sufficiently likely of proof, or if proved, are sufficiently likely to warrant withholding of the license in question to justify setting aside our action issuing the license. We recognize, of course, that in the protest hearing protestant will seek to support his allegations by proof and to persuade us that such matters as may be proved do raise serious questions concerning the licensee. We will, of course, consider those matters and in our action here we are making no prior determination on the ultimate merits of the allegations now made with respect to Gulf's operation under its license, or whether action by the Commission with respect to the license in question may be warranted in the event such allegations are proved.

12. The petitioner has also requested that the Commission enter an order requiring Gulf to show cause why its license should not be revoked, or why a cease and desist order should not be issued requiring Gulf to cease telecasting from its Houston studio and to discontinue use of the aural announcement identifying the station as a "Galveston-Houston area" facility. We believe it would be premature as well as inappropriate to consider the aforesaid requests at this time, since all of the alleged unlawful practices of Gulf have been controverted by Gulf, and will be the subject of the hearing hereinafter ordered. Furthermore, section 312 of the Communications Act of 1934, as amended, which provides for the issuance of such orders by the Commission, does not create rights in third parties, but gives to the Commission complete discretion in the exercise of the powers granted thereunder. Accordingly, in the exercise of such discretion, the Commission believes that the above requests should be denied. It should not be implied from this action, however, that we will necessarily not consider taking appropriate action under section 312 if, after the hearing hereinafter ordered, circumstances appear to warrant it.

13. The Commission further finds that the protestant has specified with particularity the facts, matters and things relied upon as required by the provisions of section 309 (c) of the Communications Act to warrant the designation of the above-entitled application for modification of construction permit for hearing on the issues specified in the protest. However, we do not adopt such issues and the burden of proof with respect to each such issue will be upon the protestant.

14. In view of the foregoing: *It is ordered*, That, insofar as the petition herein requests reconsideration, pursuant to section 405 of the Communications Act of 1934, as amended, of the Commission's action of September 15, 1954, granting the above-entitled application for license, and insofar as it requests action by the Commission on its own motion pursuant to section 312 of the act, it is denied for the reasons stated above; that insofar as the petition herein requests reconsideration, pursuant to section 405 of the Communications Act, of the Commission's action of September 1, 1954, granting the above-entitled application for modification of construction permit, it is denied, in view of the hearing provided for below; that, effective immediately, the effective date of the grant of the above-entitled application for modification of construction permit is postponed pending a final determination by the Commission with respect to the protest herein of Houston Consolidated Television Company; and that pursuant to section 309 (c) of the Communications Act of 1934, as amended, the above-entitled application for modification of construction permit is designated for hearing at the offices of the Commission in Washington, D. C., on the following issues:

(1) To determine whether, under the facts and circumstances a grant of the application of Gulf Television Company (BPCT–1875) would be consistent with the provisions of § 3.607 of the Commission's rules, with the requirements of section 309 (b) of the Communications Act, and with the principles and purposes of the Commission's Sixth Report and Order;

(2) To determine whether the proposed location of KGUL–TV's transmitter and antenna system (BPCT–1875) is in violation of § 3.685 of the Commission's rules and regulations;

(3) To determine whether the programs offered by Gulf Television Company meet the needs of the people in Galveston, the principal community to be served, and whether such programs are consistent with the representations heretofore made to the Commission by Gulf Television Company;

(4) To determine whether Gulf Television Company has made station identification announcements in violation of § 3.652 of the Commission's rules;

(5) To determine whether Gulf Television Company has violated § 3.613 of the Commission's rules by the establishment of studio and offices in the Prudential Building, Houston, Texas;

(6) To determine whether Gulf Television Company commenced construction of a part of its station; namely, its Houston studio, without prior approval of the Commission, in violation of section 319 of the Communications Act;

(7) To determine whether full disclosure was made to the Commission, or whether any misrepresentations were made to the Commission, with respect to the intentions and plans of Gulf Television Company to establish and operate a television station to serve the needs and interests of Galveston; and

(8) To determine whether, in the light of the evidence adduced on the foregoing issues, the public interest, convenience and necessity require that the grant of the application for modification of construction permit of Gulf Television Company be vacated and set aside.

The burden of proof as to each of the above issues shall be on the protestant.

15. *It is further ordered*, That the protestant and the Chief of the Broadcast Bureau are hereby made parties to the proceeding herein and that:

(a) The hearing on the above issues shall commence at 10:00 a. m. on November 15, 1954, before an Examiner to be specified by the Commission; and

(b) The parties to the proceeding herein shall have fifteen (15) days after the issuance of the Examiner's decision to file exceptions thereto and seven (7) days thereafter to file replies to any such exceptions; and

(c) The appearances by the parties intending to participate in the above hearing shall be filed not later than November 8, 1954.

Adopted: October 27, 1954.

Released: October 27, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 54-8615; Filed, Nov. 1, 1954; 8:53 a. m.]

[2] This request was denied by the Commission by order dated October 13, 1954.

[3] Protest of Greenville Television Company, Greenville, South Carolina.

[4] Gulf alleges that the affidavits and letter do not support the contentions of Houston Consolidated and were not given in good faith but to be helpful to friends or business associates.

[5] Gulf points out that the letter from CBS relied upon by Houston Consolidated was dated June 25, 1954, more than two months before the Commission's grant herein.

SECURITIES AND EXCHANGE COMMISSION

[File No. 24D-1376]

FOUR STATES URANIUM CORP.

NOTICE OF AND ORDER FOR HEARING

OCTOBER 27, 1954.

Four States Uranium Corporation, 618 Rood Avenue, Grand Junction, Colorado, having filed with the Commission on August 16, 1954, a notification on Form 1–A and an offering circular relating to a proposed public offering of 300,000 shares of its $1 par value common stock, and

Consolidated and were not given in good faith but to be helpful to friends or business associates.

relied upon by Houston Consolidated was dated June 25, 1954, more than two months before the Commission's grant herein.

Furthermore, section 312 of the Communications Act of 1934, as amended,

be served, and whether such programs are consistent with the representations

Docket No. G-2588; G & N Oil Company, Docket No. G-2589; Shannon Oil Co.,

and an offering circular relating to a proposed public offering of 300,000 shares of its $1 par value common stock, and

amendments to the notification and offering circular on September 21, 1954, and September 24, 1954, for the purposes of obtaining an exemption from the registration provisions of the Securities Act of 1933, as amended, pursuant to the provisions of section 3 (b) thereof and Regulation A promulgated thereunder; and

The Commission, on October 11, 1954, having issued an order pursuant to Rule 223 (a) of the general rules and regulations under the Securities Act of 1933, temporarily suspending the conditional exemption under Regulation A and affording to any person having any interest therein an opportunity to request a hearing pursuant to said Rule 223, and a written request for a hearing having been received by the Commission on October 19, 1954, from the corporation, by its counsel; and

The Commission deeming it necessary and appropriate to determine whether to vacate the temporary suspension order or to enter an order permanently suspending the exemption:

It is hereby ordered, That a hearing under the applicable provisions of the Securities Act of 1933 and the rules of the Commission be held on November 5, 1954 at 10:00 a. m., m. s. t., at the Denver Regional Office of the Commission, at 162 New Customhouse, Denver 2, Colorado, with respect to the following specified matters and questions, without prejudice, however, to the specification of additional issues which may be present in these proceedings:

1. Whether the terms and conditions of Regulation A have been complied with by Four States Uranium Corporation.

2. Whether an offering circular has been delivered to all offerees and purchasers of the common stock of the company as required by Rule 219 (a) of the general rules and regulations under the Securities Act of 1933.

3. Whether the offering of the common stock of the company was commenced and any of the securities sold prior to the time permitted by Rule 219 (e) of the general rules and regulations under the Securities Act of 1933.

4. Whether the order dated October 11, 1954 suspending the exemption under Regulation A with respect to Four States Uranium Corporation should be vacated or made permanent.

It is further ordered, That William W. Swift, or any officer or officers of the Commission designated by it for that purpose shall preside at the hearing, and any officer or officers so designated to preside at any such hearing is hereby authorized to exercise all of the powers granted to the Commission under sections 19 (b), 21 and 22 (c) of the Securities Act of 1933, as amended, and to hearing officers under the Commission's rules of practice.

It is further ordered, That the Secretary of the Commission shall serve a copy of this order, by registered mail, on Four States Uranium Corporation, 618 Rood Avenue, Grand Junction, Colorado, and Joe Rosenthal, Suite 300, Travel Center Building, 1669 Broadway, Denver, Colorado, that notice of the entering of this order shall be given to all other persons by general release of the Commission, and by publication in the FEDERAL REGISTER. Any person who desires to be heard or otherwise wishes to participate in such hearing shall file with the Secretary of the Commission on or before November 3, 1954, a request relative thereto as provided in Rule XVII of the Commission's rules of practice.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70-3206]

ARKANSAS LOUISIANA GAS CO.

ORDER REGARDING EXTENSION OF BANK LOAN AGREEMENT

OCTOBER 27, 1954.

On March 22, 1954, the Commission issued its order herein pursuant to sections 6 (a) and 7 of the Public Utility Holding Company Act of 1935 ("act") permitting a declaration to become effective regarding a credit agreement between Arkansas Louisiana Gas Company ("Arkansas"), a public-utility subsidiary of Cities Service Company, a registered holding company, and Guaranty Trust Company of New York ("Guaranty"). Under such credit agreement, which was entered into on March 25, 1954, Arkansas has the right to borrow on or prior to November 1, 1954 up to $8,500,000 at 3¼ percent per annum. Arkansas has borrowed $1,000,000 thereunder and expects to borrow an additional $4,000,000 thereunder on or prior to November 1, 1954. Arkansas has filed an amended declaration pursuant to sections 6 (a) and 7 of the act proposing to enter into a letter agreement with Guaranty providing in substance for the extension to August 1, 1955, of the portion of Guaranty's commitment under the credit agreement not exceeding $3,500,00 as is unused on November 1, 1954. The letter agreement will provide that Arkansas pay a commitment fee equal to ½ of 1 percent per annum on the daily average amount of the commitment as remains unborrowed during the period from November 1, 1954, to August 1, 1955. Any amounts borrowed will mature February 1, 1956.

It is stated that there will be no fees or commissions (other than the commitment fee referred to above) and only nominal expenses in connection with the proposed transaction.

Due notice having been given of the filing of the amended declaration and a hearing not having been requested of or ordered by the Commission; and the Commission finding that the applicable provisions of the act and rules promulgated thereunder are satisfied and that no adverse findings are necessary, and that the amended declaration should be granted and permitted to become effective, forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of said act, that said amended declaration be, and the same hereby is, permitted to become effective, forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70-3301]

BLACKSTONE VALLEY GAS AND ELECTRIC CO. ET AL.

ORDER AUTHORIZING ISSUANCE AND SALE OF SHORT-TERM PROMISSORY NOTES BY SUBSIDIARIES TO BANKS AND PARENT

OCTOBER 26, 1954.

In the matter of Blackstone Valley Gas and Electric Company, Brockton Edision Company, Eastern Utilities Associates; File No. 70-3301.

Eastern Utilities Associates ("EUA"), a registered holding company, and its public-utility subsidiaries, Blackstone Valley Gas and Electric Company ("Blackstone") and Brockton Edison Company ("Brockton"), have filed a joint application-declaration pursuant to sections 7, 10 and 12 (f) of the Public Utility Holding Company Act of 1935 ("act") and Rules U-42 (b) (2) and U-43 promulgated thereunder regarding the following proposed transactions:

Blackstone and Brockton propose to borrow $870,000 and $1,100,000, respectively, from banks and EUA on or before July 31, 1955, such borrowings to be evidenced by unsecured promissory notes maturing on July 31, 1955. Such notes will bear interest for the initial quarter at the prime rate at the time of issuance as charged by banks for similar loans which, according to the filing, is 3 percent per annum at the present time and such notes may be prepaid, in whole or in part, without penalty prior to maturity. For subsequent quarterly periods the interest rate will be the prime rate in effect at the beginning of each such period.

The proceeds of said borrowings will be used to pay outstanding bank loan indebtedness, at or prior to maturity, or to pay for hurricane damage or for construction expenditures.

The application-declaration states that no fees, expenses, or other remuneration are to be paid in connection with the proposed transactions except legal fees and disbursements of counsel for Blackstone, Brockton and EUA in the aggregate amount of $985. The application-declaration further states that no State commission or Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Applicants-declarants request that this Commission's order become effective upon issuance.

Due notice of the filing of said application-declaration having been given in the manner prescribed by Rule U-23, and no hearing having been requested of or ordered by the Commission; and the Commission finding that the applicable standards of the act and the rules promulgated thereunder are satisfied,

and deeming it appropriate in the public interest and in the interest of investors and consumers that the application-declaration should be granted and permitted to become effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said application-declaration be, and hereby is, granted and permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File Nos. 811-641, 812-896]

GOVERNMENT EMPLOYEES MUTUAL FUND, INC., ET AL

NOTICE OF AND ORDER FOR HEARING CONCERNING CORPORATE NAME

OCTOBER 26, 1954.

In the matter of Government Employees Mutual Fund, Inc., File No. 811-641; Government Employees Insurance Company, Government Employees Life Insurance Company, Government Employees Corporation, File No. 812-896.

Government Employees Mutual Fund, Inc., a Delaware corporation, with its principal office in Washington, D. C., having filed with the Commission, on May 7, 1954, a notification of registration on Form N-8A, which notification states that the registrant proposes to engage in business as an open-end, diversified, management investment company; and

An application for an order under section 35 (d) of the Investment Company Act of 1940 having been filed with the Commission by Government Employees Insurance Company, a District of Columbia corporation; Government Employees Life Insurance Company, a District of Columbia corporation; and Government Employees Corporation, a Delaware corporation, which application represents, among other things, in substance, as follows:

(a) Government Employees Insurance Company has been engaged in business since 1937 in the writing of casualty insurance for Government employees (Federal, State and municipal) and officers in the armed services. Government Employees Life Insurance Company has since 1949 been engaged in the business of writing life insurance, and since 1952 in the business of writing health and accident insurance, for such Government employees. Government Employees Corporation has been engaged since 1949 in the business of financing automobiles for Government employees. The latter two corporations were organized by the management of Government Employees Insurance Company and are operated from the same offices.

(b) The offices of the three applicant companies do business within the Washington metropolitan area and throughout the United States. Their combined assets exceed $40,000,000 and they have approximately 300,000 policy holders and borrowers, of whom over 65,000 are located in the District of Columbia and adjoining states.

(c) The three applicant companies advertise widely in the District of Columbia and throughout the United States, and represent that they have expended over $1,000,000 in connection with such advertising.

(d) The three applicant companies are generally known and commonly referred to by the public, in the District of Columbia and elsewhere, as the "Government Employees Companies" or the "Government Employees Group".

(e) The securities of the three applicant companies are held by over 3,000 persons, many of them in the Washington metropolitan area, and such securities are actively traded on over-the-counter markets in Washington, New York, Baltimore, Philadelphia, Chicago and elsewhere. From time to time the three companies have made offerings of their securities to stockholders and to the general public. Such securities are frequently referred to as "Government Employees" securities.

(f) Applicants represent that the phrase "Government Employees" has become generally identified with the three applicants in the public mind where it appears in a corporate name or title in the fields of insurance, finance or the offering or sale of securities.

(g) The three applicant companies represent that Government Employees Mutual Fund, Inc., the registrant herein, has no connection or affiliation of any kind with the applicants, and has not been authorized by them to use such corporate name or title, and that the use of such corporate name and title by the registrant is deceptive and misleading within the prohibition of section 35 (d) of the Investment Company Act of 1940. Applicants represent that the use of the phrase "Government Employees" in the corporate name of the registrant has caused and will cause the public to be deceived and mislead by inducing them to believe erroneously that an affiliation or connection exists between the registrant and one or more of the applicants.

The foregoing application by Government Employees Insurance Company, and the other applicants therein, having requested that the Commission find and by order declare that the words "Government Employees" as used by the registrant in its corporate name and title are deceptive and misleading within the meaning of section 35 (d) of the Investment Company Act of 1940; and

It appearing to the Commission that a substantial question may exist as to whether such name may represent or imply that the securities issued by such company are guaranteed, sponsored, recommended or approved by the United States or any agency or officer thereof, within the meaning of section 35 (a) of said act; and

It further appearing to the Commission that it is in the public interest and the interest of investors that a hearing be held with respect to such matter, for the purpose of considering, in connection therewith, the various matters hereinafter set forth, and for the purpose of determining what order, if any, should be issued by the Commission pursuant to section 35 (d) and any other applicable provisions of the Investment Company Act of 1940; and that for such purposes the two proceedings herein (File Nos. 811-641 and 812-896) should be consolidated;

Wherefore it is ordered, That the two proceedings herein (File Nos. 811-642 and 812-896) be, and they are hereby, consolidated and that a hearing under the applicable provisions of the Investment Company Act of 1940 and the rules of the Commission thereunder be held on the 16th day of November 1954, at 10:00 a. m., in the offices of the Securities and Exchange Commission, 425 Second Street NW., Washington, D. C. At such time the Hearing Room Clerk will advise as to the room in which such hearing will be held. At such hearing consideration will be given to the following matters and questions, without prejudice, however, to the specification of any additional issues which may be presented by the use of such corporate name:

(1) Whether the use of the name "Government Employees Mutual Fund, Inc." and specifically the use of the word "Government" or the phrase "Government Employees" in such name, may have the effect of representing or implying that such registrant, or any securities issued thereby, has been guaranteed, sponsored, recommended, or approved by the United States or any agency or any officer thereof, in violation of section 35 (a) of said act, or, if such representation or implication may exist, whether such representation or implication may render such name deceptive or misleading within the scope of section 35 (d) of the act;

(2) Whether the name "Government Employees Mutual Fund, Inc." and specifically the phrase "Government Employees" therein, is deceptive or misleading, within the meaning of section 35 (d) of the act, as leading to confusion between the name of the registrant and the name of the presently existing Government Employees Insurance Company and related companies doing business in and around Washington, D. C. and elsewhere.

(3) Whether for any other reason such name is inconsistent with the provisions of said act;

(4) What order, if any, should be entered with respect to the use of such name or any words in such name, pursuant to the applicable provisions of the act.

It is further ordered, That Edward C. Johnson, or any officer or officers of the Commission designated by it for that purpose, shall preside at said hearing. The officer so designated is hereby authorized to exercise all the powers granted to the Commission under section 41 and 42 (b) of the Investment Company Act of 1940 and to a hearing officer under the Commission's rules of practice.

It is further ordered, That notice of such hearing is hereby given to Government Employees Mutual Fund, Inc., registrant herein, 1033 30th Street NW., Washington, D. C., and to Government

Room

other persons by general release of the

become effective, forthwith, subject to

promulgated thereunder are satisfied.

Employees Insurance Company, 14th and L Streets NW., Washington, D. C., such notice to be given by registered mail and by publication of this notice and order in the FEDERAL REGISTER. Notice is also given to any other person or persons whose participation in such proceedings may be necessary or appropriate in the public interest or for the protection of investors, such notice to be given by publication of this notice and order in the FEDERAL REGISTER and by general release of the Commission, distributed to the press and mailed to the mailing list for releases.

It is further ordered, That a copy of the application, filed by Government Employees Insurance Company and others hereinbefore referred to, shall be served upon the registrant herein, and that the registrant shall file with the Secretary of the Commission, not later than 15 days after the date of this notice, an answer or other pleading with respect to the matters set forth in this notice and order and in such application, such answer to state any facts or other material deemed pertinent by such registrant with respect to the use of such proposed name.

It is further ordered, That any person, other than the registrant or the aforenamed applicants, desiring to be heard in said proceedings, shall file with the Secretary of the Commission his application as provided by Rule XVII of the rules of practice, on or before the date provided in that rule setting forth any issues of law or facts which he desires to controvert or any additional issues which he deems raised by this notice and order or by such application.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 54-8590; Filed, Nov. 1, 1954; 8:48 a. m.]

SMALL BUSINESS ADMINISTRATION

DESCRIPTION OF ORGANIZATION AND FUNCTIONS

Creation and authority. The Small Business Administration was created under authority of the Small Business Act of 1953 (67 Stat. 232).

Purpose. To aid, counsel, assist, and protect, insofar as possible, the interest of small-business concerns in order to preserve free competitive enterprise; to insure that a fair proportion of the total purchases in contracts for supplies and services for the Government be placed with small-business enterprises; and to maintain and strengthen the overall economy of the Nation. To aid and assist victims of floods or other catastrophes.

Functions. To make a detailed definition of what constitutes a small-business concern using, among other criteria, number of employees and dollar volume of business; make loans to small-business concerns to finance plant construction, conversion, or expansion; or to finance the acquisition of equipment, facilities, machinery, supplies, or materials; and to supply such concerns with working capital; make loans to aid victims of floods or other catastrophes; certify the competency of small-business concerns or production pools to perform Government contracts; enter into joint determinations with Government procuring agencies with respect to procurements that are suitable for award to small-business concerns; consult with procurement officials in order to attain full use of productive capacity of small-business concerns; recommend approval of small business defense performance pools; take prime contracts and sublet their performance to small businesses; provide technical and managerial aids to small business; inventory productive facilities of small concerns; and consult with Government agencies to insure fair and reasonable treatment for small-business concerns.

Organization. Management of the Small Business Administration is vested in an Administrator appointed by the President with the advice and consent of the Senate. The Administrator is authorized to appoint three Deputy Administrators. Pursuant to this authority the following positions have been established: Deputy Administrator for Procurement and Technical Assistance, Deputy Administrator for Financial Assistance, and Deputy Administrator for Administration. The Administrator is authorized, subject to the Civil Service and Classification Laws, to select employees, appoint and fix the compensation of such officers, employees, attorneys, and agents as shall be necessary to carry out the provisions of the Small Business Act of 1953. Pursuant to this authority the following offices have been established:

Procurement and Technical Assistance.
Financial Assistance.
Economic Adviser.
Compliance and Security.
Information.
Management.
General Counsel.
Controller.

The Small Business Act of 1953 created the Loan Policy Board of the Small Business Administration which consists of the following members: The Administrator as chairman, the Secretary of the Treasury, and the Secretary of Commerce (or the presidentially appointed designee of each of said Secretaries). The Loan Policy Board is charged with the establishment of general policies (particularly with reference to the public interest) which govern the granting and denial of applications for financial assistance by the Administration.

TITLE 17—COMMODITY AND SECURITIES EXCHANGES

Chapter II—Securities and Exchange Commission

PART 230—GENERAL RULES AND REGULATIONS, SECURITIES ACT OF 1933

DEFINITION OF TERMS USED IN THE ACT

On August 30, 1954, the Securities and Exchange Commission published notice that it had under consideration a proposed amendment to § 230.133 (Rule 133), adopted under the Securities Act of 1933 (Securities Act Release No. 3512). All interested persons were invited to comment upon the proposed amendment. The Commission has considered the comments received and has determined to adopt the amendment in the form set forth below.

Purpose of amendment. Section 230.133 (Rule 133), which is in the form of a limited definition of the terms "sale", "offer", "offer to sell", and "offer for sale", serves to make clear that the registration and prospectus requirements of the Securities Act are inapplicable to certain mergers, consolidations, reclassifications of securities and transfers of assets between two corporations. The amendment, which broadens the rule so as also to exclude from the registration and prospectus requirements certain cases involving a parent corporation, a controlled company, and a third corporation, where the assets of the third corporation are transferred to the controlled company in consideration of the issuance of securities of the parent corporation, arises from the fact that section 368 (a) (1) (C) of the Internal Revenue Code, which defines tax-free "reorganizations", has just been amended in a somewhat similar manner.

Statutory basis. This action is taken pursuant to the Securities Act of 1933, particularly section 19 (a) thereof, the Commission deeming such action necessary and appropriate in the public interest and for the protection of investors and necessary to carry out the provisions of the act.

Section 230.133 is amended to read as follows:

§ 230.133 *Definition for purposes of section 5 of the act of "sale", "offer", "offer to sell", and "offer for sale".* For purposes only of section 5 of the act, no "sale", "offer", "offer to sell", or "offer for sale" shall be deemed to be involved so far as the stockholders of a corporation are concerned where, pursuant to statutory provisions in the State of incorporation or provisions contained in the certificate of incorporation, there is submitted to the vote of such stockholders a plan or agreement for a statutory merger or consolidation or reclassification of securities, or a proposal for the transfer of assets of such corporation to another person in consideration of the issuance of securities of such other person or voting stock of a corporation which is in control, as defined in section 368 (c) of the Internal Revenue Code of 1954, of such other person, under such circumstances that the vote of a required favorable majority (a) will operate to authorize the proposed transaction so far as concerns the corporation whose stockholders are voting (except for the taking of action by the directors of the corporation involved and for compliance with such statutory provisions as the filing of the plan or agreement with the appropriate State authority), and (b) will bind all stockholders of such corporation except to the extent that dissenting stockholders may be entitled, under statutory provisions or provisions contained in the certificate of incorporation, to receive the appraised or fair value of their holdings.

(Sec. 19, 48 Stat. 85, as amended; 15 U. S. C. 77s)

The foregoing amendment to § 230.133 is interpretive and shall be effective on October 26, 1954.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

OCTOBER 22, 1954.

[F. R. Doc. 54-8642; Filed, Nov. 2, 1954; 8:48 a. m.]

PART 230—GENERAL RULES AND REGULATIONS, SECURITIES ACT OF 1933

SECURITIES EXEMPTED; AMOUNT

Purpose of amendments. On September 27, 1954, the Securities and Exchange Commission published notice that it had under consideration proposed amendments to §§ 230.216 and 230.217 (Rules 216 and 217) of its Regulation A under the Securities Act of 1933 (See Securities Act of 1933 Release No. 3518). All interested persons were invited to comment upon the proposed amendments. The Commission has considered the comments received and has determined to adopt the amendments in the form set forth below.

Regulation A exempts from registration under the act offerings of securities not in excess of $300,000 which are made in accordance with the terms and conditions of the regulations.

The amendment to Rule 216 would make Regulation A available for a rights offering by a domestic or foreign majority-owned subsidiary of any resident of the United States having its principal business in the United States and its securities registered for trading on a national securities exchange. The amendment to § 230.217 (Rule 217) would exclude from the computation of the $300,000 limitation of Regulation A that portion of a warrant or rights offering pro rata to security holders made outside of the United States.

Statutory basis. The amendments are adopted pursuant to the Securities Act of 1933, particularly sections 3 (b) and 19 (a) thereof, the Commission deeming such action necessary and appropriate in the public interest and for the protection of investors and necessary to carry out its functions under the act.

1. Section 230.216 is amended to read as follows:

§ 230.216 *Securities exempted.* (a) Except as hereinafter provided in this section, securities issued by any of the following persons shall be exempt from registration under the act if offered in accordance with the terms and conditions of §§ 230.215 to 230.224: (1) Any resident of the United States having his or its principal business operations in the United States, or (2) in the case of an offering to existing security holders on a pro rata basis pursuant to warrants or rights, any direct or indirect majority owned subsidiary of any resident of the United States having its principal business operations in the United States and its securities registered for trading on a national securities exchange pursuant to the provisions of the Securities Exchange Act of 1934.

2. Section 230.217 (a) (1) and (2) are amended to read as follows:

§ 230.217 *Amount of securities exempted.* (a) The aggregate offering price of all of the following securities of (i) the issuer, (ii) its predecessors and (iii) all of its affiliates which were organized, or became affiliates of the issuer, within the past 2 years, shall not exceed $300,000:

(1) All securities of such persons presently being offered under §§ 230.215 to 230.224, §§ 230.500 to 230.510, or specified in the notification under § 230.218 or § 230.503 as proposed to be so offered;

(2) All securities of such persons previously sold pursuant to an offering under §§ 230.215 to 230.224, or §§ 230.500 to 230.510, commenced within one year prior to the commencement of the proposed offering;

* * * * * *

3. A new subparagraph (3) is added to § 230.217 (e) as follows:

(e) * * * or (3) in the case of an offering by an issuer to existing security holders on a pro rata basis pursuant to warrants or rights, that portion of the offering made outside of the United States.

(Sec. 19, 48 Stat. 85, as amended; 15 U. S. C. 77s)

Effective date. The foregoing amendments shall be effective on October 25, 1954.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

OCTOBER 22, 1954.

[F. R. Doc. 54-8641; Filed, Nov. 2, 1954; 8:48 a. m.]

TITLE 14—CIVIL AVIATION

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 112]

PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

PROCEDURE ALTERATIONS

The standard instrument approach procedure alterations appearing hereinafter are adopted to become effective when indicated in order to promote safety. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

Part 609 is amended as follows:

NOTE: Where the general classification (LFR, VAR, ADF, ILS, GCA, or VOR), location, and procedure number (if any) of any procedure in the amendments which follow, are identical with an existing procedure, that procedure is to be substituted for the existing one, as of the effective date given, to the extent that it differs from the existing procedure; where a procedure is canceled, the existing procedure is revoked; new procedures are to be placed in appropriate alphabetical sequence within the section amended.

1. The automatic direction finding procedures prescribed in § 609.8 are amended to read in part:

ADF STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, and courses are magnetic. Distances are in statute miles unless otherwise indicated. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation.

If an ADF instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure authorized by the Administrator for Civil Aeronautics for such airport. Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below.

City and State; airport name, elevation; facility; class and identification; procedure No.; effective date	Initial approach to facility from—	Course and distance	Minimum altitude (ft.)	Procedure turn (—) side of final approach course (outbound and inbound); altitudes; limiting distances	Minimum altitude over facility on final approach course (ft.)	Course and distance, facility to airport	Ceiling and visibility minimums: Condition	Type aircraft: 75 m. p. h. or less	Type aircraft: More than 75 m. p. h.	If visual contact not established at authorized landing minimums after passing facility within distance specified, or if landing not accomplished
1	2	3	4	5	6	7	8	9	10	11
DALHART, TEX. Municipal, 3,989' MH-DHT Procedure No. 1 Amendment No. 4 Effective, December 10, 1954 Supersedes Amendment 3, dated August 2, 1954. Major changes: Raise circling landing minimums.	Dalhart RVOR	171—4.5	5,200	E side of course [illegible] 5,200' within 10 miles.	4,700	On airport	2 engines or less T-dn C-dn A-dn	300-1 700-1 800-2	300-1 700-1 800-2	Within 0 mile climb to 5,300' on course of 311° within 25 miles.
							More than 2 engines T-dn C-dn A-dn		200-½ 700-1½ 800-2	
PINE BLUFF, ARK. Grider Field, 205' MH-PBF Procedure No. 1 Amendment No. 2 December 10, 1954 Supersedes Amendment 1, dated October 9, 1954. Major changes: Lowers alternate minima; raises missed approach altitude; deletes notes.	Pine Bluff VOR	178—4.5	1,900	E side of course 178° outbound 358° inbound 1,500' within 10 miles Beyond 10 miles not authorized.	900	On airport	2 engines or less T-dn C-dn A-dn	300-1 600-1 800-2	300-1 600-1 800-2	Within 0 mile turn left and climb to 1,500' on course of 170° from PBF RBN within 25 miles.

Agricultural Marketing Service

[7 CFR Part 52]

U. S. STANDARDS FOR GRADES OF DRIED APPLES

EXTENSION OF TIME FOR FILING DATA, VIEWS, AND ARGUMENTS

A proposed revision of the United States Standards for Grades of Dried Apples was set forth in the notice which was published in the FEDERAL REGISTER of August 18, 1954 (19 F. R. 5222).

In consideration of comments and suggestions received indicating the need for further study of the proposed changes, notice is hereby given of an extension until March 1, 1955, of the period of time within which written data, views, and arguments may be submitted by interested parties for consideration in connection with the aforesaid proposed revision of the United States Standards for Grades of Dried Apples.

Dated: October 29, 1954.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator, Marketing Services.

Federal Maritime Board

KNUTSEN LINE JOINT SERVICE ET AL.

NOTICE OF AGREEMENTS FILED FOR APPROVAL

Notice is hereby given that the following described agreements have been filed with the Board for approval pursuant to section 15 of the Shipping Act, 1916, as amended; 39 Stat. 733, 46 U. S. C. 814.

(1) Agreement No. 7623-3, between the carriers comprising the Knutsen Line joint service, modifies joint service Agreement No. 7623 to provide for the addition of Skibsaktieselskapet Ogeka as a party to the joint service.

(2) Agreement No. 7999 between Flota Mercante del Estado (Argentine State Line), and Bull Insular Line, Inc., covers the transportation of cargo under through bills of lading from Argentine, Uruguayan, and Brazilian ports to Puerto Rico, with transshipment at New York, Baltimore, or Philadelphia. This agreement supersedes and cancels Agreement No. 7656.

(3) Agreement No. 8003, between N. V. Nederlandsch-Amerikaansche Stoomvaart-Maatschappij, "Holland-Amerika Lijn," and Waterman Steamship Corporation, covers the transportation of cargo under through bills of lading from Mexico to Puerto Rico, with transshipment at New Orleans, La. Agreement No. 8003 was filed to supersede and cancel agreements numbered 3989 and 4491.

(4) Agreement No. 8230, between American Export Lines, Inc., American President Lines, Ltd., the Blue Funnel Line joint service, Ellerman and Bucknall Associated Lines joint service, Barber-Fern-Ville Lines joint service, Concordia Line joint service, Thos. & Jno. Brocklebank, Ltd., Isthmian Steamship Company, Hoegh Lines joint service, N. V. Stoomvaart Maatschappij "Nederland," Koninklyke Rotterdamsche Lloyd, N. V., N. V. Nederlandsch-Amerikaansche Stoomvaart Maatschappy Holland-Amerika Lyn., and A. P. Moller-Maersk Line joint service, provides for the creation of a conference to be known as the Red Sea & Gulf of Aden/U. S. Atlantic & Gulf Freight Conference, for the establishment and maintenance of just and reasonable rates, charges and practices, for or in connection with the transportation of all cargo, in the trade from the Red Sea & Gulf of Aden from Aden to Suez, inclusive, to United States Atlantic and Gulf ports, by direct call or transhipment.

Interested parties may inspect these agreements and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to any of the agreements and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

Dated: October 29, 1954.

By order of the Federal Maritime Board.

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 10965; FCC 54M-1352]

SEATON PUBLISHING CO.

ORDER CONTINUING HEARING

In re application of the Seaton Publishing Company, Hastings, Nebraska, Docket No. 10965, File No. BPCT-1265; for construction permit for new television station (Channel 5).

In order to formalize an action on a Petition for Continuance, heretofore granted orally on October 5, 1954:

It is hereby ordered, This 26th day of October 1954 that the hearing in the above entitled matter be continued from October 6, 1954, to November 10, 1954, at 10:00 a. m. in the Commission's Offices in Washington, D. C.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[Docket Nos. 11101, 11102; FCC 54M-1355]

GREENWOOD BROADCASTING CO., INC., AND CHEROKEE BROADCASTING CO.

STATEMENT AND ORDER CONTINUING HEARING

In re applications of Greenwood Broadcasting Company, Inc., Chattanooga, Tennessee, Docket No. 11101, File No. BP-9133; Max M. Blakemore and E. C. Blakemore, d/b as Cherokee Broadcasting Company, Murphy, North Carolina, Docket No. 11102, File No. BP-9210; for construction permits.

Appearances. Stephen Tuhy, Jr., on behalf of Greenwood Broadcasting Company, Inc.; Harry J. Daly on behalf of Cherokee Broadcasting Company; Maurice M. Jansky, on behalf of Valley Broadcasting Company; Charles V. Wayland, on behalf of Mount Castle Broadcasting Company, Inc. (WROL), and Jerome S. Boros, on behalf of the Chief of the Broadcast Bureau, Federal Communications Commission.

1. Pursuant to §§ 1.813 and 1.841 (c) of the Commission's rules, as amended, a pre-hearing conference was held in the above-entitled proceeding, at the office of the undersigned Hearing Examiner, on October 22, 1954, at which both of the applicants and the Broadcast Bureau of the Federal Communications Commission were represented by counsel. Counsel for Valley Broadcasting Company, applicant for a new AM broadcast station at Murphy, North Carolina, to be operated on 600 kc, with power of 1 kc, daytime only, as well as counsel for Mount Castle Broadcasting Company, Inc., licensee of Station WROL, Knoxville, Tennessee, operating on 620 kc, were also present at this pre-hearing conference and requested permission to participate therein. It appears from the statements of counsel for these parties and from the Commission's records that an application was filed on behalf of Valley Broadcasting Company on September 10, 1954, requesting the identical facilities specified in the application of Cherokee Broadcasting Company; that on September 30, 1954, that applicant was advised by a letter from this Commission that its proposal was mutually exclusive with the applications of Cherokee Broadcasting Company and Greenwood Broadcasting Company, Inc.; and that such proposal should therefore be designated for hearing in consolidation with these applications. However, at the time of this conference no reply to this letter had been filed by Valley Broadcasting Company. Counsel for Mount Castle Broadcasting Company, Inc. has stated that his client received a copy of this letter and was advised by the Commission that there is a question of objectionable interference between the operation of the station proposed by Valley Broadcasting Company and the operation of Station WROL and that subsequently a reply was filed to this letter advising the Commission that Mount Castle Broadcasting Company, Inc. desires to be made a party to the proceeding. In view of these circumstances, the Examiner permitted counsel for Valley Broadcasting Company and Mount Castle Broadcasting Company, Inc. (WROL), to participate in the pre-hearing conference on the assumption that their clients would eventually be made parties to the proceeding by formal action of the Commission but with the understanding that if for any reason they should not subsequently become parties such participation by their counsel would be stricken. Counsel for Greenwood Broadcasting Company, Inc., Cherokee Broadcasting Company, and the Chief of the Broadcast Bureau of this Commission all consented to the participation by counsel for Valley Broadcasting Company, Inc., on this basis.

2. The Examiner ruled that the hearing would be conducted in its entirety in accordance with the Commission's new hearing procedures, namely, pursuant to §§ 1.813 and 1.841 of its rules, as amended, on July 15, 1954, and that in conformance therewith each of the applicants would prepare and submit its entire affirmative case in writing.

3. Counsel for Cherokee Broadcasting Company stated on the record that he would be absent from the United States during the month of November due to the fact that he is planning to attend the United States-Mexican Conference Concerning Standard Broadcast Matters, scheduled to begin in Mexico City on November 4, 1954. As above indicated, no formal action has yet been taken by this Commission designating the application of Valley Broadcasting Company for hearing in the instant proceeding and at the time of the pre-hearing conference the date appeared uncertain as to when such action would be taken. Due to uncertainty as to the length of time counsel for Cherokee Broadcasting Company would actually be absent from the United States and which might elapse before the Commission will act in designating the application of Valley Broadcasting Company for hearing, tentative dates were fixed by the Examiner, which were agreed to by all of the counsel who participated in this conference for the exchange of exhibits, a final pre-hearing conference and the commencement of the taking of testimony in the proceeding, as follows: On December 15, 1954, a pre-hearing conference will be held at which the entire affirmative cases of the applicants in the proceeding, including depositions to be taken on behalf of such applicants prior thereto, will be presented to the Hearing Examiner and exchanged between all of the parties. On December 22, 1954, a final pre-hearing conference will be held pursuant to § 1.841 (c) of the Commission's rules, as amended, for the purpose of discussing (1) the possibility of agreements disposing of any evidentiary issues raised with respect to the exhibits previously exchanged between the parties; (2) the limitation on cumulative evidence; (3) the number of witnesses and estimated length of testimony; (4) need for the use of depositions; and (5) any other matters which may aid the disposition of the hearing. On January 4, 1955, the taking of testimony in the instant proceeding will commence.

4. It was agreed that the affirmative cases to be presented by all of the applicants would be prepared in narrative form.

5. During the course of this pre-hearing conference various other stipulations and agreements were entered into between the parties which were accepted by the Hearing Examiner and which will eventually be incorporated in his Order governing the course of the hearings.

Accordingly: it is ordered, This 28th day of October 1954, that the hearing in the above-entitled proceeding now scheduled to be held on November 9, 1954, is hereby continued until January 4, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[Docket Nos. 11175, 11176; FCC 54M-1354]

ABRAHAM KLEIN

STATEMENT CONCERNING PRE-HEARING CONFERENCE AND ORDER CONTINUING HEARING

In re applications of Abraham Klein, Hartford, Connecticut, Docket No. 11175, File No. 1084-C2-P-54; Abraham Klein, Columbus, Ohio, Docket No. 11176, File No. 286-C2-P-54; for construction permits for one-way signaling stations in the Domestic Public Land Mobile Radio Service.

At the pre-hearing conference held herein on October 25, 1954, the following agreements were reached among the

parties and are found to be acceptable and approved by the Hearing Examiner:

(1) It was stipulated that the basis for determining the service field intensity required for one-way radio paging service at 40 megacycles, and in or about that band, shall be determined according to the criteria set forth in a monograph written by Harry Fine, an engineer on the Commission's staff. In using this monograph, reference should be made to Channel 2 curves for television, as set forth in the Commission's engineering standards for television, compensated by an adjustment downward of 6 decibels (db) to reflect the lower antenna height of the receiver which is used in the particular service involved here.

(2) Official notice will be taken of the listed documents issued in the following proceedings:

In re applications of Page Boy, Inc., New York, New York, Docket No. 10388, File No. 1142-C2-P-52; Abraham Klein, New York, New York, Docket No. 10443, File No. 938-C2-P-53; for construction permits in the Domestic Public Land Mobile Radio Service.

(FCC 53D-40) Initial Decision, released August 24, 1953.

(FCC 54-690) Decision and Order, released June 4, 1954.

(FCC 54-1031) Decision and Order, released August 9, 1954.

(FCC 54-1177) Order, released September 21, 1954.

(3) Copies of Exhibits 32, 43, 44, 45, 46, 47, and 48 in the proceedings, referred to in paragraph (2) above, may be introduced in evidence without further authentication, and no objection will be made on the technical basis of lack of proper authentication of such documents.

(4) Testimony taken in the proceedings referred to in paragraph (2) above is incorporated into the record herein, as follows: transcript pages 401 through 403, 407 through 408, 410 through 417, 443 through 450, 454 through 455, 457 through 458, 466 through 468, 471 through 472, 482 through 483, 493 through 497, 499 only, 521 through 525, and 538 through 539.

(5) Copies of the following documents may be introduced in evidence without certification and seal of the Post Office Department, and no objection will be made on the technical basis of lack of proper authentication of such documents:

(a) Certificate of the Chief Hearing Examiner of the Post Office Department, issued March 18, 1954, with attached orders of the Post Office Department in the matter of the complaint that Classified Publishing Corporation, et al., are engaged in conducting a scheme for obtaining money through the mails by means of false and fraudulent pretences, representations and promises, in violation of 39 U. S. Code 257 and 732 (sections 39, 29, and 40 and 41 of the revised statutes, as amended).

(b) Order, dated October 9, 1953, issued by Post Office Department in docket referred to in paragraph (a) above.

On request of applicant and for good cause shown, postponement of the hearing until December 2, 1954, was granted, and applicant's request for a three-month continuance was denied as unreasonable.

It is ordered, This 28th day of October 1954, that the foregoing requirements shall govern the course of the proceeding to the extent indicated, unless modified by the Examiner for cause or by the Commission upon review of the Examiner's ruling.

It is further ordered, That the hearing herein, scheduled for November 4, 1954, is continued, on request of the applicant, until December 2, 1954, at 10:00 a. m.

[Docket No. 11208; FCC 54-1330]

HARLINGEN RADIO SYSTEM

ORDER DESIGNATING APPLICATIONS FOR HEARING ON STATED ISSUES

In re applications of W. R. Carmean, d/b as Harlingen Radio System, Harlingen, Texas, Docket No. 11208, File No. 2243-C2-P-54; for construction permits for base station and associated mobile units in the Domestic Public Land Mobile Radio Service.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 27th day of October 1954;

The Commission having under consideration (1) the above-entitled applications of W. R. Carmean, d/b as Harlingen Radio System for authorization to construct a facility in the Domestic Public Land Mobile Radio Service at Harlingen, Texas, and (2) the Annual reports on FCC Form L filed with the Commission for the years 1951, 1952, and 1953 with respect to station KKA403 licensed to W. R. Carmean, d/b as Brownsville Radiotelephone System in the Domestic Public Land Mobile Radio Service at Brownsville, Texas; and

It appearing, that, in the instant applications W. R. Carmean seeks authorization to construct a base station and associated mobile units using the frequencies 152.03 Mc. and 158.49 Mc., respectively, at Harlingen, Texas, and that said applicant is presently operating station KKA403 in the Domestic Public Land Mobile Radio Service at Brownsville, Texas, approximately 25 miles from Harlingen, on the same frequencies as proposed herein; and

It further appearing, that, it is questionable whether both the proposed and existing base stations of the applicant may be operated simultaneously without inducing mutual harmful co-channel interference; and

It further appearing, that, station KKJ447, licensed to Franklin T. Wilson, d/b as Wilson Radio Dispatch, located at McAllen, Texas, approximately 35 miles west of the proposed Harlingen station is operating on the frequencies applied for herein and that mutual harmful co-channel interference may result between station KKJ447 at McAllen and the proposed station at Harlingen; and

It further appearing, that, there is some doubt concerning the applicant's technical qualifications to construct and operate the proposed radio facilities; and

It further appearing, that, the Annual reports on FCC Form L filed for the years 1951, 1952, and 1953 by W. R. Carmean, as licensee of station KKA403 show that, although a base station and 15 mobile units have been authorized for that facility, the station has had no subscribers, no full-time employees, no part-time employees, and no revenue messages and that the two mobile units reported as being served in 1953 were used by the licensee or his affiliate; and

It further appearing, that, no members of the public have received a common carrier service through the facilities of station KKA403 and, in light of that fact, and the fact that no mobile units are proposed to be furnished to subscribers in the instant applications, a communication common carrier service to the public may not in fact be intended in the instant applications; and

It further appearing, that, the instant applications fail to show that there is a need for the proposed service at Harlingen, Texas; and

It further appearing, that, the Commission advised the applicant by letter, dated September 28, 1954, pursuant to the provisions of section 309 (b) of the Communications Act of 1934, as amended, of the reasons why his applications cannot be granted without hearing and that reply, dated October 5, 1954, has been received from the applicant and duly considered:

It is ordered, That, pursuant to the provisions of section 309 (b) of the Communications Act of 1934, as amended, the above-entitled applications are designated for hearing at the offices of the Commission in Washington, D. C., commencing at 10:00 a. m. on December 6, 1954, upon the following issues:

1. To determine the technical qualifications of the applicant to construct and operate the proposed stations.

2. To determine the areas and populations which may be expected to receive service from the proposed facilities and the public need for such service in the areas to be served.

3. To determine whether any mutual harmful co-channel interference would result from the operation of the proposed station at Harlingen, Texas, and station KKJ447 at McAllen, Texas.

4. To determine whether any mutual harmful co-channel interference would result from the operation of the proposed station at Harlingen, Texas, and station KKA403 at Brownsville, Texas, and, if so, whether a coordinated operation of the station is feasible between the communities involved.

5. To determine, in light of the past record of operation by W. R. Carmean of station KKA403 at Brownsville, Texas, whether a common carrier service has been and is being rendered by station KKA403 and, if not, whether in light of the record made in this proceeding it can be reasonably concluded that a com-

mon carrier service will be rendered by his proposed station at Harlingen, Texas.

6. To determine the facts with respect to the proposed facilities, personnel, rates, regulations, practices, and services of the applicant for the furnishing of Domestic Public Land Mobile Radio Service.

7. To determine, on the basis of the record made on the foregoing issues, whether the public interest, convenience or necessity will be served by a grant of the subject applications.

It is further ordered, That, Franklin T. Wilson, d/b as Wilson Radio Dispatch, licensee of station KKJ447 at McAllen, Texas, is made party respondent to this proceeding.

Released: October 28, 1954.

Secretary.

[F. R. Doc. 54-8651; Filed, Nov. 2, 1954; 8:51 a. m.]

[Docket No. 11209; FCC 54-1348]

LEONARD J. SHAFITZ

ORDER TO SHOW CAUSE

In the matter of Leonard J. Shafitz, Sharon, Pennsylvania; order to show cause why the construction permit for Television Station WSHA (TV), Sharon, Pennsylvania, should not be revoked.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 27th day of October 1954;

The Commission having under consideration the issuance of an order, pursuant to section 312 (a) of the Communications Act of 1934, as amended, directed to Leonard J. Shafitz, Sharon, Pennsylvania, to show cause why the construction permit for television station WSHA (TV), Sharon, Pennsylvania, should not be revoked because of the submission of an allegedly false verified statement with respect to the permittee's financial qualifications to construct and operate the proposed television station; and

It appearing, that Leonard J. Shafitz, on December 23, 1953, and January 6, 1954, by amendment to his application for a construction permit for station WSHA (TV), submitted for filing with the Commission a verified financial statement, dated December 14, 1953, showing that as of December 14, 1953, his assets consisted of the following: $25,000, cash on deposit in Union National Bank of Long Island, New York; $5,000, United States Government Savings Bonds; $15,000, cash on hand; $20,000, promissory note for gift from Dr. and Mrs. A. L. Goldwyn; and $30,000 property valuation of dwellings located at S. Oakland Avenue, Second Avenue, and Sterling Avenue, all situated in Sharon, Pennsylvania; and that the aforesaid financial statement shows no outstanding liabilities; and

It further appearing, that Leonard J. Shafitz, Permittee of television station WSHA, Sharon, Pennsylvania, willfully and knowingly in violation of sections 308 (a) and 308 (b) of the Communications Act of 1934, as amended, and of section 1.305 of the Commission's rules and regulations submitted a financial statement containing material misrepresentations covering his financial qualifications to construct and operate the proposed television station at Sharon, Pennsylvania, upon which the Commission relied in granting him a construction permit on January 27, 1954; and

It further appearing, that a field inquiry conducted by the Commission's staff subsequent to the grant of the permit, specifically April 27 through 29, 1954, revealed that the total of unencumbered parcels of real property allegedly owned in fee simple by the permittee as represented to the Commission in his application for a construction permit was not owned by him at the time of filing his verified statement of financial condition with the Commission; and that as to the personal property shown on his financial statement and relied upon by the Commission when the construction permit was granted, the permittee refused to divulge any information showing to what extent he owned or had available to him the assets described in his statement of financial condition submitted by him and dated December 14, 1953, for association with his then pending application for construction for a television station at Sharon, Pennsylvania, even though he was afforded ample opportunity to do so; and

It further appearing, that a registered mail letter was directed to Leonard J. Shafitz, 542 South Oakland Avenue, Sharon, Pennsylvania, on June 18, 1954, wherein he was afforded another opportunity to fully advise the Commission in the matter, to which a response was received on July 7, 1954; and

It further appearing, that the Commission, after careful consideration of all the material furnished by Leonard J. Shafitz in the aforesaid letter is still not satisfied that the verified financial statement of Leonard J. Shafitz, dated December 14, 1953, and submitted as an amendment to his application for a construction permit for a new television station to be located in Sharon, Pennsylvania, was a true and correct statement of his personal financial position at December 14, 1953;

It is ordered, That pursuant to sections 312 (a) (1) and 312 (a) (2) of the Communications Act of 1934, as amended, Leonard J. Shafitz, Permittee of Station WSHA-(TV), be and is hereby directed to show cause why there should not be issued an order revoking his station permit; and

It is further ordered, That a hearing in this matter will be held in the Commission's Offices, Twelfth and Pennsylvania Avenue NW., Washington 25, D. C., at 10:00 A. M. on the 7th day of December 1954, in order to determine whether said Order of Revocation should be issued, and that Leonard J. Shafitz is herewith called upon to appear at this hearing and give evidence upon the matters specified herein; and

It is further ordered, That pursuant to §§ 312 (a) and 312 (c) of the Communications Act of 1934, as amended, and § 1.402 of the Commission's rules and regulations, the said Leonard J. Shafitz is directed to file with the Commission within thirty days of the receipt of this order a written appearance in triplicate, stating that he will appear and present evidence on the matters specified in this order if he desires to avail himself of the opportunity to appear before the Commission. If said Leonard J. Shafitz does not desire to appear before the Commission to proffer evidence on the matters specified herein, he shall, within thirty days of the receipt of this order, file with the Commission, in triplicate, a written waiver of hearing. Such waiver may be accompanied by a statement of reasons why Leonard J. Shafitz believes that an Order of Revocation should not be issued; and

It is further ordered, That failure of said Leonard J. Shafitz timely to respond to this order or failure to appear at the hearing designated herein will be deemed a waiver of hearing.

Released: October 28, 1954.

[Docket No. G-2656]

B. B. ORR

NOTICE OF APPLICATION AND ORDER FIXING DATE OF HEARING

Take notice that B. B. Orr (Applicant), an individual with his principal office in Longview, Texas, filed on September 2, 1954, application for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing Applicant to make sales of natural gas as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in his application filed herein.

Applicant produces natural gas in Willow Springs Field, Longview, Texas, which he sells to Texas Eastern Transmission Corporation for resale in interstate commerce.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 17th day of November 1954. The application is on file with the Commission for public inspection.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure.

The Commission finds: It is proper and consistent with the public interest that notice of the application and order fixing date of hearing be published simultaneously.

The Commission orders: Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on November 22, 1954, at 9:30 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved and the issues presented by such application: *Provided, however*, That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure.

Adopted: October 27, 1954.

Issued: October 28, 1954.

By the Commission.

[Docket No. G-2712]

ARKANSAS FUEL OIL CORP.

NOTICE OF APPLICATION AND ORDER FIXING DATE OF HEARING

Take notice that Arkansas Fuel Oil Corporation (Applicant), a Delaware corporation with its principal office in Shreveport, Louisiana, filed on September 8, 1954, and amended October 4, 1954, an application for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing Applicant to make sales of natural gas subject to the jurisdiction of the Commission.

The application as amended states that Applicant sells natural gas in interstate commerce in (a) the Logansport Field, DeSoto Parish, Louisiana, to Southern Natural Gas Company; (b) the Logansport Field, DeSoto Parish, Louisiana, to the United Gas Pipe Line Company, (c) the Carthage Field, Panola County, Texas, to the United Gas Pipe Line Company, (d) the Furrh and Stone leases in the Waskom Field, Harrison County, Texas, to the Arkansas Louisiana Gas Company, (e) the P. D. Harrison Unit C-1 in the Willow Springs Field, Gregg County, Texas, (f) the Ratcliff Lease, Rodessa Field, Caddo Parish, Louisiana, to the Arkansas Louisiana Gas Company, (g) the Haynesville Field, Claiborne Parish, Louisiana, to the Arkansas Louisiana Gas Company, (h) Gille Unit, Sligo Field, Bossier Parish, Louisiana, to Arkansas Louisiana Gas Company, (i) two wells in the Bethany Field, Panola County, Texas, to United Gas Pipe Line Company, (j) Duck Lake Field, St. Martin and St. Mary Parishes, Louisiana, to United Gas Pipe Line Company, (k) Mustang Island Field, Corpus Christi Bay, Nueces County, Texas, to United Gas Pipe Line Company, (l) Mariposa Field, Brooks County, Texas, to Tennessee Gas Transmission Company.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 18th day of November 1954. The application is on file with the Commission for public inspection.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations.

The Commission finds: It is proper and consistent with the public interest that notice of the application and order fixing date of hearing be published simultaneously.

The Commission orders: Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on November 23, 1954, at 9:40 a. m. e. s. t. in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the provisions of § 1.30 (c) (2) of the Commission's rules of practice and procedure.

Adopted: October 27, 1954.

Issued: October 28, 1954.

By the Commission.

[Docket No. G-2782]

IRA W. BELCHER, AGENT

NOTICE OF APPLICATION AND ORDER FIXING DATE OF HEARING

Take notice that Ira W. Belcher, Agent (Applicant), an individual whose address is 207 Dominion Building, Charleston, West Virginia, filed on September 15, 1954, application for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing Applicant to make sales of natural gas as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in its application filed herein.

Applicant produces natural gas in the Hinkle-Persinger Field, Braxton County, West Virginia, which it sells to Equitable Gas Company for resale in interstate commerce.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 15th day of November 1954. The application is on file with the Commission for public inspection.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure.

The Commission finds: It is proper and consistent with the public interest that notice of the application and order fixing date of hearing be published simultaneously.

The Commission orders: Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on November 18, 1954, at 9:30 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure.

Adopted: October 27, 1954.

Issued: October 28, 1954.

[Docket No. G-2787]

GERTRUDE SKELLY

NOTICE OF APPLICATION AND ORDER FIXING DATE OF HEARING

Take notice that Gertrude Skelly (Applicant), with her principal office in Tulsa, Oklahoma, filed an application on September 16, 1954, for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing Applicant to make sales of natural gas as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in her application filed herein.

Applicant produces natural gas in Lisbon Field, Claiborne Parish, Louisiana. Well operations are conducted by Lyon, McCord and Logan, of Shreveport, Louisiana. Sale is made at the well-head to Arkansas Louisiana Gas Company and Texas Eastern Transmission Company for resale in interstate commerce.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 12th day of November 1954. The application is on file with the Commission for public inspection.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure.

The Commission finds: It is proper and consistent with the public interest that notice of the application and order fixing date of hearing be published simultaneously.

The Commission orders: Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on November 16, 1954, at 9:30 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure.

Adopted: October 27, 1954.

Issued: October 28, 1954.

[Docket No. G-2886]

UNITED GAS PIPE LINE CO.

ORDER FIXING DATE OF HEARING

This proceeding is a proper one for disposition under the provisions of § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure, Applicant having requested that its application, filed on September 21, 1954, and amended on October 21, 1954, pursuant to section 7 of the Natural Gas Act, for authorization to construct and operate certain natural-gas transmission facilities as described in said application, as amended, be heard under the shortened procedure provided by the aforesaid rule for noncontested proceedings, and no request to be heard, protest or petition having been filed subsequent to giving of due notice of the filing of the application, including publication in the FEDERAL REGISTER on October 15, 1954 (19 F. R. 6664-65).

The Commission finds: It is reasonable and in the public interest and good cause exists for fixing the date of hearing in this proceeding less than 15 days after publication of this order in the FEDERAL REGISTER.

The Commission orders: (A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on November 9, 1954 at 9:30 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street, NW., Washington, D. C., concerning the matters involved and the issues presented by the application, as amended: *Provided, however,* That the Commission may, after a noncontested hearing, forthwith dispose of the proceeding pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Adopted: October 27, 1954.

Issued: October 28, 1954.

By the Commission.

[Docket Nos. G-2939, G-2940]

STEWARTS CREEK GAS CO. NO. 2 AND STEWARTS CREEK GAS CO. NO. 3

NOTICE OF APPLICATIONS AND ORDER CONSOLIDATING AND FIXING DATE OF HEARING

Take notice that Stewarts Creek Gas Company No. 2 and Stewarts Creek Gas Company No. 3 (Applicants), joint venture organizations authorized to do business in the State of West Virginia with their principal office in Glenville, West Virginia, filed on September 21, 1954, their respective applications for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing the sale of natural gas subject to the jurisdiction of the Commission, all as more fully presented in the respective applications on file with the Commission for public inspection.

The applications filed by Applicants state separately that natural gas produced in the Stewarts Creek Field, Gilmer County, West Virginia, is sold to Equitable Gas Company for resale in interstate commerce.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 24th day of November 1954. The application is on file with the Commission for public inspection.

These are matters that should be disposed of as promptly as possible under the applicable rules and regulations. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure.

The Commission finds: It is appropriate and in the public interest to (a) consolidate the above-entitled proceedings for the purpose of hearing, and (b) publish notice of the application and order consolidating and fixing date of hearing simultaneously.

The Commission orders: Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, Docket Nos. G-2939 and G-2940 be and the same are hereby consolidated for the purpose of hearing and that a hearing be held on November 29, 1954, at 9:40 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure.

Adopted: October 27, 1954.

Issued: October 28, 1954.

INTERSTATE COMMERCE COMMISSION

[Notice 32]

MOTOR CARRIER APPLICATIONS

OCTOBER 29, 1954.

Protests, consisting of an original and two copies, to the granting of an application must be filed with the Commission within 30 days from the date of publication of this notice in the FEDERAL REGISTER and a copy of such protest served on the applicant. Each protest must clearly state the name and street number, city and state address of each protestant on behalf of whom the protest is filed (49 CFR 1.240 and 1.241). Failure to seasonably file a protest will be construed as a waiver of opposition and participation in the proceeding unless an oral hearing is held. In addition to other requirements of Rule 40 of the general rules of practice of the Commission (49 CFR 1.40), protests shall include a request for a public hearing, if one is desired, and shall specify with particularity the facts, matters and things relied upon, but shall not include issues or allegations phrased generally. Protests containing general allegations may be rejected. Requests for an oral hearing must be supported by an explanation as to why the evidence cannot be submitted in the form of affidavits. Any interested person, not a protestant, desiring to receive notice of the time and place of any hearing, prehearing conference, taking of depositions, or other proceedings shall notify the Commission by letter or telegram within 30 days from the date of publication of this notice in the FEDERAL REGISTER.

Except when circumstances require immediate action, an application for approval, under section 210a (b) of the act, of the temporary operation of

motor carrier properties sought to be acquired in an application under section 5 (2) will not be disposed of sooner than 10 days from the date of publication of this notice in the FEDERAL REGISTER. If a protest is received prior to action being taken, it will be considered.

APPLICATIONS OF MOTOR CARRIERS OF PROPERTY

No. MC 730 Sub 47, PACIFIC INTERMOUNTAIN EXPRESS CO., A Corporation, 299 Adeline Street, Oakland Calif. Applicant's attorney: A. S. Glikbarg, 155 Sansome Street, San Francisco 4, Calif. For authority to operate as a *common carrier*, over irregular routes, transporting: *Meats, meat products* and *meat by-products* and *dairy products*, as defined by the Commission in Ex Parte No. MC-45, *poultry (including turkeys)*, fresh or frozen, eviscerated or prepared, *fish* and *shell fish*, frozen, *fruits* and *vegetables*, fresh, frozen or dried, *beverages and beverage preparations (including fruit and vegetable juices)*, frozen, and all other *processed or prepared foodstuffs*, canned or in other containers, the transportation of which requires refrigeration, (1) between points in Arizona, California, Idaho, Nevada, Utah, Oregon and Washington, on the one hand, and, on the other, points in Colorado, Kansas, Missouri, Oklahoma, Nebraska, Iowa, Illinois, South Dakota, Minnesota, and Wisconsin; and (2) between points in Idaho and Utah, on the one hand, and, on the other, points in California, Oregon and Washington. Applicant is authorized to conduct operations in California, Colorado, Idaho, Illinois, Kansas, Missouri, Nevada, Utah, and Wyoming.

No. MC 3468 SUB 136, F. J. BOUTELL DRIVEAWAY CO., INC., 706 South Dort Highway, Flint 7, Mich. Applicant's attorney: Harry C. Ames, Jr., Transportation Building, Washington, D. C. For authority to operate as a *common carrier*, over irregular routes, transporting: *New automobiles, new trucks, new bodies, new chassis* and *new cabs*, restricted to initial movements, in truckaway and driveaway service, from points in Wayne County, Mich., to points in Virginia. Applicant is authorized to conduct operations in Connecticut, Delaware, District of Columbia, Illinois, Indiana, Kentucky, Maine, Maryland, Michigan, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Vermont and West Virginia.

No. MC 7341 Sub 12, P. F. FELTEN, doing business as FELTEN TRUCK LINE, 750 North Twelfth St., Salina, Kans. For authority to operate as a *common carrier*, over regular routes, transporting: *General commodities*, except those of unusual value, Class A and B explosives, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, (1) between Salina, Kans., and Kansas City, Mo., operating from Salina over U. S. Highway 40 to Junction City, Kans., thence over relocated Kansas Highway 18 to Manhattan, Kans., thence over U. S. Highway 24 to Kansas City, Mo., and return over the same route, serving the intermediate points of Junction City, Fort Riley, Manhattan and Wamego, and (2) between Junction City, Kans., and Wamego, Kans., operating from Junction City over relocated U. S. Highway 40 to junction Kansas Highway 99, approximately ten (10) miles south of Wamego, thence over Kansas Highway 99 to Wamego, and return over the same route, serving no intermediate points, as an alternate route, in connection with regular route operations between Salina, Kans., and Kansas City, Mo. Applicant is authorized to conduct operations in Colorado, Kansas, Missouri, Nebraska, and Oklahoma.

No. MC 10761 SUB 46, TRANSAMERICAN FREIGHT LINES, INC., 1700 N. Waterman Ave., Detroit 9, Mich. Applicant's attorney: Howell Ellis, 520 Illinois Building, Indianapolis, Ind. For authority to operate as a *common carrier*, over regular routes, transporting: *General commodities* except those of unusual value, and except Class A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, (1) between South Bend, Ind., and Benton Harbor, Mich., from junction U. S. Highway 20 at South Bend, Ind., over U. S. Highways 31 and 33 to junction U. S. Highway 12 at Benton Harbor, Mich. (also from South Bend over U. S. Highways 31 and 33 to Scottsdale, Mich., and thence over Michigan Highway 139 to junction U. S. Highway 12 at Benton Harbor), and return over the same route, service no intermediate points, (2) from junction U. S. Highway 12 at Lawrence, Mich., over Michigan Highway 40 to Niles, Mich., and return over the same route, serving no intermediate points, and (3) from junction Michigan Highway 212 and U. S. Highway 20 at Michigan City, Ind., and junction U. S. Highways 20 and 12 at Gary, Ind., and return over the same route, serving no intermediate points. Applicant is authorized to conduct operations in Michigan, Illinois, Ohio, Indiana, Pennsylvania.

No. MC 10875 SUB 9, BRANCH MOTOR EXPRESS COMPANY, A Corporation, 455 West 16th Street, New York, N. Y. Applicant's attorney: Dale C. Dillon, Todd, Dillon and Curtiss, Suite 944 Washington Building, Washington 5, D. C. For authority to operate as a *common carrier*, over a regular route, transporting: *General commodities*, except those of unusual value, Class A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between Reading, Pa., and Hamburg, Pa., over U. S. Highway 122, serving all intermediate points, and the off-route point of Mohrsville, Pa. Applicant is authorized to conduct operations in Delaware, District of Columbia, Maryland, New Jersey, New York, Pennsylvania and Virginia.

No. MC 10928 Sub 23, SOUTHERN-PLAZA EXPRESS, INC., 1209 Washington Avenue, St. Louis 3, Mo. Applicant's attorney: Charles F. Riddle, Todd, Dillon and Curtiss, Suite 944 Washington Building, Washington 5, D. C. For authority to operate as a *common carrier*, over regular routes, transporting: *Class A and B explosives*, between Miami, Okla. and Kansas City, Mo., over U. S. Highway 69, serving no intermediate points, as an alternate or connecting route in connection with carrier's regular-route operations between Oklahoma City, Okla. and Kansas City, Mo., and between Oklahoma City, and Tulsa, Okla., on the one hand, and, on the other, specified points in Texas. RESTRICTION: Authority applied for to be subject to the following conditions: The authority applied for shall be limited in point of time to a period ending with the termination of either of carrier's presently held leases of operating rights of W. G. Burgess and English Freight Company, for any reason other than the exercise of its option, by carrier, to purchase the rights now leased from either or both of the said lessors; and the authority applied for shall be restricted against the transportation of shipments originating at, or destined to, or transported or interchanged through, the Kansas City, Missouri-Kansas Commercial Zone, on the one hand, and, on the other, points on U. S. Highway 66 north and east of Tulsa. (Carrier is authorized in Certificate No. MC 10928 Sub 20 to operate over the above-described route, subject to the restrictions described above, for the transportation of general commodities, except Class A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, as an alternate route for operating convenience only.) Applicant is authorized to conduct operations in Missouri, Oklahoma and Texas.

NO. MC 11740 Sub 3, JESSE P. TALMAN, JESSE P. TALMAN, JR., JAMES B. TALMAN, RICHARD E. TALMAN, and HERBERT B. TALMAN, doing business as BLUE AND GRAY TRANSPORTATION COMPANY, 421 Decatur St., Richmond, Va. For authority to operate as a *common carrier*, over a regular route, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, between Richmond, Va., and junction U. S. Highway 1 and Virginia Highway 10 near Chester, Va., over Virginia Highway 10, serving all intermediate points. Applicant is authorized to conduct operations in Virginia.

NO. MC 14297 Sub 7, GIACOMAZZI BROS. TRANSPORTATION CO., a corporation, Post Office Box 729, San Jose 5, Calif. Applicant's attorney: Marvin Handler, 465 California Street, San Francisco 4, Calif. For authority to operate as a *common carrier*, over irregular routes, transporting: *Beet sugar, final molasses residuum*, in bulk, in tank vehicles, from San Jose, Calif., to Gardnerville, Nev. Applicant is authorized to conduct operations in California and Nevada.

NO. MC 17979 SUB 4, MARTIN A CROWLEY, doing business as MARTIN A. CROWLEY TRUCKING, 753 Central Street, Franklin, N. H. For authority to operate as a *common carrier*, over irregular routes, transporting: (1) *Coke*, and *pig iron ingots*, from Boston, Mass., and points within five miles of Boston, to Franklin and Laconia, N. H., (2) *Castings*, iron, from Franklin, N. H., to points in Connecticut and Massachusetts, (3) *Sugar*, from Boston, Mass., to Franklin, N. H., (4) *Foodstuffs*, canned goods, from points in Massachusetts and Fryeburg, Hartland, Portland, Rockland, South Portland, and Thomaston, Me., to Franklin, N. H., (5) *Lime* and *limestone*, loose or in packages, from points in Berkshire County, Mass., to Franklin, N. H., (6) *Machinery*, used, between points in Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York and New Jersey, on the one hand, and, on the other, the ports of entry on the United States-Canada International Boundary line in New York, Vermont, New Hampshire and Maine, (7) *Machinery*, between points in New Hampshire, on the one hand, and, on the other, points in Maine, Vermont, Massachusetts, Rhode Island, Connecticut, New York and New Jersey, except between Franklin, N. H., and points in New Hampshire within 15 miles of Franklin, on the one hand, and, on the other, points in Maine, Rhode Island, Massachusetts and Connecticut. Applicant is authorized to conduct operations in Connecticut, Maine, Massachusetts, New Hampshire and Rhode Island.

NO. MC. 18416 Sub 11, ARTHUR I. CLAWGES, doing business as CLAWGES TRANSFER, P. O. Box 2158, Morgantown, W. Va. Applicant's attorney: Eugene M. Prager, Warwood, W. Va. For authority to operate as a *common carrier*, over irregular routes, transporting: *Glass and glass products*, between points in Monongalia County, W. Va., and points in Maryland, Ohio and Pennsylvania. Applicant is authorized to conduct operations in West Virginia, Maryland, District of Columbia, Pennsylvania, and Ohio.

NO. MC 29753 Sub 1, BOB AIKINS LINES, INC., R. R. #1, Osgood, Ind. Applicant's attorney: Robert W. Loser, 317 Chamber of Commerce Building, Indianapolis, Ind. For authority to operate as a *common carrier*, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, serving Holton, New Marion, Dabney, Cross Plains, Correct, Olean, Benham, Friendship, Rexville, Milan, Lookout, Delaware, Pierceville, Napoleon, and Old Milan, all in Ripley County, Ind.; Farmers Retreat, Moores Hill, Sparta, Mount Sinai, and Wilmington, all in Dearborn County, Ind.; and all other points in Ripley, and Dearborn Counties, Ind. which are located within seven miles of (1) that portion of U. S. Highway 50 extending between the Indiana-Ohio State line and Versailles, Ind. and (2) that portion of U. S. Highway 421 (formerly Indiana Highway 29) extending between Versailles, Ind. and Osgood, Ind., as off-route points in connection with regular route operations between Osgood, Ind. and Cincinnati, Ohio, over U. S. Highway 50, and Indiana Highway 29 (shown in Rand McNallys as U. S. Highway 421). Applicant is authorized to conduct operations in Indiana and Ohio.

NO. MC 35358 Sub 13, BERGER TRANSFER & STORAGE, INC., 356 Lincoln Street, N. E., Minneapolis, Minn. Applicant's attorney: Donald A. Morken, Mackall, Crouse, Moore, Helmey & Palmer, 1100 First National-Soo Line Building, Minneapolis 2, Minn. For authority to operate as a *common carrier*, over irregular routes, transporting: *New furniture*, and new *household and office furnishings*, uncrated, from Council Bluffs, Iowa, to points in the Minneapolis-St. Paul, Minn. Commercial Zone as defined by the Commission. Applicant is authorized to conduct operations in Minnesota, Iowa, Illinois, Kansas, Missouri, Montana, Nebraska, North Dakota, South Dakota, Wisconsin, New York and Pennsylvania.

NO. MC 35374 Sub 1, D. J. BLACK, doing business as BLACK'S MOTOR EXPRESS, 1902 South Front Street, Wilmington, N. C. For authority to operate as a *common carrier*, over regular routes, transporting: *General commodities*, except those of unusual value, and except Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, serving Rocky Mount, N. [4th Sec. Application 29844]

NEWSPRINT PAPER FROM CALHOUN, TENN., TO CLARKSBURG AND WHEELING, W. VA.

APPLICATION FOR RELIEF

OCTOBER 27, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to schedule listed below.

Commodities involved: Newsprint paper, carloads.

From: Calhoun, Tenn.

To: Clarksburg and Wheeling, W. Va.

Grounds for relief: Rail competition, circuity, to apply rates constructed on the basis of the short line distance formula, and additional destination.

Schedules filed containing proposed rates: C. A. Spaninger, Agent, I. C. C. No. 1349, supp. 71.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[SEAL] GEORGE W. LAIRD, *Secretary.*

[4th Sec. Application 29845]

LUMBER FROM DOTHAN, ALA., TO MONTGOMERY, ALA.

APPLICATION FOR RELIEF

OCTOBER 28, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: The Central of Georgia Railway Company.

Commodities involved: Lumber and related articles, carloads.

From: Dothan, Ala.

To: Montgomery, Ala.

Grounds for relief: Competition with rail carriers, circuitous routes, and additional route.

Schedules filed containing proposed rates: C. A. Spaninger, Agent, I. C. C. No. 1293, supp. 70.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

FEDERAL REGISTER

VOLUME 19 NUMBER 215

Washington, Thursday, November 4, 1954

TITLE 7—AGRICULTURE

Chapter VII—Commodity Stabilization Service (Farm Marketing Quotas and Acreage Allotments), Department of Agriculture

[1023 (Burley and Flue-cured Tobacco-55)-1, Amdt. 1]

PART 725—BURLEY AND FLUE-CURED TOBACCO

MARKETING QUOTA REGULATIONS, 1955-56 MARKETING YEAR

The amendments herein are based on the marketing quota provisions of the Agricultural Adjustment Act of 1938, as amended, applicable to tobacco (7 U. S. C. 1311-1315), and are made for the purpose of amending paragraph (a) of § 725.623 relating to determination of 1955 acreage allotments for new farms and for the purpose of amending § 725.627 relating to State Committee approval of any allotments, yields, and determinations made under §§ 725.611 to 725.626, of the Burley and flue-cured tobacco marketing quota regulations, 1955-56 marketing year. Prior to the adoption of these amendments, notice was given (19 F. R. 6304) that the Secretary was considering amending the regulations in the manner herein provided and that any interested person might express his views in writing in respect thereto. The data, views, and recommendations received pursuant to the notice have been duly considered within the limits permitted by the Agricultural Adjustment Act of 1938, as amended.

The Burley and Flue-Cured Tobacco Marketing Quota Regulations, 1955-56 Marketing Year, are amended as follows:

1. Delete paragraph (a) of § 725.623 and insert in lieu thereof the following:

§ 725.623 *Determination of acreage allotments for new farms.* (a) The acreage allotment, other than an allotment made under § 725.620, for a new farm shall be that acreage which the county committee (with the approval of the State committee) determines is fair and reasonable for the farm taking into consideration the past tobacco experience of the farm operator; the land, labor, and equipment available for the production of tobacco; crop rotation practices; and the soil and other physical factors affecting the production of tobacco: *Provided*, That the acreage allotment so determined shall not exceed 50 percent of the allotments for old tobacco farms which are similar with respect to land, labor, and equipment available for the production of tobacco, crop rotation practices, and the soil and other physical factors affecting the production of tobacco.

2. Delete § 725.627 and insert in lieu thereof the following:

§ 725.627 *Approval of determinations made under §§ 725.611 to 725.626.* All allotments and yields shall be reviewed by or on behalf of the State committee, and the State committee may revise or require revision of any determinations made under §§ 725.611 to 725.626. All acreage allotments and yields shall be approved by or on behalf of the State committee and no official notice of acreage allotment shall be mailed to a grower until such allotment has been approved by or on behalf of the State committee.

(Sec. 375, 52 Stat. 66, as amended; 7 U. S. C. 1375. Interpret or apply sec. 313, 52 Stat. 47, as amended; 7 U. S. C. 1313)

Done at Washington, D. C., this 29th day of October 1954. Witness my hand and the seal of the Department of Agriculture.

[SEAL] TRUE D. MORSE, *Acting Secretary of Agriculture.*

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Bell Directory Publishers, Inc., et al., New York, N. Y., Docket 5986, July 27, 1954]

In the Matter of Bell Directory Publishers, Inc., a Corporation, and Benjamin L. Hill, Michael M. Bell, and Sydney Kopp, Individually and as Officers of Said Corporation

This proceeding was heard by William L. Pack, hearing examiner, upon the complaint of the Commission which charged respondents with the use of certain unfair and deceptive practices in connection with the sale of advertising space in their business directories, respondents' answer, and hearings at which evidence, duly recorded and filed in the office of the Commission, both in support of and in opposition to the charges in the complaint, was received, and on proposed findings and conclusions submitted by counsel supporting the complaint (counsel for respondents having elected not to submit such proposals) and on oral argument.

Thereafter the proceeding came on for final consideration on the merits by said examiner who made his initial decision comprising certain findings as to the facts;[1] his conclusions[1] that the proceeding was in the public interest; that respondents' practice, as prohibited in his order to cease and desist, was to the prejudice of the public and respondents' competitors and constituted an unfair and deceptive act and practice and an unfair method of competition in commerce within the intent and meaning of the Federal Trade Commission Act; that other charges in the complaint had not been sustained; and that the complaint should be dismissed as to respondent Kopp in his individual capacity, but not in his capacity as an officer of the corporate respondent; and his said order to cease and desist.

[1] Filed as part of the original document.

No appeal having been filed from said initial decision of said hearing examiner, as provided for in Rule XXII of the Commission's rules of practice, nor any other action taken as thereby provided to prevent said initial decision becoming the decision of the Commission thirty days from service thereof upon the parties, said initial decision, including said order, accordingly, under the provisions of said Rule XXII became the decision of the Commission on July 27, 1954.

Said order is as follows:

It is ordered, That respondent Bell Directory Publishers, Inc., a corporation, and its officers, and respondents Benjamin L. Hill and Michael M. Bell, individually and as officers of said corporation, and respondent Sydney Kopp, as an officer of said corporation, and respondents' agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale, or distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of advertising in respondents' publications, do forthwith cease and desist from using in the solicitation of such advertising, by mail or through agents by personal solicitation, advertisements which have been physically clipped or removed by or for respondents from any publication issued by others than respondents.

It is further ordered, That the complaint be, and it hereby is, dismissed as to respondent Sydney Kopp in his individual capacity.

By "Decision of the Commission and Order to File Report of Compliance", Docket 5986, July 27, 1954, which announced and decreed fruition of said initial decision, report of compliance was required as follows:

It is ordered, That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: July 27, 1954.

By the Commission.

[SEAL] ROBERT M. PARRISH, *Secretary.*

[Docket 6033]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

HILLMAN PERIODICALS, INC.

Subpart—*Neglecting, unfairly or deceptively, to make material disclosure:* § 3.1880 *Old, used, reclaimed, or reused as unused or new.* In connection with the offering for sale, sale, or distribution in commerce of respondent's magazine "Confessions" or any other publication or periodical consisting entirely or substantially of reprints of previously published stories, articles, or other materials, offering for sale, selling, or distributing such magazine or other publication, unless the fact that the stories, articles, or other materials contained therein are reprints is clearly disclosed on the front cover and on the masthead page thereof and at the beginning of each reprinted story, article, or other material; prohibited.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Hillman Periodicals, Inc., New York, N. Y., Docket 6033, July 22, 1954]

This proceeding was heard by J. Earl Cox, hearing examiner, upon the complaint of the Commission charging respondent with the use of unfair and deceptive acts and practices in commerce in violation of the provisions of the Federal Trade Commission Act, respondent's answer, and a hearing at which testimony and other evidence, duly recorded and filed in the office of the Commission, in support of and in opposition to the allegations of the complaint, were introduced before said examiner, theretofore duly designated by the Commission.

Thereafter, following the filing by said examiner of his initial decision, respondent's appeal therefrom, and the entry of an order by the Commission, after due consideration, vacating and setting aside said initial decision and remanding the case to said examiner, to take additional evidence on the issues raised by the pleadings, a further hearing was held at which additional testimony and evidence, duly recorded and filed in the office of the Commission, were received in support of and in opposition to the allegations of the complaint, following which the proceeding regularly came on for final consideration by said examiner on the complaint, the answer thereto, the testimony and other evidence, and proposed findings as to the facts and conclusions presented by counsel, and said examiner, having duly considered the entire record in the matter, and having found that the proceeding was in the interest of the public, made his initial decision comprising certain findings as to the facts,[1] conclusions drawn therefrom,[1] and order.

Thereafter, following respondent's appeal from said initial decision, the matter was disposed of by "Order Denying Respondent's Appeal, Decision of the Commission and Order to File Compliance", Docket 6033, July 22, 1954, as follows:

This matter having come on to be heard by the Commission upon respondent's appeal from the initial decision of the hearing examiner and briefs of counsel in support of and in opposition thereto, oral argument not having been requested; and

[1] Filed as part of the original document.

The Commission having duly considered said appeal and the record herein and being of the opinion, for the reasons appearing in the accompanying opinion of the Commission, that the appeal should be denied and that the said initial decision is appropriate in all respects to dispose of this proceeding:

It is ordered, That respondent's appeal from the initial decision of the hearing examiner be, and it hereby is, denied.

It is further ordered, That the attached initial decision of the hearing examiner shall, on the 22d day of July 1954, become the decision of the Commission.

It is further ordered, That the respondent shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with the order to cease and desist.

The order in said initial decision, thus made the decision of the Commission, is as follows:

It is ordered, That respondent, Hillman Periodicals, Inc., a corporation, its officers, representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of its magazine "Confessions" or any other publication or periodical consisting entirely or substantially of reprints of previously published stories, articles or other materials do forthwith cease and desist from offering for sale, selling or distributing such magazine or other publication, unless the fact that the stories, articles or other materials contained therein are reprints is clearly disclosed on the front cover and on the masthead page thereof and at the beginning of each reprinted story, article, or other material.

Issued: July 22, 1954.

By the Commission.

[SEAL] ROBERT M. PARRISH, *Secretary.*

Burch, trading as Washington Institute of Practical Nursing, etc., and his representatives, etc.: (A) Representing, directly or by implication: (1) That the opportunities for employment in the field of endeavor in which a course of instruction is offered are greater than they are in fact; (2) that a correspondence school course is capable of (a) qualifying persons for positions as nurses or licensed practical nurses in hospitals, sanitariums or other medical institutions or in a doctor's office, (b) qualifying persons for State examinations for registered or licensed practical nurse; (3) that respondent's business is other than the operation of a correspondence school; (4) that respondent has a staff of instructors in the subject covered by the course unless such is the fact; (5) that a high school education is not necessary to become a licensed practical nurse; (6) that a high school education is not necessary to become a graduate practical nurse unless limited to persons completing respondent's course of instruction; (7) that any course of instruction or diploma issued to persons completing any such course is approved, accredited, or recognized by any organization, institution, group, or person unless it is a fact; (8) that a contract of enrollment may be cancelled without obligation for any unpaid balance due on the purchase price of any such course, unless it is a fact; and (B) using the word "Institute" in his trade name or otherwise representing that his business is other than a commercial enterprise operated for profit; prohibited.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Harry A. Burch t. a. Washington Institute of Practical Nursing, etc., Seattle, Wash., Docket 6170, September 23, 1954]

In the Matter of Harry A. Burch, an Individual, Trading Under the Names of Washington Institute of Practical Nursing and National Training Service

This proceeding was heard by Abner E. Lipscomb, hearing examiner, upon the complaint of the Commission which charged respondent with unfair and deceptive acts and practices in the offering for sale, sale, and distribution of correspondence courses in practical nursing, in violation of the provisions of the Federal Trade Commission Act, and upon a stipulation for consent order entered into and submitted to said examiner, following the submission of respondent's answer, by respondent and counsel supporting the complaint.

By the terms of said stipulation respondent admitted all the jurisdictional allegations set forth in the complaint and stipulated that the record in the instant matter might be taken as if the Commission had made findings of jurisdictional facts in accordance with such allegations; requested that his answer, theretofore submitted, should be withdrawn; expressly waived the filing of an answer to the complaint and further proceedings before the examiner and the Commission; agreed that the order contained in said stipulation should have the same force and effect as if made after a full hearing, presentation of evidence, and findings and conclusions thereon; and expressly waived all right, power, and privilege to contest the validity of said order.

Said stipulation provided that the complaint might be used in construing the terms of the order contained in the stipulation; and that said order might be altered, modified, or set aside in the manner prescribed by statute for orders of the Commission; and respondent agreed that said stipulation for consent order, together with the complaint in the matter, should constitute the entire record in the matter, and that the order contained in said stipulation might be entered without further notice upon the record, in disposition of the proceeding.

Thereafter, said examiner, having concluded, in view of the provisions of said stipulation for consent order, and the fact that the order embodied in said stipulation did not differ materially from the order accompanying the complaint, that respondent's request that its answer to the complaint be withdrawn, should be granted; that said stipulation for consent order should be accepted; and that such action, together with the issuance of the order contained in the stipulation, would resolve all the issues arising by reason of the complaint in the proceeding and respondent's answer thereto, and would safeguard the public interest to the same extent that could be accomplished by a full hearing and all other adjudicative procedure waived in said stipulation; made his initial decision[1] setting forth the aforesaid matters and accepting, in consonance with the terms of said agreement, the stipulation for consent order submitted, and granting respondent's request that its answer to the complaint be withdrawn, and issuing his order.

No appeal having been filed from said initial decision of said hearing examiner, as provided for in Rule XXII of the Commission's rules of practice, nor any other action taken as thereby provided to prevent said initial decision becoming the decision of the Commission thirty days from service thereof upon the parties, said initial decision, including said order to cease and desist, accordingly, under the provisions of said Rule XXII became the decision of the Commission on September 23, 1954.

Said order is as follows:

It is ordered, That respondent, Harry Burch, trading under the name Washington Institute of Practical Nursing or National Training Service, or trading under any other name, and his representatives, agents and employees, directly or through any corporate or other device, in connection with offering for sale, sale and distribution of any course of instruction, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

A. Representing, directly or by implication:

1. That the opportunities for employment in the field of endeavor in which a course of instruction is offered are greater than they are in fact;

2. That a correspondence school course is capable of (a) qualifying persons for positions as nurses or licensed practical nurses in hospitals, sanitariums or other medical institutions or in a doctor's office, (b) qualifying persons for State examinations for registered or licensed practical nurse;

3. That respondent's business is other than the operation of a correspondence school;

4. That respondent has a staff of instructors in the subject covered by the course unless such is the fact;

5. That a high-school education is not necessary to become a licensed practical nurse;

6. That a high-school education is not necessary to become a graduate practical nurse unless limited to persons completing respondent's course of instruction;

7. That any course of instruction or diploma issued to persons completing any such course is approved, accredited or recognized by any organization, institution, group or person unless it is a fact;

8. That a contract of enrollment may be cancelled without obligation for any unpaid balance due on the purchase price of any such course, unless it is a fact.

B. Using the word "Institute" in his trade name or otherwise representing that his business is other than a commercial enterprise operated for profit.

It is further ordered, That the answer to the complaint herein filed by respondent on March 15, 1954, be, and the same hereby is, withdrawn from the record.

By "Decision of the Commission and Order to File Report of Compliance", Docket 6170, September 23, 1954, which announced and decreed fruition of said initial decision, report of compliance was required as follows:

It is ordered, That respondent Harry A. Burch, an individual, trading under the names of Washington Institute of Practical Nursing and National Training Service, shall, within sixty (60) days after service upon him of this order, file with the Commission a report in writing setting forth in detail the manner and form in which he has complied with the order to cease and desist.

Issued: September 23, 1954.

By the Commission.

[SEAL] ROBERT M. PARRISH, *Secretary.*

In Federal Register Document 54-8479, published at page 6902 of the issue for Thursday, October 28, 1954, the following changes should be made in the support rate table in § 421.494 (a) (2):

1. The rate for Moultrie County, Illinois, now reading "1.68", should read "1.63".

2. The rate for Cleveland County, Oklahoma, now reading "1.24", should read "1.25".

TITLE 32—NATIONAL DEFENSE

Chapter VII—Department of the Air Force

Subchapter G—Personnel

PART 878—DECORATIONS AND AWARDS

CERTIFICATES, LETTERS AND GOLD STAR LAPEL BUTTONS

The following sections replace §§ 878.86 to 878.91 (32 CFR and 1953 Supp.):

Sec.
878.86 Purpose.
878.87 Department of Defense Certificates of Appreciation.
878.88 Accolades.
878.89 Certificates of honorable service.
878.90 Letters of commendation and appreciation.
878.91 Gold Star Lapel Buttons.

AUTHORITY: §§ 878.86 to 878.91 issued under R. S. 161, sec. 202, 61 Stat. 500, as amended; 5 U. S. C. 22, 171a. Statutory provisions interpreted or applied are cited to text in parenthesis.

DERIVATION: AFR 30-9.

§ 878.86 *Purpose.* Sections 878.86 to 878.91 prescribe certain types of certificates, letters, and lapel buttons, which are presented to military and civilian personnel (or their kin) for honorable and/or commendable service or performance of duty not meeting the requirements for decorations.

§ 878.87 *Department of Defense Certificates of Appreciation.* The Secretary of Defense may award a Certificate of Appreciation with a lapel button to recognize exceptional civilian service rendered to the Department of Defense after September 18, 1947. It is awarded only to individuals and not to groups or organizations. Recommendations for such certificates may be submitted by any agency of the Air Force through channels to the Director of Military Personnel, Headquarters USAF. Supporting evidence in duplicate will accompany these recommendations. The service must have been in a civilian capacity, rendered to the Department of Defense as a whole, to the office of the Secretary of Defense, or to boards and committees appointed by the Secretary of Defense.

§ 878.88 *Accolades.* An Accolade (scroll) signed by the President of the United States, is presented to the next of kin of members of the Armed Forces who die in line of duty during military operations, and to the next of kin of civilians who die overseas or as a result of injury or disease contracted while serving in a civilian capacity with the Armed Forces during period of military operations. For Air Force personnel, Accolades are prepared and forwarded to the next of kin by Headquarters USAF.

§ 878.89 *Certificates of honorable service.* Testimonials of honest and faithful service in the form of certificates are awarded by Headquarters USAF to the next of kin on record of those who die in line of duty while honorably serving in the Air Force.

§ 878.90 *Letters of commendation and appreciation.* (a) Letters expressing commendation will be awarded only for unusual achievements or commendable service which do not meet the requirements for a decoration.

(b) Letters expressing appreciation, congratulations, or thanks will be forwarded direct to the person concerned by commanders at all levels. These letters will not be made part of official records.

§ 878.91 *Gold Star Lapel Buttons.* (a) The Gold Star Lapel Button, with pin or clutch, is a gold star, one-quarter inch in diameter, mounted on a purple disc, three-quarters inch in diameter, surrounded by a wreath of gold laurel leaves, five-eights inch in diameter. The reverse bears the inscription "United States of America, Act of Congress, August 1947", and provides space for engraving the initials of the recipient.

(b) The Gold Star Lapel Button is awarded to widows, widowers, parents, and certain next of kin of members of the Armed Forces of the United States who lost their lives in the armed services of the United States during World War I (April 6, 1917, to March 3, 1921), World War II (September 8, 1939, to July 25, 1947, at 12 o'clock noon), Korean Operation (June 27, 1950, to July 27, 1954), or during any subsequent war or period of armed hostilities in which the United States may be engaged. One Gold Star Lapel Button is furnished without cost, to the widow or widower (remarried or not), and to each of the parents (in-

cludes mother, father, stepmother, stepfather, mother through adoption, father through adoption, and foster parents who stood in loco parentis). One Gold Star Lapel Button is furnished, at cost to each child, brother, sister, half-brother, half-sister, step-child, and children through adoption. Replacements for Gold Star Lapel Buttons that have been lost, destroyed, or rendered unfit for use, without fault or neglect on the part of the persons to whom they were furnished, may be obtained at cost.

(c) Gold Star Lapel Buttons may be obtained by writing direct to the Chief, Air Force Liaison Office, Military Personnel Records Center, 4300 Goodfellow Boulevard, St. Louis 20, Mo.

(d) Section 4 of the act of August 1, 1947, as amended (sec. 4, 61 Stat. 710, as amended; 36 U. S. C. 182d) provides that: "Whoever shall (1) wear, display on his person, or otherwise use as an insignia, any Gold Star Lapel Button issued to another person under the provisions of this act; (2) falsely make, forge, or counterfeit, or cause or procure to be falsely made, forged, or counterfeited, or aid in falsely making, forging or counterfeiting any lapel button authorized by this act; or (3) sell or bring into the United States, or any place subject to the jurisdiction thereof, from any foreign place, or have in his possession any such false, forged, or counterfeited lapel button, shall be fined not more than $1,000 or imprisoned not more than two years, or both."

(Secs. 2, 3, 61 Stat. 710, as amended; 36 U. S. C. 182b, 182c)

[SEAL] E. E. TORO,
Colonel, U. S. Air Force,
Air Adjutant General.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Reg. SR-406]

PART 60—AIR TRAFFIC RULES

SPECIAL CIVIL AIR REGULATION; DELEGATION OF AUTHORITY TO THE ADMINISTRATOR TO ESTABLISH RULES APPLICABLE TO A HIGH DENSITY AIR TRAFFIC ZONE IN THE WASHINGTON, D. C., AREA

Correction

In Federal Register Document 54-8445, appearing at page 6871 of the issue for Wednesday, October 27, 1954, the part heading for Part 60 should have read as set forth above.

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 95]

PART 608—DANGER AREAS

ALTERATIONS

The danger area alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee, and are adopted to become effective when indicated in order to promote safety of the flying public. Since a military function of the United States is involved, compliance with the notice, procedure, and effective date provisions of section 4, of the Administrative Procedure Act is not required.

Part 608 is amended as follows:

1. In § 608.29, the South Wellfleet, Massachusetts, area (D-22), published on April 21, 1949, in 14 F. R. 1917, and amended on July 27, 1949, in 14 F. R. 4665, and on March 11, 1950, in 15 F. R. 1329 and on March 6, 1951, in 16 F. R. 2051, and on July 19, 1951, in 16 F. R. 6915, and on August 11, 1954, in 19 F. R. 5041, is further amended by changing the "Using Agency" column to read: "First Army."

2. A new § 608.64 for Island of Guam is added:

a. In § 608.64, the Agat Bay, Guam, area (D-474) is established:

Name and location (chart)	Description by geographical coordinates	Designated altitudes	Time of designation	Using agency
AGAT BAY, GUAM (D-474). (Guam WAC 731).	Beginning at latitude 13°26' N., longitude 144°38' E.; thence along a line approximately 0.5 nautical mile offshore Guam at latitude 13°15' N., longitude 144°45' E., to latitude 13°10' N., longitude 144°45' E., to latitude 13°10' N., longitude 144°36' E., to latitude 13°26' N., longitude 144°36' E., to latitude 13°26' N., longitude 144°38' E., point of beginning.	Surface to 1,000 feet.	Continuous VFR only.	NAS Agana, Guam.

b. In § 608.64, the Farallon De Medinilla, Guam, area (D-476), is established:

Name and location (chart)	Description by geographical coordinates	Designated altitudes	Time of designation	Using agency
FARALLON DE MEDINILLA, GUAM (Guam WAC 731) (Pagan Island—WAC 624).	Beginning at latitude 16°08' N., longitude 146°10' E.; thence to 15°55' N., longitude 146°05' E.; thence to latitude 15°55' N., longitude 146°00' E., thence to latitude 16°08' N., longitude 146°00' E.; thence to point of beginning.	Surface to unlimited.	Continuous.....	NAS Agana, Guam, to be used by USAF

c. In § 608.64, the Nafatan Rock, Guam, area (D-478) is established:

Name and location (chart)	Description by geographical coordinates	Designated altitudes	Time of designation	Using agency
NAFATAN ROCK, GUAM (D-478) (Guam WAC 731).	Within a radius of 5 nautical miles of latitude 11°50'00" N, longitude 145°32'00" E.	Surface to 3,000 feet mean sea level.	Continuous.....	NAS Agana, Guam.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall become effective on November 8, 1954.

[SEAL] F. B. LEE,
Administrator of Civil Aeronautics.

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Appendix C—Public Land Orders

[Public Land Order 1025]

ALASKA

PARTIALLY REVOKING EXECUTIVE ORDER OF JANUARY 4, 1901, RESERVING PUBLIC LANDS FOR LIGHTHOUSE PURPOSES

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

The Executive Order of January 4, 1901, which withdrew the public lands within certain described areas in Alaska for lighthouse purposes, is hereby revoked so far as it affects the following-described public lands:

POINT SHERMAN

Beginning at a point at low water mark, said point being one-half mile southwest from Seward City wharf; thence, due east one-half mile; thence, due south to low water mark; thence, following the winding of low water mark to the place of beginning.

The area described is identified as U. S. Survey No. 1598 containing 143.83 acres.

The land is part of the Tongass National Forest having been added to such forest, together with other lands by Proclamation No. 846 of February 16, 1909, and shall not be subject to disposition of any kind prior to 10:00 a. m., on the 35th day after the date of this order. At that time it shall become subject to such disposition as may by law be made of national-forest lands.

ORME LEWIS,
Assistant Secretary of the Interior.

OCTOBER 28, 1954.

[F. R. Doc. 54-8665; Filed, Nov. 3, 1954; 8:46 a. m.]

[Public Land Order 1026]

NEW MEXICO

PARTIALLY REVOKING PUBLIC LAND ORDER NO. 656 OF AUGUST 15, 1950

By virtue of the authority vested in the President by the act of June 4, 1897 (30 Stat. 11, 36; 16 U. S. C. 473) and otherwise, and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Public Land Order No. 656 of August 15, 1950, withdrawing the public lands within certain described areas in the Lincoln National Forest for use of the Department of the Air Force in connection with a solar observatory, is hereby revoked so far as it affects the following-described lands:

NEW MEXICO PRINCIPAL MERIDIAN

T. 18 S., R. 11 E., sec. 16.

The area described contains 640 acres.

This revocation is made in furtherance of an exchange under section 8 of the act of June 28, 1934, as amended by section 3 of the act of June 26, 1936 (48 Stat. 1272; 49 Stat. 1976; 43 U. S. C. 615g) by which the offered lands will benefit a Federal land program. This restoration is, therefore, not subject to the provisions contained in the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279-284) as amended, granting preference rights to veterans and others.

ORME LEWIS,
Assistant Secretary of the Interior.

OCTOBER 29, 1954.

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Docket No. 11165; FCC 54-1351]

[Rules Amdt. 3-27]

PART 3—RADIO BROADCAST SERVICES

TELEVISION BROADCAST STATIONS; TABLE OF ASSIGNMENTS

1. The Commission has under consideration its notice of proposed rule making issued on September 16, 1954 (FCC 54-1169) and published in the FEDERAL REGISTER on September 22, 1954 (19 F. R. 6083), proposing to assign Channel 10 to Goodland, Kansas, in response to a petition filed by Mr. James E. Blair.

2. The last day for filing comments in this proceeding was October 15, 1954. No comments proposing the proposed amendment have been filed. In support of the requested amendment petitioner urged that the assignment of Channel 10 to Goodland would provide a needed service; that he will file an application for a construction permit; and that the proposed amendment conforms to the Commission's rules and standards. We are of the view that the assignment of Channel 10 to Goodland will serve the public interest.

3. Authority for the adoption of the amendment herein is contained in Sections 4 (i), 301, 303 (c), (d), (f), and (r) and 307 (b) of the Communications Act of 1934, as amended.

4. In view of the foregoing: *It is ordered*, That effective December 7, 1954, the table of assignments contained in § 3.606 of the Commission's rules and regulations is amended, insofar as the community named is concerned, as follows:

City:	*Channel No.*
Goodland, Kans.	10, 31

(Sec. 4, 48 Stat. 1066 as amended; 47 U. S. C. 154. Interprets or applies secs. 301, 303, 307, 48 Stat. 1081, 1082, 1084; 47 U. S. C. 301, 303, 307)

Adopted: October 29, 1954.

PROPOSED RULE MAKING

DEPARTMENT OF THE TREASURY

Bureau of Customs

[19 CFR Part 14]

[643.3]

PROCEDURES UNDER ANTIDUMPING ACT, 1921, AS AMENDED

NOTICE OF PROPOSED RULE MAKING

A proposed amendment to the regulations under the Antidumping Act was published in the FEDERAL REGISTER June 22, 1954. Comments were solicited and have been received. Revisions have been made in the light of these comments and the proposed amendment, thus revised, is republished herewith.

The basic objective of the amendment to the regulations is to make the administration of the Antidumping Act more effective for the purposes for which it was intended and to achieve a greater measure of speed and certainty in the administration of the law. That some change seemed necessary had become apparent from comments of American producers, American importers, and foreign producers alike. Underlying their comments was the fact that calculations required by existing regulations had become intricate, time consuming, and often did not result in a reasonable measure for price comparison.

The Antidumping Act provides in section 202 (a) that the mathematical calculation of dumping duty shall be based on sales of merchandise to the United States at less than foreign market value (or, in the absence of such value, than cost of production). The act provides in section 201 (a) that a finding of dumping by the Secretary shall be based (1) on injury or likelihood of injury to an industry in the United States and (2) sales of merchandise at less than fair value.

The terms "foreign market value" and "cost of production" are defined in detail in sections 205 and 206 of the act. The term "fair value," undefined in the law, has heretofore been defined by the regulations to be synonymous with foreign market value (or, in the absence of such value, cost of production).

In general, the proposed amendment seeks to define the fair value of imported merchandise as the amount determined by the Secretary of the Treasury to be the price usually received by the producer for such merchandise in his ordinary commercial transactions. As proposed in the June 22, 1954, issue of the FEDERAL REGISTER, the amendment to the regulations specifically redefined fair value in terms of the price at which more than half of the foreign producer's merchandise had been sold for consumption in his country and in third countries other than the United States over a representative period. As redrafted and herein republished, the amendment takes account of the fact that the determination of third country sales may be a complicated matter and therefore would ordinarily base fair value simply on sales for home consumption in the producer's country, but would base it on sales otherwise than for exportation to the United States, i. e., sales for home consumption and to third countries, where the quantity of home sales is so small as to furnish an inadequate basis for comparison. In addition, the redrafted amendment to the regulations would provide for calculating fair value by reference to prices charged by other foreign producers for similar merchandise when access to the foreign producer's records is not feasible, or where the information obtained from the foreign producer is insufficient or inadequate. Other changes have also been made after careful consideration of many helpful comments received.

The new definition should ordinarily produce a figure for fair value well in advance of the time required for calculating foreign market value or cost of production. A sale at less than fair value as so defined will ordinarily justify a belief that there have been, or are

likely to be, sales at less than foreign market value (or in the absence of such value, than the cost of production).

Prior to the final adoption of the proposed amendment, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing, in duplicate, to the Commissioner of Customs, Washington 25, D. C., within the period of forty days from the date of publication of this notice in the FEDERAL REGISTER. Dates for hearings will be announced later. The proposed amendment is to be issued under the authority of R. S. 161, 251, sec. 407, 42 Stat. 18; 5 U. S. C. 22, 19 U. S. C. 66, 173.

[SEAL] RALPH KELLY,
Commissioner of Customs.

Approved: November 1, 1954.

H. CHAPMAN ROSE,
Acting Secretary of the Treasury.

In order to clarify, simplify, and make more effective and uniform the administration of the Antidumping Act, 1921, as amended, the Customs Regulations (19 CFR Ch. I) are amended as follows:

1. Section 14.7 of the Customs Regulations is amended to read as follows:

§ 14.7 *Fair value*—(a) *Definition.*[15] For the purposes of section 201 (a) of the Antidumping Act, 1921, as amended (19 U. S. C. 160 (a)), the fair value of imported merchandise shall be determined as follows:

(1) *Fair value based on price in country of exportation; the usual test.* Merchandise imported into the United States will ordinarily be considered to have been sold at less than fair value if the purchase price, or exporter's sales price as defined in sections 203 and 204 respectively of the Antidumping Act, as amended (19 U. S. C. 162, 163), as the case may be of commercially significant quantities thereof is materially less than the price (after adjustment, as provided in section 205 of the Antidumping Act (19 U. S. C. 164)) at which such or similar merchandise is sold by the foreign producer for consumption in the country of exportation on or about the date of sale of the merchandise imported into the United States or, in the case of merchandise imported on consignment, the date of exportation thereof.

(2) *Fair value based on sales in country of exportation and in other countries, not including United States.* If, however, it is demonstrated that during the applicable time period the quantity of such or similar merchandise sold by the foreign producer for consumption in the country of exportation is so small, in relation to the quantity sold by such producer for exportation otherwise than to the United States, as to be an inadequate basis for comparison, then merchandise imported into the United States will ordinarily be deemed to have been sold at less than fair value if the purchase price or the exporter's sales price (as defined in sections 203 and 204 respectively of the Antidumping Act, as amended), as the case may be, of commercially significant quantities thereof is materially less than the price (after adjustment, as provided in section 205 of the Antidumping Act, as amended) at which such or similar merchandise is sold by the foreign producer otherwise than for exportation to the United States (i. e. for consumption in the country of exportation and for exportation otherwise than to the United States) on or about the date of sale of the merchandise imported into the United States or, in the case of merchandise imported on consignment, the date of exportation thereof. Sales "otherwise than for exportation to the United States" shall not include consignments to the United States to be sold in the United States after arrival.

(3) *Determination based on sales by other foreign producers.* If the Secretary deems the available information as to the prices of the foreign producer insufficient or inadequate, he may determine fair value under subparagraph (1) or (2) of this paragraph on the basis of prices of other foreign producers in the same country for similar merchandise.

(4) *Fair value based on cost of production.* If the information available is deemed by the Secretary insufficient or inadequate for a determination under subparagraph (1), (2) or (3) of this paragraph, he will determine fair value on the basis of the cost of production as defined in section 206 of the Antidumping Act, as amended (19 U. S. C. 165).

(b) *Calculation of fair value.* In calculating fair value under section 201 (a) Antidumping Act, 1921, as amended (19 U. S. C. 160 (a)), the following criteria shall be applicable:

(1) *Quantities and circumstances of sale.* A reasonable allowance may be made for any differences in quantities and circumstances of sale.

(2) *Offering price.* The foreign producer's offering price may be considered in the absence of sales.

(3) *Sales agency.* If the foreign producer sells through a sales agency or other organization related to such producer in any of the respects described in section 207 of the Antidumping Act, as amended (19 U. S. C. 166), the prices at which the producer's merchandise is sold by such sales agency or other organization may be used in determining whether there have been sales at less than fair value.

(4) *Fictitious sales.* In the determination of fair value, no pretended sale or offer for sale, and no sale or offer for sale intended to establish a fictitious market, shall be taken into account.

(5) *Sales at varying prices:* Where the prices charged by a foreign producer (after adjustment as provided in section 205 of the Antidumping Act and after allowances contemplated by subparagraph (1) of this paragraph vary, in the sales under consideration, determination of fair value will take into account the following: (i) The prices of a preponderance of the merchandise thus sold, (ii) weighted averages of the prices of the merchandise thus sold, or (iii) any other available criteria that the Secretary may deem reasonable.

2. Footnote 15, appended to § 14.7 is revised to read as follows:

[15] The definition of fair value does not in any way modify or affect definitions of foreign market value given in section 205 or of cost of production given in section 206 or the application of a foreign market value (or, in the absence of such value, cost of production) as defined in the Act as a basis for determining whether or not to withhold appraisement under section 201 (b) or for imposition of duty under section 202.

An industry in the United States which considers that it is being injured by sales of merchandise at less than fair value will ordinarily have insufficient information on which to submit proof either of fair value as herein defined, or foreign market value or cost of production as defined in sections 205 and 206. The industry may, however, submit, and appraisers will consider, such material as is available to it, including information indicating the market price for similar merchandise in the country of exportation and in any third countries in which merchandise of the producer complained of is known to be sold. Information submitted by an industry and information submitted by the foreign producer and others will be of value in assisting the Treasury to establish the basis for fair value, foreign market value, or cost of production.

Fair value is computed on the basis of sales for consumption in the country of exportation or otherwise than for exportation to the United States at or about the date of the sale or exportation to the United States. However, in cases where it may be important to determine either the stability of the market or its trend, as well as to determine whether there has been a fictitious sale as described in paragraph (b) (4), of this section, it will be helpful to the Secretary to have information as to sales made for consumption in the country of exportation or otherwise than for exportation to the United States over a significant period of time immediately preceding the date of sale or exportation.

EXAMPLES FOR PURPOSES OF DISCUSSION

A few examples of what would and what would not be considered sales at less than fair value are given below for purposes of discussion. With the exception of Examples 4 and 5, it is assumed that individual sales are in the same average quantities and with the exception of Example 6, that they are also made under the same circumstances.

Example 1. A foreign producer has made the following sales of a particular product over a representative period:

Sales for consumption in country of exportation	Sales for exportation otherwise than to the United States	Sales to the United States
75,000 units at $1.00	25,000 units at $0.91	15,000 units at $0.90.

The quantity of sales of this product in the country of exportation, amounting to 75,000 units, is sufficiently large in relation to the total of 100,000 units sold otherwise than for exportation to the United States to constitute an adequate basis for comparison with sales to the United States. (See paragraph (a) (1) and (2) of this section.) The price for sale to the United States is materially less than the price in the country of exportation. The foreign producer is therefore selling in the United States below fair value. This will be so even if the home market sales involve a restriction for which allowance need not be made because of circumstances of sale (such a restriction might be the typical limitation of right of resale to a specified area) and the third country sales are freely offered, so that the foreign market value under section 205 of the Antidumping Act is $.91.

Example 2. A foreign producer has made the following sales of a particular product:

Sales for consumption in country of exportation	Sales for exportation otherwise than to the United States	Sales to the United States
25,000 units at $0.95	75,000 units at $0.90	15,000 units at $0.90.

The foreign producer can show that the quantity of sales of this product in the country of exportation, amounting to 25,000 units, is so small in relation to the total of 100,000 units sold otherwise than for exportation to the United States, as to be an inadequate basis for comparison with sales to the United States. Determination of fair value will therefore be based on the selling price otherwise than for exportation to the United States, pursuant to paragraph (a) (2) of this section. This price is $.90. In the absence of special circumstance it would appear that the sales for exportation to the United States were not below fair value, whether determined on the basis of material variation below a preponderance of other sales, or a weighted average of such sales, or otherwise. This may be so even if the home market sales are freely offered and therefore represent the foreign market value, and the third country sales are restricted, provided that the restriction is one (such as the typical limitation of right of resale to a specified area) for which allowance need not be made because of the circumstances of the sale.

Example 3. A foreign producer has sold his merchandise for consumption in the country of exportation at or about the date of the sale or exportation to the United States at the following prices:

2,000 tons at $32.00 ton.
900 tons at $32.50 ton.
2,000 tons at $33.00 ton.
1,000 tons at $33.10 ton.

Sales to the United States have been made by this supplier in the same average quantities at a uniform price of $32.90 per ton during the period. The difference in price between the producer's home market sales or any average thereof and his sales to the United States is so slight that it is not "material" unless such factors as small margin of profit and the sensitive condition of the market justify the conclusion that the difference is in fact "material."

Example 4. A foreign producer makes all of his sales, other than those to the United States, for consumption in the country of exportation. The majority of the merchandise thus sold by him is sold at list prices, net. However, a discount of 5 percent is granted on sales of more than 500 tons. Sales to the United States are at list price less 10 percent and have been in quantities of 10,000 tons or more. There have been no other sales by this producer in such quantities. Since the discount appears to be a reasonable one in view of the difference in quantities, the sales will not be considered to have been made at less than fair value in the absence of evidence that the price differential was not due to the differences in quantities.

The same result could obtain if the pricing pattern showed a differential because of quantity even though there were no list prices, or the list prices did not specify quantity discounts. This is shown in Example 5.

Example 5. A foreign producer has the following record of sales at or about the date of sale or exportation to the United States:

Sales for consumption in country of exportation	Quantity for each sale	Sales to United States	Quantity for each sale
20,000 pounds at $0.85	Units of 100 pounds	100,000 pounds at $0.80	Units of 1,000 pounds.
10,000 pounds at $0.80	Units of 1,000 pounds		

Although the preponderance of sales during the period (200,000 lbs.) were at a price of 85 as opposed to the United States price of 80, the lower United States price is justified on the ground that the home price pattern shows that to be the prevailing price for units of 1,000 lbs., which were the units involved in the United States sales.

Example 6. A foreign producer sells for consumption in the country of exportation at $10 a unit to wholesalers and at $12 a unit to retailers, regardless of quantities. He sells to purchasers in the United States at the same prices under the same circumstances, i. e. $10 a unit to wholesalers and $12 a unit to retailers, regardless of quantities.

Making allowance for the circumstances of sale, the sales to wholesalers in the United States at $10 a unit will not be sales below fair value.

Internal Revenue Service

[26 CFR (1939) Part 29]

INCOME TAX; DISTRIBUTION IN REDEMPTION OR CANCELLATION OF STOCK TAXABLE AS DIVIDEND

WITHDRAWAL OF NOTICE OF PROPOSED RULE MAKING

Pursuant to the Administrative Procedure Act, approved June 11, 1946, a proposed revision of § 29.115-9 of Regulations 111 was published in tentative form as the appendix attached to a notice of proposed rule making published in the FEDERAL REGISTER for October 10, 1951 (16 F. R. 10312). The proposed revision of the regulations was to have been issued under the authority contained in section 62 of the Internal Revenue Code (53 Stat. 32; 26 U. S. C. 62).

In view of the consideration given the rules respecting the taxation of stock redemptions by the Congress in connection with the Internal Revenue Code of 1954, approved August 16, 1954, notice is hereby given that such proposal to revise the regulations is hereby withdrawn.

[SEAL] T. COLEMAN ANDREWS,
Commissioner of Internal Revenue.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 978]

[Docket No. AO-184-A11]

HANDLING OF MILK IN NASHVILLE, TENNESSEE MARKETING AREA

NOTICE OF HEARING ON PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT AND TO ORDER, AS AMENDED

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of a public hearing to be held in the County Courtroom, Davidson County Court House, Nashville, Tennessee, beginning at 10:00 a. m., November 9, 1954, for the purpose of receiving evidence with respect to the proposed amendments hereinafter set forth, or appropriate modification thereof, to the tentative marketing agreement heretofore approved by the Secretary of Agriculture and to the order, as amended, regulating the handling of milk in the Nashville, Tennessee, marketing area (7 CFR 978 et seq.). The proposed amendments have not received the approval of the Secretary of Agriculture.

The amendments to the order, as amended, regulating the handling of milk in the Nashville, Tennessee, milk marketing area were proposed by the Nashville Milk Producers, Inc., and handlers regulated by the Nashville, Tennessee Milk Marketing Order.

Proposed by Nashville Milk Producers, Inc. as follows:

1. Change the method of pooling in the Nashville market from a market-wide pool to an individual dealer pool.

2. Delete § 978.9 and substitute therefor:

§ 978.9 *Fluid milk plant.* "Fluid milk plant" means (a) any milk plant from which Class I milk is disposed of to retail or wholesale outlets in the marketing area, or (b) any plant from which Grade "A" milk or skim milk is shipped to a plant specified in paragraph (a) of this section.

3. Delete § 978.10 and substitute therefor:

§ 978.10 *Producer.* "Producer" means any person who produces Grade A milk, which milk is (a) received at a fluid milk plant or (b) diverted from a fluid milk plant to any milk distributing or milk manufacturing plant: *Provided*, That any such milk so diverted shall be deemed to have been received by the handler for whose account it was diverted.

4. Delete § 978.11 and substitute therefor:

§ 978.11 *Handler.* "Handler" means any person in the capacity as the operator of a fluid milk plant.

5. Clarify § 978.41 (a) with reference to requiring approval from the currently nonexisting Nashville Health Department and name items to be classified as Class I.

6. Revise § 978.50 (a) to include companies and locations currently doing business.

7. In § 978.50 (c) delete: "3¾ cents for each full ½ cent that" and substitute therefor "7½ times".

8. Delete § 978.51 (a) and substitute therefor:

(a) *Class I milk.* The price for Class I milk shall be the basic formula price plus a differential of $1.25 for the months March through August and $1.70 for the months September through February.

9. Delete § 978.51 (b) and substitute therefor the following:

(b) *Class II milk.* The price per hundredweight for Class II milk shall be the higher of the following:

(1) The arithmetical average of the basic (or field) prices reported to have been paid or to be paid per hundredweight for milk of 4.0 percent butterfat content received from farmers during the delivery period at the following plants or places for which prices have been reported to the Market Administrator or to the Department of Agriculture on or before the 6th day after the end of the delivery period by the companies indicated below:

Borden Co., Fayetteville, Tenn.
Borden Co., Lewisburg, Tenn.
Carnation Co., Murfreesboro, Tenn.
Kraft Foods Co., Gallatin, Tenn.
Kraft Foods Co., Pulaski, Tenn.
Lakeshire-Marty Cheese Co., Carthage, Tenn.
Pet Milk Co., Franklin, Ky.
Sumner County Cooperative Creamery, Gallatin, Tenn.
Swift and Co., Lawrenceburg, Tenn.
Wilson and Co., Murfreesboro, Tenn.

(2) A pricing provision that will yield seasonally 25 to 35 cents per hundred pounds more than the present Class II price.

10. Amend § 978.52 (a) by deleting the figure "1.3" and substituting therefor: "1.2".

11. Delete § 978.61 (b) and substitute therefor:

(b) An entire base may be transferred by notifying the market administrator in writing before the last day of any month for which such base is to be transferred to the person named in such notice: *Provided*, That if the base is held jointly and such joint holding is terminated, the entire base transferrable by any joint holder shall be his portion of such jointly held base as indicated by the joint holders.

12. Amend § 978.82 so that the last phrase therein will read, "and then adjust to the nearest even one-tenth of a cent."

Proposed by Handlers Regulated by the Nashville, Tennessee Milk Marketing Order:

13. Amend § 978.41 to provide that skim milk and butterfat disposed of as eggnog shall be classified as Class II milk.

14. Amend § 978.51 (a) (1) to provide that producer milk disposed of to others than handlers regulated by this order and classified as Class I shall be included in the total receipts of producer milk, and excluded from the gross volume of Class I milk.

15. Amend § 978.43 *transfers* to:

a. Eliminate any provision whereby the distance which milk is transferred or diverted determines the classification assigned to such milk.

b. Provide that mutual indication in writing to the Market Administrator by the transferor and transferee fluid milk plant or nonfluid milk plant of the class utilization of such milk so transferred or diverted shall discharge the transferor from any liability by reclassification of such milk by the market administrator.

Proposed by the Dairy Division, Agricultural Marketing Service:

16. Clarify the other source milk definition by specifying that Class II products not utilized in the plant during the month are not included.

17. Make such changes as may be required to make the entire marketing agreement and order conform with any amendments thereto that may result from this hearing.

Copies of this notice of hearing and of the order now in effect may be procured from the Market Administrator, Presbyterian Building, Room 101, 152 4th Avenue, North, Nashville 3, Tennessee, or from the Hearing Clerk, Room 1371, South Building, United States Department of Agriculture, Washington 25, D. C., or may be there inspected.

Dated: November 1, 1954, at Washington, D. C.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 2]

[Docket No. 11211; FCC 54-1368]

FREQUENCY ALLOCATIONS AND RADIO TREATY MATTERS; GENERAL RULES AND REGULATIONS

NOTICE OF PROPOSED RULE MAKING

In the matter of amendment of Part 2 of the Commission's rules and regulations to provide for the allocation of frequencies to stations in the International Fixed Public Radio-communication Service in Southern Florida (south of 25° 30' North Latitude) in the frequency band 680–890 Mc, for an interim period the duration of which is later to be specified by the Commission, on the condition that harmful interference will not be caused to the broadcast service of the United States or other countries.

Notice is hereby given of proposed rule making in the above-entitled matter.

The Commission is in receipt of a petition from the American Telephone and Telegraph Company which indicates the possibility of early expansion of public communication facilities in Southern Florida at gateway terminals for international circuits provided an appropriate allocation of frequencies for this purpose is made in the frequency band 680–890 Mc. The petition indicates that all of the facilities in the existing cables terminating in Florida are now in use and that there is an immediate need for the expansion of facilities to meet the expected growth in demand in 1955 and subsequent years. The petition further states that the number of public telephone circuits which would be provided by additional cable facilities would be a maximum of only 36 telephone circuits whereas a radio system employing frequencies in the band 680–890 Mc would be capable of providing hundreds of telephone circuits and that such use of radio would permit experimentation with TV transmission looking toward the establishment of international TV broadcast service between Florida and Cuba. The petition further states that the petitioner's ultimate goal is to develop equipment which would permit the use of common carrier frequencies above 1,000 Mc but that these developments will require an indeterminable period for research.

The Commission is mindful of the need for constant expansion of international public communication facilities and is, therefore, proposing to amend the table of frequency allocations in Part 2 of the Commission's rules so as to provide, on an interim basis, for the allocation of frequencies between 680–890 Mc to the International Fixed Public Radiocommunication Service for use at locations in Southern Florida. The termination of this interim period would later be specified by the Commission when it is determined that equipments are available which will permit the use of frequency bands allocated to the fixed service.

The adoption of the rule amendment which is proposed herein will not, by itself, result in the assignment of any specific frequencies to any radio stations in the international fixed public radiocommunication service. The selection and assignment of specific frequencies to particular stations would be made only after the proposed rule amendment is adopted. Specific frequencies then would be selected for assignment to stations in the international fixed public radiocommunication service in such a way as to preclude interference to the reception of television broadcasting, both present and future, taking into account for this purpose pertinent technical factors such as the provisions of Subpart E of Part 3, rules governing Radio Broadcast Services. The Commission's studies of the aforementioned petition indicate that it is entirely feasible to select such frequencies in the band 680–890 Mc in this geographical area (Southern Florida) without the risk of causing interference to the TV broadcast service. It is therefore proposed to amend Part 2 of the Commission's rules by the insertion of a footnote in the table of frequency allocations therein which would read as follows:

Stations in the International Fixed Public Radiocommunication Service in Florida, South of 25°30' North Latitude, may be authorized to use frequencies in the band 680–890 Mc on the condition that harmful interference will not be caused to the broadcasting service of any country. This is an interim allocation the termination of which will later be specified by the Commission when it is determined that equipments are generally available for use in bands allocated internationally to the fixed service.

In connection with this proceeding, the Commission is seeking information and reliable estimates as to the availability of suitable equipment and practical systems for accomplishing the proposed service on frequencies allocated internationally to the fixed service.

The proposed amendment to the rules is issued pursuant to the authority of Sections 303 (c), (f) and (r) of the Communications Act of 1934, as amended, and the Final Acts of the International Telecommunication Radio Conference (Atlantic City 1947).

Any interested person who is of the opinion that the proposed amendment should not be adopted, or should not be adopted in the form set forth herein, may file with the Commission on or before December 3, 1954, written data, views or arguments setting forth his comments. Comments in support of the proposed amendment may also be filed on or before the same date. Comments in reply to the original comments may be filed within 10 days from the last day for filing said original data, views or arguments. No additional comments may be filed unless (1) specifically requested by the Commission or (2) good cause for the filing of such additional comments is established. The Commission will consider all such comments prior to taking final action in this matter, and if comments are submitted warranting oral argument, notice of the time and place of such oral argument will be given.

In accordance with the provisions of § 1.764 of the Commission's rules and regulations, an original and 14 copies of all statements, briefs or comments filed shall be furnished the Commission.

Adopted: October 29, 1954.

Released: November 1, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 54-8697; Filed, Nov. 3, 1954; 8:53 a. m.]

[47 CFR Part 3]

[Docket No. 10905 FCC 54-1350]

TELEVISION BROADCAST STATIONS

TABLE OF ASSIGNMENTS

1. The Commission has before it for consideration its notice of proposed rule making (FCC 54-184) issued in this proceeding on February 11, 1954, proposing to amend its table of television channel assignments as requested by KALE, Inc. as follows:

City	Channel No.	
	Present	Proposed
Lewiston, Idaho ..... Richland, Wash.	3— 31	32+, 42 3—, 31

2. KALE, Inc., filed a comment supporting the proposed amendment stating that there were no applications on file for Channel 3 at Lewiston, and representing that in the event Channel 3 is assigned to Richland, KALE, Inc., will file an application for a station on Channel 3 in that community. It is contended that the proposed amendment would effect the best possible utilization of Channel 3 in the area and that Channel 3 in Richland would meet all Commission rules.

3. Oregon Radio, Inc., opposed the proposed shift of Channel 3 from Lewiston to Richland. Oregon Radio is the permittee of television station KSLM-TV in Salem, Oregon, and proposes to utilize a site 33 miles from Salem in the direction of Richland. This site would not meet the required minimum co-channel spacing for Zone II if Channel 3 is assigned to Richland. Oregon Radio contends that its proposed site is particularly suitable for large-area coverage and that any site which would comply with the minimum separations if Channel 3 is assigned to Richland would result in a reduction of proposed coverage and service to the more densely populated section of Oregon which it proposes to serve. Oregon Radio, therefore, opposes the assignment of Channel 3 to Richland and, in the alternative, urges that such assignment be made only on the condition that any applicant using the assignment must specify a transmitter site at least 190 miles from the site proposed by Oregon Radio.

4. Cascade Broadcasting Company, Inc., permittee of television station KIMA-TV at Yakima, Washington, has also filed an Opposition to the proposed assignment of Channel 3 at Richland. Cascade stated in its Opposition that it planned to apply for one of the UHF assignments in the Kennewick-Pasco-Richland area and has since the filing of the Opposition filed an application for a television station on Channel 19 in Pasco (BPCT-1904). Cascade contends that if Channel 3 is assigned to Richland, the operator of a station on that frequency would enjoy "a monopoly of television operation in this tri-city area of Washington", and would deprive the residents of the area of a choice of both network and local programming. Cascade submits that the Commission should maintain the assignments presently in the table.

5. On August 18, 1954, the Lewiston Chamber of Commerce filed an Opposition to the petition of KALE, Inc., and a petition for the acceptance of the late comment. The Commission is considering the Chamber of Commerce's comment in this proceeding. The Chamber of Commerce urges that Channel 3 should be retained in Lewiston. It is asserted that the terrain in the area can best be served by a VHF channel. The Chamber of Commerce contends that the State of Washington is already well served by television stations whereas the northern ten counties in Idaho do not have such service. It is urged that Lewiston is the focal point of a vast area and is the ideal place for the location of a television transmitter to serve a widespread area.

6. KALE, Inc., requests that VHF Channel 3 presently assigned to Lewiston be shifted to Richland. At the time its petition was filed there appeared to be no demand for such assignment in Lewiston since no applications for Channel 3 had been filed. However, since the filing of KALE, Inc.'s petition, an application for a station on Channel 3 in Lewiston has been filed by Lewiston TV Co. We are of the view that the assignments in the Lewiston and Richland areas should be altered only upon a clear showing that the public interest requires a change. However, upon our careful consideration of the comments submitted in this proceeding, we have concluded that such a showing has not been made. We are of the view, therefore, that the petition of KALE should be denied.

7. In view of the foregoing: *It is ordered*, That the petition of KALE, Inc. is denied, and this proceeding is hereby terminated.

Adopted: October 29, 1954.

Released: November 1, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 54-8694; Filed, Nov. 3, 1954; 8:53 a. m.]

[47 CFR Part 3]

[Docket No. 11206]

TELEVISION BROADCAST STATIONS; TABLE OF ASSIGNMENTS

NOTICE OF EXTENSION OF TIME FOR FILING COMMENTS AND REPLY TO ORDER TO SHOW CAUSE

1. On October 21, 1954, the Commission issued a notice of proposed rule making and order to show cause (FCC 54-1316) in the above-entitled matter which proposed to substitute Channel 39 for Channel 27 in Miami, Florida, and Channel 27 for Channel 25 in Belle Glade, Florida, and ordered WMIE-TV, Inc., to show cause why its authorization should not be modified to specify operation on Channel 39 in lieu of Channel 27. This notice specified that comments were to be filed on or before November 1, 1954, and a reply to the show cause order on the same date.

2. WMIE-TV, Inc., has requested an extension of time until November 8, 1954, in which to file an opposition to the aforesaid show cause order. WMIE-TV states that previously both the petitioner and WMIE-TV, Inc., were represented by the same counsel; that it was necessary for WMIE-TV, Inc., to obtain other counsel; and that this fact and the need for the preparation of an engineering statement renders the time provided by the Commission insufficient.

3. It is our view that a sufficient showing has been made warranting an extension of time for filing comments and a reply to the show cause order by WMIE-TV, Inc. Accordingly, notice is hereby given that the time for filing comments in the above-entitled matter and a reply to the show cause order is extended to November 8, 1954, and the time for filing replies to these comments is extended to November 15, 1954.

Adopted: October 29, 1954.

Released: November 1, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 54-8695; Filed, Nov. 3, 1954; 8:53 a. m.]

[47 CFR Part 3]

[Docket No. 11210; FCC 54–1352]

TELEVISION BROADCAST STATIONS; TABLE OF ASSIGNMENTS

NOTICE OF PROPOSED RULE MAKING AND ORDER TO SHOW CAUSE

1. Notice is hereby given that the Commission has received a proposal for rule making in the above-entitled matter.

2. Boise Valley Broadcasters, Inc., permittee of television station KBOI, operating on Channel 2 at Meridian, Idaho, filed a petition on September 14, 1954, requesting that the table of assignments contained in § 3.606 of the rules governing television broadcast stations be amended to exchange Channels 2 and 9 between Caldwell, Idaho, and Boise, Idaho, as follows:

City	Channel No.	
	Present	Proposed
Boise, Idaho	*4+, 7, 9—	2, *4+, 7
Caldwell, Idaho	2	9—

Petitioner further requests that the Commission modify its outstanding authorization for Station KBOI to specify operation at Boise, in lieu of Meridian.

3. In support of its request, petitioner notes that it is the permittee of Station KBOI on Channel 2 in Meridian with temporary studios authorized at Boise. Petitioner notes that its transmitter site is located at Deer Point Peak some ten miles Northeast of Boise. Petitioner submits that adoption of the proposed amendment would permit the station to use the Boise studios on a permanent basis, thereby enabling the station to render an efficient service to the greatest areas and populations. Petitioner desires to become a Boise station while retaining its present frequency and proposes to accomplish this by switching Channels 9 and 2 in Caldwell and Boise.

4. We are of the view that rule-making proceedings should be instituted with respect to the requests for reassignment of Channel 2 from Caldwell to Boise, and the reassignment of Channel 9 from Boise to Caldwell, in order that interested parties may submit their views to the Commission.

5. Authority for the adoption of the proposed amendment is contained in sections 4 (i), 301, 303 (c), (d), (f), and (r), and 307 (b) of the Communications Act of 1934, as amended.

6. Any interested party who is of the opinion that the amendment proposed by petitioner should not be adopted or should not be adopted in the form set forth herein may file with the Commission on or before November 22, 1954, a written statement or brief setting forth his comments. Comments in support of the proposed amendment may also be filed on or before the same date. Comments or briefs in reply to the original comments may be filed within 10 days from the last day for filing said original comments or briefs. No additional comments may be filed unless (1) specifically requested by the Commission or (2) good cause for the filing of such additional comments is established. The Commission will consider all such comments that are submitted before taking action in this matter, and if any comments appear to warrant the holding of a hearing or oral argument, notice of the time and place of such hearing or oral argument will be given.

7. In accordance with the provisions of § 1.764 of the Commission's rules and regulations, an original and 14 copies of all statements, briefs, or comments shall be furnished the Commission.

8. Since Boise Valley Broadcasters, Inc., is presently authorized to operate Station KBOI with studios at Meridian, Idaho, and the rule making proposed herein would require Station KBOI to operate with studios at Boise, Idaho, Boise Valley Broadcasters, Inc., is ordered to show cause in this proceeding why its outstanding authorization should not be modified to specify operation on Channel 2 at Boise, Idaho, instead of Meridian, Idaho. A reply to the aforesaid Order to Show Cause should be filed on or before the date specified above for filing comments in the proceeding.

Adopted: October 29, 1954.

Released: November 1, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

NOTICES

DEPARTMENT OF THE TREASURY

Office of the Secretary

CENTRAL BANK FOR COOPERATIVES

DESIGNATION OF SECURITIES FOR EXEMPTION UNDER THE SECURITIES EXCHANGE ACT OF 1934

NOVEMBER 1, 1954.

Paragraph 12 of section 3 (a) of the Securities Exchange Act of 1934, as amended, provides in part that when used in title I thereof, unless the context otherwise requires, the term "exempted security" or "exempted securities" shall include such securities issued or guaranteed by corporations in which the United States has a direct or indirect interest as shall be designated for exemption by the Secretary of the Treasury as necessary or appropriate in the public interest or for the protection of investors.

Notice is hereby given that pursuant to paragraph 12 of section 3 (a) of the Securities Exchange Act of 1934, as amended, the Secretary of the Treasury on October 29, 1954, designated for exemption securities issued by the Central Bank for Cooperatives and the regional banks for cooperatives pursuant to Public Law 630, 83d Congress, approved August 23, 1954, amending section 37 of the Farm Credit Act of 1933, as amended (12 U. S. C. 1134m).

This designation for exemption may be revoked, modified or amended at any time with respect to securities not issued prior to such time.

[SEAL] A. N. OVERBY,
Acting Secretary of the Treasury.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

NORTH DAKOTA

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

OCTOBER 27, 1954.

An application, serial number M–013726 (ND), for the withdrawal from all forms of appropriation under the public land laws, except mining laws and mineral leasing laws of the lands described below was filed on July 1, 1953, by the Department of Agriculture.

The purposes of the proposed withdrawal: Transfer of public lands to Department of Agriculture for administration by the Forest Service in connection with Land Utilization Project ND–LU–24.

For a period of thirty days from the date of publication of this notice, persons having cause to object to the proposed withdrawal may present their objections in writing to the State Supervisor, Bureau of Land Management, Department of the Interior at Billings, Montana. In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where proponents of the order can explain its purpose.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER, either in the form of a public land order or in the form of a notice of determination if the application is rejected. In either case, a separate notice will be sent to each interested party of record.

The lands involved in the application are:

FIFTH PRINCIPAL MERIDIAN, NORTH DAKOTA

T. 152 N., R. 97 W.
Sec. 4: NW¼SW¼;
Sec. 30: NW¼NE¼.

The areas described aggregate 80 acres.

R. D. NIELSON,
State Supervisor.

CACHUMA PROJECT, CALIFORNIA

FIRST FORM RECLAMATION WITHDRAWAL

JANUARY 1, 1953.

Pursuant to the authority delegated by Departmental Order No. 2515 of April 7, 1949, I hereby withdraw the following-described lands from public entry, under the first form of withdrawal, as provided by section 3 of the act of June 17, 1902 (32 Stat. 388):

SAN BERNARDINO MERIDIAN, CALIFORNIA

T. 5 N., R. 26 W.,
Sec. 22, W½W½;
Sec. 23, NW¼NE¼, N½NW¼;
Sec. 27, NW¼NW¼.

The above areas aggregate 320 acres.

G. W. LINEWEAVER,
Assistant Commissioner.

[Misc. 64129]

OCTOBER 29, 1954.

I concur. The records of the Bureau of Land Management will be noted accordingly.

W. G. GUERNSEY,
Associate Director,
Bureau of Land Management.

Notice for Filing Objections to Order Withdrawing Public Lands for the Cachuma Project, California

Notice is hereby given that for a period of 30 days from the date of publication of this notice, persons having cause to object to the terms of the above order withdrawing certain public lands in the State of California, for use in connection with the proposed Camuesa Dam and Reservoir, Cachuma Project may present their objections to the Secretary of the Interior. Such objections should be in writing, should be addressed to the Secretary of the Interior, and should be filed in duplicate in the Department of the Interior, Washington 25, D. C.

In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where the proponents of the order can explain its purpose, intent, and extent. Should any objection be filed, notice of the determination by the Secretary as to whether the order should be rescinded, modified or let stand will be given to all interested parties of record and the general public.

G. W. LINEWEAVER,
Assistant Commissioner.

Sec. 35: lots 1 to 27, incl.;
Sec. 36: lots 1 to 25, incl.
T. 11 N., R. 96 W.,
Sec. 35: lots 1 to 8, incl., and W½E½;
Sec. 36: lots 1 to 5, incl., 12 to 18, incl., 23, 24 and 25.

The above areas aggregate 90,240.17 acres.

S. W. CROSTHWAIT,
Acting Commissioner.

[Misc. 66686]

OCTOBER 27, 1954.

I concur. The records of the Bureau of Land Management will be noted accordingly.

Portions of the above-described lands have been patented. The remainder are chiefly rolling to mountainous grazing lands. The vegetative cover consists primarily of sagebrush and grass, with small areas of pinin-juniper in the more mountainous sections. The soils vary from sandy clay to gravelly clay formations.

No application for the lands may be allowed under the homestead, desert-land, small tract, or any other non-mineral public-land law unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon the consideration of an application. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

This order shall not otherwise become effective to change the status of the described lands until 10:00 a. m. on the 35th day after the date of this order. At that time the said lands shall become subject to application, petition, location and selection, subject to valid existing rights, the provisions of existing withdrawals, the requirements of applicable laws, and the 91-day preference-right filing period for veterans and others entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284), as amended.

Veterans' preference-right applications under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284), as amended, may be filed on or before 10:00 a. m., on the 35th day after the date of this order, and those covering the same lands shall be treated as though simultaneously filed at that time. Applications filed under the act after that time and during the succeeding 91 days shall be considered in the order of filing. Applications by the general public under the public-land laws, filed on or before 10:00 a. m., on the 126th day after the date of this order shall be treated as though simultaneously filed at that time, where the applications are for the same lands; otherwise, priority of filing shall govern.

Inquiries regarding the lands shall be addressed to the Manager, Land Office, Bureau of Land Management, Denver, Colorado.

DEPUE FALCK,
Acting Director,
Bureau of Land Management.

DEPARTMENT OF LABOR

Wage and Hour Division

[Administrative Order 442]

PUERTO RICO

NOTICE OF RESIGNATION FROM AND APPOINTMENT TO SPECIAL INDUSTRY COMMITTEES NOS. 16B AND 16C

Mr. James B. Carey of Washington, D. C., has resigned from membership in Special Industry Committees Nos. 16B and 16C for Puerto Rico.

Pursuant to authority under the Fair Labor Standards Act of 1938, as amended (29 U. S. C. 201 et seq.), I, Wm. R. McComb, Administrator of the Wage and Hour Division, United States Department of Labor, hereby appoint David Lasser of Washington, D. C., to serve as a representative of employees on Special Industry Committees Nos. 16B and 16C.

Signed at Washington, D. C., this 1st day of November 1954.

WM. R. MCCOMB,
Administrator,
Wage and Hour Division.

[F. R. Doc. 54–8690; Filed, Nov. 3, 1954; 8:52 a. m.]

CIVIL AERONAUTICS BOARD

[Docket Nos. 3476, 5879]

WESTERN AIR LINES, INC.; SERVICE TO SIOUX FALLS, S. DAK.

NOTICE OF HEARING

In the matter of the applications of the City of Sioux Falls, S. Dak., Docket No. 3476, and of Western Air Lines, Inc., Docket No. 5879, for amendment of the certificate of public convenience and necessity held by Western Air Lines, Inc., for route No. 35 pursuant to section 401 (h) of the Civil Aeronautics Act of 1938, as amended.

Notice is hereby given, pursuant to the Civil Aeronautics Act of 1938, as amended, particularly sections 401 and 1001 of said act, that a hearing in the above-entitled proceeding will be held on December 6, 1954, at 10:00 a. m., local time, in Room 312, U. S. Post Office Building, Sioux Falls, S. Dak.

Without limiting the scope of the issues presented by the applications consolidated herein particular attention will be directed to the following matters:

1. Whether the public convenience and necessity require the amendment of the certificate of public convenience and necessity held by Western Air Lines, Inc., for route No. 35 so as to include Sioux Falls, S. Dak., as an intermediate point on said route.

2. Whether Western Air Lines, Inc., is fit, willing and able properly to perform the air transportation to be authorized and to conform to the provisions of the act and the rules, regulations and requirements of the Board thereunder.

For further details of the issues involved in this proceeding, interested persons are referred to the applications, Amendment No. 1 to the application in Docket No. 3476, the Prehearing Conference Report, and the Consolidation Order (No. E–8695) comprised in the record in this proceeding on file with the Civil Aeronautics Board.

Notice is further given that any person, other than a party of record, desiring to be heard in this proceeding must file with the Board on or before December 6, 1954, a statement setting forth the propositions of fact or law which he desires to advance.

Dated at Washington, D. C., October 29, 1954.

[SEAL] FRANCIS W. BROWN,
Chief Examiner.

WEST TENNESSEE BROADCASTING CO.

ORDER CONTINUING HEARING

In re application of West Tennessee Broadcasting Company consisting of General Partners: H. E. Williams and Herbert J. Kropf; Limited Partners: Hubert E. Clemmer, G. W. Threadgill, Guy Harwood, Ben I. King and Bryant Cunninghan, Milan, Tennessee, for construction permit; Docket No. 11103, File No. BP–9211.

The Commission having under consideration a petition filed on October 26, 1954, on behalf of West Tennessee Broadcasting Company, requesting that the hearing in the above-entitled proceeding, now scheduled to be held in Washington, D. C., on November 10, 1954, be continued for a period of thirty days, until December 10, 1954; and

It appearing that sufficient good cause has been shown to warrant a grant of the relief requested within the meaning of § 1.811 of the Commission's rules; and

It further appearing that all of the parties to the proceeding have consented to a grant of the above petition and to a waiver of § 1.745 of the Commission's rules in order to permit early consideration thereof;

It is ordered, This 29th day of October 1954, that the said petition be, and it is hereby, granted, and that the hearing in the above-entitled proceeding is hereby continued until 10:00 a. m., Friday, December 10, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

T. L. BISHOP AND V. J. SCOGIN

ORDER CONTINUING HEARING

In the matter of T. L. Bishop and V. J. Scogin, Aransas Pass, Texas, Order to Show Cause Why the License for Radiotelephone Station WB–2311 should not be revoked; Docket No. 11150.

The Commission having designated the above-entitled matter for a hearing to be held at its offices in Washington, D. C., at 10:00 o'clock a. m., on Monday, November 1, 1954; and

It appearing, that on October 20, 1954, a motion was filed on behalf of the Safety and Special Radio Services Bureau of this Commission, requesting that the hearing in the said proceeding be dismissed; and

It further appearing that no action is expected to be taken on the said Motion to Dismiss on or before November 1, 1954;

It is ordered, by the Commission on its own motion, this 29th day of October 1954, that the said hearing be, and it is hereby, continued without date.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

FEDERAL POWER COMMISSION

[Docket No. E–6585]

SOUTH CAROLINA GENERATING CO.

ORDER INITIATING PROCEEDING

South Carolina Generating Company (Generating Company), incorporated under the laws of the State of South Carolina, with its principal place of business at Columbia, South Carolina, by letter dated July 24, 1953, tendered for filing as its FPC Rate Schedule an agreement dated November 9, 1951,[1] providing for the supply of a portion of the energy requirements of the Georgia Power Company (Georgia Company), at up to a maximum demand of 75,000 kw. Generating Company, a wholly-owned subsidiary of South Carolina Electric and Gas Company (South Carolina Company) included as a part of that filing a copy of another contract dated November 9, 1951,[2] pursuant to which Generating Company agreed to supply a portion of the energy requirements of its parent at up to a maximum demand of 75,000 kw.

In both instances the energy supplied is to be generated at Generating Company's Urquhart steam electric generating station located near Beech Island, South Carolina, with delivery to South Carolina Company at 115 kv at Generating Company's Urquhart substation and delivery to Georgia Company a short distance away at the point of interconnection of the 115-kv transmission facilities of the Generating Company and those of Georgia Company at the Georgia-South Carolina State line. From the aforementioned filing and other information submitted to the Commission by the three companies it appears that all of the energy delivered to Georgia Company is thereafter resold and consumed at points outside of the State of South Carolina; and it further appears that all of that delivered to South Carolina Company is thereafter resold and consumed at points within the State of South Carolina.

Under the foregoing agreements which are to terminate in 1979 each purchaser is entitled to a maximum of one-half of the output of each of two 75,000-kw generating units presently installed at the Urquhart station;[3] subject, however, after both units are in service, to the right of Generating Company on twelve months' notice to reduce Georgia Company's entitlement by 25,000-kw and South Carolina Company's by 30,000-kw. In the event of an outage of one of these units Georgia Company would be entitled to one-half of the output of the remaining unit and to no service upon the outage of both. After the plant is in service, Generating Company may cancel its obligation to Georgia Company upon thirty months' notice.

Billing under both agreements is in accordance with a two-part capacity and energy type rate. The basic capacity charge to each amounts to $15.30 per kw per year, subject to adjustment to reflect any difference in amounts of estimated investment and fixed operating costs of the Urquhart station as set forth in the agreements from those actually experienced.[4] But in the case of the sale to the Georgia Company this basic charge is increased by the addition of a component of $7.20 per kw, or $540,000 annually. That additional amount is said to have been agreed to as representing 50 percent of the savings accruing to Georgia Company by reason of its purchase of energy from Generating Company in lieu of constructing an equivalent amount of capacity on its own system.

The energy charge to both customers is designed to cover certain stated operating expenses connected with the Urquhart station estimated to amount to 3.49 mills per kwh.

According to the agreements the basic capacity charge, which as currently adjusted amounts to $18 per kw per year, covers interest on and amortization of the principal of 90 percent of Generating Company's investment (including working capital) in the Urquhart station over a period of 25 years;[5] return on the remaining 10 percent equity at 8 percent; and an amount for insurance, Federal, State and local taxes, administrative and general expense and operating supervision and labor costs. The energy charge, currently estimated at 3.49 mills per kwh, covers fuel and maintenance expenditures incurred in the operation of the Urquhart station together with any generation taxes imposed upon the Generating Company.

Upon being informed that the staff was undertaking an analysis of its rates, Generating Company several times requested and held informal conferences with members of the Commission's staff, in the course of which its representatives submitted two computations of the company's cost of serving Georgia Company during the 12-month period ending October 31, 1953. Inasmuch as no service was rendered to Georgia Company prior to November 1953, the studies extensively employed estimates. One of these based the determination of the cost of serving Georgia Company upon the integrated system costs of Generating Company and South Carolina Company but without any allowance for the difference between the limited service rendered from the two units of the Urquhart plant and firm power service from South Carolina Company's integrated system. The other reflects Generating Company's service costs based on a hypothetical "orthodox capitalization plan"[6] for the Generating Company instead of the actual 90 percent and 25-year amortization plan.

In the submission of both studies Generating Company's representatives alleged without supporting data that the $540,000 extra annual charge to the Georgia Company is justified, chiefly because of (1) additional obligations and risks voluntarily incurred by South Carolina Company in underwriting the entire investment of Generating Company; (2) anticipated higher financing costs South Carolina Company will incur in the future due to a reduction of the equity ratio shown on its consolidated balance sheet as a result of Generating Company's high debt ratio; (3) services rendered by South Carolina Company in

[1] Accepted for filing effective October 1, 1953, and designated as Generating Company's Rate Schedule FPC No. 1.

[2] Identified as Exhibit A to Generating Company's Rate Schedule FPC No. 1.

[3] The first unit was placed in service in November 1953, and the second unit in January 1954.

[4] As currently adjusted the basic capacity charge amounts to $18.00 per kw per year.

[5] Generating Company's plant investment associated with the aforementioned two generating units approximates $27,000,000 which was financed per one million dollars of capitalization as follows:
$750,000, 25 year 3⅞ percent bonds.
$150,000, 10 year 4 percent debenture notes.
$100,000, equity at 8 percent.

[6] The capitalization assumed by Generating Company contemplated a debt ratio of 50 percent at a rate of interest of 3½ percent.

the planning, financing and construction of the Urquhart station for which no charges were made, and selection of the location of the plant mainly for reasons favoring the Georgia Company; (4) the failure of the Public Service Commissions of Georgia and South Carolina and the Georgia Company to voice any objections to the agreements at the time of their execution; and (5) the possibility that the cost of any additional capacity installed in the Urquhart station in the future to serve South Carolina Company may exceed that of presently installed capacity and result in higher charges to ultimate consumers in South Carolina.

On June 18, 1954, the Public Service Commission of Georgia filed a letter with this Commission stating in part as follows:

It is the view of this Commission that there appears to be undue discrimination in the Generating Company's rates in favor of its parent and it is also our view that it would be in the public interest to make further inquiry in the matter of discrimination to determine whether or not some revision in the rates should be made. We would like to state further that in the event there should result any downward modification in the demand rate charged Georgia Power Company, it will be our purpose to see that such reduction in power cost is passed on to the consumers of Georgia Power Company.

In view of the foregoing the Commission finds it necessary and appropriate in carrying out the provisions of the Federal Power Act to order as hereinafter provided.

The Commission orders:

(A) Generating Company shall make a showing of the facts necessary to enable the Commission to find and determine whether:

(1) Generating Company, by virtue of its ownership and operation of the facilities to effectuate the above-described sale of electric energy to Georgia Company, owns and operates facilities subject to the jurisdiction of the Commission.

(2) The sale to Georgia Company is a sale at wholesale in interstate commerce, subject to the provisions of Sections 205 and 206 of the Federal Power Act and the rules and regulations thereunder.

(3) The rates and charges for the service to Georgia Company as set forth in Generating Company's Rate Schedule FPC No. 1 are unduly discriminatory within the meaning of section 205 of the Federal Power Act and unlawful; and whether the Commission should order that Generating Company file a new rate for that service eliminating all substantial differences between the charges and related provisions of the schedule of rates to Georgia Company and those of the rate schedule in effect for the service to Generating Company's parent-customer South Carolina Company.

(4) The charges to Georgia Company provided for by such rate schedule are unjust and unreasonable; and if so what rate the Commission should order Generating Company to file.

(B) Without in any way precluding or limiting Generating Company from making any showing it wishes to make of facts relevant and material to the questions posed by this order, and without prejudice to any position Generating Company may wish to take as to the significance or lack of significance of the facts hereinafter specified, and also without this Commission at this time deciding that question but reserving full freedom to decide all the questions on the full record in the light of all arguments that may be adduced before it, Generating Company shall show its cost of rendering the service to Georgia Company, calculated in accordance with applicable Commission precedents and using, among other things, (i) a prudent investment rate base with the deduction for accrued depreciation computed on the basis of straight line depreciation; (ii) a fair rate of return; (iii) taxes actually to be paid over the life of the contract. This showing shall be made for the first two units in commercial operation: (1) for the calendar year 1954 using actual experience insofar as data are available for the period the two units shall have been in commercial operation and estimates based upon actual experience for the remainder of that year; (2) for every fifth year thereafter for 25 years, by use of the same figures with adjustments to reflect changes in net investment, return, and federal and state income taxes, and other changes which are known and measurable with reasonable accuracy.

(C) Subject to the same conditions and reservations as set forth in (B) above, Generating Company shall show its revenues from Georgia Power for the same years based upon the same operations under its Rate Schedule FPC 1.

(D) The foregoing showing shall be submitted in writing under oath within 60 days of the issuance of this order, with sufficient copies to provide 5 for the Commission, 2 for each of the State Commissions of Georgia and South Carolina, and 1 each for any others who may have been admitted as interveners.

(E) A public hearing on the foregoing issues be held at a time and place to be fixed hereafter.

(F) Interested State commissions may participate in this proceeding as provided in §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f) of the Commission's general rules and regulations.

Adopted: October 27, 1954.

Issued: October 29, 1954.

By the Commission.[1]

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 54-8680; Filed, Nov. 3, 1954; 8:49 a. m.]

[Docket No. G-2450, G-2451]

CENTRAL KENTUCKY NATURAL GAS CO., AND UNITED FUEL GAS CO.

ORDER PERMITTING CHANGES IN SUSPENDED TARIFFS, MAKING EFFECTIVE CHANGED TARIFFS UPON FILING OF UNDERTAKINGS TO ASSURE REFUNDS OF EXCESS CHARGES, CONSOLIDATING PROCEEDINGS FOR HEARING, FIXING DATE OF HEARING, AND SPECIFYING PROCEDURE

By order issued June 4, 1954, in Docket No. G-2451, the Commission, pursuant to authority contained in Sections 4 and 15 of the Natural Gas Act, ordered that a hearing be held concerning the lawfulness of the rates, charges, classifications, and services, or any of them, contained in the FPC Gas Tariff, Fourth Revised Volume No. 1, filed on May 12, 1954, by United Fuel Gas Company (United), setting forth therein proposed increased rates and charges, subject to the Commission's jurisdiction under that Act, for sales by United in interstate commerce of natural gas for resale for ultimate public consumption.[1] The said tariff proposed, based upon estimated sales during 1955, an annual increase of approximately $17,542,000, or 19.4 percent, above the rates made effective March 1, 1954, pursuant to the Commission's order issued May 13, 1954, In the Matter of United Fuel Gas Company, Docket No. G-2274. The Commission's June 4, 1954 order also provided that, pending the hearing and decision thereon, United's FPC Gas Tariff, Fourth Revised Volume No. 1, be suspended and the use thereof deferred until November 1, 1954, and until such further time thereafter as it might be made effective in the manner prescribed by the Natural Gas Act, unless otherwise ordered by the Commission.

By order issued June 4, 1954, in Docket No. G-2450, the Commission, pursuant to authority contained in sections 4 and 15 of the Natural Gas Act, ordered that a hearing be held concerning the lawfulness of the rates, charges, classifications, and services, or any of them, contained in the FPC Gas Tariff, Fourth Revised Volume No. 1, filed on May 14, 1954, by Central Kentucky Natural Gas Company (Central), setting forth therein proposed increased rates and charges, subject to the Commission's jurisdiction under that Act, for sales by Central in interstate commerce of natural gas for resale for ultimate public consumption.[2] The said tariff proposed, based upon estimated sales during 1955, an annual increase of approximately $2,696,000 or 12.2 percent, above the rates and charges made effective March 1, 1954, pursuant to the Commission's orders issued July 1 and August 6, 1954, In the Matter of Central Kentucky Natural Gas Company, Docket No. G-2276. The Commission's June 4, 1954 order also provided that, pending the hearing and decision thereon, Central's FPC Gas Tariff, Fourth Revised Volume No. 1, be suspended and the use thereof deferred until November 1, 1954, and until such further time thereafter as it might be made effective in the manner prescribed by the Natural Gas Act, unless otherwise ordered by the Commission.

Section 4 (e) of the Natural Gas Act provides that whenever any new rate schedule is filed, the Commission shall have authority to enter upon a hearing concerning the lawfulness of the same; and that pending such hearing and the decision thereon, the Commission may suspend the operation of the new rate schedule, "but not for a longer period than five months beyond the time when it would otherwise go into effect." Said section further provides:

If the proceeding has not been concluded and an order made at the expiration of the suspension period, on motion of the natural-gas company making the filing, the proposed change of rate, charge, classification, or service shall go into effect. Where increased rates or charges are thus made effective, the Commission may, by order, require the natural-gas company to furnish bond, to be approved by the Commission, to refund any amounts ordered by the Commission, to keep accurate accounts in detail of all amounts received by reason of such increase, specifying by whom and in whose behalf such amounts were paid, and, upon completion of the hearing and decision, to order such natural-gas company to refund, with interest, the portion of such increased rates or charges by its decision found not justified.

These proceedings, instituted for the purpose of determining the lawfulness of the rates and charges contained in the proposed revised tariffs, have not been concluded or decisions rendered therein by the Commission.

On October 1, 1954, United filed an application requesting special permission under § 154.66 (b) of the Commission's general rules and regulations (18 CFR 154.66 (b)) to substitute First Revised Sheets Nos. 12, 13, 16, and 17 for Original Sheets Nos. 12, 13, 16, and 17 to its FPC Gas Tariff, Fourth Revised Volume No. 1, under suspension, together with a motion that the rates and charges contained in such tariff volume, as proposed to be amended by the substitute sheets, be permitted to become effective November 1, 1954.

United represents that the substitute tariff sheets, now proposed and referred to above, embody rates designed to decrease by approximately $4,519,000 annually the revenues that would be produced by the Docket No. G-2451 suspended rates, based upon United's estimated sales for the calendar year 1953.[3] United states that the substitute sheets were filed because of the reduction in cost of gas purchased from Tennessee Gas Transmission Company, resulting from the withdrawal by that Company of its rate-increase proposal (contained in that Company's FPC Gas Tariff, Seventh Revised Volume No. 1), pursuant to the Commission's order issued September 10, 1954, In the Matter of Tennessee Gas Transmission Company, Docket No. G-2434. In the event permission is not granted to substitute the revised tariff sheets filed October 1, 1954, United, in its motion, requests that its FPC Gas Tariff, Fourth Revised Volume No. 1, as originally filed on May 12, 1954, be permitted to go into effect November 1, 1954.

On October 1, 1954, Central filed an application requesting special permission under § 154.66 (b) of the Commission's general rules and regulations to substitute First Revised Sheets Nos. 7, 8, 15, and 16 to its FPC Gas Tariff, Fourth Revised Volume No. 1, under suspension, together with a motion that the rates and charges contained in such tariff volume, as proposed to be amended by the substitute sheets, be permitted to go into effect November 1, 1954.

Central represents that the substitute tariff sheets, now proposed and referred to above, embody rates designed to decrease by approximately $985,000 annually the revenues that would be produced by the Docket No. G-2450 suspended rates, based upon Central's estimated sales for the calendar year 1953.[4] Central states that the substitute sheets were filed because of the reduction in cost of gas purchased from United from and after November 1, 1954, based upon the revised tariff sheets filed by United in Docket No. G-2451, all as hereinbefore described. In the event permission is not granted to substitute such revised tariff sheets, Central, in its motion, requests that its FPC Gas Tariff, Fourth Revised Volume No. 1, as originally filed on May 14, 1954, be permitted to go into effect November 1, 1954.

Section 154.66 (b) of the Commission's general rules and regulations provides:

A natural-gas company may not, within the period of suspension, file any change in a tariff, executed service agreement or part thereof which has been suspended by order of the Commission except by special permission of the Commission granted upon application therefor and for good cause shown.

Good cause has been shown for permitting substitution of the revised tariff sheets as filed October 1, 1954, inasmuch as such sheets embody rates materially lower than the rates proposed in the revised tariffs as originally filed by Central and United.

On October 1, 4, and 5, 1954, in Docket Nos. G-2450 and G-2451, telegrams and letters were received from four wholesale customers of Columbia Gas System, Inc., which "* * * urgently request immediate hearing on the contract demand issue to permit interim determination before the suspension period expires," that is, before November 1, 1954.[5] The "contract demand issue" alluded to in these requests refers to the change in demand determinants from actual delivery to contract demand proposed by Central and United in their tariff volumes under suspension in these proceedings. Central and United propose such changes notwithstanding the Commission's decisions as reflected in Commission Opinion Nos. 258 and 258-A involving United in Docket No. G-2055, and subsequent rate settlements involving United in Docket No. G-2274 and Central in Docket Nos. G-2056 and G-2276, wherein the Commission approved the use of actual deliveries rather than contract demands for determination of billing demand quantities.

In Docket No. G-2055, Opinion Nos. 258 and 258-A, respectively, issued August 7, 1953 and November 19, 1953, the Commission decided that United's contract demand tariff was not proper for its wholesale sales and prescribed rate schedules therefor, which provided for billing on an actual delivery basis. The subsequent settlement in Docket No. G-2055, as approved by the Commission's order issued February 5, 1954, and the later settlement in Docket No. G-2274, as approved by the Commission's order issued May 13, 1954, contained the form of rate schedules prescribed by the Commission in its Opinion Nos. 258 and 258-A in Docket No. G-2055. The rate settlements involving Central, as approved by the Commission's order issued March 26, 1954, in Docket No. G-2056, and the subsequent settlement as approved by the Commission's order issued July 1, 1954 in Docket No. G-2276, also provided for billing on an actual delivery basis in lieu of contract demand billing proposed by Central.

In the circumstances, particularly in view of the urgent requests for immediate headings concerning the form of rates, it is deemed appropriate that the above-entitled proceedings be consolidated for early hearing. Prompt resolution of the issue respecting the form of rates for Central and United would seem desirable, not only for the customers but also because of the possible impact of rate form upon the relative revenues from each wholesale customer, particularly United's wholesale customers, since United's proposal in Docket No. G-2451 includes the contract demand for its wholesale sales to Portsmouth Gas, Seaboard, and Central, but does not include it for such sales to Manufacturers and Ohio Fuel.

Upon consideration of the foregoing, the rate increase and other tariff proposals involved herein, including the

[1] Commissioner Digby dissenting.

[1] United's interstate wholesale customers are: The Portsmouth Gas Company (Portsmouth Gas), a non-affiliate; and Atlantic Seaboard Corporation (Seaboard), Central Kentucky Natural Gas Company (Central), The Manufacturers Light and Heat Company (Manufacturers), and The Ohio Fuel Gas Company (Ohio Fuel), all of which, together with United, are subsidiaries of The Columbia Gas System, Inc. (Columbia).

[2] Central's interstate wholesale customers are: The Cincinnati Gas and Electric Co. (Cincinnati Gas); Cities of Carlisle and North Middletown, Kentucky; Delta Natural Gas Company (Delta); Frankfort Kentucky Natural Gas Company (Frankfort Gas); Limestone Gas Company (Limestone Gas); Richmond Water and Gas Works (Richmond Gas); The Union Light, Heat and Power Company (Union Light); and Kentucky Creosoting Company (Kentucky Co.).

[3] The revised tariff sheets submitted on October 1, 1954, in addition to reducing the applied-for rates in Docket No. G-2451, increase from 500 to 2,000 Mcf per day the boiler fuel limitation to conform to the change in United's currently effective tariff, which was authorized by the Commission's order issued August 6, 1954, in Docket Nos. G-2274 and G-2451.

[4] The revised tariff sheets submitted on October 1, 1954, in addition to reducing the applied-for rates in Docket No. G-2450, increase from 500 to 2,000 Mcf per day the boiler fuel limitation to conform to the change in Central's currently effective tariff, which was authorized by the Commission's order issued August 6, 1954, in Docket Nos. G-2276 and G-2450.

[5] The requests were made by Portsmouth Gas, the only non-affiliated wholesale customer of United; by Cincinnati Gas and its subsidiary, Union Light, the two largest wholesale customers of Central; and by The Dayton Power and Light Company, which purchases substantially all of its requirements from Ohio Fuel, a Columbia subsidiary. The City of Cincinnati, Ohio, by telegram of October 11, 1954, supports the position of Cincinnati Gas.

questions posed by this order, and without prejudice to any position Generating

[1] Commissioner Digby dissenting.

Company (Union Light); and Kentucky Creosoting Company (Kentucky Co.).

October 1, 1954, submittals by Central and United, and the recent requests for immediate hearings as aforementioned, the Commission finds: It is appropriate, reasonable, and in the public interest in carrying out the provisions of the Natural Gas Act, and good cause exists, to permit the substitution of the revised tariff sheets filed herein on October 1, 1954, by Central and United, to prescribe the terms and conditions with respect to refunds by Central and United, to consolidate the proceedings in Docket Nos. G–2450 and G–2451, and to hold public hearings in the consolidated proceedings, all as hereinafter provided and ordered.

The Commission orders:

(A) First Revised Sheets Nos. 12, 13, 16, and 17, filed October 1, 1954, be and the same are hereby substituted for the appropriate sheets in United's FPC Gas Tariff, Fourth Revised Volume No. 1, suspended by the Commission's order issued June 4, 1954, in Docket No. G–2451; and First Revised Sheets Nos. 7, 8, 15, and 16, filed October 1, 1954, be and the same are hereby substituted for the appropriate sheets in Central's FPC Gas Tariff, Fourth Revised Volume No. 1, suspended by the Commission's order issued June 4, 1954, in Docket No. G–2450.

(B) Upon the execution by Central and United, respectively, of the agreement and undertaking described in paragraph (D) below, and the acceptance thereof, evidenced by letters addressed to Central and United, respectively, by the Secretary of the Commission, the rates, charges, and classifications set forth in the aforesaid FPC Gas Tariff, Fourth Revised Volume No. 1, of Central and United, respectively, shall be effective as of November 1, 1954, subject to further orders of the Commission in these proceedings.

(C) Central and United, respectively, shall refund to those entitled thereto the portion of the increased rates found by the Commission in these proceedings not justified, with interest at the rate of 6 per cent per annum from the date of payment respectively to Central and United until refunded; shall bear all costs of any such refunding; shall keep accurate accounts in detail of all amounts received by reason of the increased rates or charges effective as of November 1, 1954, for each billing period, specifying by whom and in whose behalf such amounts were paid; and shall report (original and 4 copies), in writing and under oath, to the Commission monthly for each billing period and for each purchaser the billing determinants of natural gas sales to such purchasers and the revenues resulting therefrom, as computed under the rates in effect immediately prior to November 1, 1954, and under the rates allowed by this order to become effective, together with the difference in the revenues so computed.

(D) As a condition of this order, within 15 days from the date of issuance thereof, Central and United, respectively, shall execute and file with the Secretary of this Commission their respective agreements and undertakings to comply with the terms and conditions of paragraph (C) above, each agreement and undertaking to be signed by a responsible officer of the respective corporation, evidenced by proper authority from the respective Board of Directors, as follows:

In conformity with the requirements of the order adopted October —, 1954, in Docket Nos. G–2450 and G–2451, ---------- Company hereby agrees and undertakes to comply with the terms and conditions of paragraph (C) of said order and has caused this agreement and undertaking to be executed and sealed in its name by its officers, thereupon duly authorized in accordance with the terms of the resolution of its Board of Directors, a certified copy of which is appended hereto, this ---- day of ----------, 1954.

---------- Company
By ----------
President

Attest:

Secretary

(E) If Central and United, respectively, shall, in conformity with the terms and conditions of paragraph (C), above, make the refunds as may be required by order of the Commission, the respective undertaking shall be discharged; otherwise it shall remain in full force and effect.

(F) The proceedings in Docket Nos. G–2450 and G–2451 be and the same are hereby consolidated for purposes of hearing.

(G) Pursuant to authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 4, 15, and 16 of the Natural Gas Act and the Commission's general rules and regulations, including rules of practice and procedure (18 CFR Chapter I), a public hearing be held, commencing on November 16, 1954, at 10:00 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by the above-entitled proceedings.

(H) At the hearing, United and Central shall go forward first and shall present in the respective dockets their complete cases-in-chief with respect to their proposed changes in the form of rates. Upon completion thereof, other parties to the proceedings, including Commission Staff Counsel, may proceed with such cross-examination as they are prepared to conduct.

(I) Following the presentation of United's and Central's cases and cross-examination, as provided in paragraph (H), other parties shall present their testimony and evidence with respect to proposed tariff changes other than rate level.

(J) Upon completion of the proceedings as provided in paragraphs (H) and (I), upon request of any party to the proceedings, including Commission Staff Counsel, the hearing shall be recessed by the Presiding Examiner, subject to further order of the Commission.

(K) In the interest of expedition, United and Central shall, not later than 5 days next preceding the date hereinbefore fixed for the commencement of the hearings herein, serve upon all parties to this proceeding, copies of the testimony and exhibits they propose to offer at the hearing, including five (5) copies thereof upon Commission Staff Counsel.

(L) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

Adopted: October 27, 1954.

Issued: October 29, 1954.

By the Commission.

[Docket No. G-2552]

PAISANO TRADING CO., LTD.

NOTICE OF APPLICATION AND ORDER FIXING DATE OF HEARING

Take notice that William Negley, doing business as Paisano Trading Company, Ltd. (Applicant), an individual enterprise and independent producer with its principal place of business in San Antonio, Texas, filed, on August 18, 1954, an application for a certificate of public convenience and necessity pursuant to section 7 (c) of the Natural Gas Act, authorizing the acts or operations hereinafter described.

Applicant produces natural gas from acreage located in the Paisano and Captain Lucy Fields in Jim Wells County, Texas, and sells such gas to Trunkline Gas Company under 20-year contracts dated May 28, 1952, and June 17, 1952, at the current price of .063 cents per Mcf. Applicant states that the combined minimum daily contract volume is 1,300 Mcf.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 16th day of November 1954. The application is on file with the Commission for public inspection.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations.

The Commission finds: It is proper and consistent with the public interest that notice of application and order fixing date of hearing be published simultaneously.

The Commission orders: Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on November 18, 1954, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceeding pursuant to the provisions of § 1.30 (c) (2) of the Commission's rules of practice and procedure.

Adopted: October 27, 1954.

Issued: October 29, 1954.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

[Docket No. G-2779]

R. L. LOWE

NOTICE OF APPLICATION AND ORDER FIXING DATE OF HEARING

Take notice that R. L. Lowe (Applicant), an individual, whose address is 1013 Lubbock National Building, Lubbock, Texas, filed an application on September 15, 1954, for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing Applicant to make sales of natural gas as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in his application filed herein.

Applicant produces natural gas in the Denton Field, Lea County, New Mexico, which he sells to El Paso Natural Gas Company and to Service Pipe Line Company for resale in interstate commerce.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 24th day of November 1954. The application is on file with the Commission for public inspection.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure.

The Commission finds: It is proper and consistent with the public interest that notice of the application and order fixing date of hearing be published simultaneously.

The Commission orders: Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on December 2, 1954, at 9:30 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure.

Adopted: October 27, 1954.

Issued: October 29, 1954.

By the Commission.

All Applicants have requested that their applications be heard under the shortened procedure provided by § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure. The applications are on file with the Commission for public inspection.

The Commission finds:

(1) It is appropriate in the public interest in carrying out the provisions of the Natural Gas Act, and good cause exists, that due notice of the applications herein, including publication in the FEDERAL REGISTER, be given as hereinafter ordered.

(2) It is reasonable and appropriate in the public interest in carrying out the provisions of the Natural Gas Act, and good cause exists, to consolidate the proceedings in the above-designated Dockets for purpose of hearing, and to hold a public hearing in the above-entitled proceedings as hereinafter ordered.

(3) This proceeding is a proper one for disposition under the provisions of § 1.32 (b) of the Commission's rules of practice and procedure (18 CFR 1.32 (b)), Applicants having requested that their application be heard under the shortened procedure provided for by the aforesaid rule for noncontested proceedings: *Provided, however,* That no request to be heard, protest or petition is filed raising an issue of substance.

The Commission orders:

(A) Due notice of these applications be given, including publication in the FEDERAL REGISTER, of this notice of applications and order.

(B) The aforesaid proceedings in the above designated Dockets and the same hereby are consolidated for purposes of hearing.

(C) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on November 23, 1954, at 9:40 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by the applications: *Provided, however,* That the Commission may, after a noncontested hearing, forthwith dispose of the proceedings pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(D) Protests or petitions to intervene may be filed with the Commission in accordance with its rules of practice and procedure, §§ 1.8 and 1.10 (18 CFR 1.8 and 1.10), on or before November 17, 1954.

(E) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

Adopted: October 27, 1954.

Issued: October 28, 1954.

By the Commission.

STANOLIND OIL AND GAS CO.

NOTICE OF APPLICATION AND ORDER FIXING DATE OF HEARING

Take notice that Stanolind Oil and Gas Company (Applicant), a Delaware corporation with its principal office in Tulsa, Oklahoma, filed on September 16, 1954, an application for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing Applicant to make sales of natural gas as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in its application filed herein.

Applicant produces natural gas in the Greta Field of Refugio County, Texas, which it sells to Transcontinental Gas Pipe Line Corporation for resale in interstate commerce.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 19th day of November 1954. The application is on file with the Commission for public inspection.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure.

The Commission finds: It is proper and consistent with the public interest that notice of the application and order fixing date of hearing be published simultaneously.

The Commission orders: Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on November 24, 1954, at 9:30 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved and the issues presented by such application: *Provided, however*, That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure.

Adopted: October 27, 1954.

Issued: October 28, 1954.

[Docket No. G-2952]

DEEP SOUTH OIL CO. OF TEXAS

ORDER FIXING DATE OF HEARING

Deep South Oil Company of Texas (Petitioner), a Texas corporation with its principal place of business in Beaumont, Texas, filed, on September 22, 1954, its petition for a declaratory order determining status and requesting early hearing thereon. Petitioner is primarily a producer of oil, but also produces and sells gas in connection with its oil business.

Petitioner has a contract for the sale of gas produced from the North Big Hill Field in Jefferson County, Texas, to Texas Gas Corporation (Texas Gas), the successor in interest to McCarthy Chemical Co. Texas Gas takes delivery at the well-head, then gathers and transports it, along with other such gas, to its processing plant for removal of the liquefiable hydrocarbons. The residue gas derived from the commingled supply is sold by Texas Gas into both intrastate and interstate commerce. Petitioner states that the interstate sale was made without "his knowledge or consent."

The Commission finds: It is appropriate, reasonable, and in the public interest in carrying out the provisions of the Natural Gas Act, and good cause exists, to hold a public hearing in the above-entitled proceeding, as hereinafter provided and ordered.

The Commission orders:

(A) Pursuant to authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 14, 15, and 16 of the Natural Gas Act, and the Commission's general rules and regulations, including rules of practice and procedure (18 CFR Chapter I), a public hearing be held, commencing on November 29, 1954, at 10:00 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by the petition herein.

(B) Protests or petitions seeking leave to intervene in this proceeding may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 18th day of November 1954.

(C) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Adopted: October 27, 1954.

Issued: October 28, 1954.

DEMPSEY GAS CO.

NOTICE OF APPLICATION AND ORDER FIXING DATE OF HEARING

Take notice that Dempsey Gas Company (Applicant), a partnership with its principal office in Prestonsburg, Kentucky, filed on September 22, 1954, application for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing Applicant to make sales of natural gas as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in its application filed herein.

Applicant produces natural gas in Warfield District, Tug River, Kentucky, which it sells to United Fuel Gas Company for resale in interstate commerce.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 17th day of November 1954. The application is on file with the Commission for public inspection.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure.

The Commission finds: It is proper and consistent with the public interest that notice of the application and order fixing date of hearing be published simultaneously.

The Commission orders: Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on November 23, 1954, at 9:30 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved and the issues presented by such application: *Provided, however*, That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure.

[Docket No. G-4264]

SOUTHERN NATURAL GAS CO.

ORDER SUSPENDING PROPOSED TARIFF IN PART AND PERMITTING CERTAIN PROPOSED TARIFF SHEETS TO BECOME EFFECTIVE

On September 30, 1954, Southern Natural Gas Company (Southern) tendered for filing its FPC Gas Tariff, Second Revised Volume No. 1, proposing to increase presently effective rates and charges for the sale of natural gas in interstate commerce for resale. Southern requests that its proposed tariff become effective November 1, 1954.

Southern proposes to increase its presently effective rates and charges by $7,018,000, or 17.4 percent, annually, based upon sales estimated for the year 1954. The increase includes $485,000 applicable to rate schedules for sale of natural gas for resale for industrial use only contained in Original Sheets Nos. 8, 9, 18, 19, 28, 29, 38, and 39.

It appears that Southern's claim for increased rates is based, among other things, upon (a) an average market value for its wellhead production, (b) a minimum bank balance of $5,000,000 in the rate base computed as of the date of May 31, 1954, (c) a 6½ per cent rate of return on "utility" rate base with associated income taxes, and (d) an allocation of demand costs on the basis of the 1953–1954 design peak day.

More than 40 customers of Southern and the State commissions of Alabama, Georgia, and South Carolina have filed protests to the proposed increase. Many of them oppose zone rate differentials and other tariff changes.

found to be necessary before the expira-

The rates, charges, classifications and services set forth in Southern's proposed FPC Gas Tariff, Second Revised Volume No. 1, may be unjust, unreasonable, unduly discriminatory and preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and in aid of the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing, pursuant to the authority contained in section 4 of the Natural Gas Act, concerning the lawfulness of Southern's FPC Gas Tariff, Second Revised Volume No. 1, and that, pending hearing and decision thereon, said proposed tariff, except for Original Sheets Nos. 8, 9, 18, 19, 28, 29, 38, and 39, containing rates for resale for industrial use only, be suspended, as hereinafter ordered by the Commission.

The Commission orders:

(A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act, a public hearing be held upon a date to be fixed by further order of the Commission concerning the lawfulness of the rates, charges, classifications, and services contained in Southern's FPC Gas Tariff, Second Revised Volume No. 1.

(B) Pending such hearing and decision thereon, Southern's FPC Gas Tariff, Second Revised Volume No. 1, with the exception of Original Sheets Nos. 8, 9, 18, 19, 28, 29, 38, and 39, therein, be and the same is hereby suspended and the use thereof is deferred until April 1, 1955, unless otherwise ordered by the Commission, and until such further time thereafter as said tariff may be made effective in the manner prescribed by the Natural Gas Act.

(C) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Adopted: October 27, 1954.

Issued: October 28, 1954.

By the Commission.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 29853]

PETROLEUM COKE FROM KANSAS CITY, MO.-KANS., AND SUGAR CREEK, MO., TO IOWA, MINNESOTA AND SOUTH DAKOTA

APPLICATION FOR RELIEF

NOVEMBER 1, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: W. J. Prueter, Agent, for carriers parties to schedule listed below.

Commodities involved: Petroleum carbon (petroleum coke), and petroleum coke briquettes, carloads.

From: Kansas City, Mo.-Kans., and Sugar Creek, Mo.

To: Points in Iowa, Minnesota, and South Dakota.

Grounds for relief: Rail competition, circuity, and to apply rates constructed on the basis of the short line distance formula.

Schedules filed containing proposed rates: W. J. Prueter, Agent, I. C. C. No. A-3863, supp. 16.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[4th Sec Application 29854]

ROOFING AND BUILDING MATERIAL FROM LOWELL, IND., TO CERTAIN STATES

APPLICATION FOR RELIEF

NOVEMBER 1, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: H. R. Hinsch, Agent, for carriers parties to schedules listed below.

Commodities involved: Roofing and building materials, carloads.

From: Lowell, Ind.

To: Points in Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, and Wisconsin.

Grounds for relief: Rail competition, circuity, and competition with motor carriers.

Schedules filed containing proposed rates: H. R. Hinsch, Agent, I. C. C. No. 4370, supp. 90; H. R. Hinsch, Agent, I. C. C. No. 4238, supp. 113.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

ELECTRIC MOTORS FROM DAYTON AND SHAKER CROSSING, OHIO, TO NASHVILLE AND GLENCLIFF, TENN.

APPLICATION FOR RELIEF

NOVEMBER 1, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: H. R. Hinsch, Agent, for carriers parties to his tariff I. C. C. No. 4510, pursuant to fourth-section order No. 17720.

Commodities involved: Motors, electric or compenent parts thereof, carloads.

From: Dayton and Shaker Crossing, Ohio.

To: Nashville and Glencliff, Tenn.

Grounds for relief: Competition with rail carriers and circuitous routes.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[SEAL] GEORGE W. LAIRD, *Secretary.*

[Dissolution Order 107]

SCHLOEMANN ENGINEERING CORP.

Whereas, by Vesting Order No. 2953, dated January 15, 1944 (9 F. R. 915, January 25, 1944) there was vested in the Alien Property Custodian all outstanding capital stock (consisting of 5,000 shares of no par value common stock) of Schloemann Engineering Corporation (hereinafter referred to as "the Company"), a Delaware corporation;

Whereas, by virtue of the aforementioned vesting order and Executive Order 9788, dated October 14, 1946 (11 F. R. 11981, October 15, 1946), the aforementioned shares are owned by the Attorney General of the United States (hereinafter referred to as "Attorney General"); and

Whereas, by Supervisory Order No. 63, dated October 20, 1942, there was undertaken the direction, management, supervision, and control of the Company; and

Whereas, a Certificate of Dissolution was issued by the Secretary of State of Delaware on September 14, 1954, certifying to the dissolution of the Company; and

Whereas, the Company has been substantially liquidated.

Now, therefore, under the authority of the Trading With the Enemy Act, as amended, and Executive Orders 9095, as amended, and 9788, and pursuant to law, the undersigned, after investigation:

1. Finding that there are no known debts of the Company, and that the known assets consist of cash in the amount of $3,010.40 and United States 2 percent Treasury Bonds due December 15, 1954, having a face value of $50,000, the said bonds being carried on the Company's books at the cost price of $49,904.12; and

2. Having determined that it is in the national interest of the United States that the Company be dissolved, that its affairs be wound up and that its assets be distributed;

Hereby orders, that the officers and directors of the Company (and their successors, or any of them) wind up the affairs of the Company and distribute the assets of the Company coming into their possession as follows:

1. They shall first pay current expenses, if any, and necessary charges in effecting the dissolution of the Company and winding up of its affairs; and

2. They shall then pay all federal, state and local taxes, if any, owed by or accruing against the Company; and

3. They shall then pay over, transfer, assign and deliver to the Attorney General all funds and property of whatsoever kind and nature (including after discovered assets) remaining in their hands after payment of the aforementioned items, the same to be applied by the Attorney General as follows: First, in satisfaction of such claim, if any, as the Attorney General may have for monies advanced or services rendered to or on behalf of the Company, and second, as a liquidating distribution of assets to the Attorney General as holder of all the issued and outstanding stock of the Company;

And further orders, that nothing herein set forth shall be construed as prejudicing the rights under the Trading With the Enemy Act, as amended, of any person who may have a claim against the Company to file such claim with the Attorney General against any funds or property received by the Attorney General hereunder;

Provided, however, That nothing herein contained shall be construed as creating additional rights in such person; *Provided further,* That any such claim against said Company shall be filed with or presented to the Attorney General within the time and in the form and manner prescribed for such claims by the Trading With the Enemy Act, as amended, and applicable regulations and orders issued pursuant thereto; and further orders, that all actions taken and acts done by the aforementioned officers and directors of the Company pursuant to this order and the directions contained herein shall be deemed to have been taken and done in reliance on and pursuant to section 5 (b) (2) of the Trading With the Enemy Act, as amended, (50 U. S. C. App. 5), and the acquittance and exculpation provided therein.

Executed in Washington, D. C., on October 29, 1954.

For the Attorney General.

[SEAL] DALLAS S. TOWNSEND,
Assistant Attorney General,
Director, Office of Alien Property.

TITLE 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

ORDER AMENDING ORDER, AS AMENDED, REGULATING HANDLING

§ 953.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations made in connection with the issuance of this order and each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure effective thereunder (7 CFR Part 900; 19 F. R. 57), a public hearing was held at Los Angeles, California, on June 22, 1954, upon proposed amendments to Marketing Agreement No. 94, as amended, and Order No. 53, as amended (7 CFR Part 953) regulating the handling of lemons grown in California and Arizona. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The said order, as amended, and as hereby further amended, regulates the handling of lemons grown in the States of California and Arizona in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity specified in, the marketing agreement upon which hearings have been held;

(3) The said order, as amended, and as hereby further amended, is limited in its application to the smallest regional production area that is practicable, consistently with carrying out the declared policy of the act; and the issuance of several orders applicable to subdivisions of such production area would not effectively carry out the declared policy of the act; and

(4) The said order, as amended, and as hereby further amended, prescribes, so far as practicable, such different terms, applicable to different parts of the production area, as are necessary to give due recognition to differences in the production and marketing of the lemons covered thereby.

(b) *Additional findings.* It is hereby found and determined on the basis hereinafter indicated that good cause exists for making the provisions of this order effective not later than the date of publication in the FEDERAL REGISTER; and that it would be contrary to the public interest to postpone such effective date until 30 days after publication (60 Stat. 237; 5 U. S. C. 1001 et seq.). The provisions of this order make certain changes in the composition of the Lemon Administrative Committee, the agency charged with the administration of this program, and in the procedures for nominating the membership of the committee. The term of office of the current members of the committee ends on October 31, 1954, and the provisions of this

order should be made effective as soon as practicable so that the new committee may be nominated and appointed in conformity therewith. The provisions of this order are well known to the handlers of lemons, since the public hearing in connection therewith was held in Los Angeles, California, on June 22, 1954, and the recommended decision and final decision were published in the FEDERAL REGISTER on August 20, 1954 (19 F. R. 5319), and September 15, 1954 (19 F. R. 5969), respectively; and the changes effected by this order do not impose any restrictions on, or require any advance preparation by, the persons subject to regulations under the program.

(c) *Determinations.* It is hereby determined that:

(1) The "Agreement Amending the Marketing Agreement, as Amended, Regulating the Handling of Lemons Grown in California and Arizona," upon which the aforesaid public hearing was held, has been signed by handlers (excluding cooperative associations of producers who were not engaged in processing, distributing, or shipping the lemons covered by this order) who, during the period November 1, 1952, through October 31, 1953, shipped not less than

80 percent of the volume of lemons covered by said order, as amended, and hereby further amended; and

(2) The issuance of this order, amending the aforesaid order, as amended, is favored, or approved, by at least three-fourths of the producers who, during the determined representative period (November 1, 1952, through October 31, 1953), were engaged within the production area specified in said order, as amended, in the production of lemons for market.

(3) The issuance of this order, amending the aforesaid order as amended, is favored or approved by producers who, during the aforesaid representative period, produced for market at least two-thirds of the volume of lemons produced within California and Arizona for market.

It is, therefore, ordered, That, on and after the effective date hereof, all handling of lemons grown in the production area shall be in conformity to, and in compliance with, the terms and conditions of the aforesaid order, as amended, and as hereby further amended as follows:

1. Immediately preceding the period at the end of § 953.9 *Box* insert the following: ", or the equivalent thereof".

2. Delete the word "six" from the first sentence in § 953.20 *Establishment and membership* and insert in lieu thereof the word "seven."

3. Amend § 953.22 *Nominations* by deleting paragraphs (a), (b), and (c); deleting the word "five" from paragraph (g) and inserting in lieu thereof the word "six"; redesignating paragraphs (d), (e), (f), and (g) as paragraphs (e), (f), (g), and (h), respectively; and inserting the following new paragraphs:

(a) The cooperative marketing organization, or the growers affiliated therewith, as may be provided pursuant to paragraph (f) of this section, which marketed more than sixty percent of the total volume of lemons marketed in fresh form during the fiscal year preceding the date on which nominations for members and alternate members of the committee are to be submitted, shall nominate three growers for three members and three growers for three alternate members of the committee.

(b) The cooperative marketing organization, or the growers affiliated therewith, as may be provided pursuant to paragraph (f) of this section, which marketed a larger portion of the total volume of lemons marketed in fresh form during the fiscal year preceding the date on which nominations for members and alternate members are to be submitted than any cooperative marketing organization other than the one described in paragraph (a) of this section, shall nominate one grower for a member and one grower for an alternate member of the committee.

(c) All cooperative marketing organizations which are not qualified under paragraph (a) or (b) of this section, or the growers affiliated therewith, as may be provided pursuant to paragraph (f) of this section, shall nominate one grower for a member and one grower for an alternate member of the committee.

(d) All lemon growers who are not included under paragraph (a), (b), or (c) of this section shall nominate one grower for a member and one grower for an alternate member of the committee.

4. Delete paragraphs (a) and (b) of § 953.23 *Selection* and insert in lieu thereof the following:

(a) From the nominations made pursuant to paragraph (a) of § 953.22, or from other qualified growers, the Secretary shall select three members and three alternate members of the committee. From the nominations made pursuant to each of the paragraphs (b), (c), and (d) of § 953.22, or from other qualified growers, the Secretary shall select one member and one alternate member of the committee.

(b) From the nominations made pursuant to paragraph (h) of § 953.22, or from other qualified persons, the Secretary shall select one member and one alternate member of the committee.

5. Delete paragraph (a) of § 953.28 *Procedure* and insert in lieu thereof the following:

(a) Five members of the committee shall constitute a quorum and any action of the committee shall require four concurring votes.

6. Amend § 953.29 *Expenses and compensation* by deleting therefrom "$5.00" and inserting in lieu thereof "$10.00."

7. Add, at the end of paragraph (a) of § 953.41 *Assessments*, the following: "The payment of assessments for the maintenance and functioning of the committee may be required under this subpart throughout the period it is in effect, irrespective of whether particular provisions thereof are suspended or become inoperative."

8. Delete paragraphs (f), (g), (h), and (i) of § 953.53 *Prorate bases* and insert in lieu thereof the following:

(f) Based on the quantity of each handler's available lemons, as computed pursuant to this section, the committee shall fix the prorate base of each handler who has applied therefor: *Provided,* That such quantity shall be adjusted by (1) the deduction therefrom of any undershipments pursuant to § 953.58, or (2) the addition thereto of any overshipments pursuant to § 953.57, in the event such handler makes an undershipment or overshipment during the week preceding that in which such quantity is computed. Such prorate base shall represent the ratio between the quantity of such handler's available lemons in a district, as aforesaid, and the quantity of all handlers' available lemons in such district, and shall be applicable for the two week period immediately following the week in which it is fixed by the committee.

(g) The committee shall notify the Secretary of the prorate base fixed for each handler and shall notify such handler of the prorate base fixed for him.

9. Redesignate paragraph (j) of § 953.53 as paragraph (h).

10. Delete the first sentence of § 953.56 *Allotments* and insert in lieu thereof the following: "Whenever the Secretary has fixed the quantity of lemons which may be handled during any week in a district, as aforesaid, the committee shall calculate the quantity of lemons which each handler may handle during such week."

11. Delete the first sentence of § 953.57 *Overshipments* and insert in lieu thereof the following: "During any week for which the Secretary has fixed the quantity of lemons which may be handled, each handler may handle, in addition to his allotment, an amount of lemons equivalent to ten percent of said allotment, or one carload, whichever is the greater: *Provided,* That no such overshipment may be made by a handler if his allotment for such week is insufficient to offset his prior overshipments pursuant to this section."

12. Delete paragraphs (a) and (c) of § 953.58 *Allotment loans* and insert in lieu thereof the following:

(a) A handler for whom a prorate base has been established may lend allotment to other handlers: *Provided,* That such loan is confined to the same district, as defined in § 953.64, is reported to the committee not later than 48 hours after the loan agreement has been entered into, and provides for repayment within one year of the date of the loan.

• • • • •

(c) The committee may act as agent for handlers in arranging loans of allotment; and all loan transactions shall be confirmed by the committee by memoranda addressed to the parties thereto.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Issued at Washington, D. C., this 2d day of November 1954, to become effective upon publication in the FEDERAL REGISTER.

[SEAL] EARL L. BUTZ,
Assistant Secretary of Agriculture.

PART 958—IRISH POTATOES GROWN IN COLORADO

APPROVAL OF EXPENSES AND FIXING RATE OF ASSESSMENT

Notice of proposed rule making regarding proposed expenses and rate of assessment to be made effective under Marketing Agreement No. 97 and Order No. 58 (7 CFR Part 958), regulating the handling of Irish potatoes grown in the State of Colorado, was published in the FEDERAL REGISTER (August 20, 1954, 19 F. R. 5322). This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.) After consideration of all relevant matters presented, including the proposals set forth in the aforesaid notice which were adopted, and submitted for approval, by the area committee for Area No. 1, established pursuant to the aforesaid marketing agreement and order, it is hereby found and determined that:

§ 958.216 *Expenses and rate of assessment*—(a) *Expenses.* The expenses necessary to be incurred by the area committee for Area No. 1, established pursuant to Marketing Agreement No. 97 and Order No. 58 (§§ 958.1 to 958.19) to enable such committee to carry out its functions pursuant to the provisions of the aforesaid marketing agreement and order during the fiscal period ending May 31, 1955, will amount to $1,000.00.

(b) *Rate of assessment.* The rate of assessment to be paid by each handler who first ships potatoes from Area No. 1 shall be one cent ($0.01) per hundredweight of potatoes so handled by him as the first handler thereof during said fiscal period.

(c) The terms used in this section shall have the same meaning as when used in Marketing Agreement No. 97 and Order No. 58 (§§ 958.1 to 958.19).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Done at Washington, D. C., this 1st day of November 1954, to become effective 30 days after publication in the FEDERAL REGISTER.

[SEAL] ROY W. LENNARTSON, *Deputy Administrator.*

[F. R. Doc. 54-8716; Filed, Nov. 4, 1954; 8:46 a. m.]

PART 958—IRISH POTATOES GROWN IN COLORADO

APPROVAL OF EXPENSES AND FIXING RATE OF ASSESSMENT

Notice of proposed rule making regarding proposed expenses and note of assessment to be made effective under Marketing Agreement No. 97 and Order No. 58 (7 CFR Part 958), regulating the handling of Irish potatoes grown in the State of Colorado was published in the FEDERAL REGISTER (October 5, 1954, 19 F. R. 6398). This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.). After consideration of all relevant matters presented, including the proposals set forth in the aforesaid notice which were adopted, and submitted for approval, by the area committee for Area No. 2, established pursuant to the aforesaid marketing agreement and order, it is hereby found and determined that:

§ 958.217 *Expenses and rate of assessment*—(a) *Expenses.* The expenses necessary to be incurred by the area committee for Area No. 2, established pursuant to Marketing Agreement No. 97 and Order No. 58 (§§ 958.1 to 958.19) to enable such committee to carry out its functions pursuant to the provisions of the aforesaid marketing agreement and order during the fiscal period ending May 31, 1955, will amount to $3,024.00.

(b) *Rate of assessment.* The rate of assessment to be paid by each handler who first ships potatoes from Area No. 2, shall be one-tenth of one cent ($0.001) per hundredweight of potatoes so handled by him as the first handler thereof during said fiscal period.

(c) The terms used in this section shall have the same meanings as when used in Marketing Agreement No. 97 and Order No. 58 (§§ 958.1 to 958.19).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Done at Washington, D. C., this 1st day of November 1954, to become effective 30 days after publication in the FEDERAL REGISTER.

[SEAL] ROY W. LENNARTSON, *Deputy Administrator.*

TITLE 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Agricultural Research Service, Department of Agriculture

Subchapter C—Interstate Transportation of Animals and Poultry

[B. A. I. Order 383, Revised, Amdt. 39]

PART 76—HOG CHOLERA, SWINE PLAGUE, AND OTHER COMMUNICABLE SWINE DISEASES

SUBPART B—VESICULAR EXANTHEMA

CHANGES IN AREAS QUARANTINED

Pursuant to the provisions of sections 1 and 3 of the act of March 3, 1905, as amended (21 U. S. C. 123, 125), sections 1 and 2 of the act of February 2, 1903, as amended (21 U. S. C. 111–113, 120), and section 7 of the act of May 29, 1884, as amended (21 U. S. C. 117), § 76.27, as amended, Subpart B, Part 76, Title 9, Code of Federal Regulations (19 F. R. 5207, 5604, 6079, 6472, 6843), which contains a notice with respect to the States in which swine are affected with vesicular exanthema, a contagious, infectious, and communicable disease, and which quarantines certain areas in such States because of said disease, is hereby further amended in the following respects:

1. Subparagraphs (6), (16), (33) and (37), of paragraph (a), relating to California, are deleted.

2. Subparagraphs (1), (4), (7), (9), (10), (11), (12), (17), (18), (20), (22), (24), (25), (27), (28), (30), (31), (34), (35) and (40), of paragraph (a), relating to California, are amended to read:

(a) *California:* (1) Sec. 32, T. 2 S., R. 2 W., MDBM; NE. ¼ Sec. 1, T. 3 S., R. 2 W., MDBM; Sec. 22, T 5 S., R. 1 W., MDBM; SW. ¼ Sec. 34, T. 3 S., R. 2 E., MDBM; SE. ¼ Sec. 35, T. 2 S., R. 2 E., MDBM; that area included within a boundary beginning at a point on W. line of Plot 4, Rancho El Valle, 10.47 chains N. from N. line Plot 3, Rancho El Valle, thence N. 53° W. 17.95 chains, thence N. 69° 4' E. 6.67 chains, thence N. to County Road, thence SE. 100 feet along SW. line of County Road, thence S. to point of beginning, consisting of 32.98 acres within lots 8–15; NE. ¼ Sec. 25, T. 3 S., R. 3 W., MDBM; E. ½ Sec. 13, T. 3 S., R. 3 W., MDBM; and NE. ¼ Sec. 20, T. 3 S., R. 2 E., MDBM, in Alameda County.

• • • • •

(27) S. ½ Sec. 8, T. 26 S., R. 12 E., MDBM; Lot 50 of Rancho Corral de Piedro (land grant) lying east of Arroyo Grande Highway; NE. ¼ Sec. 30, T. 27 S., R. 11 E., MDBM; and SW. ¼ Sec. 15, T. 27 S., R. 8 E., MDBM, and including that adjacent portion of the Rancho Santa Rosa Land Grant which lies northwest of State Highway No. 1, in San Luis Obispo County.

(28) SW. ¼ Sec. 7, T. 3 S., R. 5 W., MDBM; SW. ¼ Sec. 12, T. 3 S., R. 6 W., MDBM; SW. ¼ Sec. 11, T. 3 S., R. 6 N., MDBM; S. ¼ of SW. ¼ Sec. 36, T. 5 S., R. 4 W., MDBM; SE. ¼ Sec. 14, T. 4 S., R. 6 W., MDBM; NW. ¼ Sec. 25, T. 4 S., R. 6 W., MDBM; NW. ¼ Sec. 32, T. 7 S., R. 3 W., MDBM; NE. ¼ Sec. 26, T. 7 S., R. 3 W., MDBM; SW. ¼ Sec. 20, T. 4 S., R. 6 W., MDBM; NW. ¼ Sec. 28, T. 4 S., R. 6 W., MDBM; NE. ¼ Sec. 26, T. 3 S., R. 6 W., MDBM; and NW. ¼ Sec. 18, T. 3 S., R. 5 W., MDBM; in San Mateo County.

• • • • •

(30) NE. ¼ Sec. 14, T. 6 S., R. 1 W., MDBM; NE. ¼ Sec. 22, T. 6 S., R. 1 W., MDBM; that part of the NE. ¼ Sec. 9, T. 6 S., R. 2 W., lying west of Steirlin Road, east of Bayshore Highway, south of San Francisco Bay, and north of Charleston Avenue; NE. ¼ Sec. 30, T. 8 S., R. 1 E., MDBM; NW. ¼ Sec. 15, T. 6 S., R. 2 W., MDBM; SE. ¼ of T. 5 S., R. 1 W., MDBM; NE. ¼ Sec. 15, T. 6 S., R. 1 W., MDBM; NE. ¼ Sec. 19, T. 6 S., R. 1 W., MDBM; NE. ¼ Sec. 34, T. 7 S., R. 1 E., MDBM; NW. ¼ Sec. 31, T. 10 S., R. 4 E., MDBM; and SE. ¼ Sec. 32, T. 8 S., R. 1 E., MDBM, in Santa Clara County.

(31) That area lying south of Old State Highway No. 1, east of Estate Drive, north of State Highway No. 1, and west of Monte Vista Street; that area lying east of Old San Jose Road, and north, south and west of Soquel Creek; and SE. ¼ Sec. 32, T. 9 S., R. 2 W., MDBM, in Santa Cruz County.

• • • • •

(34) Secs. 28 and 33, T. 3 N., R. 3 W., MDBM; Secs. 19 and 24, T. 3 N., R. 2 W., MDBM; and Sec. 7 and Sec. 18, T. 4 N., R. 2 W., MDBM, in Solano County.

(35) That part of Secs. 16 and 21, T. 8 N., R. 8 W., MDBM, lying south of Faught Creek and west of Faught Road; that part of Rancho Aqua Calente Grant lying south and east of Arnold Drive, west of State Highway No. 12, and north of Madrone Road; that part of Rancho Petaluma Grant lying south and east of State Highway No. 37, west of Maffei Lane, and north of Wayne Road; and that part of the Rancho Llano de Santa Rosa lying west of U. S. Highway No. 101, north of Scenic Avenue, east of the Northwestern Pacific Railroad, and south of Todd Road, in Sonoma County.

• • • • •

(40) Sec. 16, T. 2 N., R. 22 W., MDBM; N. ½ Sec. 32, T. 3 N., R. 20 W., MDBM; Sec. 33, T. 4 N., R. 24 W., MDBM; NE. ¼ Sec. 16, NW. ½ Sec. 15, and SE. ¼ Sec. 9, T. 1 S., R. 20 W., MDBM; Sec. 22, T. 1 N., R. 20 W., MDBM; and Sec. 21, T. 3 N., R. 19 W., MDBM, in Ventura County.

3. Subdivision (v), of subparagraph (5), of paragraph (c), relating to Middlesex County, in Massachusetts, is deleted.

4. Subdivision (vi), of subparagraph (5), of paragraph (c), relating to Middlesex County, in Massachusetts, is amended to read:

(vi) That part of the Town of Hudson lying south of Shapen Road and west of River Road; and that part of the Town of Hudson lying south of Main Street, west of White Pond Road, and east of Parmantear Road.

5. Subdivision (v), of subparagraph (2), of paragraph (f), relating to Providence County, in Rhode Island, is amended to read:

(v) That part of the Town of Cumberland lying south and east of Cherokee Avenue, north of Rain Street, and west of Spencer Street; and that part of the Town of Cumberland lying north of Wrentham Road, west of Fisher Road, and east of the Woonsocket City Line.

Effective date. The foregoing amendment shall become effective upon issuance.

The amendment includes the following areas in California within the areas quarantined because of vesicular exanthema:

Block 2760 of the San Pablo Rancho Land Grant, in Contra Costa County; that part of the Rancho Llano de Santa Rosa lying west of U. S. Highway No. 101, north of Scenic Avenue, east of the Northwestern Pacific Railroad, and south of Todd Road, in Sonoma County.

Hereafter, the restrictions pertaining to the interstate movement of swine, and carcasses, parts and offal of swine, from or through quarantined areas, contained in 9 CFR Part 76, Subpart B, as amended, will apply to such areas.

The amendment also excludes certain areas in California, Massachusetts, and Rhode Island, from the areas heretofore quarantined because of vesicular exanthema. Hereafter, the restrictions pertaining to the interstate movement of swine, and carcasses, parts and offal of swine, from or through quarantined areas, contained in 9 CFR, 1953 Supp., Part 76, Subpart B, as amended, will not apply to such areas. However, the restrictions pertaining to such movement from non-quarantined areas, contained in said Subpart B, as amended, will apply thereto.

The amendment imposes certain further restrictions necessary to prevent the spread of vesicular exanthema, and relieves certain restrictions presently imposed. It must be made effective immediately to accomplish its purpose in the public interest and to be of maximum benefit to persons subject to the restrictions which are relieved. Accordingly, under section 4 of the Administrative Procedure Act (5 U. S. C. 1003), it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and contrary to the public interest, and the amendment may be made effective less than 30 days after publication in the FEDERAL REGISTER.

(Sec. 7, 23 Stat. 32, as amended, secs. 1, 2, 32 Stat. 791–792, as amended, secs. 1, 3, 33 Stat. 1264, as amended, 1265, as amended; 21 U. S. C. 111–113, 117, 120, 123, 125)

Done at Washington, D. C., this 1st day of November 1954.

[SEAL] M. R. CLARKSON, *Acting Administrator, Agricultural Research Service.*

[F. R. Doc. 54-8760; Filed, Nov. 4, 1954; 8:53 a. m.]

TITLE 29—LABOR

Chapter XII—Federal Mediation and Conciliation Service

REVISION OF CHAPTER

The regulations of the Federal Mediation and Conciliation Service are revised to read as set forth below.

PART 1401—AVAILABILITY OF INFORMATION

Sec.
1401.1 Places at which information may be obtained.
1401.2 Availability of information and records.

AUTHORITY: §§ 1401.1 and 1401.2 issued under sec. 202, 61 Stat. 153, as amended; 29 U. S. C. 172.

§ 1401.1 *Places at which information may be obtained.* Any individual, employer or union, or representative thereof, desiring information regarding the operations of the Service within a region should communicate with the regional office of the Service in the region in which the labor dispute or other matter exists with respect to which information is sought. General inquiries for information concerning the Service should be addressed to the Federal Mediation and Conciliation Service, Washington 25, D. C.

§ 1401.2 *Availability of information and records*—(a) *Records.* All files, reports, letters, memoranda, minutes, documents or other papers (herein referred to as "records") in the official custody of the Service or any of its employees, relating to or acquired in its or their official activities under Title II of the Labor-Management Relations Act, 1947, as amended, are hereby declared to be confidential for good cause found. Public policy requires that Commissioners of Conciliation do not make disclosures of information coming to their knowledge while acting in their official capacities. The successful effectuation of the responsibility placed upon the Federal Mediation and Conciliation Service by Congress requires that such Commissioners maintain a reputation for impartiality and that parties participating in mediation efforts feel free to make disclosures to them without any fear that the Conciliators may subsequently be compelled to divulge such information. No such records shall be taken, withdrawn, copied or removed from the custody of the Service or its employees by any person not officially connected with the Service or by any agent or representative of such person without the written consent of the Director.

(b) *Compliance with subpoenas.* No officer, employee or other person officially connected in any capacity with the Serv-

per hundredweight of potatoes so handled by him as the first handler thereof during said fiscal period.

Pablo Rancho Land Grant, in Contra Costa County.

* * * * *

W. ½ of NE. ¼ Sec. 19, T. 18 S., R. 1 W., SBBM; Lots 2, 3, and 4, Sec. 12, T. 12 S., R. 3 W., SBBM; NW. ¼ Sec. 20, T. 16 S., R. 1 E.,

sex County, in Massachusetts, is deleted.

21 U. S. C. 111–113, 117, 120, 123, 125)

ice, shall produce or present any records of the Service or testify in behalf of any party to any cause pending in any court or before any board, commission, committee, tribunal, investigatory body or administrative agency of the United States or of any State, Territory, or the District of Columbia with respect to facts or other matters coming to his knowledge in his official capacity or with respect to the contents of any records of the Service, whether in answer to an order, subpoena, subpoena duces tecum or otherwise, without the written consent of the Director. Whenever any subpoena or subpoena duces tecum calling for records or testimony as described above shall have been served upon any such officer, employee or other person, he will, if he receives his expenses in advance in matters in which he is not a witness for the Government, unless otherwise expressly directed by the Director, appear in answer thereto, and respectfully decline, by reason of this section, to produce or present such records or to give such testimony.

PART 1402—PROCEDURES OF THE SERVICE

Sec.
1402.1 Filing of notices under Labor-Management Relations Act, 1947.
1402.2 Circumstances in which the Service will conciliate or mediate labor disputes.

AUTHORITY: §§ 1402.1 and 1402.2 issued under sec. 202, 61 Stat. 153, as amended; 29 U. S. C. 172.

§ 1402.1 *Filing of notices under Labor-Management Relations Act, 1947.* Any party to a collective bargaining contract subject to the provisions of Title I of the Labor-Management Relations Act, 1947, desiring to comply in writing with the notice requirements of section 8 (d) (3) of that act, should file such notice, in duplicate, with the appropriate regional office, on a form provided for that purpose. Copies of this form are obtainable at the regional offices of the Service and at the offices of international unions and employer associations. This form may be duplicated for use by representatives of the employers and unions, provided it is copied in full and without change. The "Sixty day notice" referred to in section 8 (d) (1) of the act, should not be filed with the Service, as it is not the "thirty day" notice specified in said section 8 (d) (3).

§ 1402.2 *Circumstances in which the Service will conciliate or mediate labor disputes.* The Service will intercede in a labor dispute either on request of one or more parties to the dispute or upon its own motion only when in its judgment the jurisdictional facts authorizing such intercession are present. (See section 203 (a) and (b) of the Labor-Management Relations Act, 1947.) Requests for intercession should be directed to the appropriate regional director or directors. The fact that a commissioner of the Service communicates with the parties to a labor dispute in response to a notice filed under section 8 (d) (3) of the act, or otherwise should not be taken as evidence that the Service has interceded or will intercede in the dispute for the purpose of mediation or conciliation, or that the judgment of the Service has been exercised with respect to its jurisdiction and authority to intercede.

Signed at Washington, D. C., this 1st day of November 1954.

WHITLEY P. MCCOY,
Director.

TITLE 32—NATIONAL DEFENSE

Chapter V—Department of the Army

Subchapter G—Procurement

PART 607—ARMY EMERGENCY FACILITIES DEPRECIATION BOARD

Part 607 is revised to read as follows:

Sec.
607.1 Purpose.
607.2 Establishment of the Board.
607.3 Functions of the Board.

AUTHORITY: §§ 607.1 to 607.3 issued under 64 Stat. 798–822, as amended; 50 U. S. C. App. 2061–2166.

SOURCE: APC 12, October 15, 1954.

§ 607.1 *Purpose.* This part establishes within the Department of the Army a Board to act upon cases with respect to the extent to which accelerated amortization may be allowed as a cost in negotiated contract pricing.

§ 607.2 *Establishment of the Board.* (a) In order to accomplish the requirement contained in Defense Mobilization Order No. III–1 and Department of Defense Instruction 4105.34, 1 July 1954 (Part 121 of this title), a Departmental board is established under the administration of the Deputy Chief of Staff for Logistics, to be designated as the "Army Emergency Facilities Depreciation Board" referred to in this part as "the Board". The Board shall consist of three members, one of which shall be designated Chairman. One member will be designated as the liaison representative of the Board to the similar boards established by the Department of the Navy and the Department of the Air Force.

(b) The Board is hereby authorized to determine true depreciation of emergency facilities for which Certificates of Necessity have been issued. The Board shall make determinations of true depreciation in accordance with the basic principles and other provisions of Department of Defense Instruction 4105.34 and the provisions of this part. The determinations of the Board shall be binding upon all Army procuring activities, the Army Audit Agency, and the other military departments with respect to the amount of true depreciation which shall be used in computing and allocating depreciation costs of emergency facilities in the contract pricing of negotiated contracts. The Board will only make determinations of true depreciations on requests of Contractors having defense contracts where the prices have not been finally determined or redetermined (§ 121.2 (b) of this title).

(c) Requests for determinations of true depreciation will be submitted in writing (original and four copies) by contractors direct to the Army, Navy, or Air Force Emergency Facilities Depreciation Board (as appropriate). Decisions of the Board will be transmitted by the Board to the contractor concerned, Army procuring activities, the Army Audit Agency, and the Emergency Facilities Depreciation Boards of the Departments of the Navy and the Air Force.

(d) The request shall contain the information indicated below. The contractor shall, to the extent practicable, include all certificates issued in connection with any individual plant or location which he desires to have considered for determination of true depreciation in connection with defense contracts. The responses to these questions may be in narrative or tabular form as the Contractor deems best suited to his circumstances with such amplification as he considers necessary. If the contractor considers a given question to be inapplicable in his particular case, then he should so state and give reasons therefor.

(1) (i) Name and address of Contractor.

(ii) Location of the facility or facilities.

(iii) Summary of the cost of the facilities (segregated by individual necessity certificates) substantially as follows:

COST

Buildings		Other total	Date of completion	Percent certified
Land and fixed installations	Equipment			

Necessity Certificate No. .....:
Location of Facilities
(City and State)

(2) Photostats or similar facsimiles of Necessity Certificate(s) Form DPAL–101, and a copy of the application(s) including supporting documentation to the Defense Production Administration or the Office of Defense Mobilization therefor.

(3) (i) When did you first authorize your expansion program in connection with the Necessity Certificate(s)?

(ii) Why did you plan this expansion program?

(4) What military contracts and subcontracts do you now have requiring the use of each facility? For each contract and subcontract furnish the following:

(i) Contract number.
(ii) Total dollar value.
(iii) Undelivered dollar value.
(iv) Estimated completion date.
(v) Type of contract. (CPFF, CPFF-Fixed overhead, fixed price, fixed price-redetermination, fixed price-incentive, etc.)

(5) With which military departments or military contractors are you now negotiating or do you expect to negotiate for proposed new procurements? Indicate type of product, end item and estimated dollar amount.

(6) Have you requested a determination of "true depreciation" for other facilities from any other military department(s)?

(i) Yes or no.
(ii) Departments(s).
(iii) Certificate file number(s).

(7) State for each item or by groups or categories comprising similar type of items on Appendix A of Necessity Certificate(s):

(i) (*a*) Annual normal depreciation rate currently approved by the Internal Revenue Service for income tax purposes.

(*b*) Rate at which item is being depreciated by you in your operating accounting records.

(*c*) Rate being used for military contract pricing.

(ii) Is this item, group or category integrated or isolated from the production process to the extent that special consideration should be given to it in determining true depreciation?

(iii) Is this item, group or category convertible to your possible post-emergency operations?

(*a*) Fully or partially and percent of original cost not convertible.

(*b*) Estimate of useful remaining life in years.

(*c*) Not convertible.

(iv) What plans do you have for the use or disposition of this facility, item, group or category after the emergency period?

(v) Explain to what extent, if any, the facility, item, group or category may cause prospective extraordinary obsolescence of preexisting facilities which are not, in fact, already obsolete.

(vi) Describe briefly and state cost of any special construction features included in this facility, item, group or category which were made necessary exclusively by defense production requirements.

(8) State any additional information other than that submitted above which should be taken into consideration in making a determination of true depreciation for this facility, item, group or category.

(9) State your estimate of true depreciation for each facility, item, group or category and your evaluation of the above facts to support such estimate.

(e) The submissions by the contractor will be signed by a responsible official of the company and will include the following certificate:

I hereby certify that the information contained in the foregoing request is true and correct to the best of my knowledge and belief.

(f) Requests for determinations received by the Board involving facilities as to which the Department of the Navy or the Department of the Air Force is responsible for the making of determinations of true depreciation shall be forwarded by the Board to the Emergency Facilities Depreciation Board of the responsible department. Assignments to each departmental board shall be made in accordance with the provisions of § 121.4 (d) of this title. On cases involving questionable assignments, the majority vote of the joint liaison committee shall govern. A joint assignment list shall be compiled and maintained by a liaison committee consisting of one representative to be designated by each Board.

§ 607.3 *Function of the Board.* The duties and responsibilities of the Board are as follows:

(a) The primary function of the Board is to determine, upon written request of Contractors, the amount of true depreciation of emergency facilities covered by Certificates of Necessity in accordance with existing directives.

(b) The Board will keep minutes of its proceedings and maintain a permanent record of the basis on which all determinations were made.

(c) It will forward five copies of each determination of the Board to each of the Departments of the Navy and Air Force Emergency Facilities Depreciation Board. The Board will transmit its determination direct to the Contractor concerned.

(d) The Board will receive from the Navy and Air Force Boards copies of their determinations and will forward after reproduction one copy to each of the technical services, army commanders and the Army Audit Agency.

(e) It will appoint a representative and an alternative to serve on a liaison committee consisting of three members, one from each Department of National Defense. The committee will compile and maintain a joint assignment list of Contractors and will meet to discuss mutual problems which will be involved in the accomplishment of the mission pursuant to § 607.2 (b).

(f) The Board may request the Office of Defense Mobilization to furnish available information which would be pertinent in determining true depreciation in those cases where a Certificate of Necessity has already been issued and the necessary information is not otherwise available.

(g) The Board is authorized to call upon the Army Commands, the Technical Services and any field office of the Department of the Army for information and assistance in reaching its determination.

(h) In determining the amount of true depreciation, the amount to be apportioned to the 5-year emergency period, the following factors will be considered:

(1) When did the company first plan its expansion program? Except in very unusual circumstances no company, which planned to expand prior to the passage of the Defense Production Act of 1950 (64 Stat. 798; 50 U. S. C. app. 2061), would be entitled to more than normal depreciation for contract pricing. Planning prior to the enactment of the Bill (H. R. 9176, 81st Congress, 2d Session, approved 8 September 1950), would indicate the company has predetermined that normal depreciation for pricing purposes would cover the risk even without the tax benefit.

(2) Why did the company plan its expansion program? With the rapid advances which have been made in recent years in the several categorical fields; i. e., automotive, aeronautical, electronic, photographic, etc., normal facilities improvements would be required in order for the company to remain in competition with other companies in the same field. Such requirements should be taken into consideration in determining true depreciations.

(3) The effect of the increased expenditure in capital investments on the financial structure of the firm should have no bearing on the determination. There are other types of relief which should be considered in such instances.

(4) Before accepting a case for study and review the Board should determine that the Army has jurisdiction in the case. If there is any question, the Board should refer the case to the liaison committee to determine which Department should have jurisdiction.

(5) Contractors may request the Board to make determinations of true depreciation for facilities on which no certificate of necessity has been issued. The Board's responsibility is limited by all directives, however, to determinations on facilities covered by certificates of necessity, and no action will be taken by the Board on facilities not covered by certificates of necessity. Such facilities should be subject to depreciation calculated by using Bulletin F of the Treasury Department as a guide.

(6) Contractors may request the Board to make determinations of the effect of true depreciation on existing prices which are subject to adjustment under the terms of the Defense Directives. If the Board elects to do so, it may make such determinations but only after coordination with the interested procuring officers on phases of pricing other than the determination of true depreciation. Such other matters would include original negotiations of overhead pools and profit or fee.

(7) The Board should make separate determinations for each type of facility (as, for example, buildings, machine tools, other equipment). Nothing in this Directive shall be deemed to preclude plant visits, hearing of Contractor's oral presentations or any other means available to ascertain complete facts and circumstances by the members of the board or agents thereof in order to arrive at an equitable and proper determination of true depreciation. The size and complexity of the request will determine the best method of making the proper determination.

[SEAL] JOHN A. KLEIN,
Major General, U. S. Army,
The Adjutant General.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 988]

[Docket No. AO-195-A7]

HANDLING OF MILK IN KNOXVILLE, TENNESSEE, MARKETING AREA

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT AND TO ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk of the recommended decision of the Deputy Administrator, Agricultural Marketing Service, United States Department of Agriculture, with respect to proposals to amend the tentative marketing agreement and the order, as amended, regulating the handling of milk in the Knoxville, Tennessee marketing area. Interested parties may file written exceptions to this decision with the Hearing Clerk, United States Department of Agriculture, Washington, D. C., not later than the close of business the 5th day after publication of this decision in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

Preliminary statement. The hearing on the record of which the proposed amendments to the tentative marketing agreement and to the order, as amended, were formulated, was conducted at Knoxville, Tennessee on September 29–October 2, 1954 (19 F. R. 6166). The material issues of record related to:

1. An emergency increase in the Class I price.
2. A modification in the Class I pricing provision of the order to bring about more current price adjustments in response to changes in the relation of supplies to Class I sales, and to permit upward as well as downward adjustments.
3. The level of the Class II price.
4. A change in the definition of a producer and the scope of the order with respect to which milk is to be priced.
5. A change in the definition of milk plants to be fully regulated under the order.
6. Payments to be made by handlers with respect to unpriced milk allocated to Class I milk in a pool plant or sold as Class I milk in the marketing area from a nonpool plant.
7. Transportation differentials with respect to the Class I and uniform prices.
8. Minor changes in the administrative provisions of the order.

Findings and conclusions. The following findings and conclusions on the material issues are based upon the evidence introduced at the hearing and the record thereof:

1. The Class I price should not be increased as proposed.

The hearing record discloses that unfavorable production conditions prevail in the Knoxville milkshed. Rainfall in the area has been considerably below normal since June 1, 1954. Fifteen weather stations in a number of counties surrounding Knoxville reported rainfall between 42 and 96 percent of normal between June 1 and August 31. This shortage coupled with rainfall deficiencies of two previous years has resulted in reduced rates of production of crops on the farms of producers. Pasture and forage crops have been the most severely affected.

Market statistics indicate that despite these conditions, milk production in August 1954 exceeded production in the previous August by 9 percent. Partial data for September indicated that this unusual production was continuing. Several witnesses testified that it would be impossible for producers to maintain the increased rate of production throughout the winter, however, because of the inadequacy of their feed reserves.

The increased production of milk which prevailed prior to the hearing was more than absorbed by expanded Class I sales. The market was shorter of milk in August 1954 than during the previous August. Much of the increase in sales was represented by greater sales outside the marketing area and some doubt was raised as to whether the increased sales could be maintained if the Class I price were increased.

It is concluded that because of uncertainty as to future trends in production and Class I sales, no stated change should be made in the Class I differential at this time. However, price adjustments in line with the market conditions of supply and sales may be brought about in accordance with the amendment found necessary under material issue No. 2 hereof.

2. The supply-demand provision should be amended to respond more quickly to current conditions as Class I sales change in relation to the supply of producer milk. This is necessary to reflect changing conditions in the market and to maintain a proper price adjustment.

A supply-demand adjustment provision represents an essential factor in pricing Class I milk not otherwise contained in the order. The Marketing Agreement Act provides that the prices to be fixed under the authority of such act shall be reasonable in view of market conditions, assure a sufficient supply of pure and wholesome milk and be in the public interest. Supplies which are considerably less than or in excess of market needs, as reflected by the recommended supply-demand provision, cannot be considered to be in the public interest. The automatic adjustment of Class I prices in response to changes in the relation between supplies and Class I sales will help to carry out the purposes of the act through stabilization of supplies at the levels required. Failure to adjust the Class I price at appropriate levels, in response to market supply and demand conditions, could result in a price which would encourage an inadequate or excessive supply of milk in relation to demand.

An excess of supply in relation to sales indicates that production has been overstimulated and that a downward price adjustment is necessary to avoid such unnecessary encouragement to production and to encourage added sales. On the other hand shortages of milk indicate that production has not been adequately encouraged and that fluid milk is being offered for sale at unrealistic levels, namely at levels which do not bring forth sufficient quantities of milk to supply the potential sales volume at such price.

Inadequate supplies in relation to demand result in a loss to producers to the extent of any market demand in excess of supply. Such inadequate supply deprives consumers of enough milk to meet their regular requirements. An excessive supply might result in unnecessarily high Class I prices to consumers and result in market excesses which reduce blend prices. Increased production would result in surpluses of milk which the market is not equipped to handle. Neither of these conditions is in the public interest.

Class I price adjustments needed, because of such variations in market supply conditions, may be reflected more promptly and regularly and at less cost under the order changes herein recommended than might reasonably be expected through the hearing and amendment procedure.

At the present time the order provides that the Class I price be decreased as supplies increase relative to sales but no price increases may be provided because of shortages. The price decreases are based on 12 months moving average relationships. It is concluded that such decreases based on 12 month averages do not reflect price changes as promptly as needed by the Knoxville market, and that failure to recognize market shortages as well as oversupplies as grounds for price changes does not effectuate the declared policy of the act. The order should be amended to remedy these deficiencies.

One of the factors necessary in establishing a supply-demand adjustment is to establish appropriate methods of calculating the relationship between supplies and sales. In the Knoxville market it is important that such calculations reflect current conditions, and if possible anticipate future supply-demand conditions. The evidence in the record indicates that a short-term base period consisting of the first and second preceding months should be used for this purpose. Such an adjustment provision will reflect only those conditions which relate to current situations.

A second factor to be considered in drafting a supply-demand adjustment is to determine appropriate basic utilization ratios. Deviations from these ratios are used to determine the amount of price adjustment required.

The Knoxville marketing area has not been adequately supplied with milk for Class I use during the fall and winter months at any time since the order has been in effect. Other source milk equal to 10 to 15 percent of Class I sales has been required to meet the needs of the market at the point of lowest production during the past 2 years. In previous years producer milk has been even shorter. It is concluded, therefore, that under existing circumstances, a base utilization range founded on historical percentages would not be realistic nor serve the needs of the market.

The record indicates that these recurrent seasonal shortages of milk have been recognized each fall since the inception of the order in 1949 by amendatory action to the order prices or by marketwide Class I price premiums above order prices.

It is a well established fact that certain reserves of milk are necessary in a marketing area to assure a dependable supply of pure and wholesome milk. For this reason, it is considered appropriate to construct a base utilization range which will recognize the production adjustments necessary to achieve a desirable supply-demand relationship in the Knoxville marketing area during the winter months. It is concluded that an appropriate base utilization range would be one based on producer receipts equal to 110 percent of Class I sales during the months of November and December, which are the months of shortest supply. The supply-demand adjustment should provide increases whenever milk supplies fall below this level. Price decreases should be brought about if production exceeds this level by more than 2 percentage points.

Producer milk has ordinarily exceeded Class I sales by between 20 and 25 percent during the months of May and June. Class I prices appear to have been fairly fell aligned during these months in previous years. It is concluded therefore that the base utilization percentages should be established at these levels reflecting actual supply during such months.

Base utilization percentages for intervening months should reflect gradual changes between the months of highest and lowest production.

A close alignment of production rates to market needs is more important during the fall and winter than during other months. Shortages are more costly to the market and excesses above needed reserves at this time are particularly undesirable. It is concluded therefore that a higher rate of price adjustment should be made under the supply-demand adjustment during these months. Such larger changes should encourage quicker adjustments in production.

A lower rate of price adjustment is required during the spring months. No milk shortages are likely at this time. On the other hand seasonal increases in production have been very moderate in the Knoxville market. It is apparent therefore that there is no need for substantial supply-demand price adjustments during these months.

It is recognized that while a short-term base period as herein recommended may result in price adjustments which are more responsive to current conditions, there is a limit as to how much variation in price should be allowed to result from unusual or severe short-run phenomena. To avoid extreme variations, it is concluded that a maximum limit should be placed on price adjustments resulting from the operation of the supply-demand provision. It is concluded that variations of more than 12 percentage points from the base utilization range should be considered as the limit, beyond which no further adjustment would be made. Any supply-demand situation which might develop in the Knoxville marketing area which called for a price adjustment to exceed the maximum provided for in this amendment would be of such a nature as to suggest consideration thereof through the hearing procedure.

3. The Class II price should be increased during the months of September through November. No special price should be established for individual Class II products.

A comparatively small volume of producer milk is classified as Class II milk during the months of September through November. The record indicates that producer milk is ordinarily insufficient to supply the Class I uses of the market during these months. Other source milk was used for Class I disposition in considerable volume during each of these three months since September 1950, the first such month for which data are available. The producer milk which is utilized in Class II during such months is insufficient to supply the preferred outlets for Class II milk.

The Class II price is presently based on the average of prices paid by 9 local milk manufacturing plants. Recently, these prices have been considerably below prices paid at the national level for manufacturing grade milk. During 1953 such prices averaged about 32 cents per hundredweight below the prices paid by the 15 midwest condensaries specified in the order. They were more than 50 cents below the butter-powder formula. They were also below the so-called butter-cheese formula. These differences have continued or increased during 1954.

Prices which must be paid for manufactured milk products are determined by national competitive conditions. Knoxville handlers are compelled to buy some of these products during the months of lowest production. Local Class II prices should reflect more nearly the value of these products at national levels during the months of shortage.

It is concluded that 25 cents should be added to the Class II price as presently based on the average of the 9 local manufacturing plant price for each of the months of September through November, or such lesser amount as may be required to bring the Class II price to the same level as the basic formula price. Such price will reflect the higher value of Class II milk in the preferred outlets and will help assure that all producer milk will be available to the market for Class I use, as needed.

A special price should not be established for Class II milk used for butter, cheese or condensed milk. It was proposed that a lower price be provided for these uses as a permanent feature of the order, and that a transportation allowance be established under certain circumstances, depending on the distance the milk was hauled.

As stated previously, the present Class II price is based on the average paying price of nine manufacturing plants in the general area. These plants reflect local market conditions for milk used in manufacturing. During recent months these prices have fallen unusually low in relation to support levels, and to values reflected by the basic formula price. Manufactured product prices are established on a national market level, however, and the relatively lower producer prices paid by local plants result automatically therefore in larger margins to milk processors in the Knoxville area.

The Knoxville market experiences a comparatively low volume of Class II milk. Most of this milk is marketed through the plants of handlers and to outlets normally available for such milk. This surplus Grade A milk should return to producers a price comparable to that received by producers of ungraded milk.

Provision for a permanently lower price with respect to certain Class II out-

order.

sary under material issue No. 2 hereof.

public interest.

be one based on producer receipts equal

to supply the Class I uses of the market

price with respect to certain Class II out-

lets might encourage handlers to market producer milk unnecessarily in the lower valued outlets. Provision for a transportation allowance on Class II milk would make it a matter of relative indifference to handlers how far they shipped producer milk for processing. Thus, the proposed amendments might result in an unnecessary lowering of producer returns.

It is concluded on the basis of the foregoing facts that Class II price, with respect to milk used for butter, cheese, or condensed milk, should not be reduced.

4. The producer definition should be changed to include any Grade A dairy farmer producing milk which is supplied to a pool plant as defined in the attached amendment. This will insure that all Grade A dairy farmers whose milk is marketed in significant volumes in the marketing area will receive the prices provided under the order. Any milk which may be marketed in the various portions of the regulated area as Grade A milk should be on an equal basis so far as the order is concerned, regardless of which health authority issues permits to the producers of such milk. The record discloses that at least 2 milk plants are distributing milk in the marketing area from locations outside the area. The dairy farmers supplying these plants hold Grade A permits recognized by, but not issued by, a health authority having jurisdiction in the marketing area. These dairy farmers should be included as producers, if the plants they supply qualify as pool plants under the order.

5. The order should be amended to define any milk plant doing a substantial portion of its business in the marketing area as a pool plant. Such a plant should be fully subject to the classification and pricing provisions of the order.

As the order is now worded it is possible for a plant to distribute any portion or all of its milk in the marketing area without having its milk priced. It is possible also that a plant may sell only a token quantity of milk in the marketing area and qualify for pooling its entire receipts.

This arises because of the dependence now placed by the order upon the particular health authority inspecting the producers supplying the plant. The order should be amended to provide that any plant, and only those plants, from which a substantial share of the milk is supplied to the marketing area will be fully subject to pricing and pooling. This is necessary to assure the effectiveness of the order in achieving the objectives of the Agricultural Marketing Agreement Act.

The Knoxville order has provided for a market-wide pool since its inception. Such a pool was considered essential to the stable and orderly functioning of the market. Since the market-wide pool results in payment to all producers on an average utilization for the market, individual handlers are relieved of any responsibility for maintaining a high Class I utilization in order to support their pay rates to producers. Whatever utilization of milk a handler may have, his rate of pay to producers will be the same as that of all other handlers in the market. Thus it is possible that status with respect to the pool may become a determining factor in guiding a handler's operation.

The scope of pooling or the rules for distributing the returns from Class I sales under the order must be such that the differentials over manfacturing milk values paid by users of Class I milk will serve the purpose for which they are intended. Class I milk prices of the order are fixed at a level which exceeds the value of the milk for manufacturing uses by stated amounts. This premium, or differential, over the manufactured milk price is essential as an incentive to producers for producing milk of the quality required and at the time needed by consumers. Extra costs are involved in providing sanitary surroundings for the dairy herd, and in maintaining milk production during the fall and winter months when feed and housing costs are high. Extra costs are involved also in handling milk for fluid use since it must be refrigerated, handled through sanitary utensils and facilities, and marketed promptly.

The extra costs thus involved for Grade A or fluid milk producers must be borne by that share of the milk which is marketed as Class I milk. Excess or surplus milk, although an essential part of a fluid milk business, cannot be expected to return more to producers than a manufactured milk value. The only outlet for reserve milk not needed for fluid use is in the form of manufactured products. Such products must be marketed in competition with similar products made throughout the country.

Since the production of high quality milk involves extra expenses, it is important that the amount of milk produced under Grade A inspection be no more than the minimum necessary to provide the market with an adequate and dependable supply of quality milk. To encourage more than enough production of such milk would represent an economic waste, since the expenditures involved in producing Grade A milk not an essential part of the market supply would result in no extra value to consumers.

One of the primary problems, then, in setting up a market-wide pool is to establish rules which will provide for the sharing of Class I sales (Class I differentials) among the producers who are an essential and regular part of the milk supply for the marketing area.

Class I prices must first be set as nearly as possible at the minimum levels which will encourage the necessary amount of milk production and the resulting returns should be distributed in such a way as to assure the market of the maximum dependable supply of quality milk which can be obtained at these prices. In order to do this, provision is made that equalization of market sales should be only to plants meeting reasonable performance standards with respect to supplying their producer milk to the market.

Performance standards should apply uniformly to all plants. Any plant, regardless of its location, should have equal opportunity to comply with the standards and thereby to participate in the market-wide pool and have its producers share in the Class I sales of the market. Any producer who meets the necessary health department requirements should be permitted, under the order, to sell his milk to plants meeting the standards of qualification. Whether or not plants and producers choose to supply the Knoxville market will depend on the economic circumstances with which they are confronted, such as prices, transportation costs, and alternative outlets.

Performance standards should be such that any plant which has as its major function the supplying of milk to the market would pool its sales and share in the market-wide equalization. On the other hand, plants only casually, or incidentally, associated with the market should not be subject to complete regulation, nor should they be permitted or required to equalize their sales with all handlers in the Knoxville market. If a milk plant were to be permitted to share on a pro rata basis the Class I utilization of the entire market without being genuinely associated with the market, then the premiums or differentials paid by users of Class I milk would be subject to dissipation without accomplishing their intended purpose. If a plant were to be qualified and fully regulated merely by making a token shipment of milk or cream into the market for sale as Class I milk, then any milk plant which found itself in a position where it was selling a smaller share of its milk in Class I than the average for all regulated handlers might make such shipment and receive equalization payments from the pool. The only qualification such a plant would be required to meet would be compliance with the necessary health department standards.

The mere circumstance of having obtained health department approval, plus the token shipment of milk, is not sufficient justification for equalizing the sales of such plant with the market. There are many plants having milk of suitable quality for sale in the marketing area which are in no way, or are only incidentally, associated with the market: There are several different health authorities having jurisdiction in various parts of the marketing area. In the absence of performance standards, approval by any one of these authorities or reciprocal acceptance of permits by them would entitle a plant to participate in the equalization pool. There is no reason to assume that each of these health departments would refuse an application for approval because they had determined that the milk from an applicant plant was not entitled to pool with the market, or that the basis for such refusal would be uniform for each health authority, or that such standards as might be applied for this purpose would be appropriate to effectuate the declared policy of the act. It is concluded that these health authorities should not be placed in a position of determining which plants should be regulated and share in equalization. The extension of uniform health department ordinances and the dependence upon reciprocal inspections have greatly extended the eligibility of milk to enter the market. This has brought about a situation in which health department approvals may not be relied upon as a standard for determining which plants and which producers are primarily associated with the market.

Since reserve milk is an essential part of any fluid milk business there will always be some excess milk in the plants of handlers supplying other markets. This will be particularly true in the months of flush production. Plants selling primarily to other markets, or plants shipping milk on an opportunity basis to any market where supplies happen to be short, do not represent sources of milk on which the Knoxville market may depend. If such plants were allowed to sell a token quantity of milk in the marketing area and pool their surplus whenever Class I outlets were not available to them, the result would be that such handler could gain an advantage in paying producers through receipt of equilization payments from the Knoxville pool.

The Knoxville market, however, would gain no advantage from the payment of equalization to such a handler. Such a distribution of equalization payments would, in fact, reduce the blend price to producers regularly supplying the market, thereby having an adverse effect on the milk supplies upon which the market depends. This could result in the need for higher Class I prices than would otherwise be required to supply the market adequately.

Performance standards must be flexible enough to allow a plant which is primarily associated with the market to maintain its association with the pool under the changing conditions which occur from year to year, and yet not permit the distribution of equalization payments to plants not part of the essential supply. The performance standards herein provided are such that these objectives should be accomplished.

Because of the difference in marketing practices and in demands for supply of milk from distributing plants as related to supply plants, two sets of performance standards have been provided. These standards and reasons therefor are set forth below.

(a) *Distributing plants.* In order to qualify as a pool plant, a distributing plant should be required to distribute at least 15 percent of its milk from producers and other pool plants during the month as Class I milk on retail or wholesale routes to outlets in the marketing area. Distribution of milk through vendors or plant stores should be included to the extent that sales through such outlets are in the marketing area.

A distributing plant having more than 85 percent of its business outside the marketing area or in other outlets should not be considered as essentially associated with the market. It is not considered advisable to bring such a plant under full regulation in order to control the minor share of its business which is in the marketing area. Full regulation in such case would not be necessary to accomplish the purposes of the order, and might well place such plant at a competitive disadvantage in relation to its competitors in supplying the unregulated market.

Such a minimum is necessary also to avoid the possibility that a plant otherwise not associated with the market might qualify itself for equalization payments to its own advantage, and to the disadvantage of the market, by means of minor sales in the marketing area.

It is contemplated that only plants primarily engaged in route distributions of fluid milk and Class I products should be qualified as pool plants under this definition. In order to preserve this distinction, a further condition is placed on distributing plants that their total distribution of Class I milk on routes to wholesale or retail outlets, both inside and outside the marketing area, must amount to at least 50 percent of their receipts during the month of milk from producers and from other pool plants. Any plant which does not qualify on this basis should be deemed to be primarily a bulk supply plant and its status under the pool should be judged by the standards applied to such plants.

Evidence in the record indicates that most plants doing business in the marketing area dispose of their milk in such a way as to exceed by a considerable margin the minimum performance standards necessary to qualify as pool plants under this amendment. There may be one or two plants which would not qualify for pool status. Such plants would be subject to payments hereinafter discussed if they are not fully subject to regulation. While the proposed amendments are essential to the stability of the market, their effect on these plants may be such as to necessitate some adjustments in their operations. The hearing record indicates that the operators of such plants may need some time to make these adjustments. Provision should be made in the order, therefore, that any milk plant which distributed Class I milk in the marketing area during September, and which does not qualify as a pool plant under the stated percentages, may elect to request designation as a pool plant for a transitional period. Such designation may be made by the market administrator until the end of July 1955 if the plant continues to dispose of milk in the marketing area. Such plant may not elect to change status from one month to the next, however, and after July 1955, pool plant status will be determined solely on the basis of current performance.

(b) *Supply plants.* The performance standards to be recommended for supply plants to qualify for pool status should reflect the fact that Knoxville is typically a short market. In all previous years under the order distributors have needed all of the milk available from producers in order to keep their Class I outlets fully supplied. In order to assure that all the producer milk which is pooled with the market will be available for Class I sale percentage standards should be set at levels which require that the milk will be available. If conditions in the market should change so that Class I outlets are adequately supplied with producer milk and the percentage standards herein recommended are not necessary to assure the availability of such producer milk for Class I sales, the recommended standards should be subject to further review.

Under present circumstances it is concluded that a plant should dispose of at least 50 percent of its receipts of milk from producers in any month in the form of supplemental supplies of milk, skim milk or cream shipped to distributing plants which need such supplies for Class I use in order to qualify for pool status. Unless more than half of the milk from such plant is disposed of in this manner a supply plant should not under the present conditions in the Knoxville area be considered as primarily associated with the regulated market.

It is recognized, however, that the demand for milk from supply plants is rather seasonal. The primary function of most supply plants, particularly those on the fringes of the milkshed, will be to furnish milk to distributing plants during the season of low production. In the months of flush production supplies of milk received at plants located in or near the marketing area may be sufficient to supply the Class I outlets. During this part of the year, it would be more economical to leave the most distant milk in the country for manufacture, and use local supplies for Class I use. The performance provisions should not force milk to be transported to distributing plants in the summertime where it must be manufactured in order to maintain the eligiblity of supply plants to pool.

To avoid this, a proviso has been incorporated into the supply plant standards which allows a supply plant to maintain pool status throughout the year if it supplies 65 percent of its producer milk to distributing plants needing the milk for their own Class I use in the months when milk production tends to be lowest. These standards require that a supply plant provide such distributing plants with needed milk to the extent of 65 percent of its milk received in each of the months of August through February, to maintain automatic pool status within the order for the months of March through July.

6. The order should be amended to provide that payments be made into the producer settlement fund with respect to milk not priced under the order which is allocated to Class I milk in a pool plant.

The hearing record contains considerable testimony which indicates that unpriced milk (milk not paid for in accordance with its utilization) is being sold in the marketing area. It indicates also that under some circumstances the sale of such milk will jeopardize the successful operation of classified pricing provisions of the order without the payment provisions herein provided.

It is a well recognized fact that a minimum amount of milk in excess of actual Class I disposition is necessary to operate a fluid milk business. Because of

ever utilization of milk a handler may then pay rates to producers. What uniformly to all plants. Any plant, re- termining which plants should be regu- under full regulation in order to control the minor share of its business which is in the marketing area. Full regulation is pooled with the market will be avail- able for Class I sale percentage stand- ards should be set at levels which require imum amount of milk in excess of actual Class I disposition is necessary to oper- ate a fluid milk business. Because of

seasonal fluctuations in production not matched by seasonal changes in consumption, this excess is particularly large in certain months of the year. This excess or reserve milk is surplus to the fluid operation, and can only be marketed in manufactured form in competition with products made from ungraded milk produced in the major low cost dairying areas of the United States. Thus, such reserve milk yields a considerably lower return than is necessary to sustain graded milk production in the Knoxville milkshed. Likewise, it yields a lower price than would be necessary to purchase graded milk on a regular basis in other supply areas and pay the cost of transportation to Knoxville.

The existence of this reserve Grade A milk, which must be marketed at a lower price, is the primary cause of the instability which may affect all fluid milk markets. If a handler is able to use milk he purchases at Class II prices for Class I use, he stands to gain advantage, but in so doing he demoralizes the Class I market price.

One of the paramount reasons why regulation of prices is considered necessary in the Knoxville market is to insure that the position of handlers paying producers a Class I price for fluid milk will not be undermined by other handlers using the market's excess or surplus producer milk for Class I use. It is equally important that the Class I market be protected from the use of seasonal or other excess milk from other markets as well as from its own surplus. The order provisions as they now stand permit a handler to curtail purchases of producer milk to their own advantage and secure low cost reserve supplies from other markets for Class I use.

Seasonal supplies are easily and cheaply acquired during the months of flush production when surrounding markets are receiving milk greatly in excess of their current fluid needs. If adjacent milksheds dump their seasonal surplus on each other's Class I markets, the result will soon be market chaos, particularly in the spring months. Class I prices would be demoralized and the rate of milk production would suffer. The result would soon be a shortage of milk in both markets at any time in the year when general shortages and high prices prevailed. Such marketing conditions would be contrary to the stated purpose of the act. It is necessary, therefore, in order to insure the effectiveness of the classified pricing program of the order and to promote orderly marketing, that some measure be taken to remove the incentive which handlers have to acquire unpriced milk and undermine the Class I pricing structure of the order.

One possible alternative would be to extend price regulation in accordance with order provisions to all milk plants which supply milk either directly or indirectly to the Knoxville market. This alternative is both economically and administratively unacceptable in such an order program. It would open the market pool to anyone who merely supplied a token quantity of milk to a plant serving the marketing area. The objections to such distribution of pooled funds was discussed earlier in the decision in connection with the recommendations for standards of pool participation.

Such regulation would have the further disadvantage of being cumbersome, expensive, difficult to enforce, and it would interfere with the acquisition of needed supplemental milk supplies for the market. It would not be possible or desirable to limit the number of plants or area from which milk might be purchased. However, in order to bring such plants under regulation, it would be necessary to set up a complete new set of transfer and allocation rules, perhaps with individual tailoring according to the various plant locations, markets and supplies. It would be necessary to follow milk from these plants to its various destinations and uses to determine classification. Also, it would be necessary to ascertain sources of supply other than receipts directly from farmers and determine what priority should be given such supplies in the allocation of Class I milk. In the case of a plant which made an incidental shipment of milk, perhaps at the end of the month, or in the case of such items as storage cream, additional complications would be involved. Earlier inventories as well as sales would have to be ascertained and classified. Classification might depend upon transactions made in the past concerning which adequate records were not kept. Producer prices would be fixed for milk already purchased and sold. Required record keeping and auditing problems would be greatly multiplied with the extension of regulation.

It is concluded that it is not feasible to price all milk which may enter the market and that provision is necessary in the order which will insure against the displacement of producer milk by such unpriced milk for the purpose of cost advantage. There is no choice as to what type of provision can be used for this purpose. The only alternative available under the order is to levy a charge against unpriced milk used in Class I to whatever extent is necessary to remove the advantage there may be in using such milk instead of priced milk from producers.

Several problems are involved in formulating the provisions for any charge or payment designed to bring about the removal of the advantage of using unregulated milk. The rate of payment for this purpose must not be so low that it will permit a handler to have temporary or permanent advantage through sale of unpriced milk as Class I in the marketing area. It should not be so high that it will penalize suppliers of unpriced milk who offer milk needed by the market and who are not in a position of gaining an unfair advantage by such sale of milk. The payment must be provided for in a manner which is administratively feasible and which does not bring about unjustified administrative inconvenience or expense.

Several methods were described on the hearing record for determining what rate of payment would be appropriate. One of these is to ascertain the actual cost to the regulated handler of milk which he purchases from unregulated plants and charge as a compensation payment any amount by which the Class I price exceeded the cost of the unregulated milk used in Class I. Such a scheme is not sound from the standpoint of administrative feasibility and it would not necessarily remove the advantage in using unregulated milk even though it were feasible. Rates at which milk sales are billed may not represent actual cost to the purchaser. In the case of a firm which owns or controls pool plants under the Knoxville order as well as unregulated plants, the rate of payment from one plant to another, if any were made, would have little or no significance. If such a provision were to be adopted, the billing rate might be deliberately set in each instance at a level which would avoid any payments without regard to the value of the milk. Thus the intended effect of this provision might be circumvented by merely adjusting the bookeeping procedure. There are a number of firms which control plans which would be under the proposed order as well as unregulated plants.

A handler having no unregulated plants would no doubt find it possible to arrange a billing price on purchased milk which would avoid any compensatory payments. If a handler had the choice of paying money to the market-wide pool or to a person from whom he was buying milk, he would probably choose the latter. A kick-back arrangement or offsetting purchase and sale might readily be arranged, perhaps through a third party. Since the billing price for milk would be a self-serving figure for both parties to the transaction, it would be virtually impossible to ascertain that it represented the true cost to the purchaser.

If the stated purchase price were a true cost, it would still not fulfill the purpose of removing the advantage to unregulated milk to base compensation payments on the difference between such price and the Class I price. The record discloses that sales of priced milk between regulated handlers ordinarily take place at the class price plus a handling charge. This handling charge varies according to circumstances, but represents a payment to the receiver of the milk to offset his purchasing and receiving costs, such as dumping, weighing, testing and cooling the milk, paying producers, and other costs of doing business. The cost of receiving the milk in bulk form is somewhat less than receiving it from producers. Thus, in order to remove the advantage to unregulated milk, it would be necessary to provide that the cost of bulk unregulated milk be somewhat more than the Class I price. It would be exceedingly difficult to determine what this excess rate should be, particularly in the case of products such as condensed skim milk and cream, where the allocation of additional processing costs among more than one end product is involved. Furthermore, the marketing agreement act does not give the Secretary express authority to enforce prices other than producer prices. This scheme for removing the

advantage in using unregulated milk is rejected for these reasons.

Another suggested method is to determine the price actually paid dairy farmers by the unregulated milk dealer who first received the milk, and base the compensation payment thereon. This method has several shortcomings. The various payment plans which are used in paying farmers for milk would make the determination of pay rates to individual farmers an exceedingly difficult task. For example, unregulated milk dealers may use varying rates of butterfat differentials, different types of base rating plans, or payments based on volume of deliveries. Various devices such as these for paying farmers often make it impossible to determine actual rate of payment per hundredweight of milk. In this case as with bulk milk purchases stated prices are often illusory. The cost of the milk itself may be modified by unrealistic charges for various items of supplies and services. A milk dealer affected by such a provision might increase his producer price and increase hauling rates an offsetting amount. One milk dealer who might be subject to the proposed provision produces a large volume of milk on his own farm. Milk may be purchased from members of the same family or from other closely related sources; thus in cases of this kind as with bulk milk purchases the intended effect of this provision could be avoided by merely making the necessary bookkeeping entries. Whatever payment plan an unregulated milk dealer may use is a matter of his own choice and it can be charged readily. Pricing or paying arrangements he may have with farmers are not subject to regulation. Calculation of compensation payments according to this suggestion would give any affected dealer special incentive to resort to these special payment plans suggested here or others he might devise for purposes of evading payments.

The further problem of establishing the rate of payment to be required would in itself preclude use of the actual cost of the milk purchased from farmers by unregulated handlers as a basis for calculating the payment to be required. If a payment were to be required on the unregulated milk based on the difference between prices paid farmers and some other price, the unregulated handler could avoid payments by increasing his prices to farmers. This would give an unregulated handler the advantage over regulated handlers in that a regulated handler has no choice as to what he is required to pay producers nor how this money is to be distributed. Likewise, it would enable unregulated suppliers to dispose of Class I milk in the marketing area with no obligation to equalize such sales with other suppliers of the market.

Even though the rate of payment to producers for all milk might be known, it would still be impossible to ascertain the rate of payment on that portion of the milk disposed of in the marketing area. Since milk marketed outside the marketing area would represent most of the total supply in the unregulated plant, it would be necessary to determine payment for milk marketed to the various outlets. As pointed out subsequently in this decision, all handlers have both surplus as well as Class I milk in their plants and it is not realistic to assume that the purchase price for milk for each use is the same.

It has been suggested that in order to overcome this objection the plant of the unregulated handler be subject to audit and that the rate of compensation payment be based on the difference between the average utilization value at order prices in the unregulated plant and the average rate of payment to producers. This method would not recover the entire advantage of selling surplus milk as Class I in the marketing area. This method has not only the disadvantages associated with other schemes which assume the determination of actual pay rates to producers, but it would involve, in the case of the Knoxville market, an extremely complicated and administratively impractical system of accounting and determination in such plants. The unregulated plants from which the Knoxville handlers obtain supplemental milk, condensed milk and cream, and so forth, are numerous and widely scattered. Determination of utilization value in these plants would involve the same complications and administrative expense and difficulties as discussed earlier which would be involved in complete regulation of such plants. To make the detailed accounting necessary to establish classification, such unregulated dealers would need to maintain the same detailed records as wholly regulated handlers.

An alternative method for determining the rate of compensation payments would be to base the rate of payment on the difference between blend prices prevailing in an area and the Class I price. This method has been suggested because it is assumed that unregulated handlers will be forced by competition to pay farmers approximately average blend prices. While this approach eliminates the need for attempting to determine actual pay rates, it could not be used without modification and still prevent the displacement of regulated milk with surplus milk from other markets at all times throughout the year. As pointed out, unregulated plants, as well as regulated plants, may have some surplus milk at all times and particularly during the seasons of flush production. As a result, prices paid farmers are, in fact, blend prices made up of returns from the sale of milk in Class I outlets, as well as sales to the surplus market. If an unregulated plant were in a position to sell its surplus milk for Class I use in the marketing area and maintain its regular Class I outlets, it would have a competitive advantage over regulated handlers who found it necessary to dispose of part of their milk as surplus.

None of these suggestions presents an acceptable approach to the problem of compensation payments, to be applied to other source of milk allocated to Class I in pool plants. It is necessary, therefore, to resort to a different procedure. The only sound method of dealing with this problem is one based on a recognition of the economics involved as they affect producers and handlers. This approach resolves itself primarily into a question of market values for milk.

Fully regulated handlers under the order seeking to purchase unregulated milk will naturally resort to the lowest cost source from which suitable milk is available. In fixing the rate of compensation payment, it is necessary, therefore, to determine what the lowest cost source may be and to base the payment on the difference between the cost of such milk and the cost of milk priced under the order for similar use. The record shows that milk supplies are invariably larger in surrounding markets in spring and summer than in fall and winter, and that because of relatively constant sales of fluid milk, the excess or increased production must be marketed largely as manufactured products. This outlet represents the opportunity cost of the surplus milk since it is the highest price at which the milk can otherwise be sold. It is this same opportunity cost or value which would be effective in determining the price at which the unregulated plant would sell such milk. The minimum asking price of the unregulated supplier of such milk would be expected to be only the return which he would realize if the milk were disposed of for surplus use.

Since considerable volumes of Grade A milk must be disposed of as surplus by various unregulated plants from which the Knoxville market may obtain milk, it is evident that handlers under the order could obtain such milk at prices reflecting its value as surplus milk. In short, the actual value of seasonal or reserve milk is not the blend price paid to dairy farmers but rather the price which can be obtained for it in the market when disposed of as surplus milk.

Therefore, for the months of February through August, during which period surplus milk may be available in substantial volumes to the Knoxville market from non-pool sources, the compensation payment on other source milk or milk products used for Class I should be based on the difference between the minimum price of producer milk used for surplus and the applicable Class I price under the Knoxville order. The Class II price established by the order is a fair and economic measure of the value of milk in surplus uses in the Knoxville area.

During the months of September through January, when milk supplies tend to be shorter, it is concluded that other source milk will not be available to handlers in the Knoxville market at surplus prices. It is concluded that during these months the compensation payment should be based on the difference between the Class I and the blend prices under the order. Generally speaking, during these months the relationship between the supply of milk in the Knoxville milkshed area and the demand for such milk will tend to fluctuate considerably from year to year according to production conditions. It is concluded that these fluctuations will generally tend to be similar in Knoxville and surrounding milksheds. Thus, the rate of compensation payment based on the difference between Class I and blend prices

will adjust itself automatically in these months according to the changes in demand for and prices of outside supplies. If supplies of producer milk are relatively plentiful, unpriced milk can be expected to be cheaper, and therefore, the rate of compensation payment should be somewhat higher. On the other hand, as milk supplies in the area tend to be short, it is to be expected that the cost of unregulated milk will increase. Under these circumstances, the rate of compensation payment will be correspondingly less.

By choosing a rate of compensation payment which reflects the cost of the cheapest other source milk which may be expected to be available to regulated handlers, any advantage to one handler relative to the others, in obtaining such cheap milk and substituting it for producer milk in Class I, is removed insofar as administratively possible and no handler is given the clear opportunity to gain an unfair advantage which otherwise would exist. Although the unfair advantage of obtaining other source milk is removed by the particular rate of payment herein provided, nevertheless, if other source milk is to be purchased, the incentive for purchasing the cheapest of such milk remains, because the lower the price which a handler pays for other source milk, the lower will be his total cost of purchasing such milk. This follows from the fact that the measure of the compensation payment is an objective one and does not depend upon the particular price which the handler paid for the other source milk.

As pointed out heretofore in connection with material issue number 5, the process of market-wide pooling creates an unnatural incentive for milk to come into the market to gain certain advantages. Such milk would not be associated with the market in the absence of regulation.

The act requires that prices fixed under the order for milk purchased from producers or associations of producers be uniform as to all handlers, subject only to usual adjustments, such as those for butterfat content and location of the milk. The only prices fixed under the order are those for producer milk, and it is hereby determined that they are uniform as required by the act. Class prices for pool milk under the order are for raw milk as received from farmers, f. o. b. the loading platform at the plant where first received.

In calculating the payments on other source milk both the Class I and surplus values must relate to and be fixed as of the point where the milk is received from farmers at the first receiving plant, so as to be properly comparable with minimum class prices which always attach to producer milk at that level of marketing. No allowance should be made for subsequent handling costs and profits in this farm level comparison between producer and other source milk because such costs and profits attach at stages of marketing subsequent to the basing point to which minimum class prices for producer milk refer. They are in no way regulated by the order with respect to producer milk. Neither the act nor the order contemplates, authorizes or provides for the regulation of subsequent handling charges or profits or the establishment of uniform resale prices between handlers, whether the milk be from producers or other sources.

It is concluded that the compensation payments herein provided are not only incidental, but necessary to sustain the classification and pricing of milk according to its use in the market, and that the rates of payment specified are those which are necessary and appropriate to accomplish this purpose.

Testimony in the hearing record concerning availability of milk supplies to Knoxville handlers indicates that the rate of payment recommended here will tend to equalize the competitive position of priced and unpriced milk, and will avoid displacement of producer milk for reasons of cost. However, if experience proves that milk is available to handlers in the future at prices different than those now indicated, or that such payments otherwise interfere with the purposes of the order, then it will be necessary to reconsider the rate of compensation payment on the basis of that experience.

In addition to that other source milk which enters the marketing area through pool plants, some non-pool milk may be distributed within the marketing area from plants which are non-pool plants. The compensation charges applicable to other source milk disposed of in the marketing area from distributing plants which are non-pool plants should be the same as those applicable to other source milk distributed from pool plants discussed above. It would not be possible to stabilize the market under the classified pricing program if non-pool plants were allowed to distribute unpriced milk in the marketing area without compensation payments. Such milk should be classified and priced the same through the classification pricing program as unpriced milk distributed through any other channels.

Handlers distributing such unpriced milk in the marketing area from non-pool distributing plants have the same opportunity to buy milk at the opportunity cost level as do the operators of pool plants who purchase other source milk. Such milk may be purchased and distributed in the marketing area. In addition, however, the operator of the non-pool plant in all probability has surplus milk in his own plant which he would want to dispose of on any basis which would yield a higher return than the surplus value. It would be particularly easy to dispose of such milk for Class I use in the marketing area by bidding for large contracts such as hospitals, defense establishments, or large institutions. With surplus outlets as the alternative, and no compensation payments to make, the non-pool handlers would have considerable incentive or margin to underbid the seller of priced milk for such sales. A non-pool plant might also use such price advantage in selling his surplus milk to Class I outlets for the purpose of establishing a regular trade on retail or wholesale routes to homes and stores in the marketing area. The non-pool plant might sell up to 15 percent of its milk into the marketing area as Class I without becoming subject to regulation. To allow a non-pool plant to use its surplus milk in this manner for establishing a regular trade in the marketing area without compensation payments would mean that such plant would have a marked competitive advantage over regulated handlers selling priced milk. Such conditions could readily lead to disorderly marketing conditions.

It is considered inappropriate also that a plant distributing a small share of its milk in the marketing area should be subject to full regulation because of that small share of its milk so marketed. Such regulation might place a plant of this kind at a competitive disadvantage with respect to its unregulated competition. In some cases, a non-pool plant may be disposing of a larger share of its milk as Class I than the average utilization for the market. In such cases, the compensation payments herein provided might cost the handler less than the equalization payments such plant would pay if fully regulated as a pool plant. In these instances the sale of small quantities of milk in the marketing area would be more likely to take place under the compensation payment provisions herein provided than if full regulation were extended to all plants.

The rate of compensation payment provided for non-pool plants making distribution directly in the marketing area should be the same as that for pool plants which obtain and use unpriced milk in Class I. The administrative feasibility of any other method of levying compensation payments is substantially the same as that described in the case of unpriced milk distributed in the marketing area by pool plants.

Testimony in the record indicates that no compensation payments should be required on milk classified and priced as Class I under another Federal milk marketing order. The minimum prices for Class I milk under other Federal orders where Knoxville handlers might obtain supplemental supplies approximate or exceed the Knoxville Class I prices, as adjusted for location of the supplying plants. Since handlers operating plants under other Federal orders must pay for producer milk on a utilization basis, they would not be in a position to unload any surplus producer milk into the Knoxville market for Class I use at less than Class I prices. If it should develop that such other plants have Class I sales in excess of producer milk and a compensatory payment is not applicable to such milk, further consideration may be given to the question of a payment on such milk.

Any funds collected from this source should be added to the producer-settlement fund. It is the purpose of the order to insure that a sufficient and dependable supply of quality milk will be available for Class I needs of the market. To the extent that Class I sales are displaced through the disposition of surplus milk from unpriced sources, producers stand to lose income from the sale of milk to the market which they

are expected to supply. This loss of income would mean that the prices contemplated under the order would not be realized by producers. As a result, production might suffer, in which case consumers would stand to lose because of the disappearance of milk supplies from the regular and dependable sources which have provided milk to the market on a year-round basis. Otherwise, Class I prices would have to be increased to offset the loss of income to producers. There is no alternative source of dependable milk supplies which would cost consumers less over a period of time than the milk supplied by the regular producers. Thus, there is justification in terms of overall benefit to the market for returning to producers the difference between the value of such milk at its opportunity cost, which would otherwise be its value to the seller, and the Class I price. There is no other alternative disposition of funds from compensation payments under the authority of the act other than that herein provided.

It is necessary that the order specify the handler obligated to make the compensation payments. If the unpriced milk is distributed in the marketing area from a nonpool plant, the operator of such plant should make the payment. In the case of supplemental milk received at pool plants from unpriced sources, either the buying or selling plant might be assessed. From the standpoint of the economics involved, it would make no difference, since the amount of payment would be the same in both cases.

From the standpoint of administration and enforcement, it would be much easier and simpler for the regulated plant to make the payment. The market administrator has regular dealings with the pool plant handler. Such handler would be expected to know and understand the terms and provisions of the order. He is the handler who would be responsible for distributing the milk in the regulated market. Whether or not a compensation payment would be required would depend upon the application of the allocation provisions of the order to the plant of the receiving handler.

The seller, on the other hand, would not be aware until later whether a compensation payment would be required, and might not even know at the time of the sale, particularly if the sale took place through a broker, whether his milk would be moved to a regulated market for disposition. If enforcement proceedings were to be required, it would be more convenient and logical to bring the case to trial in the area of the regulated market where the problem arose.

The compensation payments herein provided will not prohibit the marketing of milk nor limit the marketing of milk products from any production area of the United States. The rate of payment required is uniform except for adjustment by transportation differentials to any plant, regardless of whether it is located in the marketing area or at any distance from the marketing area. The transportation differential herein provided for this purpose is designed to reflect the cost of hauling bulk milk in tank truck lots and is based on the evidence in the hearing record.

The quantity of milk and milk products which may be sold in any regulated market is dependent at least to some extent upon the price fixed under the order for the particular class of utilization. Such influence should not be construed, however, as a limitation of the type precluded under the act. No price can be fixed without influencing, to some extent, the quantity of milk and milk products which may be sold from either regulated or unregulated sources. No quantitative limitations are imposed under the order on the amounts of unpriced milk which may be disposed of in the marketing area nor does it prohibit such use or any other use of unpriced nonpool milk or milk products. The compensation payment herewith provided will not discriminate against producers by areas, but will provide for equalization of competitive prices by type of transaction with respect to regulated and unregulated milk.

The payment will not deprive suppliers of unpriced milk of a high priced market which they would otherwise enjoy. The alternative sale value of the unpriced milk is recognized, and this value is returned to these sources when sale is made to the Knoxville market. If marketing facilities and outlets are such that it is advantageous for nonpool plants to dispose of their surplus milk to the Knoxville Class I market, under the provisions of the attached amendment, they may be expected to and undoubtedly will do so, and the return they receive should be the full surplus value for such milk.

The compensation payment herewith provided has as its primary purpose the elimination of economic incentives for handlers to use unpriced milk to displace minimum priced milk in Class I sales. The rate of payment found to be appropriate for this purpose is one which recognizes general competitive conditions in the purchase and sale of regulated and unregulated milk. It is recognized, however, that general competitive conditions do not prevail in all cases. Each handler is situated differently and each individual transaction is made under different circumstances. It is not possible, however, to adjust prices or payments to individual circumstances or transactions. Such an individual approach would not be administratively or economically feasible. Compensatory payments must therefore be applied at a definite and certain rate applicable to all handlers similarly situated. No single rate of payment can be determined, however, which would result in complete equality of cost to all handlers. Consequently, instances will undoubtedly arise which will appear to indicate that the objectives of the compensatory payment are not being achieved in particular cases. In some cases, the payments required may seem harsh.

It is necessary in seeking an overall solution to problems of this nature to adopt provisions which will be reasonable and as liberal as possible, and at the same time will still guarantee the integrity of regulation. To provide inadequate payments would leave the door open to practices which would render the program ineffective. Commerce in milk is entirely at the option of handlers. They are free to complete only those transactions which are most favorable to themselves. Order provisions must recognize this fact. They must recognize, also, that the varying conditions under which milk transactions occur give rise to great complexity and some doubtful circumstances. Where marginal problems arise, they must be resolved in favor of producers under the order, otherwise the advantage may go to unregulated milk and to dealers and farmers who are not required to abide by any rules of procedure or price making.

7. Transportation differentials should be provided in the order with respect to Class I and blend prices. The record discloses that some plants which may be subject to the order as proposed to be amended are located at considerable distance from the marketing area. Milk is received from producers at these plants and transported to the marketing area for Class I use.

It is concluded that the order should be amended to provide a location differential to reflect the lower value of this milk at such distant points. The differential should be based on the cost of hauling milk in bulk tank lots to Knoxville, and the mileage should be based on the distance of the plant from city hall in Knoxville. Such allowance should be made only with respect to milk needed for Class I use in the distributing plants and with respect to the blend price to producers.

8. Allowable shrinkage should be classified on a pro rata basis in accordance with the overall utilization in the plant. The Knoxville market is a high Class I utilization market. Most handlers receive only that amount of milk necessary to operate their Class I business. Shrinkage incurred in such plants is associated almost entirely with the processing and distribution of fluid products. Milk so lost is necessary to the operation of such businesses, since they cannot be conducted without such loss. The volume of milk available each day must include that lost.

It is concluded, therefore, that shrinkage should be classified in accordance with the classification of the end products resulting from the processes in which the shrinkage is incurred. For this purpose the shrinkage should be prorated to each product or use in accordance with the total butterfat and skim milk respectively contained in the end products classified at the plant during the month.

9. The order should be amended to eliminate the requirements that the utilization of milk, skim milk and cream transferred between plants be certified to the market administrator by both plant operators as a condition for classification in Class II. Testimony in the record indicates that this provision necessitates extra reporting by handlers and is not necessary to the enforcement of the order. It should be deleted.

The other source milk definition should be amended to specify that only

those products used in the plant during the month should be reported and brought into the accounting and classification processes for the month.

The essential function of the reporting, accounting, and classification provisions is to establish the disposition of Class I milk and the classification of producer milk during the month. It is not necessary for this purpose to require reporting or classification of any Class II products handled or on hand during the month, except those involved in the processing operations carried on in the plant during the month. Complete records are necessary in the plant, however, to follow and account for all skim milk and butterfat handled. In order to determine the status relative to pricing and pooling of various plants supplying the market it is necessary to require reports of all plants selling milk to pool plants or distributing Class I milk in the marketing area.

To avoid an injustice as a result of amendments proposed herein, the base rating provisions of the order should be adjusted. This adjustment should permit the calculation of a full base for producers whose milk is received regularly at a plant which becomes subject to regulation for the first time upon the effective date of this amendment.

Most of the producers whose milk will be regulated under the order for the first time as a result of such amendment, have been in production throughout the base forming period. Evidence in the record indicates that such producers have been forming bases under base rating programs administered outside the scope of the order. The records of their deliveries will be available to the market administrator according to testimony in the hearing record.

To allow such producers to form only partial bases because the plants they supply become regulated for only a portion of the base forming period, as a result of this proposed amendment, would not be justified. Such producers should be granted bases calculated as an average of their deliveries from November 1 through the end of the base forming period. However, in case a producer would have formed a better base had he been selling under the order for the entire base forming period, he should be permitted such base.

The definitions and provisions of the order should be changed as necessary to bring all sections thereof into conformity with the changes herein found necessary.

Rulings on proposed findings and conclusions. A number of briefs were filed which contained statements of fact, proposed findings and conclusions, and arguments with respect to the provisions of the proposed amendments. Every point covered in the briefs was carefully considered along with the evidence in the record in making the findings and reaching the conclusions hereinbefore set forth. To the extent that the findings and conclusions proposed in the briefs are inconsistent with the findings and conclusions contained herein, the request to make such findings or to reach such conclusions is denied on the basis of the facts found and stated in connection with the conclusions in the recommended decision.

General findings. (a) The proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply of and demand for milk, in the marketing area and the minimum prices specified in the proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The proposed order, as amended, and as hereby proposed to be further amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Recommended marketing agreement and order, amending the order, as amended. The following order regulating the handling of milk in the Knoxville marketing area is recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out. The recommended marketing agreement is not included in this decision because the regulatory provisions thereof would be identical with those contained in the order, as amended, and as hereby proposed to be further amended.

DEFINITIONS

§ 988.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937 as amended (7 U. S. C. 601 et seq.).

§ 988.2 *Secretary.* "Secretary" means the Secretary of Agriculture or any officer or employee of the United States authorized to exercise the powers and to perform the duties of the Secretary of Agriculture.

§ 988.3 *Department of Agriculture.* "Department of Agriculture" means the United States Department of Agriculture or any other Federal agency as may be authorized by act of Congress or by Executive order to perform the price reporting functions of the United States Department of Agriculture.

§ 988.4 *Person.* "Person" means any individual, partnership, corporation, association, or any other business unit.

§ 988.5 *Knoxville, Tennessee, marketing area.* "Knoxville, Tennessee, marketing area," hereinafter called the "marketing area" means all of the territory within the boundaries of Knox County including the territory within the corporate limits of the City of Knoxville, all of the territory within the corporate limits of the Cities of Alcoa and Maryville in Blount County and all of that part of the Development of Oak Ridge which lies within Anderson County, all in the State of Tennessee.

§ 988.6 *Cooperative association.* "Cooperative association" means any cooperative marketing association of producers which the Secretary determines to be qualified pursuant to the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act," and is authorized by its members to make collective sales or to market milk or its products for the producers thereof.

§ 988.7 *Producer-handler.* "Producer-handler" means any person who produces Grade A milk under a dairy farm inspection permit issued by any duly constituted health authority, and who processes milk from his own production, distributing all or a portion of such milk within the marketing area as Class I milk, but who receives no milk from producers.

§ 988.8 *Approved plant.* "Approved plant" means any milk plant from which Grade A milk, skim milk, or cream is shipped during the month to a pool plant, or from which Class I milk is disposed of (including disposition by vendors) in the marketing area.

§ 988.9 *Pool plant.* "Pool plant" means (a) an approved plant from which a volume of Class I milk equal to not less than 50 percent of its receipts of producer milk and milk and skim milk from other pool plants is disposed of during the month on routes (including routes operated by vendors) to retail or wholesale outlets (including plant stores): *Provided,* That not less than 15 percent of such receipts are so disposed of to such outlets in the marketing area; (b) an approved plant from which at least 50 percent of the hundredweight of its producer milk received during the month is shipped in the form of milk, skim milk or cream to a plant qualified pursuant to paragraph (a) of this section and classified as Class I milk: *Provided,* That if such shipments amount to not less than 65 percent of the producer milk of such plant during each of the preceding months of August through February, such plant may, upon written application to the market administrator on or before March 1 of any year be designated as a pool plant for the months of March through July of such year, or (c) from the effective date hereof, through July 1955, any plant not otherwise qualified as a pool plant pursuant to this section, from which Class I milk was disposed of to retail or wholesale outlets in the marketing area during the month of September 1954, which meets the following conditions for the month: (1) The operator of such plant makes application on or before the 10th day of the month requesting designation of such plant as a pool plant for the month; (2) Class I milk is disposed of during the month to retail or wholesale outlets in the marketing area, and (3) the plant was not a non-pool plant pursuant to this order during the previous month.

§ 988.10 *Nonpool plant.* "Nonpool plant" means any milk receiving, manufacturing, processing or bottling plant other than a pool plant.

§ 988.11 *Handler.* "Handler" means (a) any person in his capacity as the operator of an approved plant, (b) a producer-handler or (c) a cooperative association with respect to milk diverted for its account pursuant to § 988.12.

§ 988.12. *Producer.* "Producer" means any person except a producer-handler who produces milk in compliance with Grade A inspection requirements of a duly constituted health authority which milk is (a) received at a pool plant, or (b) diverted for his account by a handler from a pool plant to a nonpool plant any day during the months of December through August: *Provided,* That milk so diverted shall be deemed to have been received by the diverting handler at a pool plant at the location of the plant from which it was diverted.

§ 988.13 *Producer milk.* "Producer milk" means only that skim milk or butterfat contained in milk (a) received at the pool plant directly from producers, or (b) diverted from a pool plant to a nonpool plant in accordance with the conditions set forth in § 988.12.

§ 988.14 *Other source milk.* "Other source milk" means all skim milk and butterfat contained in: (a) Receipts during the month in the form of products designated as Class I milk pursuant to § 988.41 (a) except (1) such products received from other pool plants, or (2) producer milk; and (b) products designated as Class II milk pursuant to § 988.41 (b) (1) from any source (including those from a plant's own production), which are reprocessed or converted to another product in the plant during the month.

§ 988.15 *Base milk.* "Base milk" means milk received by a handler from a producer during any of the months of April through August which is not in excess of such producer's daily average base computed pursuant to § 988.60 multiplied by the number of days in such month.

§ 988.16 *Excess milk.* "Excess milk" means milk received by a handler from a producer during any of the months of April through August which is in excess of base milk received from such producer during such month, and shall include all milk received during such month from a producer from whom no daily average base can be computed pursuant to § 988.60.

MARKET ADMINISTRATOR

§ 988.20 *Designation.* The agency for the administration of this part shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 988.21 *Powers.* The market administrator shall have the following powers with respect to this part:

(a) To administer its terms and provisions;

(b) To receive, investigate, and report to the Secretary complaints of violations;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend amendments to the Secretary.

§ 988.22 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this part, including, but not limited to, the following:

(a) Within 45 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond, effective as of the date on which he enters upon his duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in a reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(d) Pay, out of the funds provided by § 988.87, (1) the cost of his bond and of the bonds of his employees, (2) his own compensation, and (3) all other expenses, except those incurred under § 988.88, necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for herein, and, upon request by the Secretary, surrender the same to such other person as the Secretary may designate;

(f) Publicly disclose at his discretion to handlers and producers, unless otherwise directed by the Secretary the name of any person who, after the day upon which he is required to perform such acts, has not made (1) reports pursuant to § 988.30 or (2) payments pursuant to §§ 988.80 and 988.82;

(g) Submit his books and records to examination by the Secretary and furnish such information and reports as may be required by the Secretary;

(h) Prepare and make available for the benefit of producers, consumers, and handlers such general statistics and information concerning the operation hereof as are necessary and essential to the proper functioning of this part;

(i) Verify all reports and payments by each handler by audit, if necessary, of such handler's records and the records of any other handler or person upon whose utilization the classification of skim milk and butterfat for such handler depends; and

(j) On or before the date specified, publicly announce and notify each handler in writing of the following: (1) The 10th day of each month, the Class I price, and the Class I butterfat differential, both for the current month; (2) the 6th day of each month, the Class II price and the Class II butterfat differential, both for the preceding month; and (3) the 10th day after the end of each month, the uniform price(s), and the producer butterfat differential for the preceding month.

REPORTS, RECORDS AND FACILITIES

§ 988.30 *Reports of receipts and utilization.* On or before the 6th day after the end of each month each handler, except a producer-handler, shall report for each of his approved plants for such month to the market administrator in the detail and on forms prescribed by the market administrator:

(a) The quantities of skim milk and butterfat contained in producer milk including for the months of April through August a statement of the aggregate quantity of base milk;

(b) The quantities of skim milk and butterfat contained in products designated as Class I milk pursuant to § 988.41 (a) (1) received from other handlers;

(c) The quantities of skim milk and butterfat contained in other source milk;

(d) Inventories of products designated as Class I milk pursuant to § 988.41 (a) (1) on hand at the beginning and end of the month; and

(e) The utilization of all skim milk and butterfat required to be reported pursuant to this section, including a separate statement of the disposition of Class I milk outside the marketing area.

§ 988.31 *Other reports.* (a) Each producer-handler shall make reports to the market administrator at such time and in such manner as the market administrator may prescribe;

(b) Each handler, except a producer-handler, shall report to the market administrator in detail and on forms prescribed by the market administrator:

(1) On or before the 20th day after the end of the month for each of his pool plants his producer payroll for such month which shall show for each producer: (i) The total pounds of milk received from such producer or cooperative association, including, for the months of April through August, the total pounds of base and excess milk, (ii) the days on which milk was received from such producer, if less than a full month, (iii) the average butterfat content of such milk, and (iv) the net amount of such handler's payment, to each producer or cooperative association, together with the price paid and the amount and nature of any deductions;

(2) On or before the first day other source milk is received in the form of milk, fluid skim milk or cream at his pool plant(s), his intention to receive such product, and on or before the last day such product is received, his intention to discontinue receipt of such product; and

(3) Such other information with respect to his utilization of butterfat and skim milk as the market administrator may prescribe.

§ 988.32 *Records and facilities.* Each handler shall keep adequate records of receipts and utilization of skim milk and butterfat and shall, during the usual hours of business, make available to the market administrator or his representa-

request to make such findings or to reach such conclusions is denied on the basis of the facts found and stated in connec-

County including the territory within the corporate limits of the City of Knoxville, all of the territory within the

suant to this order during the previous month.

tive such records and facilities as will enable the market administrator to (a) verify the receipts and utilization of all skim milk and butterfat and, in case of errors or omissions, ascertain the correct figures; (b) weight, sample, and test for butterfat content all milk and milk products handled; (c) verify payment to producers; and (d) make such examination of operations, equipment, and facilities, as are necessary and essential to the proper administration of this part or any amendments thereto.

§ 988.33 *Retention of records.* All books and records required under this part to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the month to which such books and records pertain: *Provided,* That if within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case the market administrator shall give further written notification to the handler promptly, upon the termination of the litigation or when the records are no longer necessary in connection therewith.

§ 988.34 *Reports to cooperative associations.* On or before the 15th day after the end of each month, the market administrator shall report to each cooperative association as described in § 988.88 (b), upon request by such association, the percentage of milk caused to be delivered by such association or by its members which was used in each class by each handler receiving any such milk. For the purpose of this report the milk so received shall be prorated to each class in the proportion that the total receipts of milk from producers by such handlers were used in each class.

CLASSIFICATION OF MILK

§ 988.40 *Skim milk and butterfat to be classified.* The skim milk and butterfat at pool plants, which is required to be reported pursuant to § 988.30 shall be classified each month by the market administrator, pursuant to the provisions of §§ 988.41 through 988.46.

§ 988.41 *Classes of utilization.* Subject to the conditions set forth in §§ 988.42 through 988.44, the classes of utilization shall be as follows:

(a) *Class I milk.* Class I milk shall be all skim milk and butterfat (1) disposed of in fluid form (except for livestock feed) as milk, skim milk, buttermilk, flavored milk, flavored milk drinks, cream and any cream product, except frozen cream and ice cream mix; (2) in inventory of products designated as Class I milk pursuant to subparagraph (1) of this paragraph; and (3) not specifically accounted for as Class II milk.

(b) *Class II milk.* Class II milk shall be all skim milk and butterfat: (1) Used to produce any item other than those specified in paragraph (a) of this section; (2) disposed of and used for livestock feed; and (3) in shrinkage assigned to Class II milk pursuant to § 988.42.

§ 988.42 *Shrinkage.* The market administrator shall determine the assignment of shrinkage to Class II milk as follows:

(a) Determine the total shrinkage of butterfat and skim milk in the pool plant(s) of the handler;

(b) Multiply the pounds of skim milk and butterfat in producer milk (except milk diverted pursuant to § 988.12) and other source milk by 0.025;

(c) Multiply the pounds of butterfat and skim milk, respectively, determined pursuant to paragraph (a) or (b) of this section, whichever is less, by the percentage of butterfat and skim milk classified pursuant to § 988.41 (a) and (b) (1) and (2) which is in Class II milk. The resulting amounts of skim milk and butterfat shall be classified as Class II milk; and

(d) Assign the shrinkage of skim milk and butterfat classified as Class II milk pro rata to producer milk and other source milk.

§ 988.43 *Responsibility of handlers and reclassification of milk.* All skim milk and butterfat shall be classified as Class I milk, unless the handler who first receives such skim milk or butterfat proves to the market administrator that such skim milk or butterfat should be classified in Class II.

§ 988.44 *Transfers.* (a) Skim milk and butterfat when transferred or diverted by a handler from a pool plant to a pool plant of another handler (except a producer-handler) in the form of products designated as Class I milk pursuant to § 988.41 (a) of this section shall be classified as Class I milk unless the operators of both plants claim utilization thereof in Class II milk in their reports submitted pursuant to § 988.30: *Provided,* That the skim milk or butterfat so assigned to Class II milk shall be limited to the amount thereof remaining in Class II milk in the plant of the transferee-handler after the subtraction of other source milk pursuant to § 988.46, and any additional amounts of such skim milk or butterfat shall be assigned to Class I milk: *And provided further,* That if either or both handlers have received other source milk, the skim milk or butterfat so transferred shall be classified at both plants so as to allocate the greatest possible Class I milk utilization to the producer milk of both handlers.

(b) As Class I milk if transferred to a producer-handler in the form of products designated as Class I milk in § 988.41 (a) (1);

(c) As Class I milk if transferred or diverted in the form of milk, skim milk, or cream to a nonpool plant, except that of a producer-handler, unless (1) the handler claims Class II utilization in his report submitted pursuant to § 988.30, (2) the operator of the nonpool plant maintains books and records showing the utilization of all skim milk and butterfat at such plant which are made available if requested by the market administrator for the purpose of verification, and (3) not less than an equivalent amount of skim milk and butterfat was actually utilized in such plant during the month in the use indicated in such statement: *Provided,* That if upon inspection of the records of such plant it is found that an equivalent amount of skim milk and butterfat was not actually used in such indicated use the remaining pounds shall be classified as Class I milk: *And provided further,* That if such plant disposes of fluid cream to another nonpool plant which conforms with the requirements of subparagraphs (1), (2) and (3) of this paragraph, such cream shall be classified as Class II milk

§ 988.45 *Computation of skim milk and butterfat in each class.* For each month, the market administrator shall correct for mathematical and other obvious errors the monthly report submitted for the pool plant(s) of each handler pursuant to § 988.30 and compute the total pounds of skim milk and butterfat, respectively, in Class I milk and Class II milk for such handler.

§ 988.46 *Allocation of skim milk and butterfat classified.* (a) The pounds of skim milk remaining in each class after making the following computations for the pool plant(s) of each handler for each month shall be the pounds in such class allocated to producer milk received by such handler:

(1) Subtract from the total pounds of skim milk in Class I milk the pounds of skim milk assigned to producer milk pursuant to § 988.42 (d);

(2) Subtract from the pounds of skim milk remaining in Class II milk the pounds of skim milk in other source milk which was not subject to the Class I pricing provisions of an order issued pursuant to the act: *Provided,* That if the pounds of skim milk to be subtracted is greater than the remaining pounds of skim milk in Class II milk, the balance shall be subtracted from the pounds of skim milk in Class I milk;

(3) Subtract from the pounds of skim milk remaining in Class II milk the pounds of skim milk in other source milk which was subject to the Class I pricing provisions of another order issued pursuant to the act: *Provided,* That if the pounds of skim milk to be subtracted is greater than the remaining pounds of skim milk in Class II milk, the balance shall be subtracted from the pounds of skim milk in Class I milk;

(4) Subtract from the remaining pounds of skim milk in Class I milk the pounds of skim milk contained in inventory of products designated as Class I milk pursuant to § 988.41 (a) (1) on hand at the beginning of the month: *Provided,* That if the pounds of skim milk in such inventory are greater than the remaining pounds of skim milk in Class I milk, an amount equal to the difference shall be subtracted from the pounds of skim milk in Class II milk;

(5) Subtract from the remaining pounds of skim milk in each class the skim milk received from the pool plants of other handlers in the form of products

designated as Class I milk in § 988.41 (a) (1), according to its classification as determined pursuant to § 988.44 (a);

(6) Add to the remaining pounds of skim milk in Class II milk the pounds of skim milk subtracted pursuant to subparagraph (1) of this paragraph; and

(7) If the remaining pounds of skim milk in both classes exceed the pounds of skim milk contained in producer milk, subtract such excess from the remaining pounds of skim milk in series beginning with Class II milk. Any amount so subtracted shall be known as "overage."

(b) Butterfat shall be allocated in accordance with the same procedure outlined for skim milk in paragraph (a) of this section;

(c) Add the pounds of skim milk and the pounds of butterfat allocated to producer milk in each class, respectively, as computed pursuant to paragraphs (a) and (b) of this section, and determine the percentage of butterfat in each class.

MINIMUM PRICES

§ 988.50 *Basic formula price.* The basic formula price per hundredweight (computed to the nearest cent) to be used in determining the price for Class I milk pursuant to § 988.51 (a) shall be the highest of the prices per hundredweight for milk of 4.0 percent butterfat content computed pursuant to paragraph (a), (b), or (c) of this section, or § 988.51 (b).

(a) To the arithmetical average of the basic (or field) prices reported to have been paid or to be paid per hundredweight for milk of 3.5 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the market administrator or to the Department of Agriculture on or before the 6th day after the end of the month:

Company and Location
Borden Co., Mount Pleasant, Mich.
Borden Co., New London, Wis.
Borden Co., Orfordville, Wis.
Carnation Co., Berlin, Wis.
Carnation Co., Chilton, Wis.
Carnation Co., Oconomowoc, Wis.
Carnation Co., Richland Center, Wis.
Carnation Co., Sparta, Mich.
Pet Milk Co., Belleville, Wis.
Pet Milk Co., Coopersville, Mich.
Pet Milk Co., Hudson, Mich.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Wayland, Mich.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

and an amount computed by multiplying the butterfat differential computed pursuant to § 988.85 (a) by 5.

(b) The price per hundredweight computed as follows:

(1) Multiply by 6 the average daily wholesale price per pound of 92-score butter in the Chicago market as reported by the Department of Agriculture during the month;

(2) Add an amount equal to 2.4 times the arithmetical average of the weekly prevailing price per pound of "Twins" during the month on the Wisconsin Cheese Exchange at Plymouth, Wisconsin: *Provided,* That if the price of "Twins" is not quoted on such Exchange the weekly prevailing price per pound of "Cheddars" shall be used; and

(3) Divide by 7, add 30 percent thereof, and then multiply by 4.

(c) The price per hundredweight computed as follows: Multiply by 4.0 the arithmetical average of daily wholesale prices per pound of 92-score butter in the Chicago market, as reported by the Department of Agriculture during the month, add 20 percent thereof, and add to such sum 3¾ cents for each full ½ cent that the arithmetical average of carlot prices per pound of nonfat dry milk solids (not including that specifically designated animal feed), spray and roller process, f. o. b. Chicago area manufacturing plants, as reported by the Department of Agriculture during the month, is above 5 cents: *Provided,* That if such f. o. b. manufacturing plant prices of nonfat dry milk solids are not reported, there shall be used for the purpose of such computation the arithmetical average of the carlot prices of nonfat dry milk solids delivered at Chicago, Illinois, as reported by the Department of Agriculture during the month and in the latter event the "5 cents" shall be increased by 1 cent.

§ 988.51 *Class prices.* Subject to the provisions of §§ 988.52 and 988.53 each handler shall pay producers, at the time and in the manner set forth in §§ 988.80 through 988.86, not less than the prices per hundredweight computed as follows for the respective quantities of Class I milk and Class II milk computed pursuant to § 988.46:

(a) *Class I milk price.* The price per hundredweight for Class I milk for the month shall be the basic formula price for the preceding month, subject to the adjustments provided in subparagraphs (1) and (2) of this paragraph:

(1) Add $1.50;

(2) Add if the utilization percentage calculated pursuant to subparagraph (3) of this paragraph is less than, or subtract if it is more than the base utilization range, an amount determined by multiplying the net utilization percentage calculated pursuant to subparagraph (4) of this paragraph or 12, whichever is less, by the appropriate rate as follows:

Pricing months:	*Rate (cents)*
December through February and August	2
March through July	1
September through November	4

(3) Calculate a utilization percentage for each month by dividing the net hundredweight of Class I milk disposed of from all pool plants for the first and second preceding months into the total hundredweight of producer milk for the same months, multiplying by 100, and rounding the resultant figure to the nearest whole number.

(4) Calculate a "net utilization percentage" by determining the amount by which the utilization percentage calculated pursuant to subparagraph (3) of this paragraph exceeds the higher figure or is less than the lower figure of the appropriate base utilization range in the following table:

Pricing month	First and second preceding months	Base utilization range
January	November–December	111–114
February	December–January	112–115
March	January–February	113–116
April	February–March	114–118
May	March–April	115–119
June	April–May	120–125
July	May–June	120–125
August	June–July	116–120
September	July–August	114–118
October	August–September	113–116
November	September–October	110–112
December	October–November	110–112

(b) *Class II milk price.* For the months of December through August the price for Class II milk shall be the price determined pursuant to subparagraph (1) of this paragraph rounded to the nearest cent. For all other months it shall be the basic formula price or the price determined pursuant to subparagraph (1) of this paragraph, plus 25 cents, whichever is less.

(1) The arithmetical average of the basic (or field) prices reported to have been paid or to be paid per hundredweight for milk of 4.0 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the Market Administrator or to the Department of Agriculture on or before the 6th day after the end of the month.

Company and Location
Pet Milk Co., Mayfield, Ky.
Pet Milk Co., Bowling Green, Ky.
Pet Milk Co., Greenville, Tenn.
Pet Milk Co., Abingdon, Va.
Carnation Co., Murfreesboro, Tenn.
Carnation Co., Statesville, N. C.
Carnation Co., Galax, Va.
Borden Co., Lewisburg, Tenn.
Borden Co., Chester, S. C.

§ 988.52 *Butterfat differential to handlers.* If the weighted average butterfat test of that portion of producer milk which is classified, respectively, in any class of utilization for a handler, pursuant to § 988.46, is more or less than 4.0 percent, there shall be added to, or subtracted from, as the case may be, the price for such class of utilization, for each one-tenth of 1 percent that such weighted average butterfat test is above or below, respectively, 4.0 percent, a butterfat differential (computed to the nearest 10th of a cent), calculated for each class of utilization as follows:

(a) *Class I milk.* Multiply by 0.13 the average daily wholesale price per pound of 92-score butter in the Chicago market, as reported by the Department of Agriculture during the immediately preceding month;

(b) *Class II milk.* Multiply by 0.115 the average daily wholesale price per pound of 92-score butter in the Chicago market, as reported by the Department of Agriculture during the month;

Provided, That such butterfat differential shall not exceed the result obtained by dividing the Class II price pursuant to § 988.51 (b) by 40.

§ 988.53 *Location differentials to handlers.* For that milk which is received from producers at a pool plant located 50 miles or more from the City Hall in

Knoxville, Tennessee, by shortest hard-surface highway distance, as determined by the market administrator, and which is transferred in the form of products designated as Class I milk in § 988.41 (a) (1) to another pool plant and assigned to Class I pursuant to the proviso of this section, or otherwise classified as Class I milk, the price specified in § 988.51 (a) shall be reduced at the rate set forth in the following schedule according to the location of the pool plant where such milk is received from producers:

Distance from the city hall in Knoxville (miles):	*Rate per hundredweight (cents)*
50 but less than 60	15
For each additional 10 miles or fraction thereof, an additional	1.5

Provided, That for purposes of calculating such location differential, products so designated as Class I milk which are transferred between pool plants shall be assigned to any remainder of Class II milk in the transferee-plant after making the calculations prescribed in § 988.46 (a) (1) (2) and (3) and the comparable steps in § 988.46 (b) for such plant, such assignment to transferor plants to be made in sequence according to the location differential applicable at each plant, beginning with the plant having the largest differential.

DETERMINATION OF BASE

§ 988.60 *Daily average base.* Subject to the rules set forth in § 988.61, the daily average base for each producer shall be an amount calculated by dividing the total pounds of producer milk received from such producer by all handlers during the months of September through February immediately preceding, by the number of days from the first day of delivery by such producer during such months to the last day of February, inclusive, but not less than 120 days: *Provided*, That in the case of a producer whose milk is received at a plant which becomes fully subject to regulation for the first time upon the effective date of this amendment, such base shall be that which would have been calculated for such producer for the entire base forming period beginning September 1, 1954, or that which would have been calculated for the period beginning November 1, 1954, whichever is higher.

§ 988.61 *Base rules.* The following rules shall apply in connection with the establishment of bases:

(a) A base shall apply to deliveries of milk by the producer for whose account that milk was delivered during the base forming period;

(b) An entire base may be transferred by notifying the market administrator in writing before the last day of any month for which such base is to be transferred to the person named in such notice: *Provided*, That if the base is held jointly and such joint holding is terminated, the entire base transferable by any joint holder shall be his portion of such jointly held base as indicated by the joint holders.

§ 988.62 *Announcement of established bases.* On or before April 1, of each year, the market administrator shall notify each producer and the handler receiving milk from such producers of the daily base established by such producer.

DETERMINATION OF UNIFORM PRICES TO PRODUCERS

§ 988.70 *Computation of value of milk.* The value of producer milk received during each month by each handler shall be a sum of money computed by the market administrator by multiplying the pounds of such milk in each class for the month by the applicable class price adjusted by the appropriate butterfat and location differentials and adding together the resulting amounts: *Provided*, That there shall be added any amount computed by multiplying the pounds of overage subtracted pursuant to § 988.46 (a) (7) and (b) by the appropriate class prices as adjusted by the butterfat and location differentials: *And provided further*, That an amount shall be added equal to the hundredweight of skim milk and butterfat subtracted from Class I milk pursuant to § 988.46 (a) (2) and (b) multiplied by the rate of payment on unpriced milk determined pursuant to § 988.93.

§ 988.71 *Computation of uniform price.* For each of the months of September through March the market administrator shall compute the uniform price per hundredweight for producer milk, of 4.0 percent butterfat content, f. o. b. market, as follows:

(a) Combine into one total the values computed pursuant to § 988.70 for all handlers who made the reports prescribed in § 988.30 for such month, except those in default of payments required pursuant to § 988.82 for the preceding month;

(b) Subtract if the average butterfat content of producer milk represented by the values included under paragraph (a) of this section is greater than 4.0 percent, or add, if such average butterfat content is less than 4.0 percent, an amount computed as follows: Multiply the amount by which the average butterfat content of such milk varies from 4.0 percent by the butterfat differential computed pursuant to § 988.85 (a), and multiply the result by the total hundredweight of such milk;

(c) Add an amount equal to the sum of the deductions to be made from producer payments pursuant to § 988.80 (b) (2);

(d) Add an amount representing the cash balance on hand in the producer-settlement fund, less the total amount of contingent obligations to handlers pursuant to § 988.83;

(e) Divide the resulting amount by the total hundredweight of producer milk included in these computations; and

(f) Subtract not less than 4 cents nor more than 5 cents.

§ 988.72 *Computation of uniform prices for base milk and excess milk.* For each of the months of April through August, the market administrator shall compute the uniform prices per hundredweight for base milk and for excess milk, each of 4.0 percent butterfat content, f. o. b. market, as follows:

(a) Combine into one total the value computed pursuant to § 988.70 for all handlers who made the reports prescribed in § 988.30 for such month, except those in default of payments required pursuant to § 988.82 for the preceding month;

(b) Subtract, if the average butterfat content of producer milk represented by the values included under paragraph (a) of this section is greater than 4.0 percent, or add, if such average butterfat content is less than 4.0 percent, an amount computed as follows: Multiply the amount by which the average butterfat content of such milk varies from 4.0 percent by the butterfat differential computed pursuant to § 988.85 (a), and multiply the result by the total hundredweight of such milk;

(c) Add an amount equal to the sum of the deductions to be made from producer payments pursuant to § 988.80 (b) (2);

(d) Add an amount representing the cash balance on hand in the producer-settlement fund, less the total amount of contingent obligations to handlers pursuant to § 988.83;

(e) Compute the value on a 4.0 percent butterfat basis of the aggregate quantity of excess milk for all handlers included in the computation pursuant to paragraph (a) of this section by multiplying the hundredweight of such milk not in excess of the total quantity of Class II milk included in such computation by the applicable prices for such Class II milk of 4.0 percent butterfat content beginning in series with the lowest price for Class II milk of 4.0 percent butterfat content; multiplying the hundredweight of such milk in excess of the total hundredweight of such Class II milk by the price for Class I milk of 4.0 percent butterfat content, and adding together the resulting amounts;

(f) Divide the total value of excess milk obtained in paragraph (e) of this section by the total hundredweight of such milk, and adjust to the nearest cent. The resulting figure shall be the uniform price for excess milk of 4.0 percent butterfat content received from producers;

(g) Subtract the value of excess milk determined by applying the uniform price obtained in paragraph (f) of this section from the value of all milk obtained in paragraph (d) of this section;

(h) Divide the amount obtained in paragraph (g) of this section by the total hundredweight of base milk included in these computations;

(i) Subtract not less than 4 cents nor more than 5 cents from the amount computed pursuant to paragraph (h) of this section. The resulting figure shall be the uniform price for base milk of 4.0 percent butterfat content f. o. b. market.

§ 988.73 *Notification of handlers.* On or before the 10th day after the end of each month, the market administrator shall mail to each handler, at his last known address, a statement showing:

(a) The amount and value of his producer milk in each class and the totals thereof;

(b) For the months of April through August the amounts and value of his base and excess milk respectively, and the totals thereof;

(c) The uniform price(s) computed pursuant to §§ 988.71 and 988.72 and the butterfat differential computed pursuant to § 988.85 (a); and

(d) The amounts to be paid by such handler pursuant to §§ 988.82, 988.87, and 988.88 or § 988.92.

PAYMENTS

§ 988.80 *Time and method of payment for producer milk.* (a) On or before the last day of each month each handler shall make payment to each producer for milk received from him during the first 15 days of such month at not less than the Class II price per hundredweight for the preceding month: *Provided*, That with respect to producers whose milk was caused to be delivered to such handler by a cooperative association which is authorized to collect payment for such milk, the handler shall, if so requested, pay such cooperative association on or before the 2d day before the end of each month an amount equal to the sum of the individual payments otherwise payable to such producers in accordance with this paragraph.

(b) On or before the 15th day after the end of each month each handler shall make payment to each producer for milk which was received from him during the month at not less than the uniform price computed pursuant to § 988.71, for the months of September through March, or at not less than the uniform price for base milk computed pursuant to § 988.72 with respect to base milk received from such producer, and at not less than the uniform price for excess milk computed pursuant to § 988.72 with respect to excess milk received from such producer, for the months of April through August, subject to the following adjustment: (1) The butterfat differential pursuant to § 988.85 (a), (2) less location differentials pursuant to § 988.85 (b), (3) less payment made pursuant to paragraph (a) of this section, (4) less marketing service deductions pursuant to § 988.88, (5) less proper deductions authorized in writing by the producer, and (6) adjusted for any error in calculating payment to such individual producer for past months; *Provided*, That if such handler has not received full payment for such month pursuant to § 988.83 he may reduce uniformly per hundredweight for all producers his payments pursuant to this paragraph by an amount not in excess of the per hundredweight reduction in payment from the market administrator: *Provided further*, That the handler shall make such balance of payment to those producers to whom it is due on or before the date for making payments pursuant to this paragraph next following that on which such balance of payment is received from the market administrator: *And provided further*, That with respect to producers whose milk was caused to be delivered to such handler by a cooperative association which is authorized to collect payment for such milk, the handler shall if so requested pay such cooperative association, on or before the 13th day after the end of each month an amount equal to the sum of the individual payments otherwise payable to such producers in accordance with this paragraph.

§ 988.81 *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 988.82, 988.84, and 988.92, and out of which he shall make all payments pursuant to §§ 988.83 and 988.84: *Provided*, That payments due to any handler shall be offset by payments due from such handler.

§ 988.82 *Payments to the producer-settlement fund.* On or before the 12th day after the end of each month each handler shall pay to the market administrator any amount by which the total value of his milk computed pursuant to § 988.70 for such month is greater than the value of milk received by such handler from producers during the month, computed at the applicable minimum uniform prices as specified in §§ 988.71 and 988.72 adjusted for the differentials provided for in § 988.85.

§ 988.83 *Payments out of the producer-settlement fund.* On or before the 13th day after the end of each month, the market administrator shall pay to each handler, any amount by which the total value of his milk computed pursuant to § 988.70 for such month is less than the value of his producer milk received during the month, computed at the applicable minimum uniform prices as specified in §§ 988.71 and 988.72 adjusted for the differentials provided for in § 988.85. If at such time the balance in the producer-settlement fund is insufficient to make all payments pursuant to this section, the market administrator shall reduce uniformly per hundredweight such payments and shall complete such payments as soon as the appropriate funds are available.

§ 988.84 *Adjustment of errors in payment.* Whenever verification by the market administrator of payments by any handler discloses errors made in payments to the producer-settlement fund pursuant to § 988.82, the market administrator shall promptly bill such handler for any unpaid amount and such handler shall, within 15 days, make payment to the market administrator of the amount so billed. Whenever verification discloses that payment is due from the market administrator to any handler, pursuant to § 988.83, the market administrator shall, within 15 days, make such payment to such handler. Whenever verification by the market administrator of the payment by a handler to any producer or cooperative association for milk received by such handler discloses payment of less than is required by § 988.80, the handler shall pay such balance due such producer or cooperative association not later than the time of making payment to producers or cooperative associations next following such disclosure.

§ 988.85 *Butterfat differential to producers.* (a) If, during the month, any handler has received, from any producer or cooperative association, milk having an average butterfat content other than 4.0 percent, such handler, in making payments prescribed in § 988.80 (b), shall add to the uniform price(s) per hundredweight paid to such producer or cooperative association for each one-tenth of 1 percent that the average butterfat content of such milk is above 4.0 percent not less than, or may deduct from the uniform price(s) per hundredweight for each one-tenth of 1 percent that the average butterfat content of such milk is below 4.0 percent not more than, an amount computed as follows: Multiply by 0.12 the average daily wholesale price per pound of 92-score butter in the Chicago market, as reported by the Department of Agriculture during the month and adjust to the nearest one-tenth of a cent.

(b) *Location differential to producers.* In making payment to producers pursuant to § 988.80, the uniform price to be paid for producer milk and the uniform price for base milk received at a pool plant located 50 miles or more from the City Hall in Knoxville, Tennessee, by the shortest hard-surfaced highway distance, as determined by the market administrator, shall be reduced according to the location of the pool plant where such milk was received at the following rate:

Distance from the city hall in Knoxville (miles):	*Rate per hundredweight (cents)*
50 but less than 60	15
For each additional 10 miles or fraction thereof an additional	1.5

§ 988.86 *Statement to producers.* In making payments required by § 988.80 each handler shall furnish each producer or cooperative association with a supporting statement in such form that it may be retained by the producer or cooperative association which shall show:

(a) The month and the identity of the handler and of the producer;

(b) The total pounds and the average butterfat content of milk delivered by the producer including for the months of April through August, the pounds of base milk and excess milk;

(c) The minimum rate or rates at which payment to the producer is required under the provisions of §§ 988.80 and 988.85;

(d) The rate which is used in making the payment if such rate is more than the applicable minimum;

(e) The amount or the rate per hundredweight of each deduction claimed by the handler including any deduction made pursuant to § 988.88, together with a description of the respective deductions; and

(f) The net amount of payment to the producer or cooperative association.

§ 988.87 *Expense of administration.* As his pro rata share of the expense of the administration of this part, each handler shall pay to the market administrator, on or before the 15th day after the end of each month, 4 cents per hundredweight or such lesser amount as the Secretary may prescribe, with respect to butterfat and skim milk contained in

(a) producer milk (including such handler's own production), (b) other source milk at his plant(s), and (c) Class I milk disposed of in the marketing area (except to a pool plant) from a nonpool plant not subject to the classification and pricing provisions of another order issued pursuant to the act.

§ 988.88 *Marketing services.* (a) Except as set forth in paragraph (b) of this section, each handler in making payments to each producer pursuant to § 988.80 (b), shall deduct 6 cents per hundredweight or such lesser amount as the Secretary may prescribe, with respect to all milk received by such handler from such producer (except such handler's own farm production), during the month, and shall pay such deductions to the market administrator not later than the 15th day after the end of the month. Such money shall be used by the market administrator to verify weights, samples, and tests of milk received by handlers from such producers during the month and to provide such producers with market information. Such services shall be performed in whole or in part by the market administrator or by an agent engaged by and responsible to him.

(b) *Producers' cooperative associations.* In the case of producers for whom a cooperative association is actually performing, as determined by the Secretary, the services set forth in paragraph (a) of this section, each handler shall make, in lieu of the deductions specified in paragraph (a) of this section, such deductions as are authorized by such producers and, on or before the 15th day after the end of each month, pay over such deductions to the association rendering such services.

§ 988.89 *Termination of obligations.* The provisions of this section shall apply to any obligation under this part for the payment of money irrespective of when such obligation arose, except an obligation involved in an action instituted before December 1, 1951, under section 8c (15) (A) of the act or before a court.

(a) The obligation of any handler to pay money required to be paid under the terms of this order, shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this part, to make available to the market administrator or his representatives all books and records required by this part to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this order to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

APPLICATION OF PROVISIONS

§ 988.90 *Producer-handlers.* Sections 988.40 through 988.46, 988.50 through 988.53, 988.60 through 988.62, 988.70 through 988.73, 988.80 through 988.88 shall not apply to a producer-handler.

§ 988.91 *Plants subject to other Federal orders.* A plant specified in paragraph (a) or (b) of this section shall be considered as a nonpool plant except that the operator of such plant shall, with respect to the total receipts and utilization or disposition of skim milk and butterfat at the plant, make reports to the market administrator at such time and in such manner as the market administrator may require (in lieu of the reports required pursuant to §§ 988.30 and 988.31) and allow verification of such reports by the market administrator:

(a) Any pool plant qualified pursuant to § 988.9 (a) which would be subject to the classification and pricing provisions of another order issued pursuant to the act unless the Secretary determines that more Class I milk is disposed of from such plant on routes to retail or wholesale outlets in the Knoxville, Tennessee marketing area than is so disposed of in the marketing area regulated pursuant to such other order.

(b) Any pool plant qualified pursuant to § 988.9 (b) which would be subject to the classification and pricing provisions of another order issued pursuant to the act unless such plant qualified as a pool plant pursuant to the provisions of § 988.9 (b) during the preceding August through February period.

§ 988.92 *Handlers operating nonpool plants.* Sections 988.42 through 988.46; 988.50 through 988.53; 988.70 through 988.73; 988.80 through 988.83; 988.87 and 988.88 shall not apply to a handler in his capacity as the operator of a nonpool plant, except that such handler shall pay to the market administrator on or before the 12th day after the end of each month for deposit into the producer-settlement fund an amount of money computed by multiplying the hundredweight of Class I milk disposed of from his nonpool plant(s) (except any nonpool plant subject to the classification and pricing provisions of another order issued pursuant to the act) during the month to retail or wholesale outlets in the marketing area (including deliveries by vendors or sales through plant stores) by the rate of payment on unpriced milk calculated pursuant to § 988.93.

§ 988.93 *Rate of payment on unpriced milk.* The rate of payment per hundredweight on unpriced Class I milk shall be calculated as follows:

(a) For the months of March through July, subtract the Class II price, adjusted by the Class II butterfat differential, from the Class I price, adjusted by the Class I butterfat differential and the Class I location differential.

(b) For the months of August through February, subtract the uniform price to producers from the Class I price.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 988.100 *Effective time.* The provisions of this part, or any amendments to this part, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated.

§ 988.101 *Suspension or termination.* The Secretary shall suspend or terminate any or all of the provisions of this part, whenever he finds that it obstructs or does not tend to effectuate the declared policy of the act. This part shall, in any event, terminate whenever the provisions of the act authorizing it cease to be in effect.

§ 988.102 *Continuing power and duty of the market administrator.* (a) If, upon the suspension or termination of any or all of the provisions of this part, there are any obligations arising hereunder, the final accrual or ascertainment of which requires further acts by any handler, by the market administrator, or by any other person, the power and duty to perform such further acts shall continue notwithstanding such suspension or termination: *Provided*, That any such acts required to be performed by the market administrator shall, if the Secretary so directs, be performed by such other person, persons, or agency as the Secretary may designate.

(b) The market administrator, or such other person as the Secretary may designate shall (1) continue in such capacity until discharged by the Secretary; (2) from time to time account for all receipts and disbursements and deliver all funds or property on hand together with the books and records of the market administrator, or such person, to such person as the Secretary shall direct; and (3) if so directed by the Secretary execute such assignments or other instruments necessary or appropriate to vest in such person full title to all funds, property, and claims vested in the market administrator or such person pursuant thereto.

§ 988.103 *Liquidation after suspension or termination.* Upon the suspension or termination of any or all provisions of this part, the market administrator or such person as the Secretary may designate shall, if so directed by the Secretary, liquidate the business of the market administrator's office, and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid or owing at the time of such suspension or termination. Any funds collected pursuant to the provisions of this part, over and above the amounts necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating and distributing such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 988.110 *Separability of provisions.* If any provision of this part, or its application to any person or circumstances, is held invalid, the application of such provision, and of the remaining provisions of this part, to other persons or circumstances shall not be affected thereby.

§ 988.111 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this part.

(Sec. 5, 49 Stat. 753, as amended, 7 U. S. C. 608c)

Issued at Washington, D. C., this 1st day of November 1954.

[SEAL] ROY W. LENNARTSON, *Deputy Administrator.*

FEDERAL TRADE COMMISSION

[16 CFR Part 79]

[File No. 21-460]

WHOLESALE PLUMBING AND HEATING INDUSTRY

NOTICE OF HEARING AND OF OPPORTUNITY TO PRESENT VIEWS, SUGGESTIONS, OR OBJECTIONS

Opportunity is hereby extended by the Federal Trade Commission to any and all persons, partnerships, corporations, organizations, and other parties, including farm, labor, and consumer groups, affected by or having an interest in the proposed trade practice rules for the Wholesale Plumbing and Heating Industry (which constitute a proposed revision and amendment of the rules for the Plumbing and Heating Industry as repromulgated by the Commission on August 17, 1932), to present to the Commission their views concerning said proposed rules, including such pertinent information, suggestions, or objections as they may desire to submit, and to be heard in the premises. For this purpose they may obtain copies of the proposed rules upon request to the Commission. Such views, information, suggestions, or objections may be submitted by letter, memorandum, brief, or other communication, to be filed with the Commission not later than November 29, 1954. Opportunity to be heard orally will be afforded at the hearing beginning at 10:00 a. m., c. s. t., November 29, 1954, in Room 17 (Club Floor) of the Palmer House, State Street at Monroe, Chicago, Illinois, to any such persons, partnerships, corporations, organizations, or other parties, who desire to appear and be heard. After due consideration of all matters presented in writing or orally, the Commission will proceed to final action on the proposed rules.

The industry is engaged in the wholesale distribution and sale of industry products to dealers and distributors for resale, or to other purchasers such as plumbing, heating, sheet metal, and piping contractors, commercial and industrial users, governmental bodies, and institutions purchasing for business uses. The "industry products" include plumbing equipment and supplies, heating equipment and supplies, and permanently installed and connected air-conditioning equipment, pipe, valves, and fittings.

These proceedings were instituted pursuant to an industry application and are directed to the elimination and prevention of such acts and practices as are deemed violative of statutes administered by the Federal Trade Commission. No. Group II rules have been included in the draft of proposed rules for this industry for the reason that the Group II rules recommended by the industry are of a type presently the subject of general study by the Commission. If, after completion of such study, it is determined that provisions of this type may be included as Group II rules for industries, an oportunity will then be afforded to the members of this industry to have such rules included.

Issued: November 2, 1954.

By direction of the Commission.

[SEAL] ROBERT M. PARRISH, *Secretary.*

Lindemann and Company, Ernest Lindemann, 21 Alstertor, Hamburg, Germany; Lindemann and Co., Holland N. V., Jurgen Roper, 41 Eendrachsweg, Rotterdam, Holland; Merchant Partners (Home & Overseas) Ltd., John J. Driscoll, 2 Castle Court, Burchin Lane, London EC3, England; N. V. Handelmaatschappij J. Smits Import-Export, J. Smits, Molstraat 1, Rotterdam, Holland; Respondents.

This proceeding was instituted on April 28, 1954, by the Director of the Investigation Staff of the Bureau of Foreign Commerce (formerly the Office of International Trade) by the transmission of one charging letter directed to all the respondents named above, and by the transmission of a second charging letter directed to Deutsche Novocillin G. m. b. H. and its above-named officials only. Both charging letters were thereafter consolidated for the purposes of a hearing held before a Compliance Commissioner of the Bureau at Washington, D. C. on August 3, 4 and 5, 1954, as appears below.

The charges against all the above-named respondents (referred to herein as Charge I) alleged, in substance, that respondents, singly and in concert, violated the Export Control Act, as amended, and the regulations issued thereunder in the effort to induce the issuance of an export license and to facilitate the exportation from the United States of 1000 kilograms of dihydrostreptomycin sulfate valued at $175,000 to respondent Merchant Partners (Home and Overseas) Ltd. in England as the purported ultimate purchaser and user of the commodity, with the intention and purpose of diverting and transshipping the licensed commodity to prohibited China. The charges also included an allegation that respondents made false and evasive statements and concealed information from United States officials abroad dur-

ing an investigation into the represented use and destination of the commodity in order to withhold material facts relating to the true nature of the transaction.

The charges issued to respondent Deutsche Novocillin and its named officials (referred to herein as Charge II) alleged, in substance, that said respondents violated the Export Control Act, as amended, and the regulations promulgated thereunder by diverting and transshipping to unauthorized consignees in unauthorized countries of destination an aggregate of approximately 400 kilograms of dihydrostreptomycin sulfate and 130,000 million units of penicillin valued at $80,000 which they had obtained from the United States in eleven (11) separate shipments made pursuant to an equal number of validated export licenses all issued in reliance upon representations made and ultimate consignee statements supplied by respondents stating that the said commodities were intended for the named consignees and countries for whom the export licenses were issued. The charges included an allegation that respondents made the aforesaid diversions and transshipments without seeking or obtaining prior approval of United States license authorities and contrary to specific destination control notices appearing on the shipping documents received by respondents in connection with each such shipment prohibiting the diversion of the commodities to any country other than the licensed country of destination.

Prior to the institution of this proceeding the Bureau issued to Deutsche Novocillin and a (then) related firm in Berlin, Germany, Funcke and Company G. m. b. H. Chemische Fabrik, on December 14, 1953, an ex-parte order suspending all validated export privileges of each firm until this proceeding shall have been completed. The basis for the issuance of said temporary order was to restrain said companies from participating in United States exports requiring validated export licenses until their participation, or lack of participation, in certain alleged violations of the export control law and regulations, including those charged in Charges I and II hereof, had been finally determined, and in the public interest.

After receiving the aforesaid charging letters each of the respondents named therein, except Merchant Partners (Home and Overseas) Ltd., its principal John J. Driscoll, and Lindemann & Company NV. Holland, transmitted to the Bureau written answers constituting, in effect, a general denial of the charges. In addition, the Deutsche Novocillin respondents requested a hearing on the charges in accordance with the regulations so made and provided.

Hearings on due notice were held, as aforesaid, on August 3, 4, and 5, 1954, before a Compliance Commissioner at Washington, D. C. At these hearings the Bureau was represented by counsel; the Deutsche Novocillin respondents appeared by Karl Heinz Bendixen and by counsel; E. Lindemann and Company, Hamburg, and Jurgen Roper, formerly the principal of Lindemann & Co. of Rotterdam but now associated with the Hamburg firm were also represented by counsel. Neither respondent N. V. Handelmaatschappij J. Smits Import-Export nor its owner, J. Smits, appeared in person or by attorney, but their answer to the charges was made a part of the record and taken under consideration. Respondents Merchant Partners (Home and Overseas) Ltd. and John J. Driscoll did not appear in the proceeding or have representation, and, in view thereof and because of their failure to answer the charges served upon them or otherwise to indicate their intention to contest said charges, they were held to be in default and their default was duly noted and entered on the record of this proceeding. The Compliance Commissioner received the evidence presented by the Bureau and by respondents and after due consideration thereof and of the entire record, filed his report in the matter.

It appears from the record and the report of the Compliance Commissioner that each of the respondent firms and individuals named in Charge I, at all times relevant to this proceeding were, and are, engaged in the import-export of pharmaceuticals, antibiotics and related commodities and respondent Deutsche Novocillin also processes and packs raw commodities into specialized products for resale.

With respect to Charge I the record and the report disclose the following:

In October 1952, Smits met with Bendixen, Lindemann and Roper to discuss the purchase by him for an unidentified customer of 1,000 to 1,500 kilograms of U. S. bulk dihydrostreptomycin sulfate (referred to as DHS) which was to be processed and packed into vials by Bendixen's firm, Deutsche Novocillin. At first Smits informed the others that the customer was in Belgium but later advised them that the customer was Merchant Partners (Home & Overseas) Ltd., of London, England. Lindemann and Roper was to finance the transaction through Holland exchange regulations and, in that capacity, were to purchase the bulk DHS in the United States in the name of Lindemann in order to secure their investment. The raw merchandise was to be delivered to Deutsche Novocillin's plant at Munich for processing, packaging and labeling and then re-exported to England for sale and distribution in that country by Merchant Partners.

In November Smits furnished to Lindemann a multiple ultimate consignee statement (IT Form 843) on which Merchant Partners, by Driscoll, represented and certified that said company was the purchaser and Great Britain the ultimate destination of the subject DHS. Roper signed the statement in behalf of his firm, Lindemann & Co., of Rotterdam, as purchaser for the account of Lindemann of Hamburg. The executed statement was transmitted by Lindemann to the New York exporter-supplier to whom Lindemann had earlier submitted his order for the bulk material.

The supplier filed an application on December 3, 1952 for a license to export 1000 kilograms of DHS to Deutsche Novocillin at Munich for the aforedescribed processing service and re-export to Merchant Partners in England as the ultimate destination. The customary investigation into the represented end-use and country of destination was thereafter undertaken by United States export control authorities. In the course of the investigation abroad all the above named participants in the transaction were interviewed by United States officials (including a firm in England mistakenly named on the license application as the ultimate consignee) and denied not only their participation in the transaction but the existence of such transaction or of dealings with each other. As a result of the evasions and concealment shown and the obvious irregularity of the transaction, the license application was rejected and none of the DHS was exported.

The matter came to a head when Driscoll finally confessed that he had signed the aforementioned ultimate-consignee form for Smits as an accommodation, allegedly without realizing the significance and nature of the document.

The Compliance Commissioner made the finding that Smits and Driscoll knowingly conspired to induce the issuance of the said United States export license by the device of the falsified ultimate-consignee statement. He based this on evidence that Smits deliberately intended to circumvent and evade the export regulations and administrative policy forbidding the exportation of DHS from the United States to certain specific areas, including China, because of its strategic importance. This, in turn, was predicated on evidence that Smits' real customer for DHS was in China contrary to his representations that Merchant Partners in England was the alleged purchaser.

The Compliance Commissioner held that Smits and Driscoll formed an alliance to effectuate and implement Smits' intention to transship the subject DHS to China. He concluded that they, individually and for their respective companies, wilfully and deliberately sought to circumvent and defeat the United States export control law and regulations and concealed material facts and made false representations and statements with the purpose of impeding and preventing an official investigation into the facts.

He made the further finding, although with hesitancy, that the other respondents herein had not participated in the Smits-Driscoll conspiracy or had knowledge of the true location of the real purchaser in China. He pointed out that the evidence of such participation was circumstantial and in large measure predicated upon evasions and concealments made under circumstances inconsistent with innocence; that their failure to cooperate with the pre-license investigation and to make available all files and records having relation to the transaction not only hampered the investigation, but placed them under reasonable suspicion of being implicated in the conspiracy.

The Compliance Commissioner stated he believed these respondents had failed in their responsibilities herein and that he was still not entirely convinced of their innocence, but in view of all the circumstances, that the charges of having participated in the conspiracy and the falsified statement had not been fully substantiated and that as to them Charge I must be dismissed.

With respect to Charge II the record and the Compliance Commissioner's report show the following: Between March 7, 1952, and March 11, 1953, the Deutsche Novocillin respondents submitted to their New York supplier-exporter eleven (11) ultimate consignee-purchaser statements covering their orders for an aggregate of 405 kilograms of DHS and 133,000 million units of penicillin valued at almost $80,000. In these statements respondents represented substantially that said commodities were being purchased for processing by them in Germany into pharmaceutical specialities which they would sell in some instances in Germany only and in other instances to specifically named consignees in other specifically named countries.

The New York exporter filed appropriate license applications, attaching the applicable statements to each application and thereafter received eleven (11) validated export licenses authorizing the exportation of the said commodities for the specific uses, consignees and destinations represented by respondents in each of the respective statements.

From October 1952 to June 1953 the commodities authorized for shipment by the export licenses aforesaid were exported by the supplier to Deutsche Novocillin under bills of lading which contained the required destination control notice: "These commodities licensed by U. S. for ultimate destination (name of applicable country of destination authorized). Diversion contrary to U. S. law prohibited." In addition, the suppliers' commercial invoices, copies of which were received by respondents, contained substantially the same destination control statements.

Thereafter, contrary to the representations on the aforesaid ultimate consignee-purchaser statements and in contravention of the authority granted in the licenses and of the aforesaid destination control notices on the bills of lading and commercial invoices, respondents reexported, transshipped and diverted 402.5 kilograms of DHS and 130500 million units of penicillin as processed by respondents to consignees in countries other than those so represented and authorized, without prior notice to and approval of U. S. license authorities.

Respondents admitted the probability of the said diversions and transshipments explaining that during the period in question they had not yet installed effective controls in their processing operations which effectively segregated U. S. antibiotics from antibiotics of other origin and that there was then no way of ascertaining the exact origin or specific quantity of European-made or U. S.-made antibiotics in the processed end-product. They also admitted to the practice of filling orders from foreign customers out of processed antibiotics in advance of the receipt of the U. S. material for which they had issued representations and ultimate consignee-purchaser statements and of using the U. S. material upon its arrival to fill other orders.

Respondents claimed that beginning in August 1953 when they realized that their practices did not conform to U. S. export control requirements they installed effective segregation control and desisted from indiscriminate shipments.

The Compliance Commissioner rejected respondents' explanations on the grounds that their admittedly loose methods and practices were inconsistent with their experiences as importers of U. S. antibiotics and their knowledge of the strict requirements relating to such materials. He refused to give credence to their claimed failure to comply with the known requirements pointing out that respondents were aware that U. S. authorities placed reliance upon their representations and ultimate consignee-purchasers in the issuance of export licenses and were also aware that the U. S. sought to prevent the diversion of licensed antibiotics from their authorized destinations and consignees.

The Compliance Commissioner made the finding that the violations charged to respondents in Charge II had been knowing and that the evidence thereof and the admissions of respondents constituted a basis for finding them to be in violation of the export law and regulations as charged.

The Compliance Commissioner concluded that respondents J. Smits and John J. Driscoll and their respective firms had engaged in a flagrant and deliberate attempt to sabotage the integrity of the U. S. export program and, by their acts as described herein, had demonstrated an attitude of disregard for and indifference to U. S. export control law and regulations which destroyed their trustworthiness with respect to future export privileges. He concluded further that the Deutsche Novocillin respondents and the other respondents involved in Charge I, though exonerated and cleared of the charges, should be censured for having failed to cooperate with U. S. officers engaging in a pre-license investigation by reason of their evasions and concealment of the facts of the transaction.

As to Charge II, the Compliance Commissioner took into consideration the gravity of the offenses, the possibility that some of the DHS may have ultimately lodged behind the Iron Curtain, the length of time the temporary suspension order has been in effect and its impact upon said respondents in their business and reputation, as well as of the effect of a prolongation of the suspension upon respondents' U. S. export operations.

His recommendations have been carefully weighed and evaluated in connection with the report and findings, the charging letters, the several answers to the charges, the evidentiary material and the entire record, from all of which it appears that such findings are in accordance with the evidence and that such recommendations are reasonable and fair and are therefore adopted in substance as appears below.

Now, therefore it is ordered as follows:

(1) The charges contained in the charging letter of April 28, 1954, referred to herein as Charge I, are dismissed as to Deutsche Novocillin G. m. b. H., its officers, Karl Heins Bendixen, Mrs. Karl Heinz Bendixen, Walter T. Indra, Edith Lermer, Achim Von Koch and Alfred Groenitz (hereinafter referred to as Deutsche Novocillin); also as to E. Lindemann and Company and Ernest Lindemann; also as to Lindemann and Company, Holland N. V. and Jurgen Roper.

(2) All outstanding validated export licenses held by or issued in the names of respondents Deutsche Novocillin, N. V. Handelmaatschappij J. Smits Import-Export and J. Smits (hereinafter referred to as Smits), Merchant Partners (Home and Overseas) Ltd. and John J. Driscoll (hereinafter referred to as Merchant Partners), and any person or firm with which they or any of them may be now or hereafter related by ownership, control, position of responsibility, or other connection in the conduct of trade involving exports from the United States, or services connected therewith, or in which said respondents or such other persons or firms appear or participate as purchaser, intermediate or ultimate consignee, or otherwise, are hereby revoked and shall be returned forthwith to the Bureau of Foreign Commerce for cancellation.

(3) Deutsche Novocillin, Merchant Partners, and Smits, their directors, officers, partners, associates, representatives, agents, employees, successors or assigns, and all perons and firms acting in their behalf or for their account in matters relating to the exportation of commodities from the United States or services connected therewith, are hereby denied all privileges of participating, directly or indirectly, in any manner, form or capacity, in an exportation of any commodity from the United States to any foreign destination, including Canada. Without limitation of the generality of the foregoing, participation in an exportation shall include and prohibit said respondents' and such other persons' or firms' participation (a) as a party or as a representative of a party to any validated export license application, (b) in the obtaining or using of any validated or general export license or other export control document, (c) in the receiving, ordering, buying, selling, using, storing, processing, disposing, or other servicing, in any foreign county, of any commodities in whole or in part exported from the United States during the period of this order or to be exported from the United States, and (d) in the financing, forwarding, transporting, processing, or other servicing of exports from the United States.

(4) Such denial of export privileges shall apply not only to respondents Deutsche Novocillin, Merchant Partners, and Smits, and such other persons and firms intended to be covered in paragraphs (2) and (3) above, but shall apply and extend also to any other person, firm, corporation, or other business organization with which said respondents, or any of them, may be now or hereafter related by ownership, control, position of responsibility, or other connection in the conduct of trade involving exports from the United States or services connected therewith.

(5) This order shall be effective from the date hereof and as to respondents

Merchant Partners and Smits shall extend for the duration of export controls; as to respondent Deutsche Novocillin it shall extend for a period of sixteen (16) months: *Provided, however,* That during the last twelve (12) months of said period the export privileges which are denied to said Deutsche Novocillin respondents by the terms of this order shall be restored without further order of the Bureau of Foreign Commerce, but no validated export licenses revoked under the order shall thereby be restored. In the event, however, that any of the Deutsche Novocillin respondents, or the persons or firms covered in paragraphs (2), (3) and (4) above shall knowingly violate the terms and provisions of this order or any of the laws or regulations related to export control during the entire period of the order, the Bureau of Foreign Commerce may summarily and without notice to the person or company responsible for such violation, at such time as it shall determine that such violation has occurred, issue a supplemental order which shall deny to such person or company all export privileges for the said period which has been held in abeyance with respect to him or it, and shall revoke and cancel all validated licenses then outstanding and as to which said person or company may be a party or have an interest therein, without thereby limiting the Bureau of Foreign Commerce from taking such other and further action based on such violation as it shall deem warranted.

(6) No person, firm, corporation, or other business organization, whether in the United States or elsewhere, and whether or not engaged in trade relating to exports from the United States, shall without prior disclosure of the facts to, and specific authorization from, the Bureau of Foreign Commerce, directly or indirectly, in any manner, form or capacity, (a) apply for, obtain, transfer, or use any license, shipper's export declaration, bill of lading, or other export control document relating to an exportation of commodities from the United States, or (b) order, receive, buy, use, process, dispose of, finance, transport, forward, store, or otherwise service or participate in an exportation from the United States, or in a re-exportation of any commodity exported from the United States, with respect to which any of the respondents named in paragraph (3) above, or the persons and firms covered by paragraphs (2), (3) and (4) above have any interest or participation of any kind or nature, direct or indirect.

(7) Respondents Deutsche Novocillin, E. Lindemann and Company and Ernest Lindemann, and Lindemann and Co. Holland, N. V. and Jurgen Roper hereby are censured for their conduct in hampering and impeding the official investigation into the true nature of the DHS transaction described in Charge I hereof and for their failure to give full cooperation to United States officials duly authorized to conduct such investigation.

(8) This order supersedes and replaces the temporary suspension order of December 14, 1953, imposed upon Deutsche Novocillin and Helmut Funcke and Funcke and Co. G. m. b. H. Chemische Fabrik, and the said temporary suspension order is hereby vacated.

Dated: October 28, 1954.

JOHN C. BORTON,
Director,
Office of Export Supply.

OREGON

RESTORATION ORDER UNDER FEDERAL POWER ACT: VACATED

OCTOBER 29, 1954.

Pursuant to the authority delegated to me by the Director, Bureau of Land Management, by Order No. 541, section 2.5, dated April 21, 1954 (19 F. R. 2473), Restoration Order (Dockets DA-385, DA-429, Oregon) under Federal Power Act, dated September 23, 1954 (19 F. R. 6483), is hereby vacated.

G. H. SHARRER,
State Supervisor.

[F. R. Doc. 54-8719; Filed, Nov. 4, 1954; 8:46 a. m.]

OREGON

RESTORATION ORDER UNDER FEDERAL POWER ACT

OCTOBER 29, 1954.

Pursuant to the determination of the Federal Power Commission, DA-385 and DA-429, Oregon, and in accordance with authority delegated to me by the Director, Bureau of Land Management, by section 2.5 of Order No. 541, dated April 21, 1954 (19 F. R. 2473, 2476), it is ordered as follows:

Subject to valid existing rights and the provisions of existing withdrawals, the lands hereinafter described, so far as they are withdrawn and reserved for power purposes, are hereby restored to disposition under the exchange provisions of the act of July 31, 1939 (53 Stat. 1144), subject to the provisions of section 24 of the Federal Power Act of June 10, 1920 (41 Stat. 1075; 16 U. S. C. 818) as amended:

WILLAMETTE MERIDIAN

T. 27 S., R. 12 W.,
Sec. 35: E½NE¼, SW¼NE¼, N½SE¼, W½W½, SE¼NW¼.
T. 37 S., R. 6 W.,
Sec. 13: NW¼NE¼.

The areas described contain an aggregate of 440 acres. The described lands in Section 35 are reconveyed Coos Bay Wagon Road Grant lands and those in Section 13 are revested Oregon and California Railroad Grant lands.

The State of Oregon has formally waived its right to select any of the described lands for right-of-way for public highways or as a source of materials for construction and maintenance of such highways.

This restoration is made in furtherance of exchanges under the act of July 31, 1939 (53 Stat. 1144) by which offered lands will benefit a Federal land program. This restoration is, therefore, not subject to the provisions contained in the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279-284) as amended, granting preference rights to veterans of World War II and others. This order shall therefore become effective on publication in the FEDERAL REGISTER at which time the lands described will become subject to application for exchange purposes.

Inquiries regarding these lands should be addressed to the Manager, Land Office, Bureau of Land Management, P. O. Box 3861, Portland 8, Oregon.

G. H. SHARRER,
State Supervisor.

Office of the Secretary

FEDERALLY OWNED ACQUIRED LANDS

OIL AND GAS LEASING

(a) Notice is hereby given that on October 28, 1951 by a supplemental decision in the case of S. J. Hooper (A-26976 supp.), the Secretary of the Interior allowed an opportunity to file a statement of the applicants' interests, direct and indirect, in leases and applications for oil and gas deposits in such lands in the same State as required by 43 CFR 200.5 in connection with all applications for oil and gas leases on Federally owned acquired lands filed prior to August 31, 1954. Such filings must be made with the Director, Bureau of Land Management, Washington 25, D. C., before the close of business on December 1, 1954.

(b) The filing of the required information within the time allowed will give the applications for leases priority as of the time they would have otherwise had priority.

(c) It should be noted that in the case of McKay v. Wahlenmaier (No. 12,273) now before the United States Court of Appeals for the District of Columbia, the effect of the time of filing a statement of the type described in paragraph (a) on the validity of an outstanding lease may be decided.

ORME LEWIS,
Assistant Secretary of the Interior.

FEDERAL MEDIATION AND CONCILIATION SERVICE

STATEMENT OF ORGANIZATION AND DELEGATIONS OF FINAL AUTHORITY

Statement of organization and delegations of final authority are revised to read as set forth below.

SECTION 1. *Creation and function.* The Federal Mediation and Conciliation Service was created by act of Congress on June 23, 1947 (Title II of the Labor-Management Relations Act, 1947; Public Law 101, 80th Cong., Ch. 120, 1st Sess.). The Service is an independent agency of the Executive branch of the Government, which functions so as to advance a policy of the United States. That policy is to secure sound and stable industrial peace and the advancement of the general welfare, health and safety of the Nation and of the best interests of employers and employees. The Service makes available full and adequate governmental facilities for conciliation, mediation and voluntary arbitration. Its duty is to assist parties to labor disputes in industries affecting commerce to settle such disputes through conciliation and mediation. It also encourages voluntary arbitration as a peaceful, speedy, equitable and confidential method for the settlement of labor disputes including grievances arising over the application or interpretation of an existing collective bargaining agreement, and it aids the parties in the selection of an arbitrator. Fact finding is another method utilized by the Service in appropriate situations. The importance of improving labor-management relations in order to minimize disputes is emphasized, and when requested the Service assists in advancing industrial peace and mutual understanding.

SEC. 2. *Offices.* (a) The central offices of the Service are located at Constitution Avenue and 14th Street, NW., Washington 25, D. C. The telephone number of these offices is Executive 3-7350.

(b) The Service has a Washington, D. C. Metropolitan Area office supervised by Clyde M. Mills, Assistant Director, Department of Labor Building, 14th and Constitution Avenue NW., Washington 25, D. C., which includes the District of Columbia, Montgomery and Prince Georges Counties in Maryland and the Cities of Alexandria and Falls Church and Counties of Arlington and Fairfax in Virginia.

(c) The Service has eight regional offices which are maintained and operated under the supervision and direction of regional directors. The names of such regional directors and the locations of the regional offices are as follows:

Region 1: Frank H. Brown, Director; 1016 Parcel Post Building, 341 Ninth Avenue, New York 1, N. Y. Telephone Bryant 9-3930.

Region 2: Robert W. Donnahoo, Director; Jefferson Building, 1015 Chestnut Street, Philadelphia 7, Pa. Telephone Walnut 3-0535.

Region 3: William S. Pierce, Director; 645 Peachtree at Seventh Street Building, Atlanta 5, Ga. Telephone Elgin 3311.

Region 4: Hayward J. Montoney, Director; 258 Old Federal Building, Cleveland 14, Ohio. Telephone Cherry 1-7900.

Region 5: Robert H. Moore, Director; 1515 Consumers Building, 220 South State Street, Chicago 4, Ill. Telephone Wabash 2-9700.

Region 6: William F. White, Director; 404 Old Custom House Building, St. Louis 1, Mo. Telephone Main 1-8100.

Region 7: Harry H. Lewis, Director; 316 Republic Building, Third and Pike Streets, Seattle 1, Wash. Telephone Seneca 8161.

Region 8: V. Wayne Kenaston, Director; 138 Federal Office Building, San Francisco, Calif. Telephone Klondike 2-2350.

Region 1 includes Maine, New Hampshire, Vermont, Connecticut, Rhode Island, Massachusetts, New York and northern New Jersey (including Bergen, Essex, Hudson, Hunterdon, Mercer, Middlesex, Monmouth, Morris, Passaic, Somerset, Sussex, Union, and Warren Counties); Region 2 covers Pennsylvania, Delaware, Maryland (except Montgomery and Prince Georges Counties), West Virginia and southern New Jersey (including Atlantic, Burlington, Camden, Cape May, Cumberland, Gloucester, Ocean and Salem Counties); Region 3 covers Virginia (except Arlington and Fairfax Counties and Cities of Alexandria and Falls Church), North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi, Louisiana, Tennessee and Puerto Rico; Region 4 includes Ohio, Kentucky and the Lower Peninsula of Michigan; Region 5 includes Illinois (except St. Clair, Madison and Monroe Counties), Indiana, Wisconsin, Minnesota, North Dakota, South Dakota, Upper Peninsula of Michigan; Region 6 includes Iowa, Missouri, St. Clair, Madison, and Monroe Counties in Illinois, Arkansas, Nebraska, Kansas, Oklahoma and Texas (except El Paso and Hudspeth Counties); Region 7 includes Washington, Oregon, Idaho, Montana, Wyoming and Alaska; Region 8 includes California, Nevada, Utah, Colorado, Arizona, New Mexico, Hawaii, and El Paso and Hudspeth Counties in Texas.

(d) The Service has a number of field and area offices established to facilitate the work of its commissioners. Each area office is under the direct supervision of a commissioner-in-charge who in turn is responsible to the regional director in the region in which it is located. The regional director also has supervision over the field offices in his region. Assignments of commissioners to labor disputes are made in the appropriate regional office and not in the area or field offices. The locations of the area offices and the number of the region in which they are located are as follows:

Boston, Mass. (1), 921 Post Office and Courthouse. Telephone Liberty 2-5600.

Pittsburgh, Pa. (2), 806 Victory Building. Telephone Express 1-2560.

Detroit, Mich. (4), 1023 Federal Building. Telephone Woodward 3-9330. E. Marvin Sconyers, commissioner-in-charge.

Dallas, Tex. (6), 1114 Commerce Street. Telephone Sterling 5611. Theodore F. Morrow, commissioner-in-charge.

Los Angeles, Calif. (8), 1031 South Broadway. Telephone Prospect 4711. Harry C. Malcom, commissioner-in-charge.

The locations of the field offices and the number of the region in which they are located are as follows:

Buffalo, N. Y. (1), 312 U. S. Courthouse Building. Telephone Washington 5546.

SEC. 3. *Organization*—(a) *Divisions of the Service.* The Service is under the direction of a Director, who is appointed by the President by and with the advice and consent of the Senate. The Director is assisted in the performance of his duties by an Associate Director, an Assistant Director, a General Counsel and a Director of Administrative Management. The operating functions are performed in the eight regional offices. The National Labor-Management Panel, established by section 205 (a) of the Labor-Management Relations Act, 1947, to advise the Director, particularly with reference to controversies affecting the general welfare, is a part of the Service and is convened at the request of the Director. The Atomic Energy Labor-Management Relations Panel, designated by the President, was established within the Service for purposes of administrative consistency. The Panel handles disputes which threaten to interfere with an essential part of the atomic energy program, upon referral by the Director after collective bargaining and mediation have been fully utilized.

SEC. 4. *Responsibilities of principal officers and delegations of authority*—(a) *Office of Director.* The Director is responsible for the functioning of the Service and for its administration, and for relations with the Executive Offices of the White House, other Executive agencies, the Congress and Committees of Congress. In the event of the absence from duty or the incapacity of the Director, the functions of his office and the authority conferred upon him by the act shall devolve upon the Associate Director, and in his absence or incapacity upon the Assistant Director, and in his absence or incapacity upon the General Counsel, which officer shall perform such functions and exercise such authority as "Acting Director".

(b) *Office of Associate Director.* The Associate Director assists the Director in formulating policy and has particular responsibility for the administration and coordination of all program activities in the field.

(c) *Office of Assistant Director.* The Assistant Director assists the Director in formulating policy and has particular responsibility for coordination of mediation activities, placement of mediator personnel and the mediation and conciliation of all national emergency cases, as well as all other cases of national significance.

(d) *Office of General Counsel.* The General Counsel is consultant and legal advisor to the Director and all other officers of the Service on matters involving its policies and program, and, particularly, on the relation to the duties of the Service of Federal and State statutes and regulations governing industrial relations. He is charged with responsibility for all phases of the legislative duties of the Service and acts as liaison with the legislative committees on program activities, the Bureau of the Budget on legislative reports and other executive and legislative agencies. He assists in the conciliation of disputes of national significance. He is in charge of the arbitration functions of the Service. Whenever requested by parties to labor disputes, he assists in the selection of arbitrators by submitting panels of names of qualified arbitrators, or by designating an arbitrator.

(e) *Office of Administrative Management.* The Director of Administrative Management serves as budget officer and is responsible for personnel administration. In accordance with established policies under delegation of authority by the Director, authorizes and approves travel and vouchers therefor and transfers of clerical and administrative employees from one station to another; requisitions appropriated funds; certifies claims and pay rolls; negotiates contracts and leases; directs the purchase of articles and services and takes such other action as may be necessary in the administrative management of the Service. He is in charge of and responsible for the operating statistics of the Service.

(f) *Regional Directors.* The Regional Directors are responsible for the effectuation of the policies of the Service in their respective regions through assignments of commissioners to labor disputes and phases of the preventive program of the Service, and general supervision of the operations and activities of the regional offices.

Signed at Washington, D. C., this 1st day of November 1954.

WHITLEY P. MCCOY,
Director.

FEDERAL POWER COMMISSION

[Docket Nos. G-1445, G-1680]

MIDSOUTH GAS CO.

NOTICE OF PETITION TO AMEND

OCTOBER 29, 1954.

Take notice that the MidSouth Gas Company, an Arkansas corporation with its principal place of business in Little Rock, Arkansas, filed on October 18, 1954, a petition to amend its certificate of public convenience and necessity issued to it in Docket No. G-1445 by Order issued September 18, 1952, as amended March 23, 1953, October 20, 1953, January 7, 1954, and June 24, 1954, in such a manner as to rescind the Company's authorization to supply natural gas for service to consumers in the Town of Hughes, Arkansas.

MidSouth requests that its petition to amend be heard under the shortened procedure pursuant to § 1.32 (b) of the Commission's rules of practice and procedure.

The petition is on file with the Commission for public inspection. Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 17th day of November 1954.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 54-8738; Filed, Nov. 4, 1954; 8:50 a. m.]

[Docket No. G-2848]

LINCOLN GAS AND COAL CO.

NOTICE OF APPLICATION AND ORDER FIXING DATE OF HEARING

Take notice that Lincoln Gas and Coal Company (Applicant), a West Virginia corporation with its principal office in Clarksburg, West Virginia, filed on September 20, 1954, application for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing Applicant to make sales of natural gas as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in its application filed herein.

Applicant produces natural gas in Gilmer County, West Virginia, which it sells to Equitable Gas Company for resale in interstate commerce.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 22d day of November 1954. The application is on file with the Commission for public inspection.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure.

The Commission finds: It is proper and consistent with the public interest that notice of the application and order fixing date of hearing be published simultaneously.

The Commission orders: Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on November 29, 1954, at 9:30 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure.

Adopted: October 27, 1954.

Issued: October 29, 1954.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 54-8736; Filed, Nov. 4, 1954; 8:50 a. m.]

[Docket No. 2853]

J. E. BEYMER ET AL.

NOTICE OF APPLICATION AND ORDER FIXING DATE OF HEARING

In the matter of J. E. Beymer, Clyde Beymer, E. W. Campbell, John A. Walters, O. W. Kershaw; Docket No. G-2853.

Take notice that J. E. Beymer, Clyde Beymer and E. W. Campbell whose address is Larkin, Kansas; John A. Walters and O. W. Kershaw, whose address is Box 949, Manhattan, Kansas (Applicants), filed on September 20, 1954, application for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing Applicant to make sales of natural gas as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in its application filed herein.

Applicants produce natural gas in the Hugoton Field, Kearny County, Kansas, which it sells to Northern Natural Gas Company for resale in interstate commerce.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 18th day of November 1954. The application is on file with the Commission for public inspection.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations. Failure of any party to appear at and participate in the hearing shall be construed as a waiver of and concurrence in omission herein of the intermediate decision procedure.

The Commission finds: It is proper and consistent with the public interest that notice of the application and order fixing date of hearing be published simultaneously.

The Commission orders: Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on November 24, 1954, at 9:30 a. m., e. s. t., in a Hearing Room of the Federal Power Comission, 441 G Street NW., Washington, D. C., concerning the matters involved and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure.

Adopted: October 27, 1954.

Issued: October 29, 1954.

By the Commission.

[Docket Nos. G-2872—G-2876]

C. H. KILLINGSWORTH GAS CO. ET AL.

NOTICE OF APPLICATIONS AND ORDER CONSOLIDATING AND FIXING DATE OF HEARING

In the matters of C. H. Killingsworth Gas Company, Geo. W. Miller, et al., Docket No. G-2872; Mary Skinner Gas Company, Geo. W. Miller, et al., Docket No. G-2873; C. O. Killingsworth Gas Company, Geo. W. Miller, et al., Docket No. G-2874; Eugena Crites Gas Company, Geo. W. Miller, et al., Docket No. G-2875; Eva Sumpter Gas Company, Geo. W. Miller, et al., Docket No. G-2876.

Take notice that Geo. W. Miller, Agent, whose address is Box 2, Glenville, West Virginia, filed separate applications on September 20, 1954, in the above-entitled matters, each for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing sales of natural gas in interstate commerce for resale, as hereinafter specified:

Docket No.	Applicant	Location of field	Purchaser
G-2872	C. H. Killingsworth Gas Co., Geo. W. Miller, et al.	Baldwin, Glenville District, W. Va.	Equitable Gas Co.
G-2873	Mary Skinner Gas Co., Geo. W. Miller, et al.	Baldwin, Stewarts Creek, W. Va.	Southern, Pennsylvania Natural Gas Co.
G-2874	C. O. Killingsworth Gas Co., Geo. W. Miller, et al.	Little Kanawha, Gilmer County, W. Va.	Equitable Gas Co.
G-2875	Eugena Crites Gas Co., Geo. W. Miller, et al.	Baldwin, Glenville District, W. Va.	Do.
G-2876	Eva Sumpter Gas Co., Geo. W. Miller, et al.	Sinking Creek, Gilmer County, W. Va.	Do.

The applications state that the respective Applicants are West Virginia organizations, each with its principal place of business at Glenville, West Virginia.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 24th day of November 1954. The application is on file with the Commission for public inspection.

These matters should be disposed of as promptly as possible under the applicable rules and regulations. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure.

The Commission finds: It is appropriate and in the public interest to (a) consolidate the above-entitled proceedings for the purpose of hearing and (b) publish notice of applications and order consolidating and fixing date of hearing simultaneously.

The Commission orders: Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, Docket Nos. G-2872, G-2873, G-2874, G-2875 and G-2876 be and the same are hereby consolidated for the purpose of hearing and that a hearing be held on December 2, 1954, at 9:40 a. m. e. s. t. in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure.

Adopted: October 27, 1954.

Issued: October 29, 1954.

By the Commission.

Applicants have requested that their applications be heard under the shortened procedure provided by § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure. The applications are on file with the Commission for public inspection.

The Commission finds:

(1) It is appropriate in the public interest in carrying out the provisions of the Natural Gas Act, and good cause exists, that due notice of the applications herein, including publication in the FEDERAL REGISTER, be given as hereinafter ordered.

(2) It is reasonable and appropriate in the public interest in carrying out the provisions of the Natural Gas Act, and good cause exists, to consolidate the proceedings in the above designated Dockets for purpose of hearing, and to hold a public hearing in the above-entitled proceedings as hereinafter ordered.

(3) This proceeding is a proper one for disposition under the provisions of § 1.32 (b) of the Commission's rules of practice and procedure (18 CFR 1.32 (b)). Applicants having requested that their application be heard under the shortened procedure provided for by the aforesaid rule for noncontested proceedings: *Provided, however*, That no request to be heard, protest or petition is filed raising an issue of substance.

The Commission orders:

(A) Due notice of these applications be given, including publication in the FEDERAL REGISTER, of this notice of applications and order.

(B) The aforesaid proceedings in the above designated Dockets and the same hereby are consolidated for purposes of hearing.

(C) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on November 26, 1954 at 9:40 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by the applications: *Provided, however*, That the Commission may, after a noncontested hearing, forthwith dispose of the proceedings pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(D) Protests or petitions to intervene may be filed with the Commission in accordance with its rules of practice and procedure, §§ 1.8 and 1.10 (18 CFR 1.8 and 1.10), on or before November 19, 1954.

(E) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

Adopted: October 27, 1954.

Issued: October 29, 1954.

[Docket No. G-4330]

J. C. TRAHAN ET AL.

ORDER SUSPENDING PROPOSED CHANGES IN RATES

J. C. Trahan, et al.,[1] on October 4, 1954, tendered for filing a proposed change in presently effective rate schedule for sales subject to the jurisdiction of the Commission. The proposed change, which constitutes increased rates and charges, is contained in the following designated filing which is proposed to become effective on the date shown:

Description	Purchaser	Rate schedule designation	Effective date [2]
Notice of change, undated	Tennessee Gas Transmission Co.	Supplement No. 1, to FPC gas rate schedule No. 1.	Nov. 4, 1954

[2] The stated effective date is the first day after expiration of the required 30 days' notice, or the effective date proposed by respondent if later.

The increased rates and charges proposed in the aforesaid filing have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of said proposed change, and that the above-designated supplement be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act, a public hearing be held upon a date to be fixed by further order concerning the lawfulness of said proposed change in rates and charges; and, pending such hearing and decision thereon, the above-designated supplement be and it is hereby suspended and the use thereof deferred for a period of five months beyond the above-stated effective date and for such further time until it is made effective in the manner prescribed by the Natural Gas Act, subject to further order of the Commission.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Adopted: October 27, 1954.

Issued: October 29, 1954.

By the Commission.[3]

[Docket No. G-3014]

BARNWELL & KINZLER, GREENWOOD OPERATION

NOTICE OF APPLICATION AND ORDER FIXING DATE OF HEARING

Take notice that Barnwell & Kinzler, Greenwood Operation (Applicant), a limited partnership corporation with its principal office in Shreveport, Louisiana, filed on September 23, 1954, application for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing Applicant to make sales of natural gas as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in its application filed herein.

Applicant produces natural gas in Greenwood Waskom Field, Caddo Parish, Louisiana, which it sells to United Gas Pipe Line Company for resale in interstate commerce.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 19th day of November, 1954. The Application is on file with the Commission for public inspection.

Applicant requests that the application be heard under the shortened procedure provided by § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure.

The Commission finds:

(1) It is proper and consistent with the public interest that notice of the application and order fixing date of hearing be published simultaneously.

(2) This proceeding is a proper one for disposition under the provisions of § 1.32 (b) of the Commission's rules of practice and procedure (18 CFR 1.32

(b)), applicants having requested that their application be heard under the shortened procedure provided for by the aforesaid rule for noncontested proceedings: *Provided, however,* That no request to be heard, protest or petition is filed raising an issue of substance.

The Commission orders: Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on November 26, 1954, at 9:30 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, forthwith dispose of the proceedings pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

Adopted: October 27, 1954.

Issued: November 1, 1954.

By the Commission.

[SEAL] LEON M. FUQUAY, *Secretary.*

[Docket No. G-3024]

M. B. CHASTAIN ET AL.

NOTICE OF APPLICATION AND ORDER FIXING DATE OF HEARING

In the matter of M. B. Chastain, Austin E. Stewart, J. R. Butler; Docket No. G-3024.

Take notice that M. B. Chastain, Austin E. Stewart and J. R. Butler (Applicants), individuals with their principal office in Shreveport, Louisiana, filed on September 23, 1954, application for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing Applicant to make sales of natural gas as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in their application filed herein.

Applicant produces natural gas in Spider Field, De Soto Parish, Louisiana, which they sell to Southern Natural Gas Company for resale in interstate commerce.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 17th day of November 1954. The application is on file with the Commission for public inspection.

Applicants request that the application be heard under the shortened procedure provided by § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure.

The Commission finds:

(1) It is proper and consistent with the public interest that notice of the application and order fixing date of hearing be published simultaneously.

(2) This proceeding is a proper one for disposition under the provisions of § 1.32 (b) of the Commission's rules of practice and procedure (18 CFR 1.32 (b)), Applicants having requested that their application be heard under the shortened procedure provided for by the aforesaid rule for noncontested proceedings: *Provided, however,* That no request to be heard, protest or petition is filed raising an issue of substance.

The Commission orders: Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on November 22, 1954, at 9:40 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, forthwith dispose of the proceedings pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

Adopted: October 27, 1954.

Issued: October 29, 1954.

By the Commission.

[Docket No. G-4331]

UNION OIL CO. OF CALIFORNIA

ORDER SUSPENDING PROPOSED CHANGES IN RATES

Union Oil Company of California, on September 30, 1954, tendered for filing proposed changes in presently effective rate schedules for sales subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates and charges, are contained in the following designated filings which are proposed to become effective on the dates shown:

Description	Purchaser	Rate schedule designation	Effective date [1]
Contract, dated Nov. 17, 1953.	Transcontinental Gas Pipe Line Co.	FPC gas rate schedule No. 2	Nov. 1, 1954
Letter, dated Nov. 4, 1953	do	Supplement No. 1, to FPC gas rate schedule No. 2.	Do.
Letter, dated Nov. 17, 1953	do	Supplement No. 2, to FPC gas rate schedule No. 2.	Do.
Supplemental agreement dated July 8, 1954.	do	Supplement No. 3, to FPC gas rate schedule No. 2.	Do.
Contract, dated Nov. 17, 1953.	do	FPC gas rate schedule No. 3	Do.
Letter, dated Nov. 17, 1953	do	Supplement No. 1, to FPC gas rate schedule No. 3.	Do.
Contract, dated Nov. 17, 1953.	do	FPC gas rate schedule No. 4	Do.
Letter, dated Nov. 17, 1953	do	Supplement No. 1, to FPC gas rate schedule No. 4.	Do.

[1] The stated effective date is the first day after expiration of the required 30 days' notice, or the effective date proposed by respondent if later.

The increased rates and charges proposed in the aforesaid filings have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes, and that the above-designated supplements be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act, a public hearing be held upon a date to be fixed by further order concerning the lawfulness of said proposed changes in rates and charges; and, pending such hearing and decision thereon, the above-designated rate schedules and supplements be and they are each hereby suspended and the use thereof deferred for a period of five months beyond the above-stated effective date and for such further time until they are made effective in the manner prescribed by the Natural Gas Act, subject to further order of the Commission.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Adopted: October 27, 1954.

Issued: October 29, 1954.

By the Commission.

[Docket No. G-4332]

UNION OIL COMPANY OF CALIFORNIA ET AL.

ORDER SUSPENDING PROPOSED CHANGES IN RATES

Union Oil Company of California, et al.,[1] on September 30, 1954, tendered for filing proposed changes in presently effective rate schedules for sales subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates and charges, are contained in the following designated filings which are proposed to become effective on the dates shown:

[1] Other party: Louisiana Land and Exploration Company.

Description	Purchaser	Rate schedule designation	Effective date [1]
Contract, dated Nov. 17, 1953	Transcontinental Gas Pipe Line Co.	FPC gas rate schedule No. 5	Nov. 1, 1954
Letter, dated Nov. 17, 1953	do	Supplement No. 1 to FPC gas rate Schedule No. 5.	Do.
Letter, dated Nov. 17, 1953	do	Supplement No. 2 to FPC gas rate schedule No. 5.	Do.
Contract, dated Nov. 17, 1953.	do	FPC gas rate schedule No. 6	Do.
Letter, dated Nov. 17, 1953	do	Supplement No. 1 to FPC gas rate schedule No. 6.	Do.
Do	do	Supplement No. 2, to FPC gas rate schedule No. 6.	Do.

[1] The stated effective date is the first day after expiration of the required 30 days' notice, or the effective date proposed by respondent if later.

The increased rates and charges proposed in the aforesaid filings have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes, and that the above-designated supplements be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act, a public hearing be held upon a date to be fixed by further order concerning the lawfulness of said proposed changes in rates and charges; and, pending such hearing and decision thereon, the above-designated supplement be and it is hereby suspended and the use thereof deferred for a period of five months beyond the above-stated effective date and for such further time until it is made effective in the manner prescribed by the Natural Gas Act, subject to further order of the Commission.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Adopted: October 28, 1954.

Issued: October 29, 1954.

TRUMAN E. GORE

NOTICE OF APPLICATION AND ORDER FIXING DATE OF HEARING

Take notice that Truman E. Gore (Applicant), an individual whose address is Box 506, Clarksburg, West Virginia, filed on September 23, 1954, application for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing Applicant to make sales of natural gas as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in its application filed herein.

Applicant produces natural gas in Union District, Ritchie County, West Virginia, which it sells to Equitable Gas Company for resale in interstate commerce.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 18th day of November 1954. The application is on file with the Commission for public inspection.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure.

The Commission finds: It is proper and consistent with the public interest that notice of the application and order fixing date of hearing be published simultaneously.

The Commission orders: Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on November 24, 1954, at 9:40 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure.

Adopted: October 27, 1954.

Issued: October 29, 1954.

E. J. HUDSON ET AL.

ORDER SUSPENDING PROPOSED CHANGES IN RATES

E. J. Hudson, et al.,[1] on September 29, 1954, tendered for filing proposed changes in presently effective rate schedules for sales subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates and charges, are contained in the following designated filing which is proposed to become effective on the date shown:

Description	Purchaser	Rate schedule designation	Effective date[1]
Letter, dated Sept. 24, 1954...	Transcontinental Gas Pipe Line Corp.	Supplement No. 7 to FPC gas rate schedule No. 3.	Nov. 1, 1954

[1] The stated effective date is the first day after expiration of the required 30 days' notice, or the effective date proposed by respondent if later.

The increased rates and charges proposed in the aforesaid filing have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes, and that the above-designated supplement be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act, a public hearing be held upon a date to be fixed by further order concerning the lawfulness of said proposed changes in rates and charges; and, pending such hearing and decision thereon, the above-designated supplement be and it is hereby suspended and the use thereof deferred for a period of five months beyond the above-stated effective date and for such further time until it is made effective in the manner prescribed by the Natural Gas Act, subject to further order of the Commission.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Adopted: October 28, 1954.

Issued: October 29, 1954.

By the Commission.

SECURITIES AND EXCHANGE COMMISSION

[File No. 7-1655]

NATIONAL GYPSUM CO.

NOTICE OF APPLICATION FOR UNLISTED TRADING PRIVILEGES, AND OF OPPORTUNITY FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 1st day of November A. D. 1954.

In the matter of application by the Boston Stock Exchange for unlisted trading privileges in National Gypsum Company Common Stock, $1 Par Value.

The Boston Stock Exchange, pursuant to section 12 (f) (2) of the Securities Exchange Act of 1934 and Rule X-12F-1 thereunder, has made application for unlisted trading privileges in the Common Stock, $1 Par Value, of National Gypsum Company, a security listed and registered on the New York Stock Exchange. Rule X-12F-1 provides that the applicant shall furnish a copy of the application to the issuer and to every exchange on which the security is listed or already admitted to unlisted trading privileges. The application is available for public inspection at the Commission's principal office in Washington, D. C.

Notice is hereby given that, upon request of any interested person received prior to November 18, 1954, the Commission will set this matter down for hearing. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application, and other information contained in the official file of the Commission pertaining to this matter.

By the Commission.

[File No. 70-3310]

W. R. STEPHENS

NOTICE OF FILING OF APPLICATION REGARDING PROPOSED ACQUISITION OF SECURITIES OF A PUBLIC-UTILITY COMPANY AND ORDER OF CONSOLIDATION AND FOR HEARING

NOVEMBER 3, 1954.

Notice is hereby given that W. R. Stephens ("Stephens"), an individual, has filed with this Commission an application pursuant to section 9 (a) (2) of the Public Utility Holding Company Act of 1935 ("act") regarding the proposed indirect acquisition by him of certain shares of the common stock of Arkansas Louisiana Gas Company ("Arkla"), a public-utility company.

All interested persons are referred to the application on file in the office of the Commission for a statement of the transactions therein proposed, which, together with related transactions, are summarized as follows:

Cities Service Company ("Cities"), a registered holding company, and its public-utility company subsidiary, Arkansas Louisiana Gas Company ("Arkla"), and its service company subsidiary, Gas Advisers, Inc., have filed a joint application-declaration (File No. 70-3305) in respect of, among other things, a proposal by Cities, pursuant to a contract dated October 15, 1954, to sell to W. R. Stephens Investment Company, Inc. ("Investment Company") all of Cities holdings of Arkla common stock, consisting of 1,958,189 shares of a $5 par value, at a price of $12.50 per share, or an aggregate of $24,477,362.50, plus $2,682.45 for each day from October 1, 1954 to the closing date.

Investment Company, a securities dealer as defined in section 3 (a) (5) of the Securities Exchange Act of 1934, in addition to purchasing the holdings of Cities in Arkla, proposes to make an offer to all other common stockholders of Arkla to purchase at $12.50 per share, all shares of Arkla common stock tendered pursuant to such offer within fifteen days after the order of the Commission authorizing the sale of Arkla common stock by Cities.

Upon consummation of the proposed acquisition of Arkla common stock from Cities, Investment Company proposes to use its best efforts to cause the divestment by Arkla, to a company to be organized, of Arkla's production, gathering, and extraction facilities, which at December 31, 1953 aggregated, before deduction of depletion and depreciation reserves, an estimated $30,801,000 out of a total plant account of $104,937,000, the distribution of the capital stock of such new company to the stockholders of Arkla, and to sell to Mississippi River Fuel Corporation, a non-affiliated gas pipeline company, all of the shares of the new company received by Investment Company as a stockholder of Arkla. Upon consummation of these transactions, Investment Company will divest itself of all shares of Arkla then held, and cease to be a holding company.

Stephens is the president, a director, and controlling stockholder of Investment Company, and also chairman of the board and owner of all of the outstanding common stock (50 percent of voting securities) of Fort Smith Gas Company, a gas public-utility company as defined in section 2 (a) (4) and (5) of the act; and

Investment Company, recognizing that, upon the acquisition of the Arkla common stock, it will become a holding company as defined in section 2 (a) (7) of the act, has filed an application pursuant to section 3 (a) (4) of the act (File No. 31-619) for exemption, as a holding company, from the provisions of the act.

The Commission having, on October 25, 1954, issued a Notice of Filing in respect of the application-declaration of Cities and Arkla and of the application of Investment Company, an order consolidating the proceedings in respect of said application-declaration of Cities and Arkla and the application of Investment Company, and an order directing that a hearing be held on November 12, 1954 at 10:00 a. m. at the offices of the Commission, 425 Second Street, NW., Washington, D. C. in respect of such consolidated proceedings (Holding Company Act Release No. 12688); and

It appearing to the Commission that it is appropriate in the public interest and the interest of investors and consumers that a hearing be held in respect of said application of Stephens, that the proceeding in respect of such application and the foregoing proceedings in Files Nos. 70-3305 and 31-619 in respect of the application-declaration of Cities and Arkla and the application of Investment Company involve common issues of law and fact and consolidation of said proceedings would expedite disposition of the issues therein, and that it is otherwise appropriate to consolidate such proceedings for the purpose of hearing and disposition.

It is ordered, That the proceedings on the application of Stephens (File No. 70-3310) be, and it hereby is, consolidated for the purpose of receiving evidence with the proceeding on the application-declaration of Cities and Arkla (File No. 70-3305) and the proceeding on the application of Investment Company (File No. 31-619), subject to the right of the Commission, upon its own motion or upon application of an interested party, to sever such proceedings or any of them, in whole or in part, either for hearing or disposition, as may be deemed appropriate; and that the hearing in the consolidated proceedings be held on November 12, 1954 at 10:00 a. m., at the offices of the Commission, 425 Second Street, NW., Washington, D. C., before the hearing officer heretofore designated;

It is further ordered, That any person desiring to be heard in connection with the consolidated proceedings, or otherwise desiring to participate therein, shall file with the Secretary of the Commission, Washington 25, D. C., on or before November 10, 1954, his request or application therefor as provided in Rule XVII of the rules of practice of the Commission.

The Division of Corporate Regulation of the Commission having advised the Commission that it has made a preliminary examination of the application of Stephens, and that, upon the basis thereof, the following matters and questions are presented for consideration, without limitation of the matters and questions heretofore specified in the consolidated proceeding, and without prejudice to its specifying additional matters and questions upon further examination:

1. Whether the proposed indirect acquisition of Arkla common stock by W. R. Stephens will tend towards interlocking relations or the concentration of control of public-utility companies of a kind or to an extent detrimental to the public interest or the interest of investors or consumers.

2. Whether the consideration, including all fees, commissions, and other remuneration, to whomsoever paid, to be given, directly or indirectly, in connection with the acquisition is reasonable and bears a fair relation to the sums invested in or the earning capacity of the assets underlying the securities to be acquired.

3. Whether the acquisition will be detrimental to the public interest or the interest of investors or consumers, or to

the proper functioning of the holding company system.

4. Whether such acquisition is unlawful under the provisions of section 8 of the act, as being in violation of any applicable State law, or is detrimental to the carrying out of the provisions of section 11 of the act.

5. Whether the acquisition will serve the public interest by tending towards the economical and efficient development of an integrated public-utility system.

6. Whether any terms and conditions should be imposed for the protection of the public interest or the interest of investors and consumers in connection with the indirect acquisition of Stephens.

It is further ordered, That at said hearing special attention be given to the above matters and questions.

It is further ordered, That the Secretary of the Commission shall give notice of said hearing upon the application of Stephens by serving a copy of this notice and order by registered mail, return receipt requested, on W. R. Stephens, Investment Company, and Cities; that notice shall be given to all other persons by publication of this notice and order in the FEDERAL REGISTER; and that a general release of the Commission in respect of this proceeding shall be distributed to the press and mailed to those persons appearing on the Commission's mailing list for releases under the act.

By the Commission.

ORVAL L. DUBOIS,

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 29856]

PLASTER AND PLASTERBOARD FROM PORT WENTWORTH, GA., TO FLORIDA

APPLICATION FOR RELIEF

NOVEMBER 2, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to schedules listed below.

Commodities involved: Plaster, plasterboard, and related articles, carloads.

From: Port Wentworth, Ga.

To: Points in Florida.

Grounds for relief: Competition with rail carriers, and market competition.

Schedules filed containing proposed rates: C. A. Spaninger, Agent, I. C. C. No. 1295, supp. 84.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[SEAL] GEORGE W. LAIRD,
Secretary.

[4th Sec. Application 29857]

CAST IRON PIPE FROM BIRMINGHAM, ALA., GROUP TO ST. LOUIS, MO.

APPLICATION FOR RELIEF

NOVEMBER 2, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to schedule listed below.

Commodities involved: Cast iron pipe and fittings, and related articles, carloads.

From: Birmingham, Ala., and points grouped therewith.

To: St. Louis, Mo.

Grounds for relief: Competition with rail carriers, and market competition.

Schedules filed containing proposed rates: C. A. Spaninger, Agent, I. C. C. No. 1374, supp. 31.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

[4th Sec. Application 29858]

MALT LIQUORS FROM CENTRAL TERRITORY TO THE SOUTH

APPLICATION FOR RELIEF

NOVEMBER 2, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: H. R. Hinsch, Agent, for carriers parties to schedule listed below.

Commodities involved: Malt Liquors, viz.: ale, beer, etc., carloads.

From: Cleveland, Ohio, Detroit and Gera, Mich., Fort Wayne, South Bend, and Terre Haute, Ind.

To: Points in southern territory.

Grounds for relief: Rail competition, circuity, market competition, grouping, and to apply rates constructed on the basis of the short line distance formula.

Schedules filed containing proposed rates: H. R. Hinsch, Agent, I. C. C. No. 3636, supp. 319.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

[Drouth Order 54, Amdt. 1]

TRANSPORTATION OF HAY TO CERTAIN STATES IN DISASTER AREA

REDUCED RATES

In the matter of relief under section 22 of the Interstate Commerce Act.

Upon consideration of a request by the Acting Secretary of Agriculture dated November 1, 1954, to include the States of Nevada and Utah in the disaster area:

It is ordered, That the order of September 28, 1954, be, and it is hereby, amended to include within its provisions the States of Nevada and Utah.

It is further ordered, That notice to the affected railroads and the general public shall be given by depositing a copy of this order in the office of the Secretary of the Commission and by filing a copy with the Director, Division of the Federal Register; and that copies be mailed to the Chairman of the Traffic Executive Association—Eastern Railroads, New York, N. Y., the Chairman of the Southern Freight Association, Atlanta, Georgia, the Chairman of the Executive Committee, Western Traffic Association, Chicago, Illinois, the Traffic Vice-President of the Association of American Railroads, Washington, D. C., and to the President of the American Short Line Railroad Association, Washington, D. C.

Dated at Washington, D. C., this 2d day of November 1954.

By the Commission.

FEDERAL REGISTER

VOLUME 19 NUMBER 217

Washington, Saturday, November 6, 1954

TITLE 7—AGRICULTURE

Chapter III—Agricultural Research Service, Department of Agriculture

PART 354—OVERTIME SERVICES RELATING TO IMPORTS AND EXPORTS

OVERTIME, NIGHT AND HOLIDAY INSPECTION AND QUARANTINE ACTIVITIES AT BORDER, COASTAL AND AIRPORTS

Section 354.1 of Part 354, Title 7, Code of Federal Regulations, is amended to read as follows:

§ 354.1 *Overtime work at border ports, seaports, and airports.* Any person, firm, or corporation having ownership, custody or control of plants, plant products, or other commodities or articles subject to inspection, certification, or quarantine under this chapter, and who requires the services of an employee of the Plant Quarantine Branch on a holiday or at any other time outside the regular tour of duty of such employee, shall sufficiently in advance of the period of overtime request the Branch inspector in charge to furnish inspection, quarantine or certification service during such overtime period, and shall pay the Government therefor at the rate of $4.68 per man hour per employee as follows: Each such period of overtime duty shall include the time on duty which shall be considered to be at least two hours in duration. In addition, each such period of overtime duty shall include a commuted travel time period, not in excess of three hours. The amount of this period shall be prescribed in administrative instructions to be issued by the Chief of the Plant Quarantine Branch for the ports, stations, and areas in which the employees are located, and shall be established as nearly as may be practicable to cover the time necessarily spent in reporting to and returning from the place at which the employee performs such overtime duty if such travel is performed solely on account of such overtime duty. It will be administratively determined from time to time which days constitute holidays.

The purpose of this amendment is to establish a uniform hourly rate of payment for all overtime services furnished in accordance with the act of August 28, 1950 (64 Stat. 561). Determination of the costs of such overtime inspection depends entirely upon facts within the knowledge of the Department of Agriculture. It is to the benefit of the public that this amendment be made effective at the earliest practicable date. Accordingly, pursuant to the provisions of section 4 of the Administrative Procedure Act (60 Stat. 238), it is found upon good cause that notice and public procedure on this amendment are impracticable, unnecessary, and contrary to the public interest, and good cause is found for making this amendment effective less than thirty days after publication.

The foregoing amendment shall be effective November 7, 1954.

(64 Stat. 561; 5 U. S. C. 576)

Done at Washington, D. C., this 2d day of November 1954.

[SEAL] M. R. CLARKSON, *Acting Administrator, Agricultural Research Service.*

722.616 Apportionment of State acreage allotment among counties.
ESTABLISHMENT OF FARM ACREAGE ALLOTMENTS
722.617 Apportionment of county acreage allotment.
722.618 Allotments for special farms.
LONG STAPLE COTTON
722.619 Extra long staple cotton.
FARM MARKETING QUOTA AND FARM MARKETING EXCESS
722.620 Notice of farm acreage allotment and marketing quota.
722.621 Amount of the farm marketing quota.
722.622 Amount of the farm marketing excess.
722.623 Publication of farm acreage allotments and marketing quotas.
722.624 Successors-in-interest.
722.625 Marketing quotas not transferable.
MISCELLANEOUS PROVISIONS
722.626 Acreage planted to cotton.
722.627 Availability of records.
722.628 Approval of county committee determinations and redelegation of authority by the State committee.
REVIEW OF QUOTAS
722.629 Review of quotas.

AUTHORITY: §§ 722.611 to 722.629 issued under sec. 375, 52 Stat. 66; 7 U. S. C. 1375. Interpret or apply secs. 301, 342-347, 361-363, 373, 374, 388, 52 Stat. 38, as amended, Pub. Law 290, 690, 83d Cong.; 7 U. S. C. 1301, 1342-1347, 1361-1368, 1373, 1374, 1388.

GENERAL

§ 722.611 *Basis and purpose.* (a) The regulations contained in §§ 722.611 to 722.629 are issued pursuant to the Agricultural Adjustment Act of 1938, as amended, and govern the establishment of State, county, and farm acreage allotments for the 1955 crop of upland cotton. The Secretary of Agriculture proclaimed a national marketing quota and a national acreage allotment for the 1955 crop of upland cotton on October 14, 1954 (19 F. R. 6669). The latest available statistics of the Federal Government have been or will be used in making the determinations required to be made in connection with §§ 722.611 to 722.629. Prior to preparing the regulations in §§ 722.611 to 722.629, public notice was given (19 F. R. 5919) in accordance with section 4 of the Administrative Procedure Act (5 U. S. C. 1003). The data, views, and recommendations which were submitted in response to such notice have been duly considered within the limits permitted by the Agricultural Adjustment Act of 1938, as amended.

(b) In order that the State and county Agricultural Stabilization and Conservation Committees may establish farm acreage allotments as early as possible prior to the cotton referendum, which shall be held on December 14, 1954, it is essential that the regulations in §§ 722.611 to 722.629 be made effective as soon as possible. Accordingly, it is hereby determined and found that compliance with the 30-day effective date provision of the Administrative Procedure Act is impracticable and contrary to the public interest, and such regulations shall be effective upon filing of this document with the Director, Division of the Federal Register.

§ 722.612 *Definitions.* As used in §§ 722.611 to 722.629 and in all forms and documents in connection therewith, unless the context or subject matter otherwise requires, the following terms shall have the following meanings and the masculine shall include the feminine and neuter genders and the singular shall include the plural number:

(a) "Act" means the Agricultural Adjustment Act of 1938 and any amendments thereto heretofore or hereafter made.

(b) "Secretary" means the Secretary of Agriculture of the United States, or the officer of the Department of Agriculture acting in his stead pursuant to delegated authority.

(c) "Deputy Administrator" means the Deputy Administrator for Production Adjustment, or Acting Deputy Administrator for Production Adjustment, Commodity Stabilization Service, United States Department of Agriculture.

(d) "Director" means the Director, or Acting Director, of the Cotton Division, Commodity Stabilization Service, United States Department of Agriculture.

(e) "Committees":

(1) "Community committee" means the persons elected within a community as the community committee pursuant to the Secretary's regulations governing the selection and functions of the Agricultural Stabilization and Conservation county and community committees (19 F. R. 3637), as amended.

(2) "County committee" means the persons elected within a county as the county committee pursuant to the Secretary's regulations governing the selection and functions of the Agricultural Stabilization and Conservation county and community committees (19 F. R. 3637), as amended.

(3) "State committee" means the persons designated by the Secretary as the State Agricultural Stabilization and Conservation Committee.

(4) "Review committee" means the review committee appointed by the Secretary pursuant to section 363 of the act.

(f) "Person" means an individual, partnership, firm, joint-stock company, corporation, association, trust, estate, or other legal entity, or a State, political subdivision of a State, or any agency thereof, or the Federal Government or any agency thereof. The term "person" shall include two or more persons having a joint or common interest.

(g) "Owner" or "landlord" means a person who owns farm land and rents such land to another person or who operates such land.

(h) "Cash tenant", "standing-rent tenant", or "fixed-rent tenant" means a person who rents land from another for a fixed amount of cash or a commodity to be paid as rent.

(i) "Share tenant" means a person other than a sharecropper who rents land from another person and pays as rent a share of the crops or the proceeds thereof.

(j) "Sharecropper" means a person who works a farm in whole or in part under the general supervision of the operator and is entitled to receive for his labor a share of the crops produced thereon or the proceeds thereof.

(k) "Operator" means the person who is in charge of the supervision and conduct of the farming operations on the entire farm.

(l) "Farm" means all adjacent or nearby farm or range land under the same ownership which is operated by one person, including also:

(1) Any other adjacent or nearby farm or range land which the county committee, in accordance with instructions issued by the Deputy Administrator, determines is operated by the same person as part of the same unit in producing range livestock or with respect to the rotation of crops and with workstock, farm machinery, and labor substantially separate from that for any other land; and

(2) Any field-rented tract (whether operated by the same or another person) which, together with any other land included in the farm, constitutes a unit with respect to the rotation of crops.

A farm shall be regarded as located in the county or administrative area, as the case may be, in which the principal dwelling is situated, or if there is no dwelling thereon it shall be regarded as located in the county or administrative area, as the case may be, in which the major portion of the farm is located.

(m) "Farm acreage allotment" means a cotton acreage allotment established for a farm under §§ 722.611 to 722.629. Farm acreage allotments are initially established on the basis of the data for farms as constituted for 1954; where there is a change in the land in a farm for 1955, the farm acreage allotment will be redetermined in accordance with § 722.617 (g).

(n) "Upland cotton" (herein referred to as "cotton") means any cotton other than extra long staple cotton.

(o) "Extra long staple cotton" means the kinds of cotton described in section 347 (a) of the act and in the marketing quota regulations relating to apportionment of the national acreage allotment for the 1955 crop of extra long staple cotton to States, counties, and farms.

(p) "State and county code number" means the applicable number assigned by the Commodity Stabilization Service to each State and county for the purpose of identification.

(q) "Serial number of the farm" or "farm serial number" means the serial number assigned to a farm by the county committee for purposes of identification.

(r) "Old cotton farm" means a farm having an acreage planted to cotton in any one or more of the years 1952, 1953, and 1954.

(s) "New cotton farm" means a farm on which cotton is to be planted in 1955 but on which no acreage was planted to cotton in any of the years 1952, 1953, and 1954.

(t) "Normal yield" means the average yield per acre of lint cotton for the farm, adjusted for abnormal weather conditions, during the five calendar years immediately preceding the year in which such normal yield is determined. If for any such year the data are not available or there was no actual yield, then the normal yield for the farm shall be appraised by the county committee in accordance with instructions issued by the Deputy Administrator, taking into consideration abnormal weather conditions, the normal yield for the county, and the yield in years for which data are available. The normal yield for a new cotton farm shall be that yield per acre which the county committee determines is normal for the farm as compared with other farms in the locality which are similar with respect to soil and other physical factors affecting the production of cotton.

(u) "Normal production" of any number of acres means the normal yield per acre of lint cotton for the farm multiplied by such number of acres.

(v) "Actual production" of cotton on the farm means the total number of pounds of lint cotton determined to have been produced on the farm in 1955.

(w) "Actual yield" per acre means the number of pounds of lint cotton determined by dividing the actual production of cotton on the farm by the acreage planted to cotton on the farm in 1955.

(x) "Producer" means a person who, as owner or landlord (other than the landlord of a standing-rent tenant, fixed-rent tenant, or cash tenant), cash tenant, standing-rent tenant, fixed-rent tenant, share tenant, or share cropper, is en-

the 1955 crop of cotton, less the State

titled to all or a share of the 1955 crop of cotton or of the proceeds thereof.

(y) "Acreage planted to cotton":

(1) *State.* The acreages of cotton to be used in establishing State acreage allotments are as follows:

(i) *For 1948, 1951 and 1952.* The official planted acreage of cotton (acreage in cultivation on July 1 of each year plus the estimated acreage planted but abandoned prior to July 1), as determined by the Agricultural Marketing Service (formerly the Bureau of Agricultural Economics) of the United States Department of Agriculture.

(ii) *For 1950.* The measured acreages of cotton for all farms in the State, as determined for purposes of the 1950 cotton marketing quota program, and adjusted according to the provisions of subsections (f) (4) and (5), (g) (3), and (i) of section 344 of the act.

(iii) *For 1953.* The measured acreages of cotton for all farms in the State, as determined in accordance with official instructions.

(2) *County.* The acreages of cotton to be used in establishing county acreage allotments are as follows:

(i) *For 1948.* The official acreage of cotton in cultivation on July 1, 1948, as determined by the Agricultural Marketing Service (formerly the Bureau of Agricultural Economics) of the United States Department of Agriculture.

(ii) *For 1950.* The measured acreages of cotton for all farms in the county, as determined for purposes of the 1950 cotton marketing quota program, and adjusted according to the provisions of subsections (f) (4) and (5), (g) (3), and (i) of section 344 of the act.

(iii) *For 1951 and 1952.* The official planted acreage of cotton (acreage in cultivation on July 1 of each year plus the estimated acreage planted but abandoned prior to July 1), as determined by the Agricultural Marketing Service (formerly the Bureau of Agricultural Economics) of the United States Department of Agriculture.

(iv) *For 1953.* The measured acreage of cotton for all farms in the county, as determined in accordance with official instructions.

(3) *Farm.* For purposes of establishing farm acreage allotments for the 1955 crop of cotton, the acreage planted to cotton on a farm means the acreage of land planted to cotton for the years 1952, 1953, and 1954, which shall be determined as follows:

(i) *For 1952.* The acreage of cotton measured or reported to the county committee for the farm, with such adjustment in the reported acreage as is necessary under official instructions. The sum of the reported acreages, as adjusted by the county committee, and the measured acreages shall conform with the official planted acreages of the Agricultural Marketing Service (formerly the Bureau of Agricultural Economics), United States Department of Agriculture, to the extent required under official instructions.

(ii) *For 1953.* The acreage of cotton measured in accordance with official instructions.

(iii) *For 1954.* The acreage of cotton measured for purposes of the 1954 cotton marketing quota program, and adjusted, as provided in subsections (g) (3), (i), and (m) (2) of section 344 of the act, in accordance with official instructions.

(4) *Exclusion of acreages planted to extra long staple cotton.* Acreage devoted to the production of American-Egyptian, Sea Island, and Sealand cotton during the period of years 1948 to 1954, inclusive, shall not be included in the acreage planted to cotton, as determined under subparagraphs (1), (2), and (3) of this paragraph for the purposes of determining acreage allotments for the 1955 crop of cotton.

(z) "Abnormal weather conditions" means weather conditions (including conditions directly resulting therefrom) adversely affecting the planting of cotton, which conditions must have been of sufficient duration and intensity to prevent the seeding of land to cotton and must have continued until the end of the planting season for the area. In apportioning the national acreage allotment to States in accordance with § 722.615, adjustments for abnormal weather conditions are made in the acreages planted to cotton in the States on the basis of recommendations of the State committees and official statistics and studies of the Department of Agriculture. In apportioning the State acreage allotment among counties in accordance with § 722.616 (b), adjustments for abnormal weather conditions are made in the acreages planted to cotton in counties on the basis of recommendations of the State committee. Any such adjustment in the acreage planted to cotton in a State or county is the amount established by reference to available information and data as the net reduction of planted acreage in the State or county attributable solely to abnormal weather conditions. Such adjustments for abnormal weather conditions take into consideration failure to seed cotton because of abnormal weather conditions. Also, for the year 1948, abandonment of cotton prior to July 1, 1948, in excess of normal abandonment by that date because of abnormal weather conditions is taken into consideration in determining adjustments, if any, in the acreage planted to cotton in the State or county in that year.

(aa) "Cropland" means the land which in 1954 was tilled or was in regular rotation, as determined in accordance with instructions issued by the State committee, excluding any land which constitutes, or will constitute, if such tillage is continued, a wind erosion hazard to the community and also excluding bearing orchards and vineyards (except the acreage of cropland therein) and plowable non-crop open pasture.

§ 722.613 *Issuance of forms and instructions.* The Director shall, cause to be prepared such forms and instructions as are necessary for carrying out §§ 722.611 to 722.629. The forms shall be issued by the Director with the approval of the Deputy Administrator, and the instructions shall be issued by the Deputy Administrator. Copies of such forms and instructions shall be furnished free to persons needing them upon request made to the office of the State or county committee or to the Director.

§ 722.614 *Extent of calculations and rule of fractions.* The acreages planted to cotton on farms and farm acreage allotments shall be computed to three places beyond the decimal point and rounded to tenths of acres. Fractions of fifty-one thousandths of an acre or more shall be rounded upward, and fractions of less than fifty-one thousandths of an acre shall be dropped. For example, 10.051 would be 10.1 and 10.050 would be 10.0.

STATE AND COUNTY ACREAGE ALLOTMENTS

§ 722.615 *Apportionment of national acreage allotment among States.* The national acreage allotment proclaimed for the 1955 crop of cotton, less the acreage required pursuant to section 344 (k) of the act to provide any State an allotment not less than the smaller of 4,000 acres or the highest acreage planted to cotton in any of the years 1952, 1953, and 1954, is apportioned among the other States on the basis of the average acreage planted to cotton in each such State for the years 1948, 1950, 1951, 1952, and 1953, with adjustments in State cotton acreages for abnormal weather conditions. The acreage allotted to a State pursuant to the provisions of this section is referred to herein as the "State acreage allotment". The State acreage allotment for each State for the 1955 crop of cotton is as follows:

State:	*State acreage allotments*
Alabama	1,101,804
Arizona	333,933
Arkansas	1,529,704
California	778,686
Florida	36,283
Georgia	950,818
Illinois	[1] 3,056
Kansas	[1] 35
Kentucky	8,374
Louisiana	648,442
Mississippi	1,750,852
Missouri	399,627
Nevada	[1] 2,324
New Mexico	182,194
North Carolina	515,714
Oklahoma	872,532
South Carolina	773,945
Tennessee	593,868
Texas	7,612,779
Virginia	18,238
United States total	18,113,208

[1] Minimum State acreage allotments determined in accordance with section 344 (k) of the Agricultural Adjustment Act of 1938, as amended.

§ 722.616 *Apportionment of State acreage allotment among counties*—(a) *Establishment of State acreage reserve.* The State committee shall set aside a total State acreage reserve of 10 percent of the State acreage allotment (15 percent in the case of Oklahoma) unless, on the basis of the needs of the State as determined under paragraph (c) of this section, the State committee recommends a smaller acreage reserve and the Administrator of the Commodity Stabilization Service approves such recommendation.

(b) *Computed county acreage allotments.* The State acreage allotment for

the 1955 crop of cotton, less the State acreage reserve established pursuant to paragraph (a) of this section, is apportioned to counties (parishes in Louisiana) on the basis of the average acreage planted to cotton in each county in 1948, 1950, 1951, 1952, and 1953 (herein referred to as the "base years"), with adjustments for abnormal weather conditions during such years. The acreage allotted to a county (or parish) pursuant to the provisions of this paragraph is herein referred to as the "computed county acreage allotment."

(c) *Use of State acreage reserve.* The State acreage reserve established under paragraph (a) of this section for the purposes set forth in subparagraphs (1) through (5) of this paragraph shall be used as provided in such subparagraphs and in accordance with instructions issued by the Deputy Administrator.

(1) *To adjust computed county acreage allotments for trends in the acreage of cotton.* The State committee shall, if necessary, use a part of the State acreage reserve to adjust the computed county acreage allotments for trends in the acreage planted to cotton in the counties during recent years (the period of years may include the year 1954 but shall not include the year 1949). The State committee may determine such adjustments by use of a formula which shall be applied uniformly to each county in the State.

(2) *To adjust computed county acreage allotments for counties adversely affected by abnormal conditions affecting plantings of cotton.* The State committee shall, if necessary, use a part of the State acreage reserve to adjust the computed county acreage allotments for abnormal conditions adversely affecting plantings in the counties during the base years. The State committee shall examine the acreage planted to cotton in the county in each of the base years to determine whether the acreage planted may have been adversely affected by abnormal conditions. In determining whether an adjustment should be made for abnormal conditions adversely affecting plantings in a county, the State committee shall take into consideration the following factors: (i) Abnormal weather conditions, such as floods and droughts during the planting season which caused plantings during such season to be abnormally low in comparison with normal; (ii) for 1948, the acreage seeded to cotton but abandoned prior to July 1, where abnormally high in relation to normal abandonment because of abnormal weather conditions during such period; (iii) conditions in counties in which a number of farms are being returned to cotton production or are increasing the acreage in cotton after having been out of production or having been on a reduced level of cotton production because such farms were used to a larger extent than normal in connection with air bases, defense plants and other wartime activities; (iv) abnormal reduction in planted cotton acreage because of an unusual movement of labor from farms in the area or county to war industries or into the armed forces and the return of such labor as compared with such movements in other counties; and (v) any other abnormal conditions which adversely affected plantings in the county to a greater extent than in other counties. In determining any adjustment under this subparagraph for abnormal weather conditions the State committee shall take into consideration any adjustment made for abnormal weather conditions pursuant to paragraph (b) of this section.

(3) *To make adjustments in acreage allotments for small farms.* The State committee shall determine the acreage required from the State acreage reserve to supplement that part of the county acreage reserve established as provided for in subparagraphs (1) and (2) of § 722.617 (e) to adjust indicated farm acreage allotments for old cotton farms established at 15 acres or less under paragraph (c) or (d) of § 722.617. The State committee shall determine the acreage, if any, to be made available to a county for the purposes of this subparagraph and such acreage shall be used by the county committee only for adjustments in small farm allotments.

(4) *To establish 1955 acreage allotments for new cotton farms.* Where the State committee determines that the needs for acreage to establish acreage allotments for new cotton farms are generally uniform in counties throughout the State, the State committee shall determine whether all the acreage required to establish acreage allotments for new cotton farms shall be provided from the State acreage reserve or the county acreage reserve, or from both such reserves. In determining the source of acreage for new cotton farms the State committee shall take into consideration the acreage requirements determined for such farms from the county surveys, if available, as provided for in § 722.617 (e) (3). In States where new areas will be brought into cotton production in 1955 or where it is determined by the State committee that the entire county acreage reserve for any county is needed for making adjustments pursuant to subparagraphs (1) and (2) of § 722.617 (e), the State committee shall consider establishing an acreage from the State acreage reserve to supplement the acreage set aside by the county committee, if any, from the county acreage reserve for establishing acreage allotments for new cotton farms. In determining the estimated acreage to be set aside for establishing fair and reasonable acreage allotments for new cotton farms on the basis of the factors set forth in § 722.617 (e) (3), the State committee shall take into consideration the experience of State and county committees in establishing acreage allotments for new cotton farms under previous marketing quota programs and any other available information. The acreage made available to any county under this subparagraph shall be used by the county committee only for new cotton farms.

(5) *To correct inequities in farm allotments and to prevent hardship.* The State committee shall determine the acreage required from the State acreage reserve to supplement that part of the county acreage reserve established, as provided for in § 722.617 (e) (4), for making adjustments in farm acreage allotments to correct inequities and to prevent hardship.

(d) *Availability of data for inspection.* The following shall be on file and shall be available in the office of the State committee for examination by any interested cotton producer: (1) The amount of the State acreage reserve; (2) the formula, if any, and data developed and used under subparagraphs (1) and (2) of paragraph (c) of this section; and (3) the total acreage set aside from the State acreage reserve for the purposes set forth in subparagraphs (3), (4), and (5) of paragraph (c) of this section.

(e) *County acreage allotment.* The county acreage allotment shall be the sum of (1) the computed county acreage allotment determined under paragraph (b) of this section, and (2) the acreages from the State acreage reserve which are added to the computed county acreage allotment under subparagraphs (1) and (2) of paragraph (c) of this section. This paragraph will be amended at a later date to include the county acreage allotment established for each county.

(f) *Administrative areas.* If, in accordance with instructions issued by the Deputy Administrator, the county committee with the approval of the State committee, or if the State committee, determines with respect to a county in which farm acreage allotments are to be established under § 722.617 (c) that, because of different conditions pertaining to the production of cotton in separate areas of the county, including differences in types, kinds, and productivity of the soil, different areas of the county should be treated separately in order to prevent discrimination, each such area shall be designated as an administrative area and, insofar as practicable, each such area shall be treated as a county in determining the acreage allotment for the area and in establishing farm acreage allotments.

(g) *Apportionment of excess released acreage to counties.* The acreage allotment surrendered to the State committee pursuant to § 722.617 (i) shall be apportioned by the State committee to counties on the basis of trends in acreage, abnormal conditions adversely affecting plantings, or for small or new farms or to correct inequities in farm allotments and to prevent hardship.

ESTABLISHMENT OF FARM ACREAGE ALLOTMENTS

§ 722.617 *Apportionment of county acreage allotment*—(a) *Determination of method to be used in apportioning county acreage allotment among farms.* Section 344 (f) (2) of the act provides that the county acreage allotment, less the county acreage reserve and the acreage required to establish minimum farm allotments under section 344 (f) (1) of the act, shall be allotted to farms by multiplying the adjusted cropland for each old cotton farm by a uniform county (or administrative area) cropland factor (this method of establishing allotments will be referred to herein as the "cropland basis"). Section 344 (f) (6) of the act provides that if the county

(iii) *For 1954.* The acreage of cotton measured for purposes of the 1954 cot-

forms and instructions shall be furnished free to persons needing them

(b) *Computed county acreage ments.* The State acreage allotment for

with such movements in other counties;

reserve to supplement that part of the county acreage reserve established, as

the "cropland basis"). Section 344 (f) (6) of the act provides that if the county

committee so recommends and the Secretary determines that such action will result in a more equitable distribution of the county allotment among farms in the county than would be the case if the cropland basis were used, the county acreage allotment, less the county acreage reserve, shall be apportioned to old cotton farms on the basis of the acreage planted to cotton on the farm during the preceding three years, adjusted as may be necessary for abnormal conditions affecting plantings (this method will be referred to herein as the "historical basis"). The county committee shall study these two methods of apportioning the county acreage allotment among farms and determine which method should be used in order to establish equitable allotments for farms in the county. If the county committee determines that farm allotments should be determined on the historical basis, its recommendation to that effect should be forwarded to the State committee for transmittal to the Deputy Administrator. When § 722.616 (e) is amended to include the county acreage allotment established for each county, the Secretary will designate the counties which have been approved by the Deputy Administrator for establishing farm allotments on the historical basis.

(b) *Determination of county acreage reserve.* The county committee shall establish a county acreage reserve of not in excess of 15 percent of the county acreage allotment which shall be used to adjust indicated farm acreage allotments for old cotton farms determined under paragraph (c) or (d) of this section and to establish acreage allotments for new cotton farms under paragraph (e) (3) of this section. The county acreage reserve shall be not less than 13 percent of the county acreage allotment for a county in which farm allotments are determined on the cropland basis and shall be not less than 10 percent of the county acreage allotment for a county in which farm allotments are determined on the historical basis, unless the county committee recommends a smaller acreage reserve and the State committee gives its approval in accordance with instructions issued by the Deputy Administrator. Any approval of a smaller acreage reserve shall be based upon a showing that such acreage is adequate, on the basis of the factors set forth in paragraph (c) of this section, to make necessary adjustments in indicated allotments for old cotton farms and to establish allotments for new cotton farms. The county acreage reserve approved by the State committee shall be not less than 8 percent for a county in which farm allotments are determined on the cropland basis and not less than 5 percent for a county in which farm allotments are determined on the historical basis, except that the Deputy Administrator may approve a smaller reserve for a county if he finds that the applicable minimum reserve of 8 percent or 5 percent would provide more acreage for adjustments and establishing new farm allotments than is needed in the county.

(c) *Indicated acreage allotments for old cotton farms in counties where farm allotments are determined on the cropland basis.* If farm acreage allotments are to be determined in the county on the cropland basis, the county acreage allotment, less the acreage reserved pursuant to paragraph (b) of this section, shall be used to determine indicated allotments for old cotton farms as follows:

(1) *Indicated minimum acreage allotments for old cotton farms with highest cotton acreage less than 5 acres.* The indicated minimum acreage allotment for each old cotton farm on which the highest acreage planted to cotton in any of the years 1952, 1953, and 1954 was less than 5 acres, shall be equal to such highest acreage.

(2) *Pro rata reduction of indicated acreage allotments for old cotton farms.* If the sum of (i) the indicated acreage allotments determined under subparagraph (1) of this paragraph and (ii) the acreage determined by multiplying the number of old cotton farms with 5 acres or more planted to cotton in any of the years 1952, 1953, and 1954 by 5, exceeds the county acreage allotment (less the acreage reserved pursuant to paragraph (b) of this section), an indicated acreage allotment of 5 acres shall be established for each old cotton farm having 5 acres or more planted to cotton in any of the years 1952, 1953, and 1954. Where indicated acreage allotments of 5 acres are established under this subparagraph, each indicated acreage allotment determined under this subparagraph and under subparagraph (1) of this paragraph for each old cotton farm shall be reduced pro rata so that the sum of the indicated acreage allotments for all old cotton farms shall not exceed the county acreage allotment (less the acreage reserved pursuant to paragraph (b) of this section).

(3) *Indicated acreage allotments for old cotton farms with highest cotton acreage of 5 acres or more in counties where subparagraph (2) of this paragraph is not applicable*—(i) *Determination of adjusted cropland.* If subparagraph (2) of this paragraph is not applicable in the county, the county committee shall, in accordance with instructions issued by the Deputy Administrator, determine an adjusted cropland acreage for each old cotton farm on which the highest acreage planted to cotton in any of the years 1952, 1953, and 1954 was 5 acres or more, by deducting from the cropland on the farm the sum of the following acreages:

(*a*) The 1954 acreage of sugarcane for sugar or for syrup and sugar beets for sugar;

(*b*) The 1954 acreage of tobacco for market (or the 1954 farm acreage allotment, if any, for the applicable type of tobacco if the 1954 acreage has not been determined);

(*c*) The 1954 acreage of peanuts picked and threshed, as adjusted by the county committee for abnormal conditions affecting such acreage;

(*d*) The 1954 wheat acreage for market (including the acreage of wheat for feeding to livestock for market). In States in the commercial wheat-producing area for 1955, if the 1954 wheat acreage on the farm was reduced substantially below the 1954 farm wheat acreage allotment because of adverse weather conditions, the acreage to be deducted shall be the 1955 wheat allotment for the farm (less the acreage determined by the county committee to be used on the farm for home use other than for feeding to livestock for market). In the counties designated in (*f*) of this subparagraph, the deduction for wheat acreage shall be limited to the acreage by which the deduction which otherwise would be made under this subdivision exceeds the acreage deducted under subdivision (*f*) of this subparagraph;

(*e*) The acreage planted to rice in 1954 for market (including the acreage of rice for feeding to livestock for market), plus the acreage of other rice land on the farm for which water is available and which is not used for the production of cotton under the rotation system for the farm; and

(*f*) In Cochise, Gila, Graham, Greenlee, Maricopa, Mohave, Pima, Pinal, Santa Cruz, Yavapai and Yuma Counties, Arizona; and in Butte, Fresno, Glenn, Imperial, Inyo, Kern, Kings, Los Angeles, Madera, Merced, Riverside, San Benito, San Bernardino, San Diego, San Joaquin, San Luis Obispo, Santa Barbara, Stanislaus, Tehama, Tulare and Yuba Counties, California; and in Clark and Nye Counties, Nevada; and in Bernalillo, Chaves, De Baca, Dona Ana, Eddy, Grant, Guadalupe, Hidalgo, Luna, Otero, Sierra, Socorro and Valencia Counties, New Mexico; and in Brewster, Culberson, El Paso, Hudspeth, Jeff Davis, Loving, Pecos, Presidio, Reeves, Terrell, and Ward Counties, Texas, the acreage of cropland in excess of that acreage for which irrigation water is normally available and adequate from available and adequate from available facilities for the production of irrigated crops during the cotton-producing season (seeding to maturity).

(ii) *Determination of county cropland factors.* The first county cropland factor shall be computed by dividing (*a*) the remainder of the county acreage allotment (less the acreage reserved pursuant to paragraph (b) of this section) after indicated allotments have been made under subparagraph (1) of this paragraph, by (*b*) the total of the adjusted cropland acreages determined for old cotton farms in the county under subdivision (i) of this subparagraph. Second and additional county cropland factors shall be determined, if necessary, by dividing (*1*) the available county acreage allotment remaining after maximum and minimum indicated farm acreage allotments, as defined in subdivision (iii) of this subparagraph, have been determined for such old cotton farms by (2) the total of the adjusted cropland acreages determined for old cotton farms in the county under subdivision (i) of this subparagraph, which under the preceding factor were not affected by either the maximum or the minimum allotment provisions. The last county (or administrative area) cropland factor computed and applied shall be referred to herein as the "final county cropland factor".

(iii) *Indicated farm acreage allotment.* An indicated acreage allotment

shall be computed for each old cotton farm under this subparagraph by multiplying the adjusted cropland for each such farm by the applicable county cropland factor except that (*a*) the maximum indicated acreage allotment for any such farm shall not exceed the highest acreage planted to cotton on the farm in any of the years 1952, 1953, and 1954 and (*b*) the minimum indicated acreage allotment for any such farm shall not be less than 5 acres.

(d) *Indicated acreage allotments for old cotton farms in counties where farm acreage allotments are determined on the historical basis pursuant to section 344 (f) (6) of the act.* In counties where the county committee recommends that the county acreage allotment, less the acreage reserved pursuant to paragraph (b) of this section, be apportioned among farms for the year 1955 on the historical basis and the Deputy Administrator approves such recommendation, indicated allotments for old cotton farms shall be determined in accordance with subparagraph (1) or (2) of this paragraph. For the purposes of this paragraph, the term "allotment base" means the average of the acreages planted to cotton on the farm during each of the three years 1952, 1953, and 1954 (sum of the acreages divided by three), with such adjustment in the acreage for any year as may be necessary for abnormal conditions affecting plantings.

(1) *Indicated allotments for old cotton farms in counties where minimum farm allotments are not established.* If the county committee determines, pursuant to section 344 (f) (6) of the act, that minimum farm allotments shall not be determined in accordance with section 344 (f) (1) of the act, an indicated acreage allotment for each old cotton farm in the county shall be determined by multiplying the allotment base for the farm by a factor determined by dividing the total of all such allotment bases into the county acreage allotment (less the acreage reserved pursuant to paragraph (b) of this section): *Provided*, That, if the county committee so elects, any such indicated farm acreage allotment shall not exceed an acreage equal to 50 percent of the cropland on the farm, and any part of the county acreage allotment not apportioned by reason of the application of such 50 percent limitation shall be added to the county acreage reserve established under paragraph (b) of this section and shall be available for the purposes specified in paragraph (e) of this section.

(2) *Indicated allotments for old cotton farms in counties where minimum farm allotments are established.* If the county committee determines, pursuant to section 344 (f) (6) of the act, that minimum farm allotments shall be determined in accordance with section 344 (f) (1) of the act, indicated farm acreage allotments shall be determined as provided in subdivisions (i), (ii), and (iii) of this subparagraph, but subject to the provisions of subdivision (iv) of this subparagraph if the county committee so elects.

(i) *Indicated minimum acreage allotments for old cotton farms with highest acreage planted to cotton less than five acres.* The indicated minimum acreage allotment for each old cotton farm on which the highest acreage planted to cotton in any of the years 1952, 1953, and 1954 was less than five acres, shall be equal to such highest acreage.

(ii) *Pro rata reduction of indicated acreage allotments for old cotton farms.* If the sum of (*a*) the indicated acreage allotments determined under subdivision (i) of this subparagraph and (*b*) the acreage determined by multiplying the number of old cotton farms with five acres or more planted to cotton in any of the years 1952, 1953, and 1954 by 5, exceeds the county acreage allotment (less the acreage reserved pursuant to paragraph (b) of this section), an indicated acreage allotment of five acres shall be established for each old cotton farm having five acres or more planted to cotton in any of the years 1952, 1953, and 1954. Where indicated acreage allotments of five acres are established under this subdivision, each indicated acreage allotment determined under this subdivision and under subdivision (i) of this subparagraph for each old cotton farm shall be reduced pro rata so that the sum of the indicated acreage allotments for all old cotton farms shall not exceed the county acreage allotment (less the acreage reserved pursuant to paragraph (b) of this section).

(iii) *Indicated acreage allotments for old cotton farms with highest acreage planted to cotton of five acres or more.* In counties where subdivision (ii) of this subparagraph is not applicable, the indicated acreage allotments for old cotton farms with five acres or more planted to cotton in any of the years 1952, 1953, and 1954, shall be determined by multiplying the allotment base for the farm by a factor determined by dividing the total of the allotment bases for all such farms into the county acreage allotment, less the acreage reserved pursuant to paragraph (b) of this section and the sum of the indicated acreage allotments determined under subdivision (i) of this subparagraph: *Provided*, That, if the indicated acreage allotment thus determined for any farm is less than five acres, it shall be five acres. Second and additional factors shall be determined, if necessary, by dividing (*a*) the available county acreage allotment after minimum indicated farm acreage allotments have been determined for such old farms by (*b*) the sum of the allotment bases for farms which under the preceding factor were not affected by the minimum allotment provision. The last county history factor computed and applied shall be referred to herein as the "final county history factor".

(iv) *Limitation of farm acreage allotments to 50 percent of cropland.* If the county committee so elects, the indicated farm acreage allotment determined for each farm in accordance with subdivisions (i), (ii), and (iii) of this subparagraph shall not exceed an acreage equal to 50 percent of the cropland on the farm, and any part of the county acreage allotment not apportioned by reason of the application of such 50 percent limitation shall be added to the county acreage reserve established under paragraph (b) of this section and shall be available for the purposes specified in paragraph (e) of this section.

(e) *Use of county acreage reserve.* The county acreage reserve shall be used by the county committee as follows:

(1) *Adjustments in indicated farm acreage allotments of 5 to 15 acres.* Not less than 20 percent of the county acreage reserve shall, to the extent required, be used by the county committee to adjust indicated farm acreage allotments of 5 to 15 acres, inclusive, determined under paragraph (c) or (d) of this section. Such adjustments shall be made so as to establish acreage allotments which are fair and reasonable in relation to the acreage allotments established for similar farms in the community, taking into consideration for the farm the acreages planted to cotton in 1952, 1953, and 1954; the land, labor, and equipment available for the production of cotton; crop-rotation practices; the soil and other physical facilities affecting the production of cotton; and abnormal conditions of production. The county committee shall not make adjustments so as to cause an acreage allotment to be established for any such farm (i) in excess of the acreage which could be planted to cotton on the farm in 1955 consistent with sound crop-rotation practices followed in the community, (ii) in excess of the acreage which can be farmed with the labor and equipment currently or normally available on the farm, or (iii) which would cause cotton to be planted on land unsuited for the production of cotton.

(2) *Adjustments in indicated acreage allotments for other farms.* The remainder of the acreage in the county acreage reserve, after meeting or determining the requirements under subparagraphs (1), (3) and (4) of this paragraph, shall be used by the county committee to adjust indicated farm acreage allotments which are less than 5 acres or more than 15 acres. Such adjustments shall be made so as to establish acreage allotments which are fair and reasonable in relation to the acreage allotments established for similar farms in the community, taking into consideration for the farm the land, labor, and equipment available for the production of cotton; crop-rotation practices, the soil and other physical facilities affecting the production of cotton; and abnormal conditions of production. The acreages planted to cotton on a farm in 1952, 1953, and 1954 shall be considered in determining the land, labor, and equipment available for the production of cotton and in connection with the crop-rotation practices followed on the farm. The county committee shall not make adjustments so as to cause an acreage allotment to be established for any such farm (i) in excess of the acreage of cotton which could be planted on the farm in 1955 consistent with sound crop-rotation practices followed in the community, (ii) in excess of the acreage which can be farmed with the labor and equipment currently or normally available on the farm, or (iii) which would cause cotton

to be planted on land unsuited for the production of cotton.

(3) *Acreage allotments for new cotton farms*—(i) *Determination of acreage needed for establishing acreage allotments for new cotton farms.* The county committee, with the assistance of the community committees, shall estimate from county office records and other available sources of information the number of new cotton farms in the county. In counties where farm allotments are established on the cropland basis, an estimate shall be made of the adjusted cropland acreage for new cotton farms; and in counties where farm allotments are established on the historical basis, an estimate shall be made of the cropland on new cotton farms. Such estimates shall be used by the State and county committees as a basis for determining the acreage that will be required for establishing acreage allotments for new cotton farms. In determining the acreage from the county acreage reserve which is to be used for establishing acreage allotments for new cotton farms, the county committee shall take into consideration the acreage, if any, to be made available from the State acreage reserve pursuant to subparagraph (4) of § 722.616 (c) for establishing acreage allotments for new cotton farms. The total acreage reserved for establishing allotments for new cotton farms in the county, including any acreage allotted to the county for new cotton farms from the State acreage reserve, shall not exceed 75 percent of the total of the farm acreage allotments which the county committee estimates will be determined for the same number of old cotton farms in the county which are similar except for the acreages planted to cotton during the years 1952, 1953, and 1954.

(ii) *Eligibility of a new cotton farm for a cotton acreage allotment.* A cotton acreage allotment for a new cotton farm may be established by the county committee in accordance with instructions issued by the Deputy Administrator if each of the following conditions is met:

(*a*) An application for a cotton acreage allotment is filed by the farm operator with the county committee by the closing date established by the State committee. In no event is the closing date to be earlier than February 15, 1955.

(*b*) The farm operator is largely dependent on income from the farm for his livelihood.

(*c*) The farm is the only farm in the county which is owned or operated by the farm operator or farm owner for which a cotton acreage allotment is established for 1955.

(iii) *Establishment of acreage allotments for new cotton farms.* If the applicant's farm is eligible for a cotton acreage allotment, such allotment shall be established by the county committee on the basis of land, labor, and equipment available for the production of cotton; crop-rotation practices; and the soil and other physical facilities affecting the production of cotton. The acreage allotment so determined for any such farm shall not exceed the smallest of (*a*) the acreage allotment established for old cotton farms in the county which are similar with respect to the foregoing factors, (*b*) the acreage allotment requested by the applicant, and (*c*) the indicated allotments established pursuant to paragraph (c) or (d) of this section for old cotton farms in the county which are similar except for the acreages planted to cotton during the years 1952, 1953, and 1954. The sum of the acreage allotments determined by the county committee for new cotton farms shall not exceed the acreage reserves available for such farms under this subparagraph. The acreage allotments for new cotton farms shall be subject to review and approval by the State committee, as provided in § 722.628.

(4) *Adjustments in farm acreage allotments to correct inequities and to prevent hardship.* The county committee shall determine the acreage required from the county reserve to supplement any acreage allocated to the county from the State acreage reserve to correct inequities in farm allotments and to prevent hardship. Such reserve shall be used by the county committee where it determines that the farm acreage allotment established under other provisions of this section is inequitable or that such allotment would work undue hardship on the producers on the farm. Such reserve may also be used for establishing and adjusting farm acreage allotments as provided in paragraph (g) of this section.

(f) *Use of acreage allocated to county from State acreage reserve for adjusting allotments for small farms.* The acreage allocated to a county from the State acreage reserve for small farms shall be used by the county committee to adjust indicated farm acreage allotments of 15 acres and less for old cotton farms on the basis of the factors set forth in paragraph (e) (1) and (2) of this section for adjusting small farm allotments.

(g) *Allotments for late and reconstituted farms and correction of errors.* The acreage reserve provided for in paragraph (e) (4) of this section shall be used by the county committee for the purposes specified therein and also for establishing allotments for old cotton farms for which allotments were not established at the time allotments were originally established for old cotton farms in the county because of oversight on the part of the county committee or because the county committee had no information or data with respect to acreage planted to cotton on the farm in 1952, 1953, and 1954, for correcting errors in farm acreage allotments, and for use in establishing acreage allotments for farms which are divided or combined for 1955. Where reconstitutions of farms are made for 1955 after farm acreage allotments for 1955 are established prior to the referendum, the cotton acreage histories and the acreage allotments for all such reconstituted farms shall be established as follows:

(1) If land which was constituted as a single farm in 1954 is divided into two or more tracts for 1955 (i) the acreages of cotton on the farm in 1952, 1953, and 1954 (as shown in Col. (2), Cotton Table 2 of the county committee's farm cotton acreage record), shall be divided among the tracts in proportion to the acreage of cropland on each tract except that upon agreement by the owners and operators and approval by the county committee the acreages normally considered as riceland, wheatland and sugarcane land may be excluded from the cropland on each tract in apportioning the cotton acreage history among the tracts: *Provided*, That, if two or more tracts of land were combined for 1953 or for 1954 to form the single farm and the single farm will be divided for 1955 into the same tracts of land, the cotton acreage history for each such tract for any year in the farm base period prior to the combination will be restored to such tract, (ii) in counties where farm allotments are determined on the cropland basis the 1955 farm acreage allotment established for the single farm shall be apportioned among the tracts on the basis of the cropland used or which would be used for each such tract in apportioning the 1954 cotton acreage among the tracts pursuant to subdivision (i) of this subparagraph, (iii) in counties where farm allotments are determined on the historical basis the 1955 farm acreage allotment established for the single farm shall be apportioned among the tracks in proportion to the allotment bases determined for such tracts, and (iv) the sum of the 1955 allotments established for the several tracts shall not exceed the 1955 acreage allotment initially established for the single farm, except that the allotment determined under the foregoing provisions of this subparagraph for any farm consisting of such a tract or of which such a tract becomes a part shall be increased to the extent required by the minimum farm allotment provisions if applicable in the county, and may be (*a*) adjusted by the county committee with the reserve available to correct inequities and to prevent hardship, and (*b*) increased with released acreage available to the county committee.

(2) If two or more tracts of land are combined and operated as a single farm in 1955 the allotment established for such single farm shall be the sum of the allotments established for such tracts, except that (i) the allotment for the single farm shall be increased to the extent required by the minimum allotment provisions if applicable in the county, and (ii) the allotment for such single farm shall not exceed the maximum farm allotment if such allotment limitation is in effect in the county: *Provided*, That the allotment determined for such single farm under the foregoing provisions of this subparagraph may be (*a*) adjusted by the county committee with the reserve available to correct inequities and to prevent hardship and (*b*) increased with released acreage available to the county committee.

(h) *Availability of reserves for inspection by interested cotton producers.* The allocations to the county from the State acreage reserve and the total amount and the distribution of the county acreage reserve shall be available in the office of the county committee for examination by any interested producer.

(i) *Release and reapportionment of cotton acreage allotments.* Any part of any 1955 farm acreage allotment which will not be used in 1955 and which is voluntarily released to the county committee by the applicable closing date shall be deducted from the farm acreage allotment and may be reapportioned by the county committee not later than the applicable closing date to other farms receiving farm acreage allotments in the same county in amounts determined by the county committee to be fair and reasonable on the basis of past acreages of cotton, land, labor, and equipment available for the production of cotton, crop-rotation practices, and soil and other physical facilities affecting the production of cotton. The State committee shall establish closing dates for purposes of the foregoing provisions for the entire State or for areas in the State if there is a substantial difference in planting dates for different areas in the State. The closing date so established for releasing farm acreage allotments shall be the date on which the planting of cotton normally becomes general on farms in the State or area, and the closing date so established for reapportionment of such released acreage to other farms in the same county shall be the latest date on which cotton can normally be planted on farms in the State or area with reasonable expectation of producing an average crop. If all of the allotted acreage voluntarily released is not needed in the county, the county committee may surrender the excess acreage to the State committee for reapportionment to counties as provided in § 722.616 (g). Any farm acreage allotment released for 1955 only shall, in determining future farm cotton acreage allotments, be regarded as having been planted on the farm releasing such allotment if cotton was planted on such farm in at least one of the years in the three-year farm base period, except that acreage released by the owner or operator of a new cotton farm will not be regarded as planted on such farm unless a part of such allotment is retained and cotton is planted on the farm in 1955. Any part of any farm acreage allotment may be permanently released in writing to the county committee by the owner and operator of the farm, and reapportioned as provided in this paragraph. In determining future farm cotton acreage allotments, the planting in 1955 of reapportioned acreage allotment shall not be considered. For the purpose of determining future State and county acreage allotments, reapportioned acreage will be credited to the State and to the county in which such acreage was planted. Notwithstanding the foregoing provisions of this paragraph, the county committee shall not accept a release of a farm acreage allotment permanently or for 1955 only if (1) such release is opposed by a person whom the county committee determines will subsequently have an interest in the farm as owner or operator, or (2) the county committee determines that the farm is being acquired for governmental or other public purposes.

(j) *Apportionment of surrendered acreage allocated to county by State committee.* The acreage apportioned to the county under paragraph (g) of § 722.616 may be used for establishing and adjusting farm acreage allotments for new farms or small farms or to correct inequities and to prevent hardship in accordance with the provisions of paragraphs (e) and (f) of this section.

§ 722.618 *Allotments for special farms*—(a) *Allotments for farms returned to agricultural production.* The owner or operator of any cotton farm in an area acquired in 1940 or thereafter for non-farming purposes by the United States or by any State or agency thereof which has been returned to agricultural production and which is not eligible under §§ 722.611 to 722.629 for an acreage allotment as an old cotton farm, may apply to the county committee for a cotton acreage allotment for such farm. Any such application shall be in writing and shall be filed within three years after the date of acquisition of such farm by the applicant but not later than the closing date established by the State committee, which shall not be later than March 1, 1955. No such owner or operator shall be eligible for an acreage allotment under this paragraph unless it is established to the satisfaction of the county committee that such person was the owner or operator of a cotton farm at the time it was acquired by the United States or any State or agency thereof. The acreage allotment established for any such farm shall compare with the acreage allotments established for other farms in the same area which are similar, taking into consideration the acreage allotment, if any, last established for such farm; the land, labor, and equipment available for the production of cotton; crop-rotation practices; and the soil and other physical facilities affecting the production of cotton.

(b) *Allotments for other farms owned or operated by persons from whom cotton farms were acquired.* The county committee shall establish an acreage allotment or consider an adjustment in the acreage allotment determined under § 722.617, for any farm within the State owned or operated by a person from whom a cotton farm was acquired in the State in 1940 or thereafter for governmental or other public purposes, provided application therefor is filed within three years after acquisition of such farm by the applicant. The acreage allotment established for any such farm shall compare with the acreage allotments established for other farms in the same area which are similar, taking into consideration the acreage allotment, if any, of the farm so acquired from the owner or operator; the land, labor, and equipment available for the production of cotton, crop-rotation practices; and the soil and other physical facilities affecting the production of cotton: *Provided*, That no person shall be entitled to receive an acreage allotment under both this paragraph and paragraph (a) of this section, and no person who, since his farm was acquired for governmental or other public purposes, has acquired an old cotton farm that for 1955 will have a representative cotton acreage allotment shall be entitled to receive an allotment under this paragraph.

(c) *Cotton farm.* For the purposes of paragraphs (a) and (b) of this section, "cotton farm" means any farm on which there was an acreage planted to cotton (or regarded as planted to cotton under Public Law 12, 79th Congress and section 344 (1) of the act) during any of the three years immediately preceding the year in which the farm was acquired by the United States, or any State or any agency thereof, or for any public purpose.

(d) *Acreage allotted in addition to county and State acreage allotments.* Except to the extent that the production of any farm for which an acreage allotment is established under paragraphs (a) and (b) of this section has contributed to the county and State acreage allotments, the additional acreage allotted under paragraphs (a) and (b) of this section shall be in addition to the acreage allotments otherwise established for the county and State under the applicable provisions of §§ 722.611 to 722.629 and the production of the additional acreage so allotted shall be in addition to the national marketing quota.

(e) *Reallocation of allotments for flooded farms.* In any county in which a major flood control reservoir constructed by the United States Government is located wholly or in part, farm acreage allotments, established pursuant to the provisions of § 722.617 for the production of cotton on the lands within such reservoir, which lands, because of permanent or perennial flooding occasioned by the construction of such reservoir, shall be unfit for further cotton production, may be reallocated, within the discretion of the county committee, to other farms within the county as will in the opinion of the committee best serve the public interest.

LONG STAPLE COTTON

§ 722.619 *Extra long staple cotton*—(a) *If marketing quotas under section 347 of the act are in effect for the 1955 crop.* If marketing quotas for extra long staple cotton are in effect for the 1955 crop, the provisions of §§ 722.611 to 722.629 relating to upland cotton shall not apply to those types of extra long staple cotton which are subject to marketing quotas under the provisions of section 347 of the act.

(b) *If marketing quotas under section 347 of the act are not in effect for the 1955 crop.* If marketing quotas for extra long staple cotton are not in effect for the 1955 crop:

(1) All of the 1955 crop of American-Egyptian cotton which is produced from pure strain seed in Cochise, Graham, Greenlee, Maricopa, Mohave, Pima, Pinal, Santa Cruz and Yuma Counties, Arizona; and Imperial and Riverside Counties, California; and Dona Ana, Eddy, Luna, Otero and Sierra Counties, New Mexico; and Brewster, Culberson, El Paso, Hudspeth, Jeff Davis, Loving, Pecos, Presidio, Reeves, Terrell and Ward Counties, Texas, shall be exempted from all provisions of §§ 722.611 to 722.629 with respect to marketing quotas for the 1955 crop of upland cotton, provided the American-Egyptian cotton is ginned on a roller-type gin or the Deputy Admin-

(a) the acreage allotment established for old cotton farms in the county which

acreage record), shall be divided among the tracts in proportion to the acreage

cotton acreage allotments. Any part of any 1955 farm acreage allotment which

the county under paragraph (g) of

ment shall be entitled to receive an allotment under this paragraph.

istrator authorizes such cotton to be ginned on another type gin for experimental purposes or to prevent loss of such cotton due to frost or other adverse conditions, except that such exemption shall not apply to any farm unless the approval of the county committee for the planting of such cotton on the farm is obtained in advance of planting time. Such approval shall be based upon findings by the county committee (i) that pure strain American-Egyptian cotton seed is to be planted and (ii) that roller-type gin facilities are available in the area for the ginning of such cotton and that such facilities will be used in the ginning of all cotton produced from such seed. In connection with determining the purity of seed, the county committee may require the farm operator to furnish approved purity test certificates or approved State certification tags covering the American-Egyptian seed to be planted showing that such seed is of pure strain.

(2) All of the 1955 crop of Sea Island and Sealand cotton which is produced from pure strain seed in Alachua, Columbia, Hamilton, Jefferson, Lake, Madison, Marion, Orange, Putnam, Seminole, Sumter, Suwannee, Union and Volusia Counties, Florida; and Atkinson, Berrien, Cook and Lanier Counties, Georgia; and all of the 1955 crop of Sea Island cotton which is produced from pure strain seed in Puerto Rico, shall be exempted from all provisions of §§ 722.611 to 722.629 with respect to marketing quotas for the 1955 crop of upland cotton, provided the Sea Island and Sealand cotton is ginned on a roller-type gin or the Deputy Administrator authorizes such cotton to be ginned on another type gin for experimental purposes or to prevent loss of such cotton due to frost or other adverse conditions, except that such exemption shall not apply to any farm unless the approval of the county committee for the planting of such cotton on the farm is obtained in advance of planting time. Such approval shall be based upon findings by the county committee (i) that pure strain Sea Island cotton seed, or pure strain Sealand cotton seed, is to be planted and (ii) that roller-type gin facilities are available in the area for the ginning of such cotton and that such facilities will be used in the ginning of all cotton produced from such seed. In connection with determining the purity of seed, the county committee may require the farm operator to furnish approved purity test certificates or approved State certification tags covering the Sea Island seed and the Sealand seed to be planted showing that such seed is of pure strain.

(3) Any cotton produced from the 1955 crop which staples one and one-half inches or more in length and which is ginned on a roller-type gin, or the Deputy Administrator authorizes the cotton to be ginned on another type gin for experimental purposes or to prevent loss of the cotton due to frost or other adverse conditions, shall be exempted from the provisions of §§ 722.611 to 722.629 with respect to marketing quotas for the 1955 crop of upland cotton regardless of where the cotton is produced in the United States or the variety of cotton from which such cotton is produced.

FARM MARKETING QUOTA AND FARM MARKETING EXCESS

§ 722.620 *Notice of farm acreage allotment and marketing quota.* Immediately after farm acreage allotments in a county or other local administrative area are established and approved by the State committee pursuant to § 722.628 (a), the county committee shall mail to the operator of each such farm a written notice of the farm acreage allotment and marketing quota for the farm. The county committee shall also mail to the operator of each new cotton farm for which application for an allotment is made but for which it is determined that no farm acreage allotment and marketing quota will be established, a similar written notice showing "None" as the acreage allotment and marketing quota established for the farm. The notice shall contain at or near the top thereof the following statement: "To all persons who as operator, landlord, tenant, or sharecropper will be interested in the cotton produced on the farm for which this acreage allotment and marketing quota are established." Notice so given shall constitute notice to all such persons. Such notice shall also contain a brief statement of the procedure whereby application for review of the marketing quota may be made under section 363 of the act. A copy of each notice, containing a notation thereon of the date of mailing the notice to the operator of the farm, shall be kept among the permanent records of the county committee, and upon request a copy thereof, duly certified as a true and correct copy, shall be furnished without charge to any person who as operator, landlord, tenant, or sharecropper is interested in the cotton produced in 1955 on the farm for which the notice is given. Insofar as practicable, the notice for each old cotton farm shall be prepared and mailed to the operator so as to be received prior to the referendum on December 14, 1954, to determine whether cotton farmers favor or oppose marketing quotas for the 1955 crop.

§ 722.621 *Amount of the farm marketing quota.* The farm marketing quota for any farm for the 1955 crop of cotton shall be the actual production of lint cotton on the farm less the farm marketing excess.

§ 722.622 *Amount of the farm marketing excess*—(a) *Where the acreage planted to cotton is determined.* The farm marketing excess for the 1955 crop of cotton shall be the normal production of the acreage of cotton on the farm in excess of the farm acreage allotment. Where it is established by any producer on the farm in connection with an application filed by him or by any other producer on the farm, in accordance with regulations to be issued under this part by the Secretary, that the actual production of cotton on the farm in 1955 is less than the normal production of the acreage planted to cotton on the farm in 1955, the farm marketing excess shall be adjusted downward to the amount by which such actual production exceeds the normal production of the farm acreage allotment.

(b) *Where the acreage planted to cotton is not determined.* Whenever the determination of the acreage planted to cotton on the farm is prevented by the farm operator, the farm marketing excess shall be the total number of pounds of cotton produced in 1955 on the farm. In the event the farm operator or any other producer on the farm establishes, in accordance with regulations to be issued under this part by the Secretary, the total number of pounds of cotton produced in 1955 on the farm, the farm marketing excess shall be the number of pounds of cotton produced in 1955 on the farm in excess of the normal production of the farm acreage allotment.

§ 722.623 *Publication of farm acreage allotments and marketing quotas.* One copy of each notice of the farm acreage allotment and marketing quota for farms in a county shall be placed in binders or folders, or in lieu thereof a listing of such allotments shall be prepared, and such notices or listing shall be kept freely available in the office of the county committee for public inspection for a period of not less than thirty calendar days. At the end of such period the copies of the notices or the listing shall be filed in the office of the county committee and remain readily available for further public inspection. If the county is divided into administrative areas, separate binders, folders, or listings shall be prepared and made available for inspection for each administrative area.

§ 722.624 *Successors-in-interest.* Any person who succeeds to the interest of a producer in a farm, or in a cotton crop, or in cotton for which a farm marketing quota and farm marketing excess were established, shall, to the same extent as his predecessor, be entitled to all the rights and privileges incident to such marketing quota and marketing excess and be subject to the restrictions on the marketing of cotton.

§ 722.625 *Marketing quotas not transferable.* A farm marketing quota is established for a farm and, except as specifically provided for in §§ 722.611 to 722.629, may not be assigned or otherwise transferred in whole or in part to any other farm.

MISCELLANEOUS PROVISIONS

§ 722.626 *Acreage planted to cotton*—(a) *Adjustment of acreage planted in excess of farm acreage allotment.* If the acreage determined to be planted to cotton on a farm in 1955 is in excess of the farm acreage allotment, the farm operator may, not later than a date established under instructions issued by the Deputy Administrator, adjust such planted acreage to the farm acreage allotment. The date established under such instructions shall afford farm operators a reasonable time for making such adjustments.

(b) *Underplanting the farm acreage allotment.* For any farm on which cotton is planted in 1955 and the acreage of cotton in 1955 is less than the 1955 farm acreage allotment by not more than the larger of 10 percent of the allotment or one acre, an acreage equal to the farm acreage allotment shall be deemed to be the acreage planted to cotton on the farm in 1955, and the additional acreage added to the cotton acreage history for the farm shall be added to the cotton acreage history for the county and State. The Deputy Administrator shall issue such instructions as are necessary for making the calculations required under this paragraph, taking into consideration the provisions of § 722.617 (i).

(c) *No credit for overplanting the farm acreage allotment.* Any acreage planted to cotton in 1955 in excess of the farm acreage allotment for the 1955 crop of cotton shall not be taken into account in establishing State, county, and farm acreage allotments for the 1956 and subsequent crops of cotton.

§ 722.627 *Availability of records.* The State and county committees shall make available for inspection by owners or operators of farms receiving cotton acreage allotments, all records pertaining to cotton acreage allotments and marketing quotas.

§ 722.628 *Approval of county committee determinations and redelegation of authority by the State committee*—(a) *Approval of county committee determinations.* The State committee shall review all acreage allotments and may revise or require revision of any determinations made under §§ 722.617 to 722.626. All acreage allotments for both old and new cotton farms shall be approved by the State committee, and no official notice of farm acreage allotment and marketing quota shall be mailed to a farm operator until such allotment has been approved by the State committee.

(b) *Redelegation of authority.* Any authority delegated to the State committee by the regulations in §§ 722.611 to 722.629 may be redelegated by the State committee.

REVIEW OF QUOTAS

§ 722.629 *Review of quotas*—(a) *Review committees.* Any producer who is dissatisfied with the farm acreage allotment or marketing quota established for his farm, or in the case of a new cotton farm with the action of the county committee in refusing to establish a farm acreage allotment or marketing quota for such farm, may, by making application within 15 days after the mailing to him of the notice provided for in § 722.620, have such allotment, quota, or determination reviewed by a review committee composed of three farmers appointed by the Secretary. The review committee shall, upon proper application, review the action of the county committee. The review committee in determining any farm acreage allotment or marketing quota shall, to the same extent as the county committee, be limited to the establishment of a farm acreage allotment or marketing quota in an amount which, under the act and regulations, should have been established. Unless such application is made within 15 days, the original determination of the farm acreage allotment or marketing quota shall be final. All applications for review shall be made in accordance with the marketing quota review regulations issued by the Secretary, a copy of which may be obtained from the county committee.

(b) *Court review.* If the producer is dissatisfied with the determination of the review committee, he may, within 15 days after notice of such determination is mailed to him by registered mail, institute proceedings against the review committee to have the determination of the review committee reviewed by a court in accordance with section 365 of the act.

NOTE: The reporting and record-keeping requirements contained herein have been approved by the Bureau of Budget in accordance with the Federal Reports Act of 1942.

Done at Washington, D. C., this 2d day of November 1954. Witness my hand and the seal of the Department of Agriculture.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Lemon Reg. 562]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.669 *Lemon Regulation 562*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 18 F. R. 6767), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on November 3, 1954 such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., November 7, 1954, and ending at 12:01 a. m., P. s. t., November 14, 1954, is hereby fixed as follows:

(i) District 1: Unlimited movement;
(ii) District 2: 222 carloads;
(iii) District 3: 18 carloads.

(2) The prorate base of each handler who has made application therefor, as provided in the said amended marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached to Lemon Regulation 561 (19 F. R. 6990) and made a part of this section by this reference.

(3) As used in this section, "handled," "handler," "carloads," "prorate base," "District 1," "District 2," and "District 3," shall have the same meaning as when used in the said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: November 4, 1954.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 54-8828; Filed, Nov. 5, 1954; 8:52 a. m.]

TITLE 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Agricultural Research Service, Department of Agriculture

Subchapter D—Exportation and Importation of Animals and Animal Products

PART 97—OVERTIME SERVICES RELATING TO IMPORTS AND EXPORTS

OVERTIME, NIGHT AND HOLIDAY INSPECTION AND QUARANTINE ACTIVITIES AT BORDER, COASTAL AND AIRPORTS

Pursuant to the authority conferred by the act of August 28, 1950 (64 Stat.

561; 5 U. S. C. 576), § 97.1, Chapter I, Subchapter D, Title 9 of the Code of Federal Regulations is hereby amended to read as follows:

§ 97.1 *Overtime work at border ports, seaports, and airports.* Any person, firm or corporation having ownership, custody or control of animals, animal by-products, or other commodities subject to inspection, certification, or quarantine under this subchapter and Subchapter F of this chapter, and who requires the services of an employee of the Animal Inspection and Quarantine Branch on a holiday, or at any other time outside the regular tour of duty of such employee, shall sufficiently in advance of the period of overtime request the Branch Inspector in charge to furnish inspection, certification, or quarantine service during such overtime period and shall pay the Administrator of the Agricultural Research Service at the rate of $4.68 per man hour per employee as follows: Each such period of overtime duty shall include the time on duty which shall be considered to be at least 2 hours in duration. In addition, each such period of overtime duty shall include a commuted travel time period not in excess of 3 hours. The amount of this period shall be prescribed in administrative instructions to be issued by the Chief of the Animal Inspection and Quarantine Branch for the ports, stations, and areas in which the employees are located, and shall be established as nearly as may be practicable to cover the time necessarily spent in reporting to and returning from such overtime duty if such travel is performed solely on account of such overtime duty. It will be administratively determined from time to time which days constitute holidays.

Finding. The cost of furnishing overtime services in accordance with the act of August 28, 1950 (64 Stat. 561) must be covered by funds collected from persons for whom such work is performed. Section 203 of Public Law 763, 83d Congress, approved September 1, 1954, provides an increase in the rate of overtime compensation for Federal employees. It is imperative, therefore, that the Service adjust the billing rate to adequately reimburse it for the inspection costs. Determination of the costs of such overtime inspection service depends entirely upon facts within the knowledge of the Department of Agriculture. It is to the benefit of the public that this amendment be made effective at the earliest practicable date. It is found, therefore, that the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong.; 60 Stat. 237), are impracticable and contrary to the public interest with respect to this regulation, and good cause is found for making this amendment effective less than 30 days after publication.

Effective date. The foregoing amendment shall be effective November 7, 1954.

(64 Stat. 561; 5 U. S. C. 576)

Done at Washington, D. C., this 2d day of November 1954.

[SEAL] M. R. CLARKSON,
Acting Administrator,
Agricultural Research Service.

[F. R. Doc. 54-8792; Filed, Nov. 5, 1954; 8:52 a. m.]

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

Subchapter A—Civil Air Regulations

[Supp. 13]

PART 40—SCHEDULED INTERSTATE AIR CARRIER CERTIFICATION AND OPERATION RULES

INSTRUMENT APPROACH PROCEDURES AND IFR LANDING WEATHER MINIMUMS AT AIRPORTS SERVED BY BOTH ILS AND GCA

This supplement interprets the provisions of § 40.406 (c) permitting an instrument approach procedure to be executed under certain conditions when the weather is reported below minimums.

A new § 40.406–3 is added to read:

§ 40.406–3 *Instrument approach procedures and IFR landing weather minimums at airports served by both ILS and GCA (CAA interpretations which apply to § 40.406 (c)).* (a) The instrument approach must be conducted in accordance with the information provided the pilot from the primary aid. The landing minimums must be those prescribed in the operations specifications based on the operative components of the primary aid. The information provided the pilot from the secondary aid must be used for monitoring purposes. Either ILS or GCA (PAR) may be used as the primary approach aid. When GCA (PAR) is used as a secondary aid, specific authorization for use of such aid is not required, however, the procedures specified in the Radar Procedures for Air Traffic Control Towers for monitored approaches must apply.

(b) Both the elevation and azimuth (or localizer and glide slope) elements of the secondary aid must be operating.

(c) The ILS and PAR must be aligned with the same runway. Straight-in or circling approaches may be made provided that weather conditions equal to or higher than the prescribed minimums for the primary aid are found to exist by the pilot-in-command upon reaching the authorized minimum altitude associated with the type of approach (straight-in or circling) being conducted.

(d) The use of operational military radar (other than training units) as a secondary aid is permissible without individual authorizations.

(e) The phrase "ceiling or visibility" as used in § 40.406 (c) means that either or both elements of the weather report may be reported below minimums.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This supplement shall become effective November 15, 1954.

[SEAL] S. A. KEMP,
Acting Administrator of Civil Aeronautics.

[F. R. Doc. 54-8765; Filed, Nov. 5, 1954; 8:45 a. m.]

[Civil Air Regs. Amdt. 49-1]

PART 49—TRANSPORTATION OF EXPLOSIVES AND OTHER DANGEROUS ARTICLES

DEVIATION FROM LIMITATIONS FOR ATOMIC ENERGY COMMISSION SHIPMENTS OF RADIOACTIVE MATERIALS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 3d day of November 1954.

Currently effective Part 49 of the Civil Air Regulations provides for the transportation by air of certain articles commonly classified as explosives or dangerous articles. The program of the Atomic Energy Commission requires the use of civil aircraft to transport radioactive materials, the movement of which is subject to the requirements and limitations as set forth in this part. The Civil Air Regulations applicable to radioactive materials are identical in substance with the ICC Regulations.

Generally, the United States Atomic Energy Commission finds no difficulty in complying with the regulations of Part 49 for air shipments. In certain instances, however, because of the chemical nature of a particular material, the quantity needed to be transported which is required for laboratory or medical use exceeds the 2,000 millicurie limitation prescribed by Part 49. The useful life span of certain materials also becomes an important factor in that it is of such short duration that the fastest means of transportation is needed to provide sufficient time for the efficient use of such materials.

In order to facilitate the movement of these materials in surface transportation, a simplified system has been approved by ICC for rail express shipments which provides for the use of deviation authority directly by the Atomic Energy Commission with respect to the quantity of radioactive material that can be carried in one package. This system provides that the Atomic Energy Commission may utilize a special permit by virtue of which it can ship greater quantities of radioactive materials in a package in rail express transportation provided that, in addition to making notification and using approved containers, the outside radiation of the package does not exceed the present limit. This has replaced the procedure which required an individual authorization from ICC for each shipment. The Civil Air Regulations presently require that deviation authority for each individual shipment shall be obtained from the Administrator, and in some instances this procedure could cause delay in the transportation of materials where time is a most important factor. This amendment will, therefore, vest deviation authority in the Atomic Energy Commission similar to that granted by the ICC rules.

From a safety standpoint, since the surface radiation of the package containing the additional units must not exceed 10 milliroentgens in 24 hours, which is the normal rate prescribed by Part 49, there will be adequate provision for the safety of those handling the package and those who occupy positions of close proximity to the package. The packaging will be secure in strength and will be fire-resistant inasmuch as the lead shield required to control radiation is also required to be enclosed in a steel container so that it will not flow away in case of fire. A means must be provided for applying an outside seal so that the container cannot be opened without destroying the seal. Each such shipment must be accompanied by a permit issued by the Atomic Energy Commission.

The Atomic Energy Commission must certify that the package offered for shipment by air meets all the requirements prescribed by Part 49 except the maximum quantity limitations, in which case the quantity shall be stated on the permit unless the package is personally escorted by Atomic Energy Commission personnel. Notification prior to each shipment must be given by the Atomic Energy Commission to the Civil Aeronautics Administration in the form and manner prescribed by the Administrator.

In § 49.18 the present references to the ICC Regulations are no longer correct. They have accordingly been changed and the new numbers substituted.

Interested persons have been afforded an opportunity to participate in the making of these amendments, and due consideration has been given to all relevant matter presented.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 49 of the Civil Air Regulations, effective December 8, 1954:

1. By amending § 49.71 to read as follows:

§ 49.71 *Special authority.* In emergency situations or where other forms of transportation are impracticable:

(a) Deviations from any of the provisions of this part for a particular flight may be authorized by the Administrator where he finds that the conditions under which the articles are to be carried are such as to permit the safe carriage of persons and cargo.

(b) Deviations from the 2,000 millicurie quantity limitation prescribed for radioactive materials by § 49.18 may be taken by the Atomic Energy Commission for Atomic Energy Commission shipments, provided that such shipments are made in accordance with the requirements approved by the Interstate Commerce Commission for shipment by rail express and prior notification of each shipment is given by the Atomic Energy Commission in the form and manner prescribed by the Administrator.

2. By deleting from § 49.18 the reference "§§ 73.368 through 73.369" (14 F. R. 2787) [1] and inserting in lieu thereof "§§ 73.391 through 73.394".

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601, 902, 52 Stat. 1007, 1015, as amended; 49 U. S. C. 551, 622)

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

[F. R. Doc. 54-8789; Filed, Nov. 5, 1954; 8:51 a. m.]

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 96]

PART 608—DANGER AREAS

ALTERATIONS

The danger area alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee, and are adopted to become effective when indicated in order to promote safety of the flying public. Since a military function of the United States is involved, compliance with the notice, procedure, an effective date provisions of section 4, of the Administrative Procedure Act is not required.

Part 608 is amended as follows:

1. In § 608.18, the Pinecastle, Florida, area (D–165), published on July 16, 1949, in 14 F. R. 4289, is amended by changing the "Designated Altitudes" column to read: "Surface to unlimited."

2. In § 608.18, the Pinecastle, Florida, area (D–340), published on July 16, 1949, in 14 F. R. 4289, is amended by Changing the "Designated Altitudes" column to read: "Surface to unlimited."

3. In § 608.18, the Pensacola, Florida, area (D–152), published on July 16, 1949, in 14 F. R. 4289, is rescinded.

4. In § 608.18, the Pensacola, Florida, area (D–153), published on July 16, 1949 in 14 F. R. 4289, and amended on August 27, 1954 in 19 F. R. 5476, is further amended by changing the "Description by Geographical Coordinates" column to read: "North boundary: Florida-Alabama coastline; South boundary: A line 3 nautical miles south of and parallel to the Florida-Alabama coastline. East boundary: A line 4.3 nautical miles west of the south course of Pensacola L/F RR. West boundary: Longitude 88°01'30", and including the area within 1.7 nautical miles of the following points. (a) Latitude 30°16'48", longitude 87°32'10" (b) Latitude 30°17'47", longitude 87°27'28" (c) Latitude 30°18'54", longitude 87°21'26"."

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall become effective on November 13, 1954.

[SEAL] F. B. LEE,
Administrator of Civil Aeronautics.

[F. R. Doc. 54-8763; Filed, Nov. 5, 1954; 8:45 a. m.]

[1] Appears in 14 CFR 49.18 as "§§ 73.393 and 73.394".

[Amdt. 76]

PART 610—MINIMUM EN ROUTE IFR ALTITUDES

MISCELLANEOUS AMENDMENTS

The minimum en route IFR altitudes appearing hereinafter have been coordinated with interested members of the industry in the regions concerned insofar as practicable. The altitudes are adopted without delay in order to provide for safety in air commerce. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

Part 610 is amended as follows: (Listed items to be placed in appropriate sequence in the sections indicated).

1. Section 610.15 *Green civil airway No. 5* is amended to read in part:

From—	To—	Minimum altitude
Big Spring, Tex. (LFR).	Colorado City (INT), Tex.	4,000
Colorado City (INT), Tex.	Abilene, Tex. (LFR).	3,600
Fort Worth, Tex. (LFR).	Bedford (INT), Tex..	1,900
Bedford (INT), Tex....	Farmers Branch (INT), Tex.	2,200
Farmers Branch (INT), Tex.	Greenville (INT), Tex.	1,900

2. Section 610.16 *Green civil airway No. 6* is amended to read in part:

From—	To—	Minimum altitude
Laredo, Tex. (LFR)....	Alice, Tex. (LFR) ...	1,900
Alice, Tex. (LFR).....	Corpus Christi, Tex. (LFR).	1,600

3. Section 610.104 *Amber civil airway No. 4* is amended to read in part:

From—	To—	Minimum altitude
Brownsville, Tex. (LFR).	Kingsville (INT), Tex.	1,300
Kingsville (INT), Tex.	Alice, Tex. (LFR) ...	1,400
San Antonio, Tex. (LFR).	Cibolo Creek (INT) Tex.	2,400
Cibolo Creek (INT), Tex.	Austin, Tex. (LFR)...	2,600

4. Section 610.107 *Amber civil airway No. 7* is amended to read in part:

From—	To—	Minimum altitude
Vero Beach, Fla. (LF/RBI).	Melbourne, Fla. (LFR).	1,300

5. Section 610.210 *Red civil airway No. 10* is amended to read in part:

From—	To—	Minimum altitude
Wichita Falls, Tex. (LFR).	Alvord (INT), Tex.	2,300
Alvord (INT), Tex.	Justin (INT), Tex.	2,100
Justin (INT), Tex.	Dallas, Tex. (LFR).	2,200

6. Section 610.215 *Red civil airway No. 15* is amended by adding:

From—	To—	Minimum altitude
Fallon, Nev. (LFR).	Desert Peak (INT), Nev.	10,000

7. Section 610.231 *Red civil airway No. 31* is amended to read in part:

From—	To—	Minimum altitude
Rapid City, S. Dak. (LFR).	Pierre, S. Dak. (LFR)	4,400

8. Section 610.247 *Red civil airway No. 47* is amended to read in part:

From—	To—	Minimum altitude
Tampa, Fla. (LFR).	Orlando, Fla. (LFR).	1,700

9. Section 610.268 *Red civil airway No. 68* is amended to read in part:

From—	To—	Minimum altitude
Hensley (INT), Tex.	Dallas, Tex. (LFR).	1,900

10. Section 610.296 *Red civil airway No. 96* is amended to read in part:

From—	To—	Minimum altitude
Arcola (INT), Tex.	Houston, Tex. (LFR).	1,400
Beaumont, Tex. (LFR).	Lake Charles, La. (LFR).	1,500

11. Section 610.602 *Blue civil airway No. 2* is amended by adding:

From—	To—	Minimum altitude
Int. SE crs. Craig AFB, Ala. (LFR) and N crs. Crestview, Fla. (LFR).	Greenville (INT), Ala.	1,500

12. Section 610.605 *Blue civil airway No. 5* is amended to read in part:

From—	To—	Minimum altitude
Dallas, Tex. (LFR).	Farmers Branch (INT), Tex.	1,800

13. Section 610.615 *Blue civil airway No. 15* is amended to read in part:

From—	To—	Minimum altitude
Akron, Ohio (ILS/LOM).	Alliance (INT), Ohio	2,500

14. Section 610.630 *Blue civil airway No. 30* is amended to read in part:

From—	To—	Minimum altitude
Kingsville (INT), Tex.	Corpus Christi, Tex. (LFR).	1,300
Corpus Christi, Tex. (LFR).	Clareville (INT), Tex.	1,400
Clareville (INT), Tex.	Losoya (INT), Tex.	1,700
Losoya (INT), Tex.	Kelly, Tex. (LFR).	2,000
Kelly, Tex. (LFR).	Medina (INT), Tex.	2,700
Medina (INT), Tex.	C. B. Ranch (INT), Tex.	3,500
C. B. Ranch (INT), Tex.	Big Springs, Tex. (LFR).	4,000

15. Section 610.638 *Blue civil airway No. 38* is amended to delete:

From—	To—	Minimum altitude
Banks (INT), Canada.	Annette Island, Alaska (LFR).	2,800
Annette Island,[1] Alaska (LFR).	Petersburg, Alaska (LFR).	7,100

[1] 5,000'—Minimum crossing altitude at Annette Island (LFR), northbound.

16. Section 610.644 *Blue civil airway No. 44* is amended to delete:

From—	To—	Minimum altitude
Advance, Mo. (LFR).	Paducah, Ky. (LF RBN).	1,700

17. Section 610.670 *Blue civil airway No. 70* is amended to read in part:

From—	To—	Minimum altitude
Ardmore, Okla (LF/RBN).	Okemah (INT), Okla.	2,700
Okemah (INT), Okla.	Tulsa, Okla. (LFR).	2,400

18. Section 610.679 *Blue civil airway No. 79* is amended by adding:

From—	To—	Minimum altitude
Banks (INT), Canada	Annette Island, Alaska (LFR).	2,800
Annette Island, Alaska (LFR).[1]	Petersburg, Alaska (LFR).	5,700

[1] 5,000'—Minimum crossing altitude at Annette Island (LFR), northwest-bound.

19. Section 610.1001 *Direct routes, United States* is amended by adding:

From—	To—	Minimum altitude
Culberson, Tex (VOR)	Gore (INT), Tex.	6,700
Carlsbad, N. Mex. (VOR).	Gore (INT), Tex.	6,600

20. Section 610.6002 *VOR civil airway No. 2* is amended to read in part:

From—	To—	Minimum altitude
Dickinson, N. Dak. (VOR), direct or N alter.	Bismarck, N. Dak. (VOR), direct or N alter.	4,000

21. Section 610.6003 *VOR civil airway No. 3* is amended to read in part:

From—	To—	Minimum altitude
Parkton (INT), Md.	West Chester, Pa. (VOR).	2,000
West Chester, Pa. (VOR).	Caldwell, N.J. (VOR)	2,000
Caldwell, N. J. (VOR).	Wilton, Conn. (VOR).	2,000

22. Section 610.6005 *VOR civil airway No. 5* is amended by adding:

From—	To—	Minimum altitude
Nashville, Tenn. (VOR).	Chattanooga, Tenn. (VOR).	4,000

23. Section 610.6008 *VOR civil airway No. 8* is amended to read in part:

From—	To—	Minimum altitude
Pittsburgh, Pa. (VOR)	Mount Pleasant[1] (INT), Pa.	3,000
Mount Pleasant (INT), Pa.	Flint Stone (INT), Md.	4,000
Flint Stone (INT), Md	Martinsburg, W. Va. (VOR).	4,000

[1] 4,000'—Minimum crossing altitude at Mount Pleasant (INT), eastbound.

24. Section 610.6014 *VOR civil airway No. 14* is amended to read in part:

From—	To—	Minimum altitude
Tulsa, Okla. (VOR).	Chelsea[1] (INT), Okla.	2,200
Chelsea[1] (INT), Okla.	Neosho, Mo. (VOR).	2,200

[1] 3,000'—Minimum reception altitude.

25. Section 610.6016 *VOR civil airway No. 16* is amended to read in part:

From—	To—	Minimum altitude
Memphis, Tenn. (VOR).	Fisherville[1] (INT), Tenn.	2,000
Fisherville[1] (INT), Tenn.	Jackson, Tenn. (VOR)	2,000

[1] 2,500'—Minimum reception altitude.

26. Section 610.6017 *VOR civil airway No. 17* is amended to read in part:

From—	To—	Minimum altitude
San Antonio, Tex. (VOR), via W alter.	Spring Branch[1] (INT), Tex., via W alter.	[2] 3,000
W[illegible], Tex. (VOR), via W alter.	Fort Worth, Tex. (VOR), via W alter.	[2] 2,300
W[illegible], Tex. (VOR).	Fort Worth, Tex. (VOR).	2,000

[1] 3,000'—Minimum reception altitude.
[2] 2,000'—Minimum terrain clearance altitude.
[3] 2,000'—Minimum terrain clearance altitude.

27. Section 610.6020 *VOR civil airway No. 20* is amended to read in part:

From—	To—	Minimum altitude
Pa[illegible], Tex. (VOR)	Houston, Tex. (VOR)	2,000
L[illegible] Charles, La. (VOR).	Lafayette, La. (VOR)	1,500

28. Section 610.6030 *VOR civil airway No. 30* is amended to read in part:

From—	To—	Minimum altitude
Idlewild, N. Y. (VOR)	Patchogue (INT), N. Y.	[1] 2,000
Patchogue (INT), N.Y	Mastic (INT), N. Y.	[1] 4,000

[1] 1,400'—Minimum terrain clearance altitude.

29. Section 610.6035 *VOR civil airway No. 35* is amended to read in part:

From—	To—	Minimum altitude
Pittsburgh, Pa. (VOR).	New Alexandria[1] (INT), Pa.	3,000
New Alexandria (INT), Pa.	Phillipsburg, Pa. (VOR).	[1] 4,000

[1] 4,000'—Minimum crossing altitude at New Alexandria (INT), eastbound.

30. Section 610.6040 *VOR civil airway No. 40* is amended to read in part:

From—	To—	Minimum altitude
Detroit, Mich. (VOR).	South Bass (INT), Ohio.	[1] 2,300
South Bass (INT), Ohio.	Marblehead (INT), Ohio.	3,000
Marblehead (INT), Ohio.	Bay (INT), Ohio.	[1] 2,500
Bay (INT), Ohio	Peru (INT), Ohio	2,000
Peru (INT), Ohio.	Wellington, Ohio (VAR).	2,000

[1] 2,000'—Minimum terrain clearance altitude.

31. Section 610.6042 *VOR civil airway No. 42* is amended to read in part:

From—	To—	Minimum altitude
Cleveland, Ohio (VOR)	Falls (INT), Ohio.	2,600
Falls (INT), Ohio	Atwater (INT), Ohio	2,500
Atwater (INT), Ohio	Sebring (INT), Ohio	3,700
Sebring (INT), Ohio.	Pittsburgh, Pa. (VOR)	2,600

32. Section 610.6051 *VOR civil airway No. 51* is amended by adding:

From—	To—	Minimum altitude
Birmingham, Ala. (VOR).	Chattanooga, Tenn. (VOR).	4,000

33. Section 610.6054 *VOR civil airway No. 54* is amended to read in part:

From—	To—	Minimum altitude
Little Rock, Ark. (VOR), via N alter.	Colt[1] (INT), Ark., via N alter.	2,500
Colt[1] (INT), Ark., via N alter.	Memphis, Tenn. (VOR), via N alter.	2,500
Little Rock Ark. (VOR).	Memphis, Tenn. (VOR).	2,500

[1] 2,800'—Minimum reception altitude.

34. Section 610.6057 *VOR civil airway No. 57* is amended by adding:

From—	To—	Minimum altitude
Birmingham, Ala. (VOR).	Muscle Shoals, Ala. (VOR).	2,500

35. Section 610.6058 *VOR civil airway No. 58* is amended to read in part:

From—	To—	Minimum altitude
Pittsburgh, Pa. (VOR).	New Alexandria[1] (INT), Pa.	3,000
New Alexandria (INT), Pa.	Phillipsburg, Pa. (VOR).	4,000

[1] 4,000'—Minimum crossing altitude at New Alexandria (INT), eastbound.

36. Section 610.6066 *VOR civil airway No. 66* is amended to read in part:

From—	To—	Minimum altitude
Culberson, Tex. (VOR)	Orno (INT), Tex.	6,300
Orno (INT), Tex.	Monahans (INT), Tex.	8,000
Monahans (INT), Tex.	Midland, Tex (VOR).	[1] 5,000

[1] 4,300'—Minimum terrain clearance altitude.

37. Section 610.6070 *VOR civil airway No. 70* is amended to read:

From—	To—	Minimum altitude
Pahcios, Tex. (VOR).	Galveston, Tex. (VOR).	[1] 1,500
Galveston, Tex. (VOR).	Water Way (INT), Tex.	[1] 3,000

[1] 1,400'—Minimum terrain clearance altitude.

38. Section 610.6081 *VOR civil airway No. 81* is amended to read in part:

From—	To—	Minimum altitude
Midland, Tex. (VOR)	Mustang (INT), Tex.	4,200
Mustang (INT), Tex.	Lubbock, Tex. (VOR)	5,100

39. Section 610.6089 *VOR civil airway No. 89* is amended to read in part:

From—	To—	Minimum altitude
Cheyenne, Wyo. (VOR), via Ealter.	Scottsbluff (INT), Nebr., via Ealter.	7,300
Scottsbluff (INT), Nebr., via Ealter.	Chadron, Nebr. (VOR), via Ealter.	6,500

40. Section 610.6093 *VOR civil airway No. 93* is amended to read in part:

From—	To—	Minimum altitude
Baltimore, Md. (VOR).	Parkton (INT), Md.	2,000
Parkton (INT) Md.	Lancaster (INT), Md	[1] 3,000

[1] 2,000'—Minimum terrain clearance altitude.

41. Section 610.6094 *VOR civil airway No. 94* is amended to read in part:

From—	To—	Minimum altitude
Salt Flat,[1] Tex. (VOR).	Carlsbad, N. Mex. (VOR).	10,500

[1] 9,800'—Minimum crossing altitude at Salt Flat (VOR), northeast-bound.

glutamate as an optional ingredient of the canned vegetables named above and requiring that when this ingredient is used the labels for such foods bear a precise statement of the presence of monosodium glutamate. Therefore, pursuant to the authority vested in the Secretary of Health, Education, and Welfare by the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 401, 52 Stat. 1046, as amended by 68 Stat. 54, 55; 21 U. S. C. 341), it is hereby ordered that the regulations containing the definitions and standards of identity for the foods named above (21 CFR 1953 Supp., 51.20, 51.30, 52.990) be amended as follows:

A. Part 51 is amended as follows:

1a. In § 51.0 *Identity; label statement of optional ingredients*, paragraph (c) is amended by renumbering subparagraphs (2), (3), (4), (5), (6), and (7) as (3), (4), (5), (6), (7), and (8), respectively, and inserting the following new subparagraph (2):

(2) Monosodium glutamate.

b. Section 51.0 (f) (6) is amended by changing the reference to "paragraph (c) (7)" to "paragraph (c) (8)".

c. Section 51.0 (f) is further amended by renumbering subparagraph (7) as (8) and inserting the following new subparagraph (7):

(7) If monosodium glutamate is used, the label shall bear the statement "Monosodium Glutamate Added" or "With Added Monosodium Glutamate."

2a. In § 51.10 *Canned green beans; identity; label statement of optional ingredients*, paragraph (a) is amended by inserting "monosodium glutamate," immediately after "salt,".

b. Section 51.10 (b) is amended by adding the following new subparagraph (6):

(6) If monosodium glutamate is used, the label shall bear the statement "Monosodium Glutamate Added" or "With Added Monosodium Glutamate."

3a. In § 51.20 *Canned corn, canned sweet corn, canned sugar corn; identity; label statement of optional ingredients*, paragraph (a) is amended by renumbering subparagraphs (2) and (3) as (3) and (4), respectively, and inserting the following new subparagraph (2):

(2) Monosodium glutamate.

b. Section 51.20 (d) (1) is amended by changing the reference to "paragraph (a) (3)" to "paragraph (a) (4)".

c. Section 51.20 (d) is further amended by renumbering subparagraph (2) as (3) and inserting the following new subparagraph (2):

(2) If monosodium glutamate is used, the label shall bear the statement "Monosodium Glutamate Added" or "With Added Monosodium Glutamate."

B. Part 52 is amended as follows:

1. In § 52.990 *Canned vegetables; identity; label statement of optional ingredients*, paragraph (c) is amended by adding the following new subparagraph, immediately following subparagraph (7):

(8) In the cases of all vegetables, monosodium glutamate may be added in a quantity sufficient to season the food.

* * * * *

2. Section 52.990 (f) is amended by adding the following new subparagraph (8):

(8) If monosodium glutamate is used, the label shall bear the statement "Monosodium Glutamate Added" or "With Added Monosodium Glutamate."

C. These amendments will permit the use of monosodium glutamate as an optional ingredient in canned wax beans (§ 51.15 (a)) and canned field corn (§ 51.30 (a)). It is unnecessary to alter the wording of these sections.

Any person who will be adversely affected by the foregoing order may at any time prior to the thirtieth day from the date of publication of this order in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare Room 5440, Health, Education and Welfare Building, 330 Independence Avenue SW., Washington 25, D. C., written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order, shall specify with particularity the provisions of the order deemed objectionable and the grounds for the objections, and shall request a public hearing upon the objections. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in quintuplicate.

Effective date. This order shall become effective on the sixtieth day after its publication in the FEDERAL REGISTER.

These rules shall become effective November 23, 1954.

[SEAL] F. B. LEE,
Administrator of Civil Aeronautics.

[F. R. Doc. 54-8664; Filed, Nov. 5, 1954; 8:45 a. m.]

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

PART 51—CANNED VEGETABLES: DEFINITIONS AND STANDARDS OF IDENTITY; QUALITY; AND FILL OF CONTAINER

PART 52—CANNED VEGETABLES OTHER THAN THOSE SPECIFICALLY REGULATED; DEFINITIONS AND STANDARDS OF IDENTITY

ORDER AMENDING DEFINITIONS AND STANDARDS OF IDENTITY FOR CERTAIN SPECIFIED CANNED VEGETABLES

In the matter of amending the definitions and standards of identity for the following canned vegetables: Peas, green beans, wax beans, corn (sweet corn, sugar corn) and field corn (Part 51) and artichokes, asparagus, shelled beans, bean sprouts, lima beans or butter beans, beets, beet greens, broccoli, brussels sprouts, cabbage, carrots, cauliflower, celery, collards, dandelion greens, kale, mushrooms, mustard greens, okra, onions, parsnips, black-eye peas or black-eyed peas, field peas, green sweet peppers, red sweet peppers, pimientos or pimentos, potatoes, sweet potatoes, rutabagas, salsify, spinach, Swiss chard, truffles, turnip greens, turnips (Part 52):

On August 28, 1954, a notice of proposed rule making was published in the FEDERAL REGISTER (19 F. R. 5523) setting forth proposals to amend the definitions and standards of identity for the foods named above by permitting monosodium glutamate to be used as an optional ingredient of each such food and requiring that when used the label bear a statement showing monosodium glutamate to be present. The notice allowed 30 days for interested persons to submit in writing their views regarding these proposals.

Upon consideration of the views presented and other relevant information, it is concluded that honesty and fair dealing in the interest of consumers will be promoted by permitting monosodium glutamate as an optional ingredient of the canned vegetables named above and requiring that when this ingredient is used the labels for such foods bear a precise statement of the presence of monosodium glutamate. Therefore, pursuant to the authority vested in the Secretary of Health, Education, and Welfare by the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 401, 52 Stat. 1046, as amended by 68 Stat. 54, 55; 21 U. S. C. 341), it is hereby ordered that the regulations containing the definitions and standards of identity for the foods named above (21 CFR 1953 Supp., 51.20, 51.30, 52.990) be amended as follows:

A. Part 51 is amended as follows:

1a. In § 51.0 *Identity; label statement of optional ingredients*, paragraph (c) is amended by renumbering subparagraphs (2), (3), (4), (5), (6), and (7) as (3), (4), (5), (6), (7), and (8), respectively, and inserting the following new subparagraph (2):

(2) Monosodium glutamate.

b. Section 51.0 (f) (6) is amended by changing the reference to "paragraph (c) (7)" to "paragraph (c) (8)".

c. Section 51.0 (f) is further amended by renumbering subparagraph (7) as (8) and inserting the following new subparagraph (7):

(7) If monosodium glutamate is used, the label shall bear the statement "Monosodium Glutamate Added" or "With Added Monosodium Glutamate."

2a. In § 51.10 *Canned green beans; identity; label statement of optional ingredients*, paragraph (a) is amended by inserting "monosodium glutamate," immediately after "salt,".

b. Section 51.10 (b) is amended by adding the following new subparagraph (6):

(6) If monosodium glutamate is used, the label shall bear the statement "Monosodium Glutamate Added" or "With Added Monosodium Glutamate."

3a. In § 51.20 *Canned corn, canned sweet corn, canned sugar corn; identity; label statement of optional ingredients*, paragraph (a) is amended by renumbering subparagraphs (2) and (3) as (3) and (4), respectively, and inserting the following new subparagraph (2):

(2) Monosodium glutamate.

b. Section 51.20 (d) (1) is amended by changing the reference to "paragraph (a) (3)" to "paragraph (a) (4)".

c. Section 51.20 (d) is further amended by renumbering subparagraph (2) as (3) and inserting the following new subparagraph (2):

(2) If monosodium glutamate is used, the label shall bear the statement "Monosodium Glutamate Added" or "With Added Monosodium Glutamate."

B. Part 52 is amended as follows:

1. In § 52.990 *Canned vegetables; identity; label statement of optional ingredients*, paragraph (c) is amended by adding the following new subparagraph, immediately following subparagraph (7):

(8) In the cases of all vegetables, monosodium glutamate may be added in a quantity sufficient to season the food.

* * * * *

2. Section 52.990 (f) is amended by adding the following new subparagraph (8):

(8) If monosodium glutamate is used, the label shall bear the statement "Monosodium Glutamate Added" or "With Added Monosodium Glutamate."

C. These amendments will permit the use of monosodium glutamate as an optional ingredient in canned wax beans (§ 51.15 (a)) and canned field corn (§ 51.30 (a)). It is unnecessary to alter the wording of these sections.

Any person who will be adversely affected by the foregoing order may at any time prior to the thirtieth day from the date of publication of this order in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare Room 5440, Health, Education and Welfare Building, 330 Independence Avenue SW., Washington 25, D. C., written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order, shall specify with particularity the provisions of the order deemed objectionable and the grounds for the objections, and shall request a public hearing upon the objections. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in quintuplicate.

Effective date. This order shall become effective on the sixtieth day after its publication in the FEDERAL REGISTER.

These rules shall become effective November 23, 1954.

[SEAL] F. B. LEE,
Administrator of Civil Aeronautics.

Dated: November 2, 1954.

NELSON A. ROCKEFELLER,
Acting Secretary.

[F. R. Doc. 54-8783; Filed, Nov. 5, 1954; 8:50 a. m.]

PART 141d—CHLORAMPHENICOL AND CHLORAMPHENICOL-CONTAINING DRUGS; TESTS AND METHODS OF ASSAY

PART 146a—CERTIFICATION OF PENICILLIN AND PENICILLIN-CONTAINING DRUGS

PART 146b—CERTIFICATION OF STREPTOMYCIN (OR DIHYDROSTREPTOMYCIN) AND STREPTOMYCIN- (OR DIHYDROSTREPTOMYCIN-) CONTAINING DRUGS

PART 146d—CERTIFICATION OF CHLORAMPHENICOL AND CHLORAMPHENICOL-CONTAINING DRUGS

MISCELLANEOUS AMENDMENTS

By virtue of the authority vested in the Secretary by the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, as amended by 61 Stat. 11, 63 Stat. 409, 67 Stat. 389; sec. 701, 52 Stat. 1055; 21 U. S. C. 357, 371; 67 Stat. 18), the regulations for tests and methods of assay for antibiotic and antibiotic-containing drugs (21 CFR Part 141d; 19 F. R. 1141) and certification of antibiotic and antibiotic-containing drugs (21 CFR Parts 146a, 146b, 146d; 19 F. R. 935, 1141, 1421, 2140) are amended as indicated below:

1. Part 141d is amended by adding the following new section:

§ 141d.310 *Chloramphenicol tablets*—(a) *Bioassay method.* Proceed as directed in § 141d.302 (a).

(b) *Spectrophotometric assay method.* Weigh accurately a counted number of not less than 10 tablets and determine the average weight per tablet. Reduce 10 tablets to a fine powder in a mortar and transfer an amount of powder containing 500 milligrams (estimated) of chloramphenicol to a 1,000-milliliter glass-stoppered volumetric flask. Add 50 milliliters of redistilled methanol to the flask and shake for at least 1 minute. Make to volume with distilled water and mix thoroughly. Transfer exactly 10 milliliters of this solution into a 250-milliliter glass-stoppered volumetric flask. Make to mark and mix thoroughly. Determine the absorbancy of this solution on a suitable spectrophotometer in a 1-centimeter quart cell at 278 millimicrons against a blank of distilled water.

$$\text{Milligrams of chloramphenicol per tablet} = \frac{\text{Absorbancy} \times 500 \times \text{average weight in milligrams}}{0.596 \times \text{weight of powder tested in milligrams}}$$

(c) *Chloramphenicol content.* When assayed by either of these methods, its potency is satisfactory if it contains not less than 85 percent of the number of milligrams of chloramphenicol per tablet that it is represented to contain.

2. In § 146a.45 *Procaine penicillin in oil*, subparagraph (3) (i) (*a*) of paragraph (d) *Request for certification* * * * is amended by changing the period at the end thereof to a comma and adding the following new clause: "unless it is intended solely for udder instillations of cattle or subcutaneous injections in fowl, in which case such sample shall consist of 1 package for each 5,000 packages in the batch, but in no case less than 5 packages or more than 12 packages."

3. In § 146a.52 *Procaine penicillin and crystalline penicillin in oil*, paragraph (a) (3) is amended by inserting in the second sentence, after the words "4 packages" the clause ", unless it is intended solely for udder instillations of cattle in which case such sample shall consist of not less than 6 packages,".

4. In § 146a.57 *Procaine penicillin and streptomycin in oil* * * *, paragraph (a) (4), second sentence, is amended by changing the word "four" to "six".

5. In § 146a.58 *Penicillin and streptomycin* * * *, paragraph (b) *Packaging* is amended by inserting in the second sentence, after the word "colorless", the parenthetical clause "(unless it is intended solely for veterinary use),".

6. In § 146a.67 *Procaine penicillin in streptomycin sulfate solution*, paragraph (b) *Packaging* is amended by inserting in the second sentence, after the word "colorless", the parenthetical clause "(unless it is intended solely for veterinary use),".

7. In § 146a.77 *Benzathine penicillin G for aqueous injection*, paragraph (b) *Packaging* is amended by inserting in the second sentence, after the word "colorless", the parenthetical clause "(unless it is intended solely for veterinary use),".

8. In § 146a.89 *Procaine penicillin-streptomycin-neomycin in oil* * * *, paragraph (c), second sentence, is amended by changing the figure "5" to "7", where it first appears.

9. In § 146b.106 *Streptomycin sulfate solution* * * * paragraph (b) *Packaging* is amended by inserting in the second sentence, after the word "colorless", the parenthetical clause "(unless it is intended solely for veterinary use),".

10. Part 146d is amended by adding the following new section:

§ 146d.310 *Chloramphenicol tablets.* Chloramphenicol tablets are tablets that conform to all requirements and are subject to all procedures prescribed by § 146d.302 for chloramphenicol capsules, except that the expiration date of such tablets shall be 24 months after the month during which the batch was certified.

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since it was drawn in collaboration with interested members of the affected industry and since it would be against public interest to delay providing for the amendments set forth above.

(Sec. 701, 52 Stat. 1055, as amended; 21 U. S. C. 371)

This order shall become effective upon publication in the FEDERAL REGISTER, since both the public and the affected industry will benefit by the earliest effective date, and I so find.

Dated: November 2, 1954.

[SEAL] NELSON A. ROCKEFELLER,
Acting Secretary.

[F. R. Doc. 54-8784; Filed, Nov. 5, 1954; 8:50 a. m.]

PART 146a—CERTIFICATION OF PENICILLIN AND PENICILLIN-CONTAINING DRUGS

PART 146c—CERTIFICATION OF CHLORTETRACYCLINE (OR TETRACYCLINE) AND CHLORTETRACYCLINE- (OR TETRACYCLINE-) CONTAINING DRUGS

PART 146e—CERTIFICATION OF BACITRACIN AND BACITRACIN-CONTAINING DRUGS

MISCELLANEOUS AMENDMENTS

By virtue of the authority vested in the Secretary by the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, as amended by 61 Stat. 11, 63 Stat. 409, 67 Stat. 389; sec. 701, 52 Stat. 1055; 21 U. S. C. 357, 371; 67 Stat. 18), the regulations for certification of antibiotic and antibiotic-containing drugs (21 CFR Parts 146a, 146c, 146e; 19 F. R. 672, 1141, 1647, 2140) are amended as indicated below:

1. In § 146a.77 *Benzathine penicillin G for aqueous injection*, paragraph (c) (1) (iii) is amended by changing the number "36" to "48".

2. In § 146c.207 *Chlortetracycline tablets* * * *, the context of the section is revised to read: "Chlortetracycline tablets and tetracycline tablets are tablets that conform to all requirements and are subject to all procedures prescribed by § 146c.204 for chlortetracycline capsules and tetracycline capsules, except that the average moisture content of the tablets is not more than 3.0 percent."

3. In § 146c.402 *Bacitracin ointment*, paragraph (f) (1) is amended by changing the number "24" to "36".

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since it was drawn in collaboration with interested members of the affected industry and since it would be against public interest to delay providing for the amendments set forth above,

(Sec. 701, 52 Stat. 1055, as amended; 21 U. S. C. 371)

This order shall become effective upon publication in the FEDERAL REGISTER, since both the public and the affected industry will benefit by the earliest effective date, and I so find.

Dated: November 2, 1954.

[SEAL] NELSON A. ROCKEFELLER,
Acting Secretary.

[F. R. Doc. 54-8785; Filed, Nov. 5, 1954; 8:50 a. m.]

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter I—Coast Guard, Department of the Treasury

Subchapter I—Procurement

[CGFR 54-44]

PART 116—PROCEDURES FOR PURCHASING

PART 118—CONTRACTS

MISCELLANEOUS AMENDMENTS

The amendments to §§ 116.03–31, 116.03–38, and 118.01–1 are editorial in nature to clarify requirements of existing procedure.

A new section designated § 116.03–49 sets forth a summary table of circumstances under which procurement may be effected by negotiation.

The amendments to §§ 116.03–55, 116.03–56, 116.03–58, 116.03–59, and 118.02–13 eliminate the use of Form CG–2974, Purchase-Invoice, and substitute Standard Form 44, U. S. Government Purchase Order-Invoice-Voucher.

A new section designated § 118.01–2 sets forth requirements to be satisfied by contracting officers in the execution of contracts.

The amendments to §§ 118.03–2, 118.03–3, 118.03–4, and 118.03–5 eliminate the use of a "Ceiling Prices" clause in Coast Guard contracts and require an additional clause regarding "Disputes" to comply with P. L. 356, 83d Cong., approved May 11, 1954.

By virtue of the authority vested in me as Commandant, United States Coast Guard, by Treasury Department Order No. 120, dated July 31, 1950 (15 F. R. 6521), the following amendments are prescribed:

1. Section 116.03–31 is amended by adding a headnote to paragraph (a) and by revising paragraph (b) to read as follows:

§ 116.03–31 *National emergency* (sec. 2 (c) (1))—(a) *Authorization.* • • •

(b) *Application.* During the period of the National Emergency covered by the determination set forth in paragraph (a) of this section, section 2 (c) (1) of the Armed Services Procurement Act of 1947 should generally be used as the authority to negotiate rather than other applicable circumstances contained in section 2 (c) of the act. However, procurement normally classified under the following sections of the act requires special determinations, findings, approval, and/or procurement action by the Commandant and will not be made under section 2 (c) (1) unless specifically authorized by the Commandant or the amount of the procurement is exempted from prior approval of the Commandant:

Procurement Act 1947 section:	CFR section
2 (c) (4)	116.03–34
2 (c) (5)	116.03–35
2 (c) (7)	116.03–37
2 (c) (8)	116.03–38
2 (c) (11)	116.03–41
2 (c) (12)	116.03–42
2 (c) (13)	116.03–43
2 (c) (14)	116.03–44
2 (c) (15)	116.03–45
2 (c) (16)	116.03–46
2 (c) (17)	116.03–47

2. Section 116.03–38 is amended to read as follows:

§ 116.03–38 *Supplies purchased for authorized resale* (sec. 2 (c) (8)). Pursuant to the authority of section 2 (c) (8) of the act, purchases and contracts may be negotiated "for supplies purchased for authorized resale" provided that prior approval has been obtained from the Commandant. However, procurement shall be effected by the Commandant when the probable cost will exceed $10,000.

3. Part 116 is amended by adding a new § 116.03–49 reading as follows:

§ 116.03–49 *Summary table.* The following summary table sets forth (a) the circumstances under which contracts may be entered into as a result of negotiation and without formal advertising, (b) the citation of the applicable sections of the Code of Federal Regulations, (c) the citation of the applicable section of the Armed Services Procurement Act of 1947, and (d) certain other data. Since the statutory exceptions to formal advertising are not all mutually exclusive, the table lists the exceptions in order of preference to assist contracting officers in selecting the preferred authority when a procurement can be negotiated properly under more than one authority.

Order of preference	Circumstances	Procurement Act, 1947, section	CFR section	Remarks
1	National emergency	2 (c) (1)	116.03–31	Use only when directed by commandant.
2	Purchases not in excess of $1,000	2 (c) (3)	116.03–33	Purchases not to be broken down in order to use this authority.
3 [1]	National Defense or Industrial Mobilization.	2 (c) (16)	116.03–46	Determinations and findings by commandant necessary.
4 [1]	Experimental, developmental, or research work.	2 (c) (11)	116.03–41	Determination and findings by commandant necessary if over $25,000.
5 [1]	Standardization and interchangeability.	2 (c) (13)	116.03–43	Determination and findings by commandant necessary.
6 [1]	Substantial investment or extended preparation.	2 (c) (14)	116.03–44	Determination and findings by commandant necessary.
7 [1]	Services of educational institutions.	2 (c) (5)	116.03–35	Determination and findings by commandant necessary.
8 [1]	Personal or professional services.	2 (c) (4)	116.03–34, 116.03–48	Contract must be approved by commandant.
9 [1]	Medicines or medical supplies	2 (c) (7)	116.03–37	Contracts over $10,000 restricted to commandant; special publicity required.
10 [1]	Authorized resale	2 (c) (8)	116.03–38	Use only after approval of commandant; contracts over $10,000 restricted to Commandant; special publicity required.
11	Perishable subsistence	2 (c) (9)	116.03–39	Questions as to perishable or nonperishable determined by commandant.
12	Competition impracticable	2 (c) (10)	116.03–40	Statement of justification by contracting officer necessary.
13	Purchases outside United States	2 (c) (6)	116.03–36	Applicability dependent on geographical area.
14	Public exigency	2 (c) (2)	116.03–32	Statement of justification by contracting officer necessary.
15 [1]	Negotiation after advertising	2 (c) (15)	116.03–45	Determination and findings by commandant necessary.
16 [1]	Otherwise authorized by law	2 (c) (17)	116.03–47	Use only after approval of commandant; statement of contracting officer required.
17 [1]	Classified purchases	2 (c) (12)	116.03–42	Determination and findings by commandant necessary; only confidential or higher.

[1] The execution of contracts indicated by this symbol is restricted to Commandant unless otherwise excepted under Remarks or the CFR section referenced in the table. The commandant's determination, findings, and/or approval in such cases must be filed with the original contract and made available for GAO audit.

4. Section 116.03–55 is amended by revising paragraph (b) (5) to read as follows:

SMALL PURCHASE PROCEDURES

§ 116.03–55 *General.* • • •

(b) *Definitions.* • • •

(5) *Order - Invoice - Voucher.* SF–44 (Aug. 1952 ed.), U. S. Government Purchase Order-Invoice-Voucher, documenting the purchase, amount billed and paid, quantity of articles, or satisfactory service delivered, received, or rendered.

5. Section 116.03–56 is amended by adding a new paragraph (c) (6) reading as follows:

§ 116.03–56 *Small purchases by district offices.* • • •

(c) *Use of cash purchase.* • • •

(6) *Purchase document required by vendor.* If a purchase document is required by the vendor to obtain government discounts or tax exemption or for other purposes, the vendor will be provided with a memorandum copy of SF–44, U. S. Government Purchase Order-Invoice-Voucher, which will be endorsed "Payment to be made in cash" if the vendor is to make delivery, or "Ship c. o. d." if shipment is by parcel post or carrier. Cash payment to the vendor will be accomplished as prescribed in subparagraphs (1) through (5) of this paragraph.

6. Section 116.03–58 is amended to read as follows:

§ 116.03–58 *Purchases by units with only supply officers attached.* All units with a supply officer, but without an assistant disbursing officer or agent cashier attached, will make contract or negotiated purchases within the monetary limitations authorized in paragraph (b) (8) and (9) of § 116.01–6. SF–44, U. S. Government Purchase Order-Invoice-Voucher, will be used to document the procurement action in accordance with § 118.02–13 of this subchapter.

7. Section 116.03–59 is amended to read as follows:

§ 116.03–59 *Purchases by units without assistant disbursing officers, agent cashiers, or supply officers*—(a) *General.* Headquarters units without assistant disbursing officers, agent cashiers, or supply officers, and district units in this

category specifically authorized by the district commander, will make small purchases under the order-invoice-voucher method. In such cases, funds must be reserved in advance of purchase action.

(b) *Use of order-invoice-voucher.* Standard Form 44, U. S. Government Purchase Order-Invoice-Voucher, will be used to document procurement under the order-invoice-voucher method. Detailed instructions for the preparation and distribution of SF–44 are set forth in § 118.02–13 of this subchapter. Small purchases by the units specified in the heading of this section will be limited to the following categories, subject to implementing instructions issued by the allotment administrative officer concerned (i. e., district commander or commanding officer of a Headquarters unit) for the control of funds chargeable with the cost of procurement:

(1) Requirements for items not stocked at the CG supply depot or center designated to support the unit, not to exceed $25.00 per transaction.

(2) Emergency requirements regardless of source. In such cases, a complete explanation of the emergency shall be entered on copies 1, 3, 4, and 5 of Standard Form 44 or on a memorandum attachment.

(3) Purchases of fuel, oil, lubricants, and gasoline. However, SF–44 will not be prepared when credit cards are used for service station deliveries in accordance with § 116.01–160.

(c) *Special authority.* When the $25.00 limitation prescribed by paragraph (b) (1) imposes a hardship on a unit of the category specified in the heading of this section, district commanders and commanding officers of Headquarters units may request authority to increase the monetary limitation to an amount not in excess of $100.00. Such requests will be submitted to the Commandant and shall contain complete justification of the need for an increase.

8. Section 118.01–1 is amended to read as follows:

§ 118.01–1 *Documentary evidence of purchases*—(a) *Requirements.* All purchase transactions made by a Contracting Officer will be evidenced by written contracts on approved contract forms, except those in which payments are made coincidentally with receipt of the supplies or services (i. e., cash purchases, as defined in § 116.03–55 (b) (2) of this subchapter) or as otherwise provided in paragraph (b) of this section. The following types of contracts and contractual instruments are authorized for Coast Guard use:

(1) Separate award type contracts, as defined in § 118.02–1.

(2) Combination award type contracts, as defined in § 118.02–2.

(3) Purchase orders documenting procurement by negotiation under the conditions set forth in § 116.03–25 of this subchapter.

(4) *Negotiated purchases not in excess of $1,000.* Negotiated purchases not exceeding $1,000, which are based on an oral quotation and involve only one payment, shall not require a written agreement but shall require a written acceptance (Purchase Order) signed by the Contracting Officer. If the purchase order is based upon a written quotation signed by the Contractor, or if the Contractor delivered some written instrument evidencing the Contractor's assent, the original of such written quotation or instrument must be attached to the purchasing unit's copy of the order, in accordance with § 118.02–9.

9. Part 118 is amended by adding a new § 118.01–2 reading as follows:

§ 118.01–2 *Execution of contracts; requirements*—(a) *Statement as to availability of funds.* The appropriation and allotment chargeable will be cited on all specific contracts, purchase orders, and delivery orders. The signature of a Contracting Officer on a contract, purchase order, or delivery order constitutes a certification of the availability and sufficiency of the funds cited.

(b) *Contracting officer's signature.* In the case of formal advertising, the personal signature of the Contracting Officer on the award consummates the contract. In the case of negotiated contracts, the Contracting Officer will personally sign on behalf of the United States after the Contractor has signed, except where otherwise required by the particular contract form. In addition, the Contracting Officer's rank or title will be indicated. Proxy and facsimile signatures are not permissible.

(c) *Signature by agents of contractors.* Contracts executed on behalf of Contractors by agents must be accompanied by evidence, satisfactory to the Contracting Officer, of the agent's authority so to do. In the case of corporations, the amount and type of evidence to be required to determine the authority of a particular agent to bind a corporation is for administrative determination by the Contracting Officer, subject to the limitation that the interest of the Government should be protected.

(d) *Contracts with partnerships.* Contracts entered into with partnerships will be executed in the partnership name and will enumerate the names of all the partners. The partnership contract need be signed by only one partner, provided the authority of the particular partner to effectively bind the partnership has been established.

10. Section 118.02–13 is amended to read as follows:

§ 118.02–13 *Standard form 44, U. S. government purchase order-invoice-voucher*—(a) *Description.* Standard Form 44, U. S. Government Purchase Order-Invoice-Voucher, is a five-part form published in books of twenty-five carbon interleaved sets. Its purpose is to minimize paper work and administrative expense and act as an incentive, to the mutual advantage of business and the Government, for sellers to do business with the Government by simplifying purchasing procedure and expediting payment. The form consists of the following copies contained in a cardboard cover, designated Standard Form 44, which sets forth general procedural instructions and provides a record for entry of purchase data peculiar to each transaction:

(1) Standard Form 44a, Seller's Invoice.

(2) Standard Form 44b, Seller's Copy of Invoice.

(3) Standard Form 44c, Receiving Report, Accounting Copy.

(4) Standard Form 44d, Memorandum Copy.

(5) Standard Form 44e, Additional Copy.

(b) *Limitations on use.* Standard Form 44 is authorized for accomplishing small purchases of supplies or services other than personal in accordance with §§ 116.03–58 and 116.03–59. Contracting officers may use Standard Form 44 in lieu of Form CG–2557, Purchase Order, in effecting procurement by negotiation for amounts less than $1,000: *Provided*, That only one pick-up or delivery is made, a single payment is contemplated, and no special contract form or clauses are necessary. Standard Form 44 may also be used to order items from General Services Administration stores depots when over-the-counter delivery can be effected.

(c) *Instructions for use*—(1) *General.* General procedural instructions governing the use of SF–44 are printed on the forms and the inside cover of the book. District commanders and commanding officers of Headquarters units may supplement the instructions contained on Standard Form 44 as necessary to provide local control for allotment accounting purposes, accountability and safeguarding of the forms, etc. However, local instructions shall not require the use of additional copies of the form for administrative needs nor may the format of the form be altered. Standard Form 44 shall be prevalidated as to the availability of allotted funds prior to issuance to the vendor in all cases where the procurement is not covered by a miscellaneous obligation document (Form CG–3089) or obligated against an allocation account. The prevalidation will be performed by the accounting office of the district or Headquarters unit or by the commanding officer of a suballotment unit, as applicable.

(2) *Negotiation authority.* All commercial purchases under this procedure will be negotiated under the authority of section 2 (c) (1), Public Law 413, 80th Congress during the period of the National Emergency, otherwise the authority will be under section 2 (c) (3), but the citation of this authority on Standard Form 44 is not necessary. Ordering offices will take advantage of competition whenever practicable to purchase supplies or services at the most favorable price to the Government; however, competition is not required in purchases of $100 or less where the price is known to be reasonably competitive. In any case, the prices paid for supplies or services must be just and reasonable and not above the established price for the quantity of items involved.

(3) *Preparation and distribution.* Standard Form 44 will be prepared in quintuplicate, insuring that all five copies of the form are legible. Order numbers will be assigned in the regular fiscal year series maintained for the unit.

When applicable, the miscellaneous obligation document (Form CG–3089) number furnished by the accounting office shall be included in the space entitled "Purpose (Project, etc.)." Autographic signatures shall be affixed to the original (Standard Form 44a) only, carbon impressions on the remaining copies. Upon preparation, distribution of Standard Form 44 will be effected as follows:

(i) Standard Forms 44a, 44c, 44d, and 44e will be returned promptly by the ordering employee to the purchasing unit.

(ii) Standard Form 44b will be delivered to the seller by the ordering employee.

(iii) Standard Forms 44a, 44c, and 44e will be forwarded promptly by the purchasing unit to the appropriate accounting office (authorized certifying officer) for settlement.

(d) *Accountability and safekeeping of standard form 44.* Each unit maintaining books of Standard Form 44 shall establish adequate control procedures to insure that the form is utilized only by ordering employees of the unit designated in writing for this purpose by the district commander or the commanding officer, as appropriate.

11. Section 118.03–2 is amended by revising paragraph (a) (30) to read as follows:

§ 118.03–2 *Standard clauses for fixed price contracts executed on SF–33—(a) Supply contracts.* • • •

Title	Embodying form	Note
(30) Disputes; Amendment of General Provisions.	Supplementary schedule.	3

12. Section 118.03–3 is amended by revising paragraph (a) (30) to read as follows:

§ 118.03–3 *Standard clauses for construction and repair contracts (real property) executed on SF–23—(a) General.* • • •

Title	Embodying form	Note
(30) Disputes; Amendment of General Provisions.	Supplementary schedule.	3

13. Section 118.03–4 is amended by revising Clause (33) of the table of Contract Clauses to read as follows:

§ 118.03–4 *Standard clauses for construction and repair contracts (vessels and aircraft) executed on SF–23.* • • •

Title	Embodying form	Note
(33) Disputes; Amendment of General Provisions.	Supplementary schedule.	5

14. Section 118.03–5 is amended by revoking paragraph (c) *Ceiling prices* and revising paragraph (o) to read as follows:

§ 118.03–5 *Special contract clauses.* • • •

(o) *Disputes; amendment of general provisions.* Clause ____, Disputes, of the General Provisions is subject to the provisions of P. L. 356, 83d Cong., approved May 11, 1954, which permits judicial review of the decision of the head of any agency (or his representative or board) under the Disputes clause where it is alleged that such decision is "fraudulent or capricious or arbitrary or so grossly erroneous as necessarily to imply bad faith, or it is not supported by substantial evidence."

(62 Stat. 21; 41 U. S. C. 151–161)

Dated: October 28, 1954.

PROPOSED RULE MAKING

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Parts 2, 11]

[Docket Nos. 9703, 10742; FCC 54–1369]

FREQUENCY ALLOCATIONS AND RADIO TREATY MATTERS; SPECIAL INDUSTRIAL RADIO SERVICES

NOTICE OF PROPOSED RULE MAKING

In the matter of revision of Subpart K of Part 11, rules governing the Special Industrial Radio Services; Docket No. 9703.

In the matter of amendment of § 2.104 *Table of frequency allocations*, of Part 2 of the Commission's rules; Docket No. 10742.

1. This proceeding involves a complete revision of the rules governing the Special Industrial Radio Service (Subpart K, §§ 11.501 through 11.504 of the Commission's rules). It was initiated by the adoption of a notice of proposed rule making on June 21, 1950, which was supplanted by a further notice issued February 13, 1953. The latter was in turn superseded on November 4, 1953, by a second notice of further proposed rule making (18 F. R. 7250) proposing a new and detailed set of rules which, with certain modifications, is hereby being adopted.

2. In response to the second notice more than one hundred comments were received. Most of them are directed to one or another specific provision recommending changes therein to accommodate a particular need of the commentator. A few are addressed to the proposal in its entirety supporting the objectives thereof, but criticizing certain details. There follows a section-by-section discussion and disposition of the proposal and comments.

Section 11.3 (x).

3. This section adopts the Census Bureau's definition of Standard Metropolitan Area (SMA). Operation of radio outside of a standard metropolitan area of 500,000 or more population forms the basis for eligibility under the proposed §§ 11.503 through 11.508. A similar restriction exists in the present rules (§ 11.501). Without it, interference between the users in densely populated centers may reasonably be expected seriously to impair the value of this service to those users who have established a need for this type of communications.

4. It has been recommended that the Standard Metropolitan Area concept be abandoned as unrealistic because many such areas, as defined by the Census Bureau, encompass desolate and sparsely populated lands where the use of radio is warranted and necessary. Therefore, a rigid adherence to the concept results in inequities. The Commission recognized the validity of this argument when it adopted, in June 1954, § 11.501 (d), as an interim measure pending the outcome of this proceeding (19 F. R. 3841). This rule provides for the making of exceptions to the standard metropolitan area concept when it is shown that the transmitter would in fact be used in an area of low population density removed from the urbanized sections of the SMA involved.

5. This provision supplies the desired flexibility and we are incorporating it into the new rules. It will enable us to grant relief to meritorious applicants, while retaining the desirable features of the SMA concept, e. g., the protection it affords to the on-the-job "communications", or "yard area" operations (see §§ 11.504 (c) and 11.506 (c) herein), which would be lost if the concept were abandoned.

Section 11.501.

6. This section describes the scope of service covered by the new rules and states that it will be the Commission's policy to consider requests for point-to-point microwave systems on a case-by-case basis. The Commission, assisted by representatives of manufacturers and users of microwave equipment, is engaged in a comprehensive study of private mircowave systems with a view to establishing a permanent licensing policy. Pending completion of this study, we consider it advisable to adopt the above policy. The rule is adopted as proposed.

Section 11.502.

7. This section describes generally the availability of the new service and explains that the classification of industries and activities into categories set forth in the succeeding sections is based on the Standard Industrial Classification Manual. The section is adopted as proposed, except for a clarifying change in paragraph (b) thereof.

Section 11.503.

8. This section proposes to establish the basis for authorizing the use of radio by persons engaged in agricultural activities which, as defined in paragraph (a), involve "the operation of farms or ranches for the production of crops or plants, vines or trees (excluding forestry operations), or for the keeping, grazing or feeding of livestock for animal products, animal increase, or value enhancement."

9. The last sentence of paragsaph (a) provides that "the processing (curing, packing, canning, smoking, freezing, etc.) of food on a farm is classed as an agricultural rather than a manufacturing activity if the raw materials are grown on that farm." One of the comments contends that "the point where such products enter wholesale or retail channels" should constitute the demarcation line between an agricultural and a manufacturing activity for the purpose of this section. Such a change would expand the definition beyond its intended limits and might create confusion by overlapping the area of manufacturing activities subject to § 11.505. The section is, accordingly, adopted as proposed, with the addition of a clause permitting exceptions to the SMA restriction.

Section 11.504.

10. This section proposes to establish the basis for authorizing the use of radio by persons engaged in heavy construction activities which are defined as those "directly involved in the construction of engineering projects, such as highways and streets, bridges, sewers, railroads, irrigation projects and marine construction, and miscellaneous types of construction work other than buildings".

11. Numerous comments oppose the proposed exclusion from this section, and from eligibility in the Special Industrial Radio Service generally, of "the functions performed by general contractors engaged in the construction of residential, farm, industrial, commercial, public, or other buildings, or by establishments specializing in plumbing, painting, electrical work, masonry, plastering, carpentry, or other special construction trades". Persons engaged in these functions are authorized in the Special Industrial Radio Service under the present rule. They qualified either by showing that they would operate outside standard metropolitan areas of 500,000 or more population, or by showing that their operation within such areas would be limited to "a construction project of a public character"; a few may have established eligibility under § 11.501 (d) exception to the SMA restriction. Some of these licensees would remain eligible under the proposal; others would have to discontinue operation after the expiration of the five year amortization period. The latter object. All point out that radio has been useful in the conduct of their business.

12. The determination that those engaged in "heavy construction activities" should be eligible in the Special Industrial Radio Service and the persons engaged in the activities enumerated above should not be so eligible has been predicated on the relative need for radio-communications in this service in connection with the functions generally performed by each of these two groups. The contractors engaged in "heavy construction" use radio to direct, control and coordinate the movements of heavy equipment (which frequently itself has to be radio equipped for safety and efficiency) and material over comparatively wide and often not readily accessible areas, e. g., in the construction of dams, piers, or railroads. The group we proposed to exclude did not appear to have comparable requirements. Their need appeared to have been confined chiefly to the dispatching of salesmen or supervisory personnel, or to a requirement for similar administrative type traffic which would not be permitted in this service (see § 11.511), but which could be accommodated in the Citizens Radio Service. Such needs as they appeared to have had for "on-the-job" communications seemed capable of being met under the Low-Power Industrial Radio Service.

13. The comments have not persuaded us that the proposed classification is not a reasonable and necessary method of channeling the limited number of available frequencies to those users who, on the basis of the type and nature of construction in which they engage, have the greatest need for radio communications. Only by such selective process can we insure the use of radio in the public interest. We recognize, however, that builders engaged in vast residential, farm, commercial, industrial or public construction, may have a requirement for "on-the-job" radio communications comparable to that of persons in the "heavy construction" category which cannot be met with a low power facility. Accordingly, if these persons can show that the use of Low Power Industrial Radio Service does not meet their communication requirement, they will be eligible in the Special Industrial Radio Service for the use of radio exclusively for "on-the-job" communications at the site of a particular construction, regardless of whether such construction is within or without a standard metropolitan area. Since these activities do not come within the definition of "heavy construction activities" contained in the Standard Industrial Classification Manual we are not placing them under § 11.504 but adding a new section designated as "§ 11.505—*Building construction activities*". The succeeding sections are renumbered accordingly.

14. This relaxation of the proposed eligibility does not cover "establishments specializing in plumbing, painting, electrical work, masonry, plastering, carpentry, or other special construction trades". The Low Power Industrial Radio Service seems especially suitable for their "on-the-job" communication needs. If the construction project on which they work has a radio system in the Special Industrial Service, these requirements could be also accommodated through it. And the Citizens Radio Service is also available to these establishments.

15. We are extending to all persons desiring to qualify under § 11.504 the requirement of a showing that the Low Power Industrial Radio Service does not meet their communication needs. This is a further step designed to save frequencies and to protect and increase the usefulness of the Special Industrial Radio Service, particularly in connection with the "yard area" or "on the job at the construction site" use of it in crowded metropolitan areas.

16. Comments filed by the pipe line construction contractors for the petroleum industry point out that pipe line construction is not specifically mentioned in the proposed rules. This type of operation comes within the definition of "heavy construction activities", Major Group 16, Standard Industrial Classification Manual Volume II (Non-manufacturing Industries) on which the classifications herein are based, specifically includes pipe line construction.

17. Section 11.504 is adopted as revised in accordance with the foregoing discussion. Paragraph (c) has been rewritten to make it clear that the authority which may be granted thereunder, for one year to locate base stations one quarter mile from the construction site in a Standard Metropolitan Area, may be renewed if the project continues beyond that period. Further to relax or extend, however, this quarter mile limitation, would impair the value of the service.

Section 11.505.

18. This section proposes to establish the basis for the use of radio by persons engaged in manufacturing activities which are defined as those "directly involved in the mechanical or chemical transformation of organic or inorganic substances into new products, within establishments usually described as plants, factories, shipyards, or mills and which employ, in that process, power-driven machines and materials-handling equipment."

19. Opposition has been registered to the proposed continuance of the present policy of confining mobile station operation to the physical limits of the licensee's yard area, except for plant protection purposes, when the yard area is inside a Standard Metropolitan Area of 500,000 or more population. It has been argued that many manufacturing operations encompass several noncontiguous yard areas traversed by rivers, highways, etc., making the single yard area limitation unrealistic; that the use of yard area radio to dispatch vehicles to outlying wharves, warehouses and railroad sidings is an integral and necessary part of manufacturing operation performed inside such area; that the interference producing characteristic of yard area operation would not be substantially increased by permitting associated mobile units to operate outside the physical limits of the yard area. It has been recommended that yard area base stations be permitted to communicate with all associated mobile units within communication range, and that if special regulation is needed to reduce interference occasioned by such operation, it should take the form of limiting base station power and antenna height. In other words, it has been argued that the use of radio within standard metropolitan areas for general dispatching purposes should be sanctioned.

20. The concept of limited use of radio within standard metropolitan areas has

been employed throughout this proposal and general dispatching is not consistent with it. We do not find that manufacturing concerns as distinguished from other classes of special industrial users have presented sufficient facts either in the petition filed by the Committee on Manufacturer's Radio Use (see Memorandum Opinion adopted February 3, 1954, FCC 54–152) or in the comments filed by the same group in this docket which would justify an unqualified exception to this concept. We do recognize, however, that a need for communications outside a single plan area under certain circumstances described in the preceding paragraph and in the aforementioned documents has been shown. Accordingly, we are defining the term "yard area" so as to include all contiguous sites, as well as non-contiguous sites within close proximity of each other, operated by the licensee as an integrated manufacturing unit.

21. Certain editorial changes in the definition of manufacturing activities have been recommended. We do not believe they are necessary. Accordingly, we are adopting this section as proposed and renumbering it § 11.506[1]

Section 11.506.

22. This section proposes to establish the basis for the use of radio by persons engaged in mining activities which are defined as those "directly involved in the process of recovery of solid fuels, minerals, or metals from the earth or from the sea by means of mining, quarrying, dredging, chemical extraction, deep-well operation, or similar process." No substantive changes in this section have been recommended or requested.

23. The proposed limitation on station location (paragraph (c)) provided that no base or operational fixed station would be authorized for operation at temporary locations within any SMA of 500,000 or more population. The provision for making exceptions to the SMA restrictions which we are incorporating into these rules makes such a rigid limitation unnecessary. Accordingly, paragraph (c) of § 11.506 is being revised to conform to the comparable provision applicable to the other activities, e. g., § 11.503 (c) and renumbered § 11.507. Otherwise the section is adopted as proposed.

Section 11.507.

24. This section proposes to establish the basis for the use of radio by persons engaged in specialized industrial service and trade activities which are defined as "those commercial or industrial activities directly involved in providing specialized functions, services or materials, under contract, to single categories of persons who are themselves eligible, in certain of the Industrial Radio Services, to use radio in connection with the performance of the same functions." The activities recognized in accordance with the foregoing are enumerated in considerable detail.

25. Several requests have been made to include certain activities, e. g., fertilizing, piledriving, etc., which come within the enumerated categories, but have been omitted. We have done so by making appropriate revisions in the definition.

26. Comments filed by the American Telephone and Telegraph Company, the United States Independent Telephone Association, and the United States Department of Agriculture (REA) request that their communication requirements stemming from the right-of-way construction and plant maintenance problems be recognized under this section or the proposed § 11.508 or § 11.509. We propose to institute rule making in the near future to provide for these requirements, which, it would appear, can be satisfied by amending Part 6, rules governing Public Radiocommunication Service. The use of radio in this service by telephone companies in connection with the activities involved in the construction of utility right-of-way itself, is being provided for in § 11.504.[2]

27. The section is adopted with a clause permitting exception to the SMA restriction, and renumbered § 11.508.

Section 11.508.

28. This section proposes to establish the basis for the use of radio by persons engaged in general industrial service and trade activities which are defined as those commercial or industrial activities directly involved in providing specialized functions, services or materials which are essential to the efficient conduct of miscellaneous industrial processes. The delivery and pouring of ready-mixed concrete and hot asphalt mix are included in this group; sand and gravel deliveries are not. Objections have been made to their exclusion.

29. As stated in the second notice, the distinctions between these activities is based upon the fact that ready-mixed concrete and hot asphalt are perishable products and proper timing of deliveries is essential to avoid loss. This consideration does not apply to the deliveries of sand and gravel. Their case for eligibility in the Special Industrial Radio Service is neither better nor different from that of a countless number of service and delivery activities which have not been included because the available frequencies are insufficient.

30. An objection has been made to the proposed exclusion of the deliveries and pouring of ready-mixed concrete and hot asphalt from SMA of 500,000 or more population. The provision for making exception to this restriction which we are adopting will permit a disposition of meritorious requests for the use of radio within such areas on a case-by-case basis. With this modification the section is adopted as proposed, and renumbered § 11.509.

Section 11.509.

31. This section proposed to establish the basis for the use of radio for "on-the-job" communications by persons engaged in engineering service activities which were defined as those directly involved in the conduct of topographical or geological surveys and surveys connected with the siting, construction and adjustment of antennas. No population limitations on the use of radio by this group were proposed.

32. The definition has been expanded to include geophysical, geomagnetic, natural resources and similar surveys within the class of engineering activities eligible under this section. Also, field intensity and proof of performance surveys have been added.

33. A civil engineering firm engaged in land surveying and topographic mapping claims a requirement for communication from the survey crew to the main office where property records are maintained and calculation performed which is beyond the scope of the proposed limitation to "on-the-job" communications between members of the same engineering field party. This appears to be a special requirement of this and possibly a small number of other engineering firms that function in the manner described. As such it does not justify the making of an exception to the proposed limitation on communications. This limitation is especially necessary because the use of radio in connection with engineering activities is not subject to population restrictions imposed on other users. The section is adopted as revised and renumbered § 11.510.

Section 11.510.

34. This section proposes to establish the basis for the use of radio by persons engaged in miscellaneous public service activities. They are defined as those "directly involved in the conduct of commercial or industrial enterprises which are considered essential to the health or immediate welfare of a large segment of the general public and are not classed among those commercial or industrial activities for which other specific provision has been made in the Commission's rules". The activities recognized in accordance with the foregoing are specifically listed. Stations authorized under this rule would have to be located and operated outside Standard Metropolitan Areas of 50,000 or more population.

35. Among those eligible under this section are fuel oil and liquefied petroleum (L. P.) gas distributors who use trucks to deliver their products to the consumer. Presently, these trucks are licensed in the Highway Truck Radio Service which permits radio to be used in conjunction with the operation of trucks on a route basis outside of Metropolitan Areas.[3] A number of truck operators, including two associations and the Federal Civil Defense Administration, filed comments opposing the proposed requirement that all radio facilities be located and operated exclusively outside Standard Metropolitan Areas of 50,000 or more population. Some claim that the rule, if adopted, would place them at an unjustifiable competitive disadvantage. Others seek to raise to 500,000 the proposed population restriction. A few argue that special consideration should be given to distributors in New England and other areas that experience severe winters.

36. It has been contended that the proposed 50,000 population restriction would deprive of radio 14 percent of all liquefied petroleum gas distributors presently licensed; that large bulk plant operators would be hardest hit, 8½ percent of whom would be ineligible even under a population restriction of 500,000; that the assumption that standard metropolitan areas are adequately served by communications common carriers is not well taken; that L. P. gas is highly inflammable and therefore inherently dangerous; that trucks carrying L. P. gas should be regarded as extensions of city gas mains into areas not served by public utilities; that since local zoning laws normally require bulk plants to be built in thinly populated areas, the problem of operating inside populous regions is self-limiting; that since there is normally little demand for L. P. within urban areas, the Commission should look to the area served rather than making station location controlling; and that the liquefied petroleum industry is working closely with the FCDA in the development of a program to use L. P. gas at hospitals and other institutions in lieu of regular fuels in the event of enemy attack.

37. As previously indicated, the rules under which liquefied petroleum gas distributors presently operate do not permit the use of radio for truck routes within a single metropolitan area. Since all cities of 50,000 and more population are included in these areas, it would not appear that the proposed rule would have any substantial effect on any L. P. distributor who is operating in accordance with present regulations. Nor would the proposal appear adversely to affect the FCDA-L. P. industry war emergency program. Notwithstanding the restrictions applicable under normal conditions, radio equipped fuel and L. P. gas trucks, in the event of enemy attack, would be allowed to communicate inside large population centers under the enabling provisions of § 2.405 of the Commission's rules governing the operation of authorized radio facilities during emergencies.

38. We recognize the validity of the point that metropolitan areas of 50,000 or more population may include remote and sparsely settled locations served by fuel and L. P. gas distributors. This combined with the fact that such distributors rarely deliver their products within cities, appears to indicate that, while a restriction of the type proposed is needed, the SMA concept may not be altogether suitable for this purpose. Accordingly, we are changing it to a city concept, i. e., stations authorized under this section may not be located or operated within the city limits of any city of 50,000 or more population.

39. We have been asked to include plumbing and heating contractors within the group of persons eligible under this section. For the reasons already discussed in connection with § 11.504 this request may not be granted.

40. Section 11.510 is adopted as proposed with the change discussed above and renumbered § 11.511.

Section 11.511.

41. This section deals with permissible communications. In general, communications in this service must be confined to the specific activities in connection with which eligibility has been established. Administraitve type traffic, e. g., sales reports, or the dispatch of salesmen is prohibited. Exception has been taken in one of the comments to the latter restriction on the ground that messages of this character often directly affect production efficiency. We do not dispute this contention; however, sound principles of frequency utilization and spectrum conservation militate against permitting this kind of usage.

42. We are deleting the proposed paragraph (b) as unnecessary; otherwise the section is renumbered § 11.512 and adopted substantially as proposed.

Section 11.512.

43. Briefly, this section proposes to prohibit (1) the licensing of mobile relay stations within the continental limits of the United States, and (2) non-safety communications between base stations.

44. Mobile relay stations may presently be authorized under § 11.7 (b) upon a showing of a substantial need therefor. We proposed to discontinue their licensing because these operations must employ two mobile service frequencies and are, therefore, considered to be inherently wasteful of spectrum space. Opponents of this proposal contend that the processing of mobile relay stations requests under § 11.7 (b) should continue; otherwise the Commission would be discriminating against Special Industrial users as distinguished from other applicants in the various Industrial Radio Services.

45. We are partly meeting this objection by making provision for mobile relay stations on the frequencies above 450 Mc, to operate in conjunction with Special Industrial systems using frequencies in the same portion of the spectrum. These frequencies are better able to stand the load which will result from a duplex method of operation than those in the VHF band. Accordingly, we are unable to permit the continued use of VHF frequencies for Special Industrial mobile relay operations.

46. Non-safety communications between base stations are presently permitted on a secondary basis when wirelines are unavailable, or the message is of immediate importance to mobile units. Because these are essentially fixed service operations, we proposed to prohibit their conduct on mobile frequencies in a mobile service. Opponents of this proposal advocate continuance of the existing section. They assert that, if the proposal is adopted, present operations would be critically hampered; remotely placed temporary base stations (at drilling site, for example) would, in order to comply with the rule, have to communicate back to the main base station via one or more mobile units, thus increasing channel loading; that the higher frequencies available for point-to-point (operational fixed) communications are in some instances (as in the case of remotely situated ranches and mines) unsuitable because of unfavorable terrain or distance.

47. While we adhere to the proposition that until the demands for mobile service are satisfied, a prohibition of point-to-point traffic on mobile frequencies is reasonable, we recognize that there is merit in the above arguments. Accordingly, we are providing for inter-base station communication, beyond purely safety requirements, upon specific showing of need. Applications containing such showings must spell out the applicant's need in terms of station location and operating requirements, and must clearly demonstrate that the use of fixed service frequencies would not meet those requirements.

48. With the foregoing changes the section is adopted, and renumbered § 11.513.

Section 11.513.

49. This section proposes to limit temporary base station frequency assignments to certain designated frequencies, when operating outside the direct communication range of one or more permanent base stations licensed to the same person. It is intended to limit the disruptive effects of transient users in areas where permanently established Special Industrial systems are functioning.

50. Opposition to this proposal is based on the argument that supervisors' vehicles which shuttle back and forth between permanent and temporary base stations, would in some instances have to be equipped to received on two frequencies. In answer, it is pointed out that these users may license all facilities, including base stations at permanent locations, on a single temporary base station frequency, thus obviating the "two-frequency" problem. The number of interference complaints which we receive in connection with the activities of transient users requires us to limit base station frequency assignments as proposed, especially since no practicable means exists for coordinating locally the frequencies assigned to transient systems. The section is adopted as proposed and renumbered § 11.514.

[1] In disposing of this section, we considered the comment of the Committee on Manufacturers Radio Use which was filed late with a petition for leave. The Committee's request that "the Commission reinstate in full its Petition for the Establishment of a Manufacturers Radio Service" is hereby denied. That Petition was fully considered and disposed of in a Memorandum Opinion adopted February 3, 1954, FCC 54–152.

[2] The National Rural Electric Cooperative Association has also urged that REA cooperatives operating both power and telephone systems be permitted to use stations licensed in the power radio service in connection with the construction, maintenance, or repair of rural telephone outside plant facilities. This request is beyond the scope of the present proceeding; it will, however, receive consideration in relation to the power radio service rules.

[3] We proposed to transfer this type of trucking operation, as distinguished from common or contract carriers, into the Special Industrial Radio Service on the theory that, on the basis of the functions performed, persons who are not engaged in the trucking business as such, but use trucks only as a means of carrying on some other business (e. g., the delivery of fuel oil), should be licensed in one of the industrial services rather than a land transportation service. See the Report and Order in Docket 10743 adopted September 1, 1954, FCC 54–1107.

Sections 11.514, 11.515 and 11.516.

51. These sections contain the table of frequencies available for assignment to base, mobile and operational fixed stations in the Special Industrial Radio Service.

52. One of the licensees operating on 154.57 Mc in the Special Industrial Service objects to the deletion of this frequency which is presently shared with the Low Power Industrial Service. Henceforth this frequency will be exclusively allocated to the latter service. It appears that the facility involved can be relicensed in the Low Power Industrial Service. The licensee admits that the 3 watt power limit of that service meets its needs. The licensee is, therefore, not adversely affected by the proposed frequency deletion.

53. The frequency 173.375 Mc which is presently allocated to the Relay Press Radio Service and the Motion Picture Radio Service was proposed to be made available also to the Special Industrial Radio Services on a shared basis with the other services. The American Newspaper Publishers Association objects to this proposal. The Relay Press Radio Service has made, so far, only limited use of this frequency. Only five systems are operating on it. We recognize, however, that this service may not have yet had the opportunity to reach its full development and that the proposed sharing of 173.375 Mc with the Special Industrial Service might impair its usefulness to the Relay Press Radio Service and thereby prevent its further expansion. We are, therefore, abandoning the proposed reallocation of this frequency at this time. We point out, however, that whenever a service fails fully to utilize a desirable frequency, demands for its reallocation to other services may be expected to arise.

54. Recommendations have been made to improve frequency utilization by such means as geographic assignment of frequencies, reduction of channel spacing (split-channel assignments), reallocation of additional spectrum space to the Special Industrial Radio Service, etc. These matters are beyond the scope of this proceeding. Some of them, notably the possibilities of split-channel assignments are currently under study. The matter of protecting TV reception from interference caused by the nonbroadcast fixed operations in the 72–76 Mc band, toward which a comment has been directed, will be governed by the policy recently adopted in Docket 10315 (FCC 54–814, July 2, 1954).

55. The frequency allocation tables are adopted with certain editorial changes, and the sections are renumbered §§ 11.515, 11.516, and 11.517, respectively.

56. Aeronautical Radio Inc. requested that a new category of service entitled "Airport Vehicular Activities" be established within the framework of the proposed Special Industrial Radio Service. Radio would be used in connection with airport supply, maintenance and service operations. No provisions for such primarily nonsafety communications are made in the Commission's rules governing the Aviation Services. It is claimed that the Low Power Industrial Service presently used in the ten airports to provide this type of service cannot accommodate further expansion. We are of the opinion that the need for this service can be satisfied elsewhere. Basically, the need appears to be confined to short range communications over flat areas for which the Citizens Radio Service (460–470 Mc) can be used successfully. And the exclusive allocation of the frequency 154.57 Mc to the Low Power Industrial Radio Service should provide additional room for operation in that service.

CONCLUSIONS

57. The new Special Industrial Radio Service rules specifically delineate the various categories of industrial activities for which radio communications are provided. Our experience with the existing regulations framed in broad general terms, has caused us to decide upon this approach. Fundamentally, this has been a process of inclusion and exclusion necessitated by the fact that there are not enough frequencies for all who may desire to use radio in their business. The choice has been based on the need of a given industrial class or group for radio communications and not on a special need, however meritorious standing alone, of an individual member where the group as such could get along without radio. Thus, there are existing licensees who have been authorized in the Special Industrial Radio Service during its recent rapid growth and certain private truckers now licensed under the part of the Highway Truck Radio Service transferred into the new Special Industrial rules who are not eligible under the new rules because they perform an industrial activity which as such cannot justify a claim on these scarce frequencies.

58. These nonconforming users, some of whom were authorized after the second Notice was issued in November 1953 and whose licenses are expressly conditioned on the outcome of this proceeding, may continue to operate for five years from the effective date of the rules adopted herein. This period will enable them to amortize their equipment investment. They will not be permitted however during that period to expand their facilities or operations. The licensees required only to change frequency in order to conform their operation to the new rules shall do so within one year from the effective date of these rules or upon renewal of their license, whichever event occurs later.

59. We come now to the question of whether this proceeding should be concluded with the adoption of the foregoing as our final disposition of the issues raised by the comments, or whether further proceedings should be held herein. The proposed new rules for the Special Industrial Radio Service are detailed and in some respects quite complex. They evoked a considerable interest among the licensees and prospective users of this service as attested to by the volume of comments received. Several of these comments touched upon difficult and controversial problems, such as the extent of eligibility in and the scope of the service. The preceding paragraphs represent what on the basis of the record before us and our experience in this field appears to be an equitable solution of the problems. Nevertheless, we are not unmindful of the fact that certain areas of controversy remain. In view of this and because these rules will determine the direction and shape the growth of the Special Industrial Radio Service for many years, we desire to give interested persons a further opportunity, consistent with the objectives of a public rule making proceeding, to present their case on the record. Therefore, we are issuing this document as a proposed report and order to which interested persons will have an opportunity to file exceptions and, upon request, present their case in an oral argument before the Commission, as specified in paragraph 60 below.

60. *Accordingly, it is ordered,* Under the authority contained in section 4 (i) and 303 of the Communications Act of 1934, as amended, that Part 11 and Part 2 of the Commission's rules are amended, as set forth below, subject to the following conditions:

(a) On or before November 19, 1954, interested persons may file written exceptions to any part of the foregoing Proposed Report and Order (paragraphs 1 through 58) and the rules contained below and request oral argument thereon. Exceptions must be specific with respect to the paragraphs of the Proposed Report and Order to which they are made, or the sections and paragraphs of the rules set forth below, or both when appropriate, and must give reasons in support thereof. Each person who in his exceptions requests an oral argument, may be afforded an opportunity to appear before the Commission and present such an argument, which will be limited to the matters specified in his exceptions. If no request for oral argument is filed with the exceptions and within the time provided herein, the party will be deemed to have waived this opportunity for an oral argument. But the Commission may, if it deems it necessary to a proper disposition of the issue, direct any person who filed exceptions to appear before it at the time the oral argument is scheduled.

(b) If no exceptions are filed to the Proposed Report and Order or the sections and paragraphs of the rules set forth below, the Commission may adopt these documents as set forth herein and specify the effective date thereof. Similarly, any part of the Proposed Report and Order or the sections and paragraphs of the rules set forth below with respect to which no exceptions are made may be adopted as set forth herein.

(c) Fifteen copies of all written exceptions must be furnished. If an oral argument is ordered by the Commission, the time and place thereof and the order of presentation will be specified in a subsequent notice.

(d) The final decision herein will be based on the entire record in this proceeding as augmented by the exceptions and oral argument, if any.

Adopted: October 29, 1954.

Released: November 3, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

Amend Part 11, rules governing Industrial Radio Services, as follows:

1. Insert the following new paragraph (x) in § 11.3, *Definition of terms:*

(x) *Standard Metropolitan Area.* Any or all of the areas within the continental limits of the United States described and enumerated as Standard Metropolitan Areas in the U. S. Census of Population, 1950: Vol. I, Number of Inhabitants; Chapter 1, U. S. Summary; Bureau of the Census, United States Department of Commerce. (The Standard Metropolitan Areas in the United States are listed in that publication in Table 26, beginning on Page 1–66. The publication is sold by the U. S. Government Printing Office, Washington 25, D. C.)

2. Delete the present index reference and text of Subpart K, Special Industrial Radio Service, and substitute the following new index reference and text—

SUBPART K—SPECIAL INDUSTRIAL RADIO SERVICE

Sec.
11.501 Scope of service.
11.502 Availability of service.
11.503 Agricultural activities.
11.504 Heavy construction activities.
11.505 Building construction activities.
11.506 Manufacturing activities.
11.507 Mining activities.
11.508 Specialized industrial service and trade activities.
11.509 General industrial service and trade activities.
11.510 Engineering service activities.
11.511 Miscellaneous public service activities.
11.512 Permissible communications.
11.513 Station limitations.
11.514 Mobile service frequencies for use at temporary locations.
11.515 Frequencies available for Base and Mobile stations.
11.516 Frequencies available for Operational Fixed Stations.
11.517 Frequencies available for Base, Mobile and Operational Fixed Stations.

§ 11.501 *Scope of service.* (a) The rules set forth in this subpart are designed to make available to a variety of individual industrial enterprises mobile radiocommunication systems which can contribute materially to the safety and efficiency of the operations involved. The limited number of frequencies available for assignment in this service precludes making it available to all classes of persons who might have a need for mobile radiocommunication, particularly in or near large population centers. Accordingly, the Commission has been obliged to adopt strict eligibility limitations on industrial radio usage in such areas and, in addition, other limitations have been placed on the use of licensed stations. Nevertheless, those persons who do qualify for their own radio systems in this service are cautioned that a substantial amount of interference can be expected and are urged to cooperate in the solution of mutual interference problems.

(b) Certain frequencies are available for assignment for fixed service operations in this service on a limited basis; however, extensive licensing of point-to-point systems must await further development of the Commission's microwave program. Accordingly, requests for point-to-point facilities will be considered on a case-by-case basis. In general, requests for such point-to-point facilities should clearly establish either (1) that a number of fixed stations at permanent locations are required to provide communications between isolated establishments or from such establishments to points at which established communication facilities are available, or (2) that the use of a remotely located base station, with which a requested fixed control and fixed relay link is proposed to be used, is necessary to maintain communications with mobile units for the conduct of authorized communications. Point-to-point facilities will not be authorized for the transmission of any type of signal or communication between two locations within the same Standard Metropolitan Area except for the purpose of providing a fixed control and fixed relay link where the remote placement of a Base Station has been justified.

(c) The initial application from a person claiming eligibility under the provisions of this subpart shall be accompanied by a full description of the type, location and extent of the particular activity in which engaged and the proposed use of radio in connection therewith, together with a full description of any other activities in connection with which the radio-equipped vehicles will be used and the extent of such use.

§ 11.502 *Availability of service.* (a) Authorizations to operate stations in the Special Industrial Radio Service are available only to the extent and for the purposes set forth in this subpart. To the extent that the provisions of this subpart may be at variance with those contained in Subparts A, B, C, D or E of this part, the provisions of this subpart shall be controlling.

(b) Authorizations to operate stations in the Special Industrial Radio Service are not available to conduct operations for which specific provision is made elsewhere in the Commission's rules.

(c) A subsidiary corporation furnishing a non-profit communications service to its parent corporation or its subsidiaries may be considered eligible in the Special Industrial Radio Service, if the parent or its subsidiaries are engaged in one of the activities set forth in this subpart. The use of any radio system authorized pursuant to this paragraph will be subject to all the limitations and conditions applicable to the particular activity upon which eligibility is predicated.

(d) The classification of certain industries and activities into specified categories for the purposes of this subpart is based upon the general classification of all industrial activities contained in the Standard Industrial Classification Manual (Executive Office of the President, Bureau of the Budget: Volume I, Manufacturing Industries, 1945; and Volume II, Nonmanufacturing Industries, 1949) with certain specific additions to and exclusions from the general categories for the purposes of this subpart. To determine whether or not a particular industrial activity falls within one of the categories delineated in this subpart, reference to that manual is recommended. (The manual is available from the Superintendent of Documents, Government Printing Office, Washington 25, D. C.)

§ 11.503 *Agricultural activities*—(a) *Definition.* For the purposes of this part, agricultural activities are defined as the activities directly involved in the operation of farms or ranches for the production of crops or plants, vines or trees (excluding forestry operations), or for the keeping, grazing or feeding of livestock for animal products, animal increase, or value enhancement. Included as farms are such agricultural enterprises as orchards, vineyards, nurseries, greenhouses, hothouses, fur farms, mushroom cellars, apiaries, cranberry bogs, fish farms, fish hatcheries, oyster farms and frog farms. The processing (curing, packing, canning, smoking, freezing, etc.) of food on a farm is classed as an agricultural rather than a manufacturing activity if the raw materials are grown on that farm.

(b) *Eligibility.* Persons engaged in agricultural activities, as that term is defined in this section, are eligibile in this service when it is shown that the use of radio will be exclusively in connection with the conduct of the agricultural activities involved.

(c) *Limitation on station locations.* Each station authorized in accordance with the provisions of this section shall be located and operated at all times in areas other than Standard Metropolitan Areas of 500,000 or more population, unless otherwise authorized by the Commission upon a showing that transmitting equipment will in fact be used in an area of low population density removed from the urbanized sections of the standard metropolitan area involved.

§ 11.504 *Heavy construction activities*—(a) *Definition.* For the purposes of this part, heavy construction activities are defined as the activities directly involved in the construction of engineering projects, such as highways and streets, bridges, sewers, railroads, utility rights-of-way, irrigation projects, flood control projects and marine construction, and miscellaneous types of construction work other than buildings. Not included as heavy construction activities are the functions performed by general contractors engaged in the construction of residential, farm, industrial, commercial, public, or other similar building, or by establishments specializing in plumbing, painting, electrical work, masonry, plastering, carpentry, or other special construction trades. Although marine construction is included as a heavy construction activity, dredging solely for the recovery of sand, gravel, fuels, minerals or metals shall be classed as a mining activity.

(b) *Eligibility.* Persons engaged in heavy construction activities, as that term is defined in this section, are eligible in this service when it is shown that the use of the Low Power Industrial Radio Service does not meet their operational requirements and that the use of radio will be exclusively in connection with the conduct of the heavy construction activities involved and either (1)

presently used in the ten airports to pro-

before us and our experience in this field

Secretary.

that all such activities take place exclusively in areas other than Standard Metropolitan Areas of 500,000 or more population, or (2) that the use of radio will be exclusively for on-the-job communications at the site of a particular heavy construction project within such Standard Metropolitan Area.

(c) *Limitation on station locations.* Each station authorized in accordance with the provisions of this section shall be located and operated at all times in areas other than Standard Metropolitan Areas of 500,000 or more population. Exceptions to the above may be made by the Commission in specific cases and for limited periods of time when it is shown that one or more Base Stations, to be associated with a specified heavy construction project and to be located within one-quarter mile thereof, will be used exclusively in the conduct of that project; however, each authorization so issued, for the operation of Base Stations or mobile units within such Standard Metropolitan Areas of 500,000 or more population, will be limited in term to one year, renewable on the same showing in the event the particular project continues beyond that period.

§ 11.505 *Building construction activities*—(a) *Definition.* For the purposes of this part, building construction activities are defined as the functions directly performed by general building contractors primarily engaged in construction (including new work, additions, alterations, and repair) of buildings such as houses; apartment buildings; farm buildings; industrial, commercial, institutional, and public buildings; light and power plants; natural gas compressing stations; oil pumping stations; and refuse disposal plants. Not included as building construction activities are the functions performed by establishments specializing in plumbing, painting, electrical work, masonry, plastering, carpentry, or other special construction trades.

(b) *Eligibility.* Persons engaged in building construction activities, as that term is defined in this section, are eligible in this service when it is shown (1) that the use of radio will be exclusively in connection with the conduct of building construction activities, (2) that the use of radio will be exclusively for on-the-job communications at the site of and between members working on a single project, and (3) that the use of the Low Power Industrial Radio Service does not meet the operational requirements of the building construction activity involved.

(c) *Limitation on station locations.* No Base Station for operation at any location and no Operational Fixed Station of any class shall be authorized in accordance with the provisions of this section. Exceptions to the above may be made by the Commission in specific cases and for limited periods of time when it is shown that not more than one Base Station, to be associated with a specified building construction project and to be located within one quarter mile thereof, is necessary for the conduct of that project; however, each authorization so issued for the operation of a Base Station will be limited in term to one year renewable on the same showing in the event the particular project continues beyond that period.

§ 11.506 *Manufacturing activities*—(a) *Definition.* For the purposes of this part, manufacturing activities are defined as the activities directly involved in the mechanical or chemical transformation of organic or inorganic substances into new products within establishments usually described as plants, factories, shipyards, or mills and which employ, in that process, power-driven machines and materials-handling equipment. Establishments engaged in assembling components of manufactured products in plants, factories, shipyards or mills are also engaged in manufacturing activities if the new product is neither a new structure nor other fixed improvement. Establishments primarily engaged in the wholesale or retail trade, or in service activities, even though they fabricate or assemble any or all of the products or commodities handled, shall not be considered to be engaged in manufacturing activities.

(b) *Eligibility.* Persons engaged in manufacturing activities, as that term is defined in this section, are eligible in this service when it is shown that the use of radio will be exclusively in connection with the conduct of the manufacturing activities involved and either (1) that those activities take place exclusively in areas other than Standard Metropolitan Areas of 500,000 or more population, or (2) that the use of radio will be within the yard area for mobile service communications within such Standard Metropolitan Area and that the use of the Low Power Industrial Radio Service does not meet the operational requirements of the manufacturing activity otherwise found eligible under this paragraph.

(c) *Limitation on station location.* (1) Each station authorized in accordance with the provisions of paragraph (b) (1) of this section shall be located and operated at all times in areas other than Standard Metropolitan Areas of 500,000 or more population.

(2) Each Base Station authorized in accordance with the provisions of paragraph (b) (2) of this section shall be permanently located at a point within the yard area to be served by it, and the mobile units associated therewith shall not be operated beyond the boundaries of that yard area except that, upon specific authorization by the Commission after adequate showing that such operation is necessary in the interest of national defense, mobile units may be operated outside of such yard area for the purpose of maintaining plant security only. The term "yard area" as used in this section may include one or more sites, whether contiguous or noncontiguous, on which plant or plants of the applicant are located, if the plant or plants are operated as an integrated manufacturing unit, and if the sites, when physically non-contiguous, lie within close proximity of each other. In determining whether non-contiguous areas lie within such close proximity of each other as to be considered a "yard area", the Commission will consider the extent to which such sites are separated by streets, highways, railroad tracks, rivers or similar obstacles. Where the "yard area" in which the applicant wishes to communicate includes more than one plant, each plant to be included shall be listed on the application and the instrument of authorization.

§ 11.507 *Mining activities*—(a) *Definition.* For the purposes of this part, mining activities are defined as the activities directly involved in the process of recovery of solid fuels, minerals, or metals from the earth or from the sea by means of mining, quarrying, dredging, chemical extraction, deep-well operation, or similar processes. The operations involved in the exploration for and the development of mining properties are considered mining activities. The process of crushing, washing, sorting, grading, dressing, or other beneficiation or preparation for delivery as raw material to smelting, refining or other manufacturing processes or to the wholesale market is considered a part of the mining activity only when carried on by the same person who recovers the basic materials from the earth or from the sea.

(b) *Eligibility.* Persons engaged in mining activities, as that term is defined in this section, are eligible in this service when it is shown that the use of radio will be exclusively in connection with the conduct of the mining activities involved.

(c) *Limitation on station location.* Each station authorized in accordance with the provisions of this section shall be located and operated at all times in areas other than Standard Metropolitan Areas of 500,000 or more population, unless otherwise authorized by the Commission upon a showing that transmitting equipment will in fact be used in an area of low population density removed from the urbanized sections of the Standard Metropolitan Area involved.

§ 11.508 *Specialized industrial service and trade activities*—(a) *Definition.* For the purposes of this part, specialized industrial service and trade activities are defined as those commercial or industrial activities directly involved in providing specialized functions, services or materials, under contract, to single categories of persons who are themselves eligible, in certain of the Industrial Radio Services, to use radio in connection with the performance of the same functions. Activities normally classed as building trade or special construction trade activities are not included. Only the following are recognized as specialized industrial service and trade activities in accordance with the foregoing:

(1) Plowing, spraying, dusting, soil conditioning, seeding, fertilizing, or harvesting for agricultural or forestry activities.

(2) Livestock breeding service.

(3) Cleaning and repair of oil, gas or water transmission pipe lines.

(4) Acidizing, cementing, logging, perforating, or shooting activities and services of a similar nature incident to the drilling of new oil or gas wells or the maintenance of production from established wells.

(5) Supplying of chemicals, mud, tools, pipe and other special materials or equipment to the petroleum production industry, other than to refining, cracking or processing plants.

(6) Clearing and maintaining rights-of-way for public utilities.

(7) Crushing, washing, sorting, grading, dressing or other beneficiation or preparation of ores, minerals or solid fuels, when performed by a person who is not engaged in either a mining or a manufacturing activity and when all such operations, including all use of radio in connection therewith, are confined to a single yard area.

(b) *Eligibility.* Persons primarily engaged in specialized industrial service and trade activities, as that term is defined in this section, are eligible in this service when it is shown (1) that the use of radio will be exclusively in connection with the conduct of such specialized industrial service and trade activities, (2) that every basic industrial activity served would be eligible for a station authorization in the Industrial Radio Services at the station locations proposed by the applicants in this service, (3) that the persons engaged in the specialized industrial service and trade activities are not otherwise eligible under this part for the use of radio in connection with those activities except in the Low Power Industrial Radio Services, and (4) that the use of the Low Power Industrial Radio Service would not meet the operational requirements of these activities.

(c) *Limitation on station locations.* Except for stations which exclusively serve the Petroleum, Power, Forest Products or Motion Picture industries, as defined in Subparts F, G, H or I of this part, or the mining industry, as defined in this subpart, each station authorized in accordance with the provisions of this section shall be located and operated at all times in areas other than Standard Metropolitan Areas of 500,000 or more population, unless otherwise authorized by the Commission upon a showing that transmitting equipment will in fact be used in an area of low population density removed from the urbanized sections of the Standard Metropolitan Area involved.

§ 11.509 *General industrial service and trade activities*—(a) *Definition.* For the purposes of this part, general industrial service and trade activities are defined as those commercial or industrial activities directly involved in providing specialized functions, services or materials which are essential to the efficient conduct of miscellaneous industrial processes. Only the following are recognized as general industrial service and trade activities in accordance with the foregoing:

(1) Servicing, repairing and maintaining heavy machinery (not including automobiles or trucks) when such operations are performed at the place where such machinery is used, and when such use is exclusively in connection with agricultural, heavy construction, manufacturing or mining activities, as those terms are defined in this subpart, or in connection with activities conducted by persons who are eligible for license in the Power, Petroleum, Forest Products or Motion Picture Radio Services.

(2) Delivering and pouring ready-mixed concrete, hot asphalt mix, and similar perishable mixtures.

(b) *Eligibility.* Persons primarily engaged in general industrial service and trade activities, or in a combination of general and specialized industrial service and trade activities, as those terms are defined in this subpart, are eligible in this service when it is shown that the use of radio will be exclusively in connection with the conduct of those activities.

(c) *Limitation on station locations.* Each station authorized in accordance with the provisions of this section shall be located and operated at all times in areas other than Standard Metropolitan Areas of 500,000 or more population, unless otherwise authorized by the Commission upon a showing that transmitting equipment will in fact be used in an area of low population density removed from the urbanized sections of the Standard Metropolitan Area involved.

§ 11.510 *Engineering service activities*—(a) *Definition.* For the purposes of this part, engineering service activities are defined as those activities directly involved in the conduct of certain engineering field activities by professional engineers or consulting engineering firms. Only the following are recognized as engineering service activities in accordance with the foregoing:

(1) The conduct of geophysical, geomagnetic, natural resource, topographical, geological, or similar surveys.

(2) Surveys and tests in connection with the siting, construction and adjustment of the antennas of commercial, educational, Federal, State or Local Government radio transmitting and receiving stations, including field intensity and proof of performance surveys of such stations.

(b) *Eligibility.* Persons primarily engaged in engineering service activities, as that term is defined in this section, are eligible in this service when it is shown (1) that the use of radio will be exclusively in connection with the conduct of such engineering service activities, and (2) that the use of radio will be exclusively for on-the-job communications between members of the same engineering field party working on a single project.

(c) *Limitation on station locations.* No Base Station or Operational Fixed Station shall be authorized in accordance with the provisions of this section for operation at any permanent location.

§ 11.511 *Miscellaneous public service activities*—(a) *Definition.* For the purposes of this part, miscellaneous public service activities are defined as those activities directly involved in the conduct of commercial or industrial enterprises which are considered essential to the health or immediate welfare of a large segment of the general public and are not classed among those commercial or industrial activities for which other specific provision has been made in the Commission's rules. Only the following are recognized as miscellaneous public service activities in accordance with the foregoing:

(1) The servicing and repair of heating or refrigerating equipment.

(2) The delivery of ice or fuel to the consumer in solid, liquid or gaseous form for heating, lighting, refrigerating or power generation purposes, by means other than pipe lines or railroad.

(3) The spraying or dusting of insecticides, herbacides or fungicides but not including the fumigation or other treatment of buildings (or other structures) or their contents for the control of rodents, pests, parasites or plant diseases.

(b) *Eligibility.* Persons primarily engaged in miscellaneous public service activities, or in a combination of those activities with general and specialized industrial service and trade activities, as those terms are defined in this subpart, are eligible in this service when it is shown (1) that the use of radio will be exclusively in connection with the conduct of those activities and (2) that all such activities take place exclusively outside the city limits of cities of 50,000 or more population.

(c) *Limitation on station locations.* Each station authorized in accordance with the provisions of this section shall be located and operated at all times outside the city limits of cities of 50,000 or more population.

§ 11.512 *Permissible communications.* (a) Except for the transmission of communications relating directly to the safety of life or to the protection of property, stations licensed to persons in the Special Industrial Radio Service may be used only for the transmission of communications relating to the specific activity or activities in connection with which eligibility has been established.

(b) Communications relating directly or indirectly to the following shall not be transmitted by any base or mobile stations licensed in the Special Industrial Radio Service:

(1) Sales reports, or the dispatch of salesmen;

(2) Payrolls, accounts, or inventory control; or

(3) Any message or information where the time element is not of immediate importance.

§ 11.513 *Station limitations.* (a) Mobile Relay Stations will not be licensed in the Special Industrial Radio Service within the continental limits of the United States, except when such stations and all associated base and mobile stations are operated exclusively on frequencies above 450 Mc.

(b) Where a radio station authorization in the Special Industrial Radio Service is held by a person or organization engaged in activities beyond those indicated in the eligibility provisions of this service, the operation of such station shall be confined to those activities on which eligibility has been established, except for messages relating to the safety of life or to the protection of property.

sued for the operation of a Base Station such close proximity of each other as to services of a similar nature [illegible]

agricultural, heavy construction, manu- not classed among those commercial or of life or to the protection of property.

(c) Except for the transmission of communications relating directly to the safety of life or to the protection of property, or except upon specific authorization by the Commission for each station involved upon adequate showing of need, no base station in the Special Industrial Radio Service shall be used for the transmission of communications addressed to, or to be relayed by, any other base station. Requests for non-safety inter-base station operating authority must be accompanied by a detailed description of the applicant's operating requirements and must clearly demonstrate that the use of fixed service frequencies would fail to meet those requirements.

§ 11.514 *Mobile Service frequencies for use at temporary locations.* (a) Subject to the applicable provisions of § 11.54 authorization to operate a Base Station in this Service at temporary locations will be granted only on the frequencies 27.31, 27.35, 27.39, 43.02, 43.06, 43.10, 43.14, 49.70, or 152.87 Mc: *Provided, however,* That this paragraph shall not be applicable in the case of such stations when they are to be operated only within direct communication range of one or more permanently located Base Stations operated by the same licensee.

(b) A Mobile Station not associated with one or more Base Stations installed at permanent locations will be authorized to operate on the frequencies 27.31, 27.35, 27.39, 43.02, 43.06, 41.10, 43.14, 49.70 or 152.87 Mc only.

§ 11.515 *Frequencies available for Base and Mobile Stations.* (a) The following frequencies are available for assignment to Base Stations and Mobile Stations in the Special Industrial Radio Service only:

Mc.	*Mc.*	*Mc.*	*Mc.*
27.31	30.62	35.94	49.86
27.35	35.74	43.02	49.90
27.39	35.78	43.06	49.94
27.43	35.82	43.10	49.98
27.47	35.86	43.14	154.49
30.58	35.90	43.18	

(b) The following frequencies are available for assignment to Base Stations and Mobile Stations in the Special Industrial Radio Service on a shared basis with other services:

kc.	*Mc.*	*Mc.*
[1] 2292	49.54	49.78
[1] 2398	49.58	49.82
[1] [2] 4637.5	49.62	152.87
	49.66	152.93
	49.70	152.99
	49.74	

[1] Use of this frequency by stations licensed in the Special Industrial Radio Service is on a shared basis with other stations in the Industrial Radio Services, but is subject to the condition that harmful interference shall not be caused to the service of any station not in these services which, in the discretion of the Commission, may have priority on the frequency or frequencies used for the service to which interference is caused.

[2] This frequency is limited to daytime use only, with a maximum plate power input to the final radio frequency stage not to exceed 100 watts.

[3] This frequency may be subject to change when the Atlantic City table of frequency allocations between 4 Mc and 27.5 Mc comes into force.

(c) Frequencies in the bands listed below are available for assignment to Base and Mobile Stations in the Special Industrial Radio Service on a shared basis with other services under the terms of a developmental grant only; the exact frequency and the authorized bandwidth will be specified in the authorization:

Mc.	*Mc.*
[1] [2] 2450–2500	[3] 6425–6575
[2] 3500–3700	[4] 11,700–12,200

[1] Use of frequencies in the band 2450–2500 Mc is subject to no protection from interference due to the operation of industrial, scientific, and medical devices on the frequency 2450 Mc.

[2] Subject to the proceedings in Docket No. 10797.

(d) In addition to the frequencies listed in this section, mobile service frequencies above 152 Mc listed elsewhere in this part as available to the Petroleum, Forest Products, Motion Picture or Relay Press Radio Services also are available for assignment in this Service for use outside the continental limits of the United States and waters adjacent thereto: *Provided, however,* That operation on such frequencies is subject to the condition that harmful interference shall not be caused to licensees operating in the other Services.

§ 11.516 *Frequencies available for Operational Fixed Stations.* (a) Subject to the condition that no harmful interference will be caused to reception of television channel No. 4 or 5, the following frequencies are available for assignment to Operational Fixed Stations in the Special Industrial Radio Service on a shared basis with other services:

Mc.	*Mc.*	*Mc.*	*Mc.*
72.02	72.82	73.62	74.42
72.06	72.86	73.66	74.46
72.10	72.90	73.70	74.50
72.14	72.94	73.74	74.54
72.18	72.98	73.78	74.58
72.22	73.02	73.82	75.42
72.26	73.06	73.86	75.46
72.30	73.10	73.90	75.50
72.34	73.14	73.94	75.54
72.38	73.18	73.98	75.58
72.42	73.22	74.02	75.62
72.46	73.26	74.06	75.66
72.50	73.30	74.10	75.70
72.54	73.34	74.14	75.74
72.58	73.38	74.18	75.78
72.62	73.42	74.22	75.82
72.66	73.46	74.26	75.86
72.70	73.50	74.30	75.90
72.74	73.54	74.34	75.94
72.78	73.58	74.38	75.98

(b) Frequencies in the bands listed below are available for assignment to Operational Fixed Stations in the Special Industrial Radio Service on a shared basis with other services, under the terms of a developmental grant only; the exact frequency and the authorized bandwidth will be specified in the authorization:

Mc.	*Mc.*
[1] [2] 890– 940	6575– 6875
952– 960	9800– 9900
1850–1990	12,200–12,700
2110–2200	[1] 16,000–18,000
[1] 2450–2500	26,000–30,000
2500–2700	

[1] Use of frequencies in the bands 890–940, 2450–2500, and 17,850–18,000 Mc. is subject to no protection from interference due to the operation of industrial, scientific, and medical devices on the frequencies 915, 2450 and 1800 Mc.

[2] Subject to the proceedings in Docket No. 10797.

(c) Pursuant to the provisions of § 11.8, and for the specific purpose of transmitting hydrological or meterological data, the frequencies listed in this paragraph are available for assignment to Operational Fixed Stations in this Service: *Provided, however,* That harmful interference shall not be caused to Federal Government stations: *And provided further,* That the hydrological or meteorological data is made available to interested government agencies. Notwithstanding the provisions of § 11.151, Operational Fixed Stations authorized to operate on frequencies listed in this paragraph shall not communicate with or accept communications from any Mobile Station or Base Station unless written authorization to do so has been obtained from the Commission. Persons who desire to operate stations in accordance with the provisions of this paragraph should communicate with the Commission prior to filing formal application and request instructions concerning the procedure to be followed. The following frequencies are available for assignment:

Mc.	*Mc.*	*Mc.*	*Mc.*
169.425	171.025	[1] 406.050	[2] 40.68
169.475	171.075	[1] 406.150	
169.525	171.125	[1] 406.250	
169.575	171.175	[1] 406.350	
170.225	171.825	[1] 412.450	
170.275	171.875	[1] 412.550	
170.325	171.925	[1] 412.650	
170.375	171.975	[1] 412.750	

[1] Primarily for use by Fixed Relay Stations.

[2] Use of the frequency 40.68 Mc is limited to stations located in the States of Pennsylvania and West Virginia only, and is subject to no protection from interference due to the operation of industrial, scientific, and medical devices on the same frequency.

§ 11.517 *Frequencies available for Base, Mobile, and Operational Fixed Stations.* (a) The frequencies listed in paragraph (c) of this section are available for assignment to stations in the Special Industrial Radio Service for Developmental Operation only (see Subpart E of this part), and are shared with other radio services.

(b) The frequencies listed in paragraph (c) of this section are available primarily for assignment to Base and Mobile Stations, and secondarily for assignment to certain classes of Operational Fixed Stations (Fixed Relay and Control Stations only). Not more than one pair of those frequencies, to consist of one frequency in the band 451–452 Mc and one frequency in the band 456–457 Mc (normally to be separated by exactly 5.0 Mc), will be assigned for use by the stations of any single mobile service radio system, except upon adequate showing of need. Only one frequency of such pair will ordinarily be assigned to any Mobile Station, and the lower frequency of that pair will not be assigned to such Mobile Station unless the system is designed for the single frequency method of operation and the same frequency is also assigned to an associated Base Station. Base Stations in this service will not be assigned frequencies in the band 456–457 Mc. An Operational Fixed Station to be operated as a part of a mobile service radio system may be assigned either of the paired frequencies

available to the Base or Mobile Stations of the same mobile service radio system, subject however, to the following additional restrictions and limitations on assignment and use:

(1) All use by Operational Fixed Stations is subject to the condition that harmful interference shall not be caused to stations operating in the mobile service on frequencies in the 450–460 Mc band in accordance with the table of frequency allocations as set forth in Part 2 of this chapter.

(2) The frequencies are available for assignment only to those Operational Fixed Stations which function as integral and essential parts of a mobile service radio system. Such Operational Fixed Stations include only those which are operated as part of a radio circuit over which messages normally are sent to or from a Mobile Station without interruption for manual relaying at intermediate points.

(3) Fixed Relay Stations may be used to provide two automatic retransmissions of a mobile service message. Additional automatic retransmissions on these frequencies by means of such stations is prohibited.

(c) Frequencies available for assignment as provided in paragraphs (a) and (b) of this section are as follows:

Base and Mobile		*Mobile*	
Mc.	*Mc.*	*Mc.*	*Mc.*
451.05	451.55	456.05	456.55
451.15	451.65	456.15	456.65
451.25	451.75	456.25	456.75
451.35	451.85	456.35	456.85
451.45	451.95	456.45	456.95

(d) The frequency 27.255 Mc is available for assignment to Base, Mobile and Operational Fixed stations in this service, on a shared basis with other services, subject to no protection from interference due to the operation of industrial, scientific, and medical devices on the frequency 27.12 Mc.

Amend Part 2, rules governing Frequency Allocations and Radio Treaty Matters, in the following particulars:

1. In the table of frequency allocations contained in § 2.104 (a) (5), change the entries in column 11 opposite the frequencies 35.74 to 35.94 Mc, inclusive, to read "Industrial", and that opposite the frequency 35.98 Mc to read "Land Transportation."

[F. R. Doc. 54–8782; Filed, Nov. 5, 1954; 8:50 a. m.]

NOTICES

DEPARTMENT OF THE TREASURY

Bureau of Customs

[T. D. 53654; Rev. Treasury Department Order 165]

COMMISSIONER OF CUSTOMS

DELEGATION OF AUTHORITY AND FUNCTIONS

NOVEMBER 2, 1954.

By virtue of the authority vested in me by Reorganization Plan No. 26 of 1953 (3 CFR, 1950 Supp., Ch. III), it is hereby ordered:

1. There are hereby transferred to the Commissioner of Customs the functions of all officers, employees, and agencies of the Bureau of Customs and, subject to the exceptions hereinafter specified, all the rights, privileges, powers, and duties vested in the Secretary of the Treasury by the Tariff Act of 1930, as amended, by the navigation laws administered by the Bureau of Customs, or by any other law to the extent that it is administered by the Bureau of Customs.

(a) Regulations shall be prescribed by the Commissioner of Customs, with the approval of the Secretary of the Treasury, except that regulations and instructions, not inconsistent with the general rules and regulations of the Treasury Department, which are effective only against persons in their capacity as officers, agents, or employees of the Customs Service, and which do not prescribe procedures which the public should know or follow in dealing with the Customs Service, may be prescribed by the Commissioner of Customs without the approval of the Secretary of the Treasury.

(b) Requirements of regulations which may be waived in accordance with law may be waived by the Commissioner of Customs.

(c) Determinations under section 201 (a), Antidumping Act, 1921, as amended, that a class or kind of foreign merchandise is being, or is likely to be, sold in the United States or elsewhere at less than its fair value shall be made, and advice to the United States Tariff Commission of each such determination shall be given, by the Secretary of the Treasury.

(d) The ascertainment, determination, or estimation, and declaration of bounties or grants under section 303, Tariff Act of 1930, shall be made by the Commissioner of Customs with the approval of the Secretary of the Treasury, except that, when the Commissioner, with the approval of the Secretary, has determined and declared a rule for calculating or estimating the net amount of any such bounty or grant, any customs officer authorized by the Commissioner of Customs may ascertain and determine, or estimate, the net amount of the bounty or grant paid or bestowed in respect of each particular lot of imported merchandise.

(e) Findings under section 307, Tariff Act of 1930, whether any class of goods, wares, articles, or merchandise is mined, produced, or manufactured wholly or in part in any foreign country by convict labor or/and forced labor or/and indentured labor under penal sanctions, and findings whether such goods, wares, articles, or merchandise so mined, produced, or manufactured are mined, produced, or manufactured in such quantities in the United States as to meet the consumptive demands of the United States, shall be made by the Commissioner of Customs with the approval of the Secretary of the Treasury.

(f) Any authority which may be vested in the Secretary of the Treasury by a proclamation of the President made pursuant to section 318, Tariff Act of 1930, shall be exercised by the Secretary of the Treasury.

(g) Any order under section 511, Tariff Act of 1930, prohibiting the importation of merchandise or instructing a collector to withhold delivery of merchandise shall be made by the Commissioner of Customs with the approval of the Secretary of the Treasury.

(h) No claim, fine, or penalty (including forfeiture) in excess of $20,000 shall be compromised, mitigated, or remitted without the approval of the Secretary of the Treasury.

(i) An award of compensation to an informer under section 619, Tariff Act of 1930, shall be made by the Commissioner of Customs only with the approval of the Secretary of the Treasury when claimed in connection with any decision which has been acted upon or approved by the Secretary of the Treasury.

(j) The authority conferred by the President upon the Secretary of the Treasury by Executive Order 10289 (3 CFR, 1951 Supp., Ch. II) with respect to the organization of the Customs Service and to laws administered by the Bureau of Customs shall be exercised by the Secretary of the Treasury.

2. All functions, rights, privileges, powers, and duties transferred by this order may be delegated by the Commissioner of Customs to subordinates in the Bureau of Customs in such manner as he shall from time to time direct.

3. This order revises Treasury Department Order No. 165, as issued on December 15, 1952 (T. D. 53160), and supersedes Treasury Department Order No. 165–1 (T. D. 53332), and all other orders and instructions heretofore issued to the extent that such orders or instructions are inconsistent herewith. The purposes of this order are to eliminate from the citation of authority for the delegation section 3 of the act of March 3, 1927 (5 U. S. C. 281b), which was repealed in pertinent part by section 10 of the act of September 3, 1954, 68 Stat. 1229; to reissue the delegation so that it will cover all pertinent laws in effect on the date hereof; and to eliminate the requirement that findings of dumping under section 201 (a), Antidumping Act, 1921, be approved by the Secretary and substitute therefor the above reservation to the Secretary of determinations of sales or likelihood of sales of merchandise at less than its fair value and the giving of advice of such determinations to the United States Tariff Commission. Delegations of authority heretofore issued by the Commissioner or

Acting Commissioner of Customs pursuant to the Treasury Department Orders revised or superseded by this order are not affected hereby.

[SEAL] H. CHAPMAN ROSE,
Acting Secretary of the Treasury.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

ALASKA

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

OCTOBER 12, 1954.

An application, serial number Anchorage 027005, for the withdrawal from all forms of appropriation under the public land laws, of the lands described below was filed on July 12, 1954, by the Department of Agriculture, U. S. Forest Service.

The purposes of the proposed withdrawal: Administrative and public service site and highway purposes.

For a period of 60 days from the date of publication of this notice, persons having cause to object to the proposed withdrawal may present their objections in writing to the Area Administrator, Area 4, Bureau of Land Management, Department of the Interior, at Anchorage, Alaska. In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where proponents of the order can explain its purpose.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER, either in the form of a public land order or in the form of a notice of determination if the application is rejected. In either case, a separate notice will be sent to each interested party of record.

The lands involved in the application are:

CHUGACH NATIONAL FOREST

A strip of land 25 chains in width paralleling the southwest shore of Kenai Lake, beginning at the west end of the bridge near the outlet of Kenai Lake, latitude 60°2'30" north, longitude 149°48'30" west approximately, and southeasterly to an unnamed creek, approximate latitude 60°23'30" north, longitude 149°39'30" west, a distance of approximately 9.5 miles, containing 1,885 acres, more or less.

LOWELL M. PUCKETT,
Area Administrator.

[P. & S. Docket No. 450]

DENVER UNION STOCK YARD CO.

NOTICE OF PETITION FOR MODIFICATION OF RATE ORDER

Pursuant to the provisions of the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 181 et seq.), an order was issued in this proceeding on August 17, 1951 (10 A. D. 1033), prescribing the rates and charges to be assessed by the respondent for stockyard services at the Denver Union Stock Yards, Denver, Colorado. By orders issued on December 26, 1951 (10 A. D. 1502), October 16, 1952 (11 A. D. 851), and November 4, 1953 (12 A. D. 1264), temporary modifications in such schedule of rates and charges have been authorized. The temporary modifications are currently due to expire on December 31, 1955.

On October 29, 1954, respondent filed a petition requesting authority to make certain additional modifications in its schedule of rates and charges. The proposed modifications are as indicated below.

1. To change the yardage charges on livestock arriving by rail, on hoof, or resold through commission firms as follows:

	Present rate	Proposed rate
	Per head	*Per head*
Cattle (except bulls)	$0.73	$0.80
Bulls (600 pounds and over, except purebreds)	1.10	1.17
Calves (400 pounds and under)	.47	.52
Hogs	.26	.28
Sheep or goats	.14	.17
Horses or mules	.70	.80
Purebred bulls	2.00	2.00
Purebred cows and heifers	1.50	1.50
Direct hogs	.18	.20
Direct sheep or goats consigned to packers or slaughterers	.10	.12

2. To change the selling price of feed, bedding, etc., as follows:

	Present rate	Proposed rate
	Per hundredweight	*Per hundredweight*
Hay (on fence), current market price, f. o. b. stock yards, plus	$0.50	$0.60
Hay (fed), current market price, f. o. b. stock yards, plus	.60	.70
Miscellaneous feed, current market price, f. o. b. stock yards, plus	.75	.75
	Per bushel	*Per bushel*
Corn, current market price, f. o. b. stock yards, plus	.45	.60
	Per bale	*Per bale*
Bedding, current market price, f. o. b. stock yards, plus	.40	.45

3. To include in the schedule of rates and charges a definition of the term "yardage" as follows:

Yardage. The term "Yardage" is used in this schedule to describe the basic facilities and services furnished by this company in connection with livestock received at this Stockyard, viz:

(a) *Facilities.* The use of suitable facilities for the safe and expeditious receiving, handling, feeding, watering, holding, sorting, selling, buying, weighing, delivery, and shipment of livestock.

(b) *Services.* The services necessary and incident to the receiving of livestock at the place of unloading;

The furnishing of receipts for livestock to the truck carrier or consignor;

The furnishing of sufficient potable water for livestock;

The initial weighing of livestock when sold and delivered to the scales;

The issuance of scale tickets showing actual weight and other pertinent information concerning the livestock weighed;

The removal of livestock from scales after weighing and delivery to holding pens;

The holding of livestock for a reasonable time pending delivery or shipment to buyers and for a reasonable time thereafter;

The delivery of livestock to buyers at holding pens; and

The obtaining of receipts for livestock so delivered to buyers.

This Company will, when reasonably required by consignors, market agencies, dealers, packers, buyers or other users of stockyard services, provide and furnish special facilities and services in addition to the basic facilities and services described as "yardage"; and will assess and collect from such users a reasonable charge for such special facilities and services, in addition to the basic yardage charges.

The modifications, if authorized, will produce additional revenue for the respondent and increase the cost of marketing livestock. Accordingly, it appears that this public notice should be given of the filing of the petition and its contents in order that all interested persons may have an opportunity to be heard in the matter.

All interested persons who wish to be heard in the matter shall notify the Hearing Clerk, United States Department of Agriculture, Washington 25, D. C., within 15 days after the publication of this notice.

Done at Washington, D. C., this 3d day of November 1954.

[SEAL] AGNES B. CLARKE,
Hearing Clerk.

Commodity Stabilization Service

PEANUTS

NOTICE OF REDELEGATION OF FINAL AUTHORITY BY VIRGINIA STATE AGRICULTURAL STABILIZATION AND CONSERVATION COMMITTEE

Section 729.630 of the marketing quota regulations for the 1955 Crop of Peanuts (19 F. R. 6134), issued pursuant to the marketing quota provisions of the Agricultural Adjustment Act of 1938, as amended (7 U. S. C. 1301-1376), provides that any authority delegated to the State Agricultural Stabilization and Conservation Committee by the regulations may be redelegated by the State Committee. In accordance with section 3 (a) (1) of the Administrative Procedure Act (5 U. S. C. 1002 (a)), which requires delegations of final authority to be published in the FEDERAL REGISTER, there are set out herein the redelegations of final authority which have been made by the Virginia State Agricultural Stabilization and Conservation Committee of authority vested in such committee by the Secretary of Agriculture in the regulations referred to above. Shown below are the sections of the regulations in which such authority appears and the person to whom the authority has been redelegated:

VIRGINIA

Sections 729.622 (a) and 729.628—W. T. Powers, State Administrative Officer; J. S. Shackleton, Jr., Program Specialist; and H. O. Simpson, Marketing Quota Specialist, of the Office of the State ASC Committee.

Section 729.624 (b)—W. T. Powers, State Administrative Officer; J. S. Shackleton, Jr., Program Specialist; H. O. Simpson, Marketing Quota Specialist; and A. L. Flippen, Asst. Marketing Quota Specialist, of the Office of the State ASC Committee.

(Sec. 375, 52 Stat. 66, as amended; 7 U. S. C. 1375. Interpret or apply secs. 301, 358, 359, 361-368, 372, 373, 374, 376, 388, 52 Stat. 38, 62, 63, 64, 65, 66, 68, as amended; 55 Stat. 88, as amended, 66 Stat. 27; 7 U. S. C. 1301, 1350, 1359, 1361-1368, 1372, 1373, 1374, 1376, 1388)

Issued at Washington, D. C., this 3d day of November 1954.

[SEAL] J. A. MCCONNELL,
Administrator,
Commodity Stabilization Service.

CIVIL AERONAUTICS BOARD

[Docket No. 2909 et al.]

AMERICAN AIRLINES, INC., ET AL.; NEW YORK CITY-MEXICO CITY NONSTOP SERVICE CASE

NOTICE OF POSTPONEMENT OF HEARING

In the matter of the applications of American Airlines, Inc., Eastern Air Lines, Inc., and Pan American World Airways, Inc., for nonstop air transport service between New York, N. Y., and/or Washington, D. C., on the one hand, and Mexico City, Mexico, on the other.

Notice is hereby given, pursuant to the Civil Aeronautics Act of 1938, as amended, particularly sections 401 and 1001 of said Act, that a public hearing in the above-entitled proceeding assigned for November 8, 1954, is hereby postponed until November 16, 1954, at 10:00 a. m., e. s. t., in Room E-210, Temporary Building No. 5, Sixteenth Street and Constitution Avenue NW., Washington, D. C., before Examiner Edward T. Stodola.

Notice is further given that any person, other than a party of record, desiring to be heard in this proceeding must file with the Board on or before November 16, 1954, a statement setting forth the propositions of fact or law which he desires to advance.

Dated at Washington, D. C., November 3, 1954.

[SEAL] FRANCIS W. BROWN,
Chief Examiner.

FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 10861, 10862; FCC 54M-1369]

WPTF RADIO CO. AND CAPITOL BROADCASTING CO., INC.

ORDER CONTINUING HEARING

In re applications of WPTF Radio Company, Raleigh, North Carolina, Docket No. 10861, File No. BPCT-511; Capitol Broadcasting Company, Incorporated, Raleigh, North Carolina, Docket No. 10862, File No. BPCT-824; for construction permits for new television stations (Channel 5).

By agreement of all the parties in the above-styled matter the hearing scheduled for November 4, 1954, at 10:00 a. m. in Washington, D. C., is hereby continued to November 8, 1954, at 10:00 a. m. in the offices of the Federal Communications Commission, Washington, D. C.

Dated at Washington, D. C., this 1st day of November 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 54-8778; Filed, Nov. 5, 1954; 8:48 a. m.]

[Docket No. 11100; FCC 54M-1365]

TOP OF TEXAS BROADCASTING CO. (KAMQ)

ORDER CONTINUING HEARING

In re application of Top of Texas Broadcasting Company (KAMQ), Amarillo, Texas, for construction permit; Docket No. 11100, File No. BP-9139.

The Commission having under consideration a motion filed October 27, 1954, by the applicant requesting that the above-entitled proceeding be continued for approximately 30 days from November 4, 1954; and

It appearing that the Commission, by its order of July 7, 1954, designated the application for hearing to determine whether operation as proposed would involve objectionable interference with Stations KIND, Independence, Kansas, and KRVN, Lexington, Nebraska, and the nature and extent thereof; that thereafter on August 18, 1954, Top of Texas Broadcasting Company was permitted to amend its application, which amendment was designed to specify directional operation so as to limit interference to Station KIND and minimize interference to Station KRVN but a study of the application, as amended, raised the question as to whether the presently proposed operation of Station KAMQ would or would not be in accordance with the requirements of § 3.24 (g) of the Commission's rules; and

It appearing that on September 17, 1954, the Chief, Broadcast Bureau filed a petition requesting the enlargement of the issues to determine whether the proposed operation by Station KAMQ would be in compliance with § 3.24 (g) of the Commission's rules, that on October 27, 1954, the applicant filed a motion to remove the application from the hearing docket and return the same to the processing lines; and

It appearing that the orderly conduct of the Commission's business requires that the issues to be resolved be clearly specified prior to the start of the hearing; that if the issues are amended, additional time will be required to prepare exhibits to be offered in response to the new issues; that the time element requires immediate consideration of the motion for continuance; and that good cause has been shown that the motion should be granted;

It is ordered, This the 29th day of October 1954 that the motion for continuance is granted and the hearing is continued from November 4, 1954 until 20 days after the Commission has acted on the petition of the Chief, Broadcast Bureau to enlarge the issues.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 54-8779; Filed, Nov. 5, 1954; 8:49 a. m.]

[Docket No. 11151; FCC 54M-1370]

GENERAL SEAFOODS, INC.

ORDER CONTINUING HEARING

In the matter of General Seafoods, Inc., New Orleans, Louisiana, order to show cause why the license for Radiotelephone Station WD-8367 should not be revoked; Docket No. 11151.

The Commission having under consideration a motion filed on October 29, 1954, by its Safety and Special Radio Services Bureau, requesting that the hearing in the above-entitled matter now scheduled to be held on November 3, 1954, at Washington, D. C., be continued without date; and

It appearing that the licensee, in response to the Commission's order to show cause has waived its right to a hearing in the above-entitled matter, as provided for in § 1.402 of the Commission's rules; has submitted an explanation of the alleged violations; and has also submitted reasons why the license

of ship radiotelephone station WD–8367 should not be revoked; and

It further appearing that a continuance is required in order to afford the licensee an opportunity to comply with the request contained in a letter of the Safety and Special Radio Services Bureau, supra, dated October 20, 1954, to furnish additional information in this matter;

It is ordered, This 2d day of November 1954, that the said motion be, and it is hereby, granted, and that the hearing in the above-entitled matter is hereby continued without date.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

FEDERAL POWER COMMISSION

[Docket Nos. G–1705, G–1813, G–1937, G–2023, G–2057, G–2433, G–2475, G–2932, G–3159]

PANHANDLE EASTERN PIPE LINE CO. ET AL.

ORDER CONSOLIDATING PROCEEDINGS, FIXING DATE FOR HEARING AND SPECIFYING PROCEDURE

In the matters of Panhandle Eastern Pipe Line Company, Docket Nos. G–1705, G–1937, G–2433, and G–2475; Indiana Gas & Water Company, Inc., Docket No. G–1813; Indiana Gas & Water Company, Inc. v. Panhandle Eastern Pipe Line Company, Docket No. G–2023; Missouri Public Service Company, Docket No. G–2057; City of Montgomery, Missouri, Docket No. G–2932; Town Gas Company of Illinois, Docket No. G–3159.

Panhandle Eastern Pipe Line Company (Panhandle) on May 18, 1954, filed its application at Docket No. G–2433 for a certificate of public convenience and necessity authorizing the construction and operation of facilities proposed to increase its peak day sales deliverability by 455,000 Mcf per day. Temporary authorization for the construction only of facilities permitting a daily deliverability increase of 100,000 Mcf was granted on September 2, 1954.

Panhandle, in Docket No. G–1705, sought authorization for the construction and operation of facilities which would raise the maximum day capacity of Panhandle's main line from 550,000 Mcf to 600,000 Mcf. Although temporary authorization was granted for this project on August 14, 1951, no hearing thereon has as yet been held. We will consolidate it with the other proceedings at hand so that hearings on this application may merge with those on the Docket No. G–2433 project.

Included in Panhandle's application at Docket No. G–2433 is a proposal for the institution of storage operations in storage fields located near Waverly, Illinois. Such project contemplates the injection of gas in the storage fields during off-peak periods and the delivery thereof on peak days. Panhandle at Docket No. G–2475, has applied for authorization pursuant to Section 3 of the Natural Gas Act for the export of up to 15,500,000 Mcf of gas per year to Union Gas Company of Canada, Ltd., on an interruptible basis. In view of the effect that delivery of this considerable volume of gas may have on Panhandle's reserves as well as the question of the availability of gas for such purposes in the light of the Waverly Storage Project, we find that Docket No. G–2475 should be consolidated with these proceedings for the purposes of hearing.

Among the matters to be considered in these consolidated proceedings is the distribution among Panhandle's present and prospective customers of the gas available from Panhandle's system. Collateral to this matter is the problem of the capacity of lateral lines extending from the main pipeline. Included in the application at Docket No. G–2433 is a request for authorization to construct and operate facilities which would increase the capacity of certain of its laterals. Absent, however, is a request for authorization to construct and operate additional facilities on the Louisburg lateral which in the past has been found to be under-sized for the delivery of the gas requirements of Panhandle customers served therefrom. In the consolidated proceedings, Docket Nos. G–1813, G–1937, and G–2023, we considered Panhandle's lateral policy in relation to the Crawfordsville and Lebanon laterals serving Indiana Gas & Water Company. We found therein in our order issued April 22, 1953, that unlawful discrimination existed by reason of Panhandle's failure to provide adequate lateral facilities in these instances. By order issued June 19, 1953, we granted rehearing on these dockets. These matters are presently pending. Our general consideration of the lateral policy of Panhandle, which of necessity is involved in Panhandle's application at Docket No. G–2433, makes it appropriate to consolidate such docket with the rehearing of Docket Nos. G–1813, G–1937, and G–2023.

Docket No. G–2057 is an application pursuant to section 7 (a) of the Natural Gas Act for an order directing Panhandle to make connection and deliver gas to Missouri Public Service Company for distribution in a number of Missouri communities. This docket was originally consolidated for hearing in the proceedings in the Matter of Panhandle Eastern Pipe Line Company, et al., Docket No. G–1116, et al. By order issued September 20, 1954, we granted Missouri Public Service Company's motion for Docket No. G–2057, to be removed from the Docket No. G–1116, et al. proceedings and for stay or deferment of the proceedings in Docket No. G–2057 pending hearing in Docket No. G–2433.

Two other applications pursuant to section 7 (a) of the act have been filed seeking service from Panhandle. The first is Docket No. G–2932 filed by the City of Montgomery, Missouri on September 21, 1954, and the second is Docket No. G–3159 filed by Town Gas Company of Illinois on September 27, 1954. These dockets together with Docket No. G–2057 are consolidated so that they may be considered in view of the application at Docket No. G–2433.

The Commission finds:

(1) Good cause exists, and it is necessary and appropriate to consolidate for purposes of hearing the proceedings in Docket Nos. G–1705, G–1937, G–2433, G–2475, G–1813, G–2023, G–2057, G–2932 and G–3159.

(2) It is appropriate in the public interest in carrying out the provisions of the Natural Gas Act, and good cause exists, that the dockets consolidated herein should be set down for public hearing as hereinafter provided and ordered.

The Commission orders:

(A) The proceedings in Docket Nos. G–1705, G–1937, G–2433, G–2475, G–1813, G–2023, G–2057, G–2932, and G–3159, be and the same are hereby consolidated for the purpose of hearing.

(B) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 5, 7, and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on November 15, 1954, at 10:00 a. m., e. s. t., in the Hearing Room of the Federal Power Commission concerning the matters involved and the issues presented by the applications.

(C) The following hearing procedure is prescribed: (i) Panhandle shall first present and complete its direct case. Immediately thereafter, parties to the proceeding, including Staff, may proceed with such cross examination as they are then prepared to conduct; (ii) each party having a burden of proof in these consolidated proceedings shall present its direct case and shall be cross examined to the extent that parties to the proceedings including Staff are then prepared to conduct; (iii) upon completion of presentation of testimony and cross examination thereon as provided in paragraphs (B) and (C) above, the hearing shall be recessed by the Presiding Examiner upon request of any party to the proceedings, including Staff, subject to further order of the Commission.

(E) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

Adopted: October 29, 1954.

Issued: November 2, 1954.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

GENERAL SERVICES ADMINISTRATION

DOMESTIC PURCHASE REGULATIONS

QUARTERLY REPORT OF PURCHASES AS OF SEPTEMBER 30, 1954

Pursuant to section 4, Public Law 206, 83d Congress, the tabulation below details the quarterly and cumulative purchases under purchase regulation noted.

Regulation	Termination date	Units	Quantity		
			Program limitation	Purchases during quarter	Cumulative purchases through end of quarter
Asbestos	Oct. 1, 1957	Short tons, crude No. 1 and/or crude No. 2, asbestos.	1,500	166	617
		Short tons, crude No. 3		71	330
Beryl	June 30, 1957	Short dry tons, beryl ore	1,500	188	457
Chrome	do	Long dry tons, chrome ore and/or chrome concentrates.	200,000	9,561	70,040
Columbium-tantalum [1]	Dec. 31, 1958	Pounds contained combined pentoxide.	15,000,000	621,590	5,326,144
Manganese:					
Butte-Phillipsburg	June 30, 1958	Long dry ton units, manganese	6,000,000	335,361	1,109,640
Dumas	do	do	6,000,000	270,097	1,713,881
Weeden	do	do	6,000,000	624,876	4,909,479
Domestic small producers.	do	do	19,000,000	322,129	1,679,988
Mica	June 30, 1957	Short tons, hand-cobbed mica or equivalent.	25,000	551	4,157
Tungsten [2]	July 1, 1958	Short ton units, tungsten trioxide.	3,000,000	189,787	1,224,367

[1] Columbium-Tantalum Regulation provides for both domestic and foreign purchases. Report includes both. Foreign purchases will terminate close of business Dec. 31, 1956.
[2] Includes decrease of 56,611 short ton units as of June 30, 1954, representing ore reported as tungsten trioxide.

SECRETARY OF AGRICULTURE

DELEGATION OF AUTHORITY TO ENTER INTO CONTRACTS FOR PROCUREMENT OF ENGINEERING SERVICES

1. Pursuant to authority vested in me by the provisions of the Federal Property and Administrative Services Act of 1949, as amended (63 Stat. 377), authority is hereby delegated to the Secretary of Agriculture to enter into contracts for engineering services in connection with the accelerated program of road construction to facilitate the salvage, by harvesting, of large quantities of insect infested, diseased and over-aged timber under the Forest Development Roads and Trails program, without advertising pursuant to section 302 (c) (4) and 9 of the said act.

2. This delegation of authority shall be subject to all provisions of Title III of the said act with respect to negotiated contracts, and to all other provisions of law.

3. The authority delegated herein may be redelegated to any officer or employee of the Department of Agriculture.

4. This delegation shall be effective as of the date hereof.

Dated: November 3, 1954.

SECURITIES AND EXCHANGE COMMISSION

[File No. 7–1657]

ROYAL DUTCH PETROLEUM

NOTICE OF APPLICATION FOR UNLISTED TRADING PRIVILEGES, AND OF OPPORTUNITY FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 1st day of November A. D. 1954.

The Philadelphia-Baltimore Stock Exchange, pursuant to section 12 (f) (2) of the Securities Exchange Act of 1934 and Rule X–12F–1 thereunder, has made application for unlisted trading privileges in the Capital Shares of the nominal (par value) of 50 Netherlands Guilders, of Royal Dutch Petroleum Company, a security listed and registered on the New York Stock Exchange.

Rule X–12F–1 provides that the applicant shall furnish a copy of the application to the issuer and to every exchange on which the security is listed or already admitted to unlisted trading privileges. The application is available for public inspection at the Commission's principal office in Washington, D. C.

Notice is hereby given that, upon request of any interested person received prior to November 22, 1954, the Commission will set this matter down for hearing. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application, and other information contained in the official file of the Commission pertaining to this matter.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

STANDARD POWER AND LIGHT CORP.

ORDER APPROVING PLAN

OCTOBER 29, 1954.

Standard Power and Light Corporation ("Power"), a registered holding company, having filed an application pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 ("act") for approval of a plan providing for the settlement of all claims between Power and H. M. Byllesby and Company ("Byllesby") and fixing Byllesby's right to participate in the distribution by Power of its assets; and

Power having requested the Commission, pursuant to section 11 (e) of the act, to apply to an appropriate court to enforce and carry out the plan; and

Public hearings having been duly held after appropriate notice at which hearings all interested persons were afforded an opportunity to be heard; and

The Commission having considered the entire record in this matter and having this day filed its findings and opinion herein finding that the plan is necessary to effectuate the provisions of section 11 (b) of the act and fair and equitable to the persons affected thereby:

It is ordered, On the basis of the record herein and the said findings and opinion, pursuant to section 11 (e) and the other applicable provisions of the act, that said plan be, and it hereby is, approved, subject to the terms and conditions contained in Rule U–24 of the general rules and regulations promulgated under the act and to the following additional conditions and reservations of jurisdiction:

1. That this order herein shall not be operative to authorize the consummation of any of the transactions proposed in the plan until an appropriate United States District Court shall, upon application thereto, enter an order enforcing the plan;

2. That Power shall pay only such fees and expenses in connection with the plan, all prior plans under section 11 of the act, and the transactions incident thereto and related proceedings, as the Commission may approve and direct on appropriate application made to it, and jurisdiction is hereby specifically reserved to determine the reasonableness of all fees and expenses and other remuneration incurred or to be incurred

in connection with the plan, the transactions contemplated therein, and the consummation thereof;

3. That before Power may deliver to Byllesby any shares of the common stock of its subsidiary, Standard Gas and Electric Company, pursuant to the said plan, Power shall have, unless such action is subsequently waived by the Commission, secured from Byllesby and made a part of the record herein a commitment that Byllesby will not make a public distribution of any of such stock in the absence of an effective registration statement under the Securities Act of 1933 and that, if Byllesby so requests, Power shall cause Standard Gas and Electric Company, to register such securities under that act; and jurisdiction is hereby specifically reserved to pass upon any arrangements among Byllesby, Standard Gas and Electric Company and Power to effectuate the requirements herein imposed;

4. That jurisdiction be, and it hereby is, reserved in respect of the appropriateness of the accounting entries to be made by Power to record the transactions contemplated by the plan;

5. That jurisdiction be, and it hereby is, reserved to entertain such further proceedings, to make such supplemental or additional findings, to take such further action, and to enter such further orders, as may be deemed necessary or appropriate in connection with the plan, the transactions incident thereto, and the consummation thereof.

By the Commission.

NIAGARA SHARE CORP.

NOTICE OF FILING OF APPLICATION REGARDING PAYMENT OF BONUS TO EMPLOYEES

NOVEMBER 2, 1954.

Niagara Share Corporation ("Niagara Share"), Buffalo, New York, a registered management, closed-end, diversified investment company, has filed an application pursuant to section 17 (d) of the act and Rule N-17D-1 of the rules and regulations thereunder regarding the proposed payment, in the discretion of the company's board of directors, of a bonus for 1954 to each of its employees, including officers, in an amount not to exceed 10 percent of their respective salaries and an additional cost-of-living bonus for 1954 not to exceed $150, to each of its employees except certain officers. The application states that the company has 15 employees and that it is expected that each of them will receive the bonus based on salary and that 11 of them will receive the cost-of-living bonus. Niagara Share estimates that the salary and cost-of-living bonuses for 1954 will total $11,334 and $1,650, respectively.

Rule N-17D-1 of the rules and regulations under the act provides, among other things, that it shall be unlawful, with certain exceptions not applicable here, for any affiliated person of any registered investment company or of any company controlled by any such registered company to participate in, or effect any transaction in connection with any bonus plan in which such registered or controlled company is a participant unless an application regarding such plan has been granted by the Commission.

Notice is further given that any interested person may, not later than November 15, 1954, at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the application may be granted as provided in Rule N-5 of the rules and regulations promulgated under the act.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 812-895]

NORTH AMERICAN SECURITIES CO.

NOTICE OF FILING OF APPLICATION REGARDING PAYMENT OF BONUS TO EMPLOYEES

NOVEMBER 2, 1954.

Notice is hereby given that North American Securities Company ("Applicant"), has filed an application under section 17 (d) of the Investment Company Act of 1940 and Rule N-17D-1 of the rules and regulations thereunder for an order approving the continuance of the practice of paying each year at Christmas time one-half of one month's salary to each and all of its employees or, in the event that the Commission shall determine to confine its approval to the current year 1954, an order approving such payment for the said current year 1954. Employees with less than a full year's service receive such part of one-half of one month's salary as is proportionate to the number of months of employment in the year in question. The applicant estimates that the proposed bonus payments to be made in December 1954 will be approximately $9,200.

Applicant is a wholly owned subsidiary and the investment adviser of North American Investment Corporation, a registered closed-end management investment company, and it is the underwriter and investment adviser of Commonwealth Investment Company and Commonwealth Stock Fund, Inc., both registered, open-end management investment companies. Applicant has approximately 48 employees, all of whom will be eligible to receive the payment mentioned above. Seven of the employees are affiliated persons, as officers or directors, of North American Investment Corporation or Commonwealth Investment Company or Commonwealth Stock Fund, Inc., or of all three companies. Applicant's personnel formerly were employed by its parent, North American Investment Corporation, which now has no paid employees. For the past nine years Applicant's personnel have received a Christmas bonus on the basis stated above.

Rule N-17D-1 provides, among other things, that it shall be unlawful, with certain exceptions not applicable here, for any affiliated person of a registered investment company or of any company controlled by any such registered company to participate in, or effect any transaction in connection with, any bonus plan in which any such registered company or controlled company is a participant unless an application regarding such plan has been granted by the Commission.

Notice is further given that any interested person may, not later than November 15, 1954, at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the application may be granted as provided in Rule N-5 of the rules and regulations promulgated under the act.

By the Commission.

STANDARD INVESTMENT CO., INC.

NOTICE OF FILING OF APPLICATION FOR ORDER DECLARING THAT COMPANY HAS CEASED TO BE AN INVESTMENT COMPANY

NOVEMBER 2, 1954.

Notice is hereby given that Standard Investment Company, Inc., a Maryland corporation, and a registered open-end non-diversified investment company, having its principal offices in Baltimore, Maryland, has filed an application pursuant to section 8 (f) of the Investment Company Act of 1940 ("act") for an order declaring that such company has ceased to be an investment company under the act.

The application represents that Standard Investment Company, Inc. was dissolved, pursuant to voluntary action of its shareholders, at an adjournment of its annual meeting held on December 15, 1953, and that Articles of Dissolution were filed with and approved by the State Tax Commission of Maryland on January 18, 1954. The application also represents that all of the securities of the company were sold, on or about January 14, 1954, that the aggregate proceeds to the company from such sales amounted to $29,962.79, that all liabilities and expenses of the company have been determined and paid, and that the assets were deposited in trust with the LaSalle National Bank of Chicago for distribution to shareholders upon presentation of certificates or other appropriate evidence of ownership.

The application also represents that notices have been sent to all stockholders, so far as their addresses are known, advising them of the foregoing facts. The application recites that the company has ceased to be an investment company and requests that an order be issued pursuant to section 8 (f) of the act.

Notice is further given that any interested person may, not later than November 15, 1954, at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the application may be granted as provided in Rule N-5 of the rules and regulations promulgated under the act.

By the Commission.

NORTH PENN GAS CO.

ORDER PURSUANT TO DECLARING THAT APPLICANT HAS CEASED TO BE A HOLDING COMPANY

NOVEMBER 2, 1954.

On December 15, 1952, the Commission adopted and published its Supplemental Findings, Opinion and Order (Holding Company Act Release No. 11600) approving a plan under section 11 (e) of the Public Utility Holding Company Act of 1935 ("act") concerned with, among other applicants, North Penn Gas Company ("North Penn"), a registered holding company, and Crystal City Gas Company ("Crystal City"), at that time a direct public-utility subsidiary of North Penn. The plan provided, inter alia, for the divestment by North Penn of its entire interest in Crystal City and, by reason of that proposed divestment, sought an order of the Commission, under section 5 (d) of the act, declaring that North Penn had ceased to be a holding company.

In the aforesaid Findings and Opinion the Commission said: "Since section 5 (d) specifically requires a finding that a registered holding company has ceased to be a holding company before we may enter an order declaring that the company has attained that status, we are unable to issue such an order at this time * * * after we have been advised that North Penn has disposed of its Crystal City stock, it would appear appropriate for North Penn to renew its request for an order under section 5 (d) and for us to grant such request."

North Penn having notified the Commission that North Penn has divested itself of its holdings in Crystal City and having renewed its request for an order under section 5 (d); and

It appearing to the Commission that North Penn no longer, either directly or indirectly, owns, controls, or holds with power to vote, any stock of any public-utility or holding company and that it is appropriate to enter an order pursuant to section 5 (d) of the act declaring that North Penn has ceased to be a holding company and that, subject to the condition set forth below, the registration of such company has ceased to be in effect:

It is ordered and declared, That North Penn has ceased to be a holding company and that its registration has ceased to be in effect, upon the condition, however, that the jurisdiction over fees and expenses heretofore reserved in the Commission's order of December 15, 1952, to the extent not subsequently released by the Commission's orders of August 19, 1954, and October 21, 1954, be, and the same hereby is continued;

It is further ordered, That this order shall become effective forthwith upon issuance.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

its shareholders, at an adjournment o

ce Room.

FEDERAL REGISTER

VOLUME 19 NUMBER 218

Washington, Tuesday, November 9, 1954

TITLE 3—THE PRESIDENT

EXECUTIVE ORDER 10574

AMENDMENT OF EXECUTIVE ORDER NO. 10480 [1] PROVIDING FOR THE ADMINISTRATION OF THE DEFENSE MOBILIZATION PROGRAM

By virtue of the authority vested in me by the Constitution and laws of the United States, including the Defense Production Act of 1950, as amended (50 U. S. C. App. 2061 *et seq.*), and as President of the United States, it is ordered as follows:

SECTION 1. Sections 301 and 312 of Executive Order No. 10480 of August 14, 1953, entitled "Further Providing for the Administration of the Defense Mobilization Program", are hereby amended to read as follows:

"SEC. 301. The Department of the Army, the Department of the Navy, the Department of the Air Force, the Atomic Energy Commission, the Department of Commerce, the Department of the Interior, the Department of Agriculture, and the General Services Administration, in this Part referred to as guaranteeing agencies, each officer having functions delegated to him pursuant to section 201 (a) of this order, and each other agency of the Government having mobilization functions, shall, within areas of production designated by the Director of the Office of Defense Mobilization, develop and promote measures for the expansion of productive capacity and of production and supply of materials and facilities necessary for the national defense."

"SEC. 312. The functions conferred by sections 303, 305 and 306 of this order shall be carried out in accordance with programs certified by the Director of the Office of Defense Mobilization. Each officer and agency of the Government having mobilization functions shall make recommendations to the Director of the Office of Defense Mobilization for the issuance of certificates or other action under sections 302 and 303 of the Defense Production Act of 1950, as amended, and for the issuance of certificates under subsections (e) and (g) of section 168 of the Internal Revenue Code of 1954, with respect to the materials and facilities which are, pursuant to the designation of areas of production by the Director of the Office of Defense Mobilization under section 301 of this order, as amended, within the jurisdiction of such officer or agency."

SEC. 2. Any reference in any regulation or other Executive document issued or approved by the President to any provision of the Internal Revenue Code of 1939 shall, except as may be inconsistent with the Internal Revenue Code of 1954 or otherwise inappropriate, be deemed also to refer to the corresponding provision of the Internal Revenue Code of 1954.

EXECUTIVE ORDER 10575

ADMINISTRATION OF FOREIGN-AID FUNCTIONS

By virtue of the authority vested in me by the Mutual Security Act of 1954 (68 Stat. 832), by section 301 of title 3 of the United States Code, and as President of the United States and Commander in Chief of the armed forces of the United States, it is hereby ordered as follows:

PART I. ASSIGNMENT OF FUNCTIONS AND FUNDS

SECTION 101. *Foreign Operations Administration.* (a) Exclusive of the functions otherwise delegated, or excluded from delegation, by this order, and subject to the provisions of this order, there are hereby delegated to the Director of the Foreign Operations Administration all functions conferred upon the President by the Mutual Security Act of 1954 (hereinafter referred to as the Act) and by the Mutual Defense Assistance Control Act of 1951 (65 Stat. 644; 22 U. S. C. 1611–1613c).

(b) Subject to sections 103 and 107 (b) of this order, the Director of the Foreign Operations Administration shall administer sections 402, 505, and 201 of the Act. In determining upon the furnishing of assistance on terms of repayment pursuant to sections 201 (a) and 505 of the Act, and upon the amounts and terms of such assistance, the Director of the Foreign Operations Administration shall consult with the National Advisory Council on International Monetary and Financial Problems in respect of policies relating to such assistance and terms. Whenever assistance on terms of repayment, under the said section 505, involves funds available under chapter 1 of Title I of the Act, the said Director shall consult with the Secretary of Defense with respect to the amounts and terms of such assistance. The Director of the Foreign Operations Administration shall also consult the said Council with respect to policies concerning the utilization of funds in the Special Account provided for in section 142 (11) of the Act and concerning such other matters as are within the cognizance of the Council pursuant to section 4 of the Bretton Woods Agreements Act.

(c) Pursuant to section 527 (c) (2) of the Act, it is directed that the authority made available to the Director of the United States Information Agency with respect to his functions by section 2 of Executive Order No. 10477 of August 1, 1953 (18 F. R. 4540), and by Executive Order No. 10522 of March 26, 1954 (19 F. R. 1689), subject to the provisions of law applicable in connection with such authority, may be utilized by the Director of the Foreign Operations Administration with respect to his functions.

(d) It is hereby directed that the Office of Small Business provided for in section 504 (b) of the Act shall be in the Foreign Operations Administration.

SEC. 102. *Department of Defense.* (a) Subject to the provisions of this order, there are hereby delegated to the Secretary of Defense:

(1) The functions conferred upon the President by chapter 1 of Title I of the Act, exclusive of (i) those so conferred by section 105 (b) (3) of the Act, (ii) so much of those so conferred by section 106 (b) of the Act as consists of determining that a nation or international organization may make available the fair value of equipment, materials, or services, sold thereto or rendered therefor, at a time or at times other than in advance of delivery of the equipment, materials, or services, and (iii) the functions reserved to the President by section 107 of this order.

(2) The functions conferred upon the President by sections 142 (7) and 511 (c) of the Act.

(3) So much of the functions conferred upon the President by sections 142 (10), 511 (b), 527 (a), 528, and 529 (a) of the Act as relates to other functions under the Act administered by the Department of Defense.

(b) The Secretary of Defense is hereby designated to make, with respect to equipment or materials procured for military assistance, the determinations provided for in section 107 of the Mutual Security Appropriation Act, 1955 (68 Stat. 1224).

(c) The Secretary of Defense (1) shall exercise the responsibility and authority vested in him by the Act and the responsibility and authority delegated to him by this order subject to coordination by the Director of the Foreign Operations Administration, and (2) shall keep the Director of the Foreign Operations Administration fully and currently informed of all matters, including prospective action, relating to the utilization of funds under the Act, the establishment of priorities under section 524 (b) of the Act, and the furnishing of military items under chapter 1 of Title I of the Act.

SEC. 103. *Department of State.* (a) There are hereby delegated to the Secretary of State:

(1) The functions conferred upon the President by the laws referred to in section 101 (a) of this order with respect to negotiating and entering into international agreements.

(2) The functions conferred upon the President by sections 105 (b) (3), 405 (a), 413 (b) (2) and (3), and 529 (b) and (c) of the Act.

(3) The functions conferred upon the President by section 504 (a) (2) of the Act so far as they may relate to countries in which the Foreign Operations Administration does not have missions or employees.

(4) So much of the functions conferred upon the President by section 535 (a) of the Act as consists of requesting the cooperation of the United Nations, its organs, and specialized agencies or other international organizations in carrying out the purposes of the Act.

(b) The functions conferred upon the President by section 414 of the Act are hereby delegated to the Secretary of State. In connection with the carrying out of the said functions the Secretary of State shall consult with appropriate agencies of the Government. The designation by the Secretary of State of articles which shall be considered as arms, ammunition, and implements of war, including technical data relating thereto, under the said section 414 shall require the concurrence of the Secretary of Defense.

(c) The Secretary of State shall be responsible (1) for making the United States contributions under the Act to, and formulating and presenting with the assistance of the Director of the Foreign Operations Administration the policy of the United States with respect to the assistance programs of, the international organizations referred to in sections 132 (c), 306, 405 (a) and (c), 406, and 407 of the Act, and (2) for making the United States contribution under section 408 of the Act to the North Atlantic Treaty Organization for the United States share of the expenses of the Organization.

(d) All functions under the Act and the other statutes referred to in sections 101 (a), 102 (b), and 105 (a) of this order, however vested, delegated, or assigned, shall be subject to the responsibilities of the Secretary of State with respect to the foreign policy of the United States.

(e) The maintenance of special missions or staffs abroad, the fixing of the ranks of the chiefs thereof after the chiefs of the United States diplomatic missions, and the authorization of the same compensation and allowances as the chief of mission, Class 3 or Class 4, within the meaning of the Foreign Service Act of 1946 (22 U. S. C. 801 *et seq.*), all under section 526 of the Act, shall require the approval of the Secretary of State.

SEC. 104. *Department of Commerce.* (a) There is hereby delegated to the Secretary of Commerce so much of the functions conferred upon the President by section 413 (b) (1) of the Act as consists of drawing the attention of private enterprise to opportunities for investment and development in other free nations.

(b) The Secretary of Commerce is hereby designated as the officer through whom shall be carried out the functions provided for in section 416 of the Act.

SEC. 105. *United States Information Agency.* (a) The functions conferred upon the President by section 1011 of the United States Information and Educational Exchange Act of 1948 (62 Stat. 6), as amended, are hereby delegated to the Director of the United States Information Agency and shall be carried out in consultation with the Director of the Foreign Operations Administration.

(b) The United States Information Agency shall perform the functions provided for by law with respect to publicizing abroad the activities carried out under the Act.

SEC. 106. *Allocation of funds.* (a) Funds appropriated or otherwise made available to the President shall be deemed to be allocated without any further action of the President as follows:

(1) Funds for carrying out chapter 1 of Title I of the Act are allocated to the Secretary of Defense, but, for the purposes of the second sentence of section 110 of the Mutual Security Appropriation Act, 1955 (68 Stat. 1224), such funds shall be available only when and in such amounts as they have been apportioned, for use, by the Bureau of the Budget.

(2) All funds for carrying out the Act except those for carrying out chapter 1 of Title I of the Act are allocated to the Director of the Foreign Operations Administration.

current or public duties, services 7274
preciation Board 7269
Part 743 7269
services, sold thereto or rendered there- and formulating and presenting with the Administration.

(b) The said funds may be allocated by the Secretary of Defense and the Director of the Foreign Operations Administration, respectively, to any agency, department, establishment, or wholly-owned corporation of the Government for obligation or expenditure thereby consistent with applicable law, subject, however, to the provisions of section 107 (a) (2) hereof. The utilization of funds without regard to the existing laws governing the obligation and expenditure of Government funds as authorized by section 411 (b) of the Act shall be limited as far as practicable and shall in any event be confined to instances in which such utilization is deemed (1) to further the more economical, efficient, or expeditious carrying out of functions under the Act, and (2) to obviate or mitigate hardship occurring with respect to personnel administering functions under the Act in connection with the administration of these functions or with respect to the families of personnel by reason of the duties of the respective heads of families under the Act.

(c) The Director of the Foreign Operations Administration shall allocate funds to the Department of State for the contributions referred to in section 103 (c) of this order.

SEC. 107. *Reservation of functions to the President.* (a) There are hereby excluded from the functions delegated by the foregoing provisions of this order:

(1) The functions conferred upon the President by the Act with respect to the appointment of officers required to be appointed by and with the advice and consent of the Senate, the transmittal of periodic or special reports to the Congress, and the termination or withdrawal of assistance.

(2) The functions conferred upon the President with respect to findings, determinations, certification, agreements, directives, or transfers of funds, as the case may be, by sections 104 (b), 105, 132 (a), 141, 401, 403, 404, 410, 501, 503, 521, and 522 (b) of the Act, and by sections 103 (b), 104, 203, and 301 of the Mutual Defense Assistance Control Act of 1951.

(3) The functions conferred upon the President by sections 101, 107 (a) (2), 415, 525, 533, and 545 (d) of the Act and, subject to Part II hereof, the functions so conferred by section 523 (b) of the Act.

(4) The functions conferred upon the President by section 121 of the Act, including all of the functions so conferred with respect to waiving specific provisions of section 142 of the Act, but otherwise excluding so much of the functions conferred upon the President by the said section 121 as may relate to assistance for the support of forces and other expenditures within Indo-China and either is financed from the unexpended balances of appropriations made pursuant to sections 304 and 540 of the Mutual Security Act of 1951, as amended, or is within an obligational limitation of $150,000,000 additional to the said unexpended balances.

(5) So much of the functions conferred upon the President by section 409 (d) of the Act as may relate to funds allocated to the Department of Defense by this order.

(b) The President shall hereafter determine the portions of the sum of $350,000,000 provided for in section 402 of the Act and the portions of the sum of $200,000,000 provided for in section 505 (b) of the Act which shall be applicable to funds allocated pursuant to the Act to the Foreign Operations Administration and the Department of Defense, respectively.

PART II. PROCEDURES FOR COORDINATION ABROAD

SEC. 201. *Functions of the Chief of the United States Diplomatic Mission.* (a) The Chief of the United States Diplomatic Mission in each country, as the representative of the President, shall serve as the channel of authority on foreign policy and shall provide foreign policy direction to all representatives of United States agencies in such country.

(b) The Chief of the United States Diplomatic Mission in each country, as the representative of the President and acting on his behalf, shall coordinate the activities of the representatives of United States agencies (including the chiefs of economic and technical assistance missions, military assistance advisory groups, foreign information staffs, and other representatives of agencies of the United States Government) in such country engaged in carrying out programs under the Act, programs under the Mutual Defense Assistance Control Act of 1951, and the programs transferred by section 2 of Reorganization Plan No. 8 of 1953 (67 Stat. 642); and he shall assume responsibility for assuring the unified development and execution of the said programs in such country. More particularly, the functions of each Chief of United States Diplomatic Mission shall include, with respect to the programs and the country concerned, the functions of:

(1) Exercising general direction and leadership of the entire effort.

(2) Assuring that recommendations and prospective plans and actions of representatives of United States agencies are effectively coordinated and are consistent with, and in furtherance of, the established policy of the United States.

(3) Assuring that the interpretation and application of instructions received by representatives of United States agencies from higher authority are in accord with the established policy of the United States.

(4) Guiding the representatives of United States agencies in working out measures to prevent duplication in their efforts and to promote the most effective and efficient use of all United States officers and employees engaged in work on the said programs.

(5) Keeping the representatives of United States agencies fully informed as to current and prospective United States policies.

(6) Prescribing procedures governing the coordination of the activities of representatives of United States agencies, and assuring that such representatives shall have access to all available information essential to the accomplishment of their prescribed duties.

(7) Preparing and submitting such reports on the operation and status of the programs referred to in the introductory portion of this subsection as may be requested of the Secretary of State by the Secretary of Defense, the Director of the Foreign Operations Administration, or the Director of the United States Information Agency, with respect to their respective responsibilities.

(8) Recommending the withdrawal of United States personnel from the country whenever in his opinion the interests of the United States warrant such action.

(c) Each Chief of United States Diplomatic Mission shall perform his functions under this part in accordance with instructions from higher authority and subject to established policies and programs of the United States. Only the President and the Secretary of State shall communicate instructions directly to the Chief of the United States Diplomatic Mission.

(d) No Chief of United States Diplomatic Mission shall delegate any function conferred upon him by the provisions of this Part which directly involves the exercise of direction, coordination, or authority.

SEC. 202. *Referral of unresolved matters.* The Chief of the United States Diplomatic Mission in each country shall initiate steps to reconcile any divergent views arising between representatives of United States agencies in the country concerned with respect to programs referred to in the introductory portion of section 201 (b) of this order. If agreement cannot be reached the Chief of the United States Diplomatic Mission shall recommend a course of action, and such course of action shall be followed unless a representative of a United States agency requests that the issue be referred to the Secretary of State and the United States agencies concerned for decision. If such a request is made, the parties concerned shall promptly refer the issue for resolution prior to taking action at the country level.

SEC. 203. *Further coordination procedures and relationships.* (a) All representatives of United States agencies in each country shall be subject to the responsibilities imposed upon the Chief of the United States Diplomatic Mission in such country by section 523 (b) of the Act and by this part.

(b) Subject to compliance with the provisions of this part and with the prescribed procedures of their respective agencies, all representatives of United States agencies affected by this part (1) shall have direct communication with their respective agencies and with such other parties and in such manner as may be authorized by their respective agencies, (2) shall keep the respective Chiefs of United States Diplomatic Missions and each other fully and currently informed on all matters, including prospective plans, recommendations, and actions, relating to the programs referred to in the introductory portion of section 201 (b) of this order, and (3) shall furnish to the respective Chiefs of United States Diplomatic Missions, upon their request, documents and information concerning the said programs.

PART III. GENERAL PROVISIONS

SEC. 301. *Definition.* As used in this order, the word "functions" embraces duties, powers, responsibilities, authority, and discretion.

SEC. 302. *Prior orders.* (a) This order supersedes Executive Order No. 10476 of August 1, 1953 (18 F. R. 4537).

(b) The reference in section 3 (c) of Executive Order No. 10560 of September 9, 1954 (19 F. R. 5927), to Part III of Executive Order No. 10476 shall after the date of this order be deemed to be a reference to Part II of this order.

(c) Except to the extent inconsistent with law or with this order, and except as revoked, superseded, or otherwise made inapplicable before the time of issuance of this order, (1) all determinations, authorizations, regulations, rulings, certificates, orders, directives, contracts, agreements, and other actions issued, undertaken or entered into with respect to any function affected by this order shall continue in full force and effect until amended, modified, or revoked by appropriate authority, (2) each reference in any Executive order to any provision of law repealed by the Mutual Security Act of 1954 shall be deemed also to refer to the corresponding provision, if any, of the Mutual Security Act of 1954.

SEC. 303. *Effective date.* Without prejudice to anything done under proper authority with respect to any function under the Act at any time subsequent to the approval of the Act and prior to the approval of this order, the effective date of this order shall be deemed to be the date of the approval of the Act.

REVIEW OF QUOTAS

722.1227 Review of quotas.

AUTHORITY: §§ 722.1211 to 722.1227 issued under sec. 375, 52 Stat. 66; 7 U. S. C. 1375. Interpret or apply secs. 301, 343–347, 361–368, 373, 374, 388, 52 Stat. 38, as amended, Pub. Laws 290, 690, 83d Cong.; 7 U. S. C. 1301, 1343–1347, 1361–1368, 1373, 1374, 1388.

GENERAL

§ 722.1211 *Basis and purpose.* (a) The regulations contained in §§ 722.1211 to 722.1227 are issued pursuant to the Agricultural Adjustment Act of 1938, as amended, and govern the establishment of State, county, and farm acreage allotments for the 1955 crop of extra long staple cotton. The Secretary of Agriculture proclaimed a national marketing quota and a national acreage allotment for the 1955 crop of extra long staple cotton on October 14, 1954 (19 F. R. 6671). The latest available statistics of the Federal Government have been or will be used in making the determinations required to be made in connection with §§ 722.1211 to 722.1227. Prior to preparing the regulations in §§ 722.1211 to 722.1227, public notice was given (19 F. R. 6043) in accordance with section 4 of the Administrative Procedure Act (5 U. S. C. 1003). The data, views, and recommendations which were submitted in response to such notice have been duly considered within the limits permitted by the Agricultural Adjustment Act of 1938, as amended.

(b) In order that the State and county Agricultural Stabilization and Conservation Committees may establish farm acreage allotments as early as possible prior to the extra long staple cotton referendum, which shall be held on December 14, 1954, it is essential that the regulations in §§ 722.1211 to 722.1227 be made effective as soon as possible. Accordingly, it is hereby determined and found that compliance with the 30-day effective date provision of the Administrative Procedure Act is impracticable and contrary to the public interest, and such regulations shall be effective upon filing of this document with the Director, Division of the Federal Register.

§ 722.1212 *Definitions.* As used in §§ 722.1211 to 722.1227 and in all forms and documents in connection therewith, unless the context or subject matter otherwise requires, the following terms shall have the following meanings and the masculine shall include the feminine and neuter genders and the singular shall include the plural number:

(a) "Act" means the Agricultural Adjustment Act of 1938 and any amendments thereto heretofore or hereafter made.

(b) "Secretary" means the Secretary of Agriculture of the United States, or the officer of the Department of Agriculture acting in his stead pursuant to delegated authority.

(c) "Deputy Administrator" means the Deputy Administrator for Production Adjustment, or Acting Deputy Administrator for Production Adjustment, Commodity Stabilization Service, United States Department of Agriculture.

(d) "Director" means the Director, or Acting Director, of the Cotton Division, Commodity Stabilization Service, United States Department of Agriculture.

ferred upon the President by section 409 (d) of the Act as may relate to funds

shall have access to all available infor-

and (3) shall furnish to the respective

of fractions.

tions required to be made in connection with §§ 722.1211 to 722.1227. Prior to

Commodity Stabilization Service, United States Department of Agriculture.

(e) "Committees":

(1) "Community committee" means the persons elected within a community as the community committee pursuant to the Secretary's regulations governing the selection and functions of the Agricultural Stabilization and Conservation county and community committees (19 F. R. 3637), as amended.

(2) "County committee" means the persons elected within a county as the county committee pursuant to the Secretary's regulations governing the selection and functions of the Agricultural Stabilization and Conservation county and community committees (19 F. R. 3637), as amended. In Puerto Rico the ASC Caribbean Area Committee shall, insofar as applicable, perform all functions of the county committee.

(3) "State committee" means the persons designated by the Secretary as the State Agricultural Stabilization and Conservation Committee. In Puerto Rico the ASC Caribbean Area Committee shall, insofar as applicable, perform all functions of the State committee.

(4) "Review committee" means the review committee appointed by the Secretary pursuant to section 363 of the act.

(f) "Person" means an individual, partnership, firm, joint-stock company, corporation, association, trust, estate, or other legal entity, or a State, political subdivision of a State, or any agency thereof, or the Federal Government or any agency thereof. The term "person" shall include two or more persons having a joint or common interest.

(g) "Owner" or "landlord" means a person who owns farm land and rents such land to another person or who operates such land.

(h) "Cash tenant", "standing-rent tenant", or "fixed-rent tenant" means a person who rents land from another for a fixed amount of cash or a commodity to be paid as rent.

(i) "Share tenant" means a person other than a sharecropper who rents land from another person and pays as rent a share of the crops or the proceeds thereof.

(j) "Sharecropper" means a person who works a farm in whole or in part under the general supervision of the operator and is entitled to receive for his labor a share of the crops produced thereon or the proceeds thereof.

(k) "Operator" means the person who is in charge of the supervision and conduct of the farming operations on the entire farm.

(l) "Farm" means all adjacent or nearby farm or range land under the same ownership which is operated by one person, including also:

(1) Any other adjacent or nearby farm or range land which the county committee, in accordance with instructions issued by the Deputy Administrator, determines is operated by the same person as part of the same unit in producing range livestock or with respect to the rotation of crops and with workstock, farm machinery, and labor substantially separate from that for any other land; and

(2) Any field-rented tract (whether operated by the same or another person) which, together with any other land included in the farm, constitutes a unit with respect to the rotation of crops.

A farm shall be regarded as located in the county or administrative area, as the case may be, in which the principal dwelling is situated, or if there is no dwelling thereon it shall be regarded as located in the county or administrative area, as the case may be, in which the major portion of the farm is located.

(m) "Farm acreage allotment" means an acreage allotment established for extra long staple cotton for a farm under the regulations in this subpart. Farm acreage allotments are initially established on the basis of the data for farms as constituted for 1954; where there is a change in the land in a farm for 1955, the farm acreage allotment will be redetermined in accordance with § 722.1217 (g).

(n) "Extra long staple cotton" means American-Egyptian, Sea Island, and Sea-land cotton, and all other varieties of the Barbadense species, and any hybrid thereof, and any other cotton in which one or more of these varieties predominates.

(o) "State and county code number" means the applicable number assigned by the Commodity Stabilization Service to each State and county for the purpose of identification.

(p) "Serial number of the farm" or "farm serial number" means the serial number assigned to a farm by the county committee for purposes of identification. In Puerto Rico a comparable identifying number will be used in place of the county code number.

(q) "Old ELS cotton farm" means a farm located in a county designated in § 722.1216 (b) on which extra long staple cotton was planted in any one or more of the years 1952, 1953, and 1954.

(r) "New ELS cotton farm" means a farm located in a county designated in § 722.1216 (b) on which extra long staple cotton is to be planted in 1955 but on which no acreage was planted to extra long staple cotton in any of the years 1952, 1953, and 1954.

(s) "Normal yield" means the average yield per acre of extra long staple lint cotton for the farm, adjusted for abnormal weather conditions, during the five calendar years immediately preceding the year in which such normal yield is determined. If for any such year the data are not available or there was no actual yield, then the normal yield for the farm shall be appraised by the county committee in accordance with instructions issued by the Deputy Administrator, taking into consideration abnormal weather conditions, the normal yield for the county, and the yield in years for which data are available. The normal yield for a new ELS cotton farm shall be that yield per acre which the county committee determines is normal for the farm as compared with other farms in the locality which are similar with respect to soil and other physical factors affecting the production of extra long staple cotton.

(t) "Normal production" of any number of acres means the normal yield per acre of extra long staple lint cotton for the farm multiplied by such number of acres.

(u) "Actual production" of extra long staple cotton on the farm means the total number of pounds of extra long staple lint cotton determined to have been produced on the farm in 1955.

(v) "Actual yield" per acre means the number of pounds of extra long staple lint cotton determined by dividing the actual production of extra long staple cotton on the farm by the acreage planted to such cotton on the farm in 1955.

(w) "Producer" means a person who, as owner or landlord (other than the landlord of a standing-rent tenant, fixed-rent tenant, or cash tenant), cash tenant, standing-rent tenant, fixed-rent tenant, share tenant, or share-cropper, is entitled to all or a share of the 1955 crop of extra long staple cotton or of the proceeds thereof.

(x) Acreage planted to extra long staple cotton":

(1) *State and county.* For the years 1948, 1950, 1951 and 1952, the acreages of extra long staple cotton to be used in establishing State and county acreage allotments are the official acreages for such years, as determined by the Agricultural Marketing Service (formerly Bureau of Agricultural Economics) of the United States Department of Agriculture. Official estimates of planted acreages shall be used for these years where available from the Agricultural Marketing Service; in other cases, the official estimates of the acreages in cultivation on July 1 of each such year shall be used. For 1953 the measured acreages of extra long staple cotton, as determined in accordance with official instructions, shall be used.

(2) *Farm.* For purposes of establishing farm acreage allotments for the 1955 crop of extra long staple cotton, the acreage planted to such cotton on a farm means the acreage of land planted to such cotton for the years 1952, 1953, and 1954, which shall be determined as follows:

(i) *For 1952.* The acreage of extra long staple cotton measured or reported to the county committee for the farm, with such adjustment in the reported acreage as is necessary under official instructions. The sum of the reported acreages, as adjusted by the county committee, and the measured acreages shall conform with the official planted acreages of the Agricultural Marketing Service (formerly the Bureau of Agricultural Economics), United States Department of Agriculture, to the extent required under official instructions.

(ii) *For 1953.* The acreage of extra long staple cotton measured in accordance with official instructions.

(iii) *For 1954.* The acreage of extra long staple cotton measured for purposes of the 1954 extra long staple cotton marketing quota program, and adjusted, as provided in subsections (g) (3), (i), and (m) (2) of section 344 of the act, in accordance with official instructions.

(y) "Abnormal weather conditions" means weather conditions (including conditions directly resulting therefrom)

adversely affecting the planting of extra long staple cotton, which conditions must have been of sufficient duration and intensity to prevent the seeding of land to extra long staple cotton and must have continued until the end of the planting season for the area. In apportioning the national acreage allotment to States in accordance with § 722.1215, adjustments for abnormal weather conditions are made in the acreages planted to extra long staple cotton in the States on the basis of recommendations of the State committees and official statistics and studies of the Department of Agriculture. In apportioning the State acreage allotment among counties in accordance with § 722.1216 (b), adjustments for abnormal weather conditions are made in the acreages planted to extra long staple cotton in counties on the basis of recommendations of the State committee. Any such adjustment in the acreage planted to extra long staple cotton in a State or county is the amount established by reference to available information and data as the net reduction of planted acreage in the State or county attributable solely to abnormal weather conditions. Such adjustments for abnormal weather conditions take into consideration failure to seed extra long staple cotton because of abnormal weather conditions. Also, in cases where the acreage of extra long staple cotton in cultivation July 1 is used in apportioning allotments to States and counties, abandonment of extra long staple cotton prior to July 1 in excess of normal abandonment by that date because of abnormal weather conditions shall be taken into consideration in determining adjustments, if any, in county acreages of extra long staple cotton.

(z) "Cropland" means the land which in 1954 was tilled or was in regular rotation, as determined in accordance with instructions issued by the State committee, excluding any land which constitutes, or will constitute, if such tillage is continued, a wind erosion hazard to the community and also excluding bearing orchards and vineyards (except the acreage of cropland therein) and plowable non-crop open pasture.

§ 722.1213 *Issuance of forms and instructions.* The Director shall cause to be prepared such forms and instructions as are necessary for carrying out the regulations in §§ 722.1211 to 722.1227. The forms shall be issued by the Director with the approval of the Deputy Administrator, and the instructions shall be issued by the Deputy Administrator. Copies of such forms and instructions shall be furnished free to persons needing them upon request made to the office of the State or county committee or to the Director.

§ 722.1214 *Extent of calculations and rule of fractions.* The acreages planted to extra long staple cotton on farms and farm acreage allotments shall be computed to three places beyond the decimal point and rounded to tenths of acres. Fractions of fifty-one thousandths of an acre or more shall be rounded upward, and fractions of less than fifty-one thousandths of an acre shall be dropped. For example, 10.051 would be 10.1 and 10.050 would be 10.0.

STATE AND COUNTY ACREAGE ALLOTMENTS

§ 722.1215 *Apportionment of national acreage allotment among States.* The national acreage allotment proclaimed for the 1955 crop of extra long staple cotton is apportioned among the States (including Puerto Rico) on the basis of the average acreage planted to extra long staple cotton in each such State for the years 1948, 1950, 1951, 1952, and 1953, with adjustments in such State cotton acreages for abnormal weather conditions. The acreage allotted to a State pursuant to the provisions of this section is referred to herein as the "State acreage allotment". The State acreage allotment for each State for the 1955 crop of extra long staple cotton is as follows:

State:	*State acreage allotments*
Arizona	18,472
California	296
Florida	612
Georgia	157
New Mexico	8,529
Texas	15,964
Puerto Rico	2,124
Total	46,154

§ 722.1216 *Apportionment of State acreage allotment among counties*—(a) *Establishment of State acreage reserve.* The State committee shall set aside a total State acreage reserve of 10 percent of the State acreage allotment unless, on the basis of the needs of the State as determined under paragraph (c) of this section, the State committee recommends a smaller acreage reserve and the Administrator of the Commodity Stabilization Service approves such recommendation.

(b) *Computed county acreage allotments.* The State acreage allotment for the 1955 crop of extra long staple cotton, less the State acreage reserve established pursuant to paragraph (a) of this section, is apportioned to counties on the basis of the average acreage planted to extra long staple cotton in each county in 1948, 1950, 1951, 1952, and 1953 (herein referred to as the "base years"), with adjustments for abnormal weather conditions during such years. The acreage allotted to a county pursuant to the provisions of this paragraph is herein referred to as the "computed county acreage allotment".

(c) *Use of State acreage reserve.* The State acreage reserve established under paragraph (a) of this section for the purposes set forth in subparagraphs (1) through (5) of this paragraph shall be used as provided in such subparagraphs and in accordance with instructions issued by the Deputy Administrator.

(1) *To adjust computed county acreage allotments for trends in the acreage of extra long staple cotton.* The State committee shall, if necessary, use a part of the State acreage reserve to adjust the computed county acreage allotments for trends in the acreage planted to extra long staple cotton in the counties during recent years (the period of years may include the year 1954 but shall not include the year 1949). The State committee may determine such adjustments by use of a formula which shall be applied uniformly to each county in the State.

(2) *To adjust computed county acreage allotments for counties adversely affected by abnormal conditions affecting plantings of extra long staple cotton.* The State committee shall, if necessary, use a part of the State acreage reserve to adjust the computed county acreage allotments for abnormal conditions adversely affecting plantings in the counties during the base years. The State committee shall examine the acreage planted to extra long staple cotton in the country in each of the base years to determine whether the acreage planted may have been adversely affected by abnormal conditions. In determining whether an adjustment should be made for abnormal conditions adversely affecting plantings in a county, the State committee shall take into consideration the following factors: (i) Abnormal weather conditions, such as floods and droughts during the planting season which caused plantings during such season to be abnormally low in comparison with normal; (ii) conditions in counties in which a number of farms are being returned to extra long staple cotton production or are increasing the acreage in extra long staple cotton after having been out of production or having been on a reduced level of such cotton production because such farms were used to a larger extent than normal in connection with air bases, defense plants and other wartime activities; (iii) abnormal reduction in planted extra long staple cottton acreage because of an unusual movement of labor from farms in the area or county to war industries or into the armed forces and the return of such labor as compared with such movements in other counties; and (iv) any other abnormal conditions which adversely affected plantings in the county to a greater extent than in other counties. In determining any adjustment under this subparagraph for abnormal weather conditions-the State committee shall take into consideration any adjustment made for abnormal weather conditions pursuant to paragraph (b) of this section.

(3) *To make adjustments in acreage allotments for small farms.* The State committee shall determine the acreage required from the State acreage reserve to supplement that part of the county acreage reserve established as provided for in subparagraphs (1) and (2) of § 722.1217 (e) to adjust indicated farm acreage allotments for old ELS cotton farms established at 15 acres or less under paragraph (c) or (d) of § 722.1217. The State committee shall determine the acreage, if any, to be made available to a county for the purposes of this subparagraph and such acreage shall be used by the county committee only for adjustments in small farm allotments.

(4) *To establish 1955 acreage allotments for new ELS cotton farms.* Where the State committee determines that the needs for acreage to establish acreage allotments for new ELS cotton farms are generally uniform in all designated

counties in the State, the State committee shall determine whether all the acreage required to establish acreage allotments for new ELS cotton farms shall be provided from the State acreage reserve or the county acreage reserve, or from both such reserves. In determining the source of acreage for new ELS cotton farms the State committee shall take into consideration the acreage requirements determined for such farms from the county surveys, if available, as provided for in § 722.1217 (e) (3). In States where new areas will be brought into extra long staple cotton production in 1955 or where it is determined by the State committee that the entire county acreage reserve for any county is needed for making adjustments pursuant to subparagraphs (1) and (2) of § 722.1217 (e), the State committee shall consider establishing an acreage from the State acreage reserve to supplement the acreage set aside by the county committee, if any, from the county acreage reserve for establishing acreage allotments for new ELS cotton farms. In determining the estimated acreage to be set aside for establishing fair and reasonable acreage allotments for new ELS cotton farms on the basis of the factors set forth in § 722.1217 (e) (3), the State committee shall take into consideration the experience of State and county committees in establishing acreage allotments for new ELS cotton farms under the 1954 marketing quota program and any other available information. The acreage made available to any county under this subparagraph shall be used by the county committee only for new ELS cotton farms.

(5) *To correct inequities in farm allotments and to prevent hardship.* The State committee shall determine the acreage required from the State acreage reserve to supplement that part of the county acreage reserve established, as provided for in § 722.1217 (e) (4), for making adjustments in farm acreage allotments to correct inequities and to prevent hardship.

(d) *Availability of data for inspection.* The following shall be on file and shall be available in the office of the State committee for examination by any interested producer of extra long staple cotton; (1) the amount of the State acreage reserve; (2) the formula, if any, and data developed and used under subparagraphs (1) and (2) of paragraph (c) of this section; and (3) the total acreage set aside from the State acreage reserve for the purposes set forth in subparagraphs (3), (4), and (5) of paragraph (c) of this section.

(e) *County acreage allotment.* The county acreage allotment shall be the sum of (1) the computed county acreage allotment determined under paragraph (b) of this section, and (2) the acreages from the State acreage reserve which are added to the computed county acreage allotment under subparagraphs (1) and (2) of paragraph (c) of this section. This paragraph will be amended at a later date to include the county acreage allotment established for each county.

(f) *Administrative areas.* If, in accordance with instructions issued by the Deputy Administrator, the county committee with the approval of the State committee, or if the State committee, determines with respect to a county in which farm acreage allotments are to be established under § 722.1217 (c) that, because of different conditions pertaining to the production of extra long staple cotton in separate areas of the county, including differences in types, kinds, and productivity of the soil, different areas of the county should be treated separately in order to prevent discrimination, each such area shall be designated as an administrative area and, insofar as practicable, each such area shall be treated as a county in determining the acreage allotment for the area and in establishing farm acreage allotments.

(g) *Apportionment of excess released acreage to counties.* The acreage allotment surrendered to the State committee pursuant to § 722.1217 (i) shall be apportioned by the State committee to counties on the basis of trends in acreage, abnormal conditions adversely affecting plantings, or for small or new forms or to correct inequities in farm allotments and to prevent hardship.

ESTABLISHMENT OF FARM ACREAGE ALLOTMENTS

§ 722.1217 *Apportionment of county acreage allotment*—(a) *Determination of method to be used in apportioning county acreage allotment among farms.* Section 344 (f) (2) of the act provides that the county acreage allotment, less the county acreage reserve, shall be allotted to farms by multiplying the adjusted cropland for each old ELS cotton farm by a uniform county (or administrative area) cropland factor (this method of establishing allotments will be referred to herein as the "cropland basis"). Section 344 (f) (6) of the act provides that if the county committee so recommends and the Secretary determines that such action will result in a more equitable distribution of the county allotment among farms in the county than would be the case if the cropland basis were used, the county acreage allotment, less the county acreage reserve, shall be apportioned to old ELS cotton farms in designated areas on the basis of the acreage planted to extra long staple cotton on the farm during the preceding three years, adjusted as may be necessary for abnormal conditions affecting plantings (this method will be referred to herein as the "historical basis"). The county committee shall study these two methods of apportioning the county acreage allotment among farms and determine which method should be used in order to establish equitable allotments for farms in the county. If the county committee determines that farm allotments should be determined on the historical basis, its recommendation to that effect should be forwarded to the State committee for transmittal to the Deputy Administrator. When § 722.1216 (e) is amended to include the county acreage allotment established for each county, the Secretary will designate the counties which have been approved by the Deputy Administrator for establishing farm allotments on the historical basis.

(b) *Determination of county acreage reserve.* The county committee shall establish a county acreage reserve of not in excess of 15 percent of the county acreage allotment which shall be used to adjust indicated farm acreage allotments for old ELS cotton farms determined under paragraph (c) or (d) of this section and to establish acreage allotments for new ELS cotton farms under paragraph (e) (3) of this section. The county acreage reserve shall be not less than 13 percent of the county acreage allotment for a county in which farm allotments are determined on the cropland basis and shall be not less than 10 percent of the county acreage allotment for a county in which farm allotments are determined on the historical basis, unless the county committee recommends a smaller acreage reserve and the State committee gives its approval in accordance with instructions issued by the Deputy Administrator. Any approval of a smaller acreage reserve shall be based upon a showing that such acreage is adequate, on the basis of the factors set forth in paragraph (e) of this section, to make necessary adjustments in indicated allotments for old ELS cotton farms and to establish allotments for new ELS cotton farms. The county acreage reserve approved by the State committee shall be not less than 8 percent for a county in which farm allotments are determined on the cropland basis and not less than 5 percent for a county in which farm allotments are determined on the historical basis, except that the Deputy Administrator may approve a smaller reserve for a county if he finds that the applicable minimum reserve of 8 percent or 5 percent would provide more acreage for adjustments and establishing new farm allotments than is needed in the county.

(c) *Indicated acreage allotments for old ELS cotton farms in counties where farm acreage allotments are determined on the cropland basis.* If farm acreage allotments are to be determined in the county on the cropland basis, the county acreage allotment, less the acreage reserved pursuant to paragraph (b) of this section, shall be used to determine indicated allotments for old ELS cotton farms as follows:

(1) *Determination of adjusted cropland.* The county committee shall, in accordance with instructions issued by the Deputy Administrator, determine an adjusted cropland acreage for each old ELS cotton farm by deducting from the cropland on the farm the sum of the following acreages:

(i) The 1954 acreage of sugarcane for sugar or for syrup and sugar beets for sugar;

(ii) The 1954 acreage of tobacco for market (or the 1954 farm acreage allotment, if any, for the applicable type of tobacco if the 1954 acreage has not been determined);

(iii) The 1954 acreage of peanuts picked and threshed, as adjusted by the county committee for abnormal conditions affecting such acreage;

(iv) The 1954 wheat acreage for market (including the acreage of wheat for feeding to livestock for market). In States in the commercial wheat-producing area for 1955, if the 1954 wheat acreage on the farm was reduced substantially below the 1954 farm wheat acreage allotment because of adverse weather conditions, the acreage to be deducted shall be the 1955 wheat allotment for the farm (less the acreage determined by the county committee to be used on the farm for home use other than for feeding to livestock for market). In the counties designated in subdivision (vi) of this subparagraph, the deduction for wheat acreage shall be limited to the acreage by which the deduction which otherwise would be made under this subdivision exceeds the acreage deducted under subdivision (vi) of this subparagraph;

(v) The acreage planted to rice in 1954 for market (including the acreage of rice for feeding to livestock for market), plus the acreage of other riceland on the farm for which water is available and which is not used for the production of cotton under the rotation system for the farm; and

(vi) In Cochise, Graham, Greenlee, Maricopa, Mohave, Pima, Pinal, Santa Cruz, and Yuma Counties, Arizona; and in Imperial and Riverside Counties, California; and in Dona Ana, Eddy, Luna Otero, and Sierra Counties, New Mexico; and in Brewster, Culberson, El Paso, Hudspeth, Jeff Davis, Loving, Pecos, Presidio, Reeves, Terrell and Ward Counties, Texas, the acreage of cropland in excess of that acreage for which acreage for which irrigation water is normally available and adequate from available facilities for the production of irrigated crops during the extra long staple cotton-producing season (seeding to maturity).

(2) *Determination of county cropland factors.* The first county cropland factor shall be computed by dividing (i) the county acreage allotment less the acreage reserved pursuant to paragraph (b) of this section) by (ii) the total of the adjusted cropland acreages determined for old ELS cotton farms in the county under subparagraph (1) of this paragraph. Second and additional county cropland factors shall be determined, if necessary, by dividing (i) the available county acreage allotment remaining after maximum indicated farm acreage allotments, as defined in subparagraph (3) of this paragraph have been determined for such old cotton farms by (ii) the total of the adjusted cropland acreages determined for old ELS cotton farms in the county under subparagraph (1) of this paragraph, which under the preceding factor were not affected by the maximum allotment provisions. The last county (or administrative area) cropland factor computed and applied shall be referred to herein as the "final county cropland factor".

(3) *Indicated farm acreage allotment.* An indicated acreage allotment shall be computed for each old ELS cotton farm under this paragraph by multiplying the adjusted cropland for each such farm by the applicable county cropland factor except that the maximum indicated acreage allotment for any such farm shall not exceed the highest acreage planted to extra long staple cotton on the farm in any of the years 1952, 1953, and 1954.

(d) *Indicated acreage allotments for old ELS cotton farms in counties where farm acreage allotments are determined on the historical basis pursuant to section 344 (f) (6) of the act.* In counties where the county committee recommends that the county acreage allotment, less the acreage reserved pursuant to paragraph (b) of this section, be apportioned among farms for the year 1955 on the historical basis and the Deputy Administrator approves such recommendation, an indicated acreage allotment for each old ELS cotton farm shall be determined by multiplying the allotment base for the farm by a factor determined by dividing the total of all such allotment bases into the county acreage allotment (less the acreage reserved pursuant to paragraph (b) of this section): *Provided*, That, if the county committee so elects, any such indicated farm acreage allotment shall not exceed an acreage equal to 50 percent of the cropland on the farm, and any part of the county acreage allotment not apportioned by reason of the application of such 50 percent limitation shall be added to the county acreage reserve established under paragraph (b) of this section and shall be available for the purposes specified in paragraph (e) of this section. For the purposes of this paragraph, the term "allotment base" means the average of the acreages planted to extra long staple cotton on the farm during each of the three years 1952, 1953, and 1954 (sum of the acreages divided by three), with such adjustment in the acreage for any year as may be necessary for abnormal conditions affecting plantings.

(e) *Use of county acreage reserve.* The county acreage reserve shall be used by the county committee as follows:

(1) *Adjustments in indicated farm acreage allotments of 5 to 15 acres.* Not less than 20 percent of the county acreage reserve shall, to the extent required, be used by the county committee to adjust indicated farm acreage allotments of 5 to 15 acres, inclusive, determined under paragraph (c) or (d) of this section. Such adjustments shall be made so as to establish acreage allotments which are fair and reasonable in relation to the acreage allotments established for similar farms in the community, taking into consideration for the farm the acreages planted to extra long staple cotton in 1952, 1953, and 1954; the land, labor, and equipment available for the production of such cotton; crop-rotation practices; the soil and other physical facilities affecting the production of such cotton; and abnormal conditions of production. The county committee shall not make adjustments so as to cause an acreage allotment to be established for any such farm (i) in excess of the acreage which could be planted to extra long staple cotton on the farm in 1955 consistent with sound crop-rotation practices followed in the community, (ii) in excess of the acreage which can be farmed with the labor and equipment currently or normally available on the farm, or (iii) which would cause extra long staple cotton to be planted on land unsuited for the production of such cotton.

(2) *Adjustments in indicated acreage allotments for other farms.* The remainder of the acreage in the county acreage reserve, after meeting or determining the requirements under subparagraphs (1), (3) and (4) of this paragraph, shall be used by the county committee to adjust indicated farm acreage allotments which are less than 5 acres or more than 15 acres. Such adjustments shall be made so as to establish acreage allotments which are fair and reasonable in relation to the acreage allotments established for similar farms in the community, taking into consideration for the farm the land, labor, and equipment available for the production of extra long staple cotton; crop-rotation practices, the soil and other physical facilities affecting the production of such cotton; and abnormal conditions of production. The acreages planted to extra long staple cotton on a farm in 1952, 1953, and 1954 shall be considered in determining the land, labor, and equipment available for the production of such cotton and in connection with the crop-rotation practices followed on the farm. The county committee shall not make adjustments so as to cause an acreage allotment to be established for any such farm (i) in excess of the acreage of extra long staple cotton which could be planted on the farm in 1955 consistent with sound crop-rotation practices followed in the community, (ii) in excess of the acreage which can be farmed with the labor and equipment currently or normally available on the farm, or (iii) which would cause extra long staple cotton to be planted on land unsuited for the production of such cotton.

(3) *Acreage allotments for new ELS cotton farms*—(i) *Determination of acreage needed for establishing acreage allotments for new ELS cotton farms.* The county committee, with the assistance of the community committees, shall estimate from county office records and other available sources of information the number of new ELS cotton farms in the county. In counties where farm allotments are established on the cropland basis, an estimate shall be made of the adjusted cropland acreage for new ELS cotton farms; and in counties where farm allotments are established on the historical basis, an estimate shall be made of the cropland on new ELS cotton farms. Such estimates shall be used by the State and county committees as a basis for determining the acreage that will be required for establishing acreage allotments for new ELS cotton farms. In determining the acreage from the county acreage reserve which is to be used for establishing acreage allotments for new ELS cotton farms, the county committee shall take into consideration the acreage, if any, to be made available from the State acreage reserve pursuant to subparagraph (4) of § 722.1216 (c) for establishing acreage allotments for new ELS cotton farms. The total acreage reserved for establishing allotments for new ELS cotton farms in the county, including any acreage allotted

to the county for new ELS cotton farms from the State acreage reserve, shall not exceed 75 percent of the total of the farm acreage allotments which the county committee estimates will be determined for the same number of old ELS cotton farms in the county which are similar except for the acreages planted to extra long staple cotton during the years 1952, 1953, and 1954.

(ii) *Eligibility of a new ELS cotton farm for a farm acreage allotment.* An acreage allotment for extra long staple cotton for a new ELS cotton farm may be established by the county committee in accordance with instructions issued by the Deputy Administrator if each of the following conditions is met:

(*a*) An application for such an acreage allotment is filed by the farm operator with the county committee by the closing date established by the State committee. In no event is the closing date to be earlier than February 15, 1955 (January 15, 1955 in Puerto Rico).

(*b*) The farm operator is largely dependent on income from the farm for his livelihood.

(*c*) The farm is the only farm in the county which is owned or operated by the farm operator or farm owner for which an acreage allotment for extra long staple cotton is established for 1955.

(iii) *Establishment of acreage allotments for new ELS cotton farms.* If the applicant's farm is eligible for an acreage allotment for extra long staple cotton, such allotment shall be established by the county committee on the basis of land, labor, and equipment available for the production of extra long staple cotton; crop-rotation practices; and the soil and other physical facilities affecting the production of such cotton. The acreage allotment so determined for any such farm shall not exceed the smallest of (*a*) the acreage allotment established for old ELS cotton farms in the county which are similar with respect to the foregoing factors, (*b*) the acreage allotment requested by the applicant, and (*c*) the indicated allotments established pursuant to paragraph (c) or (d) of this section for old ELS cotton farms in the county which are similar except for the acreages planted to extra long staple cotton during the years 1952, 1953, and 1954. The sum of the acreage allotments determined by the county committee for new ELS cotton farms shall not exceed the acreage reserves available for such farms under this subparagraph. The acreage allotments for new ELS cotton farms shall be subject to review and approval by the State committee, as provided in § 722.1226.

(4) *Adjustments in farm acreage allotments to correct inequities and to prevent hardship.* The county committee shall determine the acreage required from the county reserve to supplement any acreage allocated to the county from the State acreage reserve to correct inequities in farm allotments and to prevent hardship. Such reserve shall be used by the county committee where it determines that the farm acreage allotment established under other provisions of this section is inequitable or that such allotment would work undue hardship on the producers on the farm. Such reserve may also be used for establishing and adjusting farm acreage allotments as provided in paragraph (g) of this section.

(f) *Use of acreage allocated to county from State acreage reserve for adjusting allotments for small farms.* The acreage allocated to a county from the State acreage reserve for small farms shall be used by the county committee to adjust indicated farm acreage allotments of 15 acres and less for old ELS cotton farms on the basis of the factors set forth in paragraph (e) (1) and (2) of this section for adjusting small farm allotments.

(g) *Allotments for late and reconstituted farms and correction of errors.* The acreage reserve provided for in paragraph (e) (4) of this section shall be used by the county committee for the purposes specified therein and also for establishing allotments for old ELS cotton farms for which allotments were not established at the time allotments were originally established for old ELS cotton farms in the county because of oversight on the part of the county committee or because the county committee had no information or data with respect to acreage planted to extra long staple cotton on the farm in 1952, 1953, and 1954, for correcting errors in farm acreage allotments, and for use in establishing acreage allotments for farms which are divided or combined for 1955. Where reconstitutions of farms are made for 1955 after farm acreage allotments for 1955 are established prior to the referendum, the extra long staple cotton acreage histories and the acreage allotments for all such reconstituted farms shall be established as follows:

(1) If land which was constituted as a single farm in 1954 is divided into two or more tracts for 1955 (i) the acreages of extra long staple cotton on the farm in 1952, 1953, and 1954 (as shown in Col. (2), Cotton Table 2 for extra long staple cotton of the county committee's farm cotton acreage record), shall be divided among the tracts in proportion to the acreage of cropland on each tract, except that upon agreement by the owners and operators and approval by the county committee the acreages normally considered as riceland, wheatland and sugarcane land may be excluded from the cropland on each tract in apportioning the extra long staple cotton acreage history among the tracts: *Provided*, That, if two or more tracts of land were combined for 1953 or for 1954 to form the single farm and the single farm will be divided for 1955 into the same tracts of land, the extra long staple cotton acreage history for each such tract for any year in the farm base period prior to the combination will be restored to such tract, (ii) in counties where farm allotments are determined on the cropland basis the 1955 farm acreage allotment established for the single farm shall be apportioned among the tracts on the basis of the cropland used or which would be used for each such tract in apportioning the 1954 acreage of extra long staple cotton among the tracts pursuant to subdivision (i) of this subparagraph, (iii) in counties where farm allotments are determined on the historical basis the 1955 farm acreage allotment established for the single farm shall be apportioned among the tracts in proportion to the allotment bases determined for such tracts, and (iv) the sum of the 1955 allotments established for the several tracts shall not exceed the 1955 acreage allotment initially established for the single farm, except that the allotment determined under the foregoing provisions of this subparagraph for any farm consisting of such a tract or of which such a tract becomes a part may be (*a*) adjusted by the county committee with the reserve available to correct inequities and to prevent hardship, and (*b*) increased with released acreage available to the county committee.

(2) If two or more tracts of land are combined and operated as a single farm in 1955 the allotment established for such single farm shall be the sum of the allotments established for such tracts, except that the allotment for the single farm shall not exceed the maximum farm allotment if such allotment limitation is in effect in the county: *Provided*, That the allotment determined for such single farm under the foregoing provisions of this subparagraph may be (i) adjusted by the county committee with the reserve available to correct inequities and to prevent hardship and (ii) increased with released acreage available to the county committee.

(h) *Availability of reserves for inspection by interested producers.* The allocations to the county from the State acreage reserve and the total amount and the distribution of the county acreage reserve shall be available in the office of the county committee for examination by any interested producer of extra long staple cotton.

(i) *Release and reapportionment of extra long staple cotton acreage allotments.* Any part of any 1955 farm acreage allotment which will not be used in 1955 and which is voluntarily released to the county committee by the applicable closing date shall be deducted from the farm acreage allotment and may be reapportioned by the county committee not later than the applicable closing date to other farms receiving farm acreage allotments in the same county in amounts determined by the county committee to be fair and reasonable on the basis of past acreages of extra long staple cotton, land, labor, and equipment available for the production of extra long staple cotton, crop-rotation practices, and soil and other physical facilities affecting the production of such cotton. The State committee shall establish closing dates for purposes of the foregoing provisions for the entire State or for areas in the State if there is a substantial difference in planting dates for different areas in the State. The closing date so established for releasing farm acreage allotments shall be the date on which the planting of extra long staple cotton normally becomes general on farms in the State or area, and the closing date so established for reapportionment of such released acreage to other farms in the same county shall be the latest date on which extra long staple cotton can normally be planted on farms in the State or area with reasonable expectation of producing an average crop. If all of the allotted acreage voluntarily released is not needed in the county, the county committee may surrender the excess acreage to the State committee for reapportionment to counties as provided in § 722.1216 (g). Any farm acreage allotment released for 1955 only shall, in determining future farm acreage allotments for extra long staple cotton, be regarded as having been planted on the farm releasing such allotment if extra long staple cotton was planted on such farm in at least one of the years in the three-year farm base period, except that acreage released by the owner or operator of a new ELS cotton farm will not be regarded as planted on such farm unless a part of such allotment is retained and extra long staple cotton is planted on the farm in 1955. Any part of any farm acreage allotment may be permanently released in writing to the county committee by the owner and operator of the farm, and reapportioned as provided in this paragraph. In determining future farm acreage allotments, the planting in 1955 of reapportioned acreage allotments shall not be considered. For the purpose of determining future State and county acreage allotments, reapportioned acreage will be credited to the State and to the county in which such acreage was planted. Notwithstanding the foregoing provisions of this paragraph, the county committee shall not accept a release of a farm acreage allotment permanently or for 1955 only if (1) such release is opposed by a person whom the county committee determines will subsequently have an interest in the farm as owner or operator, or (2) the county committee determines that the farm is being acquired for governmental or other public purposes.

(j) *Apportionment of surrendered acreage allocated to county by State committee.* The acreage apportioned to the county under paragraph (g) of § 722.1216 may be used for establishing and adjusting farm acreage allotments for new ELS cotton farms or small farms or to correct inequities and to prevent hardship in accordance with the provisions of paragraphs (e) and (f) of this section.

FARM MARKETING QUOTA AND FARM MARKETING EXCESS

§ 722.1218 *Notice of farm acreage allotment and marketing quota.* Immediately after farm acreage allotments in a county or other local administrative area are established and approved by the State committee pursuant to § 722.1226 (a), the county committee shall mail to the operator of each such farm a written notice of the farm acreage allotment and marketing quota for the farm. The county committee shall also mail to the operator of each new ELS cotton farm for which application for an allotment is made but for which it is determined that no farm acreage allotment and marketing quota will be established, a similar written notice showing "None" as the acreage allotment and marketing quota established for the farm. The notice shall contain at or near the top thereof the following statement: "To all persons who as operator, landlord, tenant, or sharecropper will be interested in the extra long staple cotton produced on the farm for which this acreage allotment and marketing quota are established." Notice so given shall constitute notice to all such persons. Such notice shall also contain a brief statement of the procedure whereby application for review of the marketing quota may be made under section 363 of the act. A copy of each notice, containing a notation thereon of the date of mailing the notice to the operator of the farm, shall be kept among the permanent records of the county committee, and upon request a copy thereof, duly certified as a true and correct copy, shall be furnished without charge to any person who as operator, landlord, tenant, or sharecropper is interested in the extra long staple cotton produced in 1955 on the farm for which the notice is given. Insofar as practicable, the notice for each old ELS cotton farm shall be prepared and mailed to the operator so as to be received prior to the referendum on December 14, 1954, to determine whether producers of extra long staple cotton favor or oppose marketing quotas for the 1955 crop. Notwithstanding the foregoing provisions of this section, where it is impracticable or impossible to use the United States mail to serve the producer in Puerto Rico with the notice provided for herein, use shall be made of such other method of service as is available; however, when such other method is used the county committee shall make provision for keeping an accurate record of the date and method of delivery to the producer of any such notice.

§ 722.1219 *Amount of the farm marketing quota.* The farm marketing quota for any farm for the 1955 crop of extra long staple cotton shall be the actual production of extra long staple lint cotton on the farm less the farm marketing excess.

§ 722.1220 *Amount of the farm marketing excess*—(a) *Where the acreage planted to extra long staple cotton is determined.* The farm marketing excess for the 1955 crop of extra long staple cotton shall be the normal production of the acreage of extra long staple cotton on the farm in excess of the farm acreage allotment. Where it is established by any producer on the farm in connection with an application filed by him or by any other producer on the farm, in accordance with regulations to be issued under this part by the Secretary, that the actual production of extra long staple cotton on the farm in 1955 is less than the normal production of the acreage planted to such cotton on the farm in 1955, the farm marketing excess shall be adjusted downward to the amount by which such actual production exceeds the normal production of the farm acreage allotment.

(b) *Where the acreage planted to extra long staple cotton is not determined.* Whenever the determination of the acreage planted to extra long staple cotton on the farm is prevented by the farm operator, the farm marketing excess shall be the total number of pounds of extra long staple cotton produced in 1955 on the farm. In the event the farm operator or any other producer on the farm establishes, in accordance with regulations to be issued under this part by the Secretary, the total number of pounds of extra long staple cotton produced in 1955 on the farm, the farm marketing excess shall be the number of pounds of extra long staple cotton produced in 1955 on the farm in excess of the normal production of the farm acreage allotment.

§ 722.1221 *Publication of farm acreage allotments and marketing quotas.* One copy of each notice of the farm acreage allotment and marketing quota for farms in a county shall be placed in binders or folders, or in lieu thereof a listing of such allotments shall be prepared, and such notices or listing shall be kept freely available in the office of the county committee for public inspection for a period of not less than thirty calendar days. At the end of such period the copies of the notices or the listing shall be filed in the office of the county committee and remain readily available for further public inspection. If the county is divided into administrative areas, separate binders, folders, or listings shall be prepared and made available for inspection for each administrative area.

§ 722.1222 *Successors-in-interest.* Any person who succeeds to the interest of a producer in a farm, or in a crop of extra long staple cotton, or in extra long staple cotton for which a farm marketing quota and farm marketing excess were established, shall, to the same extent as his predecessor, be entitled to all the rights and privileges incident to such marketing quota and marketing excess and be subject to the restrictions on the marketing of such cotton.

§ 722.1223 *Marketing quotas not transferable.* A farm marketing quota is established for a farm and, except as specifically provided for in the regulations in this subpart, may not be assigned or otherwise transferred in whole or in part to any other farm.

MISCELLANEOUS PROVISIONS

§ 722.1224 *Acreage planted to extra long staple cotton*—(a) *Adjustment of acreage planted in excess of farm acreage allotment.* If the acreage determined to be planted to extra long staple cotton on a farm in 1955 is in excess of the farm acreage allotment, the farm operator may, not later than a date established under instructions issued by the Deputy Administrator, adjust such planted acreage to the farm acreage allotment. The date established under such instructions shall afford farm operators a reasonable time for making such adjustments.

(b) *Underplanting the farm acreage allotment.* For any farm on which extra long staple cotton is planted in 1955 and the acreage of such cotton in 1955 is less than the 1955 farm acreage allotment by not more than the larger of 10 percent of the allotment or one acre, an acreage equal to the farm acreage

allotment would work undue hardship graph, (iii) in counties where farm the latest date on which extra long

quota established for the farm. The farm operator, the farm marketing ex- an acreage equal to the farm acreage

allotment shall be deemed to be the acreage planted to such cotton on the farm in 1955, and the additional acreage added to the extra long staple cotton acreage history for the farm shall be added to the extra long staple cotton acreage history for the county and State. The Deputy Administrator shall issue such instructions as are necessary for making the calculations required under this paragraph, taking into consideration the provisions of § 722.1217 (i).

(c) *No credit for overplanting the farm acreage allotment.* Any acreage planted to extra long staple cotton in 1955 in excess of the farm acreage allotment for the 1955 crop of such cotton shall not be taken into account in establishing State, county, and farm acreage allotments for the 1956 and subsequent crops of such cotton.

§ 722.1225 *Availability of records.* The State and county committees shall make available for inspection by owners or operators of farms receiving extra long staple cotton acreage allotments, all records pertaining to such cotton acreage allotments and marketing quotas.

§ 722.1226 *Approval of county committee determinations and redelegation of authority by the State committee.* The State committee shall review all acreage allotments and may revise or require revision of any determinations made under §§ 722.1217 to 722.1224. All acreage allotments for both old and new ELS cotton farms shall be approved by the State committee, and no official notice of farm acreage allotment and marketing quota shall be mailed to a farm operator until such allotment has been approved by the State committee.

(b) *Redelegation of authority.* Any authority delegated to the State committee by the regulations in §§ 722.1211 to 722.1227 may be redelegated by the State committee.

REVIEW OF QUOTAS

§ 722.1227 *Review of quotas*—(a) *Review committees.* Any producer who is dissatisfied with the farm acreage allotment or marketing quota established for his farm, or in the case of a new ELS cotton farm with the action of the county committee in refusing to establish a farm acreage allotment or marketing quota for such farm, may, by making application within 15 days after the mailing to him of the notice provided for in § 722.1218, have such allotment, quota, or determination reviewed by a review committee composed of three farmers appointed by the Secretary. The review committee shall, upon proper application, review the action of the county committee. The review committee in determining any farm acreage allotment or marketing quota shall, to the same extent as the county committee, be limited to the establishment of a farm acreage allotment or marketing quota in an amount which, under the Act and regulations, should have been established. Unless such application is made within 15 days, the original determination of the farm acreage allotment or marketing quota shall be final. All applications for review shall be made in accordance with the marketing quota review regulations issued by the Secretary, a copy of which may be obtained from the county committee.

(b) *Court review.* If the producer is dissatisfied with the determination of the review committee, he may, within 15 days after notice of such determination is mailed to him by registered mail, institute proceedings against the review committee to have the determination of the review committee reviewed by a court in accordance with Section 365 of the Act.

NOTE: The reporting and record-keeping requirements contained herein have been approved by the Bureau of Budget in accordance with the Federal Reports Act of 1942.

Done at Washington, D. C., this 4th day of November 1954. Witness my hand and the seal of the Department of Agriculture.

[SEAL] TRUE D. MORSE,
Acting Secretary.

[F. R. Doc. 54-8829; Filed, Nov. 8, 1954; 8:52 a. m.]

Chapter VIII—Commodity Stabilization Service (Sugar), Department of Agriculture

Subchapter G—Determination of Proportionate Shares

[Sugar Determination 850.8]

PART 850—DOMESTIC BEET SUGAR PRODUCING AREA

PROPORTIONATE SHARES FOR 1955 CROP

Pursuant to the provisions of section 302 of the Sugar Act of 1948, as amended (herein referred to as "act"), the following determination is hereby issued:

§ 850.8 *Proportionate shares for farms in the domestic beet sugar area*—(a) *National acreage and State acreage allocations.* A national acreage objective for 1955-crop sugar beets of 850,000 acres is hereby established and allocated to States as follows:

State:	Acres
California	182,410
Colorado	130,715
Idaho	79,715
Illinois	2,095
Indiana	30
Iowa	1,545
Kansas	7,255
Michigan	81,420
Minnesota	66,035
Montana	50,980
Nebraska	58,720
New Mexico	770
North Dakota	34,600
Ohio	20,220
Oregon	17,685
South Dakota	5,365
Texas	1,590
Utah	30,545
Washington	30,795
Wisconsin	12,865
Wyoming	34,645
Total	850,000

(b) *Instructions and forms.* The Director of the Sugar Division, Commodity Stabilization Service, U. S. Department of Agriculture (herein referred to as "Director") shall cause to be prepared for issuance such forms and instructions as are necessary for carrying out the regulations of this section. The instructions shall be approved and issued by the Deputy Administrator for Production Adjustment, Commodity Stabilization Service, U. S. Department of Agriculture (herein referred to as "Deputy Administrator").

(c) *Proportionate shares.* The proportionate share of the 1955 crop of sugar beets for a farm shall be the acres established for the farm pursuant to this section within the allocation specified in paragraph (a) of this section for the State in which the base of operations for the farm is located.

(d) *Administration of proportionate shares program.* In each State the Agricultural Stabilization and Conservation State Committee (herein referred to as "State Committee") shall establish individual farm proportionate shares in accordance with paragraph (h) of this section and instructions issued by the Deputy Administrator. In carrying out the proportionate share program within the State, the State Committee may utilize the services of members of Agricultural Stabilization and Conservation county and community committees and may cooperate with advisory committees consisting of sugar beet growers, representatives of sugar beet grower associations, representatives of sugar beet processors or combinations of these groups. The State Committee shall formulate bases and procedures in written form for establishing proportionate shares within the State in accordance with the provisions of this section. Such bases and procedures shall be reviewed by the Director for conformity with the provisions of this section and to assure reasonable uniformity between adjoining areas in adjacent States, shall become effective upon approval of the Director and shall be published in the FEDERAL REGISTER. Copies shall be available for public inspection in State and county offices.

(e) *Requests for proprotionate shares.* Any person desiring a proportionate share for a farm to be operated by him during the 1955-crop season shall file a written request therefor. A form for this purpose may be obtained from local Agricultural Stabilization and Conservation county offices, from fieldman of sugar companies, or from such other source as the State Committee may designate. The State Committee shall publicize directions for filing such requests, the places where they may be filed and the closing date for filing as established by the State Committee.

(f) *Set-aside acreage for new producers and appeals.* Not less than one percent of the State acreage allocation shall be set aside for establishing proportionate shares for farms operated by new producers and not less than an additional one percent shall be set aside for adjustments under appeals.

(g) *Subdivision of State acreage allocation.* Before establishing individual farm proportionate shares, the State Committee may subdivide the State acreage allocation into allotments for

areas within the State, such as an area served by a beet sugar company, a county, or a group of counties. In making any such subdivision, appropriate weightings, approved by the Director, shall be given to the past production of sugar beets and the ability to produce sugar beets. "Ability" shall be measured by the area's largest planted acreage during any of the crop years 1950 through 1954. "Past production" shall be measured by the average planted acreage of the area for not less than three crop years during the period 1950 through 1954, except that if the State Committee determines that the period 1950 through 1954 is not representative for the area, a longer period may be used upon prior approval of the Director. Subject to the provisions of paragraph (a) (2) of this section, unused acreage may be reallotted by the State Committee among the aforementioned areas within the State. If the State acreage allocation is not subdivided, proportionate shares will be established directly from such allocation.

(h) *Establishment of individual proportionate shares.* (1) (i) In establishing individual farm proportionate shares from area allotments or from the State allocation, the State Committee shall consider the factors of past production of sugar beets and ability to produce sugar beets. These factors will involve the application of a formula to the record of production of sugar beets on the farm during not less than three crop years in the period 1950 through 1954, except that if the State Committee determines that the period 1950 through 1954 is not representative for the area, a longer period may be used upon prior approval of the Director. However, if the farm operator is a tenant in an area where sugar beet production is organized around tenant-operators rather than around units of land, production may be measured by the personal sugar beet production record of the farm operator within such area during such selected years or the State Committee may use a combination of farm and such personal production records. Any formula selected by the State Committee shall be submitted to the Director for approval.

(ii) The acreages resulting from the application of such formula for individual farms shall be adjusted pro rata by the percentage relationship between the total acreage to be allotted and the total acreage resulting from the use of the formula. The resulting acreage for each farm shall then be adjusted by the State Committee to the extent determined by it to be necessary to establish a proportionate share for the farm which is fair and equitable as compared with proportionate shares for all other farms in the locality by taking into consideration availability and suitability of land, area of available fields, availability of irrigation water, adequacy of drainage, availability of production and marketing facilities and the production experience of the operator.

(2) Redistribution of unusued proportionate share acreage: Adjustments in proportionate shares may be made throughout the 1955-crop season within the State acreage allocation in accordance with procedures established by the State Committee to offset general underplanting and failure to plant: *Provided*, That in case of a disagreement between farm operators and a sugar beet processor with respect to the sugar beet purchase contract to be effective in the settlement area, or where no company offers a contract to growers to cover fully the shares established for their farms, the shares allotted to the farms operated by such growers shall not be reduced unless the affected growers voluntarily agree to reductions in their respective proportionate shares, or unless because of unusual circumstances and for good cause the State Committee determines that such shares should be reduced.

(3) New producers: Within the acreage set aside for new producers from the State acreage allocation pursuant to paragraph (f) of this section and other unused acreage that the State Committee determines should be used for new producers, proportionate shares shall be established in an equitable manner for farms which are to be operated by new producers during the 1955-crop year. In determining proportionate shares for farms which are to be operated by new producers, the State Committee shall take into consideration suitability and area of available land, availability of equipment for the production of sugar beets, availability of irrigation water, availability of marketing facilities, and the production experience of the operator. For the purposes of this section, the term "new producer" shall mean a farm operator on a farm without record of sugar beet production for the period of years selected by the State Committee for establishing proportionate shares except that such term shall not include a tenant (including an owner who is also a tenant) whose personal sugar beet production record will be considered under subparagraph (1) of this paragraph. Any acreage set aside for new producers and not requested and any acreage allotted to new producers and remaining unused shall be available for distribution to other farms.

(4) Small producers, cash tenants, share tenants, and sharecroppers: In establishing proportionate shares, the State Committee shall, insofar as practicable, protect the interests of small producers and the interests of producers who are cash tenants, share tenants, or sharecroppers.

(i) *Notification of proportionate shares.* Farm operators shall be notified in writing on behalf of the State Committee of the proportionate shares established in response to their requests, even if the acreage established is "none", and such notices shall explain the appeal procedure specified in paragraph (j) of this section.

(j) *Appeals.* A farm operator who believes that the proportionate share established for his farm pursuant to this section is inequitable may file a written appeal for reconsideration of such proportionate share at the local Agricultural Stabilization and Conservation county office, not later than the date established therefor by the State Committee. The appeal shall be accompanied by a statement of facts constituting the basis for such appeal. The appeal shall be reviewed and forwarded with recommendations to the State Committee. The State Committee shall review the appeal, and any increase in the proportionate share approved by the State Committee by reason of the appeal shall be within the acreage set aside for appeals pursuant to paragraph (f) of this section and any other acreage remaining unused within the State allocation. The State Committee shall notify the operator in writing as soon as possible regarding its decision in the case. If the farm operator is dissatisfied with the decision of the State Committee, he may appeal in writing to the Director, whose decision shall be final. In acting upon the appeal, the State Committee or the Director shall consider only such matters as under the provisions of this determination are required or permitted to be considered by such Committee in the establishment of the farm proportionate share to be reviewed.

STATEMENT OF BASES AND CONSIDERATIONS

Sugar act requirements. As a condition for payment, section 301 (b) of the act requires compliance with the proportionate share established for the farm. In the domestic beet sugar area, the term "proportionate share" is the individual farm's share of the total acreage of sugar beets required to enable the producing area to meet its quota (and provide a normal carryover inventory) as estimated by the Secretary for the calendar year during which the larger part of the sugar from such crop normally would be marketed.

Section 302 (a) of the act provides that the amount of sugar with respect to which payment may be made shall be the amount of sugar commercially recoverable from the sugar beets grown on a farm and marketed (or processed by the producer) for sugar or liquid sugar not in excess of the proportionate share established for the farm.

Section 302 (b) provides that in determining the proportionate share for a farm the Secretary may take into consideration the past production on the farm of sugar beets marketed (or processed) for the extraction of sugar or liquid sugar and the ability to produce such sugar beets, and that the Secretary shall, insofar as practicable, protect the interests of new producers and small producers, and the interests of producers who are cash tenants, share tenants, or sharecroppers.

General. Restrictive proportionate shares are required when the indicated sugar supply for an area will be greater than the quantity needed to fill the quota and provide a normal carryover inventory for such area.

The sugar extracted from each crop in the beet sugar area is normally marketed during two calendar years. Since the processing of the crop in most of the beet sugar factory districts usually begins in the month of October, only a minor portion of the total sugar extracted from a crop is marketed during the balance of the calendar year.

The yield of beets per acre and the outturn of sugar per ton of beets of the 1953 crop far exceeded estimates made at

the beginning of harvest. Although the marketing of beet sugar was accelerated during the final weeks of 1953, the total production of 1,873,000 tons resulted in an effective carryover inventory on January 1, 1954, of 1,444,000 tons (stocks of beet sugar actually on hand plus the sugar to be produced from the remainder of the 1953 crop). Since the 1953-crop production exceeded the quota of 1,800,000 tons for the beet sugar area and producers were indicating a desire to increase planting for the 1954 crop, steps were taken early in 1954 to invoke marketing allotments for individual sugar beet processors to promote orderly marketing of the quota. Moreover, various actions were taken by the Department to encourage producers and processors to curtail the 1954 production to the quota level. Despite the exercise of considerable restraint in many producing districts, the 1954-crop acreage will exceed the acreage of the 1953 crop by about 18 percent. Current estimates indicate that production of sugar from the 1954 crop may reach 2,000,000 tons. Accordingly, it is estimated that the effective carryover inventory at the end of 1954 will be about 200,000 tons larger than that at the beginning of the year. This situation requires the curtailment of the 1955 crop.

Acreage control. The need for curtailment of the 1955 crop was recognized early in the current crop season. The Department encouraged industry representatives to develop an industry control program for the 1955 crop and assisted in developing a proposed plan. When the attempt to provide for industry controls failed, the Department proceeded to develop a restrictive proportionate share program under the Sugar Act. A proposal was developed and forwarded to industry groups on August 12, 1954, providing for a review of the problem and consideration of the proposal at an informal public hearing in Denver, Colorado, on August 23. Grower associations, processors and field offices of the Department were represented at the hearing, at which general approval of the Department's proposal was expressed. In developing this determination, consideration was given to the testimony presented at the hearing, to the written statements filed thereafter, to the varied conditions under which sugar beets are grown and processed, and to the indicated beet sugar production and inventory situation.

Production objective. With an estimated effective carryover inventory of sugar on January 1, 1955 of approximately 1,650,000 tons, only about 150,000 tons of 1955-crop sugar can be marketed in the calendar year 1955. The production of a 1955 crop of quota size (1,800,000 tons) will result in a similar carryover on January 1, 1956. Since the average production per planted acre for the crops of 1952, 1953 and 1954 (estimated) is 2.2 tons of sugar, raw value, and since some proportionate share acreages may not be used, an allocation of 850,000 acres is required to yield a crop of quota size. Accordingly, a national production objective of 850,000 acres is established by the determination. The production from such acreage should enable the area to meet its quota and carryover requirements. At the hearing the Department proposed possible allocations of 900,000 and 875,000 acres. Various representatives of the industry recommended that "not more than 875,000 acres" be allocated. However, the increase in the estimated 1954-crop production since the hearing requires a lower acreage objective.
